nformation That Will Help You

lease Read Carefully!

his booklet contains the schedule of courses for Summer 1999 cluding evening, off-campus, and distance learning courses. serves both undergraduate and graduate students.

cademic Advising

on't risk delaying your graduation by taking the wrong classes in the wrong order—**see your academic advisor before ou select classes.** If you don't know who your advisor is, see age 9 and call the appropriate department or the advisor for our college.

chedule Book Changes

is course schedule book contains information in existence at e time of publication. The University reserves the right to ake necessary changes at any time in costs, policies, adminis- ative procedures, and applicable state and federal laws. It ay be necessary for modifications to be made in the location, eeting times, and listed teachers of courses. See current ting of available sections at **http://www.mtsu.edu/~records/ hedule.html or WebMT.**

otes - Specific Course Information

ome courses have special restrictions as noted in this schedule ok and/or catalog. Please remember that you are responsible r being aware of these requirements when you register. Also e schedule notes at **http://www.mtsu.edu/~records/ hedule.html.**

iolations

ansactions made through TRAM and WebMT are monitored. cess is controlled by a personal access code (PAC) and the udent's social security number. Unauthorized use to alter or tempt to alter another student's personal access code or class hedule may result in disciplinary actions including suspension termination. Reserving seats in classes for those who have ter registration appointment times is prohibited and may sult in suspension or termination for all students involved.

When IS Registration?

Priority Registration is April 5-16. Selection of classes is almost continuous once Priority Registration begins. Remember, the earlier you select your classes, the more likely you are to get the classes you want. If you are a current student, check the top right corner of your personal data form (PDF) for your date and time to register. You may register then or anytime thereafter during registration. Note on the TRAM and WebMT menus that you can do much more than register. If you lose or did not receive your PDF, access TRAM or WebMT for your assigned time.

When ARE Fees Paid?

The deadline for paying fees depends on when you choose your classes. You can pay or confirm that you will attend via TRAM, in person, or by mail. If your balance is a credit or zero, you can confirm you will attend on WebMT. Remember, if you receive any kind of financial aid or if your fees are paid by someone else (for example, your employer, a governmental agency, or through a graduate assistantship), the fee deadline is also your deadline for notifying the Business Office that you plan to attend (confirmation options on the TRAM and WebMT menus). **If you don't meet the deadline that corresponds to the time you selected classes, your class schedule will be deleted.**

When DO I Register?

Current students are assigned a specific date and time to register during Priority Registration April 5-16.

New undergraduate students will be permitted to register beginning April 17. Follow the instructions received in the acceptance letter from Admissions.

Former students (not enrolled Spring '99) readmitted for Summer '99 will receive registration clearance from Admissions. **New Summer '99 graduate students** will receive registration clearance from Graduate Studies. Classes can be selected as indicated.

Important Dates for Summer Sessions 1999

TRAM and WebMT hours - 7:00 a.m. - 11:00 p.m.!!!

(except on fee payment deadline dates)

Registration Help Line - (615) 898-5094

	Graduation, Murphy Center
August 23	Fall '99 classes begin

OTE: Courses are offered for sessions other than Sessions I-IV to accommodate special needs of some students. See departmental *ourses.*

TRAM or WebMT???

Two Ways to Register for Classes (and more)!!!

In addition to TRAM, you can register for classes via the Internet on our WebMT system. You can drop or add classes, also. In fact, you can perform the same functions on WebMT that you can on TRAM (except pay fees by credit or check card).

Now you can view course offerings, your grades, an entire transcript, your account balance, registration holds, your class schedule for the semester, and a degree audit. Everything you have been **hearing** on TRAM you can now **see** on WebMT and you can print the information from your computer.

Should you use TRAM or WebMT? It depends. During Priority Registration TRAM may be somewhat faster for class selection. However, when classes begin, WebMT will be more accessible than the TRAM lines. If you are seeking classes that are available only on specific days or at specific times, WebMT allows you to narrow the search by entering those parameters on the screen.

NEW SUMMER CLASS TIMES!!

Standard class times have changed for Sessions II, III, and IV. New class times in Sessions II and IV allow 20 minutes between classes. New class times in Session III allow 15 minutes between classes. For further information, see course listings by department.

Registration Help Line
(615) 898-5094

Continuous Registration Using TRAM or WebMT

7 days a week • 7 a.m.-11 p.m.

TRAM - 898-2000 (on campus dial 9-898-2000)

WebMT - http://www.mtsu.edu

Registration Help Line - (615) 898-5094

Attention: You must be admitted to the University prior to registering for classes.

Once registration for Summer Term begins, it is anticipated that the telephone and web registration system will be available seven days a week from 7 a.m. until 11 p.m. for students to register, drop/add, inquire about classes, etc. (See calendar on pages 4-5 for specific dates and times.) **There will be a few days when the systems are not available due to bill processing, posting of grades, and census reporting. Every effort is made to have them available as indicated. However, unscheduled interruptions may occasionally occur.**

Students enrolled or re-enrolled prior to April 17 are assigned a specific time to register and may register at that time or anytime **thereafter**. Current students who have not received a PDF may call TRAM or access WebMT for their registration times. Students who attempt to register before their appointment time will be informed of their assigned time. New students may register beginning April 17 following acceptance from Admissions.

Course Selection Procedures

1. **Consult your academic advisor about proper course selection.**
2. Complete worksheet found in the back of this book.
3. Register on TRAM or WebMT. Using a touch-tone telephone, call (615) 898-2000 (or 9-898-2000 if on campus). This is not a toll-free number. (TRAM is unavailable via some on-campus courtesy phones.) Or you may access WebMT at www.mtsu.edu at your assigned time

Registration Tips

1. Complete the worksheet found in the back before registering. Be prepared with a schedule that includes accurate call numbers and alternate sections/courses. You are responsible for registration fees for all classes added when fee is appropriate.
   NOTE: There is a time-out period if a selection is not made.
2. **Students having a hold on their records may drop courses but may not add a course until the hold is cleared.** Check the status of courses you wish to add before dropping other courses from your schedule. If possible, add before dropping courses. (This may not be possible in time-conflict or overload situations.)
3. If you do not plan to attend MTSU this term and you wish to drop from ALL classes, call TRAM or access WebMT by May 10.
4. **Students required to get a departmental permit or authorization must register for the course after approval is granted by the department.**
5. **After the term begins on May 11:** If you are dropping a class and adding another class **within the same session**, the drop and the add must be processed **before selecting a different session. The system cannot exchange the fees from the dropped class for the added class unless they are processed at the same time.** Fee exchanges are only allowed for classes dropped and added **within the same session on the same day.** The refund policy will be applied for a drop and add not within the same session.

   After your initial registration is finalized, if you add a class and decide not to attend the class, you must drop it from your schedule. Otherwise, you will be charged for the class and will be assigned a grade of F for non-attendance. You will not be automatically dropped from that class by the Business Office. Your fees will be adjusted based on the refund policy in effect on the date of your drop. Please refer to the drop/add refund deadlines in the calendar on pages 4-5.
6. Other questions are answered on page 24.

**Your PAC (Personal Access Code) is a confidential number that will be used for all future transactions. PACs will not be issued to a third party.*

TRAM - 898-2000 (9-898-2000 on campus)
WebMT - http://www.mtsu.edu

Deadlines for Adding, Dropping, Withdrawing, Refunding

Session	Last Day to Register (late fee charged) Classes begin	Last Day to Add	Deadlines for Refunds			Deadline to Drop or Withdraw Without a Grade	Deadline to Drop or Withdraw With a Grade of W
			100%	75%	25%		
I	May 11	May 12	May 10	May 12	May 14	May 13	May 17
II	May 31	June 1	May 30*	June 3	June 7	June 7	June 14
III	May 31	June 3	May 30*	June 7	June 16	June 14	June 29
IV	July 6	July 7	July 5*	July 9	July 13	July 13	July 21
V	May 11	May 12	May 10	May 17	May 24	May 19	May 31
VIII	May 11	May 17	May 10	May 21	June 1	May 31	June 21

REFUND NOTE: Refunds for courses running for odd dates will be prorated per TBR policy. Fee exchanges are only allowed for classe dropped and added within the same session on the same day. The refund policy listed above for each session will be applied for a drop an add not within the same session.

WITHDRAWAL NOTE: Beginning May 11, withdrawals from all summer term classes must be processed at the Office of the Associate Dea of Student Life, KUC 130, (615) 898-2808.

These represent Sunday or holiday **drop refund deadlines. Please note that **withdrawals** for these sessions must be processed on the **Frida** **before** these dates by 4:30 p.m. at the Office of the Associate Dean of Student Life, (615) 898-2808, to receive a 100% refund.*

Graduating Seniors and Graduate Students, Please Note:

To graduate in August 1999, Intention to Graduate forms must be submitted by June 1, 1999.

If you plan to attend MTSU the term following graduation, you must file a re-enrollment form in either the Admissions Office or Graduate Office, depending on your student status.

How Can I Determine Progress Toward Completion of My Degree?

All undergraduate students who enrolled at MTSU in the Fall 1995 term or since are sent a degree audit statement just before priority registration each fall and spring term. The statement is mailed to the campus post office box of those students who have a box and to the permanent address of those without a post office box.

Courses and/or other graduation requirements not yet completed are listed to assist you in planning your class schedule for the upcoming registration. Advisors have access to the degree audit information on their computers. You may also access this information on the internet from the WebStudent Main Menu (www.mtsu.edu) or from one of the InfoMT kiosks located on campus.

Notice to All Students Placed on Academic Suspension After Grading

All students suspended at the end of a term who have pre-regi tered for classes will have their schedules deleted for the pr registered term(s). Undergraduate suspended students who wis to appeal to attend the Summer term must contact the Recor Office, Cope Administration Building 106, for an appeal applic tion. The completed application must be returned to the Recor Office by 4 p.m., May 24, 1999; otherwise the appeal will n be accepted.

Graduate students must contact the College of Graduate Studie Cope Administration Building 114, for an appeal application. Th completed application must be returned to the College of Grad ate Studies by 4:00 p.m. on May 13; otherwise, the appeal w not be accepted.

NO SHOTS— NO REGISTRATION

Distance Learning

MTSU offers distance learning classes taught by various delivery methods. Distance Learning sections are taught on-line (internet/e-mail), by compressed video, correspondence, telecourse, and by video/data conference. Further details may be found in the back under Distance Learning on page 97.

MTSU and TSU Educational Consortium

Middle Tennessee State University and Tennessee State University have joined in an educational consortium to provide cross-registration opportunities for **undergraduate** students enrolled at each institution. MTSU students desiring to register for TSU courses should follow the procedures below.

1. Obtain an "Agreement for Admission and Registration Form" from MTSU Admissions Office, Cope Administration Building 208.
2. Complete top of form.
3. Have appropriate personnel certify accuracy of data on form.
4. Register for MTSU courses; pay fees.
5. Present form to Admissions and Records personnel at TSU.
6. Register for courses at TSU, and present MTSU receipt; pay additional fees to TSU if any.

The two consortium advisors or appropriate members of their staffs will provide information to ease in the transition and registration between institutions.

Enrolling at MTSU

Becoming a student is a four-step process:

1. Admission or Readmission
2. Academic Advising
3. Class Selection by TRAM or WebMT
4. Pay Fees or Confirm That You Will Attend

---

1. Admission or Re-admission

ndergraduate

TUDENTS IN RESIDENCE during Spring 1999 will be mailed
PERSONAL DATA FORM (PDF) for registration for the summer
cademic term.

ORMER STUDENTS who were not in attendance during Spring
999 **must complete a re-enrollment form.** Registration infor-
ation along with specific information concerning selection of
asses will be mailed to those students re-entering Summer 1999.

LL NEW STUDENTS, including part-time students, **must com-
lete their admissions credentials and be accepted for ad-
ission.** General information, registration materials, and new
udent registration information will be mailed to all accepted
udents. Applications may be sent during registration, but large
umbers of last minute applications will cause processing delays.

To better serve you...

It is important that the Admissions Office personnel have sufficient time to process your application for admission to the University; therefore, persons applying for admission on May 10, 1999, or after may be requested to select classes during the late registration period.

l first-time degree-seeking freshmen under age 21 must
esent official ACT scores prior to admission. The ACT exami-
ation is available on the MTSU campus by contacting the Coun-
ling and Testing Center, Keathley University Center 329, or by
lling 898-2670. Additionally, ACT composite and mathematics
d English sub-scores will be used to identify students requiring
ademic Assessment and Placement Program (AAPP) assessment
r purposes of placement. Minimum requirements are that ap-
icants under 21 years of age

whose ACT composite score is 18 or lower must complete the AAPP Reading Comprehension test.

whose ACT mathematics sub-score is 18 or lower must take the appropriate AAPP mathematics tests as determined by level of high school preparation in mathematics.

3. whose ACT English sub-score is 18 or lower must complete the AAPP Writing Sample.

First-time freshmen who are 21 years of age or older on May 11 or transfer students without previous English or math course work will be required to participate in an additional testing program prior to registration. This additional testing program will help in course placement and may result in requiring some students to enroll in developmental courses as additions to their degree programs.

Students admitted with high school unit deficiencies in English and/or math must complete the appropriate AAPP test, be advised by an academic advisor, and register to take appropriate course(s) upon enrollment to remove deficiencies. **Developmental Studies courses and courses taken to remove deficiencies do not count toward the required hours to earn a degree.**

Questions concerning undergraduate residency should be directed to the Admissions Office in Cope Administration Building 208 prior to registering for classes.

Note to transient students: Registration at MTSU includes prerequisite checking which may require validation of course completion. Students who are prevented from enrolling in a course due to a prerequisite, but have completed the prerequisite at another university, should present a transcript to the academic department of the requested course.

Graduate

A POST-BACCALAUREATE STUDENT may receive graduate status by completing a graduate admissions application and submitting it to the College of Graduate Studies, 114 Cope Administration Building. Once graduate status is declared (application entered on computer), a student is eligible to enroll in graduate courses at MTSU and registration materials will be mailed (personal data form and schedule book). The granting of graduate status does not necessarily mean that one has been admitted to a graduate program. In most cases, the total number of graduate hours in which a student may register prior to admission into a graduate program is limited to 12 (6 in Elementary and Special Education). Curriculum and Instruction majors in Elementary Education must meet with an advisor prior to enrolling in graduate classes. Students pursuing an M.Ed. in Administration and Supervision or an Ed.S. in Administration and Supervision or in Curriculum and Instruction in the Educational Leadership Department must be admitted to the program prior to registration for course work. Students pursuing an M.Ed. in Curriculum and Instruction in the Educational Leadership Department must be admitted to the program prior to the completion of 6 hours credit. Students applying to degree programs in Business Administration, Accounting, or Information Systems who have not met admissions requirements cannot take graduate courses but may enroll in undergraduate prerequisites.

A student must file a re-enrollment application if he/she breaks continuous enrollment (except summer term). If granted, the student may re-enroll for the identified term.

For non-degree-seeking post-baccalaureate students, readmission is generally routine and is granted by the dean of the College of Graduate Studies. For degree-seeking students, readmission is not guaranteed. Each graduate program may have a specific readmission policy; students should contact the appropriate department for information. Readmission requires the recommendation of a representative of the graduate program and approval by the dean of the College of Graduate Studies. Some graduate programs regularly allow readmission if the "stop-out" period is no more than one year; others are more restrictive.

AN ADVANCEMENT TO CANDIDACY FORM must be filed and approved prior to completion of 24 credit hours or earlier if required by the graduate program (Criminal Justice 16 hours). Business majors must complete this form upon acceptance into the program. The candidacy form must be approved by the graduate advisor and the dean of the College of Graduate Studies.

Graduate residency questions should be directed to the Graduate Office, Cope 114. See page 10 for the phone number of the graduate liaison for your program

2. Academic Advising

Undergraduate

Students enrolled during the Spring Term 1999 should consult their advisors prior to registration. New students will receive their acceptance notification and a list of advisors who can help them select classes.

Advisors are not required to sign the worksheets; however, all students should obtain their advice before scheduling classes.

Graduate

If you are a degree-seeking student not yet admitted to the graduate program of your choice, upon receiving graduate status you may register for classes. Please contact an advisor prior to registration and submit all admissions materials as soon as possible. If you have not been admitted to a graduate program, registration will **not** be allowed once you reach the maximum hours allowed by the graduate program. (See above.)

If you are a degree-seeking student admitted to a graduate program, please contact your assigned advisor prior to registration. You must consult with your graduate advisor during your first semester to formulate your curriculum to be assured that the courses you take will apply to your program requirements.

If you are a non-degree-seeking student, not all graduat courses are open to you. Non-degree-seeking students cannc enroll in graduate courses in the College of Business without pric approval by the director of Graduate Business Studies. Non-degree-seeking students are blocked from enrolling in 700-leve courses. Consult with the department for specific information.

3. Class Selection by TRAM and WebMT

A Personal Data Form will be mailed to all students enrolled Sprir 1999 prior to Summer 1999 registration. The PDF is mailed t the MTSU Post Office box for all full-time students and part-tin students who live on campus and have a box or to the permanent address for those who do not have a box. **Your date an time to register is printed on the top right corner of yo PDF. Current students who do not receive a PDF before Pr ority Registration should access TRAM or WebMT or co tact the Scheduling Center.** You cannot select classes if a d partment has placed a hold on your registration. Be sure to r solve that obligation before registration. **Students who owe ar money to the University must clear debts before registr tion will be allowed.**

Appointment Times

Since all students cannot register at the same time, it is necessa to establish priorities in the assignment of registration times. F currently enrolled students, times are based on the number cumulative hours earned. Since registration occurs before tl end of the term, appointment times do not reflect hours attempt during the current term. If you attempt to register before yo assigned time, the registration system will remind you when register.

Course Availability Informatio

Open sections of courses and changes and additions are updat periodically on MTSU's web pages and take precedence ov information appearing in this schedule of classes. Consult t InfoMT kiosks and the web at **http://www.mtsu.edu/~recorc schedule.html or via WebMT.**

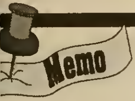
Night and Off-Campus Classe

Registration: It is not necessary to travel to the campus to reg ter for classes. Please select classes by calling TRAM at (615) 89 2000 on any touch-tone telephone or by accessing our web r istration system at www.mtsu.edu. Refer to specific instructic for registration on page 7 of this book.

Off-Campus Registration: Students taking MTSU courses tl do not meet on the MTSU campus should register by TRAM WebMT. Fee payment deadlines and late registration fees a ply to all students. **(See Late Registration on page 14.) O campus courses can be found on page 105.**

4. Pay Fees/Confirm You Will Attend

ee Payment information is also available at ttp://www.mtsu.edu/~bursarmt



Important Changes for Summer 1999 Fee Payment and Financial Aid Disbursement

Fee Payment Deadline: May 7, 1999

Two options will be available for students to pay fees on May 7.

- **Business Office cashier windows,** Cope Administration Building, 8 a.m. - 4:30 p.m.
- **TRAM payment by credit card,** 7 a.m.-4:30 p.m.

Financial aid refund checks will be disbursed on Thursday, May 13.

Refund checks will be disbursed beginning on the **third day of class.** Checks will be available for students enrolled in Session I classes on Thursday, May 13, at the Business Office in the **Cope Administration Building** from 9 a.m. to 5:30 p.m.

Students can sign up to have their financial aid refund direct deposited to their bank checking or saving accounts. Direct deposits will be available beginning May 10-11 for students enrolled in Session I classes. *(See Direct Deposit on page 16.)*

PC 191A students can register beginning April 21. See page 15.

or Summer Priority Registrants: ee Payment Deadline for ll Sessions Is Friday, May 7, 1999

uring the last week of April 1999, the Statement of Accounts/ ass Schedules for students who pre-register for Summer 1999 ll be mailed to the permanent addresses.

udents who want their bills mailed to an address other than eir permanent addresses should come to the Business Office efore April 15 to set up a special billing address.

you have not received your bill by April 30, contact the Bursar's ffice at (615) 898-2761 or come by the Business Office, Cope dministration Building 103. Failure to receive a bill does not lieve students of the obligation to pay fees by the due date.

The Statement of Account should be reviewed carefully to make sure all information is correct. Any changes after the billing date on the statement will change the balance due. If there are questions about your account balance, use the ***Determine Account Balance*** option on the TRAM Fee Payment/Confirmation Menu or access WebMT to determine your current balance before payment is mailed.

Students who pre-registered for Summer 1999 can pay fees by **credit card or check card on TRAM or in person at the Business Office April 28-May 7. Payments can be made by campus mail and drop box April 28-May 6. Mailed payments must be postmarked no later than May 4, 1999.**

If fees are paid in full by cash, check, or credit card, your registration is finalized. **It is not necessary to also confirm on TRAM. Your payment is your confirmation.**

Fees for all summer sessions must be paid in full before 4:30 p.m. on Friday, May 7, or **your schedule will be deleted from the computer.** That means that if you want to take classes, you have to start the process of selecting courses all over again. You will be charged a $25 late registration fee if you register after classes begin. See page 14. **The classes previously selected will not be reinstated.**

If your fees are paid in full by financial aid, third party, graduate assistantships, or other credits, you must complete the registration process by confirming that you will be attending MTSU for Summer 1999. **To confirm/complete your registration, call TRAM or access WebMT and select the *Confirm You Will A attend* option in the Fee Payment/Confirmation Menu. See the menus in the back of this schedule book. Calling and listening to your classes does not complete registration; you MUST select the *Confirm You Will Attend* option. This will ensure that a code is entered in the computer to hold your classes. If your registration is not completed and a code entered in the computer before 4:30 p.m. on Friday, May 7, 1999, your schedule will be deleted from the computer.**

All students who priority register for classes and decide not to attend MTSU should call TRAM or access WebMT by May 10 at (615) 898-2000 to drop all classes from their record. Beginning May 11, withdrawals (from all summer classes) must be processed by contacting the Office of the Associate Dean of Student Life.

Fee Payment/Financial Aid Confirmation Options

1. **TRAM: April 28 - May 7, 1999**

   Credit card or check card payment of registration fees by telephone. You can make either credit card or check card payments with Visa or MasterCard on TRAM. Most banks have check cards available through Visa or MasterCard which can be used on TRAM to pay registration fees. Call TRAM at (615) 898-2000 to pay registration fees by credit card or to use your bank check card to deduct the amount of your fees from your checking account. Try this TRAM feature for the most convenient payment method available.

2. **TRAM or WebMT: April 28 - May 7, 1999**
Confirm registration. You must confirm you will attend if fees are paid in full by financial aid, third party, or other credits. **Your balance after financial aid is credited must be ZERO or a credit balance to confirm your registration. See the menus in the back of the book. Select the *Confirm You Will Attend* option. When you select this option, the system will enter a code in the computer to hold your classes and validate your registration. This option will be available through May 7 for students who pre-registered. It will also be available during all other registration fee payment periods during the summer.**

3. **Mail-in payment: April 28 - May 4, 1999**
Payment for the exact amount of fees due must be accompanied by the Business Office copy of the statement. **Payments must be mailed in time to be postmarked on or before May 4, 1999.**

4. **Campus Mail: April 28 - May 6, 1999**
Payment can be mailed at the campus post office in Keathley University Center or at the blue Campus Mail Drop Box in the parking lot at the west end of the Cope Administration Building. **Do not put payments in Campus Mail or the drop box on May 7.**

5. **In person: April 28 - May 7, 1999**
Fees may be paid at the Business Office cashier windows in the Cope Administration Building by bringing the student ID and BOTH copies of the Statement of Account/Class Schedule. Office hours are 8 a.m. to 4:30 p.m. weekdays. Students must bring student IDs with them to pay registration fees.

Fee Payment/Confirmation Deadlines

Course Selection	Fee Payment/Confirmation Deadline
April 5 - May 7	May 7, 4:30 p.m.
May 8-12	May 12, 5:30 p.m.
May 13 - June 3	June 3, 5:30 p.m.
June 4 - July 7	July 7, 5:30 p.m.

Classes selected will be deleted from the computer unless registration fees are paid in full or registration confirmed by the fee payment deadlines stated above.

You must make payment at the Business Office or call TRAM to make payment by credit card or check card before the fee payment deadline. **Mailed payments must be mailed in time to be received before the applicable deadline.** Classes cannot be reinstated for payment received after the stated deadlines.

Credit card or check card payment of registration fees can be made on TRAM from April 28 - July 7 anytime TRAM is operational. TRAM is normally available seven days a week 7 a.m.-11 p.m. except on stated fee payment deadlines and dates specified in the calendar on pages 4-5.

Late Registration Procedures

Session	Late Registration	Fee Payment/ Confirmation Deadline
I, V, VIII	May 11	May 12, 5:30 p.m
II, III	May 31	June 3, 5:30 p.m.
IV	July 6	July 7, 5:30 p.m.

Fees will be payable at the Business Office Cashier Win dows, Cope Administration Building, by the due dates show above. A $25 late fee will be charged if class selection is mad on or after the first day of class for that session.

Graduate students who are not registered for the current terr and who wish to register after the deadline must receive ap proval from the department housing the program and the dea of the College of Graduate Studies.

Deferred Payment Plan

The deferred payment plan is not available during the summe term. **This plan is only available during the spring and fal**

Payment Methods

1. **Personal check or money order.** Checks should be mad payable to Middle Tennessee State University and includ the student's social security number on the face of the checl

2. **Visa or MasterCard.** Credit card or check card paymen can be made by telephone. Call TRAM at (615) 898-200 (9-898-2000 on campus) to pay registration fees by cred card or to use your bank Visa or MasterCard check card.

3. **Cash.** Cash can be taken only at the Business Office Casl ier Windows, Cope Administration Building. **Do not ma cash.**

4. **Financial Aid, Stafford or Direct Loan Credits, or Est mated (pending) Financial Aid.** If your bill shows you fees will be paid in full by financial aid, **you must confirı you will attend** before the fee payment deadline or you class schedule will be deleted. ***(See How Do I Confirm?***

5. **Perkins or MTSU loan checks.** If your loan is approved will show on your bill as estimated aid. **All Perkins loa borrowers must come in person and sign promissoı notes before Perkins loan funds can be released.** Coı firm registration as soon as you get your bill, then come sign notes and endorse checks at the Business Office (Cop 101) on the first day you attend class.

6. **Loan checks - PLUS loans from banks and Stafford loaı from banks that do not send funds by EFT.** If your lend sends loan funds in the form of a ***paper check,*** your loa will not be available by the fee payment deadline on Ma 7. If you are scheduled to receive a PLUS or Stafford loa *check* that must be used to pay fees and your loan does n show as estimated aid, go to the Financial Aid Office l May 5. You will need a deferment to hold your classes un your check is available. Refund checks will not be disburse

until the first day you attend class for that session. **If your bill shows your fees will be paid by other aid and you can confirm your registration, wait until the first day you attend class to pick up your check.**

'. **Employee Fee Waivers.** PC 191 participants may register April 21 - May 7. **Fee waiver forms will not be honored for classes selected before April 21.** After class selection, completed fee waiver forms must be submitted **in person** to the Business Office (Cope Room 103) by May 7. **Classes will be dropped if forms are not received by 4:30 p.m. on May 7.** Students who register after May 7 must submit form by the next applicable fee payment deadline.

i. **Reduced Rate Registration (Senior Adult/Permanently Disabled).** Under T.C.A. Section 49-7-113, a student 60 years of age or older or permanently disabled may audit courses with no tuition charge. A student 65 years of age or older or permanently disabled may take classes for credit at a reduced rate of one-half the semester hour rate up to a maximum of $75.00. Registration under these programs is on a space-available basis. Therefore, **senior/adult permanently disabled participants cannot priority register.** Class selection under these programs should be processed on the **first day of class for the session.** After class selection, authorization memos should be brought in person to the Business Office, Cope Administration Building 103, before the fee payment deadline below. The late registration fee for these program participants will be waived.

Summer 1999
Senior Adult/Permanently Disabled Fee Waivers

Summer Session	Class Selection	Turn in Fee Waiver Forms and Pay Fees by
I	May 11	May 12, 5:30 p.m.
II	May 31	June 3, 5:30 p.m.
III	May 31	June 3, 5:30 p.m.
IV	July 6	July 7, 5:30 p.m.
V	May 11	May 12, 5:30 p.m.
VIII	May 11	May 12, 5:30 p.m.

How Do I Confirm?

f fees are paid by cash, check, or credit card, your registration is 'alidated or finalized. **It is not necessary to also confirm on 'RAM or WebMT. Your payment is your confirmation. Stulents must either pay, confirm, get a deferment, or lose heir classes.**

f fees are paid in full by financial aid, Federal Stafford loans, ederal Direct loans, third party, or other credits, you must comlete the registration process by confirming that you will attend ATSU for Summer 1999. To confirm you will attend MTSU **his term and validate your registration, access TRAM or VebMT April 28-May 7, 1999, and do the following:**

On TRAM, *select 3 for the* ***Fee Payment Confirmation Menu;*** *then select option 1 to* ***Confirm Your Registration.***

On WebMT, select the ***Account Balance/Confirm Registration*** menu, select ***Confirm Registration,*** then select ***Confirm Summer 1999.***

ee the menus on page 109. Listening to or reviewing your classes oes not complete registration; you MUST select the ***Confirm our Registration*** option. When you select this option, the system will enter a code into the computer to hold your classes. **If in doubt, try the process again, and the system will tell you if your registration has been confirmed.**

If your registration is not confirmed and a code entered in the computer before 4:30 p.m., May 7, 1999, your class schedule will be deleted. Financial aid refunds cannot be processed until confirmation is completed.

If you decide not to attend MTSU after confirming, you must withdraw from the University. See withdrawal information on page 19.

Financial Aid/Loans

Please read the following instructions carefully if you have applied for financial aid for Summer '99. If your financial aid has been approved, ***Estimated Aid*** (or pending aid) will show on your bill. (See detailed explanation below.)

Estimated aid will not show for PLUS loans from banks or for Federal Stafford loans from banks that are not an MTSU approved electronic fund transfer (EFT) lender. *Note: If you choose a lender that is not an EFT lender, your bank will send loan funds in the form of a paper check. See No. 6 (Loan Checks) above.*

If your bill shows your fees will be **paid in full** by financial aid and/or ***Estimated Aid***, you must **confirm** you will attend MTSU this term and finalize your registration **before May 7, 1999, at 4:30 p.m. or your class schedule will be deleted. (*See How Do I Confirm?*)**

If fees will not be paid in full by the financial aid credits, the **balance due** on your bill **must be paid** before **May 7, 1999, at 4:30 p.m. You will be dropped from your classes if the balance due is not paid.**

If you expect to receive financial aid for the term, but awards are not on your bill, contact the Financial Aid Office at (615) 898-2830 before May 5 so that problems can be resolved before the fee payment deadline. Financial Aid deferments can only be issued to students who have a Student Aid Report (SAR) with a valid Estimated Family Contribution (EFC) on file.

You may also call TRAM at (615) 898-2000 or access WebMT to check your account balance to determine if an award or loan has been credited to your account after your bill was printed. If your balance due is zero or a credit, you should confirm you will attend on TRAM or WebMT. *(See* ***How Do I Confirm?****)*

What Is Estimated Aid?

If financial aid credits show on your bill under ***Estimated Aid*** (pending aid), these are the amounts of Federal Stafford loans guaranteed, Direct Loans, Perkins Loans, scholarships, grants, or awards that have been approved for Summer 1999. The actual aid will not be credited to your account until immediately prior to the start of classes and/or until **all required paperwork is completed.**

All Perkins Loan borrowers must come in person and sign promissory notes before Perkins Loan checks can be released. Confirm registration as soon as you get your bill, then come to the Business Office, Cope 101, to sign notes on the first day you attend class.

Estimated Aid is for **billing and confirmation purposes only.** It is not actual aid. It has not been credited to your account. It is **pending aid. If for some reason your actual aid is not processed after you are registered** or if you withdraw or otherwise become ineligible before actual aid is applied to your account, **you will still be responsible for unpaid fees.** Some of the reasons your actual aid may not be credited are that you do not sign your promissory note, you drop below the required number of hours, you become academically ineligible, you do not make satisfactory academic progress, you do not complete all required paperwork, or you do not have your entrance interview.

If you are a freshmen first-time borrower whose Stafford or Direct Loan has been approved, the ***Estimated Aid*** on your bill will include the amount of your loan disbursement that must be held for 30 days.

If you have applied for a Summer-only Stafford or Direct Loan, the estimated aid will include the second disbursement. These funds **will not be available until after the disbursement dates on the promissory note.** Refund checks for the second disbursement will be available beginning July 9.

LOANS—
Federal Stafford, Federal Direct, PLUS, Perkins, and MTSU

You must be registered at least **half-time** to be eligible to receive loan funds **(6 undergraduate hours or 5 graduate hours).**

First-time borrowers and **transfer students** must have an **entrance interview** before Federal Stafford and Federal Direct loan funds can be credited to your accounts. A feature available on TRAM will allow first-time loan borrowers and transfer students to complete their **loan entrance interview by phone.** (See the menus on page 109.) If you have not had an entrance interview, be sure to complete this requirement on TRAM to prevent your loan disbursement from being delayed. Do this as soon as possible after you apply for your loan.

If you are a freshmen receiving a Federal Stafford or Federal Direct loan for the first time, your loan funds must be held for 30 days after you begin class. If your loan does not show on your bill as an ***Estimated Aid*** credit, you should make arrangements to pay your fees with either a check or credit card until the loan proceeds can be released. **Freshmen should be prepared to buy books with their own funds.**

Bank Loans - Electronic Fund Transfer (EFT)

Federal Stafford Loans from **EdSouth, First American, First Tennessee Bank, First Union,** and **SunTrust** are electronically transferred directly to MTSU. Several other lenders send their loan funds electronically through Sallie Mae.

Based on federal regulations, bank loan funds cannot be transferred in time for the EFT loan credits to show on the bill you receive the last week in April. If you have returned your signed promissory note to your bank and your loan has been guaranteed, **your approved loan will show as Estimated Aid.**

When **loan proceeds are received** electronically from your bank, your loan will automatically be **transferred to your student account** to pay Summer 1999 registration fees, ***provided*** you are **registered** at least **half-time,** have had your **entrance interview,** have made **satisfactory academic progress,** have no **financial aid holds,** and are otherwise eligible to receive the loan. You must access TRAM or WebMT to confirm.

Refund checks will be disbursed beginning the third day you attend class for that session. Refunds will be available on May 13 only if you are registered in Session I, V, or VIII classes.

How Do I Get My Financial Aid CREDIT BALANCE REFUND?

If you have a credit balance due to financial aid, you must ***confirm you will attend*** on TRAM or WebMT before your refund can be direct deposited or your refund check can be processed Confirm as soon as possible after you receive your bill. **(See *How Do I Confirm?*)**

Refunds should be direct deposited to your checking or savings account. Direct deposit refunds for students enrolled in Sessions I, V, or VIII who meet all other eligibility requirements and whose aid is credited to their accounts by May 7 will be available in their bank accounts on May 10 or 11. See below for dates for other sessions.

If you do not sign up to have your refund direct deposited to your checking account, you can pick up your refund check at the Business Office on May 13 if you are registered for Session I, V, or VIII classes. See below for dates to pick up refund checks for other sessions.

Summer 1999
Refund Disbursement Dates

Refunds will be available for students enrolled in:

Session	**Beginning Date**	
	Direct Deposits Available	**Refund Checks Available**
I, V, VIII	May 10-11	May 13
II, III	May 31	June 2
IV	July 6	July 8
Second disbursement	July 7	July 9

***NOTE: You must have an MTSU ID card to pick up any refund check. NO EXCEPTIONS.** If you do not have an ID, one can be made on the track level of Murphy Center.*

Direct Deposit of Financial Aid Credit Balance Refunds

Avoid the lines! Save time! Get your refund two or three days before you can pick up a check!
Use the form on page 108 to sign up now!

Students who have a credit balance due to financial aid may have the excess aid balance direct deposited into their checking or savings accounts. If you apply for your financial aid early, make satisfactory academic progress, have no financial aid holds, confirm your registration, and meet all other requirements, your refund should be in your checking account two or three days before you can pick up a refund check. If you have a problem, you can still come and pick up your check in person.

If financial aid has been credited to the student's account by May 7, the refund will be deposited into the student's bank ac count and available for use on May 10 or 11 if the student is enrolled in a Session I, V, or VIII class and provided the student has met all financial aid eligibility requirements and has completed all required paperwork. **Students must *confirm they will attend* before their refunds can be direct deposited.**

Students must complete an authorization form at least 14 days prior to the day their first deposit is made. For the Summer term, the cut off date is April 29 for the refund to be available on May 10 or 11. Financial aid proceeds will not be transferred to the student's banking account without authorization. To obtain an authorization form, come by the Business Office in Cope Administration Building, Cashier Window 9, or Room 103, or call (615) 898-5716. You can also obtain a Direct Deposit Authorization Form from the web at **http://www.mtsu.edu/~bursarmt/direct.html.** Forms for Summer can be turned in anytime during the spring term prior to April 29. This authorization will remain in effect until terminated by the student.

Sign up for Direct Deposit and try the most convenient way to get your refund.

Financial Aid Satisfactory Academic Progress Policy

Middle Tennessee State University requires students receiving financial aid to make satisfactory academic progress toward completion of their degrees. Federal and state assistance programs also have similar satisfactory academic progress requirements.

Satisfactory academic progress will be determined by the following criteria:

1. Students must pass sixty-six (66) percent of their attempted cumulative MTSU credit hours to remain eligible for financial aid. Attempted hours include all courses for academic credit. A withdrawal from a course is considered as hours attempted if a student falls below full-time status.
2. Students who withdraw from the University or who do not earn any credits during a semester will have their financial aid suspended immediately.
3. Students are required to meet the following GPA standards:

00-29.99 hours attempted	1.5 GPA
30.00-49.99 hours attempted	1.8 GPA
50.00 or more hours attempted	2.0 GPA

   Graduate students must maintain at least a 3.0 GPA.

4. Maximum hour limitation on aid:
   a. Students may continue to receive aid through the attempting of 150 percent of the hours required for a degree. For undergraduates this is 198 and for graduate students normally 45 hours. Students returning for a second bachelors degree must notify the Financial Aid Office of the hours required for the degree they seek. Students who attempt over 150 hours must complete a satisfactory progress appeals form each semester letting the office know of their progress toward graduation.
   b. Credits transferred from other institutions will be included in the maximum hours attempted for a degree.
   c. MTSU will comply with all limitations on aid in the programs it administers.
5. Appeals. Students who do not meet the satisfactory progress criteria after two semesters are placed on financial aid probation. During the probation period, a student is eligible to receive financial aid, but future financial aid will be held until all grades are posted for the probation semester. If satisfactory progress is not made while on probation, financial aid will be denied for one semester. However, an appeal can be made to the Financial Aid Office for extenuating circumstances. Appeal forms are available in the Financial Aid Office. Students who return after being suspended from financial aid are placed on probation for subsequent semesters until they meet satisfactory progress requirements. When students fail to meet the requirements, they are suspended again until they file a satisfactory progress appeals form. The student is required to explain why satisfactory progress has not been maintained and what has changed to enable progress to be met. The form along with any documentation will be reviewed by the financial aid academic progress committee. Students who are suspended from financial aid will be sent a letter with the committee's decision.

Third Party Sponsorship of Fees

If you are a sponsored student (fees to be billed to an employer, government agency, or foreign embassy, or paid through a graduate assistantship), your account should reflect credits for the fees to be paid by your sponsor. If your statement does not show these credits, contact your sponsor to determine if authorization paperwork has been sent to the Business Office, or **bring a fee authorization form to the Business Office during the early fee payment period.** Payment, whether by check or by third party authorization, is required by the due date or your class schedule will be deleted.

If your fees are PAID IN FULL BY THIRD PARTY or through a graduate assistantship (your balance is ZERO or a CREDIT BALANCE on the statement you will receive), you MUST **confirm that you will attend before the fee payment deadline or your class schedule will be deleted. *(See How Do I Confirm?)***

Returned Checks

Returned checks are subject to a $20.00 fine per check returned. Registration checks returned may result in a late registration fee of $25.00. The University does not redeposit returned checks. Any student who pays registration fees with a check which is subsequently dishonored by a bank will be administratively withdrawn and dropped from all classes if that check is not redeemed immediately with cash, money order, cashier's check, or certified check.

"NO MORE CHECKS"-"CASH ONLY" STATUS

The privilege of making payments for fees and charges by personal check and check-cashing privileges at Phillips Bookstore will be revoked for any student who has had more than one returned check within a twelve-month period for a period of one (1) year from the date the last check is redeemed.

Any student who was previously coded "NO MORE CHECKS" and has another check returned will have all check writing privileges at the University permanently revoked.

If your Statement of Account/Class Schedule says "CASH ONLY," **send payment only with a certified check, money order, or credit card authorization. Do not pay your fees with a per-**

sonal check. Your personal check will be returned to your post office box or **permanent** address, and your schedule will be deleted unless proper payment is received before the fee payment deadline.

A student paying in person will not be permitted to pay registration fees by check if any previous check in payment of registration fees has been returned. Students on a "NO MORE CHECKS"-"CASH ONLY" status should be prepared to pay registration fees with cash, cashier's check, certified check, or by authorized charge card draft.

Registration and Other Fees

NOTE: Fees are charged per hour for all classes. NO maximum applies for summer registration fees.

Summer 1999 Fees
Sessions I-VIII

The fee schedule below contains totals for registration and required fees only. These totals do not include housing, meals, books, etc.

Hours	Undergrad. Tenn. Residents	Undergrad. Out-of-State Residents	Grad. Tenn. Residents	Grad. Out-of-State Residents
1	$117	$328	$161	$372
2	$219	$641	$307	$729
3	$321	$954	$453	$1,086
4	$423	$1,267	$599	$1,443
5	$525	$1,580	$745	$1,800
6	$627	$1,893	$891	$2,157
7	$729	$2,206	$1,037	$2,514
8	$831	$2,519	$1,183	$2,871
9	$933	$2,832	$1,329	$3,228
10	$1,035	$3,145	$1,475	$3,585
11	$1,137	$3,458	$1,621	$3,942
12	$1,247	$3,779	$1,775	$4,307
13	$1,347	$4,090	$1,919	$4,662
14	$1,440	$4,394	$2,056	$5,010
15	$1,533	$4,698	$2,193	$5,358
16	$1,598	$4,974	$2,302	$5,678
17	$1,683	$5,270	$2,431	$6,018
18	$1,768	$5,566	$2,560	$6,358

Student Registration Fees	**Per Hour**
In-state Residents	
Undergraduate	$85.00
Graduate	$129.00
Out-of-State Residents	
Undergraduate	$296.00
Graduate	$340.00
Debt Services Fee	$4.00/hr.
Technology Access Fee	$8.00/hr
Student Activity Fee	$5.00/hr.

Charges for all course work will be assessed by course level. All fees are subject to change by the Tennessee Board of Regents.

Postal Services Fee (non-refundable) (Required of all students registering for 12 hours or more)	$8.0
Recreation Activity Fee (Required of all students)	$15.0
ID Card Replacement	$10.0

Dorm Rent

Housing	Room	Apartment
Sessions I, II, III, IV, V	$697.00	$790.00
Session I only	$161.00	$182.00
Session III	$536.00	$608.00
Session II or IV	$268.00	$304.00
Session I and II or IV	$429.00	$468.00

Family Housing Rent (June and July)
One-bedroom - $840.00
Two-bedroom - $956.00

Late Registration (non-refundable)
Late registration fee of $25.00 will apply starting on the first da of class for each session: Session I, V, and VIII - May 11; Session II and III - May 31; Session IV - July 6.

Debt Service Fee
This fee is a required part of registration fees. The money is applied to the retirement of bonds issued to build student servic buildings such as Murphy Center, Keathley University Cente and the Recreation Center.

Technology Access Fee
This is a required fee for support of additional technology services for students such as computer labs and access to networks.

Student Activity Fee
This is a required fee to support the expansion and renovation o campus facilities.

Recreation Activity Fee
This is a required fee to support staffing and operating expense for the student recreation center.

Application Fees

New Freshman and Transfer Students (One-time non-refundable application fee must be submitted wit initial undergraduate application to MTSU.)	$15.0
Re-enrollees (Application fee is not required for former students who apply t re-enroll as undergraduate students.)	
Graduate Students (One-time non-refundable application fee must be submitted wit initial application for each graduate degree level.)	$25.0
International Students (Graduate or undergraduate)	$30.0

Graduation Fees (non-refundable)

Associate Degree	$25.0
Baccalaureate	$30.0
Master and Specialist	$35.0
Doctorate	$45.0

ost Office Boxes (non-refundable)
ost office boxes are required for all students registered for 12 ours or more. **After completing registration and fee payment,** art-time students may obtain a postal box upon payment of $8.00 t the campus post office. A validated class schedule and fee pay-nent receipt indicating that you are a student must be presented n order to obtain a box.

efunds on Course Work
he amount refunded is determined by the date withdrawals are repared by the Office of the Associate Dean of Student Life or he date Drop/Adds are processed.

he amount of refund students will receive is as follows:

. A 100% refund to students who complete Priority Registration by paying fees, but then withdraw through the Office of the Associate Dean of Student Life according to the schedule on page 8.

. A 75% refund to students who withdraw from school by 4 p.m. or drop classes according to the schedule on page 8.

. A 25% refund to students who withdraw from school by 4 p.m. or drop classes according to the schedule on page 8.

OTE: Refund for courses running for odd dates will be proated per TBR policy.

Vithdrawals and drops must be processed on or before the dates iven on page 8 to be eligible for refunds. See the current unergraduate or graduate catalog for additional information.

Vithdrawals
you do not plan to attend MTSU this term and wish to withdraw om ALL classes you selected, access TRAM at 898-2000 or VebMT. Withdrawals can be processed by TRAM or WebMT rough May 10. Beginning May 11, if you decide to withdraw om classes, contact the Office of the Associate Dean of Student ife at (615) 898-2808. Refund deadlines are listed on page 8 nd in the calendar. Failure to comply will result in an automatic rade of F which will be recorded on the student's permanent ecord.

General Information

Auditing

Students desiring to audit a class must designate Non-Credit when selecting classes. Otherwise enrollment will be for credit. Any request to change from audit to credit or credit to audit must be processed by the last day to add a class. Graduate students who request to change after the deadline must receive approval by the department chair and the dean, College of Graduate Studies.

Bookstore Hours, Summer

The Phillips Bookstore (your University Bookstore) will extend its hours of operation for summer classes as follows:

Session I, V	May 11, 1999	7:45 a.m.-6:00 p.m.
	May 12, 1999	7:30 a.m.-6:00 p.m.
Session II, III	May 31, 1999	7:30 a.m.-6:00 p.m.
	June 1, 1999	7:30 a.m.-6:00 p.m.

The Bookstore's regular summer hours are Monday-Friday 7:45 a.m.-4:30 p.m.

Bookstore Refund Policy on Textbooks
1. A sales receipt is required for textbook refunds.
2. Refunds on purchases for the Summer are indicated below:
   Summer I and V - by the end of the second day of class
   Session II - one calendar week from the first day of class
   Session III - two calendar weeks from the first day of class
   Session IV - one calendar week from the first day of class

Change of Name or Address

Students are responsible for keeping their names and addresses current on University records. Address changes may be made in the Records Office, Cope Administration Building 106, by calling 898-2315, or via the web at www.mtsu.edu. A forwarding address should be left with the U.S. Post Office in addition to a change of address with the University. ***Important:*** *All name and/or address changes should be made early in the term to ensure they are processed in time to receive mail on a timely basis.*

Class Cancellations and Changes

The University reserves the right to cancel any lower-division class enrolling fewer than fifteen, any upper-division or 500-level class enrolling fewer than ten, any 600-level class enrolling fewer than eight, and any 700-level class enrolling fewer than four students. It may be necessary for modifications to be made in the meeting times, locations, and listed teachers of courses.

Class Cancellations Due to Weather

To determine if classes are cancelled, students should listen to area radio and television stations; access the News and Public Affairs home page at http://www.mtsu.edu/~proffice (or click on "Events and News" from the MTSU home page at http://www.mtsu.edu); or call the news line at 904-8215. A limited number of phone lines may make reaching the news line difficult. Offices will be presumed open unless the announcement specifically states otherwise.

Confidentiality of Student Records

Middle Tennessee State University regards a student's academic record as confidential. The release of information contained in the record is governed by Federal Law, known as the "Family Educational Rights and Privacy Act." Directory information such as the student's name, address, e-mail address, telephone listing, major fields of study, hours enrolled, participation in officially recognized activities and sports, weight and height of members of athletic teams, classification such as freshman or junior, dates of attendance, degrees, and awards received, and the most recent previous educational agency or institution attended by the student will be released unless the student has asked MTSU to withhold such information. **If you do not wish directory information released, you must notify the Records Office in writing.**

The law does provide for the release of information to authorized university personnel, other institutions engaged in research (provided information is not revealed to any other parties), and certain federal and state government officials.

If you have any questions concerning the provisions of this act, please feel free to contact the director of records.

Counseling and Testing Center

The Counseling and Testing Center, Keathley University Center 329, offers students help with career development through assistance in choosing a major. Other Center services include help with adjusting to college life, testing, and advising undeclared majors.

Courses Required

All students who took the Academic Assessment Placement Program (AAPP) test (or any portion of it) and who were placed into courses in the Developmental Studies Program must enroll in and complete the designated courses in sequence. Failure to enroll in the designated courses will result in the student's immediate withdrawal from the University. All full-time degree-seeking students should be enrolled in the appropriate general studies English course and either six hours in general studies or three hours in general studies and three hours in their major until they have satisfied the University's general studies requirement. Juniors or seniors must have on file and follow a plan for major and minors. Students are permitted to take only one physical education activity course per term.

Drop Policy

To drop a class, access TRAM or WebMT and follow the instructions. **Students having a hold on their records may drop courses but may not add a course until the hold is cleared.**

Tennessee Board of Regents policy prohibits students from withdrawing from or dropping courses in the Developmental Studies Program. Under extenuating circumstances a course may be dropped with the approval of the Developmental Studies chair. No student may drop a basic/developmental course without written approval of the Developmental Studies department chairperson. A student desiring to drop a course must contact his/her Developmental Studies advisor at 898-2339 (Peck Hall 102) to begin the process. Failure to comply will result in an automatic grade of F.

Students who stop attending a class but do not officially drop the class will be assigned a grade of F which will be recorded on the student's permanent record.

Drop vs. Withdrawal

Students who cease attendance but do not officially drop o withdraw receive a grade of "F."

To drop a course, a student must use TRAM or WebMT. The request can be processed if

a. a student has completed a course in at least one session o the summer term
OR
b. a student will complete a course in at least one session o the summer term.

Students may drop all classes in all sessions by TRAM or WebM and receive a 100% refund through May 10, 1999. Beginnin May 11, students who wish to withdraw from all classes mus contact the Office of the Associate Dean of Student Life, Keathle University Center, Room 130, 898-2808. See page 8 for othe drop and withdrawal refund deadlines. Students who withdra do not have to reapply for admission to attend the next term.

Grades by Phone or WebMT

You do not have to wait for the mail to know your grades a MTSU. Call **898-2000 (9-898-2000 on campus)** (TRAM) an select the grade inquiry option to hear your grades for the current term and previous two terms provided money is not owe to the University. If you owe a student account balance whic prevents release of your grades, TRAM will provide an option t allow you to pay your student account balance by credit card o check card (VISA or MasterCard) so that you can hear your grades

Access WebMT at http://www.mtsu.edu and select Grade Inquiry from the main menu.

Grade reports are mailed only upon request. A printed cop of the current term grade report may be requested by selectin the appropriate option on TRAM or WebMT. This option is available for approximately ten days after final exams each term. Onc the option to request a grade report is no longer available, instructions will be given for requesting a complete transcript. If printed grade report is requested, it will be mailed to the permanent address unless a different address has been designated fo mailing grade reports.

Graduate Courses

Ordinarily only graduate students should register for courses numbered 500 or above. However, any MTSU undergraduate student having completed 98 semester hours of undergraduate cred is eligible to take graduate courses. Students in Business Administration, Accounting, and Information Systems are not eligible

Undergraduate students wishing to take graduate courses mus obtain permission from the graduate program and the Office Graduate Studies, CAB 114. Permission is not guaranteed. N all graduate courses are offered to undergraduate students.

Students may not enroll in 700-level courses in the departmen of Elementary and Special Education and Educational Leadershi unless they are seeking an Education Specialist or Doctor of Ar degree. Non-degree seeking students are not permitted to enro in 700-level courses.

Graduation Requirement

Notice to all Prospective August 1999 Graduates

Applications for graduation on August 7, 1999, must be submi ted no later than June 1, 1999. The graduation list will be close hecked, and posted soon thereafter. Any or all undergraduate tudents may be required, as a prerequisite to graduation, to take ne or more tests designed to measure general education chievement and achievement in major areas for the purpose of valuating academic programs. Unless otherwise provided for n individual program, no minimum score or level of achieve-ient is required for graduation. Participation in testing may be equired of all students, of students in selected programs, and of tudents selected on a sample basis.

n order to comply with guidelines of the Tennessee Education ommission, the University requires all graduating seniors to take general education skills test, the ACT COMP. The test is de-gned to measure a student's abilities in areas such as communi-ating, problem solving, and functioning within social institutions. is not designed to assess knowledge of a student's major field.

he ACT COMP test will be given on June 1 and July 22, 1999, in ie Tennessee Room of the James Union Building. On each of iese dates, the test will be given three times: 8:30 a.m., 1:00 .m., and 6:00 p.m. Students are permitted to choose the date nd time which is most convenient. No pre-registration is neces-ary and pencils and test materials will be provided.

D Cards

he MTSU ID card identifies MTSU students, faculty, and staff for ccess to campus services and privileges. Use the MTSU ID card check out books at the library; be admitted to the Student ecreation Center, campus computer labs, and residence halls; ash checks; buy tickets to campus events; receive student health ervices; vote in student government elections; and pay for food a student meal plans.

ou can also use the MTSU ID card as a debit card. Just deposit oney into a RAIDER FUND$ account (available through the TSU Business Office). Then use your ID card rather than cash checks for purchases at the campus bookstore, to pay registra-on fees, do laundry, buy a coke or snack, or to purchase meals any of the food service locations on campus. To activate a AIDER FUND$ account, go by the cashier windows in Cope dministration Building. Contact the Business Office at 898-5443 you have questions about RAIDER FUND$.

ne ID office is located at Murphy Center, track level, northwest orner. Hours at the ID office during non-registration times are onday through Friday 8:00 a.m.-4:30 p.m. (For evening stu-ents, ID cards are made in Peck Hall Room 101D. Call 898-511 for office hours.)

nere is a $10 fee for replacement of lost or stolen IDs. If your ird breaks, bring the damaged card to the ID office and a re-acement will be made at no charge.

leasles Immunization

fective July 1, 1998, the State of Tennessee requires stu-ents entering colleges, universities, and technical institutes ith enrollment of greater than 200 students to provide roof of two (2) doses of measles, mumps, and rubella MMR) vaccine on or after the first birthday, or proof of im-unity to measles if date of birth is 1957 or after.

ou will not be allowed to register for classes until an ac-eptable form is on file in the Student Health Services Office.

or more information, contact McFarland Health Services, 898-988.

Parking Permits

All motor vehicles operated on the campus of MTSU must be registered annually with the Parking Services Office. Any vehicle parked on campus must have a current valid parking permit displayed in the vehicle. Beginning May 10, permits will be sold and vehicles will be registered at the Parking Services Office. Parking permits are also available after 4:30 p.m. in the Adult Services Office, KUC 320, or in the Evening School Office, Peck Hall 101D. To register your vehicle and purchase your parking permit, you must know your **vehicle license tag number.** For more information or clarification, refer to the Parking and Traffic Regulations. All permits will be valid through August 1999.

Placement and Student Employment

Seniors and graduate students should establish permanent files with the Placement Center prior to graduation. Students seeking part-time employment should apply at the Center. Information and application forms are available in Keathley University Center 328.

RAIDER FUND$—One Card That Does It All!

A personal RAIDER FUND$ account, which is accessed through the student's colored ID card, is available to all MTSU students. RAIDER FUND$ is a declining balance, money management program that allows students a convenient way to make campus purchases without the need to carry cash or the inconvenience of paying by check or credit card.

The RAIDER FUND$ account can be activated by making a minimum deposit of $10.00 at the Business Office cashier windows. Additional information on the advantages and convenience of having a RAIDER FUND$ account may be obtained at the Business Office Cashier Window 11 in the Cope Administration Building, by calling (615) 898-5443, or on the web at **http://www.mtsu.edu/~bursarmt/raidreg.html.** RAIDER FUND$ can be used to pay registration and other fees, buy meals directly or purchase meal plans, make copies in the library, operate the washers and dryers in the residence hall laundries, get items from most campus vending machines, and purchase books and supplies at Phillips Bookstore.

Retention Standards—Suspension of Students

Undergraduate

The minimum quality point average required to achieve the baccalaureate or associate degree is 2.00 on all degree credit courses.

A student failing to meet one of the following standards during any term will be placed on academic probation for the subsequent term:

1. attain a 2.00 GPA for current term, or
2. meet one of the following retention standards:

00-29.99 hours attempted	1.50
30-49.99 hours attempted	1.80
50 or more hours attempted	2.00

See current catalog for additional information regarding Developmental Studies courses.

Graduate

The minimum grade point average (GPA) required to be eligible to receive a graduate degree is **3.00** for master's and specialist in education students and 3.25 for doctoral students. A graduate student failing to meet the applicable minimum cumulative GPA retention standard as listed on the retention scale, page 30 of the Graduate Catalog, or whose cumulative graduate GPA is less than 3.00 for three consecutive semesters will be placed on **academic** probation for the subsequent term. Probation in itself has no serious consequences other than to alert the student of potential academic problems and the requirement to (re)establish satisfactory academic status. Conversely, however, **suspension** is quite serious. Should a suspended student not be readmitted, it would result in termination of the student's graduate status.

In addition to minimum GPA standards, degree-seeking students are expected to take appropriate graduate courses towards their degree objective, as determined by the graduate program. Non-degree seeking graduate students are expected to take graduate courses. In addition to the retention guidelines, the two-course repeat policy may result in a dramatically increased GPA.

Six semester hours of C grade course work may be applied toward a master's or specialist's degree, but no courses with a C grade are acceptable toward the doctorate. Courses with a grade lower than C will not be applied toward any graduate degree requirements.

Selective Service

All male citizens of the United States of America born in 1960 or thereafter must have completed Selective Service registration prior to registering for classes at MTSU.

Student Load and Enrollment Status

Undergraduate

The maximum number of hours credit for which an undergraduate student may enroll is
Session I - 4 hours
Session II - 8 hours
Session III - 14 hours
Session IV - 8 hours
Session V - 8 hours

Students who wish to enroll for credit hours in excess of these limitations **must** be granted approval by the appropriate dean as determined by the student's major. **Students may not take more than 18 hours in the summer (total of all sessions).** Violators of overload limits are subject to having course loads reduced.

Graduate

A normal full-time load for graduate students is 9 or more semester hours; however, full-time status for students holding graduate assistantships is 6 semester hours. **Graduate students are limited to a maximum load of 12 graduate hours per term including summer.** If an exception to this 12-hour limit is requested, overload forms must be signed by the graduate advisor and the dean of the College of Graduate Studies.

Thesis/Dissertation Requirement

Students enrolled in Thesis Research (664) and Dissertation Research (764) must sign up for at least one hour each semester (summer excluded) until the thesis/dissertation is complete. For master's students, a minimum of three hours is required for graduation. (The Department of Sociology and Anthropology requires six hours). For doctoral students, a minimum of six hours is required for graduation. These courses are graded Satisfactory/Unsatisfactory (S/U). Satisfactory/Unsatisfactory grades are not used in determining the grade point average. However, they do count toward graduation requirements and are treated in every other respect as being equivalent to traditionally graded courses.

Withdrawal from School

See page 19.

Statement of Community Standards of Civil Behavior

Middle Tennessee State University is committed to sustaining an environment of tolerance for diversity among its students, staff, and faculty. In addition, the University acknowledges a responsibility for encouraging all members of the community to observe certain standards of civility in their interactions with one another. The choice to associate one's self with this fellowship of scholars is freely made by each participant, but obligates those who do join to observe the following expectations for civilized conduct within the MTSU community:

- the practice of personal honesty in all matters;
- a positive regard for the dignity and value of each citizen in the community;
- respect for the individual rights and possession of community members;
- disdain for bigotry and hatred expressed in any form or medium and directed toward identifiable groups or individuals in the community;
- tolerance for the convictions and opinions of others, even when not in agreement with one's own beliefs;
- a recognition of community members' mutual needs and concerns and acceptance of a responsibility held in common to support the personal growth and efforts of each individual in furtherance of the well-being of the entire community.

What if...

...I forget my Personal Access Code (PAC)?
...my PAC number is not accepted?
...I receive a message that "an error has occurred?" or "there is no matriculation for this record?"

Contact the Scheduling Center at 898-5094.

...a course is closed?

Choose the course status option (4) on TRAM or access WebMT or CWIS (frank users) for open sections. If a section is closed, TRAM will indicate other sections of that course with the meeting time. If none exist, TRAM will indicate sections meeting at other times.

...a course is restricted?

Some course sections require departmental permission before registration. Contact the academic department for permission; then access TRAM or WebMT to register. Some courses require specific course prerequisites or have other registration controls which require that students have specific majors, classification, candidacy, etc. before registration can occur. Check the current catalog for prerequisite or other requirements. If you have met the requirements and still have problems during registration, please contact the academic department of the course.

...I need a call number for a course added after the schedule book was printed?

View added sections on the web at **http://www.mtsu.edu/~records/clasched.html** under "Changes" or contact the academic department (phone numbers are with class listings in this schedule book).

...I can't find an alternate course?

Contact your academic advisor or the department of your major.

...I choose courses with conflicting times?

Normally, TRAM and WebMT will not allow registration for courses with time conflicts. To be allowed to register with a time conflict, bring written permission from the instructor of the conflicting class to the Scheduling Center to process the registration.

...I enter an incorrect call number?

Drop the incorrect course if you are enrolled and then enter the correct call number.

...I need a printout of my schedule?

Your schedule will be printed on your bill. You may verify your schedule on TRAM or WebMT; also, you can access the InfoMT kiosks in the library, KUC, BAS and the Rec Center.

...I get a continuous ring using TRAM? Or get disconnected?

For constant rings, hang up and call again or contact the Scheduling Center at 898-5094. Do not use redia For accidental or unexpected disconnections, try your call again. Courses you selected will not be lost unless you are a student taking Developmental Studies classe and you did not register for all required courses. Drops are not processed on TRAM if you hang up pric to TRAM listing the courses that have been dropped.

...I need to register for an overload of classes?

Undergraduates - Obtain permission from the dean c the college of your major. After the dean's office updates your record, resume registration on TRAM or WebMT.

Graduates - Obtain signed overload form from your advisor and deliver to the dean of the College of Graduate Studies. After the Graduate office updates your record, resume registration on TRAM or WebMT **Overloads will not allow entry into closed classes.**

...I have a hold preventing registration?

Holds must be resolved before registration. TRAM/ WebMT will indicate which department has a hold on your record. After clearing the hold, resume registration.

...I have problems using WebMT?

Call the registration help line at 898-5094 or report th problem via e-mail on the WebMT Support Request Form at the following web address: **http://www.mtsu.edu/~webepos/webmtfrm.html** WebMT Help Suggestions are located at the end of th WebMT Support Request Form. Remember to click or "Continue" or "Submit Request" buttons to navigate through WebMT; do not hit "Enter" on the keyboard. Remember to "Sign Off and Exit" when finished on WebMT.

Accounting

Dr. W. Kenneth Harmon, Business and Aerospace Building N425C, 898-2558

NOTE: Freshman and sophomore students should not enroll in 300- or 400-level Accounting courses.

Please contact department chair for permission to enroll in the following class(es).

Developmental Studies

Dr. Carol Bader, Peck Hall 217, 898-2568

NOTE: All students who took the AAPP test (or any portion of it) and who were placed into courses in the Developmental Studies program must enroll in and complete the designated courses in sequence. Failure to enroll in designated courses will result in the student's immediate withdrawal from the University.

Developmental courses cannot be used for graduation.

Tennessee Board of Regents policy prohibits students from withdrawing from courses in the Developmental Studies program. Under extenuating circumstances a course may be dropped with the approval of the director of Developmental Studies.

ll Developmental Studies courses will meet Monday through Friday, May 31-July 22. Final exams will be given July 23.

ession III Classes: May 31 - August 7

NEW SUMMER CLASS TIMES!!

Standard class times have changed for Sessions II, III, and IV. New class times in Sessions II and IV allow 20 minutes between classes. New class times in Session III allow 15 minutes between classes. For further information, see course listings by department.

Distance Learning Classes

Dr. Rosemary Owens, Cope Administration Building 113, 898-2177

NOTE: Register for distance learning classes by TRAM or WebMT.
A $25 late fee will be charged if registration is on or after the first day of class.

Distance learning occurs when there is a physical separation of the teacher and learner and when communication and instruction take place through, or are supported by, any technological means such as telephone, radio, television, computer, satellite delivery, or interactive video, or any combination of present and future telecommunication technologies. Distance learning allows MTSU to make more courses available and more easily accessible to a larger number of students.

Compressed Video Courses

Dennis Bain, Kirksey Old Main 122, 898-5426

mpressed video is a technology that condenses auditory and visual signals so they can be sent over fiber optic T1 or other ephone lines (in this case T1lines) to sites that have specialized equipment. The equipment allows the MTSU instructor to nmunicate with various remote sites and interact visually and verbally through a television monitor. Compressed video irses are offered for credit.

Compressed video classes in Columbia are held at Columbia State Community College, Warff Building, Room 107.
Classes in Tullahoma are held at Motlow State Community College, Simon Hall, Room S234.
Classes in Lawrenceburg are held at the CSCC Lawrence County Center.

Correspondence Courses

Mary Jane Peters, Business and Aerospace Building N102, 898-5060

Correspondence courses involve individual, independent instruction of a student by an instructor on a one-to-one basis. Typically, this will entail study at home, as well as the exchange of materials and evaluations through a mail/courier service. Interaction and feedback between correspondence course faculty and students take the forms of written assignments, testing, evaluations, guidance, and assistance via such media as print/written word, telephone, fax, e-mail, and other electronic technologies.

After registration, students will receive a packet of information from the correspondence course coordinator. For full-time students, the packet of information will be sent to their campus post office box. Part-time students will receive the packet of information at their home address. If the packet of information is not received within two weeks after the first day of class, please contact the coordinator at the phone number above.

Telecourses

Liz Johnson, Kirksey Old Main 126, 898-5374
www.mtsu.edu/~tlcourse

Telecourses are courses offered for credit and delivered via cable television or videotape instead of through on-campus lectures. Students are **required** to attend an orientation on campus, then view the videos and complete the assignments at home. Instructors provide a detailed syllabus, prepare and grade assignments and tests, and consult with students by telephone or e-mail. Students meet again on campus for exams.

MTSU does not loan out sets of telecourse tapes to students, but MTSU offers several ways for students to view the telecourses. All telecourses will be shown on **MTSU-9** (Channel **9** on Intermedia cable in **Rutherford** County). All telecourses can be viewed at the Ned McWherter Learning Resources Center on MTSU's campus. All telecourses may be rented from MTSU for $35 per set. These will be available at the telecourse office on orientation day. Telecourses which are not licensed for duplication may be rented from a rental agency for $55 plus shipping. Information on these agencies is available at the orientation and at the telecourse office. It is the student's responsibility to ensure access to the telecourses.

NOTE: Students enrolling in telecourses are REQUIRED to attend the orientation indicated for that particular telecourse (see below).

The telecourse orientation is considered the FIRST CLASS. Because attendance is REQUIRED, it is important that another class is not scheduled at the same time. It is requested that children not attend the orientation.

Video/Data Conference Courses

Dennis Bain, Kirksey Old Main 122, 898-5426

Video/data conferencing (VDC) is a technology that compresses audio, video, and data signals sending them over ISDN telephone lines from a VDC classroom on the **MTSU campus** to another VDC classroom in another location. From these sites, teachers and students interact through a video camera and speakerphone. They can also share data and applications through a specially equipped computer.

Drug-Free Schools and Communities Act

he following information is presented in compliance with ne Drug-Free Schools and Communities Act Amendment f 1989.

. Middle Tennessee State University prohibits the possession, use, or distribution of illegal drugs and alcohol on the campus proper or on institutionally-owned, leased, or otherwise controlled property.

. Various federal and state statutes make it unlawful to manufacture, distribute, dispense, deliver or sell, or possess with intent to manufacture, distribute, dispense, deliver or sell, controlled substances. The penalty imposed depends upon many factors which include the type and amount of controlled substance involved, the number of prior offenses, if any, and whether any other crimes were committed in connection with the use of the controlled substance. Possible sanctions include incarceration up to and including life imprisonment and imposition of substantial monetary fines.

Tennessee statutes provide that it is unlawful for any person under the age of twenty-one (21) to buy, possess, transport (unless in the course of employment), or consume alcoholic beverages, wine, or beer, such offense being classified a Class A misdemeanor punishable by imprisonment for not more than 11 months, 29 days, or a fine of not more than $2500, or both. The receipt, possession, or transportation of alcoholic beverages without the required revenue stamp is also a misdemeanor punishable by imprisonment of not more than thirty (30) days or a fine of not more than $50, or both.

The use of alcohol can lead to serious health risks:

- loss of muscle control, poor coordination, slurred speech;
- fatigue, nausea, headache;
- increased likelihood of accidents;
- impaired judgment;
- possible respiratory paralysis and death.

Heavy drinking can lead to:

- alcoholism;
- damage to brain cells;
- increased risk of cirrhosis, ulcers, heart disease, heart attack, and cancers of liver, mouth, throat, and stomach;
- hallucinations;
- personality disorders.

Health risks associated with the use of illegal drugs include:

- increased susceptibility to disease due to a less efficient immune system;
- increased likelihood of accidents;
- personality disorders;
- addiction;
- death by overdose;
- anemia;
- poor concentration.

Additional information about how use of drugs and/or alcohol affect your health is available at McFarland Health Services Center and in the Alcohol Information Center in Keathley University Center.

4. Middle Tennessee State University does not currently provide drug/alcohol counseling, treatment, or rehabilitation programs for students. Referral to community treatment facilities may be made in appropriate cases.

5. Middle Tennessee State University will impose sanctions against individuals who are determined to have violated rules prohibiting the use, possession, or distribution of illegal drugs or alcohol.

   Sanctions for students using or possessing illegal drugs or alcohol include disciplinary probation, and in appropriate cases, suspension from the University. In addition, residence hall students will be removed from the housing system for the use or possession of illegal drugs. Referral for criminal prosecution may be made in appropriate cases.

   Individuals involved in the sale or distribution of illegal drugs will be suspended from the University and referred to the appropriate authorities for criminal prosecution.

   All employees, including students, agree as a condition of employment to abide by this policy. Sanctions against employees for use or possession of illegal drugs or alcohol in the workplace include termination of employment. Additionally, employees are required to notify the institution of any drug convictions resulting from a violation in the workplace no later than five days after the conviction.

Use this form to sign up for direct deposit!

MTSU Authorization for Automatic Deposit

Middle Tennessee State University • Murfreesboro, Tennessee

☐ New ☐ Change ☐ Cancel

I hereby authorize:

1) Middle Tennessee State University to deposit my refund via electronic fund transfer (EFT);

2) my financial institution to credit this amount to my account.

This authorization will remain in effect unless canceled in writing. A new authorization must be completed if I change m account, close my account, or change financial institutions. *Note: I understand that the University needs ten (10) bus ness days to set up this authorization, and two (2) business days for EFT after funds become available.*

In the event that the exercise of this authorization for any reason results in an overpayment of financial aid actually du and payable to me, I hereby authorize the University to either: a) withhold a sum equal to the overpayment from my ne disbursement of financial aid, or b) debit my above-identified checking or savings account for an amount not to excee said overpayment. I understand that I may be subject to a financial aid billing which I must repay to MTSU if I withdraw do not enroll in a subsequent term and have received financial aid via EFT which is in excess of my financial aid eligibili or if an overaward occurs. If any action taken by me, without adequate notification to the Business Office, results in no acceptance of the transfer by my financial institution, I understand that the University assumes no responsibility f processing supplemental financial aids until the funds are returned to the University by my financial institution.

Statement of Mission

Middle Tennessee State University, an emerging major institution of higher education in the state, region, and nation, is a member of the State University and Community College System of Tennessee and is governed by the Tennessee Board of Regents. As a comprehensive university, it offers an extensive range of programs primarily serving students of central Tennessee while also attracting students nationally and internationally. The University provides quality educational programs in a supportive campus environment. An increasing emphasis on scholarship reflects a commitment to research and public service, activities which expand human knowledge and enhance the quality of life.

The University assists its students in becoming educated men and women. Those who avail themselves of the educational opportunities provided will:

1. broaden their interests and develop inquiring minds;
2. develop practices of observation and reading through exposure and exploration of scientific knowledge, cultural heritage, and the changing contemporary world;
3. think logically, critically, and imaginatively;
4. communicate effectively;
5. make sound judgments and choose wisely among ethical, moral, and aesthetic values;
6. recognize the significance of maintaining physical and mental well-being;
7. acquire a basic understanding of a discipline or a group of related disciplines; and
8. participate actively in their communities by seeking and sharing knowledge, expertise, and creative undertakings.

Accordingly, the University will:

1. provide student support services that create a campus environment conducive to learning and personal development;
2. recruit quality faculty and maintain support services to assist faculty in instruction;
3. provide resources to encourage research and public service;
4. develop private sector, alumni, and public support for all aspects of the University; and
5. allocate financial and physical resources to accomplish the mission.

The University offers, through five colleges and thirty-six academic departments, baccalaureate instruction in the liberal and fine arts, the sciences, education, business, communication, and a variety of other fields. Students pursuing bachelor's degrees complete a general studies program designed to provide them with exposure to the cultural legacy of the past and to the characteristics of a changing contemporary world, along with the skills needed to pursue major and minor programs of study. A University Honors College and a Presidential Scholarship Program attract students with exceptional academic records seeking added intellectual challenges, while the Developmental Studies Program strengthens fundamental academic skills.

Although the University's emphasis is on undergraduate instruction, its graduate offerings are varied and vital to its mission. Programs of the College of Graduate Studies are offered at the master's, specialist, and doctoral levels. The Doctor of Arts degree prepares students for careers in undergraduate college teaching. Nearly thirty master's programs are offered, the largest ones in business administration, education, and psychology. The institution anticipates continuing to expand its unique programs and associated activities such as those in aerospace and mass communication.

Enrollment has grown dramatically over the past few years, a pattern predicted to continue as academic programming is enhanced and the population of the region increases. The majority of students attend full time and commute to campus. The student body includes adult learners as well as persons of traditional college age. The University greatly values cultural diversity and actively promotes environments conducive to success for all students and employees.

The University recruits nationally for talented and dedicated faculty members committed to teaching and professional service. Several endowed chairs provide special opportunities for bringing faculty of exceptional reputation to the campus. Research and public service activities take a great variety of forms, including continuing education programming and matching the expertise of the faculty with the evolving needs of the public. The Center for Historic Preservation and the Center for Popular Music, specially funded centers with national reputations for excellence, enrich graduate and undergraduate instruction, research, and outreach programs. Student support services, as well as cultural and athletic programs, offer activities designed to complement the academic program while strengthening the development of the individual student.

Middle Tennessee State University is a member of the Tennessee Board of Regents system, the seventh largest system of higher education in the nation. The Tennessee Board of Regents is the governing board for this system which comprises six universities, fourteen community colleges, and twenty-six area technology centers. The TBR system enrolls more than 80 percent of all Tennessee students attending public institutions of higher education.

Middle Tennessee State University, in its educational programs and activities involving students and employees, does not discriminate on the basis of race, color, national origin, sex, religion, or age. Furthermore, the University does not discriminate against veterans or individuals with disabilities.

Directory for Correspondence

The course offerings and requirements of Middle Tennessee State University are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication, but there is no guarantee that they will not be changed or revoked. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the institution.

Middle Tennessee State University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

The institution does not warrant or represent that any student who completes a course or program of study will necessarily acquire any specific skills or knowledge or will be able to successfully pass or complete any specific examination for any course, degree, or license.

Tennessee Conference of Graduate Schools

The Graduate Council

Graduate Council Mission Statement

The Graduate Council plays a crucial role in the oversight and planning of all MTSU graduate courses and graduate degree programs, in establishing criteria for the appointment and reappointment of Graduate Faculty, in assessing graduate student issues and concerns, and in recommending to the dean of the College of Graduate Studies university-wide policies and procedures for implementation. The Graduate Council advises in the modification of existing programs and in the approval and implementation of any new programs. All student work towards advanced degrees proceeds under policies and regulations established and reviewed by academic departments, the Graduate Council, and the College of Graduate Studies.

The Graduate Council provides leadership in the pursuit of excellence in scholarly activity and serves as an advocate in obtaining resources for graduate programs.

Only full-time MTSU faculty who have previously been appointed to the Graduate Faculty may serve on the Graduate Council. Council members are appointed by the president to serve three-year terms with three representatives per college. Two graduate student representatives who meet all graduate academic standards are also appointed. To ensure continuity and institutional memory in the creation and implementation of policies and procedures, one third of the Council members rotate off each year and are replaced by five new faculty members representing each college. Graduate students are appointed to the Council each academic year, and the graduate college dean and the six academic deans serve as ex-officio members. The vice chair, who conducts meetings in the absence of the chair and who serves as chair-elect, and the recording secretary of the Graduate Council are elected annually. The chair, in consultation with the dean of the College of Graduate Studies, is responsible for setting the Council's agenda.

GRADUATE STUDIES

Academic and Student Services

Middle Tennessee State University has a large and beautifully landscaped campus of approximately 500 acres and 112 permanent buildings totaling over 3 million square feet. Campus buildings are shown on a map printed in this catalog.

Adult Services Center

The Adult Services Center serves as an information and referral center for adult learners, including graduate students. The Center is also an advocate for the needs of adult learners. Located in Keathley University Center 320, the Center helps make available the services of various other university offices to students on campus for classes at hours other than regular business hours. Students may pick up a variety of forms so that their concerns may be forwarded to the appropriate offices for action.

The Center also provides a place to meet and share ideas with other adult learners. A student organization called OWLS (Older Wiser Learners) is coordinated through the Center. Additional information is available by calling (615) 898-5989.

Alumni Association

The MTSU National Alumni Association encourages interaction between Middle Tennessee State University and the extended University family of alumni, students, parents, and friends through a variety of activities and programs. Through the promotion and development of geographical alumni chapters and reunion programs, the Alumni Association stimulates and enhances communication for MTSU. Events and activities in conjunction with University athletic and fine arts programs, especially at Homecoming, are held to offer continuing support and interaction. Establishing and promoting scholarships is an on-going endeavor of the Alumni Association as well as the maintenance of the alumni information database and development of periodic alumni directories. The Alumni Relations Office is located in the Alumni Center, one of the four original buildings on campus.

Athletics

The Middle Tennessee State University athletics program strives for excellence in the development of its student-athletes and the quality of its several sports teams. The program supports the academic, athletic, and social education of its student-athletes by encouraging them to develop the values of respect for themselves and others and to take pride in achievement and making positive contributions to the communities in which they live.

MTSU is committed to quality athletics programs that bring the campus community together and promote a sense of pride and tradition in academic and athletic excellence. The athletics program also brings the university regional and national recognition and provides a link between the university, its alumni, and the community at large. It helps to gain alumni and public support for all aspects of the university. The athletics program provides quality faculty and leadership to campus programs. It gives students, faculty, and alumni opportunities for innovative public service activities, such as the "Reading Raider" program of recent years which has worked with area elementary schools to promote reading skills among their students. It uses athletic, financial, and physical resources to maintain and develop athletic programs to accomplish the mission of the University.

The University is a member of the Ohio Valley Conference and National Collegiate Athletic Association, competing in. NCAA Division I in all sports except football which moved to I-A in 1999 and will be an independent team. All other sports teams will continue to compete within the OVC. MTSU is represented annually in athletics by baseball, basketball, cross country, football, golf, tennis, indoor track, and outdoor track for men and by basketball, cross-country, soccer, softball, tennis, indoor track, outdoor track, and volleyball for women.

Both full-time and part-time students are admitted to all home football, basketball, volleyball, and baseball games by presenting their valid ID cards at the gate. Athletic events in other sports require no admission and are open to the public and campus community. The ticket office is located in Murphy Center on the track level. Additional ticket information can be obtained by phoning 1-888-MTSU-YES.

MTSU's Title IX coordinator is Forrestine Williams, 220 Cope Administration Building, (615) 898-2185.

Cafeterias

Four University locations offer wholesome food for students at reasonable rates: the Grill in Keathley University Center; McCallie Dining Hall in Corlew; James Union Building Cafeteria; and CyberCafe in Woodmore. They are operated for the benefit and convenience of the students, faculty and their guests, and other guests on the campus who may be attending conferences or other official functions. Several different meal plans are available for those who are interested.

Center for Historic Preservation

One of two Centers of Excellence at MTSU, the Center for Historic Preservation was established in 1984. It is a research and public service institute committed to the identification, conservation, protection, and enhancement of the historic environment. Through its varied projects, programs, and activities, the Center responds directly to the needs and concerns of communities and organizations working to include heritage in their future economic development strategies. Providing leadership and assistance on a local, state, regional, and national basis, the Center's work falls within six initiatives.

Town and country preservation recognizes the unique heritage, resources, and problems of rural areas and small towns. National Register nominations for individual buildings and historic districts are an ongoing priority of this initiative. The Tennessee Century Farm program is a documentary and educational project for farms that have been in the same family for at least 100 years. The African-American Rural Church Project, also a continuing project, documents the state's historic black churches, often identifying schools and cemeteries as well.

Heritage education addresses the use of local historic resources as teaching tools in the K-12 grades. The Center cooperates with the MTSU College of Education and local schools to develop and test new teaching materials and provide teacher-training workshops. The Center also works closely with community heritage organizations to guide and assist them in preservation and education projects. The Heritage Education Network is a national website for teachers.

Heritage tourism is specifically directed at research and methods for communities to use to attract and increase visitation to local cultural and historic sites while protecting and interpreting these significant resources. The Center's current projects include the development of a national heritage area on the Civil War and comprehensive technical assistance to Murfreesboro/Rutherford County as a gateway to the area.

Building technology and architectural conservation involves research methodology and technology for dating, analyzing, and applying restoration techniques. The Center offers assistance with paint and wallpaper analysis and structural investigation and recommendations. The Center is the lead agency in a national project on curatorial standards for architectural fragment collections.

Information resources management includes the Center's computer resources, such as autocad drawings, access to preservation databases, desktop publishing, and other necessary support programs for the development and completion of projects in each of the Center's initiatives.

Museum and historic sites offers assistance to heritage museums in basic planning, adaptive restoration of historic buildings for museum use, collections management, and exhibit development. The Center focuses on addressing the needs and problems of small museums.

Graduate-level staff teach two to three historic preservation courses each year for the Department of History and direct selected theses. The Center also funds a limited number of graduate research assistantships each year. Graduate and undergraduate students work at the Center to assist staff on a variety of applied research and public service projects, gaining valuable interdisciplinary experience to supplement their in-class training. The Center's technical library and facilities are visited by and serve students, interested individuals, and preservation professionals.

One recent project, *The Tennessee Encyclopedia of History and Culture*, is a partnership between the Center, the Tennessee Historical Society, and the Tennessee General Assembly, to produce a modern, comprehensive reference book on history and culture. The book was released in 1998.

Center for Popular Music

One of two Centers of Excellence at MTSU, the Center for Popular Music is an interdisciplinary research center devoted to promoting scholarship in and disseminating information on American popular music. The Center recognizes popular music as a unique form of human expression that is shaped by a variety of socio-cultural, artistic, commercial, and technological factors and as one which has always occupied a significant place in American cultural history. In support of its aims, the Center maintains an extensive archive and sponsors various research projects, publications, and public programs.

The Center's research collection is broadly representative of the diversity of American vernacular music, while being particularly strong in its holdings of music of the southeast. Rock and roll (and its roots) and the many forms of vernacular religious music are major focuses of the collection. Holdings encompass a variety of media, including sheet music, sound recordings, audio and video tapes, books, serials, photographs, posters, manuscripts, clippings, and microforms.

The Center is engaged in an extensive program of activities, including sponsoring lectures, conferences, and symposia; producing concerts of historical popular music and producing extensively-annotated sound recordings.

The Center's resources support undergraduate, graduate, and faculty research in a variety of disciplines and departments. Noteworthy among these are the Recording Industry Department, the Music Industry concentration in the Music Department, the Public History program in the History Department, and the interdisciplinary Southern Studies and African-American Studies minors. The Center's resources also serve the music industry, scholars from other institutions in North America and Europe, trade and university presses, and the broadcast media.

Day Care Laboratory

The MTSU Day Care Laboratory provides a safe, healthy, and stimulating environment where children ages three to five can stay on a half-time basis (either Monday, Wednesday, Friday or Tuesday, Thursday) while their parents are at school. The maximum capacity is 24 children per day with the following enrollment priorities:

1. children of students who need part-time care (first priority in Fall and Spring Semesters);
2. children of students who need full-time time care (first priority in the Summer Semester);
3. children of University employees;
4. children of community persons.

Disabled Student Services

Disabled Student Services is the coordinating body which distributes information concerning services available to students with disabilities. The office acts as an advocate for disabled students at the University, surveying the needs of these students and developing programs to meet those needs. Information and assistance can be obtained by calling (615) 898-2783 (TDD 615-898-2836) or visiting the office located in Keathley University Center 120. In addition, information may be obtained by visiting the University's website.

MTSU's ADA/504 coordinator is Docia Rudley, 116 Cope Administration Building, (615) 898-2025.

Endowed Chairs

Several academic programs are enriched through the establishment of Chairs dedicated to the support of a particular discipline. The chairholders may be full-time faculty members or may be individuals from the appropriate business or professional field who are on campus for special seminars or lecture series.

Two Chairs, funded by gifts to the University Foundation, are administered through the Economics and Finance Department, of which the chairholders are members. More information is available through that department. The Chairs are

Martin Chair of Insurance
Weatherford Chair of Finance

MTSU houses nine **Chairs of Excellence**, established with a combination of private, University, and State funds. They are

The Jennings Jones Chair in Free Enterprise
College of Business
The Jennings Jones Chair in Urban and Regional Planning
College of Business
The John Seigenthaler Chair in First Amendment Studies
College of Mass Communication
The Dr. Carl Adams Chair in HealthCare Services
Several departments
The National HealthCare Chair in Nursing
School of Nursing
The Robert E. and Georgianna West Russell Chair in Manufacturing Excellence
Engineering Technology and Industrial Studies Department
The Katherine Davis Murfree Chair in Dyslexic Studies
Several departments
John C. Miller Chair in Equine Reproductive Physiology
School of Agribusiness and Agriscience
Mary E. Miller Chair in Equine Health
School of Agribusiness and Agriscience

Albert Gore Research Center

The Albert Gore Research Center, a manuscripts repository, collects and makes available for research materials that document the history of Middle Tennessee State University, its students, its faculty, its alumni, and the region that it serves. Although it is visited by scholars from across the United States and from abroad, the primary missions of the Center are 1) to give MTSU students hands-on experience with materials that document their heritage and 2) to provide the many constituents of MTSU with materials to facilitate development of appropriate public policy. The Center is named in honor of the late Albert Gore, Sr. (B.S., MTSU '32) former U.S. congressman and senator, whose papers were the first of many congressional and private collections accessioned.

Housing and Residential Life

Housing facilities on campus include 24 residence halls and apartment complexes housing 3,800 single students and families. Information may be obtained from Housing and Residential Life, Keathley University Center 300.

Information Technology

The Office of Information Technology (OIT) provides support for students, faculty, and staff to effectively use computer and telecommunications technology. Any MTSU student, faculty, or staff member may have an account on the central server for accessing on-campus resources as well as state, regional, national, and international networks including Internet. To set up a new account, come by the OIT office in the basement of Cope Administration Building or use the online account creation option, MAKEID. With MAKEID, users telnet to MTSU from a computer on-campus or off-campus to create a new account. Instructions are available on the OIT web page. OIT assigns the username and password, and the account is usually ready to use within three hours. OIT assists the instructional effort in many ways including providing training on the Internet for students, faculty, and staff and assisting faculty with development of technology-based instructional tools. The MTSU ID card system is administered by OIT. All MTSU students, faculty, and staff carry an MTSU ID card for access to campus services and privileges. Administrative functions such as web and telephone registration and student information systems are also supported through OIT.

The Instructional Technology Support Center

The Instructional Technology Support Center (ITSC), located in the McWherter Learning Resources Center, provides facilities, training, and support for the use of instructional technology by MTSU faculty, MTSU students, and K-12 teachers. The ITSC consists of several related units and facilities, including Audio/Visual Services, Instructional Media Resources, two computer labs, faculty and graduate student multimedia development centers, a teleconferencing classroom, and a multimedia classroom.

Audio/Visual Services consists of two sub-units, **Equipment Services** and **Television Services**. Equipment Services maintains an inventory of audio-visual equipment for faculty checkout, repairs campus audiovisual equipment, provides dubbing services, records off-air programming for classroom use, and supports satellite downlinking. Television Services offers professional video production services for MTSU faculty and administrators, including studio production, remote production, and post production.

Instructional Media Resources (IMR) manages a large collection of videotapes, audio tapes, slides, filmstrips, computer software, CD-ROMs, and laserdiscs available for faculty use in classrooms and for on-site use by students. Instructional

Media Resources also has typewriters and both Macintosh and Pentium computers available for walk-in use by faculty and students. Faculty can reserve IMR materials and place their own multimedia resources on reserve in Instructional Media Resources for on-site use by their students.

Two Pentium computer labs are available in the ITSC for use by faculty and students. Computers in both labs have access to the campus network. A description of the hardware and software in the computer labs and a monthly listing of open hours are posted on the ITSC web page (http://www.mtsu.edu/~itsc).

Faculty and graduate students can create multimedia lectures or presentations at four multimedia development stations in the ITSC. Faculty may reserve the ITSC teleconferencing classroom (LRC 101T; seating 30) or the multimedia auditorium (LRC 221; seating 399) for occasional use by their classes. Both rooms contain a computer, computer projection capability, access to the campus network, satellite downlink capability, and a full complement of audio-visual equipment.

Keathley University Center—James Union Building

The Keathley University Center and James Union Building are service-oriented buildings for the use of the campus community. Services and facilities include

- a modern, self-service bookstore;
- a complete service post office with individual mailboxes available;
- recreational facilities such as billiards, ping-pong, cards, chess, checkers, and electronic games;
- a mini-market with a variety of snacks;
- meeting rooms, ballroom, and auditorium for clubs, organizations, and campus-sponsored programs;
- diversified programs which include movies, musical groups, speakers, dances, and cultural events all planned and presented by student committees; and
- food services including the Keathley University Center Grill and James Union Building banquet and luncheon services.

McWherter Learning Resources Center

The McWherter Learning Resources Center provides the opportunity for a different approach to learning. Completed in 1975, this unique 65,000 square-foot facility received national recognition for the award-winning design and is considered a model by other institutions throughout the region. The McWherter Learning Resources Center is the primary facility for teacher education programs and provides instructional technology support to faculty and programs at MTSU as well as area school districts.

In addition to the Instructional Technology Support Center, the support areas of Photographic Services and Publications and Graphics have the dual responsibility of producing materials for classroom use and for serving the entire University community's photography and publication needs. Also housed in the facility are the WMOT-FM Radio Station and the Gore Research Center.

Murphy Center

Charles M. Murphy Center is a multi-purpose building for instruction, recreation, athletics, and convocations. This versatile structure provides facilities that enhance the total health, physical education, recreation, and safety programs as well as house some of the outstanding athletic and entertainment events in Tennessee. The complex includes the Monte Hale Basketball Arena, two auxiliary gymnasiums, four handball courts, classrooms, two dance studios, an indoor track, indoor tennis courts, men's and women's dressing rooms, and weight training equipment. The ticket office is also located in Murphy Center (track level).

Placement and Student Employment Center

The University provides a year-round centralized placement service for its students and alumni through the Placement and Student Employment Center located in Keathley University Center 328. The program is designed to assist prospective graduates and alumni in securing career positions. Each year employers from business, industry, government, and education conduct on-campus interviews with students in the Placement Center. Other placement services include the development of reference files for credentials, career job listings, part-time and summer employment opportunities, and the career library.

Students seeking part-time jobs in the community may apply through the Student Employment Center. Referrals to prospective employers will be made by the Center.

Recreation Center

The Campus Recreation Office, located in the Recreation Center, administers a comprehensive recreation program for MTSU students. Opportunities include participation in team or club sports, outdoor pursuits, fitness activities, aquatic programs, and leisure clinics. A wide variety of outdoor and other recreation equipment is available for checkout by students.

The Recreation Center, which opened in Fall 1995, provides students with a state-of-the-art facility. The Center includes six basketball/volleyball courts, six racquetball courts, an indoor track, an aerobics room, an 8,000-square-foot free weights area, cardiovascular machines, an indoor swimming pool, locker rooms, an indoor gym for soccer and roller hockey, a rock climbing wall, an outdoor pool, a child care area, an outdoor ropes course, and a sun deck with four sand volleyball courts adjacent. The Center is open seven days a week during the fall and spring semesters and the summer term. The Recreation Center closes during fall break, Thanksgiving holidays, Christmas holidays, and spring break. The schedule may be adjusted during other University holidays and for certain special University events. More information on programs or the Center may be obtained by contacting the Campus Recreation Office (898-2104).

Student Access to Educational Records

This policy may be found on page 36 of this catalog.

University Library

The University Library provides access to information from its own collections and from resources around the world. The library supports student research needs from a central facility containing print volumes, microform materials, and computer databases.

In addition to over 600,000 printed volumes of books, reference sources, and government documents, the Library contains another 400,000 volumes of periodicals, newspapers, and research titles in microtext formats. The Library receives over 3,500 subscriptions to periodicals and also serves as a partial depository for United States government publications. In addition to the online system, there are other computerized information databases available to users.

A new central library of 250,000 square feet was opened in January 1999 in which collections of materials and services needed by students are provided. These meet their needs for course assignments, assigned reading, term papers, projects, and student research. In addition to these, recreational reading materials and other information are available to meet the information needs of students. The new facility provides various kinds of seating for 2,500 users as well as 350 computers for accessing both local and international information resources. Special features of the new library include an Adaptive Technologies Center to meet needs of disabled students, 43 small group study rooms, and 143 graduate research carrels.

Students are encouraged to ask librarians about the kinds of materials that are available in the Library and about the methods that can be used to retrieve information. Librarians are available at the main floor Reference/Information Desk. Students are requested to become familiar with the library policies as well as the various printed research guides which contain further information about Library collections and services. A student ID card is required to check out library materials. More information is available on the library's web page on the Internet.

Women's Center

The June Anderson Women's Center (JAWC) has been serving women at MTSU since 1977. Support groups, workshops, and programs for women are offered during the academic year. A free legal clinic is open the last Thursday of each month. The office, located on the main floor of the James Union Building, provides a safe space for women to meet together or use the JAWC library. A resource and referral file includes information on financial aid for women, housing, and community legal, health, and mental health services.

The annual Women's Leadership Conference for college and university women students is coordinated through the JAWC and the Women's Studies Program each spring. Students are welcome to attend and to volunteer for this and other Women's Center activities.

During Spring Semester, the Women's Center, working collaboratively with the National Women's History Month Committee, sponsors events, programs, and films which bring together the campus and community in a celebration of women's contributions to culture and society.

A full-time professional counselor is available at the Women's Center for crisis intervention and personal counseling for students dealing with women-identified issues and concerns. Confidentiality is assured. Support groups on body image and surviving sexual assault are regularly offered. The counselor may be contacted at (615) 898-5725.

Additional information about the Women's Center's activities or services is available by calling (615) 898-2193 or via the Internet.

International Programs and Services

International Programs and Services Office
Cope Administration Building 202

The International Programs and Services Office (IPSO) serves as the admissions office for international students. International students include all non-U.S. citizen applicants (visa holders and permanent residents). All inquiries and correspondence should be addressed to this office. Application packets, including forms and requirement instructions, can be obtained by telephoning or writing IPSO or via http://www.mtsu.edu/~ipso. University catalogs cannot be mailed overseas. Applicants abroad can apply for the Fall and Spring semesters only. Applicants who are already in the U.S. and in F1 or J1 status may apply for Summer.

The University provides immigration advisement through the International Programs and Services Office. IPSO is responsible for issuing I-20 and IAP-66 forms and evaluating college credits obtained from foreign universities. IPSO serves as a liaison between faculty members, administrators, and international students. The office caters to a variety of international student needs including housing, academic matters, community affairs, and programming.

Residency

IPSO determines residency for international students including permanent residents. All students who are non-U.S. citizens at the time of admission will be considered out-of-state for tuition purposes until they apply for and receive in-state status. Permanent residents and others who believe they meet the in-state criteria may obtain an application and submit it to the IPSO office. The completed form and supporting documentation should be submitted one month prior to the term. Failure to file may result in payment of out-of-state tuition. Students will be informed of the residency decision by mail.

Immigration

It is the student's responsibility to see that he/she is in legal immigration status. All immigration documents should be kept in a safe place. According to U.S. Immigration and Naturalization Service (INS) regulations, F1 and J1 students must be enrolled fulltime (minimum 9 hours) during Fall and Spring semesters. Summer enrollment is optional. Also, INS requires that F1 and J1 applicants meet all admission requirements prior to enrollment. No conditional admission is possible.

Proof of English Proficiency

An international student must submit a successful Test of English as a Foreign Language (TOEFL) score or University of Michigan English Language Institute (UMELI) test given by the International English Institute in Nashville, Tennessee, before he/she can register at MTSU. Applicants who cannot obtain locally a TOEFL Bulletin of Information for Candidates should write for it well in advance to

Test of English as a Foreign Language
P.O. Box 899
Princeton, New Jersey, U.S.A., 08540

For information on UMELI testing, contact

International English Institute
1226 16th Avenue, South
Nashville, TN 37212
(615) 327-1715 or 327-1716

Deadlines for Completed* Files:
Fall Semester: July 31 of same year; **Spring Semester:** November 30 of previous year; **Summer Semester:** April 15 of same year. (Applies to students already in the United States.)

**NOTE: A completed file contains ALL acceptable materials required for admission.*

Application to MTSU:

International students include visa holders and permanent resident applicants.

1. Complete graduate application for admission.
2. Submit **$30.00 non-refundable application fee** (money order or check with routing numbers).
3. Submit evidence of freedom from tuberculosis.
4. Submit evidence of two rubeola vaccinations.
5. Submit a financial statement or front and back copy of permanent resident card, whichever is applicable.
6. Submit official TOEFL (computer-based minimum score 173, paper-based minimum score 525) or UMELI (minimum score 85); GRE or GMAT scores as required. (We do not accept any other than ETS official test scores for the TOEFL.)
7. Submit completed insurance form for F1 and J1 applicants.
8. Submit a front and back copy of 1-94, if applicable.
9. Submit a front and back copy of 1-20 or IAP-66, if applicable.
10. Student must have official transcripts sent from all institution(s) directly to IPSO. If transcripts are written in a foreign language, an official translation in English and an official non-translated transcript must both be sent. A syllabus of each class may be required in order to receive course substitution credit.

NOTE: Sending all documents except transcript(s) and test scores in one envelope will expedite processing of the application. If the student does not have a Social Security number, the office will assign a student ID number for record-keeping purposes only. The Social Security number or student ID number should be on all correspondence sent to the office. All materials received become the property of MTSU and cannot be returned to the student or forwarded to a third party.

All F1 and J1 students must attend orientation before they can register for classes. Additional information about the services of IPSO may be found at the website or in the undergraduate catalog.

Continuing Studies and Public Service

Rosemary Owens, Dean
Cope Administration Building 113

The purpose of the Division of Continuing Studies and Public Service at Middle Tennessee State University is to extend services of the University to adults, individuals, and groups beyond the resident students on campus. The division is divided into two main areas—credit and non-credit. The credit area coordinates distance learning, off-campus courses, summer school, and evening classes. The non-credit area caters to professionals interested in updating skills, groups or organizations desiring some type of educational experience, or persons needing any of the non-credit services outlined below. More information on either of these areas can be obtained by contacting the Division of Continuing Studies and Public Service, (615) 898-2462.

Credit Areas

Distance Learning Courses

Distance learning courses, coordinated through the Division of Continuing Studies and Public Service, include courses via video conferencing, telecourses, correspondence courses, and online courses.

- **Video Conferencing Courses** - Video conferencing courses send the instructor's "live" lectures at MTSU to students at the remote sites. Sites include Spring Hill, Motlow State Community College, and Columbia State Community College. The video conferencing classrooms are equipped with TV monitors and push-to-talk microphones so that the students and instructors can interact. The instructor will visit the remote sites during the semester assuring that each student will have an opportunity to meet him/her in person. The instructor is also available during office hours at MTSU by phone, e-mail, or in person.
- **Telecourses** - Telecourses are delivered primarily over cable television. Students are required to attend an orientation and two examinations on campus. Instead of attending lectures on campus, telecourse students watch approximately one hour of programs each week. The telecourses are available on several local channels and in the McWherter Learning Resources Center. Telecourse tapes may also be rented. In addition, students read their texts and study guides and submit assignments as scheduled. Teachers are available at set times for consultation. More information may be obtained by calling (615) 898-5374 or visiting the telecourse homepage at www.mtsu.edu/~tlcourse.
- **Correspondence Courses** - Correspondence courses involve individual, independent instruction of a student by an instructor on a one-to-one basis. Typically, this entails home study as well as the exchange of materials and evaluations through the mail. Interaction and feedback between correspondence course faculty and students takes the form of written assignments, testing, evaluations, guidance, and assistance via such media as telephone, FAX, e-mail, and other electronic technologies. More information may be obtained via e-mail at corres@mtsu.edu.
- **Online Courses** - Online courses are accessed over the Internet through e-mail, newsgroups, distribution lists, and the World Wide Web. Only students with strong experience on the Internet should register for an online course. Students are required to have access to a computer and the Internet. Students must attend at least one proctored examination and must complete assignments. A photo ID must be presented at all exams. All other assignments and quizzes will be available through the Internet. More information may be obtained by visiting www.mtsu.edu/~netcours.

More information can be obtained by calling (615) 898-5611. The current schedule book carries course offerings.

Evening School

The Division of Continuing Studies and Public Service serves students attending MTSU at night by assisting with registration, accepting payment of fees/fines for the Business Office, providing catalogs and schedule books, making IDs and issuing parking permits, as well as offering other services to the student outside regular daytime business hours. More information is available by contacting the Evening School Office, (615) 898-5611.

Off-campus Program

Credit courses are regularly scheduled at several off-campus locations in middle Tennessee, including Smyrna, Spring Hill, Motlow State Community College, and Columbia State Community College. Efforts are made to service any special requests for off-campus credit courses by business and industry, school systems, and agencies.

Summer School

The Division of Continuing Studies and Public Service directs the summer school, which includes a substantial number of credit courses. Course offerings are available in the current summer schedule book.

Non-credit Area

Courses, Seminars, and Conferences

The non-credit area assists groups and individuals in the planning, advertising, coordinating, and delivery of courses, seminars, and conferences. Various non-credit courses are offered each semester as well as upon demand. They are intended to serve business, industry, government, education, professional organizations, and civic and service groups. A current course catalog is available by calling (615) 898-2462.

Computer and career programs are offered on campus for individuals trying to upgrade skills to advance themselves in the workplace or for personal development. Career consulting is available on a one-to-one basis using career software. Computer courses provide hands-on learning using current software packages as well as courses relating to the Internet and PC maintenance.

Professional development certification programs, seminars, workshops, and short courses that focus on timely and leading-edge topics are presented on and off campus. Current client groups include human resource managers, municipal clerks, engineers, lawyers, accountants, cosmetologists, emergency medical technicians, government officers, and payroll administrators.

Children, teens, adults, and senior adults can choose from courses ranging from leisure and recreation programs to personal enrichment. Children and teens selections include summer day camps, art and drama programs, and gymnastics. Adults can pick from exam prep courses, foreign languages, recreation activities, and English as a Second Language. Elderhostel and other programs are offered for senior adults.

Continuing Education units (CEUs) are awarded to persons successfully completing most of the special interest activities. The Southern Association of Colleges and Schools defines a CEU as "ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction." The CEU provides a standard unit of nationally recognized measurement whereby business, industry, and professions may grant appropriate recognition to persons for completion of continuing education programs. A permanent record of all CEUs earned is maintained by the University. A transcript may be obtained by sending a written request to the Division of Continuing Studies and Public Service.

Training and Professional Development Center

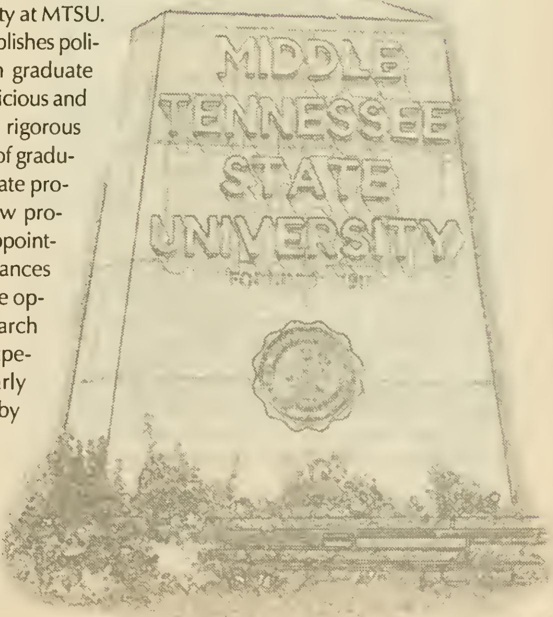
The Training and Professional Development Center (TPDC) offers various human resource services for business, industry, and government, including customized on-site training, needs assessments, and specialized workforce analysis. Current programs include team building, customer service, leadership, supervision, and written and interpersonal communication.

Inquiries should be directed to the director of the Training and Professional Development Center, phone (615) 898-2407.

College of
GRADUATE STUDIES

The Graduate School was established in 1951 in recognition of the importance graduate instruction had attained at Middle Tennessee State University. As graduate education continued to grow and develop at the university, the Graduate School was renamed the College of Graduate Studies in 1991 to signify the academic status of the College. All graduate degrees at the University are awarded by the College of Graduate Studies, under the auspices of the dean of the College of Graduate Studies.

The mission of the College of Graduate Studies is to provide academic, financial, and other support services for graduate students, while upholding academic standards. The College certifies that every candidate for conferral of a graduate degree has fulfilled all academic requirements. The College contributes assistance to help ensure that each graduate program provides the optimal educational experiences for its graduate students. This support includes the distribution of graduate assistant funds and the provision of graduate fellowships. The College also serves as the central collegiate component for uniting the entire graduate academic community at MTSU. The College, in consultation with the faculty, establishes policies and procedures to promote excellence in graduate education. These include processes to ensure judicious and selective graduate student admission decisions; rigorous adherence to the academic standards expected of graduate students; monitoring for excellence in graduate program curricula via the graduate program review process; and selectivity in making graduate faculty appointments. This latter graduate faculty standard enhances the opportunities for graduate students to receive optimal intellectual challenges and quality research mentoring during the course of their graduate experiences at MTSU. The importance of scholarly research in graduate education is exemplified by the fact that the College of Graduate Studies, in consultation with the Faculty Research Committee, selects recipients for faculty research grants.



Graduate Student Bill of Rights and Responsibilities

The Graduate Council and the College of Graduate Studies have approved in principle the document *Graduate Student Bill of Rights and Responsibilities.*

Rights

1. Graduate students have a right to be respected as individuals of merit and as junior colleagues of faculty. The student's vulnerability must not be exploited in any way by faculty, administration, or staff. (Reference: Faculty Handbook, Ethics Guidelines, Section IV, I.B., I.C.2, page 2)
2. Graduate students have a right to an accurate and timely description of the availability and the likelihood of financial and resource support within their program and within the University and will be given an equal opportunity to compete for support for which they are eligible.
   a. Prospective and currently enrolled graduate students should be provided a thorough description of the requirements and qualifications necessary for holding teaching assistantships, graduate assistantships, and receiving financial support from the University.
   b. Prospective and currently enrolled graduate students should be provided a thorough description of the requirements and qualifications for all academic and financial awards in their program and in the Graduate Catalog. They are to be assured that competition for any and all academic awards will be available to eligible graduate students and that evaluation for such awards will be fair and objective. They also should be informed of the procedures for evaluating applicants.
3. Graduate students have a right to be informed of specific requirements for achieving an advanced degree. Each department should communicate clearly these requirements to its students, and it should notify current enrolled students in writing of any changes. Prospective and currently enrolled graduate students have a right to know of the "normal time to complete a degree" within a specific graduate program.
4. Graduate students have a right to a non-biased evaluation of their progress toward achieving an advanced degree (Constitution of the Student Government Association, Art II Sec 3). The criteria should be clearly understood by the graduate advisor and student.
5. If a graduate student requests an explanation, reasons for unsatisfactory performance on qualifying or comprehensive examinations should be given in writing.
6. Graduate students have a right to substantive feedback and regular guidance concerning their academic performance.
   a. Graduate students and their thesis/dissertation director should arrive at and maintain a mutually agreeable schedule of evaluative/supervisory conferences.
   b. Graduate students must be notified in writing of unsatisfactory performance before any attempt begins to dismiss them from a graduate program. Only the dean of the College of Graduate Studies can dismiss a student from a graduate program for **academic reasons and normally only** upon **the recommendation of** the program. Graduate students have the right to appeal **for cause** any decision affecting their academic standing as a graduate student. **Cause** excludes grade appeals, which are under the purview of the MTSU Grade Appeals Committee. The burden of responsibility rests with the appellant to provide a timely, cogent, and convincing written documentation of the facts upon which the appeal is based. Further information may be obtained from the appeals document from the Graduate Council, Section III.
7. Graduate students have a right to freedom from unlawful discrimination in any actions, including those based on gender, race, age, sexual orientation, disability, and religious or political beliefs. (Constitution of The Student Government Association, Art II Sec 1.2.6; MTSU Policies and Procedures Manual III:00:09, IV: 07:06, IV:07:16:i). University grievance procedures should be available upon request at the Graduate College. Opportunities for informal resolution should also be explained to the student when appropriate.
8. Graduate students have a right to reasonable confidentiality in their communications with professors. (Constitution of the Student Government Association, Art II Sec 4; MTSU Policies and Procedures Manual II:02:00)
   a. In general, a student's performance or behavior should not be discussed by a professor with other students.
   b. Discussion among faculty of a student's performance should be of a professional nature and should be limited to the student's academic performance and fitness as a graduate student: the substance of the communication should be based on a need to know relevant information.
9. Graduate students have a right to refuse to perform tasks if those tasks are not closely related to their academic or professional development.
10. Graduate students have a right to receive fair recognition for their efforts and contributions to cooperative research projects, including co-authorship of publications. Efforts and recognition should be determined prior to the project whenever possible.
11. Graduate students should be represented in the decision-making process relative to graduate issues in their department and program; however, the representation is program specific, possibly taking many different forms. Graduate students should have the opportunity annually to evaluate their professors in writing, without fear of retribution.

12. Graduate students have a right to review vitae of faculty members within their degree program/departments who are qualified/eligible to serve on their graduate committee. These vitae should be made available at the time the students are accepted into their program to aid them in selecting their committee members.

Responsibilities

1. Graduate students have a responsibility to read and become familiar with the Graduate Catalog, the Graduate Student Handbook, and the Student's Rights and Responsibilities booklet.
2. Graduate students have a responsibility to complete and submit all documents required for admission to the College of Graduate Studies and to their department.
3. Graduate students have a responsibility to conduct themselves in all academic activities in a manner befitting the professorate. Graduate students' behavior should be a credit to themselves, the degree program/department, and the University. (Student Rights and Responsibilities booklet)
4. Graduate students have a responsibility to devote appropriate time and energy toward achieving the advanced degree within a reasonable time fame as specified by their graduate program.
5. Graduate students have a responsibility to uphold ethical norms and honesty in research methodology and scholarship. (Student's Rights and Responsibilities booklet; MTSU Policies and Procedures Manual I:01:24; "A Statement of Graduate Students' Research Rights and Responsibilities at MTSU's College of Business")
6. Graduate students have a responsibility to communicate regularly with faculty members and advisors, especially in matters related to research and progress within the graduate program.
7. Graduate students are encouraged to participate in the campus community to the extent that they are able and to enrich the campus in whatever ways possible, including contributing to:
    a. the academic development and the social environment of the department in which they are pursuing the advanced degree and
    b. decision making relative to graduate student issues in the department, student government, and university.

Graduate Minors

Minors are offered in
- Accounting
- Aerospace
- Agriculture
- Art
- Biology
- Business Education
- Chemistry
- Computer Science
- Criminal Justice Administration
- Curriculum and Instruction
- Earth Science/Geology
- Economics
- Education
- English
- Foreign Languages
- Geography
- Gerontology
- Health
- History
- Human Sciences
- Industrial Studies
- Information Systems
- Library Service
- Mass Communication
- Mathematics
- Music
- Physical Education
- Physics
- Political Science
- Psychology
- Reading
- Recreation
- Safety
- Sociology
- Special Education
- Speech and Theater
- Vocational-Technical Education

There are three patterns of minors from which a candidate must choose:

1. a single minor consisting of at least 12 semester hours; 12 undergraduate hours in an area are prerequisite to a single minor in that area at the master's level;
2. a minor consisting of a minimum of 6 semester hours in each of two subjects;
3. the distributive minor consisting of a minimum of 12 semester hours in at least three subjects.

The candidate is expected to complete the total program in the major, minor, and/or cognate fields. A cognate is defined as 6 semester hours.

Glossary of Terms

Admission to degree status—Admission to the College of Graduate Studies as a graduate student for the purpose of seeking a graduate degree. This status requires completing a graduate admission application; meeting all entrance and test requirements; transmittal of relevant official transcripts; approval by the graduate program/department; and approval by the College of Graduate Studies.
NOTE: Some graduate programs allow applicants to begin taking classes prior to an admission decision, whereas others prohibit such enrollment. An applicant should seek information from the relevant graduate program about its policy.

Admission to non-degree status—Admission to the College of Graduate Studies as a post-baccalaureate student for the purpose of officially taking graduate courses. This status requires completing a graduate admission application; transmitting relevant official transcripts; and approval by the College of Graduate Studies. Not all graduate courses are open to non-degree students; thus the student should consult with the departmental graduate advisor(s).

Advancement to Candidacy—Status of the student who has successfully completed a substantial portion of the curriculum (and relevant examinations) and, in consultation with the graduate advisor, has established a curricular plan to be followed for the purpose of graduation. An Advancement to Candidacy Form must be approved by the pertinent graduate program personnel (e.g. major professor, graduate advisor, etc.), and the dean of the College of Graduate Studies (or designee). The form specifies the courses which the student is required to take to complete the curricular requirements. This form **must** be filed and approved **prior** to completion of 24 credit hours (or earlier if required by the graduate program).

Cognate—Six semester hours of related course work

Comprehensive examination—An examination given to master's and specialist's students, generally during the last semester of course work. The examination may be oral, written, or a combination of both modes. It may be taken no more than twice. The purpose of this examination is to assess the candidate's knowledge of a broad academic field and to evaluate whether the candidate has attained certain standards and/or requirements necessary to successfully complete the program. If the examinations are written, they are to be kept on file in the department. The student has the right of access to his or her graded exam for a period of five (5) years. (D.A. students, please see qualifying examination.)

Concentration—A curricular component of a graduate program representing a well-recognized subset or branch of the discipline. A concentration appears on the student's graduate transcript.

Conditional admission—The granting of temporary admission into a graduate program with certain stipulations being placed upon the student. Continuation in the program as a degree-seeking student is contingent upon fulfilling specific requirements described in the conditional admission letter.

Encumbrance—A hold placed on registration (or transcripts). For example, a registration encumbrance will be placed on all non-admitted degree-seeking applicants having graduate status and who reach a maximum of 12 credit hours, or earlier if required by the graduate program.

Full-time/part-time graduate status—See student load, page 34.

Graduate advisor—A faculty member appointed by the department and approved by the College of Graduate Studies to advise graduate students and provide curricular planning counseling. Graduate students should consult with their graduate advisors prior to, or immediately upon, being admitted to a graduate program. A list of graduate advisors may be obtained at the College of Graduate Studies or the relevant department.

Graduate coordinator or graduate director—A faculty member appointed to serve as the principal officer of the graduate program with respect to curricular and other relevant matters. The department chair often, but not always, serves as the graduate director.

Graduate status—Status whereby a post-baccalaureate student is declared eligible to enroll in graduate courses at MTSU. The granting of graduate status does not necessarily mean that one has been admitted to a graduate program. (Also see encumbrance and admission.)

Graduation requirements—Those academic and other requirements necessary for successful completion in order to be eligible for receipt of the degree. In general, the requirements in existence at the time of matriculation are those which must be fulfilled. These requirements are listed in the graduate catalog of that year. Changes in a graduate curriculum may occur while a student is enrolled. If so, the student will have the option of fulfilling the new requirements or following the original plan in existence at the time of matriculation. This is subject to "stop-out" limitations and course availability. (See stop-out.)

Intent to graduate—Indication that the candidate is planning to complete all degree requirements during the current term. An Intent to Graduate Form must be filed by the candidate during the first week of the semester of planned graduation or by the end of the first week of summer Session II (for August graduation). This authorizes release of the student's file for final evaluation and authorizes information to be collected for issuance of the diploma.

Major—A field of study representing a well recognized discipline in which there is offered a graduate program. A major appears on the student's graduate transcript.

Major professor—The faculty member providing the primary scholarly research mentorship to the graduate student. The major professor serves as the director or chair of the thesis or dissertation committee.

Matriculation—The first semester of enrollment after admission to a graduate program.

Minor—A free-standing curricular component of a graduate program representing an academic discipline. This designation verifies that scholarly expertise in the minor field has been achieved in addition to that attained in the major discipline.

Plagiarism—The use or reproduction of material from another person's work (e.g., publications, productions, or intellectual property) without revealing the source and/or clearly acknowledging the degree of dependency. If materials are reproduced verbatim from another source, or even reproduced in large part with only minor modification, proper citation **must** occur. To avoid allegations of plagiarism, clearly cite the source and use quotations marks to identify the excerpts, or clearly acknowledge the source by indenting and single-spacing the reproduced selections.

Qualifying examination—An examination given to doctoral students to assess the level of mastery of knowledge in the discipline and in pedagogy. This examination determines if the doctoral student is qualified to continue as a candidate for the doctoral degree. Written portions of the examination are to be kept on file in the department for a period of five (5) years and the student has the right of access. The examination is a milestone in academic achievement by a doctoral student. (Master's and specialist's students, please see comprehensive examination.)

Readmission and reenrollment—Applications which must be filed if a graduate student breaks continuous graduate enrollment. If granted, the student may reenroll for the identified term. Readmission for non-degree seeking students is fairly routine. However, readmission for degree-seeking students is not guaranteed. The department should be consulted for its readmission policy.

Repeat policy—The number of graduate courses possible for repetition for the purpose of grade replacement is limited to two. These two courses may not exceed 8 credit hours.

Satisfactory progress—Successful advancement of a student toward his/her degree objective in the judgment of the faculty and dean of the College of Graduate Studies. To be deemed as making satisfactory progress, a graduate student must maintain a cumulative GPA of 3.00 or greater and **must** successfully complete sufficient and appropriate graduate courses. These graduate courses must apply toward the graduate curriculum in a manner consistent with completion of the degree objective within the established time limit.

70/30 Rule—A curricular stipulation for master's degree candidates specifying that no more than 30 percent of the total degree hours may be dually listed as undergraduate/graduate hours. Candidates with more than 30 percent of the degree program dually listed as undergraduate/graduate hours cannot graduate until the balance is attained. Normally, no more than 3 credits of thesis research (course 664) will be applied toward the minimum degree hour requirement. Careful curricular planning, in consultation with the graduate advisor, is essential.

Specialization—A curricular component of a graduate program representing a well-recognized subset or branch of the discipline. A specialization does not appear on the student's graduate transcript.

Stop-out—The period of time during which a student fails to register for successive academic sessions. If the stop-out period exceeds one academic year, the readmitted student may be required to fulfill degree requirements in existence at the time of readmission, rather than those at the original matriculation.

Time limits—The time elapsed from matriculation during which a student is required to complete the degree objective. Master's and specialist's students have six years from matriculation. Doctoral students have ten years from matriculation. These time limits are subject to extension, but only for compelling reason. If an extension is to be granted, it must be supported by the graduate program and approved by the dean of the College of Graduate Studies.

Transfer credit—Coursework taken at other colleges and universities which is formally transferred to the MTSU graduate record. In general, only course work taken while in graduate status **prior** to attending MTSU will be transferred and only if those courses were not used in partial satisfaction of degree requirements at the previous university. Transfer credit requires the approval of the graduate advisor and the dean of the College of Graduate Studies.

Admission to the College of Graduate Studies

The University welcomes applications from individuals qualified for graduate study. Applications for admission may be obtained from the Graduate Office, Cope Administration Building 114, or from this catalog. Applications for persons who are **not U.S. citizens** will be processed by the International Programs and Services Office, Cope Administration Building 202. In accepting admission to the College of Graduate Studies, a graduate student assumes responsibility for knowing and complying with the regulations and procedures set forth in this catalog, as well as any amendments or revisions which may ensue.

Graduate applicants must have earned a bachelor's degree from an accredited institution. Exceptions are those seeking the D.A. or Ed.S., which require a prior master's degree. However, under certain conditions undergraduate seniors with 98 semester hours of credit may be eligible to take graduate course work. (See the section on Graduate Courses below.)

Applicants admitted to graduate programs as **degree-seeking students** are those working toward a graduate degree. Degree-seeking students must be recommended for admission by the graduate program/department and approved by the dean of the College of Graduate Studies.

Students not seeking a degree are classified as **non-degree students.** Non-degree-seeking students must be admitted to the College of Graduate Studies. Non-degree students may take courses for a reasonable period of time, as determined by the dean of the College of Graduate Studies.

NOTE: Non-degree seeking students ***are not*** *permitted to enroll in* ***graduate*** *courses in the College of Business.*

All applicants to the College of Graduate Studies must have an overall undergraduate grade point average (GPA) of 2.75 (on a 4.00 scale) to be **considered** for unconditional admission. (Also see conditional admission.) Applicants who attended graduate school at another institution must have a minimum cumulative GPA of 3.00 on all graduate work and a minimum of 2.75 on all undergraduate work to be considered for unconditional admission. International students on an F-1 visa must meet requirements for unconditional admission.

Admission as a Degree-Seeking Student

All applicants wishing to pursue a graduate degree objective at MTSU **must** formally apply for admission to the College of Graduate Studies as degree-seeking students. At least four weeks prior to the anticipated date of registration, all degree-seeking applicants must submit the following materials to the Graduate Office:

1. an application for admission;
2. an application fee;
3. official transcripts certifying course work from each college or university attended. Official transcripts must be mailed directly from the institution to MTSU and must be received prior to completion of the first semester of enrollment except for the M.B.A. and the M.S. in Accounting/Information Systems for which all transcripts must be received prior to enrollment.
   a. If the applicant obtained the bachelor's degree at MTSU, only transcripts of work not posted on the MTSU transcript will be required.
   b. If the applicant obtained the bachelor's degree at another institution, that latter transcript is required. Transcripts of work not posted on the baccalaureate transcript are also required. All post-baccalaureate transcripts are also required.
   c. If the applicant earned a graduate degree at another institution, that latter transcript is also required. Transcripts of all post-baccalaureate work not appearing on the graduate transcript are also required;
4. letters of reference, if required by the graduate program. Please refer to the relevant graduate program information found on page 20 of this catalog;
5. satisfactory scores on the Graduate Record Examination (GRE), Miller Analogies Test (MAT), or Graduate Management Admissions Test (GMAT) tests. The GRE, MAT, or GMAT result is used in the evaluation of the academic qualifications of all graduate applicants. Each graduate program has identified a minimum combined GRE or MAT score (GMAT excepted) that it considers indicative of potential for a high level of academic performance. However admission decisions will be based on the overall academic record of the applicant (particularly in comparison with other applicants being accepted into the program), as well as other relevant materials such as letters of recommendation.

   NOTE: Both ETS and the GRE Board have advised that a combined GRE score should not be used as an absolute cutoff for admissions decisions, but rather should be used as part of an overall evaluation of applicants. The GRE Board statement reads: ***"A cutoff score based only on GRE scores should never be used as a sole criterion for denial of admission."*** *The College of Graduate Studies subscribes to this principle;*
6. all international applicants must score at least 525 on the Test of English as a Foreign Language (TOEFL) or 85 on the University of Michigan English Proficiency Exam (UMELI);
7. international applicants on F and J visas must provide verification of financial support prior to admission, as re-

quired by the United States Immigration and Naturalization Service. Further information may be obtained from the International Programs and Services Office.

Each graduate program may have additional requirements including application deadlines. Applicants should refer to page 20 of this catalog, peruse the graduate program description in this catalog, and/or contact the graduate advisor in the relevant department for specific requirements.

An applicant not meeting University or program requirements for admission as a degree-seeking student may appeal to the individual department for special consideration. If recommended for admission by the department, the dean of the College of Graduate Studies has final approval or denial authority.

Admission as a Non-Degree Student

Admission to some graduate courses is made available to qualified applicants who wish to enhance their post-baccalaureate education, yet who do not seek a graduate degree. Applicants wishing to be admitted as non-degree graduate students must:

1. complete an application for graduate admission;
2. pay an application fee;
3. submit an official transcript certifying receipt of the bachelor's or post-baccalaureate degree.

International students on an F-1 visa may not be admitted to graduate study as non-degree students.

Not all courses offered at the University are available for non-degree students. Information concerning eligibility for specific graduate courses may be obtained from individual departments.

*NOTE: Non-degree seeking students **are not** permitted to enroll in **graduate** courses in the College of Business.*

Non-degree-seeking students who wish to change to degree-seeking status must meet Graduate Studies' admission requirements and specific graduate program admission requirements to be eligible for **consideration.**

If transfer to degree-seeking status is approved, appropriate semester hours earned while a non-degree student may be applied toward a degree program if approved by the graduate advisor and the dean of the College of Graduate Studies.

Conditional Admission

Occasionally degree-seeking applicants may not meet all the requirements necessary to be recommended for unconditional admission. For example, they may have low undergraduate GPAs, lack some prerequisite courses, have low test scores, etc. However, the overall application materials may suggest there is substantial potential for academic success, thus making outright denial counterproductive. In these cases, **temporary** conditional admission into a graduate program may be granted by the dean of the College of Graduate Studies, upon the recommendation of the graduate advisor. Continuation in the program as a degree-seeking student is contingent upon fulfilling specific requirements stipulated in the conditional admission letter. In order to continue in the program, the written conditions must be completed within one year after matriculation. A registration hold will be placed on the student for the applicable term to ensure that the stated conditions are fully met.

Admission of MTSU Faculty Members and/or Administrators

Members of the faculty and/or administration of MTSU are eligible for admission to the College of Graduate Studies, just as any other applicant. They may not take over 6 semester hours of coursework during any semester. Faculty at the rank of assistant professor or higher or administrators of equivalent ranks may not be admitted to the doctoral program. If instructors who are in the D.A. program are appointed to assistant professor rank, they must discontinue the doctoral program.

Graduate Courses

Ordinarily only graduate students should register for courses numbered 500 or above. However, any MTSU undergraduate student having completed 98 semester hours of undergraduate credit is eligible to take graduate courses. Students in Business Administration, Accounting, and Information Systems are not eligible.

Undergraduate students wishing to take graduate courses must obtain permission from the graduate program and the Office of Graduate Studies, CAB 114. Permission is not guaranteed. Not all graduate courses are offered to undergraduate students.

Students may not enroll in 700-level courses in the departments of Elementary and Special Education and Educational Leadership unless they are seeking an Education Specialist or Doctor of Arts degree. Non-degree seeking students are not permitted to enroll in 700-level courses.

Readmission (Re-enrollment)

The Graduate Office should be contacted for all matters concerning readmission, and applications may be obtained there. A readmission application is required from any student who missed one or more semesters, regardless of the reason for the "stop-out." (See glossary.)

For non-degree-seeking post-baccalaureate students, readmission is generally routine and is granted by the dean of the College of Graduate Studies, but it is not guaranteed.

For degree-seeking students, readmission is not guaranteed. Each graduate program may have a specific readmission policy and should be contacted for information. Readmission requires the recommendation of the graduate program and approval by the dean of the College of Graduate Studies. Some graduate programs regularly allow readmission if the "stop-out" period is no more than one year; others are more restrictive.

Re-enrollment Following Suspension

Readmission of a suspended graduate student is not guaranteed. If readmission is granted to a suspended student, reenrollment cannot occur until at least one term (exclusive of summer) has gone by.

Auditing Courses

An auditor is one who enrolls and participates in a course without expecting to receive academic credit. The same registration procedure is followed and the same fees charged as for courses taken for credit. An audited course is not applicable to any degree or certificate.

Regular class attendance is expected of an auditor. Students interested in auditing a course should discuss course requirements with the instructor, prior to enrolling. Failure to meet course requirements may result in an auditor being removed from the course at the request of the instructor. A successful audit will be recorded on the transcript with the designation NC. Any petition to change from audit to credit or credit to audit must be processed by the last day to add a class. Requests to change from credit to audit after the deadlines must be approved by the dean, College of Graduate Studies.

Hours After the Master's Degree

The Tennessee Board of Education has ruled that teachers may count any graduate work received after the master's degree toward the next pay raise, per current guidelines. No credit will be given for repeated work. The student must request the Office of Teacher Licensing to send proper credentials to the State Department of Education and/or to the applicable local officials.

Registration

The schedule book contains information concerning registration procedures.

Student Identification Cards

All students should have a permanent ID card with a magnetic strip on the back. The card is required to receive a variety of services on campus including cashing checks, admission to athletic and special events, admittance to the Recreation Center, checking out library materials, obtaining meal tickets, and using RAIDER FUND$. The ID card will be validated automatically when all fees are paid. All students must have an ID card.

The first card is issued at no charge; however, there is a $10 charge for replacing lost or stolen IDs. If the card breaks or is damaged, it should be returned to the ID office and a new card will be issued at no charge.

Catalog

This catalog is produced for the convenience and benefit of graduate applicants and enrollees and is revised every two years. In the interim period, changes in university and/or graduate program requirements may be approved which apply to new applicants or admittees (see page 6 for additional information). Thus the information contained herein should not be construed as binding or inferred as an academic contract. New graduate students should request a copy of graduate program requirements in existence at the time of matriculation. These will be the requirements which must be fulfilled to result in conferral of the degree objective. Notwithstanding, should graduate requirements change while a student is still enrolled, he/she will have the choice of opting for the new requirements or following the original plan in existence at matriculation, subject to any necessary substitutions.

GRADUATE
STUDIES

Expenses

The question of costs while attending the University is important to every student. It is difficult, however, to accurately estimate yearly expenditures; expenses vary according to the nature of the curriculum, the place of residence (whether in-state or out-of-state), and the student's own habits and needs. It is possible to live simply and to participate in the life of the student community on a modest budget. The best help the University can offer the student in budget planning is to provide available figures for expenses.

Health service and admission to athletic events are available to any currently enrolled student. The payment of the appropriate fees will permit any combination of graduate and undergraduate courses to be taken that may be required or approved. Charges for all coursework will be assessed by course level.

All fees are for the academic year 1999-2000 and are subject to change by action of the Tennessee Board of Regents. The new fee amounts will be published each year when approved by the Tennessee Board of Regents (usually around July 1). The updated rates will be available in July on the MTSU web site at http://www.mtsu.edu/~bursarmt.

Housing fees are for 1999-2000, but are subject to TBR approval.

Registration Fees

Maintenance Fees

In-State Students	
Full-time (per semester, 12 hours and over)	$ 1,010.00
Graduate (10 hours or more)	1,356.00
Part-time (per credit hour)	
Undergraduate	90.00
Graduate	137.00
Late Registration Fee	25.00
Out-of-State Students*	
Full-time Students (per semester, 12 hours and over)	
Undergraduate	3,568.00
Graduate	3,914.00
Part-time Students (per credit hour)	
Undergraduate	314.00
Graduate	361.00
Late Registration Fee	25.00
Debt Service Fee	
Full-time (per semester)	50.00
Part-time (per credit hour)	4.00
Technology Access Fee	
Full-time (per semester)	100.00
Part-time (per credit hour)	8.00
Student Activity Fee	
Full-time (per semester)	65.00
Part-time (per credit hour)	5.00
Recreation Activity Fee	
Full-time	15.00
Part-time	15.00
SGA Student Activity Fee (required of all students registering for 7 hours or more)	10.00

**Included in these rates are charges for out-of-state tuition as follows:*
1. $2,558.00 for full-time students
2. $224.00 per credit hour for part-time students

Summer Registration Fees (Summer 2000)

NOTE: Fees are charged per hour for all classes. NO maximum applies for summer.

In-State Students	
Undergraduate	$ 90.00 per hour
Graduate	137.00 per hour
Out-of-State Residents	
Undergraduate	314.00 per hour
Graduate	361.00 per hour
Debt Services Fee	4.00 per hour
Technology Fee	8.00 per hour
Recreation Fee (Non-refundable)	15.00
Student Activity Fee	$5.00 per hour

Campus Housing Expenses

Reservations	
Fall and Spring Semesters, required prepayment	$200.00
Spring Semester only, required prepayment	$100.00
Summer Session, required prepayment	$125.00
1999-2000 Room/Apartment Rates - Single Students Residence Halls (shared bedroom, quad bath; shared bedroom, community bath)	
Cost per semester	$960.00
Summer Session I	$169.00
Summer Session II	$282.00
Summer Session III	$564.00
Session IV	$282.00
All Summer School	$733.00
(private bedroom)	
All residence halls, per semester	$1,680.00
Limited availability; summer not available	
Abernathy, Ezell, and Womack Lane Apartments (shared apartment, shared bedroom)	
Cost per semester	$1,090.00
Summer Session I	$192.00
Summer II	$321.00
Summer III	$642.00
Summer IV	$321.00
All Summer School	$834.00

Womack Lane and Scarlett Commons
(shared apartment, private bedroom)

Womack Lane Apartments	
Cost per semester	$1,220.00
Summer I	$215.00
Summer II	$359.00
Summer III	$718.00
Summer IV	$359.00
All Summer School	$933.00

Scarlett Commons	
Cost per semester	$2,100.00
Summer I	$69.00
Summer II	$115.00
Summer III	$230.00
Summer IV	$115.00
All Summer School	$299.00

Womack Lane Apartments - Families	
(one bedroom, unfurnished)	
Cost per semester	$1,890.00
Summer I	$291.00
Summer II	$485.00
Summer III	$970.00
Summer IV	$485.00
All Summer School	$1,261.00
(one bedroom, semi-furnished)	
Cost per semester	$2,180.00
Summer I	$335.00
Summer II	$559.00
Summer III	$1118.00
Summer IV	$559.00
All Summer School	$1,453.00
(two bedroom, unfurnished)	
Cost per semester	$2,151.00
Summer I	$331.00
Summer II	$552.00
Summer III	$1,104.00
Summer IV	$552.00
All Summer School	$1,435.00
(two bedroom, semi-furnished)	
Cost per semester	$2,441.00
Summer I	$376.00
Summer II	$626.00
Summer III	$1,252.00
Summer IV	$626.00
All Summer School	$1,628.00

NOTE: The rates quoted above are those in effect for the 1999-2000 academic year. For the 2001-2002 academic year, a five (5) to ten (10) percent increase for inflation is likely. Room rents are subject to change by action of the Tennessee Board of Regents. Each student will pay the amount in effect at the time of registration. The University reserves the right to correct errors in student fee assessments and charges which are discovered subsequent to initial billings and fee statements. Apartment summer sessions noted with an asterisk are available only to those residents who have signed a license agreement and made prepayments for the subsequent academic year beginning in August. Residence hall summer sessions are restricted to specific locations.

Other Applicable Charges

Admission application fee	
Undergraduate	15.00
Graduate	25.00
International	30.00
Automobile registration—academic year:	
Faculty/administration/staff	65.00
Open parking at core of campus	45.00
Family Housing parking	45.00
Perimeter parking	30.00
Students and employees with disabilities	10.00
Automobile registration—summer only:	
Faculty/administration/staff	33.00
Open parking at core of campus	23.00
Family Housing parking	23.00
Perimeter parking	15.00
Students and employees with disabilities	6.00
Graduation fee, payable two months in advance of convocation:	
Associate	25.00
Baccalaureate	30.00
Master and Specialist	35.00
Doctor of Arts	45.00
Diploma insert (after the first)	10.00
Dissertation binding (1 original and 4 copies) and microfilming (doctor's degree)	91.00
Thesis binding (master's degree) (1 original and 3 copies)	37.00
Extra copy thesis (or dissertation binding)	9.20
Graduate entrance tests:	
Miller Analogies	33.00
Graduate Record Exam	56.00
Graduate Management Admission Test	70.00
ID card replacement	10.00
Music, individual instruction, 2 lessons each week	110.00
1 lesson each week	55.00
Nursery school, semester (4 days per week)	150.00
Post Office box rent each semester (required of all students registering for 12 hours or more)	8.00
Day Care Fees (per week)	
Full-time (M-F)	$50.00
Part-time (MWF)	$30.00
Part-time (TTH)	$20.00

No student will be allowed to pre-register, register, or receive a grade report or transcript of credits until all accounts are settled. A student will not be officially enrolled until all fees are cleared through the Business Office.

Late Registration

Students who complete registration (including the payment of fees) during the late registration period will be charged a $25.00 late fee.

Matriculation Fee for Incompletes

If a student receives an "I" for a course, he or she need not re-register or pay fees for the course every semester until the course is completed. Such students should work only with the course instructor to complete grade requirements.

Returned Checks

Acknowledged bank errors excepted, a $20.00 service charge will be assessed for each bad check, whether given in payment of fees, for purchase of books, cashed by the University for the personal convenience of the student, or for any other reason. The University will decline to accept checks from any student who has checks returned by the bank more than once. An **additional** $25.00 will be assessed for any bad check given in payment of registration fees.

Automobiles

All privately-owned or operated vehicles for use on the campus must be registered annually with Parking Services and must display an official registration permit (see above for charges). For more information or clarification, please refer to **Traffic and Parking Regulations,** available in the Parking Services Office.

Auditing Charges

An auditor is one who enrolls and participates in a course without expectation of receiving academic credit. The same registration procedure is followed and the same fees charged as for courses taken for credit. An audited course is not applicable to any degree or certification program.

Regular class attendance is expected. Other course requirements, which may be obtained in writing from the instructor, will vary depending upon the nature of the course. Students interested in auditing a course should discuss course requirements prior to enrolling. Failure to meet course requirements may result in the auditor's being withdrawn from the course at the request of the instructor. A successful audit will be recorded on the transcript with the designation NC.

A change from audit to credit or credit to audit must be processed by the last day to add a class. Graduate students who request to change after the deadline must receive approval by the department chair and the dean, College of Graduate Studies.

Persons 60 years of age or older or disabled persons suffering from a permanent total disability which totally incapacitates such persons from working at an occupation which results in an income (T.C.A., Section 49-7-113) who are domiciled in Tennessee may audit courses at any state-supported college or university without paying tuition charges. Registration under this program is on a space-available basis; therefore, students cannot priority register. Class selection should be processed on the first day of classes for the term or session. Proof of age or disability must be provided.

65-Year-Old/Disabled Credit Student

Persons 65 years of age or older or disabled persons suffering from a permanent total disability which totally incapacitates such persons from working at an occupation which results in an income (T.C.A., Section 49-7-113) who are domiciled in Tennessee may register for classes for credit by paying a service fee not to exceed $75 per semester. Registration under this program is on a space-available basis; therefore students cannot priority register. Class selection should be processed on the first day of classes for the term or session. No late fee is charged. An application fee is required. In addition, the applicant must be eligible for admission and submit proof of age or disability.

Additional Charges

The University reserves the right to increase the charges listed herein or to add new ones whenever such increases or additions are found to be necessary.

Board

All freshman men and women living in the residence halls during fall and spring semesters will be required to participate in a freshman meal plan. All other students may secure meals in the University cafeterias or grill either through optional meal plans available from the food service or a meal-to-meal cash basis.

Deferred Payment Plan

Although all charges are due and payable in full at the beginning of each term, students in **good financial standing at MTSU** may defer payment of up to 50 percent of their registration, housing, and freshmen meal plan fees for the fall and spring semesters. The deferred payment plan is not available for summer terms.

To be eligible for the Deferred Payment Plan, each participant must make a minimum down payment of 50 percent of the registration fees, residence hall rent, and freshmen meal plan costs. **The balance due must be $400 or more after all discounts, waivers, financial aid, and other credits are applied.** A student who fails to make timely payments in a previous term may be denied the right to participate in the deferred payment plan in future enrollment periods. A student who is denied participation may be allowed to participate again only after completion of payment in full for two consecutive terms which allow deferments (fall or spring terms). Any student who makes payment with a check which is subsequently returned will be denied participation in the Deferred Payment Plan in all future terms.

The amount deferred will be payable in two monthly installments. For the fall term, installment payments are due by **October 1** and **November 1**. Payments for the spring term are due **March 1** and **April 1.** The University is not obligated to send reminder notices before the payment is due. Participants in this plan must apply all discounts, waivers, credits, and financial aid, including student loans, toward payment of registration fees before a deferment will be considered. Financial aid and other credits received after the initial payment will be applied to the remaining balance, and future amounts due will be recomputed. No refunds can be made until all fees are paid in full. Students who participate in the Deferred Payment Plan may not pay housing charges in installments in the same term. Students must select either the Deferred Payment Plan or the Housing Deferment Plan. **Students will not be withdrawn for failure to pay the second or third payments. However, the balance must be paid in full before the student can pre-register for future terms even if preregistration is prior to the due date.**

Each participant will be charged a **$10.00 service fee** each term to defray administrative costs. This fee is payable along with the 50 percent down payment on or before the registration fee payment deadline. An additional **late payment charge of $25** will be assessed for each installment not paid on or before the tenth day of the month that a payment is due. Students who make payments with checks that are returned will be charged a $20 return check service fee as well as any applicable late fees.

If a payment is not received in the Business Office by the scheduled payment due date, the University will withhold all services from the student, including grades, transcripts, and future registration until the fees have been paid in full including any assessed late fees.

All existing rules and policies pertaining to returned checks, refunds, withdrawals, dropped classes, and collection costs are applicable to the Deferred Payment Plan.

Payment of the minimum amount due on the Deferred Payment Plan finalizes registration. The class schedule will not be dropped. **It is not necessary to also confirm on TRAM or WebMT.** The Deferred Payment Plan service fee, late fee, and minimum amount are effective for 1998-99 and are subject to change in future terms.

Additional fees for classes added after fee payment are due before the late registration fee payment deadline. Any unpaid fees after this date will be processed as a deferred payment. The $10 Deferred Payment Plan service fee and any applicable $25 late payment fees will be charged.

Questions regarding the Deferred Payment Plan should be directed to the Bursar's Office at (615) 898-2761.

Refund of Fees

NOTE: No refund of housing fees, registration, or other fees will be made to students who are dismissed or suspended.

Fall and Spring Semesters*

Those students who withdraw from the University within 14 calendar days after the beginning of classes for the fall and spring terms will be refunded 75% of their maintenance fees, debt service fee, student activity fee, and technology access fee or music fees (if any). Those withdrawing after the 14th day but before 25% of the time period covered by the term has passed will be refunded 25% of their fees. No refunds will be made beyond the 25% period. Specific dates for each term are given in the class schedule book for that term. The same refund schedule applies to students who drop to an hourly load below full-time. The percentage then applies to the difference between the new fees calculated on an hourly basis and actual fees paid. All other fees are non-refundable.

Drop date for courses which meet for a shorter time period than normal will be prorated based upon the course drop dates for the full term.

Summer*

For summer sessions and other short terms, the 75% refund period and the 25% refund period will extend a length of time which is the same proportion of the term as the 75% and 25% are of the regular terms.

Students who pre-register for a summer session course and find it necessary to drop or withdraw before the first day of class for that session will be refunded 100% for that course. Otherwise the regular refund schedule will apply.

Specific dates applying to each session are listed in the current summer schedule book.

**Students who register after the official registration period and withdraw from the University will have their refunds calculated as if registration had taken place on the official day of registration.*

Refunds of Housing Expenses

Residence Halls

For 1999-2000, applications for residence halls and on-campus apartments must be accompanied by a pre-payment in the amount of $200.00. Pre-payment is a security of good faith that denotes the applicant's serious intent to reside in on-campus housing. Prepayment fees are $200.00, $100.00 of which is applied toward fall semester charges, and $100.00 of which is applied toward spring semester charges. This prepayment is refundable prior to check-in according to the following schedule. All cancellations must be submitted in writing to the Housing and Residential Life Office. Prepayment amounts represent 25% of the total semester fee and may vary from year to year. Students should contact Housing and Residential Life to verify specific changes.

Academic Year (Fall and Spring) Applications
1999-2000

Date of Cancellation	Refund Amount
By May 1	$150.00
By June 1	$100.00
By July 1	$ 50.00
After July 1, but prior to the first check-in day in August	$ 00.00

Spring Semester Only Applications 2000

Date of Cancellation	Refund Amount
By October 15	$ 50.00
After October 15, but prior to the first check-in day in January	$ 00.00

Summer Housing

Details regarding application, fees, and refunds for summer assignment to residence halls and on-campus apartments may be obtained by contacting the Housing and Residential Life Office at (615) 898-2971.

Housing Fees

The refunds of residence hall fees after registration will be prorated on a weekly calendar basis when the student is forced to withdraw from the residence hall because of approved medical reasons confirmed in writing by a licensed physician.

Full refund will be made in the case of death. No refund will be made other than under the above conditions, except as specified in the Student Housing Agreement.

Direct Deposit of Financial Aid Credit Balance Refunds

Students who have a credit balance due to financial aid have the option of having the excess aid balance direct deposited into their checking or savings account. If financial aid has been credited to the student's account, the refund will be deposited into the student's bank account and available for use on the first day of refund disbursement if the student has met all financial aid eligibility requirements and/or completed all required paperwork.

Students must complete an authorization form at least 14 days prior to the first day of classes. Financial aid proceeds will not be transferred to the student's banking account without authorization. An authorization form can be obtained from the Business Office, Cope Administration Building, Cashier Window 9, or Room 103 or by calling (615) 898-5716. Direct Deposit Authorization Forms are available also via the web at http://www.mtsu.edu/~bursarmt/direct.html.

This authorization will remain in effect until terminated by the student.

Financial Aid

The Office of Student Financial Aid, located in Cope Administration Building 218, provides assistance for qualified students. Office personnel will provide forms and help to seek available aid for graduate students. Possible sources follow:

Federal Stafford Loan Program is a low-interest student loan. To apply for a Stafford loan, a student must have the results of his/her Free Application for Federal Student Aid (FAFSA) on file, be attending at least five graduate hours, and be in good standing. Subsidized loans are based on need; maximum limit for a two-semester period is $8,500 (lifetime limit is $65,500 which includes any undergraduate Stafford loans). Graduate students may qualify for additional unsubsidized Stafford loans up to $10,000 for a two-semester period (lifetime unsubsidized limit is $73,000). All loans are based on cost of attendance, estimated financial contribution (EFC), other aid received, and the above limits. Students may not be qualified for the full amount listed above.

Federal Perkins Loan is a low interest loan from the federal government based on need. To apply for this loan, the student must have the results of his/her Free Application for Federal Student Aid (FAFSA) on file and be in good standing with the Financial Aid Office.

Federal College Work-Study Program provides federal funding for campus work. To apply, students must have the results of their Free Application for Federal Student Aid (FAFSA) on file, be attending at least five graduate hours, and be in good standing with the Financial Aid Office. Students are paid semi-monthly for hours worked up to 20 hours per week.

Assistantships and Fellowships

Limited numbers of graduate teaching assistantships, graduate research assistantships, minority scholarships, and doctoral fellowships are available. Applications may be obtained from the College of Graduate Studies or from the appropriate academic department. Information on stipends is also available from these sources. An individual is expected to be in good standing, i.e., having met the requirements for admission to graduate school (including satisfactory test scores) and having a cumulative GPA of 3.00 or more.

Academic Regulations

Academic Standards—Retention, Probation, and Suspension

A master's or specialist in education student must maintain a cumulative GPA of **at least 3.00** for all graduate work completed at MTSU, as well as in the major, and a doctoral student must maintain a minimum GPA of **3.25**. Six semester hours of C grade coursework may be applied toward a master's or specialist's degree, but no courses with a C grade are acceptable toward the doctorate. Courses with a grade lower than C may not be applied toward any graduate degree requirements. A graduate student failing to meet the applicable minimum cumulative graduate GPA retention standard listed below **or** whose cumulative graduate GPA is less than 3.00 for three consecutive semesters will be placed on **academic probation** for the subsequent term. Probation in itself has no serious consequences other than to alert the student of potential academic problems and the requirement to (re)establish satisfactory academic status. Conversely, however, **suspension** is quite serious. Should a suspended student not be readmitted, it would result in termination of the student's graduate status.

In addition to minimum GPA standards, degree-seeking students are expected to take appropriate graduate courses towards their degree objective, as determined by the graduate program. Non-degree seeking graduate students are expected to take graduate courses. The number of "credit hours" listed below **in bold** applies only to those courses graded A through F, and not to S/U graded courses.
NOTE: In addition to the guidelines below, the two-course repeat policy may result in a dramatically-increased GPA.

The guidelines below represent the absolute minimum GPA to avert graduate academic probation status. However, a cumulative GPA greater than or equal to 3.00 is required for satisfactory academic progress at the graduate level.

1-6 credit (quality) hours completed .... 2.00 GPA
(If 6 graduate hours have been completed, a GPA of 2.00 reflects a quality or grade point deficit of 6. Next term, unless a course is repeated, 3 or more hours of B grade, with no B- or lower grades, will generate a GPA greater than or equal to 2.33.)

Greater than 6-9 credit (quality) hours completed .... 2.33 GPA
(If 9 graduate hours have been completed, a GPA of 2.33 reflects a grade point deficit of 6. Next term, unless a course is repeated, 3 or more hours of B grade, with no B- or lower grades, will generate a GPA greater than or equal to 2.50.)

Greater than 9-12 credit (quality) hours completed .... 2.50 GPA
(If 12 graduate hours have been completed, a GPA of 2.50 still reflects a grade point deficit of 6. Next term, unless a course is repeated, 3 or more hours of B grade, with no B- or lower grades, will generate a GPA greater than or equal to 2.60.)

Greater than 12-15 credit (quality) hours completed ...... 2.60 GPA
(If 15 graduate hours have been completed, a GPA of 2.60 still reflects a grade point deficit of 6. Next term, unless a course is repeated, 3 or more hours of A grade, with no B- or lower grades, will generate a GPA greater than or equal to 2.83.)

Greater than 15-18 credit (quality) hours completed ...... 2.83 GPA
(If 18 graduate hours have been completed, a GPA of 2.83 reflects a grade point deficit of 3. Next term, unless a course is repeated, 3 or more hours of B grade, with no B- or lower grades, will generate a GPA greater than or equal to 2.85.)

Greater than 18-21 credits (quality) hours completed .... 2.85 GPA
(If 21 graduate hours have been completed, a GPA of 2.85 still reflects a grade point deficit of 3. Next term, unless a course is repeated, 3 or more hours of A grade (or 3 hours of A- and 3 hours of B+ grades), with no B- or lower grades, will generate a GPA greater than or equal to 3.00 and the grade point deficit will disappear.)

Greater than 21 credits (quality) hours completed .... 3.00 GPA
(Master's and Educational Specialist students must maintain a cumulative GPA greater than or equal to 3.00 and Doctoral students must maintain a cumulative GPA greater than or equal to 3.25 in all remaining terms.)

A student on academic probation who fails to meet the above applicable standard during the next term in which enrolled will be suspended.
NOTE: Individual graduate programs may propose higher minimum grade standards than the above.

Access to Records

The MTSU policy concerning student access to educational records is printed on page 36.

Advancement to Candidacy—Filing a Form

In consultation with the graduate advisor, each degree seeking student must file a formal outline of the degree program on a Candidacy Form available at the Graduate Office. The Candidacy Form requires the approval of the major professor, the reader(s), and the graduate analyst. A master's or specialist's student **may not** register for more than 24 semester hours unless an approved Candidacy Form is on file. In general, a doctoral student will not be permitted to register for more than 24 semester hours unless an approved Candidacy Form is on file.
NOTE: Some departments require advancement to candidacy prior to the completion of 24 semester hours.

Appeal of Academic Suspension

A student may seek reversal of academic suspension, fo cause, by petitioning the Graduate Council Appeals Committee. Appeal forms are available in the College of Graduate Studies, Cope Administration Building. Appellants should contact the Graduate Office for the applicable deadline dates

Appeals, Other

Graduate students have the right to appeal **for cause** any decision affecting their academic standing as a graduate student. **Cause** excludes grade appeals, which are under the purview of the MTSU Grade Appeal Committee. The Appea Advisory Committee of the Graduate Council is an ad ho committee reporting to the dean of the College of Graduate

Studies. The committee is convened at the discretion of the dean of the College of Graduate Studies.

The Graduate Council and the College of Graduate Studies have approved in principle the document *Appeal Advisory Committee of the Graduate Council*. Copies of this document are made available to all graduate students at the Graduate Student Orientation and are also available in the College of Graduate Studies, Cope Administration Building, Room 114.

Candidacy—Changing a Form

Changes in degree programs are permitted upon proper filing and approval of a Change in Candidacy Form, which is available at the Graduate Office.

Classes—Adding, Dropping, or Changing Sections

The procedures and deadlines to drop, add, or change a class are listed in the appropriate class schedule book.

Classes—Cancellation of Scheduled Classes

The minimum enrollment requirement is ten students for upper-division and 500-level graduate classes; eight students for 600-level classes, and four enrollees for 700-level classes (exclusive of graduate research courses). Any class may be canceled if the number of enrollees is deemed insufficient; however no scheduled class may be discontinued without the approval of the dean of the undergraduate college in which the course is offered.

Examinations—Comprehensive (for Specialist's and Master's students; also see glossary)

This examination is scheduled by each department during the time period designated by the Graduate Office. Normally, the comprehensive examination may be taken no more than twice and failure to pass the comprehensive on the second attempt terminates one's degree program. Any exception to this "twice-only" rule must be recommended by the graduate program and approved by the dean of the College of Graduate Studies.

Examinations—Qualifying

Please see the section under Doctor of Arts Degree and/or the Glossary.

Examinations—Other

Any graduate student may be required to take one or more additional tests designed to measure general educational achievement and/or achievement in selected major areas.

Graduate credit may not be earned by CLEP or Special Examination.

Grades—Grading System

The following notations are used by faculty of the University to indicate the quality of the work performed by students taking graduate courses:

A, A-
B+, B, B-
C+, C, C-
D+, D, D-
F

Grades That Do Not Influence Grade Point Average

W - Withdrawal
NC - No credit (audit)
I - Incomplete
S - Satisfactory
U - Unsatisfactory
P - Pass

The P/F grade is given only in those courses with prior approval to use pass/fail grading. Courses may be taught on a pass/fail basis only after approval of the Graduate Council. Course descriptions state if pass/fail grading applies.

Pass or Satisfactory/Unsatisfactory grades are not used in determining the grade point average. However, they do count toward graduation credit requirements and are treated in every other respect as being equivalent to traditionally graded courses.

The grade I indicates that the student has not completed all course requirements due to illness or other uncontrollable circumstances, especially those which may occur toward the close of the term. Mere failure to make up work or turn in required work on time does not provide a basis for the grade of I unless the extenuating circumstances noted above are acceptable to the instructor. When a student fails to appear for a final examination without known cause, the grade to be reported should be determined as follows: If the student has done satisfactory work to that point, the grade I may be reported on the assumption that the student was ill or will otherwise present sufficient reason for official excuse; if the student has attended irregularly and has not done satisfactory work to that point, the grade F should be reported.

The "incomplete" must be removed during the succeeding semester, excluding summer. Otherwise, it converts to a grade of F. A student should not make up the "incomplete" by registering and paying again for the same course. The I grade carries no value until converted to a final grade.

Grades—Appeal of Course Grades

Student grievances concerning a course grade should be resolved by arbitration between student and faculty. The appeal must occur within forty days of the graduation date for each term. If an impasse exists, either party may request the department chair to investigate the circumstances. Since these findings become a part of grievance records, the department chair will record the findings and send a copy to student and faculty members. If the matter is not resolved at this level, the findings will then be forwarded to the dean of the college offering the course. If a resolution is not possible at this level, the dean will refer the matter to the Grade Appeals Committee. The Grade Appeals Committee will receive documents and testimony regarding the circumstances, will record its findings, and make recommendations to the provost/vice president for academic affairs for a decision. The student may appeal an unfavorable decision to the president of the University.

Grades—Grade Point Average (Quality Credits)

Grade points are numerical values assigned to letter grades in order to provide a basis for quantitative determination of grade (quality) point averages. The four-point system with pluses and minuses is used.

The following system is used in determining grade point average:

Grade		Grade Points
A	=	4.00
A-	=	3.67
B+	=	3.33
B	=	3.00
B-	=	2.67
C+	=	2.33
C	=	2.00
C-	=	1.67
D+	=	1.33
D	=	1.00
D-	=	0.67
F	=	0.00

The scholastic standing of a student is expressed in terms of grade point average (GPA). A GPA is the total number of grade points divided by the total number of credit hours (exclusive of P, S, and U credit hours) at Middle Tennessee State University, plus any transferred course work. For a grade of F, the credit hours count, but zero grade points are earned.

Intent to Graduate

An Intent to Graduate Form, available at the Graduate Office, must be filed by the student no later than the first week of the semester in which the student plans to graduate or no later than the end of the first week of summer Session II (for August graduation).

Prerequisites

The prerequisite for the graduate major is an undergraduate minor or its equivalent and/or the recommendation of the department chair. The prerequisite for the graduate minor is 12 semester hours of undergraduate course work in that area or its equivalent and/or the recommendation of the department chair or delegate. If prerequisite course work is marginally deficient, the student may be admitted to the College of Graduate Studies to make up the deficiencies concomitantly while taking graduate courses. Prerequisite courses do not apply toward meeting graduate program requirements.

Repeated Courses

A graduate student may repeat graduate courses in which a grade lower than B- was earned. However, there are certain restrictions and limitations. A **maximum of two courses**, not to exceed eight credits combined, may be repeated for a **grade change**, i.e., the grade in the second attempt **replaces** the grade in the first attempt. If a **third** or **subsequent** course is repeated by the student, there will be **no grade replacement**; i.e., **all attempts** will be used in the grade point average calculation. All attempts are recorded on the transcript.

Graduate students may not repeat a course in which they have previously earned the grade of A or B without written approval from the graduate advisor and dean of the College of Graduate Studies. If granted, both the original and repeated grades will count in the GPA calculation.

Student Load

A student's enrollment status is determined by the number of credit hours taken per term according to the following:
Full-time - 9 graduate hours
Three-quarter time - 7 graduate hours
One-half time - 5 graduate hours

Graduate students are limited to a maximum of 12 graduate hours per semester. If an exception is requested, overload forms must be signed by the graduate advisor and the dean of the College of Graduate Studies. Full-time status for students holding graduate assistantships is six (6) graduate semester hours. (This is not applicable to students receiving veterans benefits.)

Teacher Licensure

All applications for professional teaching licenses in Tennessee must be filed with the dean of the College of Education and Behavioral Science who is responsible for recommending each applicant from this University. All applicants for teacher licensing should furnish the Tennessee State Department of Education a report of scores attained on the Core Battery Tests of the National Teacher Examinations. A copy of the scores should be sent to the Office of the Dean, College of Education and Behavioral Science. MTSU verification of the scores will be forwarded with the Application for Licensure.

Post-Baccalaureate Teacher Education Program

The post-baccalaureate teacher education program is designed for individuals who have completed baccalaureate degrees but who did not complete teacher preparation. The College of Education and Behavioral Science requires candidates to address any course and program deficiencies in their undergraduate education to ensure the attainment of the knowledge and skills required in general education, professional education, and the major for the teaching field. Additional coursework and program requirements will be determined by the teacher licensure analyst. Transcript analysis forms for the post-baccalaureate program are available in the McWherter Learning Resources Center 173.

Post-baccalaureate students must also make formal application for admission to the teacher education program. Admission to teacher education is a prerequisite to enrollment in upper-division courses in Elementary Education (ELED), Reading (READ), Special Education (SPED) (except SPED 301), Foundations of Education (FOED), or Youth Education (YOED).

Time Limits

Students have six years after the date they matriculate to complete the requirements for a master's or specialist's degree. There is a ten-year time limit, after matriculation, to complete all requirements for the Doctor of Arts degree. Exceptions to these time limitations, for good cause, will be considered by the dean of the College of Graduate Studies when recommended by the graduate advisor and department chair.

Transcripts

Student and official copies of student's record are furnished free of charge upon written request by the student. No transcript will be provided for a student who has any financial indebtedness to the University or who has not completed admission procedures. Official transcripts from other institutions must be obtained directly from those institutions.

Transfer Credit

In general, only coursework taken while in graduate status, prior to attending MTSU, will be transferred and only if those courses were not used in partial satisfaction of degree requirements at the previous university. Coursework transferred or accepted for credit toward a graduate degree **must** represent graduate coursework relevant to the degree, with course content and level of instruction resulting in student competencies at least equivalent to those of students enrolled in the institution's own graduate degree programs. Transfer credit requires the recommendation of the graduate advisor and approval of the dean of the College of Graduate Studies.

No graduate credit may be obtained by correspondence or work experience. A maximum of 12 semester hours of residence credit (6 in the major area) may be transferred and applied on a master's or specialist's degree.

In the doctoral program, no more than 12 semester hours (only 6 semester hours in the major) beyond the master's degree may be transferred from other doctoral institutions.

Withdrawing from the University

Students finding it necessary to withdraw (completely separate) from the University after having selected classes for a future term should use the Telephone Response at Middle (TRAM), (615) 898-2000, or WebMT, http://www.mtsu.edu, to drop all classes. A student may also initiate the official withdrawal process in Keathley University Center 130. Consult the class schedule book for each term to determine whether withdrawal should be accomplished by TRAM or WebMT or through the associate dean of Student Life. Once classes have begun for the summer term, withdrawal for that summer term cannot be accomplished via TRAM or WebMT.

The Records Office will be notified of the withdrawal and will notify each of the student's professors regarding the withdrawal and its effective date as determined by the associate dean of Student Life.

The grade for a student who officially withdraws from the University will be determined by the student's academic performance prior to withdrawal. Withdrawal early in a term may result in no grades being assigned to the student. (The current schedule of classes carries dates governing withdrawal and appropriate grades.)

A student may not officially withdraw from the University after a date in the semester or term which is one week or less prior to the beginning of final examinations, except for reasons of mitigation or extenuation as shall be determined by the associate dean of students.

Any student who leaves the University without officially withdrawing will receive a grade of F for all work attempted.

A student under certain conditions may receive an administrative withdrawal from a single course or courses. Similar procedures are provided for a total severance from the University if conditions warrant. The following policy will determine the eligibility for an administrative withdrawal: The entry of W indicates that the student has been withdrawn from a course without reflection of grades. The entry of W results from a situation involving extreme extenuating circumstances as identified and originated with the University physician or counselors at the Counseling and Testing Center and/or the associate dean of students. The entry of W will be accomplished only with the full knowledge and written concurrence of the faculty member concerned.

Student Access to Educational Records

Definitions

Educational Records are those records, files, documents, and other materials which (1) contain information directly related to a student; and (2) are maintained by Middle Tennessee State University or by a person acting for the University. "Records" means information recorded in any medium, including, but not limited to, the following: handwriting, print, tapes, film, microfilm, and microfiche. Educational records do not include (1) personal notes, (2) records available only to law enforcement personnel, (3) employment records, (4) medical and psychiatric records (these are accessible by the student's physician).

A student is any person who is or has been enrolled at Middle Tennessee State University. An applicant who does not enroll or who is declared ineligible has no inherent right to inspect his or her file. Wherever "student" is used in reference to personal rights, an eligible parent of a dependent student has similar rights. This "eligible" parent is one who has satisfied Section 152 of the Internal Revenue Code of 1954 and who presents such proof to the custodian of the educational records. Normally this proof will be a certified copy of the parent's most recent Federal Income Tax Form.

Directory information includes the student's name, address (including e-mail), telephone listing, date and place of birth, major field of study, enrolled hours, student level (freshman, sophomore, etc.) participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. A student may request that such directory information not be released to anyone other than those persons defined as school officials. To do so, a Request for Non-Release of Directory Information must be signed in the Records Office, Cope Administration 106.

The request is valid until the student completes a Cancellation of Request for Nonrelease of Directory Information form at the Records Office or until enrollment ceases at MTSU. If the student re-enrolls and does not want directory information released, another Request for Nonrelease of Directory Information form must be completed.

A school official is a person employed by the university as an administrator, instructor, supervisor, or support staff member.

A legitimate educational interest exists if the official needs to review an educational record in order to fulfill his or her professional responsibility.

Having access to an educational record means being allowed to see the original record.

Release of Personally Identifiable Student Educational Records

Middle Tennessee State University shall not permit access to, or the release of, any information in the educational records of any student that is personally identifiable, other than directory information, without the written consent of the student, to any party other than the following:

1. MTSU officials and staff who have legitimate educational interests;
2. officials of other schools in which the student seeks admission;
3. appropriate persons in connection with a student's application for, or receipt of, financial aid;
4. federal or state officials as defined in paragraph 99.37 of the Family Educational Rights and Privacy Act of 1974;
5. state and local officials authorized by state statute;
6. organizations conducting studies for, or on the behalf of, MTSU for the purpose of assisting in accomplishing the University's stated goals, when such information will be used only by such organizations and subsequently destroyed when no longer needed for the intended purpose;
7. accrediting organizations, to carry out their functions;
8. parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954 (Written consent may be allowed from either of these separated or divorced parents subject to any agreement between the parents or court order. In the case of a student whose legal guardian is an institution, a party independent of the institution, appointed under state and local law to give parental consent, may be allowed to do so.);
9. in compliance with judicial order or subpoena, provided that the student is notified in advance of the compliance unless the issuing court or agency has ordered that the existence or the contents of the subpoena or the information furnished not be disclosed; or
10. appropriate persons in connection with an emergency if such knowledge is necessary to protect the health or safety of a student or other persons.

NOTE: With the exception of MTSU officials and staff who have been determined by the University to have legitimate educational interests, all individuals and agencies who have requested or obtained access to a student's record (other than directory information) will be noted in a record which is kept with each student's Educational Record. A request must be in writing stating the purpose of the request. This record will also indicate specifically the legitimate interest that the persons or agency had in obtaining the information.

Procedures for Accessing Educational Records

Eligible students have a right to inspect and review their educational records. To do so the student must request the custodian make the records available. The student may ask for an explanation and/or a copy of the record. (The price of the copies shall not exceed the cost of duplicating the record.) The records shall be made available within 45 days from the request. After consultation with the custodian the student may seek amendment of the records the student believes to be inaccurate, misleading, or otherwise in violation of the student's privacy rights. If there is a disagreement between the student and the custodian as to the correctness of the data contained in the record, the student may submit a request for a formal hearing. The request and the formal challenge to the content of the records must be presented in writing to the chair of the Student Appeals Committee. The chair shall call a meeting no later than 45 days after receipt of the written appeal and challenge. The committee will allow the student to present evidence to substantiate appeal and shall render a written decision to the student within 45 days after the meeting.

Complaints of alleged failure of the institution to comply with the Family Educational Rights and Privacy Act may be filed with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605.

NOTE: This procedure does not provide for a hearing to contest an academic grade.

Exclusions

Right of access does not include

1. financial records of parents or any information therein;
2. confidential letters and statements of recommendation which were placed in the educational record of a student prior to January 1, 1975;
3. records to which access has been waived by a student. (This applies only if a student, upon request, is notified of the names of all persons making confidential recommendations and if such recommendations are used solely for the purpose they were intended.)

Destruction of Educational Records

Educational records may be destroyed except that a student shall be granted access prior to destruction if such is requested.

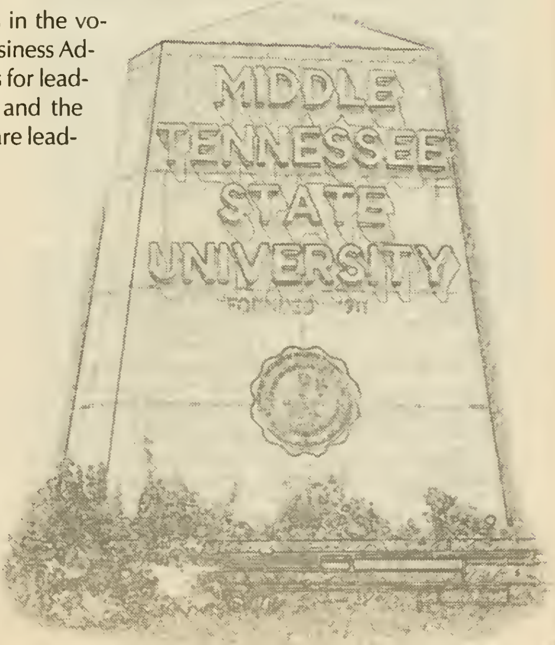
Informing Students

MTSU informs its students of the policy governing privacy rights of students' educational records by publishing the policy in the university catalogs. *A listing of the types of records and related information may be found in the undergraduate catalog.*

GRADUATE PROGRAMS

Graduate degrees are planned to help fulfill specific purposes. The Doctor of Arts degree is offered to educate university, community college, and junior college teacher/scholars in the fields of English, history, chemistry, economics, and physical education. The Specialist in Education degree is offered to educate administrators, teachers, and counselors at advanced levels for elementary and secondary schools.

Four degrees—the Master of Education, the Master of Arts in Teaching, the Master of Science in Teaching, and the Master of Business Education—are offered to educate public school teachers, supervisors, counselors, and administrators. The Master of Arts and the Master of Science degrees are offered to prepare candidates for further graduate study and research, for teaching at the junior college level, for professional positions in a variety of fields, and for positions of leadership with state and federal agencies. The Master of Vocational-Technical Education is offered to prepare leaders in the vocational educational field. The Master of Business Administration is offered to prepare candidates for leadership positions in business and industry, and the Master of Criminal Justice is offered to prepare leaders in the criminal justice system.



Doctor of Arts Degree

Middle Tennessee State University offers the Doctor of Arts (D.A.) degree in Chemistry, Economics, English, History, and Physical Education. An applicant for admission to this degree program must hold a master's degree from an accredited institution. The D.A. degree is offered for the purpose of developing doctoral-level expertise combining pedagogy with scholarly achievement (applied or theoretical) and research excellence in the fields of chemistry, economics, English, history, and physical education. The D.A. recipient is well prepared to teach at the collegiate level, including fulfilling professorial and similar advanced teaching positions. Above all, the D.A. recipient is a learned person who has demonstrated advanced educational leadership skills combined with the capacity to conduct independent scholarly investigation.

Programs Leading to the D.A. Degree

There are two alternatives, as described below.

Alternative I: Single Teaching Field
48 semester hours above the master's level with at least two-thirds of the program on the 700 level. No more than 6 semester hours of dissertation research (course 764) may apply to this 48-hour requirement. 500-level courses may not be applied.

a. The major (teaching field) includes at least 24 semester hours of course work, plus 6 semester hours of internship/externship, plus at least 6 semester hours for the dissertation research (course 764).

   *NOTE: Once a doctoral student has begun taking dissertation research, he/she is **expected** to enroll in **at least** 1 semester hour of dissertation research **until** the dissertation is **completed.** Thus, doctoral students normally enroll for more than 6 semester hours of dissertation research.*

b. The professional education core consists of at least 12 semester hours in higher education and must include courses FOED 752 and 756 and SPSE 754 and 755.

Alternative II: Two Teaching Fields
60 semester hours above the master's level with at least two-thirds of the program on the 700 level. No more than 6 semester hours of dissertation research (course 764) may apply to this 60-hour requirement. 500-level courses may not be applied.

a. The major (first teaching field) includes at least 18 semester hours of course work in the field (i.e., chemistry, economics, English, history, or physical education); plus 6 semester hours of internship/externship, plus at least 6 semester hours for the dissertation research (course 764).

   *NOTE: Once a doctoral student has begun taking dissertation research, she/he is **expected to** enroll in **at least** 1 semester hour of dissertation research **until** the dissertation is **completed.** Therefore doctoral students normally register for more than 6 semester hours of dissertation research.*

b. The second teaching field consists of at least 18 semester hours of coursework in any discipline which has a master's program (except Administration and Supervision, Curriculum and Instruction, or Aerospace Education). The fields of study from which the second teaching field may be selected are:

   Accounting/Information Systems
   Aerospace Administration
   Biology
   Business Administration
   Business Education
   Chemistry
   Computer Information Systems
   Computer Science
   Criminal Justice
   Economics
   English
   Exercise Science and Health Promotion
   Foreign Languages
   Health, Physical Education, Recreation
   History
   Human Sciences
   Industrial Studies
   Mass Communication
   Mathematics
   Music
   Psychology
   Reading
   School Counseling
   Sociology
   Special Education
   Vocational-Technical Education

c. The professional education core consists of at least 12 semester hours in higher education and must include courses FOED 752 and 756 and SPSE 754 and 755.

Advisory Committee

Each D.A. student has a three-person advisory committee constituted by the dean of the College of Graduate Studies; two are from the major field and one from higher education. The committee is recommended by the student, in consultation with the graduate advisor. If a curriculum comprising a major teaching field and a secondary teaching field is chosen, a fourth member representing the secondary field is appointed. If warranted, the committee membership may be reconstituted upon the approval of the dean of the College of Graduate Studies.

Beginning with acceptance into the doctoral program, the student should meet frequently with the advisory committee. The committee provides academic guidance to formulate a curricular plan best suited for the needs and interests of the student. The pre-candidacy stage permits optimal flexibility in the event of modified academic interests. Once the student has a well-formulated plan, he/she should petition for **advancement to candidacy.** Advancement to candidacy must occur by the completion of 36 semester hours of coursework. (See advancement to candidacy, below.)

Advancement to Candidacy

After having successfully completed a significant component of the curriculum (not to exceed 36 semester hours and including at least one course in the major and one in higher education), the student must file a Candidacy Form with the dean of the College of Graduate Studies. This degree plan, approved by the student's advisory committee, is listed on the Candidacy Form. The Graduate Office will notify the applicant after the degree plan has been approved. A student may not take the qualifying examination unless he/she has been advanced to candidacy.

Qualifying Examinations

The qualifying examinations are intended to assess whether a candidate is qualified to continue in a doctoral program. At the appropriate point in the doctoral program, following advancement to candidacy, the candidate must pass written and oral qualifying examinations. D.A. programs generally require that the qualifying examinations be taken during the last semester of prescribed course work exclusive of dissertation research.

These examinations are given at least one month before the close of the fall and spring semesters and summer session.

A satisfactory or passing performance on both the written and oral examinations means that the candidate is qualified to continue the program as planned. A less than satisfactory outcome on any phase(s) of the qualifying examination may result in additional academic requirements and/or a re-examination. A re-examination may be given only once. A second failing performance results in a recommendation to the dean of the College of Graduate Studies for academic dismissal. The student may appeal the dismissal recommendation, for cause, to the dean of the College of Graduate Studes.

Written Qualifying Examination

1. For Alternative #1, the written examination encompasses the candidate's major teaching field and higher education. The purpose of the written examination is to evaluate the candidate's overall knowledge of the field, integrative skills, ability to organize material, and competency in written expression. The maximum time limit for the written examinations is 12 hours: 8 hours in the major field and 4 hours in the higher education component.
2. For Alternative #2, an additional maximum 4-hour examination in the second teaching field is required.
3. The examinations are administered by the major department and by higher education.
4. The graded examinations are filed in the department office for a period of five (5) years, and the student has the right of access to his/her graded examination.

Oral Qualifying Examination

The oral examination is given by the candidate's advisory ommittee and covers the candidate's field of specialization nd general knowledge. The committee evaluates the andidate's breadth of knowledge of the field(s), integration nd problem-solving skills, competency in oral expression, nd potential for conducting independent scholarly investiation.

Dissertation Information

rospectus

1. The presentation of the dissertation prospectus is scheduled by the student, in consultation with the dissertation committee, as soon as practicable so as to enable the candidate to get a timely start on the research phase of the dissertation. **In no event shall the prospectus presentation precede advancement to candidacy.**
2. The prospectus must be distributed to all members of the dissertation (advisory) committee at least one week prior to the scheduled presentation.
3. The presentation of the dissertation prospectus is open to faculty.
4. The dissertation committee may impose additional conditions, such as requiring extra statistical analyses, revision of protocols, or knowledge of a foreign language appropriate for the dissertation research.
5. If relevant, the committee provides the candidate with procedures for requesting consent and clearance by the MTSU Institutional Review Board.
6. Immediately upon completion, the committee orally informs the candidate of its decision on the prospectus. The committee then provides the candidate with a written synopsis of the decision, including any applicable additional requirements, so as to minimize potential misunderstandings.

Preparation of the Prospectus

The prospectus need not conform to a set series of conditions since each research investigation is unique. The dissertation committee should be consulted when the candidate is preparing the prospectus. However, the following may prove useful as guidelines:

Research Statement. This is a brief statement about the purpose of the research and the rationale for the study. It may also include reference to projected social, literary, or scientific impact, etc., to be realized by the study. Also included might be a brief description of the major subdivisions or aspects of the proposed study, stated in general terms.

Hypothesis. A hypothesis is a tentative assumption of an anticipated outcome from among projections of (all) possible outcomes of a research investigation. The hypothesis is based on presumably valid conclusions and backed by previous scholarly evidence; i.e., there is a rationale for the hypothesis. The scholar's goal is to prove, or disprove, the hypothesis.

Research Protocol or Experimental Design. This is the methodology devised by the researcher to examine whether or not the hypothesis is correct. The methodology or testing is performed so as to generate data (facts) which are used either to prove or disprove the hypothesis. A note of caution—when data are generated which disagree with an investigator's hypothesis, a tendency of many young scholars is to attempt to explain why the data are incorrect, since they don't fit the hypothesis. It is very important to accept the validity of one's data and, if necessary, generate a new hypothesis which then may be further examined.

Background and Significance of the Study. The theoretical and empirical framework of prior scholarly work related to the research proposal and to which the proposal is indebted should be determined. A short statement of the value of the study and of the possible applications of the results is advisable. Citation of a limited number of authorities may support the significance of the proposed study.

Definition of Terms. Technical terms or words and phrases having special meanings should be defined.

Basic Assumptions. Certain defensible assumptions may be necessary to reach a scholarly conclusion. A justification should be provided explaining the basis for any assumption made.

Data Collection (Materials and Methods). A complete, precise description should be given for all instruments, materials, devices, or sources of information used in the collection of data or generation of information. There should be a detailed step-by-step description of the ways in which data are to be collected (i.e., methodology). This description should include detailed information of the data to be collected, the sources to be used, sampling procedures, if any, and any other information necessary to further clarify the procedure.

Data Analysis. It is necessary to describe precisely and specifically the way in which data are to be organized and analyzed. The steps and techniques used to analyze and interpret the data should be clearly described.

The Dissertation

Each dissertation is unique and reflects the academic accomplishments of the author, in consultation with the dissertation committee. Although the candidate should confer frequently with the dissertation committee for mentoring and advice, the dissertation is the primary means by which the candidate demonstrates proficiency as an independent scholar. Following are some guidelines that may prove useful:

1. The dissertation (research project) should be strongly based upon the discipline, but it should also have relevance to pedagogy.
2. The research may be a restudy of problems with variations in new and different settings, a reevaluation of prior research, or the generation of new and original scholarly information.
3. The research should combine creativity with originality.
4. For additional information, the student may wish to consult the *Guide to the Preparation of Theses and Dissertations*, produced by the Tennessee Conference of Graduate Schools. It is available for perusal in the Office of Graduate Studies.

Defense of Dissertation—Final Examination

1. Upon completion of the dissertation, the dissertation committee will hold an oral examination (often called the dissertation defense), which deals with the dissertation. However, the committee may designate any other aspect of the candidate's program for examination.
2. Arrangements for this examination are made by the student, in consultation with the major professor.
3. This oral examination may be open to the public.
4. The defense of dissertation is normally held during the same semester as the anticipated conferral of the degree.
5. The dean of the College of Graduate Studies must be notified by the major professor, in writing, of the outcome of the final examination/dissertation defense.

Filing the Dissertation

1. The completed dissertation should follow a general format as outlined by the College of Graduate Studies; however there is considerable flexibility so that the author may use a format consistent with that of leading journals representative of the discipline.
2. Before submission to the dean of the College of Graduate Studies, the completed dissertation must be approved by the entire advisory committee and the department chair in the following order: major advisor, second member from the major field, professor of higher education, and chair of the major department. When a second teaching field is involved (alternative #2), that advisor's name should be inserted prior to that of the professor of higher education.
3. The completed dissertation must be filed in the office of the dean of the College of Graduate Studies by the deadline set for accepting theses, dissertations, and research projects. The deadline(s) are found in the calendar section of this catalog and in the current class schedule book.
4. Upon receipt of the original and four copies of the dissertation by the Office of Graduate Studies, they are sent to the bindery. Each of the five approval pages must bear original signatures. Two copies are filed in the MTSU Library. One copy will be filed in the major department, one with the major professor, and one with the candidate. Laser print may be used if it is of professional quality. Letter grade copy paper will suffice; the copies need not be on bond paper.

Dissertation Abstract

The dissertation must include an abstract of the treatise which should not exceed 350 words.

Other Information

In addition to the materials found below, the reader should refer to the Glossary section in this catalog for additional important information relative to graduate education at MTSU.

Checklist for the Semester of Intended Graduation

1. By the end of the first full week of the term or by the end of the first week of Session II (for August graduation), the candidate files an Intent to Graduate Form with the College of Graduate Studies and graduation fees are paid. There is an additional charge if more than five copies o the dissertation are to be bound.
2. The final examination (oral defense of dissertation) is administered.
3. If the defense is satisfactory, the dissertation is filed with the Graduate Office no later than 30 days prior to the intended graduation date. Final authority for approval o the dissertation rests with the dean of the College o Graduate Studies.

Time Limit

After matriculation, there is a ten-year time limit for completing all D.A. degree requirements.

Transfer Credits

Only course work completed at a doctoral institution tha would count toward the doctorate there will be considere for approval as transfer credit toward the Doctor of Arts cours work requirement at MTSU. Additional information on transfer credit is given in the section on academic regulations.

General Information for Specialist's and Master's Students

In addition to the materials found below, the reader should refer to the Glossary section in this catalog for additional important information relative to graduate education at MTSU.

Admission Requirements

Applicants must meet the admission requirements for degree-seeking students and submit any additional materials required by the major program of study. (See relevant department for specific requirements.)

Admission is granted to a specific program of study and a student may not change the major, the concentration, or the minor without a recommendation by the relevant graduate advisor(s) and the written approval of the dean of the College of Graduate Studies.

All applicants must hold a bachelor's degree from an accredited university. In addition, applicants for the Ed.S. degree must also hold a master's degree from an accredited university.

Advancement to Candidacy

Advancement to candidacy signifies that a student has successfully completed a substantial portion of the graduate program and, in consultation with the graduate advisor, has established a curricular plan to follow for the purpose of graduation. The Candidacy Form must be filed and approved prior o the completion of 24 credit hours (or earlier if required by he graduate program). The form is approved by the pertinent graduate program personnel (e.g., major professor, graduate advisor, etc.) and the dean of the College of Graduate Studies (or designee).

M.A.T. and M.S.T. Candidacy Forms must also be signed by he dean of the College of Education, or an appropriate representative, if licensure is being sought. The Candidacy Form or the M.Ed. requires that the student have a professional icense to teach and thus must also be signed by the dean of he College of Education or an appropriate representative.

For students pursuing either a second master's or specialist's degree at MTSU, the Candidacy Form should be filed prior to he completion of 18 credit hours of course work.

Candidacy Change

f for any reason the courses listed on the Candidacy Form cannot be followed, a Change of Candidacy Form must be iled with the dean of the College of Graduate Studies. This must be approved by the major professor, reader(s), and/or faculty advisors.

Comprehensive Examinations

The comprehensive examinations are scheduled by each department during the last part of the semester in which the student expects to graduate. These may be oral, written, or both. This test is not merely a re-examination of course work, but it is an assessment of the candidate's ability to integrate scholarly information linking the major and related fields. The comprehensive examinations may be taken no more than twice.

Faculty Advisors

After admission, a degree student is assigned faculty advisors in the major and minor areas. The student should consult these advisors for program planning and optimal course scheduling.

Intent to Graduate

By the end of the first full week of the term in which the student intends to graduate, or by the end of the first week of Summer Session II (for August graduation), the candidate must file an Intent to Graduate Form with the College of Graduate Studies, pay graduation fees at the Business Office, and complete the College of Graduate Studies exit survey.

Thesis

The thesis in final form must be submitted to the dean of the College of Graduate Studies no later than 30 days before graduation. It must be approved by the major professor, the reader(s), and the department chair. Guidelines for the thesis vary from department to department. The primary responsibility for form, content, and style rests with the student and major professor. Nonetheless, a thesis not meeting standards may be rejected by the dean of the College of Graduate Studies and graduation delayed. The original and three copies of the thesis must be submitted for binding. One copy is forwarded to the library, one to the major professor, one to the department, and one is returned to the student. Additional fees must be paid if extra copies are bound.

NOTE: *Once the student has begun taking thesis research, he/she is expected to enroll in at least 1 semester hour of thesis research (course 664) until the thesis is completed.*

Specialist in Education Degree

Middle Tennessee State University offers the Specialist in Education (Ed.S.) degree in Administration and Supervision and in Curriculum and Instruction. The Ed.S. is provided specifically for teachers, counselors, and administrators wishing to pursue graduate study beyond the master's level. The Ed.S. in Administration and Supervision is available through the Department of Educational Leadership. The Ed.S. in Curriculum and Instruction is offered by both the Department of Educational Leadership and the Department of Elementary and Special Education. The Ed.S. in Curriculum and Instruction with a concentration in School Psychology is offered by the Department of Psychology.

Common Requirements for All Specialist's Degree Programs

All specialist's candidates must

1. complete all applicable coursework after receipt of the master's degree.
2. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours. No courses at the 500 level or lower may apply toward the specialist's degree.
3. successfully complete a written (and/or oral) comprehensive examination. The examination may be taken no more than twice.
4. complete all specific graduate program requirements. These additional specific degree requirements are found under the applicable department.

Second Specialist's Degree from MTSU

An individual who has received one specialist's degree from MTSU may obtain a second specialist's degree with a minimum of 24 additional semester hours of graduate coursework earned at MTSU if approved in advance by the graduate program and the graduate dean. No transfer coursework is accepted towards the second specialist's degree. All specific course requirements must be met for the second degree (except FOED 706, Seminar in Educational Foundations, and FOED 713, The Curriculum: Structures and Functions), including the written comprehensive examinations and thesis (if relevant). All semester hours must be earned after the first specialist's degree has been conferred.

The Master's Program

Middle Tennessee State University offers nine different master's degrees and approximately fifty master's programs. These include the Master of Arts (M.A.), the Master of Arts in Teaching (M.A.T.), the Master of Business Administration (M.B.A.), the Master of Business Education (M.B.E.), the Master of Criminal Justice (M.C.J.), the Master of Education (M.Ed.), the Master of Science (M.S.), the Master of Science in Teaching (M.S.T.), and the Master of Vocational-Technical Education (M.V.T.E.).

Common Requirements for all Master's Degree Programs

All master's candidates must

1. satisfactorily complete the undergraduate prerequisites.
2. complete a minimum of 30 (or more) semester hours of graduate coursework. No more than 30 percent of the total degree hours may be dually listed as undergraduate/graduate hours. No undergraduate courses may apply toward the graduate program requirements. If a thesis is required, normally no more than three hours will apply toward the 30 (or more) semester hour program requirement. However, additional semester hours of thesis research (664) may be taken and will appear on the student's transcript.
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours.
4. successfully complete a written (and/or oral) comprehensive examination; the examination may be taken no more than twice.
5. complete all specific graduate program requirements.

Programs Leading to the M.A. Degree

There are six departments offering programs leading to the Master of Arts degree. They are Economics and Finance, English, History, Music, Psychology, and Sociology and Anthropology.

Normally, the Master of Arts degree requires a thesis; however, graduate programs in English, Economics and Finance, and Music include a non-thesis option requiring more than 30 semester hours. (Specific program requirements may be found under the appropriate department.)

Program Leading to the M.A.T. Degree

The Master of Arts in Teaching degree is offered in Foreign Languages. The degree should be pursued by those individuals interested in teaching. Admission is open to licensed teachers as well as those seeking initial licensure. Specific degree requirements are found under the Department of Foreign Languages and Literatures.

Program Leading to the M.B.A. Degree

The Master of Business Administration program includes courses in the following six areas of business: accounting, economics, finance, management, marketing, and information systems. Specific degree requirements are found under Business Administration.

Program Leading to the M.B.E. Degree

A Master of Business Education (M.B.E.) degree program is offered by the Department of Business Education, Marketing Education, and Office Management (BMOM) in the College of Business. Specific degree requirements are found under the Department of BMOM.

Program Leading to the M.C.J. Degree

The Master of Criminal Justice degree program is a joint program with Tennessee State University. Students may seek professional employment in the operational agencies in the field of criminal justice or pursue relevant research or teaching positions. Eighteen semester hours credit from each university is required. Applicants must complete a special application specifically for this degree program. Specific degree requirements are found under the Department of Criminal Justice Administration.

Programs Leading to the M.Ed. Degree

There are four departments offering programs leading to the Master of Education degree. The M.Ed. degree provides programs of study in Administration and Supervision, Aerospace Education, Curriculum and Instruction, School Counseling, Reading, and Special Education. Specific degree requirements are found under the Department of Aerospace, Department of Educational Leadership, Department of Elementary and Special Education, and Department of Psychology.

Programs Leading to the M.S. Degree

There are eleven departments and/or colleges offering programs leading to the Master of Science degree. The University offers the Master of Science degree in Accounting/Information Systems; Aviation Administration; Biology; Chemisry; Computer Science; Exercise Science and Health Promoion; Health, Physical Education, Recreation; Human Sciences; Industrial Studies; Mass Communication; and Mathematics. Specific degree requirements are found under the applicable department.

Normally, the Master of Science degree requires a thesis; however, graduate programs in Computer Science, Exercise Science and Health Promotion; Health, Physical Education, Recreation; Industrial Studies; Mass Communication; and Mathematics include a non-thesis option requiring more than 30 semester hours. (Specific program requirements may be ound under the appropriate department.)

Programs Leading to the M.S.T. Degree

The Master of Science in Teaching degree is offered by the Department of Biology and Department of Mathematical Sciences. The degree should be pursued by those individuals nterested in teaching. Admission is open to licensed teachers as well as those seeking initial licensure. Specific degree equirements are found under the applicable department.

Programs Leading to the M.V.T.E. Degree

Schools and departments participating in this degree are Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; Human Sciences; and Engineering Technology and Industrial Studies. The curriculum offers preparation for students to develop, administer, and supervise vocational-technical programs in area vocational schools, public schools, and community colleges. Specific degree requirements are found under the section on Vocational-Technical Education.

Second Master's Degree from MTSU

An individual who has received one master's degree from MTSU may obtain a second master's degree with a minimum of 24 semester hours of coursework earned at MTSU if approved in advance by the graduate program and the graduate dean. No transfer coursework is accepted towards the second master's degree. All specific course requirements must be met for the second degree, including the written comprehensive examinations and thesis (if relevant). All semester hours must be earned after the first master's degree has been conferred.

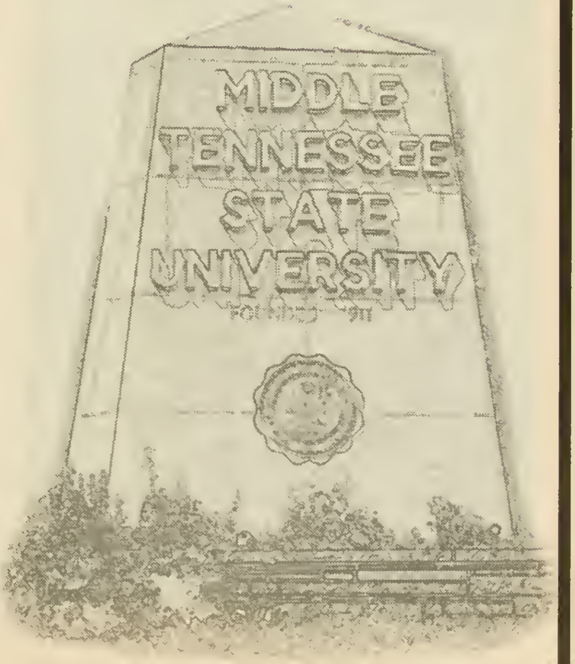
DEPARTMENTS AND DEGREE PROGRAMS

Students of the Graduate College are expected to demonstrate superior talent, high motivation, and dedication to advancing the goals of the University. These goals include an emphasis on academic excellence, teaching distinction, public service, research, expanding economic opportunity, cultural preservation, and quality of life. To achieve those ends the University seeks outstanding, highly motivated students.

The following section describes the academic departments and/or divisions which offer majors and minors for graduate degrees. Included are specific degree program requirements and information and course descriptions.



Department of Accounting

Ken Harmon, Chair
Business and Aerospace Building N425C

The mission of the Department of Accounting is to provide a broad-based accounting education that prepares students for lifelong learning and professional growth throughout their careers. Fulfilling this mission requires that our faculty maintain continuous intellectual growth, keep abreast of current developments in accounting education, and provide service to the profession.

The Department of Accounting offers the Master of Science in Accounting and Information Systems with accounting as the primary field and courses for the Master of Business Administration degree. A minor in Accounting is offered for students seeking a master's degree other than the M.B.A. The director of graduate business studies serves as advisor for the M.S. in Accounting and Information Systems.

Students are encouraged to take advantage of the opportunity to take a balance of accounting and information systems courses; however, there is significant flexibility in the requirements to allow a student's program to be specialized to the extent desired for particular career goals.

The prerequisites for a student seeking an M.S. degree in the department are the same as those required for the M.B.A. degree (see page 56), plus instruction in international business. A recent graduate of an AACSB-accredited program would normally possess an adequate background in these prerequisites. A student electing accounting as a primary field must complete an additional 27 hours of prerequisites including Intermediate, ACTG 311 and 312; Cost, ACTG 331; Advanced, ACTG 411; Accounting Systems, ACTG 451 (551); Federal Tax Accounting, ACTG 453 (553); Auditing, ACTG 462; INFS 220; and Business Policy, B AD 498.

To be admitted to the M.S. program (see page 24), a student must meet one of the following:

a. GPA x 200 + GMAT = 950
or Upper Division GPA x 200 + GMAT = 1,000

b. International students must comply with the following provision: For undergraduate degrees from foreign institutions where a grade point average cannot be clearly established but where that work is thought to be equivalent to domestic grades of **B** or higher, admission eligibility may be determined by the **GMAT** score. A score of at least 450 is required for unconditional admission under such circumstances. Preparatory work taken in institutions with grading systems paralleling that of most United States institutions must conform to a **B** average.

The M.S. with Accounting concentration will fulfill the new CPA requirements.

Requirements for the Master of Science Degree

Accounting as Primary Field; Information Systems as Secondary Field

Required

ACTG	665	Advanced Accounting Theory
ACTG	651	Federal Income Tax Research and Planning
ACTG	631	Advanced Cost Accounting, Budgeting, and Controllership
ACTG	672	Advanced Auditing and Public Accounting Practices
INFS	671	Systems Analysis

Electives

Three hours from INFS 672, 679, or QM 677
Three hours in ACTG or INFS at the 500 or 600 level
Three hours in ACTG at the 600 level
Three hours in international/global course at the 600 level
Three hours of approved electives at the 600 level

Additional Requirements

Candidates must pass a comprehensive written examination upon the completion of course requirements.

The degree is to be completed within six years from the time of admission to the degree program.

No foreign language or thesis is required in the program.

NOTE: Students who have credit for the undergraduate equivalent of the 500-level course are not permitted to enroll in the 500-level course for credit.

Courses in Accounting [ACTG]

512 **Advanced Accounting II.** Three credits. Prerequisite: ACTG 312 with minimum grade of C. Current topics of interest omitted from ACTG 411: SEC practice, special industries (recording and music, banking, insurance, behavioral accounting).

551 **Accounting Systems.** Three credits. Prerequisites: ACTG 302 or 331 and INFS 220 or consent of department chair. Current developments in establishment of complete accounting systems and the application of principles to typical business organizations. Special emphasis on cost controls and use of EDP.

553 **Federal Taxes I.** Three credits. Prerequisites: Graduate standing and permission of department chair. Addresses determination of taxable income for individuals; Federal income tax returns and research methods.

554 **Federal Taxes II.** Three credits. Prerequisite: ACTG 453 (553) with minimum grade of C or consent of instructor. Structure of taxation for corporations, partnerships, estates, trusts, gifts; returns and research.

557 **International Accounting.** Three credits. Prerequisite: ACTG 212 or equivalent with C or better. Development of accounting systems and entrepreneurial practices in various countries, specific international financial reporting issues, international financial statement analysis, managerial accounting issues for global businesses including budgeting and control, and international taxation issues.

561 **Municipal/Governmental Accounting.** Three credits. Prerequisite: ACTG 312 with minimum grade of C or consent of instructor. Federal, state, and local government accounting principles and procedures; classification of accounts, budgeting, general fund revenues, and expenditures.

563 **Auditing II.** Three credits. Prerequisite: ACTG 462 or its equivalent with a minimum grade of C. Audit procedures used in tests of controls and in substantive tests for the major transaction cycles by using both microcomputer and statistical sampling. Course fulfills the Tennessee CPA requirements for a second course in auditing.

565 **Accounting Theory.** Three credits. Prerequisite: ACTG 312 with minimum grade of C (or taken concurrently). Analysis of propositions, axioms, theorems, controversial accounting concepts, authoritative statements, and research on accounting principles.

567 **CPA Problems.** Three credits. Prerequisites: ACTG 411, 453, and consent of instructor. Semiannual CPA examination problems of the American Institute of Certified Public Accountants are analyzed.

600 **Survey of Accounting Principles.** Three credits. The accounting cycle, financial statements, accounting systems, use of accounting information for managerial decision-making purposes and problem solving. Not open to students with undergraduate accounting backgrounds. **May not be used for elective credit in graduate business degree programs.**

631 **Advanced Cost Accounting, Budgeting, and Controllership.** Three credits. Prerequisite: ACTG 302 or 331 or 691. Recent conceptual and analytic development in cost accounting, budgeting, and controllership. Includes principles and procedures in preparation of business budgets and methods of accounting for managerial control of cost of production, distribution, and administration through the use of standards.

651 **Federal Income Tax Research and Planning.** Three credits. Prerequisites: ACTG 453/553 and 454/554 or consent of instructor. Skillful application of tax research methodology in the use of primary tax authority, secondary tax reference materials, and research aids. Research through practice in the use of materials available in the tax library.

655 **U.S. International Taxation.** Three credits. Prerequisites: ACTG 453/553 and 454/554. Basic concepts of U.S. taxation of international transactions. Topics include sourcing of income from foreign activities, Subpart F income, selecting the proper vehicle for foreign investments, and computing foreign tax credits.

665 **Advanced Accounting Theory.** Three credits. Prerequisite: Consent of department chair. History and development of accountancy, tax structures, and industrial development of past, present, and projected societies including relevant research into current controversial issues. Extensive research required. Required for M.S. in Accounting/Information Systems with accounting as the primary field.

666 **Advanced Financial Accounting and Reporting Problems.** Three credits. Prerequisite: Accounting major or consent of instructor. Application of theoretical concepts and promulgations of authoritative bodies to financial accounting and financial reporting situations encountered in practice.

672 **Advanced Auditing and Public Accounting Practices.** Three credits. Prerequisite: ACTG 462 or consent of department chair. Critical analysis of techniques used in auditing, method of data collection, and nature of audit evidence. Includes modern and relevant statistical and social research techniques and computer use as applied to the various steps in audit practices and procedures.

681 **Empirical Methods in Accounting.** Three credits. Prerequisites: Foundation requirements and consent of instructor. Independent study and research on topics in or related to accounting under supervision of graduate faculty.

691 **Accounting and Business Decisions.** Three credits. Prerequisite: ACTG 212 or equivalent. Accounting concepts and their application to the decision-making process. Research reports on a variety of financial and managerial accounting topics prepared and presented orally by the student. Not open to students with undergraduate major in accounting.

Course in Business Law [BLAW]

643 **Legal Environment of Management.** Three credits. Legal rights and potential liabilities of business managers. Presentation of the legal, ethical, and political environment of business. Includes basic principles of the legal system, torts and product liability, antitrust, labor and employment laws, securities, contracts, sales, secured transactions, bankruptcy, agency, partnerships, corporations, and commercial paper. **May not be used for elective credit in graduate business degree programs.**

Department of Aerospace

Ronald J. Ferrara, Chair
Business and Aerospace Building S211C

The Department of Aerospace offers the Master of Science (M.S.) in Aviation Administration, with a concentration in Airline/Airport Management or Aviation Asset Management, and a Master of Education (M.Ed.) in Aerospace Education.

Requirements for the Master of Science—Aviation Administration Major

Normally the required minimum test score for admission to this program is 800 on the Graduate Record Examination or 38 on the Miller Analogies Test.

Candidate must

1. have graduated from an accredited four-year college or university to be considered for unconditional admission. Transcripts must reflect 6 hours of research tool-related course work (e.g., statistics, computer science, etc.) and 18 semester hours of one of the following disciplines: accounting, aviation, business, or information systems. Demonstrated knowledge equivalent to that obtainable through the undergraduate core curriculum in Aerospace may be substituted for up to 15 of the 18 required semester hours. The aviation course work must include 6 semester hours in at least two of the following areas: airline or airport management, aviation asset management, fixed-base operations or theory of flight. Applicants with undergraduate majors in fields other than aviation who have not completed a college-level flight theory course, or who do not possess Federal Aviation Administration or military-issued pilot credentials, will be required to enroll in AERO 102 (Theory of Flight) during their first semester after admission to the M.S. degree program.
2. complete 36 semester hours consisting of a 15-hour core, 12 hours in the chosen concentration, 6 hours of electives, and a 3-hour thesis with a cumulative GPA of 3.0 or greater. If necessary, an additional 3 hours may be taken to complete the thesis; however, these hours may not be applied toward elective requirements;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. successfully complete a written comprehensive examination (may be taken no more than twice);
5. successfully complete a thesis defense.

NOTE: Applicants meeting the above criteria whose cumulative GPA is less than 3.0, but at least 2.75 and who present other qualities deemed valuable by the aviation industry, as determined by the Graduate Program Committee, may be conditionally accepted in an academic probationary status. Students in a probationary status who fail to achieve and maintain a 3.0 GPA will be suspended from the M.S. degree program.

Airport/Airline Management Concentration

Required Courses

AERO	612	Aviation History
AERO	615	Aviation Industries
STAT	616	Statistics OR
QM	600	Quantitative Methods Survey
AERO	630	Air Transportation Systems
AERO	661	Introduction to Aerospace Research
AERO	664	Thesis Research

Electives - 12 hours from the following:

AERO	613	Safety Administration and Security
AERO	617	Scheduled Air Carrier Operations
AERO	619	Airport Organizational Structures and Operational Activities
AERO	622	Environmental Policy
AERO	625	Aviation Policy and Planning
AERO	627	Airport Design
AERO	633	International Aviation Systems
AERO	635	General Aviation
AERO	637	Aviation Contracts and Leases
AERO	645	Airport Funding Policy
INFS	661	Information Systems Management and Application OR
INFS	520	Microcomputer Database Applications

Guided Electives
Students will select 6 hours of approved electives suited to their career goals from another department within the university. Selection will be made with appropriate guidance from faculty of both departments.

Aviation Asset Management Concentration

Required Courses

AERO	612	Aviation History
AERO	615	Aviation Industries
STAT	616	Statistics OR
QM	600	Quantitative Methods Survey
AERO	630	Air Transportation Systems
AERO	661	Introduction to Aerospace Research
AERO	664	Thesis Research

Electives - 12 hours from the following:

AERO	617	Scheduled Air Carrier Operations
AERO	625	Aviation Policy and Planning
AERO	635	General Aviation
AERO	637	Aviation Contracts and Leases
AERO	645	Airport Funding Policy
INFS	661	Information Systems Management and Application OR
INFS	520	Microcomputer Database Applications
ACTG	600	Survey of Accounting Principles
ECON	603	Survey of Economic Theory

Guided Electives
Students will select 6 hours of approved electives suited to their career goals from another department within the university. Selection will be made with appropriate guidance from faculty of both departments.

Requirements for the Master of Education—Aerospace Education Major

Advisement for the degree is provided by graduate faculty members in the Aerospace Department and one graduate faculty member from the College of Education. Students in the M.Ed. degree program may elect either an aerospace or an education option. Both options consist of a 13-hour core and are designed to serve applicants interested in education or professional development programs and administration.

Normally, the required test score for admission to the M.Ed. program is 30 on the Miller Analogies Test or a satisfactory score on the Graduate Record Examination.

Candidate must
1. hold a bachelor's degree from an accredited institution;
2. complete 34 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours (Students should refer to the appropriate option for specific requirements.);
3. be admitted by Aerospace Department's Graduate Program Committee;
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written comprehensive examination (may be taken no more than twice).

Option 1 (Aerospace)

Required - 13 hours

AERO	610	Aviation Workshop (same as YOED 610)
SPSE	643	Introduction to Curriculum Development
AERO	661	Introduction to Aerospace Research OR
FOED	661	Analysis and Application of Educational Research
AERO	612	Aviation History

Aerospace Electives - 12 hours

Any 500-level aerospace course not previously taken at the 400-level or any 600-level aerospace course with the approval of the student's Aerospace Department's advisor.

Education Electives - the following three (3) courses or courses approved by the College of Education advisor

FOED	602	Educational Foundations
SPSE	604	Supervision of Instruction
SPSE	605	Instructional Leadership

Option 2 (Education)

Students choosing this option must have a designated Col-ege of Education advisor and should have the appropriate eaching license. The licensure requirement may be waived under special circumstances. A student seeking a licensure waiver must initiate a written request with the advisor, seek approval from the chair and dean of the College of Educa-ion, and forward the request to the Office of Teaching Licensure, McWherter Learning Resources Center 170.

Required - 13 hours

YOED	610	Aviation Workshop
SPSE	643	Introduction to Curriculum Development
FOED	661	Analysis and Application of Educational Research OR
AERO	661	Introduction to Aerospace Research
AERO	612	Aviation History

Electives - 12 hours

FOED	602	Educational Foundations
SPSE	604	Supervision of Instruction
SPSE	605	Instructional Leadership
SPSE	608	Studies in Leadership
SPSE	625	Seminar in Curriculum Improvement
SPSE	634	School Finance
SPSE	650	Studies in Education: Administration
SPSE	660	Microcomputers in Educational Administration

Aerospace Electives - 9 hours

Any 500-level aerospace course not previously taken at the 400-level or any 600-level aerospace course except for AERO 610 and 661.

Courses in Aerospace [AERO]

501 **Aerospace Vehicle Systems.** Three credits. Design, use, and function of typical hydraulic, mechanical, and electrical systems used on aircraft. For potential pilots, flight engineers, and mechanics.

503 **Air Traffic Control.** Three credits. The FAA Air Traffic Control system used to regulate air vehicle traffic during enroute and terminal phases of flight, with emphasis on communication, navigation, and control equipment and procedures.

505 **Aerospace Internship I.** Three credits. Prerequisite: Consent of department chair. Student employed by an acceptable airline, airport director, or aerospace industry for field work. Minimum 300 hours work required. Pass/Fail grading.

507 **Problems in Aerospace.** One to three credits. Individual directed study in the field of aerospace.

508 **Flight Instruction IV.** Three credits. Academics for the ATP and dispatchers written. If flight is desired, student will meet FAR 61 and fee required.

509 **Aerospace Science for Teachers.** Three credits. For teachers who desire an introduction to the total aviation and space effort.

510 **Flight Instruction for Teachers.** Three credits. Flight instruction and discussion provide an opportunity to understand the airplane and its operation. Fee required.

511 **Airport Management.** Three credits. Airport operations. Development of an airport master plan.

513 **Aerospace Physiology.** Three credits. Instruction, readings, and structured experiences to ensure familiarity with the various physiological and health-related factors affecting a flyer's safety and performance.

515 **Fixed Base Operations Management.** Three credits. The FBO operator and the essential role played in general aviation.

522 **Aircraft Systems Management.** Three credits. Instruction and the requirements pertaining to activities of a flight engineer.

523 **Airline Management.** Three credits. Airline operation and implementation of sound management practices.

533 **Advanced Air Navigation.** Three credits. Advanced navigation equipment and operation procedures, GPS, and LORAN.

537 **Airport Planning and Design.** Three credits. Methods utilized in airport planning and design; relationship of the airport and the community.

550 **Space.** Three credits. Extensive study of the history of space exploration, the successes and failures of manned and unmanned efforts, and what the future may be for human beings in space.

565 **Aviation Law.** Three credits. Legal responsibility in the aviation industry.

610 **Aviation Workshop.** Four credits. (Same as YOED 610.) A first course in aerospace education; provides an overview of aerospace historically and in the future.

612 **Aviation History.** Three credits. Detailed examination of the development and role of aviation and its economic, social, and political impact on the modern world. Particular emphasis on

the global aspects of civilian aviation and the consequences of the transportation revolution it engendered. Specific topics analyzed in detail each semester.

613 **Safety Administration and Security.** Three credits. An examination of the various programs which airport operators employ in operating and maintaining airport safety and security services. Special emphasis on federal guidelines and their applications at commercial service airports.

615 **Aviation Industries.** Three credits. An overview of domestic and international air transportation businesses. Includes an analysis of extant and forecast labor requirements.

617 **Scheduled Air Carrier Operations.** Three credits. An examination of contemporary problems and issues confronting airline industry policy makers, government regulators, managers, and the traveling public.

619 **Airport Organizational Structures and Operational Activities.** Three credits. Prerequisite: AERO 511 or 537 or consent of instructor. A critical analysis of airport organizational structures, functions, and constraints affecting the airport. A detailed view of operational activities and methods to improve airport efficiency.

622 **Environmental Policy.** Three credits. Airport planning and land use programs and procedures as they are currently used within the industry.

625 **Aviation Policy and Planning.** Three credits. The regulatory agencies of the aviation industry and their functions. Special emphasis on current problems and issues affecting the industry.

627 **Airport Design.** Three credits. Introduces the concepts of airport planning, design, and layout with particular emphasis on community characteristics and resource allocation. Students will become familiar with the Federal Aviation Administration's role in the airport design process.

630 **Air Transportation Systems.** Three credits. Explores the evolution of the National Airspace and Airway System from its chaotic start to a reasonably sophisticated system. Covers importance of technological developments to improve the system.

633 **International Aviation Systems.** Three credits. An in-depth analysis of international aviation with particular attention to U.S. aviation interface. Areas covered include the air traffic control systems, bilateral agreements, nationalized vs. privately owned carriers, ETOPS restrictions, marketing and operational difficulties, etc.

635 **General Aviation.** Three credits. Operations, supervision, and the role of administration.

637 **Aviation Contracts and Leases.** Three credits. An examination of the various agreements utilized by airports to define the terms and conditions for airlines, FBOs, concessionaires, air cargo operators, and other airport tenants. Analysis of the general provisions and requirements contained within airport leases and those specific to each tenant. A review of airport lease administration and compliance procedures.

638 **Aerostructures.** Three credits. Prerequisites: MATH 121 or 142 and PHYS 231. Concepts of mechanics applied to analysis of structural elements used in aerospace vehicles. Loading, deflection safety factors, and modes of possible failure.

639 **Advanced Aerodynamics.** Three credits. Prerequisite: AERO 314 or equivalent. Examines the aerodynamics of aircraft flight from subsonic to hypersonic speeds, with flight through the four sonic regions discussed and solutions to problems presented.

640 **Aerospace Seminar.** One credit. Prerequisite: Last semester of resident enrollment. A capstone course involving the analysis, synthesis, and integration of relevant academic experiences.

645 **Airport Funding Policy.** Three credits. Airport subsidy funding by the local, state, and federal governments and their essential components as applied to local airports. Procedures necessary to obtain government funding and grants available for building new facilities and repairing existing buildings.

661 **Introduction to Aerospace Research.** Three credits. Emphasis on research as a significant component of graduate study to include methods, procedures, style, and form.

654 **Problems in Aerospace Education.** One, two, or three credits. (Same as YOED 654.) Content varies with needs of individual students who are interested in making a specialized study of current problems in the field of aerospace education.

664 **Thesis Research.** One to six credits. Prerequisite: AERO 661. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

670 **Advanced Aviation Workshop.** Four credits. (Same as YOED 670.) Builds on prior experiences in aviation/aerospace. Essential for the prospective teacher or aerospace education courses at any level.

School of Agribusiness and Agriscience

Harley W. Foutch, Director
Stark Agribusiness and Agriscience Center 100

The School of Agribusiness and Agriscience cooperates
with the Departments of Business Education, Market-
ng Education and Office Management; Human Sci-
nces; and Engineering Technology and Industrial Stud-
es to offer the Master of Vocational-Technical Educa-
ion (M.V.T.E.) degree. The school also offers a minor at
he graduate level.

Courses in Agribusiness and Agriscience (ABAS]

510 **Microcomputer Applications in Agriculture.** Three credits. Prerequisite: CSCI 115 or INFS 220. Includes use of agricultural software, agricultural communications network, computer daily feeding machines, and farm records.

513 **Agricultural Marketing and Price Analysis.** Three credits. Prerequisite: ABAS 313 or approval of instructor. Agricultural prices and their relationship to production and marketing. Agricultural marketing systems, functions, institutions, and structural changes.

514 **Economics of Agribusiness Management.** Three credits. Prerequisite: ABAS 313 or approval of instructor. The application of economic concepts to agribusiness firms.

515 **Agricultural Policy.** Three credits. Prerequisite: ABAS 313 or approval of instructor. Agricultural policy in a democratic society; relationship of farm groups to public policy; types of agricultural programs and appraisal of their results.

520 **Fruit and Vegetable Marketing.** Three credits. Prerequisites: SCI 100 and BIOL 100 or approval of instructor. Basic biochemistry of respiration, handling techniques and practices, quality assessment and marketing of fruit and vegetable crops. Both domestic and international marketing of fruit and vegetable products discussed. Examines economic impact of improper handling on both the local producer and the end user.

21 **Farm Power and Equipment.** Three credits. Gasoline engines with actual work experience in overhaul. Work also with transmissions, hydraulics, braking systems, and other farm equipment including use of shop manuals, operation manuals, and parts books.

22 **Methods of Teaching Agricultural Mechanics.** Three credits. Emphasis on performing shop skills such as welding, brazing, electrical wiring, etc.

23 **Adult Education in Vocational-Education and Program Development.** Three credits. How to teach adults and administer adult programs. Emphasis on planning, organizing, and arranging courses for adults in agriculture.

526 **Behavior of Domestic Animals.** Three credits. Behavior aspects of raising and managing domestic animals to include equine, swine, goats, cattle, sheep, dogs, and cats. Communicative, ingestive, sexual, social, aggressive, and abnormal behaviors emphasized.

531 **Forage Crops.** Three credits. Adaptation, distribution, establishment, management, cultivation, and utilization of forage legumes and grasses.

533 **Turf Management.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Establishment and management of turf grasses for lawns, golf courses, and parks.

534 **Soil Formation.** Three credits. Prerequisite: ABAS 334. Environmental factors affecting soil formation and utilization.

535 **Soil Survey and Land Use.** Three credits. Prerequisite: ABAS 334 or approval of instructor. Soil properties used to determine suitability for land use. Lecture/lab.

540 **Horsemanship—Equitation.** Three credits. Prerequisite: ABAS 240 or approval of instructor. Proper horseback riding, handling, mounting, and dismounting. Various gaits and proper equitation stressed. One lecture and two two-hour laboratory periods.

541 **Animal Nutrition and Feeding.** Three credits. Gastrointestinal tract, process of digestion, and nutrient utilization. Application of principles of animal nutrition to formulation of supplements and complete rations for livestock.

542 **Genetics of Domestic Livestock.** Three credits. Includes an introduction to the basic principles of genetics, inbreeding, quantitative traits in livestock, prediction of breeding value and genetic progress, method of selection, mating systems, methods of genetic evaluation, computer software for animal breeding and genetics, and genetic engineering.

543 **Light Horse Production.** Three credits. Prerequisite: ABAS 240 or approval of instructor. Breeding, feeding, management, and disease control practices essential for economical light horse production.

546 **Care and Training of Horses.** Three credits. Prerequisites: ABAS 240, 340, and 440 or approval of instructor. Theory, fundamentals, and practices of breaking, training, fitting, showing, and the use of light horses for riding and driving, with special emphasis on the Tennessee Walking Horse and the needs of the local area.

547 **Advanced Beef Production.** Three credits. Prerequisite: ABAS 347 or approval of instructor. In-depth look at various systems of beef production from standpoint of function, economics, and suitability to locale. Extensive field trips to commercial cow-calf, feedlot, performance testing, stocker, and purebred operations.

551 **Domestic Animal Reproductive Physiology.** Three credits. Advanced topics in the anatomy, physiology, and endocrinology of reproduction in domestic livestock species. Topics include male and female physiology and an overview of comparative anatomy and physiology between species. Current technologies and methods in controlling reproduction in livestock species also discussed.

562 **Greenhouse Management.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Analysis of soils, fertilizers, irrigation techniques, container preparation, ventilation, growth regulation, and carbon dioxide enrichment for greenhouse operation. Two hours lecture and two hours lab.

563 **Floriculture.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Propagation and other cultural practices for the production and maintenance of plants and flowers in the home. Two hours lecture and two hours lab.

564 **Landscaping.** Three credits. Application of the principles of design, the use of proportionate-sized woody landscape plants, and other practices to produce low-maintenance-cost landscapes. One hour lecture and four hours lab.

565 **Plant Breeding.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Application of genetics to theory and breeding practices for improvement of agronomic and ornamental plants.

567 **Plant Propagation.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Anatomical features and physiological principles involved in propagating plants from seed and by division, cutting, budding, and grafting. Use of growth regulators and environmental factors. Two hours lecture and two hours lab.

570 **Agriculture in Our Lives.** Three credits. The national and international importance of U.S. agriculture. Emphasis on food production and marketing, land conservation, and agriculture related recreation. Accepted as a natural science elective for education majors. NO CREDIT GIVEN TOWARD A MAJOR IN THE DEPARTMENT OF AGRIBUSINESS AND AGRISCIENCE.

583 **Food Quality Control.** Three credits. Prerequisites: SCI 100 and BIOL 100 or approval of instructor. Quality control and sensory evaluation techniques utilized in food processing. Instrumental and physical methods of quality determination of raw and processed food products, hazard analysis and critical control point (HACCP), and quality philosophies employed in the industry. Sensory evaluation techniques and statistical analysis of evaluation results covered.

591 **Problems in Agriculture.** One to six credits. Problem or problems selected from one of the major disciplines. May involve conferences with instructor, library work, field study and/or laboratory activity. Students can take from one to three credits with a maximum of three per semester.

598 **Seminar in Horse Science.** One credit. Familiarizes horse science majors with important current scientific investigation in horse science.

599 **Seminar.** One credit. Students required to research and make an oral report on a current agricultural topic.

645 **A, B, C, D, E Problems in Agriscience Technologies.** Three credits each. Prerequisite: Teaching experience or approval of instructor. Provides agricultural education teachers with intensive training in advanced technologies. A MAXIMUM OF SIX CREDIT HOURS IN EACH DIVISION.

A. **Animal Science**
B. **Plant Science**
C. **Agricultural Mechanics**
D. **Agribusiness**
E. **Forestry and Agricultural Products**

Department of Art

Carlyle Johnson, Chair
Art Barn 115

The Department of Art offers a minor at the graduate level.

Courses in Art [ART]

500 **Workshop.** One to three credits. Prerequisite: Permission of instructor. Subject matter as well as credit to be determined by the instructor. May be conducted in the area of art, art education, or any art discipline. (A maximum of nine credits may be applied toward a degree.)

501 **Lapidary.** Three credits. Prerequisites: ART 201 and 302 or permission of instructor. Introduces cutting, polishing, and setting of semi-precious minerals with a basic course in stone identification.

502 **Enameling.** Three credits. Prerequisites: ART 201 and 302 or permission of instructor. Introduces basic techniques of enameling on metal with strong emphasis on development of student's aesthetic and design awareness.

503 **Jewelry.** Three credits. Prerequisite: ART 302 or permission of instructor. Studio practice in constructing, forging, casting, and enameling metals in creating forms for jewelry.

531 **Portfolio II.** Three credits. Prerequisite: Permission of instructor. Production of portfolio-based problems with emphasis on advanced design skills related to the specific needs of the workplace. Includes basic collateral problems, ad campaigns, corporate identity, signage, plus a self-promotional package.

532 **Senior Project.** Three credits. Prerequisite: Permission of instructor. Following a portfolio review, each member of the class will devise a project that conceptually and visually addresses his or her design/illustration goals.

533 **Internship.** Three credits. Prerequisite: Permission of internship coordinator. Advanced students gain practical experience in a professional setting. Approximately 150 work hours required for the semester.

551 **Sculpture IV.** Three credits. Prerequisite: ART 353 or permission of instructor. Development of concepts and techniques with primary emphasis on metal sculpture. Experiences include gas and electric welding, fabricating, grinding, finishing, and subordinate use of other sculpture materials.

552 **Sculpture V.** Three credits. Prerequisite: ART 551 or permission of instructor. Development of concepts and techniques with primary emphasis on casting activities in the foundry covering various metal casting techniques and subordinate use of other sculpture materials.

553 **Sculpture VI.** Three credits. Prerequisite: ART 552 or permission of instructor. Problems in sculpture acceptable to both student and instructor, selected by the student after consultation with instructor.

564 **Advanced Art Problems.** One to three credits. Prerequisite: Permission of instructor. Structure and content determined by the Art faculty on the basis of individual need. Student should be prepared to do independent research and experimentation in the area selected. Arrangements must be made prior to registration for acceptance to proper assignment of course credit. (A maximum of nine credits may be applied toward a degree.)

568 **Individual Problems in Drawing.** Three credits. Prerequisite: 12 semester hours of previous drawing credit or permission of instructor. Advanced-level course with the content determined in advance through consultation with the instructor.

571 **Painting IV.** Three credits. Prerequisite: Permission of instructor. Projects in painting; content of the course planned by student under supervision of instructor. Final paper required.

572 **Painting V.** Three credits. Prerequisite: ART 571 or permission of instructor. Independent studies course in painting which continues concerns of Painting IV.

573 **Painting VI.** Three credits. Prerequisite: ART 572 or permission of instructor. Independent studies course in painting which continues concerns of Painting IV. Final paper required.

581 **Intermediate Clay II.** Three credits. Prerequisite: ART 382 or permission of instructor. Laboratory research and testing of ceramic materials, formulation of glazes and clay bodies, development of a glaze and a clay body.

582 **Advanced Clay.** Three credits. Prerequisite: ART 383 or permission of instructor. Studio experiences in design and construction of sculptural clay forms. Forming methods and decorative techniques explored.

583 **Advanced Study in Clay.** Three credits. Prerequisite: ART 482/582 or permission of instructor. Directed individual study of a problem mutually agreed upon by the student and course instructor. Written paper and exhibit required.

590 **Nineteenth- and Twentieth-Century Art.** Three credits. Western visual art movements and trends ca. 1750-ca. 1950, focusing on European painting and sculpture with periodic explorations of non-European and non-Western traditions for perspective.

592 **Contemporary Art.** Three credits. Contemporary Western visual art movements and issues ca. 1945 to present, focusing on American painting and sculpture with periodic explorations of other traditions for perspective.

594 **A-Z Studies in Art History.** Three credits. Content varies. When offered, particular topics addressed are indicated by the course title in the class schedule book. Depending on the nature of the material to be covered, prerequisites may be imposed by the instructor. Can be repeated for up to 9 hours.

596 **Independent Studies in Art History.** Three credits. Investigations into art history under the direction of a member of the art history faculty. Topic(s) of investigation must be agreed upon by both student and instructor based on discussions prior to registering for this course. Can be repeated for up to 9 hours.

Department of Biology

George Murphy, Chair
Davis Science Building 127

The Department of Biology offers the Master of Science and the Master of Science in Teaching as well as a minor at the graduate level. Normally, the required test score for admission to both programs is 30 on the Miller Analogies Test or a satisfactory Graduate Record Examination score.

Requirements for the Master of Science

Candidate must

1. have an undergraduate minor in biology or its equivalent at time of admission;
2. complete a minimum of 30 semester hours including a thesis of 3 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
3. complete 6 semester hours of a foreign language or pass a language examination or complete one year of approved research tools in addition to the 30 hours;
4. pursue a major of at least 16 semester hours which includes:

BIOL 662	Biological Research
BIOL 663	Biological Literature*
BIOL 664	Thesis Research
BIOL 665,666	Seminar

Remaining courses will include approved courses in biology, chemistry, mathematics, physics, or certain other related disciplines. A minor is optional but if elected must include a minimum of 12 semester hours.

5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
6. successfully complete a written comprehensive examination (may be taken no more than twice).

**Students who completed BIOL 323 or equivalent course should consult with department chair.*

Requirements for the Master of Science in Teaching

The Master of Science in Teaching degree should be pursued by those individuals interested in teaching at the secondary level. Candidates seeking initial licensure must meet the major requirements listed below, satisfy a professional education component, and meet discipline-related requirements. The candidate should contact the chair of the Department of Educational Leadership for the professional education component and the chair of the Department of Biology for the discipline-related requirements.

The biology component for all students will be selected with and approved by the graduate coordinator of the Department of Biology.

A candidate desiring to major in biology who is a licensed teacher must:

1. have an undergraduate minor in biology or its equivalent at time of admission;
2. complete a minimum of 32 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
3. complete a major of at least 18 semester hours which includes

BIOL 532	Seminar: Advancements in Biology
BIOL 633	Principles of Physiology
BIOL 646	Conservation Biology
BIOL 650	Special Problems in Biology
BIOL 663	Biological Literature*
BIOL 5--/6--	Biology Elective

   Remaining courses will include approved courses in biology, chemistry, mathematics, physics, or other related disciplines.

   The appropriate education courses are determined by the State of Tennessee's most current licensing requirements. All M.S.T. candidates, whether licensed or seeking initial licensing, must contact the chair of the Department of Educational Leadership for number of hours and education courses necessary to complete the degree.

4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written comprehensive examination (may be taken no more than twice).

**Students who completed BIOL 323 or equivalent should consult with department chair.*

Courses in Biology [BIOL]

501 Embryology. Four credits. Prerequisites: BIOL 111 and 112. Early development of the frog, chick, pig, and human. Living material, whole mounts, and serial sections used for the study of cleavage, germ layer formation, histogenesis, and organogenesis. Three lectures and one three-hour laboratory.

502 Comparative Anatomy of the Vertebrates. Four credits. Prerequisites: BIOL 111 and 112. Vertebrate morphology and the development and function of systems and organs. Three lectures and one three-hour laboratory.

503 Non-Flowering Plants. Four credits. Prerequisites: BIOL 111 and 112. Structure, physiology, methods of reproduction, and classification of the algae, fungi, liverworts, mosses, and ferns. Three lectures and one three-hour laboratory.

504 General Entomology. Three credits. Prerequisite: 8 hours of biology. Structure, classification, evolution, importance, and life history of insects. Two lectures and one three-hour laboratory.

505 Parasitology. Three credits. Prerequisites: BIOL 111 and 112. Life histories, host-parasite relationships, and control measures of the more common parasites of humans and domesticated animals. Two lectures and one three-hour laboratory.

510 History and Philosophy of Biology. Three credits. Prerequisite: 8 hours of biology. Development of biology; the philosophy, ideas, and contributions of outstanding biologists. Two lectures.

512 Flowering Plants. Four credits. Prerequisites: BIOL 111 and 112. Structure and classification of seed plants and a survey of local flora. Three lectures and one three-hour laboratory.

513 Histology. Four credits. Prerequisites: BIOL 111 and 112. Microscopic anatomy of vertebrate cells, tissues, and organs. Three lectures and one three-hour laboratory.

514 Invertebrate Zoology. Four credits. Prerequisites: BIOL 111 and 112. Structure, functions, life histories, and economic importance of the invertebrate phyla. Laboratory work comprises detailed studies of representative specimens. Three lectures and one three-hour laboratory.

517 Endocrinology. Three credits. Prerequisites: BIOL 111 and 112 (or equivalent), and one year of chemistry. Structure, function, and integrative mechanisms of vertebrate endocrine organs, with additional attention to invertebrate hormones. Three lectures.

518 Vertebrate Zoology. Four credits. Prerequisite: 8 hours of biology. Structure, life history, and classification of fish, amphibians, reptiles, birds, and mammals. Local representatives are emphasized. Three lectures and one three-hour laboratory.

522 Ichthyology. Four credits. Prerequisite: 14 hours of biology or consent of instructor. The morphology, physiology, taxonomy, and ecology of fishes. Three lectures and one three-hour laboratory.

524 General Ecology. Four credits. Prerequisites: BIOL 111 and 112 or equivalent and one semester of general chemistry or consent of instructor. Basic concepts of the ecosystem and community, aquatic and terrestrial habitats, and population ecology; complemented by field and laboratory activities. Three lectures and one three-hour laboratory per week.

525 Limnology. Four credits. Prerequisites: 12 hours of biology including BIOL 524 and one semester of general chemistry or consent of instructor. Biological, chemical, and physical aspects of lakes and streams. Not open to students who have had Aquatic Ecology. Three lectures and one three-hour laboratory.

526 Nature Study. Three credits. Prerequisite: One semester of biology. Identification of local plants and animals and a consideration of the ecological principles governing them. Two lectures and one two-hour laboratory.

532 Seminar: Advancements in Biology. Two credits. Prerequisite: Senior or graduate standing or consent of instructor. A broad overview of biological principles and recent research developments. Two lectures.

533 A-Z Biome Analysis. One to four credits. Prerequisite: Junior or senior standing or consent of instructor. An intensive classroom and on-site study of a specific biome with special emphasis on data collection and analysis. Consult department head for specific credits and costs.

539 Ethology. Four credits. Innate and learned animal behavior in primitive and advanced animals including behavior associated with space, reproduction, and food getting. Three lectures and one three-hour laboratory.

546 Human Genetics. Three credits. Prerequisite: BIOL 212. Application of the fundamental laws of inheritance to humans. Two lectures and one two-hour laboratory.

550 Plant Physiology. Four credits. Prerequisites: 12 hours of biology including BIOL 212 and one semester of organic chemistry. Plant growth; development and metabolism at the cellular and whole plant levels. Three lectures and one three-hour laboratory.

551 **Food/Industrial Microbiology.** Four credits. Prerequisite: BIOL 216 or equivalent. The interaction between microorganisms and food and industrial processes of importance to humans. Two lectures and two two-hour laboratory periods.

552 **Plant Anatomy.** Four credits. Prerequisite: BIOL 112 or equivalent. Plant cells, tissues, and organs. Emphasis on the survival value of the plant's various structural features. Three lectures and one three-hour laboratory.

554 **A-Z Topics in Environmental Education.** One to four credits. Prerequisite: Junior standing or above or consent of instructor. An intensive classroom and field study of natural science and resources in Tennessee. Special emphasis on data collection, analysis, and problem solving. Target groups are graduate students and upper-division undergraduates in the areas of biology and education. Consult the department chair for specific credits and costs. This course will not apply to the biology major or minor.

555 **Biotechnology.** Three credits. Prerequisites: 12 hours of biology to include microbiology (BIOL 216), senior/graduate level, and consent of instructor. Instruction in both theory and application of current research methodologies in biology and molecular biology. Topics included immunochemistry, polymerase chain reaction, restriction enzyme analysis, and electrophoresis. One two-hour block and one three-hour block which includes both lecture and laboratory.

556 **Neurobiology.** Four credits. Prerequisite: BIOL 111 or PSY 403 or 424 or consent of instructor. Introduces comparative neurobiology. Topics include the basic structure and function of the nerve cell and organization of nervous systems of representative species of invertebrate and vertebrate animals. Three hours lecture and three hours laboratory.

557 **Principles of Toxicology.** Three credits. Prerequisites: 8 hours of biology and 12 hours chemistry including one semester of organic chemistry. Adverse effects of chemical agents on living organisms; current toxicological techniques in laboratory portion of course. Two hours lecture and three hours laboratory.

558 **Marine Biology.** Four credits. Prerequisites: BIOL 111 and 112; two semesters of chemistry. Introduction to biological, chemical, and physical characteristics of major marine environments and their associated flora and fauna. Three lectures and one three-hour laboratory.

606 **Advanced Dendrology.** Three credits. Prerequisite: BIOL 112 or equivalent. Woody plants with special emphasis on classification, identification, and literature of important timber trees of North America. Two lectures and one three-hour laboratory.

607 **Plants and Man.** Three credits. Prerequisite: BIOL 112 or equivalent. Human dependence on plants emphasized. Topics include origin of agriculture, fruits and nuts, grains and legumes, vegetables, spices and herbs, oils and waxes, medicinal plants, psychoactive plants, beverages, fibers and dyes, tannins, wood and ornamental plants. Three lectures.

608 **Advanced Mycology.** Four credits. Prerequisites: Graduate standing plus BIOL 112 and 216 or equivalent. Fungi, with emphasis on taxonomy, morphology, culture, and importance to humans. Three lectures and one three-hour laboratory.

612 **Aquatic Ecology.** Three credits. Physical, chemical, and biotic conditions of freshwater lakes and streams and of population structure and dynamics in these environments. Not open to students who have had Limnology. Two lectures and one three-hour laboratory.

613 **Ornithology.** Three credits. Structure, taxonomy, natural history, and identification of birds. Emphasizes field work. Two lectures and one three-hour laboratory.

618 **Mammalogy.** Three credits. Morphology, physiology, systematics, and the development of mammals. Two lectures and one three-hour laboratory.

620 **Speciation.** Three credits. Prerequisite: BIOL 212 or equivalent. Mutation, natural selection, adaptation, isolating mechanisms, genetic drift, hybridization, ploidy in the process of species formation, and a history of the development and ideas of evolution. Two lectures.

621 **Protozoology.** Three credits. Morphology, physiology, reproduction, ecology, taxonomy, and life cycles of the protozoa. Two lectures and one three-hour laboratory.

622 **Herpetology.** Three credits. Morphology, natural history, and identification of amphibians and reptiles. Local representatives emphasized. Two lectures and one three-hour laboratory.

627 **Cell Metabolism.** Three credits. Prerequisites: Organic chemistry and one course in physiology or biochemistry or permission of instructor. Metabolic pathways in cells including regulation and genetic aspects of metabolism.

629 **Advanced Scanning Electron Microscopy.** Four credits. Prerequisites: 12 hours of biology or equivalent as determined by instructor and permission of instructor. Application of scanning electron microscopy to study materials with emphasis on theory of scanning electron microscopy and preparation of biological specimens for microscopy. One lecture and six hours laboratory.

633 **Principles of Physiology.** Four credits. Prerequisites: 12 hours of chemistry and 12 hours of biology. Physical and chemical properties of protoplasm, cells, and organisms and their relationships to life processes. Three lectures and one three-hour laboratory.

635 **Biostatistical Analysis.** Four credits. Prerequisites: 12 hours of biology and college algebra. Intermediate-level introduction to biostatistical procedures used in research. Three lectures and one three-hour laboratory.

636 **Energy Dispersive X-Ray Theory and Analysis.** One credit. Prerequisite: Scanning electron microscopy. Theory of X-ray analysis and elemental analysis of materials using an energy dispersive X-ray system with scanning electron microscopy. One three-hour laboratory.

638 **Experimental Immunology.** Four credits. Prerequisite: BIOL 216 or consent of instructor. Mechanisms of immunity including the more recent developments in immunology. Three lectures and one two-hour laboratory.

639 **Advanced Cell and Molecular Biology.** Four credits. Prerequisites: 12 hours of biology, organic chemistry, and biochemistry. Molecular biology of the cell with emphasis on current experimental techniques. Three lectures and one three-hour laboratory.

640 **Medicinal Plants.** Three credits. Prerequisite: BIOL 112 or equivalent. Plants affecting human health, including poisonous, psychoactive, and remedial plants. Ethnobotanical and modern medicinal uses are treated. Three lectures.

641 **Advanced Transmitting Electron Microscopy.** Four credits. Prerequisites: 12 hours of biology and permission of instructor. Ul-

trastructure of the cell using basic and specialized techniques. One lecture and two three-hour laboratory periods.

643 **Clinical and Pathogenic Microbiology.** Four credits. Prerequisite: BIOL 216. Comprehensive coverage of the most recent discoveries and techniques used for the identification of pathogenic organisms and their relationships to disease processes. Two lectures and two two-hour laboratory periods.

644 **Advanced Virology.** Four credits. Prerequisites: BIOL 216 and chemistry. Emphasizes the main virus families and their biochemical composition. Experimental approaches and techniques will be developed in order to identify and manipulate viruses. Two lectures and two two-hour laboratory periods.

645 **Advancements in Molecular Genetics.** Four credits. Prerequisites: BIOL 212 and 216 plus one year of chemistry. Recent advancements in microbial genetics and gene manipulation with emphasis on applications of molecular genetics, including gene regulation and recombinant DNA technology. Three lectures and three one-hour laboratory periods.

646 **Conservation Biology.** Four credits. Prerequisite: BIOL 524 or equivalent. Measuring biodiversity: species, ecosystem, and genetic diversity. Topics include conservation ethics, extinctions, habitat degradation, exotic species, and management of populations and ecosystems. Meets six hours per week for lecture and laboratory.

650 **Special Problems in Biology.** Four credits. Designed to give students an opportunity to plan, implement, and interpret a research problem in some area of biology. Available topics limited to areas of graduate faculty interest and expertise.

662 **Biological Research.** Three credits. Selection of a research problem, review of pertinent literature, and execution of the research.

663 **Biological Literature.** Three credits. Literature sources, forms of literature, bibliographic methods, scientific writing. Two lectures.

664 **Thesis Research.** One to six credits. Prerequisite or corequisite: BIOL 662. Completion of the research problem begun in BIOL 662; preparation of the thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. Minimum of three credits required for M.S. degree. S/U grading.

665/ 666 **Seminar.** One credit each. Discussion of recent advances and problems in biology. Individual problems for oral and written reports.

Field Station Affiliation

MTSU is an affiliate of the Gulf Coast (Miss.) Research Laboratory. Certain courses in marine biology may be taken for graduate credit and transferred to MTSU. See department head for list of courses.

Business Administration

Troy Festervand, Assistant Dean and Director of Graduate Business Studies, College of Business
Business and Aerospace Building N222A/B

The University offers a Master of Business Administration degree which requires courses in the Departments of Accounting; Economics and Finance; Computer Information Systems; and Management and Marketing. See departmental listings in this catalog for complete course descriptions.

The director of graduate business studies also serves as advisor for the M.S. in Accounting and Information Systems. (See pages 46,62.)

Application Process

A complete application package consists of the graduate application, application fee, official transcripts from all collegiate institutions attended, and official GMAT score report.

Deadlines for Completed Applications: Fall - July 1; Spring - December 1; Summer - April 1. Completed application packages received after the deadline will be evaluated based on the date received.

Requirements for the Master of Business Administration

Candidate must

1. be admitted to the program (see page 24). For admission, a student must meet one of the following:
    a. GPA x 200 + GMAT = 950
    or Upper Division GPA x 200 + GMAT = 1,000
    b. International students must comply with the following provision: For undergraduate degrees from foreign institutions where a grade point average cannot be clearly established but where that work is thought to be equivalent to domestic grades of **B** or higher, admission eligibility may be determined by the **GMAT** score. A score of at least 450 is required for unconditional admission under such circumstances. Preparatory work taken in institutions with grading systems paralleling that of most United States institutions must conform to a **B** average.
2. complete the following foundation courses before enrolling in core courses listed in 3.a. below:*

ACTG	600	Survey of Accounting Principles, 3 hours
INFS	601	Survey of Information Systems Issues, 3 hours
Q M	600	Quantitative Methods Survey, 3 hours
ECON	603	Survey of Economic Theory, 3 hours
FIN	600	Survey of Financial Management, 3 hours
MGMT	600	Management and Operations Concepts, 3 hours

MGMT	600	Management and Operations Concepts, 3 hours
MKT	600	Marketing Concepts, 3 hours
BLAW	643	Legal Environment of Management, 3 hours

In addition to the above, it is desirable that all students in the College of Business be proficient in keyboarding and basic computer skills. Students should develop these proficiencies prior to taking College of Business courses in which these skills are typically used. To develop proficiency in keyboarding, students may take BMOM 100, Keyboarding on the Computer. Basic computer skill may be developed by taking INFS 220, Introduction to Microcomputing.

**Some or all of these courses may be waived by the director of graduate business studies based upon an analysis of previous courses completed.*

3. follow a program which stresses interrelationships of functional business areas and which requires a total of 36 semester hours, at least 30 of which must be at the 600 level. ***NOTE:*** *Core courses* ***may not*** *be satisfied by independent study.*
   a. Core courses: all candidates will take the following 24 semester hours:

ACTG	691	Accounting and Business Decisions (Undergraduate Accounting majors should take another 600-level accounting course.)
ECON	600	Managerial Economics
FIN	671	Financial Analysis
MGMT	660	Study of Organizations
MGMT	665	Seminar in Operations Management
MKT	680	Marketing Management
INFS	661	Information Systems Management and Applications
B AD	698	Business Policy (The student will take 698 in the last semester only.)

   b. Global/international elective: 3 semester hours (Student should see the director of graduate business studies for a current list of courses that meet the global/international requirement.) ***NOTE:*** *Independent studies* ***may not*** *be used to satisfy this 3-hour elective.*
   c. Elective Cognate: 6 semester hours (choose 6 hours from approved electives in same field)
   d. Approved elective: 3 semester hours (Course taken to satisfy this elective requires prior approval of the director of graduate business studies.) *NOTE: Independent study course requested to satisfy this elective must be accompanied by a research proposal which has been approved by the supervising faculty member, appropriate departmental chair, and director of graduate business studies.*
   e. A student who has had substantial undergraduate instruction in accounting, economics, finance, information systems, management, or marketing may be required, as determined by the director, to take an alternate 600-level course in the same area of instruction in lieu of the required graduate course.
4. A Candidacy Form will be prepared when an applicant is approved for admission to a graduate business program.
5. B AD 698, Business Policy, includes the required comprehensive written examination for the M.B.A. This course should be taken during the student's last semester and after completing the following courses: ACTG 691, INFS 661, ECON 600, FIN 671, MGMT 660 and 665, and MKT 680, or the equivalent.

Department of Business Education, Marketing Education, and Office Management

Linda McGrew, Chair
Business and Aerospace Building N429C

A Master of Business Education is offered by the Department of Business Education, Marketing Education, and Office Management. Advisement for the degree is provided by graduate faculty members in this department. A minor in Business Education is offered at the graduate level.

Requirements for the Master of Business Education (M.B.E.)

Normally, the required test score for admission to the program is 30 on the Miller Analogies Test or a satisfactory Graduate Record Examination score.

Candidate must

1. complete 33 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
2. have at least 24 semester hours of undergraduate business subjects;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. successfully complete a written comprehensive examination (may be taken no more than twice);
5. meet licensure requirements to teach business subjects upon completion of the degree or select the nonteaching option.

Required Courses (9 semester hours)

BMOM 571	History and Foundations of Business Education and Marketing Education*
BMOM 662	Research in Business and Marketing Education
BMOM 678	Problems in Business Education, Marketing Education, and Vocational Office Education

**Students who complete this course at the undergraduate level may substitute another three-hour graduate level course in business or marketing education.*

BMOM, FOED, and SPSE electives will be chosen in consultation with BMOM advisor or department chair.

A non-licensure training and development specialization includes BMOM 541 and 545. Electives for this specialization will be chosen in consultation with BMOM advisor or department chair.

Courses in Business Education, Marketing Education, and Office Management [BMOM]

520 **A-Z Problems in BE/ME/OM.** One, two, or three credits. Prerequisites: Graduate standing and consent of department chair. Individual research, reading analysis, or projects in contemporary problems and issues in concentrated area of study under direction of a faculty member. May be taken twice.

521 **Innovations and Problems in Accounting.** Three credits. Prerequisites: ACTG 211 and 212 or approval of instructor. A short history of accounting and data processing including aims, evaluation of textbooks, teaching strategies, testing, and course content.

523 **Innovations and Problems in Keyboarding Applications.** Three credits. Analysis of innovations, research, and problems affecting typewriting/keyboarding performance. Emphasis is on areas such as objectives and goals, psychological principles, teaching methodology and procedures, learning theories, course content, standards, and assessment.

524 **Materials and Methods in Basic Business.** Three credits. Analysis of objectives, materials, research, and appropriate instructional strategies for developing teaching strategies and delivery systems in basic business courses such as introduction to business, economics, international business, business communication systems, American business/legal systems, business management, marketing, and introduction to finance.

525 **Innovations and Problems in Office Technology.** Three credits. Prerequisite: BMOM 233 or equivalent. Instructional strategies in office technology including objectives, testing, audiovisuals, course content, basic programming, and standards.

534 **Word Processing Administration.** Three credits. Prerequisites: BMOM 233 and 234 or equivalent. Development of necessary skills for administrators of word processing centers. Word processing feasibility, development, and implementation for business using a total information processing concept. Students develop a thorough knowledge and refine skills using various application software.

535 **Records Management.** Three credits. Equipment and systems used for information storage, transmission, and retrieval. Filing, microfilming, tape processing, storage system design, form usage, and other information management functions in the office.

541 **Managerial Media Presentations.** Three credits. Prerequisite: BMOM 233 or equivalent knowledge of computers. Presentations in business and classroom environments. Emphasis on the communication process; audience analysis; presentation design and planning; media integration; innovative delivery techniques; equipment, software, and material selection; and evaluation criteria.

545 **Training Strategies for Business Systems and Technology.** Three credits. Prerequisite: BMOM 441 or equivalent. Corporate learning specialist activities such as design, development, delivery, and evaluation of learning programs for a business environment. Focuses on adult learning theories with emphasis on professional learning activities related to innovative corporate educational programs.

551 **Business Report Writing.** Three credits. Prerequisite: BMOM 351 or equivalent. Nature, general functions, and present need of reports in industry. Recognizing, organizing, and investigating problems preparatory to writing reports and construction and writing of distinctive business and technical reports.

552 **Instructional Strategies in Marketing Education.** Three credits. Develops competence in techniques of teaching with emphasis on problem-solving and demonstration procedures. Emphasizes teaching-learning evaluation.

560 **Organization and Administration of Marketing Education Programs.** Three credits. Organizing marketing education programs at the secondary and post-secondary levels; emphasizes youth organizations, techniques of coordination, and administrative procedures.

564 **Problems in Office Management.** Three credits. Evaluation of significant research in office management. Observations in local business offices and visits to managers and identifying and solving office problems.

566 **Organizational Communications.** Three credits. Prerequisite: BMOM 351 or equivalent. Research and analysis of case studies of significant research; case studies in business communication; communication policies, principles, and procedures from the executive's viewpoint.

567 **International Business Communication.** Three credits. Provides a theoretical and practical framework for understanding and conducting effective international business communication. Emphasis on the analysis and development of international business communication processes.

568 **Diversity in the Workplace.** Three credits. Emphasis on developing skills essential for working effectively with a diverse work force in global and domestic settings, incorporating the value of diversity into organizations, and building multicultural work teams.

571 **History and Foundations of BE and ME.** Three credits. Developments, aims, principles, and present status of business education; organization and evaluation of the business education curriculum; administration and supervision of business education.

573 **Consumer Education.** Three credits. Opportunity to develop understanding of relationship of consumer education to instructional program in business. Emphasis on sources of information and formulation of a conceptual framework essential to the decision-making process.

576 **Concepts and Implementation of VOE.** Three credits. Concepts of office education related to instructional programs in business education; emphasis on the application of teaching procedures related to vocational programs in business.

580 **Administrative Office Simulation.** Three credits. Prerequisites: BMOM 233 and 234 or equivalent. A culmination course which could serve as a transition from the traditional classroom atmosphere to the administrative office atmosphere. Primary emphasis on information and administrative management and controlled decision making through simulation experiences.

581 **Internship Program.** Three credits. Prerequisites: BMOM 233 and 234 or equivalent. A supervised program requiring 300 hours of related work experience in a marketing or office position. Provides experience of the application of theory into practice.

631 **History and Philosophy of BE/ME/VOE.** Three credits. Historical development, philosophy, and objectives of business and marketing education. Contributions to general education, vocational education, and adult education. Curriculum in relation to future needs, objectives, and social change.

662 **Research in Business and Marketing Education.** Three credits. Introduction to research methods, tools, and interpretation of research data.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

665 **A-Z Workshop in BE and/or ME.** Three credits. Innovations in marketing education and/or business education. Special programs and organizations featured.

667 **Organization, Administration, and Supervision of Business Education.** Three credits. Administrative problems of a school system. Emphasis on those of the supervisor of business education, the department head, and the teacher as to reorganization, budgets, curriculum, equipment, personnel, adult education, and public relations.

670 **Coordination of Cooperative Programs.** Three credits. Organization of such programs and their characteristics in combining classroom instruction with regularly-scheduled supervised experience and on-the-job training.

672 **Measurement and Evaluation in BE and ME.** Three credits. Teacher-made, standardized, and industry-developed tests and other standards used in teaching, used to evaluate student achievement, and used by industry for employment and promotion.

677 **Vocational Guidance in BE and ME.** Three credits. Developing teacher competence through utilization of occupational information, surveys, and job analysis to determine community opportunities and requirements for employment, placement, and promotion in preparing students for careers in business.

678 **Problems in BE/ME/VOE.** Three credits. Individualized research projects in special areas of concern to teachers of business education, marketing education, and vocational education and to trainers in business and industry.

681 **Recent Developments in Basic Business.** Three credits. Present status and trends affecting content of basic business courses, aims, objectives, learning aids, motivation devices, resource materials, and current research.

682 **Managerial Communication.** Three credits. Analysis of communication theory and communication processes with emphasis on development of executive communication skills essential for understanding organizational processes from a wholistic perspective. Covers organizational theory, behavior, and interpersonal communication from both a domestic and global perspective.

683 **Recent Developments in Office Technology.** Three credits. Trends in teaching office technology; selecting classroom equipment and applications software, setting standards of achievement for job competencies, developing proficiency in applications of current software, analyzing supportive instructional technologies and materials, and assessing instructional issues in current research and writings.

Department of Chemistry

Earl Pearson, Chair
Davis Science Building 239

The Department of Chemistry offers a Master of Science degree with a major in Chemistry and the Doctor of Arts in Chemistry; also offered is a minor in Chemistry at the graduate level.

The required test score for admission to the M.S. program is a satisfactory Graduate Record Examination score. For admission to the D.A. program, a score of 900 on the GRE is expected.

Requirements for the Master of Science (500 and 600 level)

Chemistry

Candidate must

1. have an undergraduate minor in chemistry or its equivalent at time of admission;
2. complete a minimum of 30 semester hours including a thesis of 3 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
3. complete CHEM 662, 663, 664, plus one course from five of the following six areas:
   Inorganic Chemistry - CHEM 606, 622
   Analytical Chemistry - CHEM 523, 623
   Organic Chemistry - CHEM 524, 624
   Physical Chemistry - CHEM 529, 629
   Biochemistry - CHEM 525, 625, 635
   Applied Chemistry - CHEM 528, 570, 670
   The remaining courses may come from courses in chemistry or approved cognate courses in biology, mathematics, and physics.
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written comprehensive examination (may be taken no more than twice).

Requirements for the Doctor of Arts (500, 600, and 700 level)

1. Candidate must have completed undergraduate prerequisites of at least 18 semester hours of chemistry at the undergraduate level and at least 20 semester hours at the master's level.
2. There are two alternatives:
   Alternative #1
   48 semester hours above the master's level with at least two-thirds of the program on the 700 level.

Work in the major teaching field will consist of at least 24 semester hours of classwork, plus 6 semester hours of internship/externship, plus 6 semester hours for the dissertation.

Alternative #2:

60 semester hours above the master's level with at least two-thirds of the program on the 700 level. 500-level courses may not be applied.

Work in the first teaching field will consist of at least 18 semester hours of classwork in chemistry, with that in the second teaching field consisting of at least 18 semester hours of classwork in anything which is offered as a major at the master's level (see exceptions, page 38), plus 6 semester hours of internship/ externship, plus 6 semester hours for the dissertation.

3. The core of professional education, 12 semester hours, consists of FOED 752 and 756 and SPSE 754 and 755.
4. A doctoral advisory committee will be appointed.
5. Candidacy Form must be filed with the Graduate Office prior to the completion of 24 credit hours.
6. Qualifying examinations as described on page 39 must be completed.
7. Defense of the proposed dissertation and preparation of the dissertation:
   a. The Dissertation Prospectus
   The dissertation prospectus should conform to the specifications given on page 40.
   b. Type of Dissertation
   Guidelines for selecting the research and dissertation topic are given on page 40.
   c. The Defense of Dissertation Seminar
   Guidelines are given under the discussion of the D.A. degree on page 40. After the candidate has successfully defended the proposed problem, it is assumed that he/she will develop, with the supervision of the advisory committee, this proposed problem into a complete dissertation. The candidate will be notified in writing of the committee's approval.

Courses in Chemistry [CHEM]

Graduate standing and consent of instructor are prerequisites for graduate courses in chemistry. The 500-level courses also have the same prerequisites as listed for the corresponding 400-level courses in the undergraduate catalog.

501/502 **Physical Chemistry Fundamentals.** Four credits each. Modern physical chemistry including current theories of atomic and molecular structures, chemical thermodynamics, electrochemistry, chemical kinetics, and related theoretical topics. Three lectures and one three-hour laboratory period.

516 **Inorganic Chemistry.** Three credits. Basic concepts and theories of inorganic chemistry and how these are used to predict and understand the physical and chemical properties of compounds of the elements other than carbon. Inorganic compounds in the air, water, earth, and in the laboratory, and in biochemistry, geochemistry, and industrial materials and processes.

521/522 **Physical Chemistry.** Four credits each. Quantitative principles of chemistry involving extensive use of calculus. Major topics include thermodynamics, phase changes, chemical equilibria, electrochemistry, reaction kinetics, quantum chemistry, molecular structure, and statistical mechanics. Three lectures and one three-hour laboratory period.

523 **Instrumental Analysis.** Four credits. Potentiometric titration polarographic, coulometric, gas chromatographic, ultraviolet, visible, and infrared absorption, and atomic absorption techniques of analysis. Requirements and limitations of each technique and the applications to various chemical systems emphasized from both a theoretical and an experimental standpoint. Three lectures and one three-hour laboratory period.

524 **Advanced Organic Chemistry.** Four credits. Application of both classical and instrumental methods of qualitative organic analysis. Practice in the interpretation of mass, infrared, ultraviolet and NMR spectra. Three lectures and one three-hour laboratory period .

525 **Biochemistry.** Four credits. Modern biochemistry including energy relationships in the cell, enzyme kinetics, metabolism, and intracellular and extra-cellular phenomena. Three lectures and one three-hour laboratory period.

528 **Polymers, an Introduction.** Three credits. Their structure, properties, and applications.

529 **Advanced Physical Chemistry.** Four credits. Modern chemical concepts and computations applied to quantum chemistry molecular spectroscopy, and statistical thermodynamics. Three lectures and one three-hour calculation laboratory period.

535 **Clinical Biochemistry.** Five credits. Prerequisite: Admission to an affiliated medical technology program. An intensive classroom/laboratory treatment of principles and procedures of clinical biochemistry.

570 **Introduction to Environmental Chemistry.** Three credits. Quality of the environment and of chemical changes in the environment through contamination or modification of the air, water, and soils as affected by human, agricultural, industrial, and social activities.

571 **Detection of Chemical Pollutants.** Four credits. Theory and practice of analytical chemistry methods used in pollution measurement. Three lectures and one three-hour laboratory period.

606 **Transition Metal and Theoretical Inorganic Chemistry.** Three credits. Prerequisite: CHEM 516 or consent of instructor. The chemistry of transition metal complexes, organometallic compounds, and of related compounds, their practical applications, and modern theoretical treatments of this chemistry. Three hours of lecture.

616 **A,8 Laboratory in Inorganic Chemistry.** One credit each. Prerequisite or corequisite: CHEM 606 (for 616A), CHEM 622 or CHEM 528 (for 616B), or consent of instructor.
A. **Inorganic synthetic methods**
B. **Physical methods in inorganic chemistry**

622 **Topics in Inorganic Chemistry.** Three to six credits. Selected topics of current interest in organic chemistry such as organometallic chemistry, symmetry and group theory, physical methods of characterizing inorganic compounds, inorganic materials science, and kinetics and mechanisms of inorganic reactions.

623 **Topics in Analytical Chemistry.** Three to six credits. Selected topics of major interest in chemical analysis.

24 Topics in Organic Chemistry. Three to six credits. A selection of modern topics.

25 Biochemistry. Three credits. Enzymes and enzyme action. Theoretical aspects of enzyme kinetics, stereospecificity, and modern techniques of studying enzyme mechanisms.

29 Topics in Physical Chemistry. Three to six credits. Advanced theories of, latest literature in, and unsolved problems of a particular research area in physical chemistry selected by the professor.

35 Advanced Biochemistry II. Four credits. Prerequisite: CHEM 525. Structure of lipids, amino acids, purine/pyrimidine nucleotides, and nucleic acids and their metabolism at a molecular level. Emphasis on understanding the chemical basis of biological phenomena.

62 Chemistry Research. Three credits. Original laboratory problem that will furnish material for a thesis.

63 Chemistry Seminar. One credit. Required of graduate students specializing in chemistry. Scientific articles reviewed and reports on individual research projects presented.

64 Thesis Research. One to six credits per semester. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

65 Individual Research. Three credits. Limited to and required of all graduate students in chemistry who expect to do research using university facilities in any semester or term when the student is not registered for any other course. This course may be repeated as many times as is necessary for the research to be completed. Pass/fail grading.

70 Environmental Soil Chemistry. Three credits. Prerequisite: Working knowledge of physical and organic chemistry. Fundamental chemical principles applied to the fate and behavior of organic and inorganic contaminants in the soil-water environment. Topics include sorption and redox reactions of contaminants.

11 Topics in Theoretical Chemistry. Three to six credits. Bonding, stereochemistry, empirical and semi-empirical parameters, state functions, spectroscopic interpretation, and reaction mechanisms.

12 Topics in Applied Chemistry. Three to six credits. Some important and current practical applications.

13 Problems in Modern Chemical Laboratory Procedures. Three credits. Newly developed laboratory techniques and procedures which the student had not previously had the opportunity to learn.

14 Independent Study of Instrumental Analysis. Three credits. Developing skill in using selected sophisticated instruments.

50/51 Chemistry Internship. Three credits each.

54 Dissertation Research. One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of dissertation. Once enrolled, student should register for at least one credit hour of doctoral research each semester until completion. S/U grading.

Courses in Physical Science [SCI]

Graduate standing and consent of instructor are prerequisites for graduate courses in physical science.

500 Problem in Physical Science. Four credits. A problem from chemistry, physics, or other physical science appropriate to the student's background and interest.

542 Experimental Physical Science. Four credits. Basic concepts, laws, and principles of astronomy, chemistry, geology, and physics with particular emphasis on the utilization of equipment available or easily improvised in actual school situations to illustrate these concepts, laws, and principles.

666 Investigations in Physical Science. One, two, or three credits. Prerequisite: Graduate standing or consent of instruct. Topics from astronomy, to chemistry, and physics, with special emphasis on the development of hands-on activities, determination of content cognitive demand, development of appropriate assessment instruments/implementation plans, and implementation of these across the pre-college curriculum. For practicing pre-college science teachers and school administrators. Consult the listed instructor for costs and specific credits. This course will not apply towards chemistry graduate degrees.

Department of Computer Information Systems

Lee Maier, Chair
Business and Aerospace Building N333C

The Department of Computer Information Systems offers the Master of Science in Accounting and Information Systems with information systems as the primary field. The department also offers courses for the Master of Business Administration degree. A minor in Information Systems is offered for students seeking a master's degree other than the M.B.A. The director of graduate business studies serves as advisor for the M.S. in Accounting and Information Systems.

Students are encouraged to take advantage of the opportunity to take a balance of information systems and accounting courses; however, there is significant flexibility in the requirements to allow a student's program to be specialized to the extent desired for particular career goals.

The prerequisites for a student seeking an M.S. degree in the department are the same as those required for the M.B.A. degree plus instruction in international business. A recent graduate of an AACSB-accredited program would normally possess an adequate background in these prerequisites.

A student electing Information Systems as a primary field may be required to complete additional prerequisites including Quantitative Methods Survey, QM 600; Business Policy, B AD 498; and INFS 601, Survey of Information Systems Issues. Completion of prerequisite courses does not reduce the hours necessary for completion of degree. Students without formal training or experience in computer programming are strongly encouraged to take COBOL Programming, INFS 272, and Advanced Programming, INFS 476 (576). A portion of these requirements may be satisfied in conjunction with the student's graduate studies.

To be admitted to the M.S. program (see page 24), a student must meet one of the following:

a. GPA x 200 + GMAT = 950
or Upper Division GPA x 200 + GMAT = 1,000
b. International students must comply with the following provision: For undergraduate degrees from foreign institutions where a grade point average cannot be clearly established but where that work is thought to be equivalent to domestic grades of **B** or higher, admission eligibility may be determined by the **GMAT** score. A score of at least 450 is required for unconditional admission under such circumstances. Preparatory work taken in institutions with grading systems paralleling that of most United States institutions must conform to a **B** average.

Requirements for the Master of Science

Information Systems as Primary Field; Accounting as Secondary Field:

Required

INFS	671	Systems Analysis
INFS	679	Seminar in Database Management
Q M	677	Quantitative Computer Applications Seminar
ACTG	691	Accounting and Business Decisions (or approved substitute)
INFS	698	Information Systems Practicum

Electives
Three hours from ACTG at the 500 or 600 level
Three hours in ACTG or INFS at the 500 or 600 level
Six hours in INFS at the 600 level
Three hours in international/global course at the 600 level

Additional Requirements

INFS 698 must be passed with a grade of B or higher with a maximum enrollment of two times.

The degree is to be completed within six years from the time of admission to the degree program.

No foreign language or thesis is required in the program.

Courses in Information Systems [INFS]

520 **Microcomputer Database Applications.** Three credits. Prerequisite: 6 hours of information systems including INFS 220 or equivalent. Database system design, implementation, querying, and applications development in a microcomputer environment.

576 **Advanced Programming.** Three credits. Prerequisite: INFS 272 Functional programming experience in structured programming techniques; top-down design; advanced file handling and maintenance techniques to include sequential, indexed sequential direct, and relative file organization; interactive, menu-driven applications; and uploading/downloading programs to a central site. Requires extensive laboratory work.

579 **Data Base Techniques I.** Three credits. Prerequisite: 6 hours o information systems. Fundamental concepts: conventional data systems, integrated management information systems, data base structure systems, data integration, complex file structure, online access systems. Emphasis on total integrated information systems data base and data base management languages.

583 **Data Base Techniques II.** Three credits. Prerequisite: INFS 479/579. A continuation of INFS 479/579; emphasis on more advanced techniques of data base construction and utilization individual projects of complex nature with extensive use of data base languages.

590 **Seminar in Data Communications.** Three credits. Prerequisite 6 hours of information systems. Current topics in the field o data communications.

601 **Survey of Information Systems Issues.** Three credits. Topic include Systems Development Life Cycle (SDLC), Data Resource Management, and Information Resource Management. Incorporates various microcomputer applications software packages

May not be used for elective credit in graduate business degree programs.

610 **Survey of Data Processing for Business Education.** Three credits. Comprehensive review of the fundamentals of information systems. Credit toward the M.B.A. or M.S. in Accounting/Information Systems degree will not be granted.

661 **Information Systems Management and Application.** Three credits. Prerequisites: Graduate standing and INFS 310 or 601. Focuses on utilization of computing resources in managerial context. Students will develop an understanding of issues and implications of information resources and end-user computing as well as develop skills in application of these concepts in a problem-solving oriented microcomputer system environment.

671 **Systems Analysis.** Three credits. Prerequisite: INFS 310 or 601. Practical explanation of the total systems concept and a knowledge of systems design and implementation. Student is expected to apply knowledge gained in other courses through the successful completion of a "real-world" systems project. Required course for the M.S. in Accounting/Information Systems.

672 **Seminar in Decision Support Systems.** Three credits. Prerequisite: INFS 310 or 601. Examines the broad area of Management Support Systems. Includes coverage of concepts and issues surrounding decision support systems, expert systems, and executive information systems. Software packages used to solve application problems chosen from appropriate business areas.

674 **Strategic Information Systems.** Three credits. Prerequisite: 6 graduate hours of information systems. Focuses on the use of information system (IS) and information technology (IT) in the strategic management process in business organizations. Emphasis on the strategic view of IS and IT and their impact on organizational strategy. Use of IS and IT to support prominent generic strategy models and how IS and IT aid applying the principles of those generic strategic models.

675 **Seminar in Global Information Systems.** Three credits. Prerequisite: INFS 310 or 601 or permission of instructor. Examines the managerial, operational, and strategic implications of information and communication technology in the global context. Particular emphasis on the strategic dimension.

679 **Seminar in Database Management.** Three credits. Prerequisite: INFS 310 or 601. Advanced topics in computer-related information systems as found in current literature and practical application. Advanced information structures and data management concepts applied in the design of computer-based information systems. Additional topics include data structures as applied to distributed processing systems, computer system component resource allocation, and data communication systems design. Significant computer application projects required.

690 **Business Data Communication Management.** Three credits. Prerequisite: INFS 310 or 601 or permission of instructor. Management and use of data communications technologies to support the operations of businesses. Practical experiences in the use of data communications technologies, such as local area networks, the Internet, distributed computing, and distributed databases.

698 **Information Systems Practicum.** Three credits. Prerequisites: 6 hours graduate credit in information systems and last semester of program. Project-oriented; emphasizes development and implementation of tools and techniques for the assessment of information systems in organizations. Capstone course for Information Systems majors and must be taken last semester prior to graduation.

699 **A, B Independent Research in Information Systems.** Three credits. Prerequisites: Graduate standing and consent of department chair. Provides individual research, readings analysis, or projects in contemporary problems and issues in a concentrated area of study under the direction of an appropriate faculty member. Maximum credit applicable toward degree may not exceed six credits.

Courses in Quantitative Methods [QM]

600 **Quantitative Methods Survey.** Three credits. Quantitative methodologies to assist in the decision-making process. Emphasis on applied statistics and decision sciences topics that are practical, useful, and of wide application for business analysis. **May not be used for elective credit in graduate business degree program.**

677 **Quantitative Computer Applications Seminar.** Three credits. Prerequisite: QM 362 or 600. Advanced techniques in quantitative methods. Modeling and optimization techniques. Computer applications emphasized.

696 **Statistical Methodology and Analysis.** Three credits. Prerequisite: QM 362 or 600. Descriptive and inferential statistical concepts with the use of expert systems to assist in the selection of appropriate design and methodology. Utilization of common packages for problem solution and analysis.

Department of Computer Science

Richard Detmer, Chair
Kirksey Old Main 306

The Department of Computer Science offers the Master of Science with a major in Computer Science and a minor at the graduate level.

Normally, the required test score for admission to the Master's program is 30 on the Miller Analogies Test or a satisfactory Graduate Record Examination score.

Requirements for the Master of Science

Candidate must
1. have completed an undergraduate minor in computer science, or the equivalent, which consists of 18 semester hours including CSCI 117 (high-level programming language), CSCI 217 (introduction to data structures), and CSCI 316 (assembly language programming).
2. have completed MATH 221, Calculus and Analytic Geometry II, or the equivalent, and one semester of statistics;
3. complete 30 semester hours including a thesis of 3 semester hours and a major of 18 semester hours of computer science, or if a thesis is not written, 36 semester hours with a major of 24 semester hours (if a minor is elected, it must include a minimum of 12 semester hours);
4. complete at least two one-year course sequences in computer science, selected with the consent of the advisor (available core sequences are CSCI 516-619, 525-626, 530-630, 533-613, 535-635, 556-656, 570-618, 580-618, 625-645, 635-655);
5. complete at least 70 percent of the program at the 600 level;
6. complete 6 semester hours of approved research tools with grades of C or better on the undergraduate or graduate level;
7. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
8. successfully complete a written comprehensive examination over two sequences from the approved list and two additional 600-level courses that are not from the same areas as the sequences (may be taken no more than twice);
9. present an oral defense if a thesis is elected; if a thesis is not elected, then an oral presentation on an approved computer science topic is required (Pass/Fail, may be repeated only once).

Courses in Computer Science [CSCI]

513 **Microprocessor Operation and Control.** Three credits. Prerequisite: CSCI 316. Digital systems based around microcomputers, microcomputer architecture, logic replacement, memory design, timing considerations, input/output design, interfacing, robotics, and total system design.

516 **Compiler Analysis and Design.** Three credits. Prerequisites: CSCI 311 and 316. The various phases of a compiler along with grammars and finite automata. A term project consisting of the design and construction of a functional compiler required.

525 **Computer Graphics.** Three credits. Prerequisites: CSCI 311 and 318 or consent of instructor. Topics include vector drawing displays, raster scan displays, input devices and techniques, graphics software, transformations, projections, interpolation, and approximation.

530 **Data Communication and Networks.** Three credits. Prerequisite: CSCI 325. Computer network architectures, protocol hierarchies, and the open systems interconnection model. Modeling, analysis, design, and management of hardware and software on a computer network.

533 **Parallel Processing Concepts.** Three credits. Prerequisites: CSCI 313, 325, and a working knowledge of either C or C++. Introduces basic concepts in parallel processing and programming in a parallel environment. Topics include classification of parallel architectures, actual parallel architectures, design and implementation of parallel programs, and parallel software engineering.

535 **Introduction to Artificial Intelligence.** Three credits. Prerequisite: CSCI 217 or equivalent. Principles and applications of artificial intelligence. Principles include search strategies, knowledge representation, reasoning, and machine learning. Applications include expert systems and natural language understanding.

556 **Data Base Management Systems.** Three credits. Prerequisite: CSCI 311. The relational and object models of data base design along with relational algebras, data independence, normal forms, logical and physical views, query languages, and current literature.

560 **Independent Study in Computer Science.** One to six credits. Prerequisite: Consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which CSCI 560 is taken. Proposal must be approved prior to taking the course. At the conclusion of the course, each enrollee will submit a written summary of the project.

570 **Software Engineering.** Three credits. Prerequisite: CSCI 311. Consists of a theoretical component and a practical component. Topics include the history of software engineering, software development paradigms and life cycles, and computer-aided software engineering (CASE). A team project will be developed in parallel with the theory.

580 **Software Testing.** Three credits. Prerequisite: CSCI 217 and 308. Integrates theory and applications of software testing techniques. Provides actual hands-on testing experience. Considers multiple testing paradigms.

585 **Neural Nets.** Three credits. Prerequisite: CSCI 308. Various neural net architectures, theory, and applications, including models such as Perceptron, back propagation, Kohonen, ART, and associative memory. Learning and conditioning methods also studied.

590 Selected Topics in Computer Science. Three credits. Prerequisite: CSCI 217. Advanced topics in computer science to be selected and announced at time of class scheduling. May be repeated for up to six credits total.

610 Analysis of Algorithms. Three credits. Prerequisites: CSCI 311 and 308 or consent of instructor. Topics include the analysis and design of algorithms; efficiency of algorithms; design approaches including divide and conquer, dynamic programming, the greedy approach and backtracking; P and NP; and algorithms in many areas of computing.

613 Selected Topics in Parallel Processing. Three credits. Prerequisites: CSCI 313 and 325 or permission of instructor. An in-depth investigation of one or more topics in parallel processing. Topic(s) to be selected by the professor. Possible topics include parallel algorithms, parallel programming languages, parallel programming tools, parallel software engineering, parallel architectures, parallel applications, and parallel VLSI.

618 Software Design and Development. Three credits. Prerequisite: CSCI 217. State-of-the-art techniques in software design and development; provides a means for students to apply the techniques.

619 Theory of Compilers Three credits. Prerequisite: CSCI 416/516. Introduces theory of parsing methods as well as symbol table construction, code optimization, run time storage management, and implementation of recursion.

625 Advanced Operating Systems. Three credits. Prerequisite: CSCI 325. Topics include concurrent processes, name management, resource allocation, protection, advanced computer architecture, and operating systems implementation.

626 Advanced Computer Graphics. Three credits. Prerequisite: CSCI 425/525. Topics include three-dimensional curves and surfaces, projections, hidden line and surface elimination, raster graphics systems, and shading techniques.

630 Networks. Three credits. Prerequisite: CSCI 325 or consent of instructor. Computer communications, network architectures, protocol hierarchies, and the open systems interconnection model. Modeling, analysis, and specification of hardware and software on a computer network. Wide area networks and local area networks including rings, buses, and contention networks.

635 Artificial Intelligence. Three credits. Prerequisite: CSCI 311 or equivalent. In-depth study of the principal areas of the field: machine learning, artificial intelligence programming, problem-solving methods, knowledge representation methods, deduction and reasoning, and applications such as data mining and expert systems.

645 Operating System Design. Three credits. Prerequisite: CSCI 625. Definition, design, and implementation of a significant operating system proven from such areas as file systems, process management, memory management, time sharing, input/output device management, and user interface.

655 Introduction to Symbolic and Algebraic Manipulation. Three credits. Prerequisite: CSCI 311. Techniques for algebraic manipulation on the computer. Includes symbolic differentiation and integration, extended precision arithmetic, polynomial manipulation; introduces one or more symbolic manipulation systems. Automatic theorem provers considered.

656 Advanced Data Base Management Systems. Three credits. Prerequisite: CSCI 556. A consideration of the problems and opportunities inherent in distributed database on a network. Includes file allocation, directory systems, deadlock detection and prevention, synchronization, query optimization, rollbacks, security, and fault tolerance.

660 Selected Topics in Computer Science. Three credits. May be repeated for up to six credits total. Prerequisites: A solid foundation in undergraduate Computer Science and any prerequisites determined by the instructor. An in-depth investigation of one or more topics in computer science. Topic(s) to be selected by the professor. Possible topics include search techniques, for-example genetic algorithms, soft computing, object-oriented software engineering, expert systems, program verification, software quality, knowledge discovery in data bases, and design of embedded software systems.

662 Research Methods in Computer Science. Three credits. Prerequisite: Nine hours of graduate work in computer science. Research tools used in computer science examined. Student will select a research problem with approval of the instructor, review pertinent literature, and produce a report using the manual of thesis writing currently approved by the College of Graduate Studies.

664 Thesis Research. One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

Department of Criminal Justice Administration

Frank Lee, Chair
Vaughn House 6

The Department of Criminal Justice Administration offers a Master of Criminal Justice (M.C.J.) degree in cooperation with Tennessee State University. A minor in Criminal Justice at the graduate level is also offered at MTSU. Normally, the required test score for admission to the Master of Criminal Justice program is 25 on the Miller Analogies Test or a satisfactory score on the Graduate Record Examination. To be considered for Fall admission, an applicant's materials must be received by June 15; for Spring admission, November 1; and for Summer admission, April 15.

A graduate student may not enroll in more than 12 total hours in any given semester. This limitation applies to Criminal Justice graduate students who may be simultaneously enrolled at both TSU and MTSU. Any student exceeding the hours-per-semester limit will be dropped from a course or courses to the twelve-hour level. A student may, on rare occasion, be given permission for an overload, but the proper overload form must be executed before courses begin and under no circumstances will the overload exceed three hours, or a total of 15 hours.

General Requirements for the Master of Criminal Justice

Candidate must

1. have completed a minimum of 18 hours of work at the undergraduate level in criminal justice or an approved equivalent;
2. complete a total of 36 hours (18 hours at MTSU and 18 hours at TSU) with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours including the following core courses:
   Middle Tennessee State University - Fall Semester Only
   CJA 600 Criminal Justice Administration, 3 hours
   CJA 601 Law Enforcement Seminar, 3 hours
   Tennessee State University - Spring Semester Only
   CJA 602 Judicial Seminar, 3 hours
   CJA 603 Contemporary Corrections, 3 hours
3. file a candidacy form after having completed 10 semester hours credit and before having completed 16 semester hours credit. Candidate must have maintained an average grade of 3.00 or above on all work attempted. No fewer than 10 and no more than 16 semester hours may be counted toward the degree before the individual is advanced to candidacy. Indicate research/thesis institution at this time.
4. complete the following 6 hours at one institution (MTSU or TSU)
   CJA 690 Research in the Criminal Justice Process, 3 hours
   CJA 664 Thesis Research, 3 hours
5. complete the remaining 18 hours of approved electives as follows:
   12 hours at the non-thesis/research institution
   6 hours at the thesis/research institution
6. successfully complete an oral comprehensive examination in conjunction with the thesis defense.

Courses in Criminal Justice Administration [CJA]

522 **Community Relations and Minority Problems.** Three credits. Analysis of public hostility toward police and current community relations projects; training and education of law enforcement officers; responsibilities of police administrators; causes of tension and conflict, positive and negative factors in the control of minority group hostilities; minority recruitment in law enforcement.

526 **Special Issues in Law Enforcement.** Three credits. Variety of subtopics related to law enforcement. Problems in private and public morality with regard to drug use, alcoholism, and sex offenses; analysis of current police training programs; relationship between legislation and political process which affects law enforcement.

533 **Criminal Investigation.** Three credits. (For CJA majors or with permission of instructor.) General investigative responsibilities and techniques, including administration preparation, investigative jurisdiction and responsibility, and the importance of substantive report writing. Includes special techniques required for specific investigative categories.

550 **The Juvenile Justice System.** Three credits. Juvenile delinquency and youth crime with emphasis on the history of the juvenile justice system, the court and police role within the system rehabilitation and correction of the delinquent, and juvenile probation services. Alternatives to traditional procedures: community-based programs versus correctional institutions, nonjudicial adjustment, etc., examined.

553 **Criminal Evidence and Procedures.** Three credits. Types of individuals and problems of admissibility in court proceedings, proper treatment and disposition of evidence, legal procedure to be followed, and actual trial procedure.

575 **Seminar in Corrections.** Three credits. Each student selects a problem area of interest for an intensive research effort. The group will be presented with a contemporary corrections issue or problem and will be required to create practical and workable strategies for coping with the issue. Where feasible, arrangements will be made to implement the program in an actual correctional setting.

580 **Crime in America: An Assessment.** Three credits. An in-depth survey of the impact of crime on American society: amount and trends of crime, economic impact of crime, professional and white collar crime, characteristics of offenders and victims of crime.

590 **Readings in Criminal Justice.** Three credits. Advanced students capable of independent study will be allowed to do in-depth readings in a particular area of criminal justice relevant to individual interests. Annotated bibliography and report required. Arrangements for this course should be made with the instructor prior to registration.

600 **Criminal Justice Administration.** Three credits. Criminal justice, juvenile justice, correctional and mental health processes, and other issues including those arising out of other processes of social control and community-based treatment of offenders. Development of a critical analysis of current literature, compilation of a bibliography, and completion of an intensive research paper required.

601 **Seminar in Law Enforcement.** Three credits. The function of police within the community and its relationship to the criminal justice system, the effects of police actions toward the community and to other segments of the system, social expectations and limitations, assessment and special problems. Analysis of relevant studies, formation of annotated bibliography, and organization of research into a formal composition.

602 **Judicial Seminar.** Three credits. Examination of the judicial system, including flow of the criminal case, personnel, court community relations, computers and the courts, and special problem areas. A research project consisting of a literature review, bibliography, and a thorough analysis required.

603 **Contemporary Corrections.** Three credits. Corrections programs in contemporary custodial and juvenile institutions and community-based corrections programs; problems and prospects associated with them. Each student required to make class presentations on assigned topics, participate in class discussions and analysis of reports, develop a bibliography, and submit a research paper in a specific area of corrections.

604 **The Concept of Justice.** Three credits. Historical development and philosophy of law. The notion of justice in a criminal context, with emphasis on equity and ethics in law and justice. Examines the sociology of law and societal constraints on proscribed behavior.

623 **Police Management Systems.** Three credits. The need for awareness of police management problems, reaction of criminal justice system within P.M.S., administrative behavior toward the organizational environment, and the nature of change within P.M.S. Preparation of a research paper which consists of complete analysis of a topic within P.M.S., a review of recent literature, and an annotated bibliography required.

625 **Criminal Justice Internship.** Three credits. Prerequisite: Permission of instructor. Student placed for an intensive field experience in a functional criminal justice agency. The selection of the placement agency determined by student's background, academic status, and interest.

630 **Innovations in Law Enforcement.** Three credits. The changing role of the police function and its relationship to the criminal justice system, including evaluation of the operational line function of the 80s, technological changes in society and their effects on law enforcement, and the etiology of innovation. Evaluation of recent literature, compilation of a list of selected readings, and unification of research into a methodological exposition.

641 **Advanced Constitutional Law.** Three credits. Examination of constitutional rights of the accused including pretrial, trial, and prisoner rights. Reading and critique of current literature and Supreme Court decisions, learning to function in a law library, and composing a research paper with a bibliography on a chosen constitutional topic.

643 **Criminal Law: The Defense Side.** Three credits. Procedure of the criminal courts from the defense viewpoint. ABA standards for defense attorneys, the handling of a case by the defense from arrest to appeal, and ethical problems posed for defense attorneys. Attention given to defense by appointment and plea bargaining.

650 **Interviewing and Counseling Juveniles.** Three credits. Introduction to the causal theories of delinquency, application of theory to treatment, caseworker attitudes, and counseling styles. Discussion of individualized models for classification and treatment as well as group and process models.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

670 **Community-Based Corrections.** Three credits. Intensive survey of probation and parole at both the adult and juvenile levels. Halfway houses, work-release programs, and other community correctional settings. Impact of the "justice model" upon community corrections featured.

683 **Violence and Victimology.** Three credits. Impact of violence on victims at both the adult and juvenile levels examined. Other major topics include the right to treatment, victims as witnesses, victims in the correctional system, and societal reaction to violence.

690 **Research in the Criminal Justice Process.** Three credits. Introduces research methods, including the experiment and experimental methods and models, survey research, participant observation, case studies, unobtrusive measures, the use of official and unofficial statistics, validity, reliability, and data analysis. Special emphasis on ethics in criminal justice research and on proposal writing and evaluation research.

692 **Seminar in Criminal Justice Planning and Management.** Three credits. Intensive introduction to principles of planning and management in the system. Students required to actively participate in planning exercises and to utilize data from actual situations for the development of appropriate management strategies.

693 **Comparative Systems of Criminal Justice.** Three credits. Systems in the U.S. and Great Britain, New York, and London. Examination of crime and justice in northern and southern Europe, the Soviet Union, and Canada. Discussion of progressive criminal policy and the U.N. and the uses of comparative analysis of current literature and formal exposition on a related topic.

694 **Crimes, Criminals, and Their Treatment.** Three credits. An intensive exploration of the various systems of criminal typology, including a survey of the various theories of criminal behavior and a survey of institutional treatment methods currently in use. Extra-institutional treatment methods also examined.

695 **Business and Industrial Security.** Three credits. Examination of the scope of the problem, the economic impact, major problems (security, employee theft, shoplifting, industrial espionage). Discussion of the responsibility and effectiveness of the criminal justice system, programs for prevention and training of employees, managers, and security personnel. Preparation of an extensive research paper which analyzes an assigned topic and summarizes current trends in the literature required.

Department of Economics and Finance

John Lee, Chair
Business and Aerospace Building N329C

The mission of the graduate program in economics is to provide students with advanced studies in economic theory and research methodology. To accomplish its mission the Department of Economics and Finance offers two degree programs: the Master of Arts (M.A.) with a major in Economics and the Doctor of Arts (D.A.) with a major in Economics. The Department's approach to these degree programs is global, interactive, and innovative. In the M.A. program, students are offered three curricular paths: general economics, Industrial Relations, and Financial Economics. M.A. students in economics are offered preparation for careers in private business and public service. The focus of the M.A. program is on decision analysis and applied research. D.A. students in economics are trained for teaching careers in higher education. The D.A. provides students with the opportunity to combine advanced training in economics with educational pedagogy and applied research.

The required test score for admission to both masters' programs is 30 on the Miller Analogies Test or a satisfactory score on the Graduate Records Examination (GRE). Admission to the doctoral program normally requires a score of 900 or better on the GRE.

Requirements for the Master of Arts (500 and 600 level)

1. Candidates entering the M.A. program must have completed certain foundation courses. Each candidate's record is carefully examined to determine whether these functional areas have been satisfactorily covered in previous academic work. The foundation areas include:
   Intermediate-level Macroeconomics
   Intermediate-level Microeconomics
   Intermediate-level Quantitative Methods
   The M.A. advisor will notify the student of any deficiencies in the foundation courses. Students lacking work in these areas must take the requisite undergraduate courses.
2. Candidates for the M.A. in Economics or the M.A. in Economics with a concentration in Industrial Relations must complete a minimum of 30 semester hours if a thesis is written or a minimum of 33 semester hours if a thesis is *not* written. At least 24 semester hours must be in courses numbered exclusively as 600-level graduate courses.

Major in Economics

1. Candidates choosing a major in economics must complete a minimum of 18 semester hours of economics including ECON 611, 612, and 662.
2. Candidates can include a minor in their degree programs. A minor comprises 12 hours of approved courses. A list of graduate minors can be found on page 19.
3. Students not electing a minor can include a cognate area of up to 6 semester hours in their program. Cognate areas can be formed from courses in such fields as accounting, agriculture, finance, geography and geology, history, industrial studies, insurance, management, marketing, mathematics, political science, psychology, real estate, and sociology.
4. The student, with the assistance of the M.A. advisor, must file a Candidacy Form prior to the completion of 24 credit hours.

Major in Economics with a Concentration in Financial Economics

The mission of the concentration in Financial Economics is to provide students with the intellectual foundation and technical skills needed to enter careers as financial economists and analysts in private companies and public agencies. The Economics major with a concentration in Financial Economics requires the general M.A. core courses: ECON 611, 612, and 662. In addition, a candidate must complete ECON 646, 673 and FIN 671, 674. An additional six hours of guided electives must be chosen from the following courses: ECON 643, 645, 653, FIN 672 or 686. The remaining six hours are general electives. The M.A. advisor must approve the selection of the general electives.

Major in Economics with a Concentration in Industrial Relations

1. Candidates choosing the Industrial Relations concentration must complete the following courses: ECON 600, 562 (or 662), 650, 651, and 539. An additional 9 hours must be completed from the following courses: ECON 652, 644 (Industrial Relations topic only), 551, 549, and 542. Students without substantial experience in the field of industrial relations are strongly encouraged to complete ECON 542, 549, and 551 as initial courses in the Industrial Relations concentration. Up to 9 credits of substitutions may be made by passing competency tests administered and evaluated by industrial relations faculty. Courses designated for possible substitutions are 539, 542, 549, and 551. Before taking the competency tests the student, industrial relations faculty, and M.A. advisor will agree on the courses to be substituted for those negated by any successfully passed competency exams. The remaining credit hour requirements are electives. Courses

listed above and not selected to fulfill the above requirements may be taken as electives, but students are strongly encouraged to consider interdisciplinary options from the following: management, engineering technology and industrial studies, psychology, sociology, actuarial science, political science, and school personnel service education. The M.A. advisor in consultation with the industrial relations faculty must approve acceptable courses.

Comprehensive Examinations

1. Candidates must successfully complete a written comprehensive examination that may be taken no more than twice. For the major in Economics the comprehensive examination covers the three core areas: macroeconomics, microeconomics, and econometrics I. For the major in Economics with a concentration in Financial Economics the comprehensive examination includes macroeconomics, microeconomics, and a financial economics field examination. For the major in Economics with a concentration in Industrial Relations the comprehensive examination encompasses four types of competencies:
    a. applied technical analysis relevant to industrial relations practice including time values, regression analysis, and other computational methods that are generally based on ECON 539, 542, 600, 651, or 662 (or 562);
    b. conceptual synthesis of Industrial Relations theory, applications, and issues from required and elective course content, and
    c. a specialty area defined by collaboration between the student, M.A. advisor, and Industrial Relations faculty, e.g., legislation and regulation of labor markets and employment, demographic influences upon the workplace, and technology change and the workplace.
    d. a synthesis of international issues taken from the content in the core and elective courses.
2. Before taking the comprehensive examination, the student is expected to attend and actively participate in regularly scheduled departmental student/faculty workshops where research papers are presented and discussed by the participants.

Requirements for the Doctor of Arts (500, 600, and 700 level)

1. There are two alternatives available:
   Alternative #1
   A program with a single teaching field: 48 semester hours above the master's level with at least two-thirds of the program on the 700 level. 500-level courses may not be applied. Work in economics will consist of at least 24 semester hours of classwork, plus 6 semester hours of internship, plus 6 semester hours for the dissertation.
   Alternative #2
   A program with two teaching fields: 60 semester hours above the master's level with at least two-thirds of the program on the 700 level. 500-level courses may not be applied. Work in economics will consist of at least 18 semester hours of classwork, plus 6 semester hours of internship, plus 6 semester hours for the dissertation. Work in the second teaching field will consist of at least 18 semester hours of classwork in any subject which is offered as a major at the master's level (but see exceptions, page 38).
2. Prerequisites for **Alternative #1** include at least 18 hours of economics at the undergraduate level and 20 hours at the master's level. Students who elect **Alternative #2** must also have completed at least 18 hours of undergraduate credits in the second teaching field **except** when the second teaching field selected is a business area. If the second teaching field selected is a business subject, then the student must complete the undergraduate prerequisite or foundation courses for the M.B.A. listed under item #2, page 56. Since Business Administration is broadly defined to cover several different business disciplines, a second teaching field in this area could include courses in either finance, accounting, information systems, management, or marketing.
3. A core of professional education must be completed and will consist of at least 12 semester hours, which must include FOED 752 and 756 and SPSE 754 and 755.
4. A doctoral committee will be appointed.
5. The student, with assistance of the graduate advisor, must file a Candidacy Form prior to the completion of 24 credit hours.
6. Qualifying examinations as described on page 39 must be completed. Before the qualifying examination, the student is expected to attend regularly scheduled departmental faculty/student workshops and make at least two workshop presentations. If Business Administration is selected as a second teaching field, qualifying examination requirements for that field are satisfied by the successful completion of B AD 698 Business Policy.
7. The student must successfully defend a dissertation prospectus and then prepare the dissertation.
    a. The Dissertation Prospectus
       The dissertation prospectus should conform to the specifications given on page 40.
    b. Type of Dissertation
       Guidelines for selecting the dissertation topic are given on page 40.
    c. The Defense of Dissertation Seminar
       Guidelines are given under the discussion of the D.A. degree on page 40. After the candidate has successfully defended the proposed problem he/she will develop, with the supervision of the advisory committee, this proposed problem into a complete dissertation. The candidate will be notified in writing of the committee's approval.

Courses in Economics [ECON]

531 Problems in Government Finance. Three credits. Comparison of state and local fiscal organization, administration, and budgetary policy and procedures. Special attention given to comparing the revenue and expenditure structure of Tennessee and its major subdivisions with those of neighboring states.

539 **Employee Benefits.** Three credits. (Same as FIN 539.) Includes descriptive review and taxation, legislative, and administrative dimensions of the major components of employee benefit plans such as retirement systems, deferred compensation plans, health insurance, death benefits, disability benefits, paid and unpaid time off. Technical analysis and problem solving emphasized to develop applied skills. Social insurance and international benefits integrated.

540 **Business and Government.** Three credits. Examination of the structure, conduct, and performance of American industries; public policies toward business; economic analysis of these policies.

542 **Labor and Human Resource Economics.** Three credits. Current issues and theories, returns to training and education (human capital), earnings differences; theoretical interpretation and empirical economic impacts of unions, government regulation, and international forces upon labor relations and labor markets; human resource information systems (spreadsheet applications) and integration of Internet information sources and forensic analysis.

544 **International Economics.** Three credits. Differences between domestic trade and international trade and foundations of international trade; economic effects of free trade and restricted trade; mechanisms of international payments and structure of balance of payments; history and contemporary issues of trade policies and world monetary systems.

547 **Economic Development of the Third World.** Three credits. Conditions and problems of the less developed countries; causes, processes, and consequences of economic development; introduction to basic growth models, development theories, and strategies for development. Economic as well as non-economic factors studied.

549 **Industrial Relations Legislation** Three credits. Effects of domestic and international legislation and regulation of governments on the practical functions of labor markets and employment relations in the public and private sectors. Specific dimensions include unions and other collective and collaborative institutions, workforce diversity, and the impacts of technology. Domestic and international electronic resources are heavily integrated into learning experiences based on research and analysis.

551 **Unions and Collective Bargaining.** Three credits. Collective bargaining contract administration and alternative dispute resolution mechanisms. Information technology tools. Analytical focus on the impacts of total compensation agreements, strike strategies, and the interdependent influences of the union and non-union sectors of the economy. Practical cases emphasized. A brief international comparative survey of unions and other collective relationships included.

562 **Econometrics and Forecasting.** Three credits. Prerequisites: QM 261 and MATH 344 or equivalent. Application of mathematical and statistical techniques to economic problems. Introduces econometric model construction and estimation and related problems. Requires use of econometric computer package.

566 **History of Economic Thought.** Three credits. The historic background of modern economic thought. Ancient economic thought; the main current of developing economic analysis through Feudalism, Mercantilism, and the Physiocrats; Adam Smith and the classical economists; Twentieth-century contributors.

589 **Internship in Economics.** Three credits. Prerequisite: Graduate status and recommendation of advisor. Supervised work experience in cooperating business firms or government agencies together with specialized academic study relating to the work experience.

590 **Mathematical Methods for Economists.** Three credits. Applications-oriented; reviews essential concepts of algebra and covers the basics of matrix algebra, differential and integral calculus, including unconstrained and constrained optimization and the fundamentals of dynamic analysis.

599 **Problems in Economics.** Three credits. Problems for intensive study are chosen in joint consultation between student and instructor.

600 **Managerial Economics.** Three credits. Prerequisites: ECON 241 and 242 or 457 or equivalent. Primarily for M.B.A. students with particular attention given to business administration and finance topics including demand analysis, production and cost decisions, quantitative market analysis, capital budgeting, and alternative theories of the firm. Special emphasis on case studies, software applications, and interpretation of economic meanings of related analyses.

603 **Survey of Economic Theory.** Three credits. Overview of micro and macro economic principles with an emphasis on applications to decision making in a competitive market environment. **May not be used for elective credit in graduate business degree programs.**

611 **Advanced Macroeconomics.** Three credits. Prerequisites: ECON 351 and 590 or permission of the instructor. Measurement concepts in macroeconomics, schools of macroeconomic thought, traditional models of aggregate demand and supply, open economy models and issues, and new approaches to macroeconomics. Computer applications.

612 **Advanced Microeconomics.** Three credits. Intensive review of the structure of microeconomic theory including optimization algorithms, envelope theory, preference axioms, intertemporal choice, alternative forms of cost and production functions, behavior under uncertainty, pricing information, market strategies, game theory, general equilibrium, social choice and externalities.

640 **Economics of Health Care.** Three credits. Applications of microeconomics to analysis of the health care delivery system in the United States. Major issues include the private and public demand for health care, supply of health care, cost of health care, the pricing of health care, and the analysis of the various health care reform policies of the industry. Examines how economics can provide valuable insights into the above problems of social choice.

643 **Seminar on Public Finance.** Three credits. (Same as FIN 643.) Examines the role of government in the allocation and distribution of society's resources. Topics include theories of government sector growth, public and quasi-public goods, externalities and agency theory, transitivity and completeness of voting preferences, income redistribution and economic justice, social insurance, health care programs, tax shifting and incidence analysis, efficiency and equity in taxation, and efficiency and redistributive aspects of deficit financing. Topics may involve case studies such as budget formulation, environmental policies, payroll taxes, and alternative tax structures.

644 **Special Topics in Economics.** Three credits. Independent study of a particular topic selected by the student and approved by the instructor. Provides an opportunity to study special areas of interest for which regular courses are not offered.

645 **Seminar on Monetary Policy.** Three credits. (Same as FIN 645.) Prerequisite: ECON 321 or equivalent recommended. Objectives and limitations of monetary policy, alternative monetary theories underlying policy decisions and the controversy among theories, transmission channels of monetary policy, alternative strategies used to achieve the objectives of monetary policy, practical considerations in the execution of monetary policy, global linkages and monetary policy, and the effects and consequences of policy decision on economic activity and business decisions.

646 **Seminar on Financial Markets.** Three credits. (Same as FIN 646.) Prerequisite: FIN 300 or 301 or 600 or equivalent. Credit flows within the U.S. and the global economies, the economic and financial forces influencing the general level of interest rates and the relationship among interest rates, the characteristics of key short- and long-term financial assets, new financial instruments, derivative instruments, global financing linkages, global linkages among financial instruments and among national economies, and interest rate risk, including the measurement and means of protection.

647 **Seminar in Economic Growth and Development.** Three credits. Prerequisite: ECON 447 or equivalent recommended. Satisfies the M.B.A. international course requirement. Critical analysis of causes, processes, and consequences of economic development; evaluation of various policies and strategies for economic development; introduction to advanced growth models and theories. Special emphasis on the less developed countries.

650 **Modern Issues in Labor and Industrial Relations.** Three credits. A survey of labor market and employment relations issues evolving in our changing economic environment. Coverage includes the concepts of efficiency, equity, and ethics of market and institutional behavior and economic issues related to work force demographics and work place organization. Distinction drawn between cooperative and competitive models of economic organization and outcomes in the employer-employee relations environment. Internet labor market information sources and international comparisons incorporated.

651 **Theory and Analysis in Labor Economics and Industrial Relations.** Three credits. Prerequisite: ECON 457 or 600 or 442/552 (or equivalent of either). Recommended prerequisites: Courses or equivalent experience involving financial computations, spreadsheet applications, and statistical software. Micro and macro theory of labor demand and supply and government policy implications, economic theory and measurement of human capital, returns to education, discrimination, income distribution, and impacts of international trade.

652 **Special Media Projects.** Three credits. Non-traditional learning experiences. Approval includes faculty and student written mutual agreement and conformance to departmental standards for independent study. Examples of special projects include production of CDs, DVDs, cable TV programming, Internet projects, internships that clearly add non-redundant learning experiences, or highly applied projects that demonstrate the integration of information technologies into mainstream business or other organization decision making.

653 **Advanced International Economics** Three credits. Prerequisite: ECON 544 or equivalent background recommended. Advanced study of the key topics covered and introduction to other topics not covered in ECON 544. Critical examination of major issues and evaluation of latest theories in international trade and monetary relations.

654 **Japanese Society and Business.** Three credits. (Same as SOC 671.) Japanese economy, business practices, and social and physical environment in comparison with those in other countries, particularly the United States.

655 **A, B Studies in Economic Development.** Three credits. Prerequisite: ECON 547 or equivalent recommended. Analysis and evaluation of processes of economic development with focus on a specific area of the United States or of the world. Area covered varies.
A. **Pacific Asia**

662 **Econometrics I.** Three credits. (Same as FIN 662.) Prerequisite: ECON 462 or equivalent. Focuses on the use of regression analysis in economics. Emphasis on using econometric software packages to investigate actual economic problems. A prerequisite for ECON 663.

663 **Econometrics II.** Three credits. Prerequisite: ECON 662 or permission of instructor. Covers more advanced topics in econometrics, including recent model adequacy tests, Box-Jenkins time series analysis, dynamic modeling, systems of equations, discrete and limited dependent variable models, pooled regression. Emphasizes practical applications in various computing environments.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

673 **Seminar on Financial Institutions.** Three credits. (Same as FIN 673.) Focus on the common and distinctive aspects of the provision of financial services and the management of risk associated with those services. Roles, characteristics, and operation of financial institutions, constraints that these institutions face in meeting that objective, regulatory environment within which they operate, risks that they face and the management of those risks, evolution experienced during the 1980s and 1990s, and the probable course of change in the years ahead.

711 **A,B Topics in Advanced Macroeconomics.** Three credits. Prerequisites: ECON 611 and 662 or approved equivalents. ECON 645 is recommended. Selected topics in macroeconomics.

712 **A, B Topics in Advanced Microeconomics.** Three credits. Prerequisites: ECON 566, 612, and 662 or approved equivalents. Selected topics in microeconomics.

760 **Economic Internship.** Three credits. Prerequisites: FOED 752 and SPSE 755. Supervised teaching of undergraduate economics courses.

761 **Economic Internship.** Three credits. Prerequisites: FOED 752 and SPSE 755. Supervised teaching of undergraduate economics courses.

764 **Dissertation Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of dissertation. Once enrolled, student should register for at least one credit hour of doctoral research each semester until completion. S/U grading.

Courses in Finance [FIN]

536 **Management of Financial Institutions.** Three credits. Prerequisite: FIN 321 or equivalent or consent of instructor. Application of principles of institution management with a focus on operations, policy-making, asset, liability, and capital management of commercial banks and non-bank financial institutions.

539 **Employee Benefits.** Three credits. (Same as ECON 539.) Includes descriptive review and taxation, legislative, and adminis-

trative dimensions of the major components of employee benefit plans such as retirement systems, deferred compensation plans, health insurance, death benefits, disability benefits, paid and unpaid time off. Technical analysis and problem solving emphasized to develop applied skills. Social insurance and international benefits integrated.

543 **Real Property Valuation.** Three credits. Prerequisite: FIN 245 or consent of instructor; FIN 301 strongly recommended. Theory and methods of real property valuation. Qualitative and quantitative analysis incorporated to appraise residential and income-producing properties. Comparable sales, cost-depreciation, and income capitalization analysis emphasized.

559 **Problems in Real Estate.** Three credits. Current controversial conditions in the field of real estate with concentration on major problems and policies in managing real estate and other related resources.

571 **Insurance in Estate Planning.** Three credits. Prerequisite: FIN 361 or permission of instructor. Insurance as it may relate to estate planning examined in detail. Focus on estate planning principles including the problems of estate liquidity, taxation, governmental regulation, and costs involved in handling estates. Also included are ownership provisions and beneficiary designations, settlement options, and trusts.

573 **Insurance Company Operations.** Three credits. Prerequisite: FIN 361 or permission of instructor. Insurance marketing, underwriting, reinsurance, rate making, claims adjusting, loss control activities, and other functions and activities.

575 **Risk Management.** Three credits. Prerequisite: FIN 361 or permission of instructor. Analysis of major sources of liability loss exposures and the insurance coverages designed to meet those exposures. Noninsurance techniques such as loss control and risk transfer are also discussed.

579 **Problems in Insurance.** Three credits. Prerequisite: FIN 361 or permission of instructor. Application of various insurance coverages to fulfillment of personal, business, and social needs. Special problems are chosen or assigned in areas of the student's interest in joint consultation between student and instructor.

589 **Internship in Finance.** Three credits. Prerequisite: Graduate status and recommendation of advisor. Supervised work experience in cooperating business firms or government agencies together with specialized academic study relating to the work experience.

599 **Problems in Finance.** Three credits. Chosen in joint consultation between student and instructor.

600 **Survey of Financial Management.** Three credits. Principles and tools of financial management including time value of money, security valuation, funds acquisition and capital budgeting, cost of capital, and international environment. **May not be used for elective credit in graduate business degree programs.**

643 **Seminar on Public Finance.** Three credits. (Same as ECON 643.) Examines the role of government in the allocation and distribution of society's resources. Topics include theories of government sector growth, public and quasi-public goods, externalities and agency theory, transitivity and completeness of voting preferences, income redistribution and economic justice, social insurance, health care programs, tax shifting and incidence analysis, efficiency and equity in taxation, and efficiency and redistributive aspects of deficit financing. Topics may involve case studies such as budget formulation, environmental policies, payroll taxes, and alternative tax structures.

644 **Readings in Finance.** One to three credits. Independent readings-based study of a particular topic in finance selected by the student and approved by the instructor. Provides an opportu-

nity to study special areas of interest for which regular courses are not offered.

645 **Seminar on Monetary Policy.** Three credits. (Same as ECON 645.) Prerequisite: ECON 321 or equivalent recommended. Objectives and limitations of monetary policy, alternative monetary theories underlying policy decisions and the controversy among theories, transmission channels of monetary policy, alternative strategies used to achieve the objectives of monetary policy, practical considerations in the execution of monetary policy, global linkages and monetary policy, and the effects and consequences of policy decision on economic activity and business decisions.

646 **Seminar on Financial Markets.** Three credits. (Same as ECON 646.) Prerequisite: ECON 321 or equivalent. Credit flows within the U.S. and the global economies, the economic and financial forces influencing the general level of interest rates and the relationship among interest rates, the characteristics of key short- and long-term financial assets, new financial instruments, derivative instruments, global financing linkages, global linkages among financial instruments and among national economies, and interest rate risk, including the measurement and means of protection.

655 **Real Estate Investment.** Three credits. Prerequisites: FIN 245 and 301. Development of a framework for making real estate investment decisions and for analyzing real estate investment alternatives.

662 **Econometrics I.** Three credits. (Same as ECON 662.) Prerequisite: ECON 462 or equivalent. Focuses on the use of regression analysis in economics. Emphasis on using econometric software packages to investigate actual economic problems. A prerequisite for ECON 663.

671 **Financial Analysis.** Three credits. Prerequisite: FIN 301 or 600. Theory of corporate finance with applications. Techniques and problems for maximizing wealth through the application of discounted cash flow analysis. Emphasis on risk, capital budgeting, and capital structure.

672 **Cases in Financial Management.** Three credits. Prerequisite: FIN 671. Applications-oriented approach to managerial problem-solving. Topics may include working capital management, capital budgeting, cost of capital estimation, lease/purchase decisions, bond refunding, and international issues.

673 **Seminar on Financial Institutions.** Three credits. (Same as ECON 673.) Focus on the common and the distinctive aspects of the provision of financial services and the management of risk associated with those services. Roles, characteristics, and operation of financial institutions, constraints that these institutions face in meeting that objective, regulatory environment within which they operate, risks they face and the management of those risks, evolution experienced during the 1980s and 1990s, and the probable course of change in the years ahead.

674 **Security Analysis.** Three credits. Prerequisite: FIN 381 or consent of instructor. Interpretation of financial statements, valuation and selection of securities, security risk, legal and regulatory issues, and agency problems.

686 **International Financial Management.** Three credits. Prerequisite: FIN 301 or 600. International capital markets, exchange rate exposure, risk management, and other multinational finance issues. Essential not only for United States exporters, but also for those facing competition from abroad.

Department of Educational Leadership

Nancy C. Keese, Chair
Jones Hall 323

The Department of Educational Leadership offers the Specialist in Education degree (Ed.S.) and the Master of Education degree (M.Ed.) with majors in Administration and Supervision and Curriculum and Instruction. The Ed.S. in Administration and Supervision offers specializations in K-12 public schools and higher education.

The M.Ed. in Administration and Supervision offers a concentration in Supervisor of Materials and specializations in K-12 public schools and higher education. A graduate minor in Library Service is available.

Normally, for admission to the specialist's or master's programs, a satisfactory score on the Miller Analogies Test or the Graduate Record Examination is required. For the M.Ed. in Curriculum and Instruction, an acceptable National Teachers Examination score for certified teachers may fulfill the admission score requirement.

Applicants for the Ed.S. and M.Ed. degrees should submit a completed application, transcripts, three letters of reference, and verification of test scores to the Graduate Office. Once the completed file is received in the department, an advisor is assigned and the file is reviewed by the Educational Leadership Graduate Admission Board. Students should consult an advisor to determine what courses to schedule each semester.

Students pursuing an M.Ed. in Administration and Supervision or an Ed.S. in Administration and Supervision or in Curriculum and Instruction must be admitted to the program prior to registration for course work. Students pursuing an M.Ed. in Curriculum and Instruction must be admitted to the program prior to the completion of 6 hours credit.

Doctor of Arts Educational Component

The Doctor of Arts degree is offered by the Departments of Chemistry; Economics; English; Health, Physical Education, Recreation, and Safety; and History. Requirements are described under the appropriate departmental heading. The student should consult with the education advisor to determine education course schedules.

Professional Education Core:

FOED	752	Problems of Evaluation in Higher Education
FOED	756	Seminar in College Teaching
SPSE	754	Overview of Higher Education
SPSE	755	Instructional Development in Higher Education

Requirements for the Specialist in Education

Candidate must

1. hold a master's degree;
2. complete a minimum of 30 semester hours with 15 at the 700 level;
3. have teacher licensure. The licensure requirements will be waived for the higher education specialization and other special circumstances. In the event licensure is waived, some prerequisite courses may be required prior to full admission into the program. A student seeking a licensure waiver must initiate a written request with the advisor, seek approval from the chair and dean of education, and forward to the departmental office, Jones Hall 321.
4. be admitted by the Educational Leadership Graduate Admissions Board prior to registration for coursework;
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 hours;
6. successfully complete a written comprehensive examination or oral presentation of research project during the semester of graduation (exam may be retaken once during a subsequent semester).

Administration and Supervision Major (Ed.S.)
Specialization: K-12 Public Schools

This program is not designed to meet licensure requirements.

Required Courses (9 semester hours)

SPSE	720	Administrative Behavior: Theory into Practice
FOED	706	Seminar in Educational Foundations
FOED	761	Directed Individual Research in Education *(Prerequisite: SPSE 701)*

Specialized Core (15 semester hours)

SPSE	701	Educational Research Methodology
SPSE	702	Administration of School Personnel
SPSE	704	Seminar in Supervision
SPSE	705	School Business Management
SPSE	732	Educational Facilities and Transportation Services

Electives (6 semester hours)
To be selected with approval of advisor

Administration and Supervision Major (Ed.S.)
Specialization: Higher Education

Required Courses (9 semester hours)

SPSE	720	Administrative Behavior: Theory into Practice
FOED	706	Seminar in Educational Foundations
FOED	761	Directed Individual Research in Education *(Prerequisite: SPSE 701)*

Specialized Core (15 semester hours)

SPSE	701	Educational Research Methodology
SPSE	710	The Junior-Community College
FOED	757	Issues in Higher Education

Select two courses from the following:
FOED 752, FOED 756, SPSE 755, SPSE 753, SPSE 721, FOED 758

Electives (6 semester hours)
To be selected with approval of advisor

Curriculum and Instruction Major (Ed.S.)

Required Courses (9 semester hours)

FOED	706	Seminar in Educational Foundations
FOED	761	Directed Individual Research in Education *(Prerequisite: SPSE 701)*
SPSE	713	The Curriculum: Structures and Functions

Specialized Core (12 semester hours)

SPSE	701	Educational Research Methodology
SPSE	715	Curriculum Study and Instructional Design
SPSE	716	Practicum in Curriculum Development
FOED	708	Contributions of Psychology to Education

Electives (9 semester hours)
To be selected with approval of advisor

Requirements for the Master of Education

Candidate must

1. hold a bachelor's degree;
2. complete 33 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours (Students should refer to the appropriate major for specific requirements.);
3. have teacher licensure. The licensure requirements will be waived for the higher education specialization and other special circumstances. In the event licensure is waived, some prerequisite courses may be required prior to full admission into the program. A student seeking a licensure waiver must initiate a written request with the advisor, seek approval from the chair and dean of education, and forward to the departmental office, Jones Hall 321.
4. be admitted by Educational Leadership Graduate Admissions Board;
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
6. successfully complete a written comprehensive examination during the semester of graduation (may be retaken once during a subsequent semester).

Administration and Supervision Major (M.Ed.)
Specialization: K-12 Public School

Students must be admitted to the program prior to registration for course work.

Completion of this program will meet course requirements for Tennessee administration licensure. Additional state requirements must be met. Requirements for licensure should be checked in the Teacher Licensing Office, McWherter Learning Resources Center 170. Students who desire administration licensure in Tennessee and who transfer credit toward the degree from a non-state approved program must have competencies verified by the approving authority of the college/university from which the credit was earned and approved by their advisor. (See department for forms and instructions.)

Required Courses (33 semester hours)

FOED	602	Educational Foundations
FOED	603	School and Community Relations

FOED	661	Analysis and Application of Educational Research
SPSE	601	Organization and Administration of Public Schools
SPSE	604	Supervision of Instruction
SPSE	605	Instructional Leadership
SPSE	612	Professional Internship, 9 credits; (may substitute for SPSE 604, 660, and either 633 or 638)
SPSE	633	Elementary and Middle School Principalship OR
SPSE	638	Secondary School Administration
SPSE	634	School Finance
SPSE	639	School Law
SPSE	643	Introduction to Curriculum Development
SPSE	660	Microcomputers in Educational Administration

Administration and Supervision Major (M.Ed.)
Specialization: Higher Education

Required Courses (9 semester hours)

FOED	602	Educational Foundations
FOED	661	Analysis and Application of Educational Research
SPSE	608	Studies in Leadership

Specialized Core (12 semester hours)

SPSE	653	Administration of Higher Education
SPSE	660	Microcomputers in Educational Administration
SPSE	621	Legal Issues in Higher Education
FOED	658	The College Student

Electives (12 semester hours)
To be selected with approval of advisor

Administration and Supervision Major (M.Ed.)
Concentration: Supervisor of Materials

Required Courses (24 semester hours)
Supervisory Core

SPSE	604	Supervision of Instruction
SPSE	643	Introduction to Curriculum Development
FOED	602	Educational Foundations
FOED	661	Analysis and Applications of Educational Research

Media Core

L S	515	Books and Media for Children
L S	516	Books and Media for Young People and Adults
L S	617	Basic Reference Materials
L S	696	Preparation and Utilization of Instruction Materials

Electives (9 semester hours)
To be selected with approval of advisor

Curriculum and Instruction Major (M.Ed.)
Students must be admitted to the program prior to the completion of 6 hours of course work.

The Curriculum and Instruction program is designed to foster the development of teaching skills that result in increased pupil performance. By analyzing curriculum choices and strategies, along with best teaching practices, those who complete this program will be better equipped to provide an environment in which students engage in relevant and meaningful learning activities.

Required Courses (9 semester hours)

FOED	602	Educational Foundations
FOED	661	Analysis and Application of Educational Research
SPSE	643	Introduction to Curriculum Development

Specialized Core (18 semester hours)

YOED	668	Issues and Trends in Teaching and Learning
SPSE	614	Teacher Leadership for School Improvement
SPSE	625	Seminar in Curriculum Improvement
SPSE	645	Elementary and Middle School Curriculum **OR**
SPSE	648	Secondary School Curriculum
SPSE	664	Microcomputers in the K-12 Educational Setting
FOED	663	Educational Tests and Measurement

Electives (6 semester hours)
Courses in teaching field with approval of advisor

Minors

A minor in Library Service consists of 18 semester hours. A minor in Education consists of 12 semester hours selected with the consent of the advisor. The Master of Arts in Teaching and the Master of Science in Teaching degrees require a minor in Education to be approved by the minor advisor.

Courses in Foundations of Education [FOED]

602 **Educational Foundations.** Three credits. Assists educational personnel in developing contexts and concepts in which educational problems and issues may be understood through awareness of findings in humanistic and behavioral studies.

603 **School and Community Relations.** Three credits. The reciprocal relationship of the two and the skills necessary for analyzing problems and utilizing data and technical skills in planning effective school-community relations programs.

658/758 **The College Student.** Three credits. The changing nature of the college student with emphasis on institutional efforts to provide for the development of the student.

661 **Analysis and Application of Educational Research.** Three credits. Qualitative and quantitative research applicable to the field of education. Both producers and consumers of educational research with a literature review presented to support possible solutions to significant hypotheses or problems.

663 **Educational Tests and Measurements** Three credits. Basic concepts in educational measurement and evaluation; evaluation as a part of the teaching-learning process; utilization of evaluation for instructional improvement.

685 **Minority Groups.** Three credits. Ways the school and community can give greater understanding of and improve the life chances of minority group members.

706 **Seminar in Educational Foundations.** Three credits. Opportunities to think reflectively and critically on the historical, philosophical, psychological foundations of education and attendant implications.

708 **Contributions of Psychology to Education.** Three credits. Concepts and generalizations of the various theories of psychology and their relationships to education in such areas as motivation, retention, evaluation, discipline, capacity, practice, understanding, transfer-creative thinking, problem solving, and methods of instruction.

752 **Problems of Evaluation in Higher Education.** Three credits. Three semester hours of statistics recommended. Introduction to testing theory, design, and construction. Use of the evaluation process and instruments; instructions, advising, and research situations. Required of all Doctor of Arts students.

756 **Seminar in College Teaching.** Three credits. Development of the student with focus on teaching and learning. Required of all Doctor of Arts students.

757 **Issues in Higher Education.** Three credits. Introduction to higher education in America, its historical, philosophical, political, and sociological background, development, and relationships. Also current trends and problems, particularly those relating to the financial and legal aspects.

761A **Directed Individual Educational Research.** Three credits. Prerequisite: SPSE 701. Culmination of research sequence (FOED 661 and SPSE 701) which requires studying a professional educational problem through completing and presenting a research project.

761B **Directed Individual Educational Research.** One credit. Prerequisite: FOED 761A. Completion of the research problem begun in FOED 761A. Students should continue to register for FOED 761B each semester until completion. S/U grading.

Courses in Youth Education [YOED]

511 **Directed Teaching, Grades 7-12.** Twelve credits. Prerequisites: All required professional education courses; appropriate special methods course(s); minimum grade point average of 2.50 overall and in the teaching major including undergraduate study; passing scores on the NTE Tests of Communication Skills and General Knowledge; admission to teacher education. A full-day supervised teaching experience in a public school classroom. Pass/Fail grading.

551 **The Teaching Internship, Grades 7-12.** Nine credits. Supervised on-the-job student teaching internship. Available only to those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicant must meet all prerequisites for Directed Teaching.

602 **Reading, Writing, and Learning in ESL.** Three credits. (Same as FL 602.) Provides teaching ideas for promoting oral, reading, and writing development in English for K-12 English learners. Language acquisition theory, classroom organization, teaching strategies, and assessment procedures for effective English learner instruction.

610 **Aviation Workshop.** Four credits. (Same as AERO 610.) A first course in aerospace education; provides an overview of aerospace historically and in the future.

611 **International Aerospace Education Seminar A, B, C.** Three credits each. Acquaints teachers with aerospace implications on an international scale. Outstanding international points of interest in six or more countries visited. Offered in Session IV of the summer.

A. **Europe/Mid-East**
B. **The Americas**
C. **The Far East**

654 **Problems in Aerospace Education.** One, two, or three credits. (Same as AERO 654.) Content varies with needs of individual students who are interested in making a specialized study of current problems in the field of aerospace education.

668 **Issues and Trends in Teaching and Learning.** Three credits. Emphasis on examining current issues and trends in teaching and learning.

670 **Advanced Aviation Workshop.** Four credits. (Same as AERO 670.) Builds on prior experiences in aviation/aerospace. Essential for the prospective teacher of aerospace education courses at any level.

Courses in School Personnel Services Education [SPSE]

521 **General Methods Including A/V.** Three credits. A general course.

522 **Technology in Teaching.** Three credits. Prerequisites: Admission to Teacher Education Program and CSCI 100 or equivalent. Use of selected hardware and software in the teaching/learning process. Design and creation of inexpensive teaching and learning materials.

526 **A-Z Problems in Education.** One, two, or three credits. Opportunity for individuals or groups to work on problems related to their individual topics. Credit to be determined at the time of scheduling.

600/700 **Professional Negotiations.** Three credits. Concepts and principals of operating a school district under the master contract. Special emphasis on the laws of various states relative to the professional negotiations process.

601 **Organization and Administration of Public Schools.** Three credits. Basic concepts, principles, and practices in local, state, and federal organization and administration of education.

604 **Supervision of Instruction.** Three credits. Development and purposes of supervision involving principles and techniques for organization and facilitation of programs at the school and system level.

605 **Instructional Leadership.** Three credits. Research on student learning, effective teaching, and effective schools. Attention given to processes for promoting school improvement.

608/708 **Studies in Leadership.** Three credits. Roles, responsibilities, understandings, and behavior patterns in effective administrative and supervisory personnel. Developing sensitivity to individuals, the nature and structures of groups, and the problems of communication within and among groups and individuals.

609/709 **Seminar: Conducting Program for School Improvement.** Three credits. Emphasizes motivation, identification of needs and goals, planning and organization, and utilization of various resources as components of successful school improvement programs.

612/712 **Professional Internship.** Nine credits. Requires approval of departmental chair and agreement of superintendent of the school district. May be substituted for SPSE 604, 660, and either 633 or 638. Educational administration and supervision experiences learned in the school setting under the supervision of a sponsoring mentor. Internship in cooperating school systems.

614 **Teacher Leadership for School Improvement.** Three credits. Assessing standard teaching practices, analyzing the relationship between effective teaching and effective schools, and developing strategies for instructional and school improvement. Includes experiences to help students become more reflective in their daily teaching.

621/721 **Legal Issues in Higher Education.** Three credits. The legal framework as it pertains to higher education and its operations. Special attention given to rights of students as well as professors. Law cases, constitutional provisions, attorney general's opinions, rules and regulations of the Tennessee Board of Regents, Tennessee Board of Trustees, and the Tennessee Higher Education Commission studied and discussed.

625/ 725 **Seminar in Curriculum Improvement.** Three credits. For the advanced major in curriculum development utilizing small group or seminar approach. Issues and research in curriculum improvement analyzed critically.

631 **Supervising Student Teachers.** Three credits. Administration and supervision of student teaching.

633 **Elementary and Middle School Principalship.** Three credits. The organization and administration of elementary and middle schools with emphasis on current practices, trends, and problems.

634 **School Finance.** Three credits. State, local, and federal financing of education; includes taxation trends, school funds, and apportionment; evaluation of equalization plans; state bond loan programs; development and administration of school budgets; education and economy.

638 **Secondary School Administration.** Three credits. Organization and administration of the modern high school with emphasis on current practices and problems.

639 **School Law.** Three credits. Legal framework within which public schools operate. Special attention given to the legal rights and liabilities of school personnel and school board members. School laws, case laws, constitutional provisions, attorneys' general rulings, and regulations of the State Board of Education emphasized.

643 **Introduction to Curriculum Development.** Three credits. Opportunity to study, discuss, and evaluate modern practices and procedures in curriculum development and reorganization in schools and school systems.

645 **Elementary and Middle School Curriculum.** Three credits. Concepts, processes, and skills related to curriculum development and evaluation.

648 **Instructional Excellence in Secondary Schools.** Three credits. Development of creative approaches for secondary classroom teaching in order to stimulate creative and critical thinking abilities of students.

650/ 750 **Studies in Education: Administration.** One, two, or three credits. Individual or small group study and/or research in educational administration which provides an opportunity for in-depth study and specialization for majors. To be structured for student needs by teacher. Repeatable up to six hours.

652/ 752 **Studies in Education: Curriculum.** One, two, or three credits. Individual or small group study and/or research in the area of curriculum development. To be structured for student needs by teacher. Repeatable up to six hours.

653/ 753 **Administration of Higher Education.** Three credits. Complexity of the structure of higher education (national, regional, state, and local) and how it is organized. Attention given to the interrelationships of the institution and its internal and external constituencies.

655 **Supervised Field Experience.** Three credits. Direct field experience in appropriate areas of school operation which will meet specific needs related to such individual matters as career plan, position changes (principals, supervisors, superintendents, curriculum directors, etc.), or needed competencies.

656/ 756 **Studies in Education: Supervision.** One, two, or three credits. Individual or small group study and/or research in the area of supervision of instruction. To be based on individual needs and structured by teacher. Repeatable up to six hours.

659/ 759 **Independent Study in Higher Education.** One, two, or three credits. A practicum in higher education. Course will vary to meet the needs of individual students who are interested in making a specialized study of current problems in the field of higher education.

660 **Microcomputers in Educational Administration.** Three credits. Prerequisite: SPSE 322 or equivalent. Offers preparation for incorporating microcomputer technology into the school workplace. Student designs a model school administrative unit by applying the microcomputer skills and understanding acquired.

664 **Microcomputers in the K-12 Educational Setting.** Three credits. Prerequisite: SPSE 322 or equivalent. Offers preparation for incorporating microcomputer technology into the K-12 school environment. Student designs a computer-assisted instruction project by applying the microcomputer skills and understanding acquired.

670 **Practicum in English as Second Language for Grades 9-12.** One credit. A practicum course for the ESL teacher. Includes ten hours field experience in the ESL classroom with 9-12 students from different cultures.

690 **Learning Systems and Instructional Design.** Three credits. Assessment of effectiveness and efficiency of various learning systems and learning modules. Stresses need for systematic approaches to instruction. Gives practice in stating behavioral objectives, motivation, adaptation, evaluation, and systems assessment in which media are utilized as integral parts of learning modules.

691 **Problems in Learning Resources.** Three credits. Consideration of recent developments in curriculum, teaching, physical facilities, and innovations in library service and media utilization. Includes participation in projects such as media and materials for handicapped, educational TV, library skills, graphic communication, library activities for specific subjects or groups, and individualization of instruction.

692 **Automation of Library Processes.** Three credits. Application of data processing and computerization techniques to acquisitions, cataloging, circulation, and business operations of libraries and media centers. Includes an examination of newer developments such as MARC, facsimile transmission, and automated retrieval of data. Basic technical courses recommended prior to taking this course.

696 **Preparation and Utilization of Instructional Materials.** Three credits. (Same as L S 696.) Discussion and examination of teaching aids.

701 **Educational Research Methodology.** Three credits. Designing research studies, including development of understandings, as well as skills and techniques, needed in gathering, structuring, interpreting, and presenting data required for educational research. Prerequisite for enrollment in FOED 761.

702 **Administration of School Personnel.** Three credits. School district personnel problems. Consideration by school administrators of relationship between the school and the community with special reference to the administrative role.

704 **Seminar in Supervision.** Three credits. Identification and investigation of the problems of supervision and research; experimentation in the use of supervisory techniques.

705 **School Business Management.** Three credits. Reading, discussion, and problem solving in the field of business administration.

710 **The Junior-Community College.** Three credits. Prerequisite: Open only to doctoral candidates. History, philosophy, organization, administration, current developments, and problems in two-year colleges.

711 **Readings in Educational Administration.** Three credits. Review of the research literature on the social and political processes involved in the development and implementation of public policy and legislation relating to education at the national, state, and local levels.

713 **The Curriculum: Structures and Functions.** Three credits. Scope, sequence, organization, and priorities involved in the development of "continuity of educational experience" from kindergarten through grades 13-14.

715 **Curriculum Study and Instructional Design.** Three credits. Readings in current research relative to basic and emerging ideas of curriculum development and instructional design.

716 **Practicum in Curriculum Development.** Three credits. Principles and practices of curriculum construction applied through simulated and field experiences.

720 **Administrative Behavior: Theory into Practice.** Three credits. An exploration of the relevant new developments in the field of educational administration, including recent concepts and research.

732 **Educational Facilities and Transportation Services.** Three credits. Development of competencies in the areas of school plant planning, maintenance and utilization, financing, analysis of transportation, survey of school plant, site selection, and educational specifications.

754 **Overview of Higher Education.** Three credits. Introduction to higher education in America. Attention given to its historical, philosophical, political, and sociological background, development, and relationships. Includes also current trends and problems, particularly those which relate to the financial and legal aspects of higher education. Required of all Doctor of Arts students.

755 **Instructional Development in Higher Education.** Three credits. Prerequisite: FOED 756. Addresses effective college teaching, instructional strategies, and use of technology in teaching at the higher education level. Required of all Doctor of Arts students.

Courses in Library Service [L S]

515 **Books and Media for Children.** Three credits. Materials suitable for elementary school children including a study of leisure time interests and curricular needs, criteria for evaluating materials, and related aids used in their selection.

516 **Books and Media for Young People and Adults.** Three credits. Basically the same approach as L S 515 but adapted to the secondary school and adult level.

611 **School Library Administration.** Three credits. Simple methods of handling essential routines of a school library, including purchase of materials, mechanical preparation of books and other materials, care and repair of books, weeding and inventory procedures.

612 **Classification and Cataloging Media and Materials.** Three credits. A continuation of 611, including simplified procedures for classifying books and audio-visual materials, cataloging routines, and filing.

613 **Principles of Librarianship.** Three credits. Presents the broad field of library service and librarianship as a profession. Emphasis on the place of the library in the instructional program of the school and on administrative details.

617 **Basic Reference Materials.** Three credits. Evaluation and use of basic reference materials such as encyclopedias, dictionaries, atlases, handbooks, indexes, and pamphlets.

618 **Library Practicum.** Three credits. Prerequisite: 12 semester hours of library service courses. Provides an opportunity to observe successful materials specialists/librarians at work and to participate in actual operations followed by seminar opportunities for exchange of ideas.

696 **Preparation and Utilization of Instructional Materials.** Three credits. (Same as SPSE 696.) Discussion and examination of teaching aids.

Department of Elementary and Special Education

Race Bergman, Interim Chair
Jones Hall 225

The Department of Elementary and Special Education offers the Master of Education degree with majors in Curriculum and Instruction, Reading, and Special Education as well as graduate minors in Curriculum and Instruction, Reading, and Special Education. The major in Curriculum and Instruction offers concentrations in Early Childhood Education, Elementary School Education, and Middle School Education. Concentrations in Mildly/Moderately Disabled Students, Preschool Disabled Students, Severely/Profoundly Disabled Students, and Vision Disabilities are available through the Special Education major. The Specialist in Education degree is offered with a major in Curriculum and Instruction and concentration in Elementary Education.

Students seeking admission to the Master of Education program are expected to score at least 30 on the Miller Analogies Test **or** 700 on the Graduate Record Examination **or** the minimum on a National Teachers Examination that meets Tennessee licensure standards. For admission to the specialist's program, a score of 800 on the Graduate Record Examination is expected.

Applicants for the Ed.S. and M.Ed. degrees in Curriculum and Instruction must have elementary teaching licensure, the attainment of which may require additional undergraduate courses prior to the completion of the degree.

Requirements for the Specialist in Education

In order to be admitted the candidate must
1. hold a master's degree;
2. have a minimum of three years teaching experience in an elementary setting;
3. have an initial conference with a graduate advisor in the department.

In order to complete the degree, the candidate must
1. complete a minimum of 30 semester hours;
2. file a candidacy form with the Graduate Office prior to the completion of 24 credit hours;
3. successfully complete a thesis pertaining to an area of emphasis within the scope of elementary education;
4. successfully complete an oral defense and a comprehensive examination (may be taken no more than twice).

Curriculum and Instruction Major (Ed.S.)
Concentration: Elementary Education

Required Core (9 semester hours)

SPSE	701	Educational Research Methodology
FOED	706	Seminar in Educational Foundations
SPSE	713	The Curriculum: Structures and Functions

Specialized Courses (15 semester hours)

FOED	708	Contributions of Psychology to Education
ELED	629/	729 Inquiry in the Classroom
ELED	722	Seminar in Elementary Education
ELED	725	From Policy to Practice in American Public Schools
ELED	728	Thesis: Elementary Education

Elective Courses (6 semester hours)
To be selected with the consent of the advisor

Applicants having previously met any of the course requirements above may, with the consent of the advisor, choose options. Requirements for licensure should be checked in the Teacher Licensing Office, McWherter Learning Resources Center 170.

Requirements for the Master of Education

In order to be admitted the candidate must
1. have completed undergraduate prerequisites;
2. hold a current teaching license;
3. have an initial conference with an appropriate graduate advisor in the department;
4. have at least 2.75 undergraduate GPA for full admission and a 2.50 undergraduate GPA for conditional admission.

In order to complete the degree, the candidate must
1. complete a minimum of 33 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
2. file a Candidacy Form with the Graduate Office prior to the completion of 15 credit hours;
3. successfully complete a written comprehensive examination to be taken in the last semester of coursework (may be taken no more than twice).

Curriculum and Instruction Major (M.Ed.)
Concentration: Early Childhood Education

Required Core (9 semester hours)

FOED	602	Educational Foundations
FOED	661	Analysis and Application of Educational Research
SPSE	643	Introduction to Curriculum Development

Specialized Core (12 semester hours)

ELED	601a	The Teacher as Reflective Practitioner (prerequisite for all ELED courses)
ELED	601b	The Teacher as Reflective Practitioner (must be taken in last semester of coursework)
ELED	609	Creating Learning Environments for Young Children
ELED	620	The Classroom as Community
ELED	662	Assessment of Teaching and Learning

Specialized Courses (6 semester hours)

READ	612	Issues and Trends in Reading Instruction
READ	672	Diagnostic and Remedial Reading Practices
READ	676	Reading Instruction in Early Childhood Education
ELED	600	Teaching Writing

ELED	603	History and Theory of Early Childhood Education
ELED	613	Current Issues in Elementary Language Arts
ELED	614	Current Issues in Elementary Social Studies
ELED	617	The Multi-Age Classroom
ELED	618	Current Issues in Elementary Mathematics
ELED	619	Current Issues in Elementary Science
ELED	621	Seminar on Current Innovations and Trends in Elementary Education
ELED	622	Seminar in Early Childhood Education
ELED	623	Integrated Curriculum, K-4
ELED	625	Technological Tools for Thinking and Learning
ELED	630	Play Education and the Curriculum
ELED	631	Play Education and Social-Emotional Learning
ELED	632	Play Education and Literacy
ELED	640	Teaching the Special Needs Learner in the Heterogenous Classroom

Electives (6 hours)

To be selected within the range of specialized courses or with the consent of the advisor.

Concentration: Elementary School Education

Required Core (9 semester hours)

FOED	602	Educational Foundations
FOED	661	Analysis and Application of Educational Research
SPSE	643	Introduction to Curriculum Development

Specialized Core (12 semester hours)

ELED	601a	The Teacher as Reflective Practitioner (prerequisite for all ELED courses)
ELED	601b	The Teacher as Reflective Practitioner (must be taken in last semester of coursework)
ELED	609	Creating Learning Environments for Young Children OR
ELED	610	The Early Adolescent Learner
ELED	620	The Classroom as Community
ELED	662	Assessment of Teaching and Learning

Specialized Courses (6 semester hours)

READ	612	Issues and Trends in Reading Instruction
READ	672	Diagnostic and Remedial Reading Practices
READ	676	Reading Instruction in Early Childhood Education
ELED	600	Teaching Writing
ELED	603	History and Theory of Early Childhood Education
ELED	613	Current Issues in Elementary Language Arts
ELED	614	Current Issues in Elementary Social Studies
ELED	617	The Multi-Age classroom
ELED	618	Current Issues in Elementary Mathematics
ELED	619	Current Issues in Elementary Science
ELED	621	Seminar on Current Innovations and Trends in Elementary Education
ELED	622	Seminar in Early Childhood Education
ELED	623	Integrated Curriculum, K-4
ELED	624	Interdisciplinary Teaching, 5-8
ELED	625	Technological Tools for Thinking and Learning
ELED	630	Play Education and the Curriculum
ELED	631	Play Education and Social-Emotional Learning
ELED	632	Play Education and Literacy
ELED	640	Teaching the Special Needs Learner in the Heterogeneous Classroom

Electives (6 semester hours)

To be selected within the range of specialized courses or with the consent of the advisor.

Concentration: Middle School Education

Required Core (9 semester hours)

FOED	602	Educational Foundations
FOED	661	Analysis and Application of Educational Research
SPSE	643	Introduction to Curriculum Development

Specialized Core (12 semester hours)

ELED	601a	The Teacher as Reflective Practitioner (prerequisite for all ELED courses)
ELED	601b	The Teacher as Reflective Practitioner (must be taken in last semester of coursework)
ELED	610	The Early Adolescent Learner
ELED	620	The Classroom as Community
ELED	662	Assessment of Teaching and Learning

Specialized Courses (6 semester hours)

ELED	621	Seminar on Current Innovations and Trends in Elementary Education
ELED	624	Interdisciplinary Teaching, 5-8
ELED	625	Technological Tools for Thinking and Learning
ELED	630	Play Education and the Curriculum
ELED	631	Play Education and Social-Emotional Learning
ELED	632	Play Education and Literacy
ELED	640	Teaching the Special Needs Learner in the Heterogenous Classroom

Electives

To be selected within the range of specialized courses or with the consent of the advisor.

Minor in Curriculum and Instruction

Students desiring a graduate minor in Curriculum and Instruction in either of the three concentrations described above—Early Childhood, Elementary School Education, or Middle School Education—should complete 18 semester hours in elementary education to include ELED 609 or 610, 620, and 662. **This does not meet licensure requirements in elementary education.**

Reading Major (M.Ed.)

The Master of Education degree with a major in reading requires the completion of a minimum of thirty-three (33) semester hours. READ 425/525, Methods and Materials in Teaching Reading, or an equivalent course in elementary reading methods, is a prerequisite for graduate study in reading.

Required Core (21-28 semester hours)*

READ	612	Issues and Trends in Reading Instruction
READ	672	Diagnostic and Remedial Practices in the Improvement of Reading (Prerequisites: READ 612 and FOED 663 or PSY 526 or ELED 662 and PSY 612 or 613 or their equivalents)
READ	675	Research Seminar in Reading (Prerequisite: READ 612, its equivalent, or permission of the instructor)
READ	679	The Reading Practicum (Prerequisite: READ 672 or its equivalent)
FOED	661	Analysis and Application of Educational Research
FOED	663	Educational Tests and Measurements OR
PSY	526	Introduction to Psychological Testing OR
ELED	662	Evaluation in the Elementary School
PSY	612	Developmental Psychology: Child OR
PSY	613	Developmental Psychology: Adolescent (or their equivalent)

Special Education Options (3 semester hours)
To be selected with consent of advisor

Electives (9 semester hours)
To be selected with consent of advisor

**21 hours if READ 425/525 and READ 413/513 completed as part of a previous degree or taken prior to application for admission in this program*

Minor in Reading

A minor is available in Reading, the content of which is determined through collaborative consultation with the student's major advisor and the advisor for reading.

Special Education Major (M.Ed.)
Concentration: Mildly/Moderately Disabled Students

Required Core (9 semester hours)

SPED	678	Issues in Special Education
FOED	661	Analysis and Application of Educational Research

Elective in Research Methodology

Concentration Courses (15 semester hours)

SPED	630	Theoretical Perspectives on Mild/Moderate Disabilities
SPED	631	Issues in Assessment of Mild/Moderate Disabilities
SPED	633	Theories of Instruction for Mild/Moderate Disabilities
SPED	637	Mildly/Moderately Disabled Adolescents and Adults
SPED	638	Collaborative/Consulting Skills in Special Education

Restricted Electives (9 semester hours)
To be selected with consent of advisor

Concentration: Preschool Disabled Students

Required Core (3 semester hours)

FOED	661	Analysis and Application of Educational Research

Concentration Courses (15 semester hours)

SPED	690	Characteristics of Preschool Children with Disabilities
SPED	691	Developmental Assessment
SPED	692	Laboratory Experience I
SPED	693	Methods of Working with Children Who Are Developmentally Delayed
SPED	695	Laboratory Experience II

Restricted Electives (15 semester hours)
To be selected with consent of advisor

Concentration: Severely/Profoundly Disabled Students

Required Core (9 semester hours)

SPED	678	Issues in Special Education
FOED	661	Analysis and Application of Educational Research

Elective in research methodology

Concentration Courses (15 semester hours)

SPED	638	Collaborative/Consulting Skills in Special Education
SPED	640	Characteristics and Needs of Severely/Profoundly Disabled
SPED	643	Theories of Instruction for Severely/Profoundly Disabled Students
SPED	691	Developmental Assessment
CDFS	630	Application of Child Development Principles I

Restricted Electives (9 semester hours)
To be selected with consent of advisor

Concentration: Vision Disabilities

Required Core (9 semester hours)

SPED	638	Collaborative/Consulting Skills in Special Education
SPED	678	Issues in Special Education
FOED	661	Analysis and Application of Educational Research

Concentration Courses (24 semester hours)

SPED	650	Anatomy and Physiology of the Eye
SPED	651	Introduction to Braille and Communication Skills for the Visually Impaired
SPED	652	Advanced Braille and Communication Skills for the Visually Impaired
SPED	653	Educational Procedures for the Visually Impaired
SPED	654	Advanced Educational Procedures for the Visually Impaired
SPED	655	Orientation and Mobility for the Classroom Teacher
SPED	656	Nature and Needs of the Visually Impaired
SPED	657	Practicum in Special Education (Vision) OR
SPED	551	Teaching Internship: Special Education

Minor in Special Education

Students desiring a minor at the graduate level in Special Education must complete 18 semester hours in Special Education to include SPED 620, 680, and 12 additional semester hours of 600 courses in Special Education. This does not meet licensure requirements in Special Education.

Courses in Elementary Education [ELED]

505 **Effective Instruction (K-4).** Three credits. A comprehensive exploration of the strategies used to teach children in the early elementary grades. Practicum experiences required.

507 **Effective Instruction (5-8).** Three credits. A comprehensive exploration of strategies used to teach children in the upper elementary and middle grades. Practicum experiences required.

511A **Directed Teaching Grades K-8.** Twelve credits. Prerequisites to enrollment in the course include FOED 111, 211; ELED 311A, 311D, 325 or 327, 405 or 407; READ 425; SPED 301; senior standing; minimum grade point average of 2.50 overall and in the major; admission to Teacher Education program; passing scores on the NTE Tests of Communication Skills and General Knowledge. Fulltime, 15-week semester of supervised teaching experience in the public schools. Pass/Fail.

520 **Observation and Participation.** Three credits. Directed laboratory experiences for teachers desiring to add an endorsement to their certificates. Includes language arts, math, science, social studies, art, and music.
A. **Kindergarten**
B. **Grades 1-6**

522 **Environmental Education for the Elementary Teacher.** Three credits. An investigation of conservation, preservation, ecology, and resource management for the education major.

526 **A-Z Problems in Elementary Education.** One-three credits. A problem-oriented course, on or off campus, planned and designed for individuals, school faculty, school system, or other professional groups which will provide opportunities for in-service education related to assessed needs. Credit toward a degree limited to six semester hours.

529 **The Curriculum of Early Childhood Education.** Three credits. Experiences designed to aid kindergarten and primary teachers in developing readiness for the creative capacities of children in several curricular areas.

530 **The Kindergarten Program.** Three credits. Philosophy, methods, materials, and acceptable standards involved in the organization and instruction procedures of a kindergarten program. A one-hour laboratory period per week required in addition to class periods.

531 **Kindergarten Practicum.** Three credits. Prerequisite: ELED 530 or special permission from an advisor in early childhood education. Observation and participation in kindergarten instruction and activities. Laboratory work of 160 hours is assigned in addition to a weekly seminar.

545 **Teaching in the Upper Elementary and Middle School.** Three credits. Survey course emphasizing the needs of the learner and the methods, materials, techniques, and evaluative procedures appropriate for the student at this level. Appropriate laboratory experiences included.

551 **The Teaching Internship, Grades 1-8.** Nine credits. A supervised internship available only to those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicants must meet all prerequisites for student teaching.

600 **Teaching Writing.** Three credits. An in-depth exploration of students' efforts to become writers. Presents theoretical and practical strategies for establishing an effective writing environment based on current research.

601a **The Teacher as Reflective Practitioner.** Two credits. Articulates the role of and explores the varied dimensions of the process of reflective teaching as it may be utilized by the elementary, special education, reading, or secondary teacher. **Prerequisite for all Curriculum and Instruction (Early Childhood Education, Elementary School Education, and Middle School Education) candidates.**

601b **The Teacher as Reflective Practitioner.** One credit. A culminating course summarizing and synthesizing the knowledge acquired throughout the graduate program. **Must be taken in last semester of graduate work.**

603 **History and Theory of Early Childhood Education.** Three credits. Emphasis on the emerging theories which have influenced current programs.

609 **Creating Learning Environments for Young Children.** Three credits. Prerequisite: ELED 601a. In-depth analysis of social, emotional, language, and cognitive variables which impact young children's learning and allow teachers to plan and maintain proactive environments. Required for those students wishing to concentrate in Early Childhood Education.

610 **The Early Adolescent Learner.** Three credits. Prerequisite: ELED 601a. Reflects on the early adolescent while focusing on the student-centered school environment and the appropriately well balance curriculum. Required for those students wishing to concentrate in Middle School Education.

613 **Current Issues in Elementary Language Arts.** One credit. Prerequisite: 601a. Overview of current issues surrounding the teaching of language arts.

614 **Current Issues in Elementary Social Studies.** One credit. Prerequisite: ELED 601a. Overview of current issues and trends surrounding the teaching of social studies. Topics will vary from semester to semester.

617 **The Multi-Age Classroom.** One credit. Prerequisite: ELED 601a. Examines the basic alternatives and tools that have been shown to be effective in multi-age classrooms in both primary and middle grades.

618 **Current Issues in Elementary Mathematics.** One credit. Prerequisite: ELED 601a. Overview of current issues and trends surrounding the teaching of mathematics. Topics will vary from semester to semester.

619 **Current Issues in Elementary Science.** One credit. Prerequisite: ELED 601a. Investigates current issues relating to the study and teaching of elementary school science. Topics will vary from semester to semester.

620 **The Classroom as Community.** Three credits. Prerequisite: ELED 601a. Explores the classroom community with respect to definitions and practice. Teachers will reflect on how their beliefs and attitudes influence practice. Required for all students.

621 **Seminar on Current Innovations and Trends in Elementary Education.** Three credits. Prerequisite: ELED 601a. Recent research in child development, school organization, curriculum, and evaluation.

622 **Seminar in Early Childhood Education.** Three credits. Review of issues, programs, and research in early childhood education.

623 **Integrated Curriculum, K-4.** Three credits. Prerequisite: ELED 601a. Helps develop the skills needed for organizing an integrated program, for teaching within an integrated program, and for assessing children's progress in ways appropriate to an integrated program.

624 **Interdisciplinary Teaching, 5-8.** Three credits. Prerequisite: ELED 601a. Assists the elementary and middle school teacher in organizing, assessing, and teaching in an interdisciplinary program.

625 **Technological Tools for Thinking and Learning.** Three credits. Prerequisite: ELED 601a. Learning environments supported by computer technology which promote knowledge construction. Special emphasis on use of the Internet and the design and development of a hypermedia learning environment.

629/729 **Inquiry in the Classroom.** Three credits. An in-depth study of the inquiry process as it relates to teachers in the classroom. Theory and practice combine as teachers engage in their own research to improve classroom instruction.

630 **Play Education and the Curriculum.** One credit. Prerequisite: ELED 601a. Articulates the role of play for children's cognitive learning. A theoretical analysis will facilitate early childhood, elementary, and special educator's ability to design quality play experiences which promote children's learning.

631 **Play Education and Social-Emotional Learning.** One credit. Prerequisite: ELED 601a. Promotes elementary and special education teachers' abilities to plan and implement quality play experiences which promote children's social and emotional learning.

632 **Play Education and Literacy.** One credit. Prerequisite: ELED 601a. Relationship between play and literacy development highlighted. Course content will enable teachers to plan for play experiences which promote children's abilities to read, write, listen, and speak.

640 **Teaching the Special Needs Learner in the Heterogeneous Classroom.** Three credits. Prerequisite: ELED 601a (prerequi-

site requirement for elementary education majors only). Helps develop skills, beliefs, and attitudes necessary for effectively incorporating and teaching special needs learners in a heterogeneous classroom.

562 **Assessment of Teaching and Learning.** Three credits. Familiarizes teachers with assessment techniques that focus on the complex relationship between learning and instruction. Required for all students.

570 **Practicum in English as a Second Language (4-8).** One credit. A practicum course for the ESL teacher. Includes ten hours field experience in the ESL classroom with five to eight students from different cultures.

587 **Home-School Interaction.** Three credits. Includes approaches, activities, and materials related to parent education.

722 **Seminar in Elementary Education.** Three credits. Explores contemporary issues in education as they relate to the individual teacher, the school as an institution, the school clientele, and the community. Allows the student to adjust individual educational philosophy to a changing society and schools; gives contiguity to other educational experiences.

725 **From Policy to Practice in American Public Schools.** Three credits. The effect of public policy on educational practices. Emphasis on exploring policy variations within the educational practices in the U.S. and around the world with a particular emphasis on elementary education.

726 **A-Z Problems in Elementary Education.** One to six credits. Prerequisite: Nine semester hours of graduate-level courses in elementary education.

728 **Thesis: Elementary Education.** Three to six credits. Prerequisite: Six semester hours of 700-level courses in elementary education. Supervised, in-depth study, on an individual or group basis, of an area of elementary education. Student may register two semesters for three hours credit each semester or for six hours credit one semester. Open only to post-master's degree students.

Courses in Reading [READ]

513 **Corrective Reading in the Elementary School.** Three credits. Prerequisite: READ 525 or equivalent. The modification of assessment and instruction for the resolution of reading problems in the elementary classroom.

525 **Methods and Materials in the Teaching of Reading.** Four credits. Prerequisite: ELED 311A or permission of advisor. Methods and materials for teaching reading in the elementary and/or special education classroom. Laboratory experiences provided.

546 **Teaching Reading in the Content Area.** Three credits. Emphasis on teaching reading in content subjects such as mathematics, science, and social studies in upper elementary, middle school, and secondary schools. Specific suggestions for activities and lesson strategies included. (Available on permission-of-department basis only.)

612 **Issues and Trends in Reading Instruction.** Three credits. Prerequisite: READ 425 or 334 or equivalent. Extends the teacher's knowledge and ability in planning and developing a reading program through extensive reading in the field and seminar participation. Special emphasis on current trends in reading instruction. (Available on permission-of-department basis only.)

671 **Teaching Reading in High School.** Three credits. The role of reading in middle and secondary school programs and the reading needs of high school students discussed. Suggestions for meeting the reading needs of students, along with simulated and direct laboratory experiences, are included. Students desiring secondary teaching licensure in language arts must take one additional semester hour in reading methodology.

672 **Diagnostic and Remedial Practices in the Improvement of Reading.** Three credits. Prerequisites: READ 612 and FOED 663 or PSY 526 or ELED 662 and PSY 612 or 613 or their equivalents. Formal and informal tools to document and define a reading difficulty as well as of approaches/strategies to overcome such difficulties. (Available on permission-of-department basis only.)

673 **Curriculum and Supervisory Problems in Reading.** Three credits. Developmental sequence of reading skills, pre-K to adult. Discusses the role of a reading specialist, in-service education, grants, critiquing materials, and the substance of school reading programs.

675 **Research Seminar in Reading.** Three credits. Prerequisite: READ 612, its equivalent, or permission of the instructor. An investigation of significant research related to reading with emphasis on classroom practices, group analysis, and individual study. (Available on permission-of-department basis only.)

676 **Reading Instruction in Early Childhood Education.** Three credits. Prerequisite: READ 525 or equivalent. A methods course which concentrates on beginning reading and emergent literacy issues in developing reading and writing.

679 **The Reading Practicum.** Three credits. Prerequisites: READ 672 or equivalent. Includes practice in teaching students with various types of reading and learning problems. (Available on permission-of-department basis only.)

Courses in Special Education [SPED]

524 **Methods and Techniques of Behavior Management.** Three credits. Overview of various approaches to behavior management. Application of various approaches in different special education settings. Basis of evaluation of various behavior change techniques.

526 **Problems in Special Education A-Z.** One to three credits. A problem-oriented course, on or off campus, planned and designed for individuals, a school faculty, school system, or other professional groups which will provide opportunities for pre- or in-service education related to assessed needs. Not more than 6 semester hours credit in independent study (SPED 684) and/or problems (SPED 526) can be applied toward a degree or licensure.

532 **Directed Teaching in Special Education (Self-contained).** Nine credits. Prerequisites: ELED 311D or ELED 618, READ 525; SPED 620, 680; full admission to Directed Teaching. A full-day supervised teaching experience of ten-weeks duration in a public classroom. Pass/Fail.

535 **Directed Teaching in Special Education (Resource room).** Nine credits. Prerequisites: ELED 311D or ELED 618, READ 525; SPED 620 and 680; full admission to Directed Teaching. A full-day supervised teaching experience of ten-weeks duration in a public classroom. Pass/Fail.

551 **Teaching Internship: Special Education.** Nine credits. A supervised teaching experience. Available only to those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicants must meet all prerequisites for student teaching. Pass/Fail.

602 **Overview of Special Education.** Three credits. Theories and techniques of providing instruction to exceptional individuals. Designed for individuals without prior specialized experience and/or course work in special education. Not for degree credit.

620 **Educational Diagnostics.** Three credits. The role of the special educator in the assessment process; formal and informal assessment devices and procedures; involvement of parents in the evaluation; precision teaching; diagnostic and prescriptive teaching; writing IEPs.

627 **Characteristics and Needs of the Mentally Retarded Child.** Three credits. Includes the mentally retarded's cognitive, affective, motor, social, and language development.

628 **Characteristics and Needs of the Emotionally Disabled Child.** Three credits. A survey of theories and research relative to emotional/behavioral problems of children; discussion of classroom models for remediation and specific techniques appropriate for teacher use.

630 **Theoretical Perspectives on Mild/Moderate Disabilities.** Three credits. Reviews the various perspectives on mild/moderate disabling conditions from a historical perspective. Viability of each perspective examined. Implications of each for assessment and intervention considered.

631 **Issues in Assessment of Mild/Moderate Disabilities.** Three credits. Prerequisite: SPED 630. Contexts a variety of tests and assessment tools within the various theoretical frameworks they represent. Considers the development of diagnostic batteries based on such tests. Particular attention given to the significance of the theoretical perspectives in selecting and interpreting data collected.

633 **Theories of Instruction for Mild/Moderate Disabilities.** Three credits. Prerequisite: SPED 631. Contexts a variety of instructional approaches within the various theoretical frameworks from which each evolved. Considers the development and evaluation of IEPs through an integration of learner characteristics, instructional approaches, and educational needs.

637 **Mildly/Moderately Disabled Adolescents and Adults.** Three credits. The unique status of public school students, ages 16-21 years with mild/moderate disabilities. Focus on career, vocational, and transitional services. Highlights specific concerns and problems in adulthood.

638 **Collaborative/Consulting Skills in Special Education.** Three credits. Assistance in developing skills needed for consulting with parents, students, teachers, administrators, and others in the development and implementation of individualized education programs for disabled students.

640 **Characteristics and Needs of Severely/Profoundly Disabled.** Three credits. In-depth survey of severely/profoundly disabled students and their needs. Emphasis on cognitive, motor, social, communicative, behavioral, and physical characteristics of this population.

643 **Theories of Instruction for Severely/Profoundly Disabled Students.** Three credits. Advanced methods and techniques for teaching severely/profoundly disabled students.

650 **Anatomy and Physiology of the Eye.** Three credits. Examines structures of the eye and visual system and diseases/conditions that affect vision. Considers various screening instruments to use for making referrals to eye specialists. Attention given to administration and interpretation of screening instruments.

651 **Introduction to Braille and Communication Skills for the Visually Impaired.** Three credits. Offers teachers and professionals who work with visually impaired and blind students skills and competencies in reading and writing braille.

652 **Advanced Braille and Communication Skills for the Visually Impaired.** Three credits. Prerequisite: SPED 651. Reinforces and extends skills learned in SPED 651. Formatting textbooks and trade books required by visually impaired students in schools. Emphasis placed on learning to use abacus, slate and stylus, and correction slate. Transcription according to Library of Congress standards.

653 **Educational Procedures for the Visually Impaired.** Three credits. Presents students with roles and responsibilities of the teacher of visually impaired, including adaptations of curriculum, environment, equipment, and methods. Available resources at local, state, and national levels. Particular attention given the decision-making processes required, such as type of reading medium required for specific tasks, use of low vision aids, appropriateness of various types of modifications, and adaptations of regular curriculum.

654 **Advanced Educational Procedures for the Visually Impaired.** Three credits. Necessary skills to conduct functional vision assessments of students of normal intelligence as well as those with multiple disabilities. Assessing communication skills for the visually impaired.

655 **Orientation and Mobility for the Classroom Teacher.** Three hours. Basic orientation and mobility techniques to teach visually impaired students to enable them to move around the school environment safely. Included are concept development, protective techniques, basic and advanced sighted guide techniques, and the use of tactual maps.

656 **Nature and Needs of the Visually Impaired.** Three credits. Insights into problems associated with visual loss and its impact on individuals, family relations, and seeing populations. Also addresses advantages and limitations of adaptations and specialized instruction, equipment, devices, and aids. Examines the role and effect of various organizations and professionals on services for visually impaired persons.

657 **Practicum in Special Education (Vision).** Three credits. Understanding of eye conditions that result in visual disabilities and their implications; training in determining most appropriate modifications. Experiences in assessment of functional vision of students with visual disabilities and multiple disabilities; designed to facilitate application of these skills in real-life experiences with visually impaired and blind learners.

672 **Working with Parents.** Three credits. Understanding the concerns and needs of parents of children who have special needs. Also presents strategies and techniques for working effectively with parents.

674 **Affective Education in the Classroom.** Three credits. Theoretical basis for the role of the school in providing instruction in the affective domain. Emphasis on the translation of theories of emotional/social development into educational strategies.

678 **Issues in Special Education.** Three credits. Analysis of current issues in the field. Emphasis on the analysis of relevant research.

680 **Exceptional Children and Youth.** Three credits. Introduction to problems in identification, etiology, and educational treatment of mentally retarded, gifted, physically and emotionally challenged, learning disabled, and culturally disadvantaged children and youth.

681 **Characteristics and Needs of the Learning Disabled Child.** Three credits. An understanding of the causes and characteristics. Formal and informal evaluation instruments. An investigation of various educational approaches to learning disabilities, their theoretical bases, and practical implications.

684 **Independent Study: Special Education.** One to six credits. Prerequisite: Consent of the advisor. Enables students to develop and conduct a study based on individual professional interests. Not more than 6 semester hours credit in Independent Study (SPED 684) and/or Problems (SPED 526) can be applied toward a degree or licensure.

685 **Characteristics and Needs of the Severely Handicapped Child.** Three credits. An in-depth survey covering the characteristics and needs for serving the severely disabled. Includes how to develop a program and the IEP.

686 **Characteristics and Needs of the Gifted Child.** Three credits. Characteristics, needs, psychological and educational considerations, and identification procedure for gifted children.

687 **Habilitation of Mentally Retarded and Multiple Handicapped Young Adults.** Three credits. An in-depth look. Various rehabilitation models, how they are designed, and how they function.

688 **Educational Procedures in the Education of the Gifted.** Three credits. Prerequisite: SPED 686. Reviews various theoretical models of learning and teaching which are most often used in developing curriculum for the gifted learner. Application of the models stressed.

690 **Characteristics of Pre-School Children with Disabilities.** Three credits. Includes an in-depth study of young children delayed in their development. Focus on developmental needs.

691 **Developmental Assessment.** Three credits. Evaluative and diagnostic instruments and procedures used with very young and/or multiple-disabled individuals.

692 **Laboratory Experience I.** Three credits. Practicum experience in settings serving pre-school children who have developmental delays. Students will spend 60 hours in each of two practicum settings.

693 **Methods of Working with Children Who Are Developmentally Delayed.** Three credits. Current theories, practices, and procedures used to develop programs for pre-school children who are developmentally delayed (ages birth to 5 years).

695 **Laboratory Experience II.** Three credits. Practicum experience in settings serving pre-school children who have developmental delays. Students will spend 60 hours in each of two practicum settings.

Department of Engineering Technology and Industrial Studies

Jim Lorenz, Chair
Voorhies Industrial Studies Complex 143

The Department of Engineering Technology and Industrial Studies offers the Master of Science degree in Industrial Studies with thesis and non-thesis options and concentrations in General, Safety, and Industrial Relations. Under the General concentration, the degree requires the student to select courses, as approved by the graduate advisor, that provide the student with a technical area of specialty. Currently, typical technical areas include manufacturing, environmental safety, computer integrated manufacturing, electronics, drafting and design, and quality control. Other technical areas can be designed to meet the student's individual needs, if approved by the graduate advisor. A minor in Industrial Studies is also available at the graduate level.

Normally, a satisfactory score on the Graduate Record Examination is required for admission to the master's program.

The Department cooperates with the Schools/Departments of Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; and Human Sciences to offer the Master of Vocational-Technical Education (M.V.T.E.) degree.

Requirements for the Master of Science Degree

Thesis Option

Candidate must

1. have completed undergraduate prerequisites of at least 18 semester hours in industrial studies or equivalent coursework approved by the advisor;
2. complete at least 30 semester hours, with 21 semester hours at the 600 level, to include ETIS 662 and 664 and 6 semester hours from the following courses: ETIS 602, 611, 618, or 637;
3. complete 6 semester hours of an approved research tool with grades of C or better on the undergraduate or graduate level. Typical research tools include statistics, computer science programming, or foreign language.

4. file a Candidacy Form with the Graduate Office after the completion of 12 graduate credits and prior to the completion of 24 credit hours to include ETIS 662, 6 hours from ETIS 602, 611, 618, 637, and 3 hours from any industrial studies independent study or advanced technical problems course;
5. successfully complete a written comprehensive examination (may be taken no more than twice);
6. complete a major of at least 18 hours;
7. elect whether or not to have a minor. A minor, if elected, must include a minimum of 12 semester hours.

The program may include a cognate of 6 hours in management and marketing, computer science, economics, psychology, or vocational-technical education.

Non-Thesis Option

Candidate must
1. have completed undergraduate prerequisites of at least 18 semester hours in industrial studies or equivalent course work approved by the advisor;
2. complete at least 36 semester hours with at least 26 semester hours of 600-level courses to include ETIS 662 and 651 or 691 and 6 semester hours from the following courses: ETIS 602, 611, 618, or 637;
3. complete 6 semester hours of an approved research tool with grades of C or better on the undergraduate or graduate level. Typical research tools include statistics, computer science programming, or foreign language.
4. file a Candidacy Form with the Graduate Office after completion of 12 graduate credits and prior to the completion of 24 credit hours to include ETIS 662, 6 hours from ETIS 602, 611, 618, 637, and 3 hours from any industrial studies independent study or advanced technical problems course;
5. successfully complete a written comprehensive examination (may be taken no more than twice);
6. complete a major of at least 18 hours;
7. elect whether or not to have a minor. A minor, if elected, must include a minimum of 12 semester hours.

The program may include a cognate of 6 hours in management and marketing, computer science, economics, psychology, or vocational-technical education.

Concentration: General

Candidate must complete
1. requirements for the thesis or non-thesis option;
2. core, approved by the advisor, consisting of emphasizing in one of the following typical areas: environmental safety, computer integrated manufacturing, drafting and design, quality control;
3. approved minor/cognate and/or additional electives as approved by the advisor.

Concentration: Industrial Relations

Candidate must complete
1. requirements for the thesis or non-thesis option;
2. core consisting of ET 542, 594; ETIS 601, 662, 664 (thesis option) or 691 (non-thesis); PSY 532;
3. electives to be selected from ETIS 602, 604, 611, 691; ECON 651.

Concentration: Safety

Candidate must complete
1. requirements for the thesis or non-thesis option;
2. core consisting of ETIS 602, 604, 607, 662, and 664 (thesis option) or 691 (non-thesis);
3. electives to be selected from SAFE 532, 535, 641, 645, 647, 692; PHED 665; ET 542, 544, 545, 596, 597; ETIS 601, 611, 651,692; PSY 535.

Courses in Engineering Technology and Industrial Studies [ETIS]

549 Topics in Industrial Technology. One to six credits. Selected topics offered as required to meet class needs.

570 Industrial Topics. One to six credits. Problems in any one of a variety of areas to meet class needs.

579 Shop Problems. Three credits. Prerequisites: Completion of all undergraduate courses in a given area and permission of instructor. For the advanced student who wishes to work on a designated problem in a specific area. Independent work on a selected problem or project under the instructor's guidance.

599 Introduction to Operations Research. Three credits. Problem solving in research and development involving operations research models, computer applications, and industrial problems.

601 Safety Planning. Three credits. Advanced study of planning in occupational safety and health management, including program planning and development methods and techniques, as well as various systems approaches to hazard control.

602 Contemporary Safety Beliefs and Foundations. Three credits. Philosophies of the safety movement as expressed by leaders in the field related to accident causation, accident prevention, and research implications. Emphasis on relationships of environmental safety, safety services, and safety instruction to the major safety problems of modern living.

604 Environmental Safety. Three credits. Advanced study of environmental safety and health principles and practices, together with related occupational diseases and employer responsibilities and liability considerations.

607 Anthropometric Factors in Accident Prevention. Three credits. The necessity and desirability of a thorough consideration of anthropometric factors when designing facilities and equipment and recognition of those factors most prevalent in accidents.

611 Designing for Economical Production. Three credits. Factors determining the acceptability of a product from a producibility point of view. Includes an analysis of function and cost, relative machining cost, material cost, manufacturing method, cost of tolerances, and surface finishes for the selected manufacturing methods.

618 Seminar in Industrial Quality Developments. Three credits. Review of current quality control practices. Investigation of new concepts and literature in the discipline. Examinations of vendor/customer relationships in quality.

623 **Advanced Technical Drafting.** Three credits. Current trends and techniques such as using computers to solve design problems and the use of group suggestions (brainstorming) in solving design problems.

624 **Advanced Technical Problems in Metal.** Three credits. In-depth insight into the use of metal in industry. Emphasis on industrial research and development techniques and their application in industry.

626 **Advanced Technical Problems in Electricity/Electronics.** Three credits. In-depth insight into the practical applications of electronic theory. Students required to design and develop electrical/electronic applications of an advanced nature.

637 **Computer-Integrated Design and Manufacturing.** Three credits. Prerequisite: ET 459/559 or consent of instructor. Applications of computer-integrated manufacturing. Current techniques of design for manufacturing and the integration into information flow, organization, product design, and software applications.

651/652 **Problems in Industrial Studies.** Three credits each. Independent investigation and report of current problems of particular interest to individual students directed by department faculty members.

662 **Methods of Research.** Three credits. Introduces Master of Science students to scholarly research principles and to thesis formats for research reporting. A problem is researched and written up in thesis proposal format.

664 **Thesis Research.** One to six credits. Prerequisite: ETIS 662. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

691/692 **Problems in Production Management.** Three credits each. Independent investigation and report of a problem in production management. Designed to meet the particular needs of the students; pursued under the direction of a department faculty member.

Courses in Engineering Technology [ET]

522 **Advanced Metalwork.** Four credits. Techniques, equipment and procedures, advantages and disadvantages of current metal-casting processes used in industry. Laboratory exercises in sand molding and casting, the full mold process, investment casting, and permanent mold casting including pattern design and construction, mold making, metal melting and handling. Guest lecturer(s). Plant tour(s).

523 **Advanced Machine Tool Technology.** Four credits. Taper turning, boring and thread chasing, and calculations of screw threads and other operations. Gear terminology and calculations, practice gear cutting on the milling machine, use of index head.

528 **Computer-Aided Manufacturing: Numerical Control (NC).** Four credits. Role of NC in today's manufacturing environment; machines and machine control systems of a typical installation; justification. Emphasis on writing and debugging programs for a three-axis milling machine and a two-axis turning machine utilizing CNC and computer-aided part programming. For those with little or no experience with NC or those seeking to broaden their knowledge of NC.

533 **Advanced Computer-Aided Drafting.** Four credits. Prerequisite: ET 536 or CM 532. Interactive computer drafting and design using advanced AutoCad software and add-ons. Primarily for students who want to increase their capabilities using CAD software and hardware.

534 **Design of Machine Elements.** Three credits. Analytical design methods of machine elements. Stress analysis, working stress, combined stresses, failure theories, fatigue failure. Design techniques for shafts, fasteners, gears, bearings, and belt and chain drives. Includes a design project. Lecture.

536 **Computer-Assisted Drafting/Design II.** Four credits. Prerequisites: ET 231 or ETIS 332. Utilizes MS-DOS computer and AutoCAD Software to develop skills in the creation and analysis of mechanical and architectural solid models for design and production purposes. Includes the use of shading and rendering to enhance three-dimensional model display and the extraction of two-dimensional engineering drawings.

537 **Tool Design.** Four credits. Design of tools, fixtures, gages, and dies. Translates product drawing specifications to tooling concepts. Utilizes computer drafting.

542 **Industrial Safety.** Three credits. Safety and health problems in the manufacturing, construction, and utilities industries, including pertinent laws, codes, regulations, standards, and liability considerations. Organizational and administrative principles and practices for safety engineering, accident investigation and recording, safety education, and safety enforcement.

544 **Fire Safety.** Three credits. Possible prevention activities, fire hazards and their causes, and fire inspection techniques.

545 **Industrial Hygiene.** Three credits. Safety and health education training, and investigation activities and how they are related to overall environmental safety.

559 **Fundamentals of Computer-Integrated Manufacturing.** Three credits. Identification of the terms, applications, and requirements for using computer-integrated manufacturing. An overall view of the design, drafting, manufacturing, and integration aspects of using computers for manufacturing. Includes manufacturing, human, and business elements.

560 **Programmable Logic Controllers.** Two credits. Introduces programmable logic controllers (PLCs). Selection, operation, and troubleshooting. Ladder diagrams and programming of PLC emphasized.

561 **Instrumentation and Controls.** Four credits. Devices and techniques used in the measurement of physical parameters. Consideration of accurates and sources of error, identification of typical measurements, sensors and transducers, control stability, and response. Two hours lecture and four hours laboratory.

563 **Local Area Networks.** Four credits. Foundation and experience to understand the design, implementation, and management strategies of local area networks (LAN). Data communications standards and protocol fundamentals included. Lecture, laboratory activities, and a LAN design requirement.

564 **Industrial Electricity.** Four credits. AC power theory and circuits for industrial applications, polyphase systems, power factor correction, and transformers. Theory, applications, and selection of motors and generators. Control subsystems with emphasis on power electronics.

565 **Introduction to Microprocessors.** Four credits. Prerequisite: ET 362. Introductory course in microprocessor-based systems and

their related components. Machine language programming extensively used to solve problems and to demonstrate the relationship of the microprocessor and its supporting peripherals. Basic microcomputer architecture also emphasized. Two hours lecture and four hours laboratory.

566 **Microprocessor Interfacing.** Four credits. Analog and digital conversion devices and their related systems. Introduction to individual subsystems; A/D and D/A data conversion. Organization and design of individual digital systems emphasized. Includes data transfer, conversion, storage, input and output with principal focus on systems external to computer systems.

567 **Microprocessor Design.** Four credits. Advanced course in design and application of microprocessor-based microcomputers for measurement and control systems. In-depth analysis of software and hardware in the design process. Design, develop, and test an operating system for a microprocessor-based computer.

568 **Electronic Fabrication.** Four credits. Prerequisite: ET 361 or equivalent. Planning and designing electronic packaging, including printed circuit board design, component selection criteria, and construction techniques. Conventional and computer-aided printed circuit board design techniques used.

569 **Electronic System Analysis.** Four credits. Introduces theory of electronic trouble shooting and proper repair techniques of electronic devices.

570 **Transform Circuit Analysis.** Three credits. Prerequisites: ET 360 and MATH 221 or permission of instructor. An advanced course in network analysis that stresses network theorems and solutions of time and frequency-domain problems with the use of Laplace Transforms.

571 **Industrial Seminar.** One credit. Orientation to industrial job opportunities, placement practices, interview techniques, and preparation of application materials (resume, cover letter). Guest lectures, films, and student and faculty presentations.

585 **Fluid Power.** Three credits. Systems and the basic components that make up these systems, including hydraulic, pneumatic, and fluidic. Emphasis on understanding the language and graphic symbols associated with fluid power and the performance characteristics of system components. Lecture, laboratory, and problem solving.

586 **Robotics.** Three credits. Introduces the fundamentals of robots. Types of robots and controls, the prime movers, and the application of robots in the industrial environment.

590 **Productivity Strategies.** Three credits. Analysis, design, and implementation of productivity strategies and improvement programs for a wide variety of organizations. Touches a wide spectrum of disciplines such as work design, quality, design engineering, and employee involvement.

591 **Maintenance Management.** Three credits. Overview of the management of maintenance in an organization such as manufacturing, hospitals, or large maintenance shops. Application of work measurement, labor utilization, preventative maintenance, and computer applications.

592 **Plant Layout and Materials Handling.** Three credits. An overview of facility planning including equipment selection, work flow analysis, activity relationship analysis, and plant layout for product, process, and JIT requirements. Teams assigned actual projects in industry. CAD layout presentations to industry management required.

593 **Production Planning and Control.** Three credits. Concepts of manufacturing planning, forecasting, material requirements, planning, and control of inventories. Emphasis on computer systems for planning, scheduling, and control. Plant tours and special presentations are supplementary.

594 **Methods and Work Measurement.** Three credits. Design of work tasks, including analysis and improvement of existing tasks. Establishing engineered time standards by stopwatch, pre-determined times, and work sampling. Application of computer systems in work measurement.

595 **Statistical Quality Control.** Three credits. Statistical quality analysis of manufacturing processes including product sampling and design of overall quality system; study of various systems in use in industry.

596 **Human Factors Engineering (Ergonomics).** Three credits. Integration of the human into the work task environment. Emphasis on practical applications of ergonomics to task design and analysis. Design teams apply concepts to real world problems. Presentation of projects. Computer applications reviewed.

597 **Engineering Economy.** Three credits. Development of capital budgets; justification of capital projects using time value of money concepts; replacement analysis. Review of justification of actual capital projects and computer applications.

598 **Federal and State Safety Legislation.** Three credits. The Federal Occupational Safety and Health Act (OSHA) and the Tennessee Occupational Safety and Health Act (TOSHA) Environmental Protection Agency; rules and regulations and how they apply to industry.

Course in Construction Management [CM]

532 **Architectural Computer-Aided Drafting and Design.** Four credits. Using computers to draw and design residential architectural plans. Specifically geared toward the construction area of concentration.

Courses in Industrial Education [IED]

500 **Program Development and Modification for the Special Needs Learner.** Three credits. Basic strategies for identifying and working with special needs learners in industrial education.

501 **History and Philosophy of Industrial Education.** Three credits. Relation to the development of industrial education stressed.

503 **Course Development in Occupational and Technology Education.** Three credits. Basic techniques including occupational analysis, preparing objectives, planning a learning sequence, preparing learning activities, selecting and preparing learning resources, and evaluating student performance.

504 **Methods of Teaching Occupational and Technology Education.** Three credits. Understanding and skills required for individualizing instruction in industrial arts and trade and industrial education.

506 **Organization and Operation of Occupational Student Organizations.** Three credits. Orientation to incorporating occupational education programs. Emphasis on establishing an organization, planning chapter activities, utilizing community resources, chapter business procedures, and competitive activities.

507 Laboratory Organization and Classroom Management. Three credits. Laboratory planning and layout, purchasing supplies and equipment, inventory and record keeping, laboratory maintenance, class organization, and safety.

548 Topics in Industrial Education. One to six credits. Selected topics offered as required to meet class needs.

Courses in Environmental Science and Technology [EST]

577 Pollution Control Technology. Four credits. Introduces air, noise, solid waste, and water pollution control technology. Legislative regulations and equality standards, pollution types and sources, detection and analysis instruments, and treatment principles and practices.

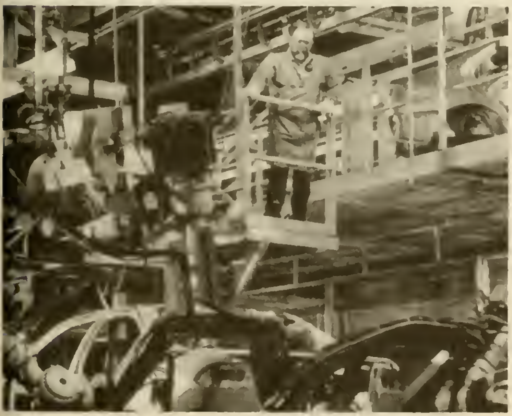
578 Air, Solids, and Noise Pollution Technology. Four credits. Prerequisites: 8 hours each chemistry, biology, and physics or permission of instructor. Introduces air, noise, solid, and hazardous waste pollution technology, including legislative regulations and quality standards: sources, detection, and analysis instrumentation and practices, and treatment and abatement principles, equipment, and practices.

581 Energy and the Environment. Three credits. Introduces sources and methods of energy production and classifications of energy usages, with emphasis on usage trends, energy conservation strategies, and alternate energy utilization.

582 Solar Building Design. Three credits. Introduces environmental and economic impact of solar energy for residential and light industrial construction including topics such as day lighting, passive solar design, and hot water heating.

584 Energy Auditing. Three credits. Introduces types of energy consumption and classifications of energy usages. Emphasis on conservation strategies and total management for residential and industrial plants.

587 Passive Solar Design. Three credits. Introduces passive solar techniques in the construction of residential and light industrial structures. Includes day lighting, passive solar design, methods, and system integration.



Department of English

William Connelly, Chair
Peck Hall 302

The Department of English offers the Master of Arts, the Doctor of Arts, and a minor at the graduate level.

Normally, the combined test score for consideration for admission to the Master of Arts program is at least 900 on two parts of the Graduate Record Examination. For admission to the Doctor of Arts program, a minimum score of 1,000 on the GRE is expected. Scores will be calculated using two of the following parts of the GRE: Verbal, Analytical, Subject.

Admissions Process

Admission to graduate study is not automatic by meeting minimal admission requirements. Students are selected from a pool of qualified applicants. Applications for summer/fall admission must be complete by May 1. Application for spring admission must be complete by November 1. Those seeking teaching assistantships must provide a 500-word statement of purpose and apply by March 1 for the following fall semester.

Requirements for the Master of Arts (500 and 600 level)

Thesis Option

Candidate must

1. have earned at least 30 semester hours of undergraduate English;
2. fulfill a foreign language requirement in one of the following ways:
    a. complete 18 undergraduate semester hours of a foreign language or complete 6 semester hours of 300-level work in a foreign language,
    b. earn a final grade of A or B in a foreign language course numbered 321,
    c. pass a reading examination administered by the Foreign Languages and Literatures Department;
    d. earn a final grade of B or better in both ENGL 601/701 (Old English) and 602/702 (*Beowulf*), which must be taken sequentially.
3. either
    a. complete 30 semester hours in English, including ENGL 664 and 666 with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate courses, or
    b. elect a minor, in which the student takes a minimum of 12 semester hours, plus a minimum of 18 hours in English including ENGL 664 and 666;
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a thesis defense.

Non-Thesis Option

Candidate must

1. have earned at least 30 semester hours of undergraduate English;
2. fulfill a foreign language requirement in one of the following ways:
   a. complete 18 undergraduate semester hours of a foreign language or complete 6 semester hours of 300-level work in a foreign language,
   b. earn a final grade of A or B in a foreign language course numbered 321,
   c. pass a reading examination administered by the Foreign Languages and Literatures Department;
   d. earn a final grade of B or better in **both** ENGL 601/701 (Old English) and 602/702 (*Beowulf*), which must be taken sequentially.
3. either
   a. complete 36 semester hours in English with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate courses; or
   b. elect a minor, in which the student takes a minimum of 12 semester hours, plus a minimum of 24 hours in English, including ENGL 666
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written examination in a selected area of concentration (the examination may be taken no more than twice).

Requirements for the Doctor of Arts (500, 600, and 700 level)

1. Candidate must have earned undergraduate prerequisites of at least 30 semester hours in English and 20 semester hours of English at the master's level.
2. There are two alternatives:
   Alternative #1
   48 semester hours above the master's level with at least two-thirds of the program on the 700 level and ENGL 666/766 or its transfer equivalent. 500-level course may not be applied. Work in the major teaching field will consist of at least 24 semester hours of classwork, plus 6 semester hours of the internship, plus at least 6 semester hours for the dissertation.
   Alternative #2
   60 semester hours above the master's level with at least two-thirds of the program on the 700 level and ENGL 666/766 or its transfer equivalent. 500-level courses may not be applied. Work in the first teaching field will consist of at least 18 semester hours of classwork in English, with that in the second teaching field consisting of at least 18 semester hours of classwork in any subject which is offered as a major at the master's level, plus 6 semester hours of internship/externship, plus at least 6 semester hours for the dissertation.
3. A core of professional education courses of 12 semester hours must be taken consisting of FOED 752 and 756 and SPSE 754 AND 755.
4. A foreign language requirement must be fulfilled in one of the following ways:
   a. earning a final grade of A or B in a foreign language course numbered 321;
   b. passing a reading examination administered by the Foreign Languages and Literature Department;
   c. earn a final grade of B or better in **both** ENGL 601/701 (Old English) and 602/702 (*Beowulf*), which must be taken sequentially;
   d. meeting this requirement at the M.A. level.
5. A Candidacy Form must be filed with the Graduate Office prior to the completion of 30 credit hours and appointment of a doctoral committee.
6. A written examination must be completed successfully in two selected areas of emphasis.
7. Following successful completion of written exams, a dissertation must be prepared according to one of the following:
   a. a problem in the student's major field aimed at specific curriculum development;
   b. research into or critical analysis of a body of literary materials;
   c. an interdisciplinary topic.
   In case **a**, the dissertation committee should be composed of members from English and education; in case **b**, the committee may be composed solely of members of the English Department; in case **c**, the committee should be composed of members from English, the related field, and education.
8. A final oral defense of the dissertation must be completed successfully.

Courses in English [ENGL]

501 **Folklore.** Three credits. Forms and types of folk culture with particular emphasis on the folk literature of the United States.

551 **Modern English Grammar and Usage.** Three credits. Historical development of the theory and practice of modern English grammar and usage.

553 **History of the English Language.** Three credits. Traces the development of the English language from cuneiform writing systems, Semitic and Phoenician syllabaries, through Greek and Latin contributions, Old and Middle English, up to Modern English.

554 **Approaches to Teaching ESL Grammar and Writing.** Three credits. Prerequisite: ENGL 441/551. A survey of the background and basic methods needed to teach English grammar and composition to students for whom English is a second language. Emphasizes understanding the problems non-native speakers face and developing techniques for helping non-native speakers express themselves in written English.

586 **Special Topics in Film Studies.** Three credits. A selected director, genre, period, aspect, or theme. Subject will vary each time course is taught.

600/700 **Poetry Workshop.** Three credits. A rigorous writing course to develop the advanced writer's use of point-of-view, tone, rhythm, meter, line, and stanza. Practice in both the spontaneity of composition and the deliberate, disciplined work of revision. Examination, through poems and essays by relevant authors, of the movements, forms, and possibilities of contemporary poetry.

601/701 **Old English Language and Literature.** Three credits. Prerequisite for ENGL 602/702, *Beowulf*. Introduction to Old English language (grammar, phonology, syntax, and vocabulary) and literature (poetry and prose) and to the historical and cultural background of the Anglo-Saxon period.

602/ 702 ***Beowulf.*** Three credits. Prerequisite: ENGL 601/701. Intensive line-by-line study of *Beowulf* in Old English, with special emphasis on its sources and analogues, 20th century criticism, and current dating studies of the poem.

603/ 703 **Chaucer Seminar.** Three credits.

604/ 704 **Studies in Old and Middle English Literature.** Three credits. The Anglo-Saxon language and Middle English dialects; Old English literary types; Middle English literary types; major poets of the fourteenth century, excluding Chaucer.

605/ 705 **Studies in Early English Drama, Excluding Shakespeare: 900-1642.** Three credits. The origin and development of English drama, emphasizing Elizabethan and Jacobean Drama and the contributions of Shakespeare's contemporaries and successors.

611/ 711 **Spenser Seminar.** Three credits.

612/ 712 **Studies in Sixteenth-Century English Prose and Poetry.** Three credits.

613/ 713 **Studies in Seventeenth-Century English Prose and Poetry.** Three credits. Selected nondramatic literature of the century, with primary emphasis on the seventeenth century before the Restoration. Included are Donne, Herbert, and the metaphysical poets and Jonson and the Cavalier poets.

614/ 714 **Studies in Milton.** Three credits. The major poetry of John Milton, including *Lycidas, Paradise Lost, Samson Agonistes,* and *Paradise Regained.*

615/ 715 **Studies in Shakespeare.** Three credits. Shakespeare's poems and plays, emphasizing poetic and dramatic techniques in Shakespeare's works and critical reaction to those works.

620/ 720 **Studies in Restoration and Eighteenth-Century Literature.** Three credits. Designed to give students a definite critical knowledge of the major literary works of restoration and eighteenth-century England, 1660-1800. Course may focus on either drama, poetry, or prose or a combination.

621/ 721 **Studies in English Romanticism: Wordsworth and Coleridge.** Three credits.

622/ 722 **Studies in English Romanticism: Shelley, Byron, and Keats.** Three credits.

623/ 723 **Major British Writers.** Three credits. An in-depth study of one, two, or three British writers. Course varies according to interests of instructor and students.

627/ 727 **Studies in Victorian Literature.** Three credits. Intellectual backbackgrounds of the Victorian period; major prose writers: Macaulay, Carlyle, Newman, Mill, Ruskin, Arnold, Pater; major poets: Tennyson, Browning, Arnold.

629/ 729 **Modern British Literature.** Three credits. Intellectual backgrounds of modern British literature; major novelists: Forster Woolf, Joyce, Lawrence; major poets: Yeats, Eliot, Auden, Thomas; selected minor writers.

630/ 730 **History of Children's Literature.** Three credits. History of British and American literature for children and analysis of issues in the field.

633/ 733 **A,B Major American Writers.** Three credits. An in-depth study of two or three American writers. Course varies according to interests of instructor and students.

634/ 734 **African-American Literature.** Three credits. An in-depth study of the African-American literary tradition, with emphasis on significant authors, genres, texts, and contexts.

635/ 735 **Critics and Criticism.** Three credits. Examines significant critical movements in Western literature from classical times into the twentieth century. Focusing on major critics such as Aristotle, Johnson, Coleridge, and Eliot, the course also treats less influential figures and considers practical applications of theory to specific texts.

636/ 736 **Studies in Southern Literature.** Three credits. Themes, theories, movements, and types of literature produced in the American South with particular emphasis on selected authors and texts.

637/ 737 **Satire.** Three credits. Satire as a distinct genre, emphasizing its continuity in Western literature from its roots among the Greeks to its resurgence in the twentieth century; representative works from four periods: ancient, medieval and Renaissance, eighteenth century, and modern; prose, poetry, and drama.

638/ 738 **Modern Critical Theory.** Three credits. Covers major critical trends in literary theory since 1965, including feminist, Marxist, structuralist, and deconstructive approaches to literature. Students explore background and implications of these theories and analyze selected works of literature in light of these approaches.

639/ 739 **Reading Postmodernism.** Three credits. Theoretical discourse which works to define the cultural mindset known as "postmodernism." Theories examined will be applied to examples of postmodern literature, film, and/or television. Topics emphasized include the instability of social and cultural categories, the dissolving boundaries between "high" and "low" culture and art, and the subversion of realist narrative strategies.

640/ 740 **American Literature to 1800.** Three credits.

641/ 741 **Studies in American Literature: 1800-1860.** Three credits.

642/ 742 **Studies in American Literature: 1860-1910.** Three credits.

643/ 743 **Studies in American Literature: 1910-1950.** Three credits.

644/ 744 **Popular Literature of the Twentieth Century.** Three credits. The forms of literature reflecting the mass culture of America from 1900 to the present, including such genres as the mystery, the western, science fiction and fantasy, popular humor, comic strips, popular poetry, song lyrics, and the aesthetics of non-print media.

645/ 745 **Contemporary Feminist Fiction.** Three credits. Feminist writers of fiction from the 1960s to the present, emphasizing the connections between literature and feminist theoretical and critical discourse.

646/ 746 **Studies in Contemporary Drama.** Three credits. The development of world drama from 1950 to the present, with attention to related criticism and theory.

647/ 747 **Studies in Narratology.** Three credits. Examines modern and contemporary theories of narrative (modernist, rhetorical structuralist, dialogical) with particular application to selected authors and texts.

648/ 748 **Studies in Contemporary Literature.** Three credits. Intellectual backgrounds of contemporary literature; significant developments in fiction, non-fictional prose, poetry, and drama.

649/ 749 **Studies in the Novel.** Three credits. The novel as a literary genre may be approached from a variety of perspectives, including generic, historical, theoretical, or single-author approaches. Course varies according to interests of instructor and students.

650/ 750 **A, B Selected Topics in Literature and Language.** Three credits. A specialized field of literary or linguistic inquiry, its bibliography, critical problems, and probable solutions. Topics vary with the professor assigned to the course.

651/ 751 **Modern Rhetoric and Prose Style.** Three credits.

652/ 752 **Essentials of Linguistics.** Three credits. Major linguistic approaches to the study of language-dominant trends and current issues in linguistics; the phonological, morphological, and syntactic structure of the English language.

656/ 756 **Seminar in Teaching Composition.** Three credits. Open only to first-year teaching assistants or with consent of instructor.

657/ 757 **Teaching Practicum in Portfolio Assessment.** Three credits. Prerequisite: ENGL 656/756. A supervised teaching experience using the portfolio system of writing assessment. Students will teach one or two sections of ENGL 111 and participate in workshops for portfolio teachers and in team assessments of freshman portfolios. Open only to first-year teaching assistants or with consent of instructor.

658/ 758 **Computers and Writing.** Three credits. Practical and theoretical implications of computer technology and of the Internet and world wide web for the teaching of writing.

659/ 759 **Seminar in Teaching of Literature.** Three credits. Recommended for second-year teaching assistants and others interested in teaching literature.

662/ 762 **Directed Reading and Research.** Three credits. Prerequisite: Permission of the director of graduate studies. Individually supervised reading and research either in a historical period of English or American literature or in a major literary genre.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

666/ 766 **Introduction to Graduate Study: Bibliography and Research.** Three credits. Literary scholarship: its nature and scope; traditional and modern methods; the definition and solution of research problems; the production of literary scholarship. Required of all Master's students enrolling in English.

760/ 761 **Internship.** Three credits each.

764 **Dissertation Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of dissertation. Once enrolled, student should register for at least one credit hour of doctoral research each semester until completion. S/U grading.

Department of Foreign Languages and Literatures

James T. Brooks, Interim Chair
Boutwell Dramatic Arts Building 301

The Department of Foreign Languages and Literatures offers the Master of Arts in Teaching with concentrations in either French, German, or Spanish. Also offered is a minor at the graduate level. Students who would like to minor in foreign languages should determine the requirements based on their major curriculum in consultation with their advisors.

The Graduate Record Examination (GRE) is required. A combined score of 800 on the verbal and either quantitative or analytical portions of the Graduate Record Examination is considered indicative of potential for an acceptable level of academic performance.

Requirements for the Master of Arts in Teaching—Foreign Languages Major (500 and 600 level)

This degree is intended to prepare native and non-native speakers of the foreign language for a career in foreign language teaching on the elementary or secondary level. Students planning to teach in elementary school must be licensed prior to admission to the M.A.T. program. Those planning to teach on the secondary level may be already licensed or may pursue licensure while enrolled in the M.A.T. program; however, requirements for admission to teacher education must be met. Students select a concentration from French, German, or Spanish.

Candidate must

1. have earned at least 24 semester hours of the language selected for admission to the program. Students may complete up to 6 hours of these undergraduate hours while concurrently enrolled in the graduate program. Native speakers must consult with the graduate director regarding this requirement.
2. complete a minimum of 33 semester hours including 21 hours in foreign language courses as listed below OR 18 hours in foreign languages and ENGL 652, Essentials of Linguistics; no more than 30 percent of the total degree hours dual-listed as undergraduate/graduate hours can be counted toward the degree;
3. complete a professional education component approved by the chair of the Educational Leadership Department;
4. achieve an oral proficiency level in the target language of at least "Advanced" and a written proficiency level of "Ad-

vanced Plus" on the ACTFL scale; students should consult the foreign languages graduate director for additional information on this requirement;

5. demonstrate a basic reading knowledge in a language other than the target language; this requirement may be met by passing a foreign language reading examination or by earning a final grade of A or B in French or German 321;
6. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
7. successfully complete a written comprehensive examination that covers language teaching methods and the language, literature, and culture of the target language (may be taken no more than twice).

Choices Under the M.A.T. in Foreign Languages

Candidates for the M.A.T. with a major in Foreign Languages and a concentration in either French, German, or Spanish may choose whether or not to seek licensure to teach. The curriculum selected is based on the individual's preference and need:

1. for those already licensed to teach in the state of Tennessee;
2. for those who seek licensure in conjunction with the M.A.T. degree;
3. for those who wish to pursue the degree without teacher licensure in Tennessee.

The foreign language requirement under each option is the same; candidates should consult an advisor in the Educational Leadership Department regarding the courses pertinent to their degree and career goals.

Required courses in foreign languages:

F L 601 Foreign Language Acquisition: Theory and Practice, 3 hours (taught in English)
French, German, or Spanish 600 seminar, 3 hours
FL 670 or ENGL 652, 3 hours
6 hours of electives in 500-or 600-level courses in the concentration selected
6 hours selected from the following:
  F L 699 6 hours of internship abroad OR
  F L 699 3 hours of local internship AND
  F L 680 Instructional Technology in Foreign Language Education OR
  F L 690 Issues in Foreign Language Acquisition

Courses in Foreign Languages [F L]

550 **Introduction to Teaching Foreign Language.** Three credits. Introduces students to a variety of approaches and methods for foreign language instruction in elementary or secondary schools.

601 **Foreign Language Acquisition: Theory and Practice.** Three credits. Acquaints students with major theories of foreign language acquisition and various approaches to language learning.

602 **Reading, Writing, and Learning in ESL.** Three credits. (Same as YOED 602.) Provides teaching ideas for promoting oral, reading, and writing development in English for K-12 English learners. Language acquisition theory, classroom organization, teaching strategies, and assessment procedures for effective English learner instruction.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled for thesis research, students should register for at least one credit hour of research each semester until the thesis is completed. S/U grading.

670 **Introduction to Linguistics.** Three credits. Basic concepts of linguistic analysis, which are applied to linguistic phenomena in French, German, Spanish, and English.

675 **Romance Linguistics.** Three credits. Prerequisite: F L 670, ENGL 652, or permission of instructor. Introduces linguistic heritage of Latin as manifested in modern Spanish, French, Italian, Portuguese, Catalan, Sardinian, and Rumanian. Earlier language stages as well as mechanisms of language evolution also examined. Knowledge of one Romance language helpful but not required.

680 **Instructional Technology in Foreign Language Education.** Three credits. An introductory course with an emphasis on telecommunication and computer applications. Critical examination and evaluation of existing technologies and programs.

690 **Issues in Foreign Language Acquisition.** One, two, or three credits. (May be repeated for a maximum of 9 credits.) Prerequisite: Approval of graduate coordinator. Independent study to address a problem or investigate an issue agreed upon by both student and instructor.

699 **Internship.** Three or six credits. Prerequisite: F L 601. Three credits are given for a supervised teaching internship at MTSU; six credits are given for a teaching internship abroad. Under certain circumstances a self-designed, non-teaching internship may be undertaken locally or in a foreign country where the target language is spoken. Students should consult the graduate director in Foreign Languages and Literatures for details.

Courses in French [FREN]

510 **Topics in Twentieth-Century French Literature.** Three credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor.

515 **Topics in French Film.** Three credits.

520 **Topics in Nineteenth-Century French Literature.** Three credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor.

525 **Topics in Eighteenth-Century French Literature and Culture.** Three credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor.

530 **Topics in Medieval and Renaissance French Literature.** Three credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor.

533 **Topics in Neoclassical French Literature.** Three credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor.

590 **Directed Study in French Literature and Culture.** One to six credits. Prerequisite: 6 hours of French beyond the intermediate level or permission of the instructor. Individualized intensive reading in primary and secondary sources relating to a specific topic in French literature or culture. Arrangements must be made with instructor prior to registration.

600 **Seminar in French Studies.** Three credits. Prerequisite: Permission of instructor. Comprehensive study of history and structure of French language; advanced stylistics leading to research project of cultural, literary, or linguistic topic.

697 **Seminar in French Literature.** Three credits. Prerequisites: 9 hours of French on the 400/500 level; must be of graduate status in the M.A. program or have permission of professor. An in-depth look at specific topics, themes, and/or authors in French literature from the medieval period to the present. May be taken twice.

Courses in German [GERM]

534 **A, B, C, D Topics in German Literature.** Three credits each. Prerequisite: 6 hours of German beyond intermediate level or permission of instructor.
- A. **The Art of E.T.A. Hoffmann**
- B. **The Bourgeois Novel (Keller, Raabe)**
- C. **The Prose Fiction of Thomas Mann**
- D. **The Prose Fiction of Hermann Hesse and Franz Kafka**

550 **German Literature: 1725-1880.** Three credits. Prerequisite: 6 hours of German beyond intermediate level or permission of instructor.

560 **German Literature: 1880 to present.** Three credits. Prerequisite: 6 hours of German beyond intermediate level or permission of instructor.

590 **Directed Study in German Literature and Culture.** One to six credits. Prerequisite: 15 hours of German or permission of instructor. Individualized intensive reading in primary and secondary sources relating to a specific topic in German literature or culture. Arrangements must be made with instructor prior to registration.

600 **Seminar in German Studies.** Three credits. Prerequisite: Permission of instructor. Comprehensive study of history and structure of German language; advanced stylistics leading to research project of cultural, literary, or linguistic topic.

697 **Seminar in German Literature.** Three credits. Prerequisites: 9 hours of German at the 400 level or higher or permission of instructor; graduate status in the M.A. or M.A.T. program. An in-depth study of an author, genre, period, or literary movement in German literature from 1850 to present. May be taken twice.

Courses in Spanish [SPAN]

510 **History of the Spanish Language.** Three credits. Historical development of Spanish from Latin. Students also become familiar with the characteristics of Old Spanish.

515 **Spanish Literature I.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Spanish literature from its beginnings to 1700, emphasis on literary history, styles, and themes. Prose fiction and non-fiction, poetry, and drama included.

525 **Spanish Literature II.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Works from different genres which represent major literary movements from the eighteenth century to the present.

544 **Latin American Literature I.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Latin American literature from pre-Columbian times through Romanticism. Prose fiction and non-fiction, poetry, and drama included.

545 **Latin American Literature II.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Major works of Latin American literature from the late nineteenth century to the present.

555 **Special Topics in Hispanic Studies.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Topics in language, culture, or literature.

565 **Special Topics in Spanish Literature or Culture.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Topics in peninsular Spanish literature or culture

575 **Special Topics in Latin American Literature or Culture.** Three credits. Prerequisite: 6 hours of Spanish beyond the intermediate level or permission of instructor. Topics in specialized areas of Latin American literature or culture vary.

590A **Directed Readings in Spanish Literature and Culture.**
590B **Directed Readings in Latin American Literature and Culture.** One to six credits. Prerequisite: 15 hours of Spanish or permission of instructor. Individualized intensive reading in primary and secondary sources relating to a specific topic in Spanish or Latin American literature or culture. Arrangements must be made with instructor prior to registration.

600 **Seminar in Spanish Studies.** Three credits. Prerequisite: Permission of instructor. Comprehensive study of history and structure of Spanish language; advanced stylistics leading to research project of cultural, literary, or linguistic topic.

697 **Seminar in Hispanic Literature.** Three credits. Prerequisite: 9 hours of Spanish at the 400-500 level or higher or permission of the instructor. An in-depth study of an author, genre, period, or literary movement in Peninsular or Latin American literature. May be taken twice.

Department of Geography and Geology

Ronald L. Zawislak, Chair
Kirksey Old Main 325B

The Department of Geography and Geology offers a minor at the graduate level.

Courses in Geography [GEOG]

528 **Special Problems and Topics in Geography.** One to six credits. Research participation or guided readings in a particular area or topic appropriate to the student's interests and professional objectives. The type and amount of additional work will be decided upon when student registers for the course.

531 **Resource Management and Conservation.** Three credits. Current problems related to an intelligent use and management of our environmental resources. Additional projects, reports, and/or papers.

532 **Economic Geography.** Three credits. Relationship of the physical factors of the environment to the productive occupations of humans and the distribution of the products produced. Additional projects, reports, and/or papers.

533 **Political Geography.** Three credits. Significance of geographical factors in understanding political relationships within and among nations; spatial implications of political decision-making processes. Additional projects, reports, and/or papers.

534 **Historical Geography.** Three credits. Prerequisite: GEOG 200 or permission of instructor. The changing human geography of the United States during four centuries of settlement and development. Emphasis on changing population patterns as well as patterns of urban and rural settlement. Additional projects, reports, and/or papers.

536 **Cultural Geography.** Three credits. Prerequisite: GEOG 200 or permission of instructor. Description and explanation of spatial patterns and ecological relationships in human culture. Emphasis on "reading" the cultural landscapes. An in-depth field component will be required.

537 **Urban Geography.** Three credits. An introduction to the development of towns, cities, and associated urban areas. Environmental problems also examined. Classroom analysis of various theories of urban development and of data collected by field work. Preparation of appropriate land-use map.

538 **Cartography.** Four credits. General knowledge of the field including familiarity with the techniques and tools of professional cartography and graphics. Selected lectures and class discussions. A series of map construction assignments; a specialized map assignment supported by written analysis. Three hours lecture and two hours laboratory per week.

540 **A, B Field Course.** Four credits. Supervised study in some geographical area, preceded by classroom preview and concluded by a time of evaluation. Emphasis on the natural and cultural elements of the environment, with special attention directed toward the pattern of human occupancy. An intensive period of study and research on a full-time basis. Work required will depend on area researched and time involved. Consult department chair for specific fees.

541 **Geography of the United States and Canada.** Three credits. Natural, cultural, and geographic environment of these regions. Additional projects, reports, and/or papers.

542 **Geography of Latin America.** Three credits. Geographic regions of Mexico, Central America, the West Indies, and South America. Policy analysis and supporting data.

543 **Geography of Europe.** Three credits. General distribution of natural and cultural features of Europe followed by a detailed study of the regions and countries of the southern, central, and northwestern parts of the continent. Policy analysis of a European-oriented problem.

545 **Geography of Australia and Oceania.** Three credits. Physical and cultural geography of Australia, New Zealand, and the islands of the Southwest Pacific. Additional projects, reports, and/or papers.

546 **Geography of the Former Soviet Union.** Three credits. Analysis of the natural, cultural, and human use regions of the former Soviet Union. A policy analysis of an aspect of the region's geography is required.

547 **Rural Settlement.** Three credits. Prerequisite: GEOG 200 or permission of instructor. A geographical analysis of forms, structures, and distribution of rural settlements in distinctive parts of the earth based upon their origin, function, and development. Special emphasis given in analyzing rural settlements of middle Tennessee. Additional projects, reports, and/or papers.

549 **Remote Sensing.** Four credits. Prerequisites: GEOG 233 and 438 (or 538). Various vehicles of remote sensing such as radar, satellite imagery, and infrared data. Use of data in preparation of maps and applications to land use and environmental problems examined. Selection of data from either a numeric or image remote sensing system, interpreting, and developing a report from the interpretations. Three hours lecture and two hours laboratory per week.

550 **Geography of the Middle East.** Three credits. An analysis of the problems, issues, and theories involved in understanding the physical, cultural, and regional geography of the area. Additional projects, reports, and/or papers.

551 **Laboratory Problems in Remote Sensing.** Four credits. Computer processing of selected satellite imagery. Laboratory will provide practical experience through design, execution, and completion of applied remote sensing projects, one of which will be the effects of an environmental impact.

552 **Image Interpretation.** Four credits. Principles, methods, and techniques of image interpretation including maps, satellite data, and aerial photos. Environmental impact of a special project. Three hours lecture and two hours laboratory per week.

553 **Geographic Information Systems.** Four credits. Lecture and laboratory work relative to computer-manipulated geographic data base. Laboratory work will involve experience in practical application of a geographic information system (GIS) to prob-

lem-solving. Student will take appropriate data and compile an environmental impact statement (EIS). Three hours lecture and two hours laboratory per week.

577B **Field Course in Historical Archaeology.** Three credits. (Same as HIST 577B and ANTH 577B.) Prerequisite: HIST 577A, ANTH 320, or permission of instructor. Archaeological resources and procedures and the interpretation of historical evidence undertaken at a field archaeological site.

Courses in Geology [GEOL]

500 **Petrology and Petrography.** Four credits. Prerequisite: GEOL 300. Igneous, sedimentary, and metamorphic rocks. Theories of formation and evolution based upon mineralogical and geochemical evidence. Examination and classification of rocks in hand sample and thin section. Additional assignments involving data analysis and interpretation and completion of a research paper required for graduate credit.

502 **Geomorphic Regions of the United States.** Four credits. Prerequisite: GEOL 100 or 201. The origin, regional distribution, and geomorphic features and history of the landforms of the United States. Students required to analyze maps, structure sections, and aerial photography to determine geomorphic form and the forces and processes that produced these forms plus research a geomorphical problem resulting in a thesis-type paper. Three hours lecture and two hours laboratory per week.

503 **Invertebrate Micropaleontology.** Four credits. Invertebrate and microscopic animal life of the past including recent preserved representatives and their ancient fossilized ancestors. Numerous field trips to local fossil-collecting sites. Designed to aid in the preparation of earth science teachers, geologists, and biologists. Research paper on a topic approved by instructor. An oral presentation of this material may be required. Three hours lecture and two hours laboratory per week.

505 **Meteorology.** Three credits. Prerequisite: GEOL 100 or 201 or GEOG 233 or consent of instructor. (PHYS 231 or 235 and CHEM 121 recommended.) Physical laws as they relate to the atmosphere, atmospheric processes and their effects on air masses, fronts, and atmospheric circulation, the dynamics of the atmosphere and its relationship to the hydrosphere. Special problem to be assigned by the instructor.

506 **Principles of Geoscience.** Four credits. Includes topics from geology, astronomy, meteorology, and oceanography. Specifically designed to aid in the preparation of earth science teachers in the public schools. Term paper on topic approved by the instructor. Three hours lecture and two hours laboratory per week.

507 **Sedimentation and Stratigraphy.** Four credits. Prerequisite: GEOL 100 or 201 or consent of instructor. Sedimentary rocks; the processes of sedimentation, the alteration of sediments through time, and an examination of the resulting stratigraphic units. Designed for geoscience majors and those with interests in soil mechanics and civil engineering. Research paper on a topic approved by the instructor. An oral presentation may also be required. Three hours lecture and two hours laboratory per week

508 **Structural Geology.** Three credits. Prerequisites: Knowledge of trigonometry, GEOL 100 or 210, and 304; GEOL 202 recommended. Orientation and deformation of rock. Geometric, analytical, and statistical solutions to structural problems. Emphasis on three-dimensional visualization, problem solving, geological map interpretation, and the mechanics of deformation. Case analyzing, research, and interpretation required. Lecture and laboratory.

509 **Problems in Geology.** One to three credits. Prerequisite: A minimum of 12 semester hours of geology, at least 6 hours of which must be upper division and excluding GEOL 100 or by consent of instructor. An independent research-oriented project commensurate with the student's interests and qualifications. In-depth research requiring extensive and intensive search of applicable literature and large study area. An oral examination and discussion required. May be repeated up to a maximum of six hours.

510 **Geophysical Prospecting.** Four credits. Prerequisites: GEOL 304 MATH 122, PHYS 231 or 235, or consent of instructor. PHYS 232 or 236, GEOL 100 or 201, and MATH 221 also recommended. Survey of seismic, gravimetric, and magnetic/electrical exploration

methods. Applied course covering some elementary theory, basic field practice, computation fundamentals, interpretation techniques. Case analysis, research, and interpretation required. Two hours lecture and two hours laboratory per week.

511 **Earth Geophysics.** Three credits. Prerequisites: MATH 122 and 221 , PHYS 231 or 235, or consent of instructor. Also recommend PHYS 232 or 236 and GEOL 100 or 201. Introduction to earth's seismicity, magnetism, heat, and radioactivity. History and mechanics of earth-moon system, earth rotation, and oscillation discussed. Case analysis, research, and interpretation required.

512 **Environmental Geology.** Four credits. Prerequisite: GEOL 100 or 201 or GEOG 233 or consent of instructor. Application of geologic information to minimize possible environmental degradation and maximize utilization of resources in the natural and modified environment, local examples and field trips. Topics include engineering properties of earth materials, natural hazard prediction and reduction, water supply, solid and hazardous wastes, mineral resources, global change, land-use planning, environmental impact analysis. Three hours lecture and two hours laboratory per week. An in-depth research project and paper required.

513 **Hydrogeology.** Four credits. Prerequisites: GEOL 100 or 201 and MATH 122 or consent of instructor. Minimum grade of C. Basic processes and measurement of the hydrologic cycle, including precipitation, evaporation, surface runoff, stream flow, soil moisture, and ground water. Emphasis placed on ground water, including geology of occurrence, principles of flow, conceptual models of regional flow, chemistry and quality, well hydraulics, aquifer characteristics, resource development, detection of pollutants, and contaminant transport. Additional individual research project required, including a written and classroom report. Lecture and laboratory.

514 **Inorganic Geochemistry.** Three credits. Prerequisites: CHEM 122 and GEOL 201. Introduces the principles of inorganic geochemistry. Geochemistry of the earth and solar system, isotope geochronometers, thermodynamics of geochemical processes, mineral stability diagrams, isotope fractionation, rates of geochemical processes, chemical weathering, chemical compositions of surface and groundwater, geochemical exploration, geochemical cycles, environmental geochemistry. Additional assignments involving data analysis and interpretation and completion of a research paper required for graduate credit. Three hours lecture per week.

515 **Environmental Applications of Hydrogeology.** Three credits. Prerequisite: GEOL 413 or 513 with a minimum grade of C. Advanced course that emphasizes applied methods for assessing hazardous and solid waste facilities and contaminated ground water remediation techniques. Included will be site characterization methods, ground water sampling procedures, and monitoring well installation techniques. Additional assignments involving case history analysis with an oral presentation will be required of graduate students. Three hours lecture per week.

540 C, D **Field Course.** Four credits. Supervised study in some geological area preceded by classroom preview and concluded by a time of evaluation. Emphasis on the natural and physical elements of the environment, with special attention directed toward the geomorphology and geology of scientific areas. An intensive period of study and research on a full-time basis. Work required will depend on area researched and time involved. Consult department chair for specific fees.

Some geography and/or geology courses may be accepted as either geography or geology; others are accepted only in one discipline. Substitutions are made at discretion of department chair in consultation with the academic minor advisor.

Department of Health, Physical Education, Recreation, and Safety

---

Martha Whaley, Chair
Murphy Athletic Center 111

The Department of Health, Physical Education, Recreation, and Safety offers two Master of Science Degrees: one with a major in Health, Physical Education, and Recreation and one with a major in Exercise Science and Health Promotion. Three concentrations are available under the Master of Science HPER major: Health, Physical Education, and Recreation. Students may select from a thesis or non-thesis option. Graduate minors are available in Physical Education, Recreation, Safety, or Health. The department also offers the Doctor of Arts in Physical Education.

Normally, the required test score for admission to the Master of Science in Health, Physical Education, Recreation, and Safety program is 30 on the Miller Analogies Test or a satisfactory score on the Graduate Record Examination. For admission to the Master of Science in Exercise Science and Health Promotion program, the expectation is 35 on the Miller Analogies Test or 750 on the Graduate Record Examination. For admission to the doctoral program, either a 44 on the MAT or 900 on the GRE is expected.

Requirements for the Master of Science—HPER Major (500 and 600 level)

Thesis Option

Candidate must

1. have earned undergraduate prerequisites of at least 18 semester hours in HPERS professional courses or a baccalaureate degree from an approved college in an area determined by the department chair to be related to the competencies required in the field of health, physical education, and recreation;
2. complete 30 semester hours of academic work to include REC 657, HLTH/REC/PHED 661, PHED 682, HLTH 693, HLTH/PHED/REC 664 (3 hours required) with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;

3. complete 6 semester hours of research tools or a foreign language on the undergraduate or graduate level;
4. be assigned a thesis committee composed of two members, one of whom must be from the Department of HPERS;
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
6. successfully complete a written comprehensive examination (may be taken no more than twice);
7. successfully complete an oral examination relating to the thesis.

Candidate may incorporate 6 semester hours of designated cognate courses or a minor of 12 semester hours into the program.

Non-Thesis Option

Candidate must

1. have earned undergraduate prerequisites of at least 18 semester hours in HPERS professional courses or a baccalaureate degree from an approved college in an area determined by the department chair to be related to the competencies required in the field of health, physical education, and recreation;
2. complete 32 semester hours to include no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours;
3. complete a major which includes a minimum of 20 semester hours with these specific courses required: REC 657, REC/PHED/HLTH 661, PHED 682, and HLTH 693;
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written comprehensive examination (may be taken no more than twice).

Candidate may incorporate 6 semester hours of designated cognate courses or a minor of 12 semester hours into the program.

Concentration: Health

Candidate must have earned appropriate undergraduate prerequisites.

Core Requirements (12 hours):

REC	657	Issues, Trends, and Research in Recreation
HLTH/PHED/ REC	661	Research Methods in HPERS
PHED	682	Administration and Supervision of Physical Education
HLTH	693	Principles and Philosophy of School Health Education Programs

Health Electives (20 hours)

To be selected in consultation with advisor.

Concentration: Physical Education (NCATE Accredited)

Candidate must have earned appropriate undergraduate prerequisites.

Core Requirements (12 hours):

REC	657	Issues, Trends, and Research in Recreation
HLTH/PHED/ REC	661	Research Methods in HPERS
PHED	682	Administration and Supervision of Physical Education
HLTH	693	Principles and Philosophy of School Health Education Programs

Physical Education Requirement (20 hours):

PHED	665	Physiological Bases of Human Performance
PHED	683	Measurement in Exercise and Sport
PHED	670	Data Analysis and Organization for Human Performance
HLTH/PHED/ REC	691	Independent Study in Health, Physical Education, and Recreation
FOED	602	Educational Foundations
SPSE	643	Introduction to Curriculum Development

Elect either:

PHED	684	Advanced Principles of Exercise Prescription and Assessment
HLTH	686	Program Planning for Health Promotion **OR**
PHED	663	Philosophy and Principles of Human Performance
PHED	680	Program Planning in Physical Education

Concentration: Recreation

Candidate must have earned appropriate undergraduate prerequisites.

Core Requirements (12 hours):

REC	657	Issues, Trends, and Research in Recreation
HLTH/PHED/ REC	661	Research Methods in HPERS
PHED	682	Administration and Supervision of Physical Education
HLTH	693	Principles and Philosophy of School Health Education Programs

Recreation Electives (20 hours)

To be selected in consultation with advisor

Requirements for the Master of Science—Exercise Science and Health Promotion Major (500 and 600 level)

Thesis Option:

Candidate must

1. have earned undergraduate prerequisites of at least 18 semester hours to include anatomy and physiology, kinesiology, exercise physiology, measurement and evaluation, exercise testing and prescription, and first aid and safety;
2. complete 33 semester hours which includes the following courses:

Required (21 hours)

PHED	661	Research Methods in HPERS
PHED	664	Thesis Research
PHED	665	Physiological Bases of Human Performance
PHED	683	Measurement in Exercise and Sports
PHED	684	Advanced Principles of Exercise Prescription and Assessment
PHED	688	Internship/Special Project in Exercise Science and Health Promotion
PHED	670	Data Analysis and Organization for Human Performance

Select two (6 hours)

HLTH	600	Stress Management in Health and Health Promotion
HLTH	686	Program Planning for Health Promotion
HLTH	687	Health Promotion
HLTH	695	Advanced Methods of Community Health Education
HLTH	696	Health Dimensions

Elective (6 hours)
Select two graduate-level courses (500 or greater) from outside the department, in consultation with advisor

3. be assigned a thesis committee composed of two members, one of whom must be from the Department of HPERS;
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete written comprehensive examination (may be taken no more than twice);
6. successfully complete an oral examination relating to the thesis.

Non-Thesis Option:
Candidate must

1. have earned undergraduate prerequisites of at least 18 semester hours to include anatomy and physiology, kinesiology, exercise physiology, measurement and evaluation, exercise testing and prescription, and first aid and safety;
2. complete 39 semester hours which includes the following courses:

Required (27 hours)

HLTH	687	Health Promotion
PHED	661	Research Methods in HPERS
PHED	665	Physiological Bases of Human Performance
PHED	670	Data Analysis and Organization for Human Performance
PHED	683	Measurement in Exercise and Sport
PHED	684	Advanced Principles of Exercise Prescription and Assessment
PHED	688	Internship/Special Project in Exercise Science and Health Promotion
PHED	689	Seminar in Exercise Science and Health Promotion

Select two (6 hours)

HLTH	600	Stress Management in Health and Health Promotion
HLTH	686	Program Planning for Health Promotion
HLTH	695	Advanced Methods of Community Health
HLTH	696	Health Dimensions

Elective (6 hours)
Select two graduate-level courses (500 or greater) from outside the department, in consultation with advisor

3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. successfully complete written comprehensive examination (may be taken no more than twice).

Requirements for the Doctor of Arts in Physical Education (600 and 700 level)

1. Candidate must have earned 18 semester hours undergraduate and 20 semester hours at the master's level in professional HPER courses or related areas as determined by the department chair, D.A. graduate coordinator, and/or major advisor. (Recommended courses: Physical Education Curriculum, Kinesiology, Foundations of Physical Education, Measurement and Evaluation, Physiology of Exercise, and Organization and Administration.)
2. There are two alternatives:
   Alternative #1:
   48 semester hours above the master's level with at least two-thirds of the program on the 700 level. 500-level courses may not be applied. The major consists of at least 24 semester hours of coursework, excluding field work or laboratory experiment, plus 6 semester hours to include PHED 760, 761, 763, plus 6 semester hours for the dissertation. This program requires 12 hours in higher education.
   Alternative #2:
   Same as alternative #1 with the addition of 18 hours in a second teaching field (for example, HPERS with a concentration in health or recreation); i.e., 60 semester hours above the master's level with at least two-thirds of the program on the 700 level. 500-level courses may not be applied. The major teaching field consists of at least 18 semester hours of coursework in physical education, excluding field work or laboratory experiment, plus 6 semester hours to include PHED 760, 761, 763, predissertation seminar, plus 6 semester hours for the dissertation. The second teaching field consists of 18 semester hours of course work in any discipline that is offered as a major at the master's level. This program requires 12 hours in higher education.
3. The core of professional education consists of at least 12 semester hours, including FOED 752 and 756 and SPSE 754 and 755.
4. A doctoral advisory committee must be appointed.
5. Candidacy Form must be filed with the Graduate Office prior to the completion of 36 credit hours.
6. Qualifying examinations as described on page 39 must be successfully completed.
7. Dissertation, see guidelines page 39.
8. Final examination, see guidelines page 40.

Courses in Physical Education [PHED]

524 **Principles of Exercise Prescription and Assessment.** Application of knowledge gained to practical situations; develop proficiency in using equipment and skills to evaluate an individual's health risks and fitness.

534 **Wellness and Healthy Lifestyles.** Three credits. (Same as PHED and REC 534.) Developing healthy lifestyles through health appraisal, fitness evaluation, identification of cardiovascular risk factors, and individual exercise prescriptions.

560 **Technology Applications.** One credit. (Same as HLTH and REC 560.) Prerequisite: Introductory course in computer literacy or equivalent with instructor permission. Corequisite: 560L. Focus on understanding of and competency in use of variety of technology applications related to the profession. Students will be required to enroll in the corresponding lab during the same semester.

560L **Technology Applications Lab.** Two credits. (Same as HLTH and REC 560L.) Laboratory course to accompany 560.

570 **Skills and Techniques of Teaching Rhythmic Activities.** Two credits. (Same as DANC 570.) Various dance forms, methods and materials, evaluative procedures, and experiences in teaching all forms of dance to students at the K-12 level.

581 **Directing Intramural.** Two credits. The organization and administration of intramural programs. Actual participation in developing and supervising intramural activities.

591 **Kinesiology.** Three credits. The science of human motion. Emphasis on principles of anatomy, physiology, and mechanics of human activity.

592 **Special Problems.** One, two, or three credits. (Same and HLTH and REC 592.) Presentation and discussion of research work in physical education, recreation, health and safety education, or athletics. (A maximum of three semester hours may be applied toward a degree.)

595 **Adaptive Physical Education.** Three credits. Principles of planning and conducting physical education in order to provide for the special needs, interests, and abilities of exceptional students. Field work in local schools and community agencies.

650 **Legal Issues and Risk Management in Physical Education, Sport and Leisure Services.** Three credits. (Same as REC 650.) Understanding the legal basis for management actions, concepts of legal liability including torts and contracts as applied to physical education, sport, and leisure services organizations. Emphasis on the ability to plan, develop, and implement risk management programs.

661 **Research Methods in HPERS.** Three credits. (Same as HLTH and REC 661.) Location of information, methods of research, methods of collecting data, application of the computer in analyzing data, preparation and presentation of a research paper.

663 **Philosophy and Principles of Human Performance.** Three credits. The philosophic basis of human performance and the scientific principles which provide a base for the development of sound programs.

664 **Thesis Research.** One to six credits. (Same as HLTH and REC 664.) Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

665 **Physiological Bases of Human Performance.** Three credits. The influence of physiological variations upon exercise, including research techniques related to work physiology and critical analysis of research literature in this area.

670 **Data Analysis and Organization for Human Performance.** Three credits. (Same as HLTH and REC 670.) Prerequisites: PHED 481 or equivalent, good understanding of mathematical concepts, and computer literacy. Pertinent skills needed to analyze and organize research data through introduction of concepts, principles, techniques, and activities that will lead to the appropriate organization and analysis of research data collected for health and human performance.

680 **Program Planning in Physical Education.** Three credits. Modern programs of physical education for all grade levels and the contribution of activities to the goals of education.

682 **Administration and Supervision of Physical Education.** Three credits. The organization, planning, and functions involved in administering and supervising programs of physical education.

683 **Measurement in Exercise and Sport.** Three credits. Measurement theory related to reliability, objectivity, and validity, with application to real world testing situations in the field of health and human performance. Practical experience of testing through labs and/or a research project, including computer analysis and interpretation of reliability and validity data.

684 **Advanced Principles of Exercise Prescription and Assessment.** Three credits. Prerequisite: PHED 424 or equivalent. Provides theoretical and laboratory learning experiences for health risk appraisal, cardiovascular evaluation, and exercise prescription for healthy people and cardiac rehabilitation patients.

688 **Internship/Special Project in Exercise Science and Health Promotion.** Three to six credits. On-site practical experience in an exercise science/health promotion program. Those with extensive work experience will be expected to develop, implement, and conclude a project (research or applied) in consultation with the major professor.

689 **Seminar in Exercise Science and Health Promotion.** Three credits. Current issues and research in exercise science and health promotion. Written and oral presentation of a research project required.

691 **Independent Study in Health, Physical Education, and Recreation.** One, two, or three credits. (Same as HLTH and REC 691.) Individual study of current problems or areas of interest.

700 **Adapted Physical Activity.** Three credits. Cognitive, neuromuscular, sensory, and orthopedic impairments; identification of current topics and procedures for testing and programming for individuals with disabilities; current research findings and practices to assist students in developing necessary skills to design and implement appropriate physical activity programs for individuals with disabilities.

701 **Analysis and Criticism of Professional Literature.** Three credits. Thorough consideration of selected specialized literature most likely to influence physical education programs, procedures, and practices in the school and community.

702 **College Physical Education Administration.** Three credits. Providing administrators and professional students in the field with a broad base of workable administrative principles and guides.

703 **Research Seminar in Human Performance.** Three credits. Current problems, issues, trends, and research in human performance; selected lectures, reports, and class discussion.

704 **History of Physical Education.** Three credits. The role of physical activity in the lives of people from antiquity to the present with an emphasis upon the major events, movements, and people that have influenced the development of physical education.

705 **Facilities and Equipment for Physical Education.** Three credits. The planning of areas and facilities related to physical education and athletics.

706 **Field Work or Laboratory Experiment in Physical Education.** One to six credits. Professional assignments in physical education appropriate to the student's background and interests will be pursued for the semester.

708 **Professional Preparation in Human Performance.** Three credits. Comparisons of current programs and trends; the development of individual programs.

709 **Motor Learning in Physical Education.** Three credits. The theories of learning as they relate to the acquisition of motor skills; a review of the literature pertaining to motor skill development and the implications for teaching.

710 **Mechanical Analysis of Sports Skills.** Three credits. A synthesis of scientific principles as they relate to teaching simple and complex motor patterns.

760/ 761 **Teaching Practicum in Human Performance.** Two credits. Careful supervision given to actual teaching experience. Assignment by department or chair of candidate's committee.

763 **Pre-Dissertation Seminar.** Two credits. Prerequisites: HLTH/PHED/REC 661 and 670 or equivalent. Gives doctoral students an opportunity to discuss the process of conducting dissertation and issues concerning research at the university. Grant writing also addressed.

764 **Dissertation Research.** One to six credits. Assignment by department or chair of candidate's committee. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of dissertation. Once enrolled, student should register for at least one credit hour of doctoral research each semester until completion. S/U grading.

770 **Advanced Data Analysis and Organization for Human Performance.** Three credits. Prerequisites: HLTH/PHED/REC 661 and 670 or equivalent. Skills and understanding necessary to read, conduct, report, and interpret advanced data analytical techniques using data from HPER. Practical and written assignments, presentations, examinations, and projects will furnish doctoral student with tools necessary for data analysis associated with dissertation requirement.

771 **Experimental Design in Human Performance.** Three credits. Prerequisites: HLTH/PHED/REC 661, 670, and 770 or equivalent. Skills and understanding necessary to evaluate designs used in HPER research literature. Practical and written assignments, evaluation of current research, examinations, and projects; knowledge and skills for planning appropriately the design for future research projects.

Courses in Health [HLTH]

527 **Current Health Issues.** Three credits. An analysis of current issues, problems, needs, trends, and interests in health education.

528 **Instructor Course: First Aid and CPR.** Two credits. Prerequisite: HLTH 330 or current American Red Cross certification in multimedia first aid or standard first aid and CPR. Organizing, planning, and teaching American Red Cross safety courses. Red Cross instructor certification awarded for successful completion.

529 **Corrective Therapy-Clinical Training Program.** Nine credits. Orientation, observation, and practice in the methods and techniques of medical rehabilitation and application of physical education principles to the treatment of illness and injury. The student-trainee program is affiliated with the Veterans Administration Hospital, Murfreesboro; training is designed to offer majors preparation to work as therapists in medical treatment programs.

531 **Health Problems of Exceptional Children.** Three credits. Common health problems with emphasis on those peculiar to children in various areas of exceptionality. Consideration given to identification and referral.

534 **Wellness and Healthy Lifestyles.** Three credits. (Same as PHED and REC 534.) Developing healthy lifestyles through health appraisal, fitness evaluation, identification of cardiovascular risk factors, and individual exercise prescriptions.

560 **Technology Applications.** One credit. (Same as PHED and REC 560.) Prerequisite: Introductory course in computer literacy or equivalent with instructor permission. Corequisite: 560L. Focus on understanding of and competency in use of variety of technology applications related to the profession. Students will be required to enroll in the corresponding lab during the same semester.

560L **Technology Applications Lab.** Two credits. (Same as PHED and REC 560L.) Laboratory course to accompany 560.

590 **Certified Health Education Specialist (CHES) Review.** One credit. Responsibilities and competencies on the Certified Health Education Specialist examination.

592 **Special Problems.** One, two, or three credits. (Same as PHED and REC 592.) Presentation and discussion of research work in physical education, recreation, health and safety education, or athletics. (A maximum of three semester hours may be applied toward a degree.)

600 **Stress Management in Health and Health Promotion.** Three credits. Evaluation techniques and instruments considered. Effects of stress on physical and mental domains of health examined. Methods of conducting stress management workshops and classes emphasized.

601 **Holistic and Complementary Health Care.** Three credits. Concepts and theories that make up the disciplines and practices constituting the holistic and complementary approach to health promotion and disease treatment and prevention.

610 **Health Education and Behavior.** Three credits. Links behavioral change to practical application in the design and implementation of individual and group programs in health education and behavior.

661 **Research Methods in HPERS.** Three credits. (Same as PHED and REC 661.) Location of information, methods of research, methods of collecting data, application of the computer in analyzing data, preparation and presentation of a research paper.

664 **Thesis Research.** One to six credits. (Same as PHED and REC 664.) Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

670 **Data Analysis and Organization for Human Performance.** Three credits. (Same as PHED and REC 670.) Prerequisites: PHED 481 or equivalent, good understanding of mathematical concepts, and computer literacy. Pertinent skills needed to analyze and organize research data through introduction of concepts, principles, techniques, and activities that will lead to the appropriate organization and analysis of research data collected for health and human performance.

685 **Methods in Epidemiology.** Three credits. Principles and methods of epidemiologic analysis including standardization; stratified analysis; confounding and its control; planning and conducting epidemiologic research; role of multivariate analysis in epidemiologic research.

686 **Program Planning for Health Promotion.** Three credits. Needs assessment, missions, goals, and objectives of health promotion program. Program planning, implementation, and evaluation covered in detail.

687 **Health Promotion.** Three credits. Health promotion knowledge as well as the ability to impart this knowledge to the lay population. In-depth information will be covered regarding lifestyle and its relationship to risk factors for cardiovascular disease and cancer.

691 **Independent Study in Health, Physical Education, and Recreation.** One, two, or three credits. (Same as PHED and REC 691.) Individual study of current problems or areas of interest.

693 **Principles and Philosophy of School Health Education Programs.** Three credits. A detailed overview.

695 **Advanced Methods of Community Health Education.** Three credits. Designed for health educators, classroom teachers, physical educators, administrators, and others interested in methods and procedures of community health education.

696 **Health Dimensions.** Three credits. Advanced content for teachers of personal and community health; designed for up-dating professional preparation and for gaining additional in-depth basics utilized in curriculum planning, teaching, public service, and research by school health educators.

697 **Advanced Methods in Human Sexuality Education.** Three credits. Methodology, teaching techniques, and the organization of sexuality education programs for schools (K-12) and other community settings. Additional emphasis directed to concepts and information about human sexuality education, i.e. the psychological, physiological, sociological, and ethical aspects.

712 **Research in Epidemiology.** Three credits. Advanced study in epidemiological analysis, methods, and critique with an emphasis within the field of health and human performance. Areas include epidemiology and chronic disease, public health, exercise science, and sports medicine.

Courses in Athletic Coaching [ATHC]

506 **Sport Psychology.** Three credits. Application of the knowledge base of psychology to the human endeavors of athletics. Introduction of behavioral principles, motivational research, personality factors, social/psychological findings, cognitive processes, dysfunctional behavior knowledge, and psychometric assessment procedures for the purpose of enhancing performance.

518 **Coaching Speed/Strength Conditioning for Sports.** Three credits. Organizing and developing speed and strength conditioning programs for sports. Setting up and supervising proper methods and techniques in running, weight lifting, and conditioning exercise for athletics today.

522 **Coaching Soccer.** Two credits. Theory and practice of soccer fundamentals as well as introduction of offensive and defensive plays.

560 **Advanced Coaching of Football.** Two credits. Philosophies of coaching football and close examination of the master plan of coaching responsibilities.

562 **Advanced Coaching of Basketball.** Two credits. Philosophies of coaching basketball discussed, along with a detailed study of the master plan of coaching responsibilities.

564 **Coaching of Baseball.** Two credits. Theory and practice in baseball fundamentals as well as reviewing the various systems and types of plays.

565 **Coaching Cross Country, Track and Field.** Two credits. Theory and practice in fundamentals and skills.

568 **Coaching and Judging Women's Gymnastics.** Three credits. Includes classroom instruction and practical experience in principles and techniques of coaching, spotting, and judging women's gymnastics; a USGF Judges Rating may be obtained.

569 **Psychology of Coaching.** Three credits. Application of basic psychological principles to everyday coaching situations and problems. Designed to improve communication and motivation for players and coaches.

580 **Administration of High School and College Athletics.** Three credits. National, state, and local policies concerning athletic eligibility, contest management, equipment, awards, finances, budgets, safety, maintenance of facilities, public relations, publicity, and current athletic trends.

Courses in Athletic Training [ATHT]

561 **Prevention and Care of Athletic Injuries.** Three credits. Theory and practice in the prevention and care of athletic injuries including treatment, taping, and rehabilitation.

596 **Rehabilitation Techniques in Sports Medicine.** Three credits. Methods and techniques in the selection and application. The N.A.T.A. Competencies in Athletic Training will be a guideline for knowledge that each student should obtain. Students will engage in the process of reviewing, analyzing, discussing, and reflecting about athletic training.

597 **Therapeutic Modalities in Sports Medicine.** Three credits. Methods and techniques in the application of selected therapeutic modalities and the evaluation of injuries relative to modalities. The N.A.T.A. *Competencies in Athletic Training* will be a guideline for knowledge that each student should obtain. Students will engage in the process of reviewing, analyzing, discussing, synthesizing, and reflecting about athletic training.

Courses in Dance [DANC]

516 **Advanced Ballet - Individual Study, Solo and Ensemble Performance.** Three credits. Refine and polish ballet skills at the advanced level leading to performance in classical and contemporary styles.

517 **Advanced Ballet - Individual Study and Choreography.** Three credits. Concentrates on choreography for solo and ensemble performance in both classical and contemporary styles.

544 **Dance Therapy.** Three credits. The use of movement in helping to reduce physiological, psychological, and sociological aberrations. Designed to help the classroom teacher or specialist working with children who have these problems.

570 **Skills and Techniques of Teaching Rhythmic Activities.** Two credits. (Same as PHED 570.) Various dance forms, methods and materials, evaluative procedures, and experiences in teaching all forms of dance to students at the K-12 level.

573 **Dance for the Theatre.** Three credits. Prerequisites: PHED 101, 102, 216, 218, and 219 or equivalent. Techniques of dance for musicals, comedies, opera, television, and stage and choreography for these forms.

574 **A, B Dance Production.** One credit. All aspects of concert planning and production as performer and crew member. May be taken for two semesters.

575 **Choreography.** Three credits. Prerequisite: PHED 208 or equivalent. Exploration of movement, technique sequences, and choreographic forms; basic elements of labanotation.

576 **Choreographic Project.** Three credits. Exploration of choreographic techniques to develop an original group dance and the execution of plans for costumes, lighting, and makeup.

577 **Advanced Modern Dance.** Three credits. Prerequisite: PHED 208 or equivalent. Techniques, choreography, and various aspects of labanotation for the experienced dancer and choreographer.

Courses in Recreation [REC]

534 **Wellness and Healthy Lifestyles.** Three credits. (Same as HLTH and PHED 534.) Developing healthy lifestyles through health appraisal, fitness evaluation identification of cardiovascular risk factors, and individual exercise prescriptions.

538 **Introduction to Recreation for Persons with Disability.** Three credits. Introduces important issues such as advocacy, accessibility, legalities, and the importance of and broad range of opportunities in the provision of recreational services for persons with disability in our society.

548 **Recreational Therapy Techniques.** Three credits. Activity-based therapeutic interventions currently utilized to alleviate existing problems, maintain current level of functioning, or to assist in overall rehabilitation efforts of transdisciplinary treatment team.

549 **Campus Recreation.** Three credits. For those wishing to acquaint a specific and comprehensive knowledge of the recreational sports program and an understanding of its place and value in education and society.

550 **Introduction to Recreational Therapy.** Three credits. Explores the profession of recreational therapy, the wide range of disabilities, and the role of intervention in a variety of settings: clinical, community, and transitional. History, philosophy, professional development/certification, systemic program design, and implementation are the major issues.

551 **Recreational Therapy in Clinical Settings.** Three credits. Prerequisites: REC 250 and 450. Includes working with persons with TBI, SCI, and other traumatic injury or disease. Medical terminology related to disease and disability, holistic approach, interdisciplinary treatment, assessment, documentation, third party reimbursement, and evaluation explored.

552 **Transitional and Community Recreational Therapy.** Three credits. Issues, needs, and opportunities in the facilitation of transitional and community-based recreational therapy services; relevance to current health care trends.

554 **Organization and Administration of Recreation.** Three credits. Duties and responsibilities of an administrator; developing the ability to perform these in a recreational setting.

556 **Field Studies in Recreation and Parks.** Three credits. Prerequisites: REC 250 and 353. Provides an opportunity for supervised practical application of classroom theory in professional field work.

557 **Outdoor Recreation Workshop.** Three credits. An off-campus course that provides materials and experiences not available in the classroom. Exposure to resource management, campground planning, problem solving, canoeing, kayaking, sailing, environmental education, and other areas.

558 **Seminar: Outdoor Recreation and Environmental Issues.** Three credits. Awareness of the importance of environmental consideration when planning, managing, or administering outdoor recreation programs. Includes environmental issues and methods of seeking solutions to environmental problems.

559 **Readings in Parks and Recreation.** Three credits. In-depth reading in the field; preparation of an annotated bibliography and report. Arrangements for this course should be made with the instructor prior to registration.

560 **Technology Applications.** One credit. (Same as HLTH and PHED 560.) Prerequisite: Introductory course in computer literacy or equivalent with instructor permission. Corequisite: 560L. Focus on understanding of and competency in use of variety of technology applications related to the profession. Students will be required to enroll in the corresponding lab during the same semester.

560L **Technology Applications Lab.** Two credits. (Same as HLTH and PHED 560L.) Laboratory course to accompany 560.

566 **Recreation Program Evaluation.** Three credits. Applicable evaluation procedures and techniques. Emphasis on specification of objectives, development of recording procedures, and experimental analysis.

579 **Sport and Society.** Three credits. (Same as SOC 579.) A behavioral approach to the sport and leisure phenomena from the related perspectives of sociology and anthropology.

592 **Special Problems.** One, two, or three credits. (Same as PHED and HLTH 592.) Presentation and discussion of research work in physical education, recreation, health and safety education, or athletics. (A maximum of three semester hours may be applied toward a degree.)

650 **Legal Issues and Risk Management in Physical Education, Sport and Leisure Services.** Three credits. (Same as PHED 650.) Understanding the legal basis for management actions, concepts of legal liability including torts and contracts as applied to physical education, sport, and leisure services organizations. Emphasis on the ability to plan, develop, and implement risk management programs.

652 **Management Practices in Recreation and Leisure.** Three credits. An analysis of administrative processes and management techniques used in planning, organizing, staffing, directing, and controlling with respect to leisure service delivery systems.

653 **Principles and Practices in Recreation and Leisure.** Three credits. Identification of principles and practices applicable to a variety of opportunities in public, private, institutional, and industrial recreation.

655 **Outdoor Environmental Education.** Three credits. Camping leadership and outdoor education principles with implications for management, planning of, and interpretation in recreation areas as well as for policy development.

657 **Issues, Trends, and Research in Recreation.** Three credits. Identification and analysis. Emphasis on meaningful, outstanding studies and research in the field of recreation.

661 **Research Methods in HPERS.** Three credits. (Same as HLTH and PHED 661.) Location of information, methods of research, methods of collecting data, application of the computer in analyzing data, preparation and presentation of a research paper.

664 **Thesis Research.** One to six credits. (Same as HLTH and PHED 664.) Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

667 **Behavioral Concepts in Recreation and Leisure Services.** Three credits. Social psychological concepts concerning recreation and leisure behavior in various types of park, recreation, and tourism settings. Introduction to and an overview of a range of different theoretical perspectives and behavioral concepts underlying pertinent research.

670 **Data Analysis and Organization for Human Performance.** Three credits. (Same as HLTH and PHED 670.) Prerequisites: PHED 481 or equivalent, good understanding of mathematical concepts, and computer literacy. Pertinent skills needed to analyze and organize research data through introduction of concepts, principles, techniques, and activities that will lead to the appropriate organization and analysis of research data collected for health and human performance.

691 **Independent Study in Health, Physical Education, and Recreation.** One, two, or three credits. (Same as HLTH and PHED 691.) Individual study of current problems or areas of interest.

Courses in Safety [SAFE]

532 **Principles of Accident Control.** Three credits. Principles, concepts, and methodology of the safety movement. Introductory experiences dealing with accident prevention as well as control efforts recommended by various social institutions and agencies reviewed.

535 **Automotive Transportation Safety Programs.** Three credits. Federal, state, and local legislation concerning transportation control and design.

585 **Driver and Traffic Safety Fundamentals.** Three credits. Prerequisite: Valid driver's license. Introduction to the field of driver and traffic safety education. Primary focus is on current concepts related to safe driving.

587 **Teaching Driver and Traffic Safety.** Three credits. Prerequisite: SAFE 485 or 585. Designed to develop teaching techniques for laboratory instruction including on-street, driving simulator, and multiple-car range programs.

641 **Administration and Supervision of Safety Programs in Schools and Colleges.** Three credits. An overview of the total program administration through analysis of tasks, strategies, and situational factors affecting them; examines handicaps to safety programming, needed change, and methods for implementation.

645 **Field Practice in Safety Education.** Three credits. Professional assignment under supervision of one or more safety educators or agency directors in school or community organizations.

647 **Disaster Preparedness and Emergency Care Systems.** Three credits. Major elements involved in disasters and emergencies, preparedness planning, systems utilization, and attention to essential human services, with emphasis on community action.

692 **School Safety and Safety Education.** Three credits. School safety education concepts in all disciplines and levels, including content, methodology, and teacher liability.

Department of History

Thaddeus Smith, Chair
Peck Hall 223

The History Department offers the Master of Arts with a major in history, Master of Arts with a concentration in Public History, Doctor of Arts with a major in history, Doctor of Arts with a concentration in Historic Preservation, and a graduate minor.

Normally, a score of 900 (verbal and analytical portions) on the Graduate Record Examination is required for admission to the master's programs. For admission to the doctoral programs, a GRE of 1000 (verbal and analytical portions) is expected.

Requirements for the Master of Arts—History Major (500 and 600 levels only)

Admission to the program requires

1. an earned bachelor's degree from an accredited university or college;
2. at least a 2.75 grade point average in all college work taken;
3. completion of at least 18 semester hours of undergraduate history courses;

Modifications to the above requirements may be made with the permission of the department's director of graduate studies and the Department's Graduate Committee.

Once admitted to the program, candidate must

1. complete 30 hours of graduate history courses with at least 70 percent of the hours to be taken at the 600 level. The 30 hours include:
    a. core seminar courses
        HIST 607 Historical Inquiry
        HIST 608 Seminar in Historical Discourse
        HIST 609 Selected Readings in History
    b. 9 to 12 hours of graduate courses in a thesis field: American or European history;
    c. 6 to 9 hours of graduate courses (at least one course being at the 600 level) in courses outside the thesis field;
    d. HIST 664 Thesis Research (at least 3 hours)
2. complete comprehensive examinations in the thesis field;
   NOTE: Students may add a field outside of history towards their master's program. Specific provisions on graduate minors are elsewhere in this catalog.
3. maintain satisfactory progress towards completion of the degree each semester;
4. fulfill a foreign language requirement by:
    a. completing 12 undergraduate semester hours in one language;
    b. earning a grade of A or B in GERM 321 or FREN 321;

   c. earning at least a C in any upper-division undergraduate foreign language course taught in the language and requiring translation;
   d. passing a reading examination in the language administered by the Foreign Languages and Literatures Department
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 semester hours;
6. submit an acceptable thesis.

Requirements for the Master of Arts with a Concentration in Public History (500 and 600 levels only)

The Public History program offers specialized education in one of three tracks: historic preservation, museums, and cultural resources. Each track consists of a thematic seminar, a local practicum, and an internship off campus.

Admission to the program requires
1. an earned bachelor's degree from an accredited university or college;
2. at least a 2.75 grade point average in all college work;
3. completion of at least 18 semester hours of undergraduate history courses.

Modifications to these above requirements may be made with the permission of the department's director of graduate studies and the Department's Graduate Committee.

Once admitted to the program, candidate must
1. complete at least 36 semester hours of graduate-level history and public history courses, with at least 70 percent of the hours to be taken at the 600 level. The 36 hours include
   a. core seminar courses
      HIST 607 Historical Inquiry
      HIST 608 Seminar in Historical Discourse
      HIST 609 Selected Readings in History
   b. Public History courses
      HIST 585 Introduction to Public History
      HIST 605 Public History Internship
      HIST 606 Public History Practicum
   c. Public History seminar option (3 hours)
      HIST 685 Seminar in Historic Preservation OR
      HIST 688 Museum Seminar OR
      HIST 689 Cultural Resources Seminar
   d. Public History electives (6 hours) selected in consultation with the public history director;
   e. history electives (6 hours) outside the public history field (at least 3 hours of which must be at the 600 level);
   f. HIST 664 Thesis Research (at least 3 hours)
2. fulfill a foreign language requirement in the same manner as stipulated for the Master of Arts-History Major, or complete HIST 500 Computer and Quantitative History;
3. maintain satisfactory progress towards completion of the degree each semester.
4. file a Candidacy Form with the Graduate Office before the completion of 24 semester hours;
5. complete comprehensive examinations in the field of public history, that field to include an examination in the area of American history in which the student will complete the thesis;
6. submit an acceptable thesis.

Requirements for the Doctor of Arts—History Major (500*, 600, 700 levels only)

Candidate must
1. hold a master's degree and have earned at least 18 semester hours of undergraduate history credit and a minimum of 20 semester hours of graduate history credit. Deficiencies in this requirement should be removed during the first year in the program;
2. have three years of appropriate teaching and/or administrative educational experience;
3. select one of the following programs:
   Alternative #1
   Complete a minimum of 48 semester hours of graduate courses beyond the master's level, at least 24 of which must be at the 700 level and no more than 15 may be at the 500 level (with prior approval*), including
   a. at least 24 semester hours of graduate history courses;
   b. 6 semester hours of teaching internship;
   c. 6 semester hours of dissertation research and writing;
   d. 12 semester hours of professional education classes consisting of FOED 752 and 756 and SPSE 754 and 755.
   At least 24 semester hours of the above must be taken at the 700 level.
   Alternative #2
   Complete a minimum of 60 semester hours of courses above the master's level, including
   a. at least 18 semester hours of graduate history courses;
   b. at least 18 semester hours in any other academic discipline for which MTSU offers a master's or higher degree;
   c. 6 semester hours of internship;
   d. 6 semester hours of dissertation research and writing;
   e. 12 semester hours of professional education classes consisting of FOED 752 and 756 and SPSE 754 and 755.
   At least two-thirds of the above hours must be taken at the 700 level.
4. consult with an advisory committee during the first semester in the program to ensure the student's course work will adequately prepare him or her for successfully completing oral and written examinations in three fields:
   Alternative #1
   a. United States History
   b. Western Civilization (either before or since 1715)
   c. Higher Education
   Alternative #2
   A program determined by the student in consultation with the advisory committee
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours.
6. maintain satisfactory progress towards completion of the degree each semester;
7. successfully complete written and oral examinations in 1) history and 2) higher education;
8. develop and successfully defend a dissertation prospectus;
9. complete a dissertation and successfully defend it in a final oral examination.

Requirements for the Doctor of Arts in History with a Concentration in Historic Preservation (500*, 600, and 700 levels only)

Candidate must

1. hold a master's degree and have earned at least 18 semester hours of undergraduate history credit and a minimum of 20 semester hours of graduate history credit. Deficiencies in this requirement should be removed during the first year in the program;
2. complete from 48 to 60 semester hours of history and professional education courses above the master's level, including
   a. at least 24 semester hours of graduate history courses;
   b. 6 semester hours of internship (HIST 760 and 761);
   c. 6 semester hours of dissertation research and writing;
   d. 12 semester hours of professional education courses consisting of FOED 752 and 756 and SPSE 754 and 755.

   At least two-thirds of the above must be taken at the 700 level.
3. complete a skills/tool cognate of 12 semester hours chosen in consultation with student's advisor and the program director;
4. consult with an advisory committee during their first semester in the program. Each student's program will include course work in the fields 1) historic preservation theory, 2) applied practice in historic preservation, and 3) United States history. The advisory committee will assist the student in selecting courses to satisfy these field requirements;
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
6. maintain satisfactory progress towards completion of the degree each semester;
7. successfully complete written and oral examinations in 1) history, 2) historic preservation, and 3) higher education;
8. develop and successfully defend a dissertation prospectus;
9. complete a dissertation and successfully defend it in a final oral examination.
10. requires prior approval*.

Courses in History [HIST]

500 Computer and Quantitative History. Three credits. Examines quantitative reasoning in historical research. Covers historiographical questions and practical research skills. Includes historical causality, historical change over time, data preparation, sampling, and the interpretation of quantitative data.

501 Europe: The Renaissance and Reformation. Three credits. European developments occurring in art, literature, religion, and science. The influence exerted by these on political and economic history from about 1300 to 1600.

502 Europe: The French Revolution and Napoleon. Three credits. The social, political, and economic aspects of the old regime, the French Revolution, and the Napoleonic period in European history.

503 Europe: Absolutism and Enlightenment. Three credits. European history in the seventeenth and eighteenth centuries, covering social, economic, intellectual, and political developments.

504 Renaissance Europe. Three credits. Survey of political, economic, social, intellectual, and cultural developments of Italy, France, England, Germany, and the Low Countries during the fourteenth through the seventeenth centuries.

505 Reformation Europe. Three credits. Survey of political, economic, social, intellectual, and cultural developments of Italy, France, England, Germany, and the Low Countries during the sixteenth and seventeenth centuries.

506 Environmental History. Three credits. Traces environmental change in America from the Puritans to the present and from wilderness to suburbia. Explains impact of growth, settlement, and resource exploitation on our national landscape and institutions.

508 Japan. Three credits. Survey of Japanese history from the formation of the first Japanese political state to the country's emergence as a post-World War II economic superpower.

509 China. Three credits. Survey of Chinese history from antiquity to the present People's Republic, stressing social history and the unique cultural features defining China's civilization.

510 The Medieval Mediterranean World. Three credits. A regional survey of political, economic, social and intellectual, and cultural development of the countries bordering the Mediterranean.

511 Colonial America. Three credits. The exploration and colonialization of North America, relations between Indians and Europeans, and the development of colonial societies and identity from 1492 to 1760.

512 Early National United States, 1763-1815. Three credits. Examines international conflicts from the Seven Years' War through the War of 1812, while emphasizing political, social, intellectual, and economic developments in the new United States.

513 The United States: The Jacksonian Era. Three credits. The major political, social, and economic developments in the awakening of American nationalism, Jacksonian Democracy, expansionism, and the Mexican War.

514 Civil War and Reconstruction. Three credits. Sectional differences of the 1850s. Civil War. Reconstruction, and the Grant Era.

515 The Emergence of Modern America. Three credits. The nature and consequences of the shift of the United States from an agrarian to an urban and industrialized society between Reconstruction and World War I.

516 United States, 1914-1945. Three credits. The increasing involvement of the United States in world affairs from World War I through World War II and of the social and political consequences of economic complexity which resulted in prosperity, depression, and the New Deal.

517 The United States Since World War II. Three credits. The major social, political, economic, and diplomatic developments in the history of the United States from l945 to the present with particular emphasis on the role of the United States in world affairs and the changing role of government.

518 Problems in Modern Middle East. Three credits. A detailed analysis of selected historical controversies. Topics will vary from year to year.

519 Britain in the Nineteenth Century. Three credits. Survey of British political, economic, diplomatic, military, and cultural developments from the end of the Napoleonic era to Gladstone's retirement in 1894.

520 Britain in the Twentieth Century. Three credits. The political military, imperial, economic, and social history of a changing Britain in its century of total war, imperial decline, and economic readjustment.

521 Colonial Latin America. Three credits. The indigenous societies present before European colonization and the first encounters in Mexico, the Caribbean, and South America. Analysis of political structures imposed by the Spanish as well as the social and cultural implications of colonialism and miscegenation.

522 Modern Latin America. Three credits. Examination of colonial background of Latin America, moving to an exploration of economic, political, social, and cultural developments in Latin America since Independence.

524 Latin American-United States Relations. Three credits. Relations between the United States and Latin America in the nineteenth and twentieth centuries with emphasis on the effect of cultural differences on inter-American diplomacy.

525 Mexico and the Caribbean. Three credits. The development of cultural, economic, and political traditions since 1492.

526 South America. Three credits. The development of cultural, economic, and political traditions since 1492.

527A Women in America to 1890. Three credits. Examines women's roles in the United States from colonial times to 1890, emphasizing the experiences of women of different classes, races, and ethnic groups with work, family, and politics.

527B Women in America Since 1890. Three credits. Examines women's roles in the United States since 1890, emphasizing the experiences of women in different classes, races, and ethnic groups with work, family, and politics.

528 The Sunbelt: Its Background and History. Three credits. The Southern rim of states from a nineteenth-century American outpost to the modern pace-setting position in economics, culture, racial relationships, and politics with such leaders as King, Nixon, Carter, and Reagan.

529 Women in Europe Since 1700. Three credits. A comparative study of the social, intellectual, cultural, political, and economic history of women's lives in Great Britain, France, Germany, and Russia since 1700.

529A History of Women in the Third World. Three credits. Examines the connections between modern colonialism and the development of third-world feminisms. First focuses on conquest and colonialism and the consequences for third-world women of that process, then moves to post-colonial societies and expands to include women's political, economic, and social roles in the three regions of Africa, China, and Latin America.

530 American Social History. Three credits. An examination of class, ethnicity, family life, and community in America from the colonial period to the present.

530A America Divided: Race, Class, and Gender. Three credits. Interaction of race, class, and gender in the lives of Americans within historical frameworks; how such interactions have shaped American social and political institutions.

531 The Middle East. Three credits. The development of the Near East, the rise and spread of Islam, the Ottoman Empire, European imperialism in the Near East, contemporary developments. Emphasis on cultural contributions of the Near East to western civilization.

532 Diplomatic History of the United States. Three credits. The traditions, leading personalities, and main events of U.S. diplomatic history, from the Revolution until the current era.

533 France Since 1870. Three credits. The social, political, intellectual, cultural, and economic history of France from the origins of the Third Republic to the present.

535 American Urban History. Three credits. A survey of the development and growth of cities and suburbs from the colonial period to the present with particular emphasis on urban institutions, problems, politics, culture, and society.

536 Europe: 1815-1900. Three credits. Nineteenth-century Europe.

537 Europe: 1900-1939. Three credits. Emphasis on the impact of continued industrialization, total war, and totalitarian ideologies in the early twentieth century.

538 Europe Since 1939. Three credits. The major European countries and common European-wide themes from World War II to the present.

539 Germany to 1870. Three credits. The evolution of the German states from their Indo-European origins to their unification in a single German nation in 1871 with particular emphasis on the history of German men and women since the Middle Ages. History of Austria and its possessions also included.

540 Germany Since 1870. Three credits. The history of Germany from national unification in 1871 through its reunification in the contemporary world. Course emphasizes major social, cultural, political, intellectual, and economic developments of the period as they relate to both German men and women. History of the Austro-Hungarian empire (1867-1918) and the modern Austrian state also included.

541 Russia to the Twentieth Century. Three credits. Russian history from its beginnings to the end of the nineteenth century.

542 **Russia in the Twentieth Century.** Three credits. A continuation of 541 emphasizing the Revolution and the soviet era.

543A **History of Medicine.** Three credits. Medical developments and in particular the relationship between medicine and society. Examines two medical traditions: the West and China. Discussions not only on major developments in medicine but also of the systems of healing in these cultures and comparison of the different roles medicine played within these societies. Also investigates the impact of Western scientific medicine on the various systems of traditional medicine.

544 **History of Sport in America.** Three credits. The role of sport in American society from the colonial era to the present, with emphasis on how sporting activities reflect political, cultural, and economic characteristics of various time periods.

546 **Canada.** Three credits. Canadian history from the colonial era to the present.

549 **The American Indian.** Three credits. The North American Indian's history from the entrance into the New World until the present with emphasis on relationships among tribes, economic development, prominent personages, and adaptation to white culture.

560 **American Biography:** Three credits. A survey of the lives and achievements of men and women most prominent in American history. Selected biographies and autobiographies read and analyzed.

563 **The Old South.** Three credits. Examines the development of southern culture and society up to the end of the nineteenth century. Particular emphasis given to the region's vision of itself as distinct.

564 **Sections in American History: The West.** Three credits. The role of the frontier in American history. Emphasis on the trans-Mississippi West.

565 **The Modern South.** Three credits. Examines southern culture and society in the twentieth century. Particular emphasis given to race relations, industrialization, and counter cultural movements.

568 **American Cultural and Intellectual History.** Three credits. Explores the major issues in American cultural and intellectual history through an examination of American literature, philosophy, social sciences, fine arts, and popular culture.

570 **African-American Social and Intellectual History.** Three credits. The changing role and status of African-Americans in American life and the contributions to the culture and institutions of the United States.

573 **Middle Ages.** Three credits. An intensive survey of the progress of medieval civilization with emphasis on Byzantine, Moslem, and Germanic cultures in the Middle Ages.

574 **England to 1783.** Three credits. English history from earliest times to the end of the American Revolution, with emphasis on major political, economic, cultural, and social developments.

576 **Classical History.** Three credits. Ancient Greece and Rome, from about 2,000 B.C. to 476 A.D., emphasizing the classical historians and Greek and Roman culture.

577A **Historical Archaeology.** Three credits. Introduces the disciplines of historical archaeology, including examination of archaeological evidence, historical documentation, and interpretation of evidence.

577B **Field Course in Historical Archaeology.** Three credits. (Same as GEOG 577B and ANTH 577B.) Prerequisite: HIST 577A, ANTH 320, or permission of instructor. Archaeological resources and procedures and the interpretation of historical evidence undertaken at a field archaeological site.

581 **Epochs in American Culture.** Three credits. Literature, arts, social sciences, and popular culture examined with regard to a particular topic (such as the history of sexuality or the history of cultural rebellion) in order to understand how Americans have reacted to conflicting values in society.

582 **American Religious History.** Three credits. Explores the nature of religion as experienced in American history focusing on the questions "How has religion affected America?" and "How has America affected religion?" Emphasis on the nineteenth and twentieth centuries and on the contact of and exchanges among traditions such as Protestant Catholic Christianity, Judasim, Islam, and Animism.

583 **Material Culture Resources in World History.** Three credits. A survey of the architecture, furniture, tools, utensils, weapons, ceremonial objects, etc. of the world's major civilizations. Provides a basis for studying how various cultural styles have influenced the development of our own material culture resources.

585 **Introduction to Public History.** Three credits. An overview of the origins and development of the national historic preservation movement in both the public and private sectors. Lectures, readings, research, projects, field trips.

586 **American Architectural History.** Three credits. An analysis of the historical development of American architecture and of architecture as evidence of America's cultural, social, economic, and technological growth from 1607 to the present.

587 **Principles of Archival Administration.** Three credits. The theory, principles, and techniques employed by archivists and curators of manuscript collections. Importance of record preservation for scholars, business, government, and the public at large stressed.

588 **Development of the Local History Museum.** Three credits. An overview of the development of museology, museography, and museum administration. Emphasizes approaches for identifying and solving typical problems encountered by the local history museum.

590A **Topics in Tennessee History.** Three credits. Detailed examination of a topic pertinent to the history of Tennessee. Topics will vary. Students may take HIST 590A for credit twice but permission of the department is required for the second enrollment.

592 **Administration of Historic Preservation.** Three credits. Procedures employed by federal, state, and local agencies in the day-to-day work of locating, recording, restoring, and preserving the historical, architectural, and cultural resources of the United States.

593 **Problems in Historic Preservation.** Three credits. Applied research in historic preservation planning and interpretation.

594 **Preservation Internship.** Three credits. Student is assigned to a public or private agency or organization in an employment status related to historic preservation.

597 **Advanced Projects in Historic Preservation.** Three credits. Applied project experience in a community setting. Interested students not enrolled in the department's Historic Preservation concentration should meet with the director of the program before enrolling.

600 **Seminar in Medieval Europe.** Three credits. A reading seminar stressing bibliography, interpretation, and methodologies for either the socio-economic, cultural-intellectual, or political-military history of the Middle Ages.

601 **Seminar in Renaissance and Reformation Europe.** Three credits. A reading seminar stressing bibliography, interpretation, and methodologies for either the socio-economic, cultural-intellectual, or political-military history of the Renaissance and Reformation.

603/703 **Seminar in Eighteenth-Century Europe.** Three credits. Prerequisite: Elementary knowledge of French. The story, sources, and significance of eighteenth-century Europe from the decline of Louis XIV to the rise of Napoleon I. A combination of lectures, discussions, oral reports, and research projects.

604 **Seminar on Topics in Premodern Europe.** Three credits. A research seminar covering selected topics in European history before 1715.

605 **Public History Internship.** Three credits. Full-time apprenticeship with a public or private historical agency or institution of regional or national significance. Internships offered during the summer months and may be paid. Enrollment limited to history students in the public history and historic preservation program.

606 **Public History Practicum.** Three credits. Prerequisite: HIST 585 or consent of the instructor. Supervision of local work-related experience and applied research in area public or private historical agencies.

607 **Historical Inquiry.** Three credits. An introduction to history's major schools of thought. Through reading, class discussion, and essays, students explore critical interpretations in American, European, and non-Western history.

608 **Seminar in Historical Discourse.** Three credits. Sharpens comprehension of historical interpretation by exploring, through reading, research, and class discussion, possible alternative explanations for specific historical events and themes.

609 **Selected Readings in History.** Three credits. A common selection of historiographical works that raise issues common to all historians and that discuss history, historical processes, and historical-mindedness. Students will discuss these works and perhaps also write critical analyses of them.

629 **Seminar in European Women's History.** Three credits. Investigates aspects of women's lives in Europe. Countries and time periods covered selected by the instructor. Topics include women and religion, women and war, women and the family, and the impact of ethnicity, class, nationality, gender, and race on European women's lives.

640 **Seminar in the Third Reich.** Three credits. Preparation for students to think critically, research competently, and write intelligently about the history of National Socialist Germany.

641 **Seminar in the Old South.** Three credits. Examines the major secondary works which have shaped our understanding of the colonial and antebellum South.

642 **Seminar in American Sections: The New South.** Three credits. Readings and research in aspects of the American South since 1865.

650/750 **Seminar in Colonial and Early American History to 1800.** Three credits. Readings, discussion, reports, and independent study examining selected aspects of institutional and intellectual developments to 1800.

652/752 **Seminar in Jacksonian America.** Three credits. Exploration of a variety of social, economic, political, and cultural topics in the Jacksonian era and an analysis of the relationship between these topics and similar events abroad.

653/753 **Seminar in American Social History.** Three credits. Prerequisite: Instructor's permission required. Focuses on selected topics in American social history through directed readings, research, and discussion.

654 **Seminar in American Women's History.** Three credits. Focuses on selected topics in American women's history through directed readings, research, and discussion.

662/762 **Seminar in Recent American History.** Three credits. The bibliography, interpretation, and selected topics of the history of the United States since 1900.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

668/768 **Seminar in State and Local History.** Three credits. An intensive inquiry into sources of state and local history. Several research papers using primary materials required.

669/769 **Selected Studies in American History.** One to three credits. Intensive reading on a carefully defined topic in American history to be selected by the student in conference with the instructor.

670/770 **Seminar in Afro-America.** Three credits. Selected topics in Afro-American history. Emphasis on the post-Reconstruction period of United States history.

671/771 **Seminar in Latin America.** Three credits. Selected topics in the social, economic, and political development of Latin America.

672/772 **Seminar in American Diplomatic History.** Three credits. Selected topics of U.S. diplomatic history treated in depth. Conflicting scholarly interpretations are analyzed and diplomatic source materials are consulted. Formal paper required.

673/773 **Seminar in Nineteenth-Century Europe.** Three credits. Selected topics. A research paper using primary materials required.

674/774 **Seminar in Recent European History.** Three credits. A combined readings and research seminar of twentieth-century Europe. The readings will be over several major topics. The research will involve thorough knowledge and use of available materials—primary and secondary—on each student-selected topic.

678/778 **Seminar in American Cultural and Intellectual History.** Three credits. Readings and research in selected topics from the colonial period to the present.

679/ 779 **Selected Studies in European History.** One to three credits. In-depth reading on a well-defined topic in European history to be selected by the student in conference with the instructor.

682 **Seminar in American Religious History.** Three credits. Specific themes in the development of religion in America explored through directed readings, research, writing, and discussion.

685/ 785 **Seminar in Historic Preservation.** Three credits. Readings and research on selected topics related to the history, organization, and administration of historic preservation in the United States and to the use of the community as a classroom.

688 **Museum Seminar.** Three credits. In-depth analysis of museum management issues from acquisitions and collections to curatorial care and exhibitions. Includes advanced problem-solving for museum staff and consideration of ethical issues such as repatriation of artifacts.

689 **Cultural Resources Seminar.** Three credits. Intensive study of cultural resource preservation planning and protection using National Park Service themes and definitions for history and prehistory. Emphasizes ethnic diversity in evaluating historic sites, linear parks, heritage trails, and national monuments.

692/ 792 **Seminar in the Far East.** Three credits. The bibliography-interpretation and selected topics in the history of China and Japan.

694/ 794 **Seminar in American Sections: The West.** Three credits. Major developments in Western history; the leading historians of the West.

696/ 796 **American Material Culture.** Three credits. Intensive study of cultural heritage resources available in the local community and methods for identifying, analyzing, and incorporating them into existing social studies and history courses.

760/ 761 **History Internship.** One to three credits. Students are given careful supervision in actual teaching experiences.

764 **Dissertation Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of dissertation. Once enrolled student should register for at least one credit hour of doctoral research each semester until completion. S/U grading.

Department of Human Sciences

Karla V. Hughes, Chair
Ellington Human Sciences Building 100

The Department of Human Sciences offers a Master of Science in Human Sciences with a choice of two concentrations: Child Development and Family Studies or Nutrition and Food Science. In addition, the department cooperates with the Schools/Departments of Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; and Engineering Technology and Industrial Studies in offering the Master of Vocational-Technical Education (M.V.T.E.) and offers a graduate minor.

For unconditional admission, an undergraduate grade point average (GPA) of 2.75 is required. Normally, a test score of either 800 on the Graduate Record Exam or 35 on the Miller Analogies Test is recommended. Conditional admission may be granted for students not meeting unconditional admission requirements. Students who are admitted on a temporary conditional basis will be expected 1) to complete 9 semester hours in the Human Sciences Department with a B or better with 6 of the 9 hours at the 600 level and 2) to successfully complete a departmental admission review. Letters of recommendation may be required.

Requirements for the Master of Science (500 and 600 level)

Candidate must

1. have completed an undergraduate minor in Child Development and Family Studies or Nutrition and Food Science or the equivalent;
2. complete 33 hours including H SC 653, 662, and a major of 18 hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours:
   a. a concentration in Child Development and Family Studies to include CDFS 630 or 631, 632, and 633, or
   b. a concentration in Nutrition and Food Science to include N FS 620, 621, and 622 or 623;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. complete an approved research tool with grade of C or better (PSY 628 or STAT 616);
5. complete a thesis (H SC 664);
6. successfully complete a written comprehensive exam (may be taken no more than twice);
7. complete and submit an article for publication to a peer-reviewed journal based on thesis research is recommended.

Candidates may select a 12-hour minor with approval of the advisor as defined on page 19 of the Graduate Catalog.

Courses in Human Sciences [H SC]

504 **Seminar in Human Sciences.** Prerequisite: Permission of chair. Individual research and/or analysis of contemporary problems and issues in a concentrated area of study. For advanced students.
A. **Human Development-Family Life.** Three credits.
B. **Foods-Nutrition.** Three credits.
C. **Clothing-Textiles.** Three credits.
D. **Housing-Design.** Three credits.

505 **Advanced Problems in Human Sciences.** Prerequisite: Permission of chair. Provides an opportunity for advanced students to do independent study or conduct research in their areas of concentration. One hour seminar per week plus independent study in:
A. **Human Development-Family Life.** Three credits.
B. **Foods-Nutrition.** Three credits.
C. **Clothing-Textiles.** Three credits.
D. **Housing-Design.** Three credits.

506 **Readings in Human Sciences.** One to three credits. Prerequisite: Permission of chair. Selected readings of current trends, developments, and research in human sciences of interest to teachers and students. One hour seminar per week and independent study.

541 **Consumer Economics.** Three credits. Consideration of theoretical economics as related to the family. An overview of the choices available and the decision-making process confronting the family in the American economy.

542 **Personal and Family Management.** Three credits. Management theories applied to personal and family resources throughout the life cycle. Emphasis on the development of knowledge from which to draw conclusions about the financial elements of life. Offered once a year.

543 **Resource Management.** Three credits. Opportunity to coordinate the many areas of human sciences in the solution of individual and group management problems.

545 **Professionalism in Consumer Services.** Three credits. The role, functions, and responsibilities of consumer services professionals employed in business, government, and other organizations.

650 **Issues and Trends in Human Sciences.** One to three credits. An in-depth analysis of one or more current issues or trends in human sciences. Topics will vary.

652 **Public Policy on Consumer and Family Issues.** Three credits. The ideological roots, impact, and effectiveness of family policy. Family well-being in the areas of health, child care, care of the elderly and disabled, and poverty examined in relation to the development of public policy.

653 **Effective Program Management.** Three credits. Integration of human sciences concepts and content with the principles of program management, including planning, organization, staffing, implementation, and evaluation.

662 **Research Methods in Human Sciences.** Three credits. Introduction to methods and tools of research. Selection and statement of research problems, formulation of research proposal.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

Courses in Textiles, Merchandising, and Design [TXMD]

513 **History of Costume.** Three credits. Survey of clothing and design from ancient to modern times; consideration given to social economic, and cultural conditions reflected in dress.

517 **Social Aspects of Clothing.** Three credits. Principles of sociology and psychology applied to the study of clothing behavior. Research methods for studying socio-psychological aspects of clothing included. Offered once a year.

Courses in Nutrition and Food Science [N FS]

520 **Diet and Disease.** Three credits. Prerequisites: BIOL 308, N FS 427. Nutritional problems in disease and modifications of normal diet to meet dietary requirements of pathological conditions. Offered once a year.

521 **Nutrition in Aging.** Three credits. Prerequisite: N FS 124 or 222. Nutritional needs of elderly individuals and how these requirements are affected by physiological, pathological, and socioeconomic changes associated with aging. Emphasis on assessment, nutrition counseling skills, and resources to assist elderly individuals with adequate nutrient intake. Offered once a year.

522 **Food Systems Management I.** Three credits. Prerequisite: N FS 320 or 321 or permission of instructor. Principles and production of quantity foods. Emphasis on types of food service systems, delivery systems, menu planning and evaluation, procurement, receiving, quality control, inventory, cost containment, safety, and sanitation. Five hours per week.

524 **Experimental Food Study.** Three credits. Prerequisites: N FS 320 and CHEM 303 or permission of instructor. Chemical and physical factors affecting the flavor, texture, color, and appearance of food. Emphasis on evaluation of sensory qualities of food using subjective and objective measurements and new food product development. Offered once per year.

525 **Child Nutrition.** Three credits. Prerequisite: N FS 124 or 222. Nutritional needs during pregnancy, infancy, and childhood related to physical and mental development. Emphasis on cultural, social, and psychological aspects of the development of food patterns and nutrition education resources.

526 **Food Safety Issues from Production to Consumption.** Three credits. Food safety issues that impact food production, food storage and transportation, food processing, and food consumption within food production facilities, the home, and food service facilities. Consumer concerns evaluated based on risk theory and scientific evaluation of safety, including decision-making through critical thinking. Food standards and regulations designed to improve safety of food also discussed.

527 **Advanced Nutrition.** Three credits. Prerequisite: N FS 124 or 222. Nutrient utilization, cellular metabolism, and nutritional status assessment. Participation includes seminar presentation on a current issue in nutrition. Offered once a year.

528 **Food Systems Management II.** Three credits. Functions of management applied to food service industry. Emphasis on systems approach to food service operation, organizational structure, personnel management, leadership and management styles, work improvement, and labor relations. Offered once a year.

529 **Dietetic Practicum.** Six credits. Prerequisites: N FS 420 and 422. Practical preparation in clinical dietetics. Clinical experience provided with the cooperation of Middle Tennessee Medical Center and other facilities. For dietetics students only. Offered summer only.

580 **Diet and Disease Seminar.** One credit. To be taken concurrently with N FS 520. Nutrition and Food Science majors only. Practice in applying the knowledge base acquired in N FS 520 to structured case studies and development of the critical thinking skills needed to design accurate and systematic nutrition care plans in the clinical setting.

620 **Metabolism of Carbohydrates, Lipids, and Proteins.** Three credits. Prerequisite: CHEM 325 or equivalent. Sequential to N FS 527 or equivalent. Advanced study of carbohydrates, lipids, and proteins with emphasis on the metabolic interactions at the cellular, tissue, and organ levels. Offered alternate years.

621 **Vitamin and Mineral Metabolism.** Three credits. Prerequisite: CHEM 325 or equivalent. Sequential to N FS 527 or equivalent. Metabolic functions and mechanisms of micronutrient action in human nutrition with an emphasis on physiological requirements, assessment techniques, and interrelationships in disease prevention. Offered alternate years.

622 **Food Industry Applied Nutrition.** Three credits. Integration of food technological considerations, nutrition attributes, consumer perceptions, and socio-demographic influences to determine food choice, and thus diet quality.

623 **Advanced Clinical Nutrition.** Three credits. Sequential to N FS 520 and 527. Integration of the principles of basic biological diseases in the pathogenesis, diagnosis, and management of the nutritional aspects of disease including nutritional assessment and dietary implication in the etiology of disease.

629 **Clinical Dietetics.** Six credits. Planned educational experiences in administration of food service systems and experiences in a health care facility applying principles of normal and clinical nutrition to nutritional problems occurring throughout the life cycle.

Courses in Child Development and Family Studies [CDFS]

514 **Violence in the Family.** Three credits. (Same as SOC 514.) Causes, dynamics, and consequences of violence in the family. Includes the discussion of violence toward children, spouses, dating partners, siblings, and elders. Emphasizes the social conditions which lead to these types of violence.

530 **Nursery School Practicum.** Three credits. Prerequisites: CDFS 235, 331, 437 or permission of instructor. Advanced information and skills working with three- and four-year olds. Lab interaction with children; planning and implementation of curriculum. Three-hours laboratory plus two-hour seminar per week.

533 **Primary Practicum.** Three credits. Prerequisites: CDFS 430, 438; ELED 225, 325; admission to teacher education. Advanced knowledge and skills in working with kindergarten and primary age students. Consists of field experiences in the appropriate development and implementation of curriculum in kindergarten and one other primary grade. Three hours laboratory and two hours seminar per week.

534 **The Contemporary Family.** Three credits. Prerequisite: CDFS 332 or permission of instructor. An ecological approach to the study of contemporary issues, problems, questions, and lifestyles as they relate to families and individuals.

535 **Parenting.** Three credits. Developing knowledge and understanding of parenting and parent/child interaction theories. Examination and development of parent education programs.

536 **Day Care Perspectives.** Three credits. Prerequisites: CDFS 235 and 331 or permission of instructor. Examination of diverse day care settings and their influence on human development. Emphasis on the organization/administration of day care programs. Participation in day care center experiences required. Three hours plus one hour observation per week.

537 **Effective Instruction (Birth - 5 years).** Three credits. Prerequisites: CDFS 235, 331, or permission of instructor. A comprehensive exploration of the knowledge and skills necessary for designing and implementing curricula appropriate for programs serving children birth to five years.

538 **Infant/Toddler Practicum.** Three credits. Prerequisites: CDFS 235, 331, and 437/537 or permission of instructor. Advanced information and skills in working with infants and toddlers (birth to three years). Lab participation involving interactions with children as well as planning and implementing curriculum required. Three-hour laboratory and a two-hour seminar per week.

539 **Families in Later life.** Three credits. Prerequisite: Human Sciences majors - CDFS 332; Sociology majors - SOC 260; or permission of the instructor. Examination of families in later life from an ecological approach with emphasis on family forms and relationships.

630 **Application of Child Development Principles I.** Three credits. A comprehensive exploration of human growth and development from conception to age six. Recognizing and assessing developmental ages and stages as well as special needs is an integral part of this course.

631 **Application of Child Development Principles II.** Three credits. Prerequisite: CDFS 630 or equivalent. Advanced study of the child from the age of six through adolescence from a holistic perspective.

632 **Families at Risk.** Three credits. Prerequisite: CDFS 332 or permission of the instructor. The dynamics, context, and overall impact of factors which place families at risk. Methods by which family members cope with normative and/or catastrophic stressor events analyzed from a variety of theoretical perspectives.

633 **Theories of Child Development and Family Relations.** Three credits. The advanced study of individual and family theory, as well as theory principles and evaluation criteria.

670 **Practicum in English as a Second Language for Pre K-3.** One credit. Includes ten hours field experience in the ESL classroom with Pre K-3 students from different cultures.

Courses in Family and Consumer Sciences Education [FCSE]

550 **Occupational Field Experience.** Three credits each. Prerequisite: Consent of instructor. Directed participation in planned and supervised occupational experiences of eight hours field experience per week. Must apply previous semester.

A. **Care and Guidance of Children.** Three credits.
B. **Food Management, Production, and Services.** Three credits.

554 **Teaching Home Economics.** One to six credits. Synthesis and application of relevant concepts relating to educational planning; changes relating to the development of effective home economics education programs. A maximum of six semester hours credit may be applied toward a degree.

555 **Curriculum Development.** Three credits. Review of recent advances in home economics education. Analysis and evaluation of selected topics, materials, and methods in terms of their appropriateness for reaching curriculum objectives in home economics.

556 **Problems in Teaching Materials.** One to three credits. Prerequisite: Permission of chair. Application of principles and techniques involved in the selection and preparation of effective teaching materials and visual aids.

557 **Occupational Home Economics Seminar.** Three credits. Prerequisite: Consent of instructor. Examination and analysis of program development, execution, and evaluation in a selected occupational area.

Courses in Interior Design [IDES]

570 **History of Interiors.** Three credits. Historical interiors: survey analysis, application. Emphasis on major design characteristics of interior furnishing styles. Offered once a year.

571 **Survey of Contemporary Interior Design.** Three credits. Prerequisite: IDES 470/570 or consent of instructor. Development of contemporary interiors from the early nineteenth century to the present with consideration given to style characteristics, cultural influences, designers, and relationships among styles. Offered once a year.

Department of Management and Marketing

Jill Austin, Chair
Business and Aerospace Building N121D

The Department of Management and Marketing offers courses in management and marketing in the Master of Business Administration degree. The associate dean and director of graduate business studies serves as advisor for the Master of Business Administration (page 56).

Courses in Management [MGMT]

General Management [MGMT]

600 **Management and Operations Concepts.** Three credits. Concepts of the management functions of planning, organizing, leading, and controlling as applied to managing people in organizations. Production and operations management concepts with emphasis on using quantitative models for decision making. Prerequisite for M.B.A. program. May not be used for elective credit in graduate business degree program.

660 **Study of Organizations.** Three credits. Prerequisite: MGMT 361 or 600. Behavioral science concepts and research in the management of organizations; theories dealing with interpersonal relationships, motivation systems, group dynamics, communications, and authority related to organizational behavior, control, and structure problems.

666 **Seminar in Organization Development.** Three credits. Prerequisite: MGMT 361 or 600. Diagnostic approaches for effecting planned changes in organizations. Emphasis on the individual and personal development of the student to be more effective in managing change and innovation.

667 **Seminar in Management.** Three credits. Prerequisite: MGMT 361 or 600. In-depth study of current developments in management theory and practice. An evaluation of contemporary thought on managerial roles in modern conglomerates and a comparative analysis of this role in specialized organizations and across variations in national and international operative environment. Recent methodology in management and organization studies.

674 **Leadership and Motivation.** Three credits. Prerequisite: MGMT 361 or 600. Issues in leadership and motivation in business organizations. An examination of the theoretical framework for leadership and motivation processes serves as foundation. Emphasis on practical issues and applications of leadership development and motivation.

675 **Business Ethics.** Three credits. Prerequisite: MGMT 361 or 600. Impact of individual values and ethics on the management of organizations. Topics include legal and ethical aspects of dealing with organization stakeholders: stockholders, consumers, employees, and the general community. Emphasis on using ethical theory to make good business decisions.

677 **International Management.** Three credits. Prerequisites: MGMT 361 or 600 and MKT 382 or 600. Major issues associated with the formulation and implementation of corporate strategy for international and global operations. Emphasis on the understanding of global environmental forces surrounding international business operations and the management issues facing global organizations.

679 **Problems in Management.** Three credits. Prerequisite: 21 graduate hours and/or approval of department chair. Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of an approved faculty member.

Human Resources [MGMT]

651 **Current Problems in Human Resource Management and Industrial Relations.** Three credits. Prerequisite: MGMT 361 or 600. Investigation of current problems. Emphasis on current theory, problems, and practices in the public and private sector. Consideration of legal and political environment stressed as related to management policy formulation.

668 **Seminar in Human Resources Management.** Three credits. Prerequisite: MGMT 361 or 600. Focus on the responsibility of all managers with respect to the effective development of human resources. The responsibility of all functional areas in the human resource department or impinging forces such as technology, organized labor, and government legislation examined along with the emerging concepts, problems, and theories supported by research in the field.

Operations [MGMT]

665 **Operations Management.** Three credits. Prerequisite: MGMT 362 or 600. Strategic and tactical decisions involved with planning, operating, and controlling the operations functions in a firm. Emphasis on problem identification and solution.

670 **Production and Operations Management Strategy.** Three credits. Prerequisite: MGMT 362 or 600. Focuses on operations strategy concepts and operations management as a competitive weapon. Topics include global production and operations management strategy, capacity of facilities, vertical integration, performance controls, and the importance of manufacturing for overall business strategy.

676 **Total Quality Management.** Three credits. Prerequisites: MGMT 361 and 362 or 600. Examination of the major total quality management philosophies; consideration of implementation issues; quality costs, off- and on-line tools and techniques; vendor certification.

Courses in Marketing [MKT]

600 **Marketing Concepts.** Three credits. A survey of the functions, processes, and institutions involved in the creation, promotion, pricing, and distribution of consumer and industrial goods and services with an emphasis on the decision-making process. **May not be used for elective credit in graduate business degree program.**

680 **Marketing Management.** Three credits. Prerequisite: MKT 382 or 600. An analytical managerial approach to the marketing activities of a business enterprise. Emphasis on problem solving and marketing simulation.

681 **Promotional Strategy.** Three credits. Prerequisite: MKT 382 or 600. Promotional goals, plans, and concepts in marketing; the role of marketing communication in society; the organization budgeting, and scheduling of promotion; innovation and the adoption process; managerial decision making in the promotional mix.

682 **Market Behavior.** Three credits. Prerequisite: MKT 382 or 600. Behavioral science concepts and applied research relating to the process of buyer behavior. Topics include cognition, motivation, personality, group influence, social class, culture, and behavior models.

683 **Marketing Systems** Three credits. Prerequisite: MKT 382 or 600. An analytic, decision-oriented study of marketing channels. Problems of integrating relevant variables within the marketing system to achieve optimum returns for all members.

684 **Marketing Seminar: Current Topics in Marketing.** Three credits. Prerequisite: MKT 382 or 600. Theoretical bases of marketing concepts, principles, and strategies; the development, acceptance, and possible future direction of emerging concepts and practices.

685 **International Marketing Seminar.** Three credits. Prerequisite: MKT 382 or 600. Difference in market arrangements and in legal, cultural, and economic factors in different countries. Planning and organizing for international marketing operations, forecasting, and analyses; interrelationships with other functions; strategy of product pricing, promotion, and channels.

686 **Marketing Research and Decision Making.** Three credits. Prerequisite: MKT 382 or 600. Investigates research methods for providing marketing information to assist managers in making better decisions, particularly in identifying marketing opportunities and problems. Specifically focuses on understanding both primary and secondary research processes and developing an ability to evaluate primary and secondary sources of information.

689 **Problems in Marketing.** Three credits. Prerequisites: MKT 600 or 382 and approval of department chair. Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of an approved graduate faculty member. Not approved or substituted for core requirements. Approval of supervisory faculty member and department chair must be obtained in writing before student will be allowed to register for independent study.

Courses in Business Administration [B AD]

610 **International Research.** One to six credits. Prerequisite: Approval of graduate faculty, department chair, and director of graduate business studies. Independent research in international business. A comprehensive report required. Report should be completed eight weeks after the beginning of the semester for those students planning an internship.

698 **Business Policy.** Three credits. Advanced problem analysis requiring the synthesis of theory and practice gained from both the functional and managerial areas of study with emphasis on formulation, integration, and implementation of policies and strategies of the firm. This is a capstone course and must be taken after all core requirements or by consent of the director of the M.B.A. program in the last semester prior to graduation.

Mass Communication

Geoffrey Hull, Assistant Dean for Graduate Studies
Bragg Mass Communication 248

The College of Mass Communication offers the Master of Science degree in Mass Communication and a minor at the graduate level. Normally, a score of 900 on the Graduate Record Examination is required for admission to the degree program.

Requirements for the Master of Science

The degree is designed for media professionals in fields such as advertising, electronic media, journalism, publishing, or recording industries seeking to broaden their understanding of the field of mass communication and to develop research and management skills relevant to decision making in media-related organizations. It is also appropriate for those who wish to pursue the doctoral degree.

Students may choose from two options organized around the thesis/professional project or the comprehensive examination. The thesis/project option is designed for the student seeking to concentrate studies in a particular area and to experience in-depth independent research. This option has 12 hours of core courses, 12 hours of limited choice electives, 6 hours of free electives, and the capstone thesis or project. The thesis results in the production of traditional academic research; the professional project results in the application of research knowledge to a professional production or other project. The examination option is designed for the working person who is integrating graduate education and professional life and for the traditional student seeking a broad conceptual grounding in mass communication. The examination option has 21 hours of required courses, 9 hours of limited choice electives, 3 hours of general electives, a 3-hour capstone course, and the comprehensive examination.

Thesis and Project Options

Candidate must

1. have earned 18 credits in the social sciences (anthropology, economics, history, political science, psychology, sociology);
2. provide evidence of a minimum of one year of full-time professional experience in a media-related position. In exceptional cases, a student without sufficient professional experience may be admitted on the condition he or she completes an approved program of skills courses and/or an internship in a mass communication field.
3. complete 36 semester hours as follows:
   Required courses:
   MC 600 The Science of Communication
   MC 601 Cultural Studies in Communication
   MC 611 Quantitative Research Methods (required research tool)
   MC 612 Qualitative Research Methods (required research tool)
   MC 664 Thesis Research OR
   MC 665 Professional Project (6 hours)
   Two of the following courses:
   MC 620 Media Management
   MC 623 Media in the Marketplace
   MC 625 Media Organizations
   At least two of the following:
   MC 630 Media Law and Ethics
   MC 632 Mass Media and Public Opinion
   MC 635 Cultural Studies in Popular Music
   MC 638 News, Culture, and Democracy
   MC 640 Communication and Technology
   6 hours of approved electives (taken inside or outside the College of Mass Communication as benefits research orientation and no more than three credits can be taken at the 500 level)
4. file a Candidacy Form with the Graduate Office before the completion of 24 hours;
5. submit and defend an acceptable thesis or project.

Exam Option

Candidate must

1. have earned 18 credits in the social sciences (anthropology, economics, history, political science, psychology, sociology);
2. provide evidence of a minimum of one year of full-time professional experience in a media-related position. In exceptional cases, students without sufficient professional experience may be admitted on the condition he or she completes an approved program of skills courses and/or an internship in a mass communication field.
3. complete 36 semester hours as follows:
   Required courses:
   MC 600 The Science of Communication
   MC 601 Cultural Studies in Communication
   MC 611 Quantitative Research Methods (required research tool)
   MC 612 Qualitative Research Methods (required research tool)
   MC 620 Media Management
   MC 623 Media in the Marketplace
   MC 625 Media Organizations
   MC 659 Case Studies in Media Management OR
   MC 660 Seminar in Applied Research
   At least three of the following:
   MC 630 Media Law and Ethics
   MC 632 Mass Media and Public Opinion
   MC 635 Cultural Studies in Popular Music
   MC 638 News, Culture, and Democracy
   MC 640 Communication and Technology
   3 hours general elective
4. file a Candidacy Form with the Graduate Office before the completion of 24 hours;
5. pass a written comprehensive examination.

Courses in Mass Communication [MC]

600 **The Science of Communication.** Three credits. Quantitative and qualitative research dealing with the uses and effects of mass communication.

601 **Cultural Studies in Communication.** Three credits. Relationship of communication to culture with particular emphasis on the everyday life contexts of media audiences.

610 **Research Design.** Three credits. Formulating research questions, developing operational definitions, selecting measures. Analysis of surveys, observational techniques, and interpretive studies.

611 **Quantitative Research Methods.** Three credits. Prerequisite: MC 600. Techniques of communication research emphasizing survey and experimental methods. Sampling, questionnaire construction, data gathering, and statistical methods.

612 **Qualitative Research Methods.** Three credits. Prerequisite: MC 601. Techniques of communication research emphasizing participant observation, ethnography, and focus groups. Interviewing, observation, problems of generalization, ethics of fieldwork.

620 **Media Management.** Three credits. Application of the case study method to understanding the role of management and managers in the delivery of media to the marketplace. Application of management and organization theory to the problems of the mass media.

623 **Media in the Marketplace.** Three credits. The use of various forms of audience research in media organizations. Social and ethical conflicts related to marketing.

625 **Media Organizations.** Three credits. An examination of the structure of media organizations. Roles of creators, producers, distributors, publics, institutional frameworks.

630 **Media Law and Ethics.** Three credits. An overview of the laws relating to the media. Ethical and social dimensions of law. Emphasis on case studies.

632 **Mass Media and Public Opinion.** Three credits. Prerequisite: MC 600. Theories of democracy, the nature of a "public" and of "public opinion." Readings in the classics on mass media and democracy and in public opinion research.

635 **Cultural Studies in Popular Music.** Three credits. Prerequisite: MC 601. Relationship of popular music to society with attention to institutional, textual, and audience studies.

638 **News, Culture, and Democracy.** Three credits. Prerequisite: MC 601. Critical examination of the news process with attention to the relationship of economic, cultural, and political constraints.

640 **Communication and Technology.** Three credits. Readings in the cultural history of media technology explore technological change and social development as a system of interrelated social relations and practices.

643 **Special Topics in Communication.** Three credits. An in-depth analysis of one or more current issues or sub-disciplines. Topics will vary from semester to semester.

659 **Case Studies in Media Management.** Three credits. A capstone course that emphasizes the integration of communication theory and method with management philosophy in the planning of strategy for media organizations. Emphasis on case studies and student presentations. Requires consent of director of graduate studies or instructor.

660 **Seminar in Applied Research.** Three credits. A capstone course that emphasizes the application of various research methodologies to decision making in media organizations.

661 **Directed Reading and Research.** Three credits. Prerequisite: Permission of graduate director. Completion and execution of a research project under the direction of a faculty advisor. P/F grading.

664 **Thesis Research.** One to six credits. Under the direction of a faculty advisor and graduate committee, the student will plan and execute an original research or creative project. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

665 **Professional Project.** One to six credits. Completion and execution of a professional project under the direction of a faculty advisor and graduate committee. Once enrolled, student should register for at least one credit hour of master's project each semester until graduation. S/U grading.

Department of Mathematical Sciences

Curtis K. Church, Chair
Kirksey Old Main 223D

The Department of Mathematical Sciences offers the Master of Science with a major in Mathematics, the Master of Science in Teaching with a major in Mathematics, and a minor in Mathematics at the graduate level.

Three concentrations are offered under the Master of Science: General Mathematics, Industrial Mathematics, and Research Preparation. Two concentrations are offered under the Master of Science in Teaching: Middle Grade Mathematics and Secondary Mathematics.

Admission to either master's program requires an expected GRE score of 900 or an MAT score of 44.

Requirements for the Master of Science in Mathematics

The Master of Science in Mathematics requires a core of 9 hours plus 18 hours of specified courses in the department and a 9-hour cognate of supporting courses. Every candidate is required to declare a concentration selected from General Mathematics, Industrial Mathematics, or Research Preparation.

All candidates must

1. have completed an undergraduate prerequisite of at least 21 hours of college-level mathematics including calculus; any deficiency should be removed during the first year of study;
2. complete 36 hours including the core (9 hours), a concentration (18 hours), and a cognate area (9 hours);
3. complete at least 30 hours at the graduate level with at least 21 hours at the 600 level;
4. participate in the graduate seminar and give an oral presentation of an approved topic;
5. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
6. successfully complete a written comprehensive examination (may be taken no more than twice).

M.S. Core

Each candidate for the Master of Science in Mathematics must complete the following core (9 hours):

MATH	612	Advanced Linear Algebra
MATH	617	Sets and Logic
MATH	619	Analysis I

Concentration: General Mathematics

Students desiring a broad background in mathematics should pursue this concentration. In addition to the core, students must complete the concentration and a cognate as outlined below.

Concentration

Eighteen (18) hours from approved courses in mathematical sciences, including at least one course from each of three different groups:

Algebra/Number Theory: MATH 542, 553, 614A, 651
Analysis: MATH 614B, 620, 621, 625
Combinatorics/Graph Theory: MATH 570, 670
Geometry/Topology: MATH 527, 640, 614C
Industrial Mathematics: MATH 531, 532, 626, 627, 630, 631

Cognate

Nine (9) additional hours approved by advisor

The master's thesis is an option in this concentration.

Concentration: Industrial Mathematics

Students interested in positions in industry or further graduate work in applied mathematics should pursue this concentration. In addition to the core, students must complete the concentration and a cognate as outlined below.

Concentration

Eighteen (18) hours including MATH 531, 532, 626, and 627 plus two from MATH 621, 630, 631, 640, 641, 670, or STAT 616, 618.

Cognate

Nine (9) additional hours chosen from the above list; MATH 664, and/or courses from relevant disciplines approved by advisor.

The master's thesis is an option in this concentration.

Concentration: Research Preparation

Students wishing to pursue the Ph.D. in mathematics should choose this concentration. In addition to the core, students must complete the concentration and a cognate as outlined below.

Concentration

Eighteen (18) hours including MATH 527, 553, 570, 620, 614A, and 621.

Cognate

Nine (9) hours including MATH 664 and six (6) additional hours approved by advisor.

Requirements for the Master of Science in Teaching

This degree should be pursued by students interested in teaching. Admission is open to those licensed as teachers as well as those seeking initial licensure.

Candidates seeking initial licensure must meet the major requirements listed below, satisfy a professional education component, and meet discipline-related requirements. The candidate should contact the chair of the Department of Educational Leadership for the professional education component and the chair of the Department of Mathematical Sciences for the discipline-related requirements.

The Master of Science in Teaching requires the M.S.T. core of 9 hours plus 15 hours of specified courses in the department and a 12-hour cognate in professional education. Every candidate is required to declare a concentration in either Middle Grade or Secondary Mathematics.

All candidates must
1. complete 36 hours including the core (9 hours), a concentration (15 hours), and a cognate (12 hours);
2. complete at least 30 hours at the graduate-level with at least 21 hours at the 600-level;
3. file a Candidacy Form with the Graduate College prior to the completion of 24 hours credit;
4. successfully complete a comprehensive examination (may be taken no more than twice).

M.S.T. Core

Each candidate for the Master of Science in Teaching in Mathematics must complete the following core (9 hours):

MATH 632	Mathematical Problem Solving
MATH 638	Current Trends in Mathematics Education
MATH 690	Research in Mathematics Education

Concentration: Middle Grade Mathematics

Admission Requirements:

A candidate for admission to the Master of Science in Teaching program with a concentration in Middle Grade Mathematics must
1. hold a valid elementary teaching certificate;
2. have one year teaching experience;
3. submit three letters of recommendation;
4. have an acceptable GRE or MAT score. (A GRE of 900 or an MAT of 44 is expected.)

Any applicant not meeting these requirements may petition to the Mathematics Education Graduate Admissions Committee.

Degree Requirements:

In addition to the core, students must complete the concentration and cognate as outlined below.

Concentration
Fifteen (15) hours selected from MATH 562, 610, 633, 634, 635 and other courses in the department selected in consultation with advisor.

Cognate
Twelve (12) hours in the College of Education (determined jointly by the Departments of Mathematical Sciences, Educational Leadership, and Elementary and Special Education).

Concentration: Secondary Mathematics

Admission Requirements

A candidate for admission to the Master of Science in Teaching program with a concentration in Secondary Mathematics must
1. hold a valid secondary mathematics teaching certificate, or have completed 9 hours of mathematics past the calculus sequence;*
2. have three years teaching or related work experience;
3. submit three letters of recommendation;
4. have an acceptable GRE or MAT score. (A GRE of 900 or an MAT of 44 is expected.)

Any applicant not meeting these requirements may petition to the Mathematics Education Graduate Admissions Committee.

**NOTE:* Candidates seeking initial licensure may be required to complete additional hours in mathematics and/or professional education. (An advisor should be consulted.)*

Degree Requirements

In addition to the core, students must complete the concentration and cognate as outlined below.

Concentration
Fifteen (15) hours including STAT 519, MATH 617, and three other courses from the department selected in consultation with advisor.

Cognate
Twelve (12) hours in the College of Education (determined jointly by the Departments of Mathematical Sciences and Educational Leadership).

Courses in Mathematics [MATH]

501 **Concepts of Mathematics.** Three credits. Recommended for students preparing to become elementary school teachers. Topics include complex numbers, finite mathematical systems, linear equations and inequalities, functions and their graphs, introductory matrix algebra, interest and consumer credit, and microcomputer applications in the mathematics classroom.

527 **Introduction to Topology.** Three credits. Prerequisites: MATH 222 and a previous upper-division course in which the student has been required to write proofs. Fundamental concepts of topology including continuity, compactness, connectedness, separation axioms, and metric spaces.

531/ 532 **Numerical Analysis I and II.** Three credits each. Prerequisite: CSCI 318 or equivalent. Application of computer-oriented numerical algorithms to algebraic equations, differential and integral equations, and linear algebra. Rigorous mathematical treatment of error included.

539 **Introduction to Mathematics of Investment.** Three credits. (Same as ACSI 539.) Prerequisites: MATH 122 or 344 and one semester of probability/statistics or consent of instructor. Model and analyze investments in bonds, treasury bills, stocks, and other derivatives. Topics include obtaining the price of a bond as a function of interest rate, developing formulas for duration and convexity to study the sensitivity of price to interest rate, and mathematical modeling of investor preference and attitude toward risk.

542 **Number Theory.** Three credits. Divisibility congruences, quadratic residues, Diophantine equations, quadratic forms, and continued fractions.

547 **Introduction to Modern Algebra.** Three credits. A treatment of sets, relations, operations, and the construction of number systems in algebra.

551 **Abstract Algebra I.** Three credits. Introduces groups with a brief introduction to rings, integral domains, and fields.

553 **Abstract Algebra II.** Three credits. Prerequisite: MATH 451/551. Theory of rings, fields, integral domains, matrices, and vector spaces.

560 **Problems in Contemporary Mathematics.** One to six credits. Pass/Fail grading in specified sections.

562 **History and Philosophy of Mathematics.** Three credits. Prerequisites: Background in geometry, number theory, and/or symbolic logic helpful. The character of mathematical thought

by way of mathematical problems which have occupied successively the outstanding mathematicians of Babylon, Egypt, Greece China, the Renaissance, and modern times paralleled with a study of three schools of mathematical philosophy: intuitionism, logicism, and formalism. Open only to senior and graduate mathematics majors.

570 **Combinatorics and Graph Theory.** Three credits. Prerequisite: MATH 312 or 308. Selected topics in combinatorics and graph theory emphasizing combinatorial problem solving and algorithmic proof.

610 **Mathematics for Teachers.** Three credits. Mathematics as problem solving, communication, and reasoning. Connecting different fields of mathematics. Topics include number and number relationships, number systems and number theory, computation and estimation, patterns and functions, statistics and probability, algebra, geometry, measurement.

612 **Advanced Linear Algebra.** Three credits. Prerequisite: MATH 312. Continuation of linear algebra topics in MATH 312 including advanced topics in inner product spaces and structure of linear operators.

614A **Selected Topics of Modern Mathematics: Algebra.** Three credits. Prerequisite: MATH 553 or consent of instructor. Extension of previous work in algebra with emphasis on topics not treated in other courses.

614B **Selected Topics of Modern Mathematics: Analysis.** Three credits. Prerequisite: MATH 620 or consent of instructor. Extension of previous work in analysis with emphasis on topics not treated in other courses.

614C **Selected Topics of Modern Mathematics: Topology.** Three credits. Prerequisite: MATH 427/527 or consent of instructor. Extension of previous work in topology with emphasis on topics not treated in other courses.

617 **Sets and Logic.** Three credits. Includes topics in three categories: 1) Propositions, predicates, quantifiers, truth tables, tautologies, and methods of mathematical proof including mathematical induction. 2) Sets, relations, functions, graphs, cardinality, and the Axiom of Choice. 3) Applications of these foundations to selected results in algebra and analysis as time permits. It is recommended that this course be taken early in the graduate program.

619 **Analysis I.** Three credits. Prerequisite: MATH 425 or equivalent. Fundamental concepts of real analysis through rigorous treatment of limits, continuity, differentiation, and integration in one dimension.

620 **Analysis II.** Three credits. Prerequisite: MATH 619 or equivalent. A continuation of Analysis I. Basic theory of multi-dimensional calculus—limits, continuity, differentiation, integration, sequences, series, and convergence.

621 **Complex Variables.** Three credits. Prerequisite: MATH 620. Theory of functions of complex variables and their application in mathematics and physics.

623 **Teaching of Introductory College Mathematics.** Three credits. Foundations and pertinent topics in college algebra, trigonometry, analytic geometry, and calculus with emphasis on techniques of presentation.

625 **Real Analysis.** Three credits. Prerequisite: MATH 620. Lebesgue measure and Lebesgue integral, convergence theorems, functions of bounded variation, absolute continuity, mean convergence, introduction to abstract measure and integration theory.

626 **Advanced Differential Equations I.** Three credits. Prerequisites: MATH 323 and 425. Qualitative and quantitative analysis of systems of differential equations. Gradient systems, Sturm-Liouville problems. Elementary techniques for boundary value problems of partial differential equations.

627 **Advanced Differential Equations II.** Three credits. Prerequisite: MATH 626. Solution techniques for boundary value problems. Problems involve heat, wave, and potential equations. Topics include the method of characteristics, series solutions, integral transforms, and Green's functions.

630 **Optimization.** Three credits. Prerequisite: MATH 532 or consent of instructor. Constrained and unconstrained optimization problems, including the generalized least squares problem and Eigenvalue problems. Methods include orthogonalization, conjugate gradient, and quasi-Newton algorithms.

631 **Control Theory.** Three credits. Prerequisite: MATH 626 or consent of instructor. Vector space applications to system analysis; observability, controllability, and stabilization of systems; feedback systems; Lyapunov methods; optimal control, and the calculus variations.

632 **Mathematical Problem Solving.** Three credits. Prerequisite: Permission of instructor. A basis for reflection on teaching and learning mathematics. Problem-solving strategies and heuristics. Focuses on all branches of mathematics, providing an opportunity to synthesize mathematical knowledge.

633 **Algebra for Teachers.** Three credits. Prerequisite: Permission of instructor. Review and extension of algebraic skills and concepts as they relate to the teaching and learning of algebra. Focus on algebraic thinking and problem solving, algebraic systems, functions, graphing, and linear algebra.

634 **Geometry for Teachers.** Three credits. Prerequisite: Permission of instructor. Investigations into the foundations of plane, solid, and coordinate geometry, motion geometry, similarities and congruencies, measurement and the application of geometry. Instruction will model the suggested pedagogy appropriate for school mathematics.

635 **Probability and Statistics for Teachers.** Three credits. Prerequisite: Permission of instructor. Relation to school mathematics. Development of central tendency and variation, concepts of chance including sample space, randomness, conditional probability, and independence.

638 **Current Trends in Mathematics Education.** Three credits. Prerequisite: Permission of instructor. Innovative topics or critical issues related to the teaching and learning of mathematics. Including but not limited to history of mathematics education, pedagogical content knowledge, assessment and evaluation, and technologies.

640 **Advanced Geometry.** Three credits. Prerequisite: MATH 307 or consent of instructor. Detailed study of one or more of the various branches of geometry including non-Euclidean geometry, projective geometry, algebraic geometry, and differential geometry.

641 **Computer-Aided Geometric Design.** Three credits. Prerequisites: MATH 532 and 640 or consent of instructor. Parametric curves and surfaces; Bezier and B-spline interpolation and approximation techniques; visual smoothness and parameteriza-

tion for curves; Coons, Bezier and triangular patches; scattered data methods.

651 **Advanced Algebra.** Three credits. Prerequisite: MATH 553. Polynomial rings, theory of fields, vector spaces and intermediate group theory necessary for Galois theory, and Galois theory.

660 **Problems in Mathematics.** One to nine credits (in 660 A-L). Prerequisite: Mathematical maturity, preparation in the area, and normally nine semester hours of graduate study. Problems course dealing with theory methods and applications.
A. **Advanced Calculus**
B. **Number Theory**
G. **Mathematics of Finance**
H. **Mathematics of Life Contingencies**
I. **Numerical Analysis**
J. **Topology**
K. **Abstract Algebra**
L. **Combinatorics and Graph Theory**

661 **Introduction to Graduate Study.** Two credits.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

670 **Advanced Combinatorics and Graph Theory.** Three credits. Prerequisite: MATH 470/570. Selected topics in combinatorics and graph theory extending topics studied in MATH 470/570.

690 **Research in Mathematics Education.** Three credits. Prerequisite: Permission of instructor. An examination of factors influencing research and critical analyses of selected research in mathematics education. Studies representing different methodologies critiqued.

706 **Independent Study.** One to nine credits.

Courses in Statistics [STAT]

513 **Applied Statistics.** Three credits. Prerequisite: 2 years of high school algebra or equivalent. Topics include descriptive statistics, probability, and statistical inference. The inference unit covers means proportions and variances for one and two samples, one-way ANOVA, regression and correlation analysis, chi-square analysis, and topics in nonparametrics.

514 **Probability and Statistics.** Three credits. Prerequisite: STAT 513 or equivalent. Topics include multiple regression, variance component estimation, experimental design, covariate analysis, chi-square analysis, multiple comparisons, and nonparametrics. The experimental design topics include two-way ANOVA, factorial experiments, nested designs, and split plot designs.

519 **Mathematical Statistics II.** Three credits. Prerequisite: STAT 315 or equivalent. Theory of statistical inference. Topics include sampling distributions, decision theory, estimation, test of hypothesis, regression analysis, analysis of variance, and selected applications.

520 **Statistical Methods for Forecasting.** Three credits. Prerequisite: STAT 419. Application of the regression model in forecasting regression and exponential smoothing methods to forecast nonseasonal time-series, seasonal series and globally constant seasonal models, stochastic time series models; and forecast evaluation. (Prepares actuarial science students for the Society of Actuaries Exam #120 and Exam Part 3A administered by the Casualty Actuarial Society.)

536 **Regression Analysis.** Three credits. Prerequisite: STAT 315 or equivalent. Theory and application of regression models. Approaches to model building and data analysis treated. Computation and interpretation of results facilitated through use of statistical software packages.

537 **Nonparametric Statistics.** Three credits. Prerequisite: STAT 315 or equivalent. Statistical tests that require no assertions about parameters or about the form of the population from which the samples are drawn. A wide range of practical problems.

538 **Experimental Design.** Three credits. Prerequisite: STAT 315 or equivalent. Topics include one-way analysis of variance, multiple comparison, multifactor analysis of variance, and various practical issues in experimental design. Computation and interpretation of results are facilitated through the use of statistical software packages.

560 **Problems in Statistics.** One to six credits. Prerequisites: Senior standing and consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which STAT 560 is taken. Proposal must be approved prior to student taking the course. At the conclusion of the course, each enrollee must submit a written report to the department.

616 **Statistics.** Three credits. Mathematical statistics and applications, discrete and continuous data, statistical inferences.

618 **Statistical Inference.** Three credits. Prerequisite: STAT 616 or permission of instructor. Theory of estimation and hypothesis tests. Topics include minimum variance unbiased estimation, methods of estimation, most powerful tests, likelihood ratio tests, decision theory, and sequential test procedures.

660 **Problems in Statistics.** One to nine credits (in 660 C-F). Prerequisite: Mathematical maturity, preparation in the area and (normally) nine semester hours of graduate study. Problems course dealing with theory, methods, and applications.
C. **Mathematical Statistics**
D. **Regression Analysis**
E. **Non-parametric Statistics**
F. **Experimental Design**

Courses in Actuarial Science [ACSI]

500 **Calculus and Linear Algebra.** Three credits. Prerequisites: MATH 222, 312, and 425 or consent of instructor. Offers preparation for Exam #100 jointly administered by the Society of Actuaries and the Casualty Actuarial Society.

505 **Mathematics of Risk Management.** Three credits. Prerequisite: ACSI 439/539. For students obtaining a concentration in Actuarial Science. Offers preparation for Exam Nos. 5 and 6 administered by the Society of Actuaries under the new content requirements of the Society effective January 2000. Topics include mathematical modeling of volatility; pricing of bonds, stocks, and other derivatives with uncertainty; benchmark portfolios; asset/liability management for property/casualty insurers; liability associated with a financially distressed company. Heath-Jarrow-Morton and Cox-Ingersoll-Ross models will be studied.

506 **Mathematics of Options, Futures, and Other Derivatives.** Three credits. Prerequisites: ACSI 439/539 and 405/505. For students obtaining a concentration in Actuarial Science. Offers preparation for Exam Nos. 5 and 6 administered by the Society

of Actuaries under the new content requirements effective January 2000. Topics include risk management using options, interest rate swaps, interest rate caps, Black-Scholes analysis, Taylor series expansion to obtain hedge parameters, portfolio insurance, numerical procedures, interest rate derivatives, and use of Black's model.

510 **Probability and Statistics.** Three credits. Prerequisites: STAT 419 or consent of instructor. Offers preparation for Exam #110 jointly administered by the Society of Actuaries and the Casualty Actuarial Society.

539 **Introduction to Mathematics of Investment.** Three credits. (Same as MATH 539.) Prerequisites: MATH 122 or 344 and one semester of probability/statistics or consent of instructor. Model and analyze investments in bonds, treasury bills, stocks, and other derivatives. Topics include obtaining the price of a bond as a function of interest rate, developing formulas for duration and convexity to study the sensitivity of price to interest rate, and mathematical modeling of investor preference and attitude toward risk.

540 **Mathematics of Compound Interest.** Three credits. Prerequisite: 5 hours of calculus. Mathematical theory of investments and finance relating to bonds, annuities, insurance, compound interest etc. Recommended for students preparing for actuarial examination.

548 **Actuarial Mathematics I.** Three credits. Prerequisite: ACSI 540 or consent of instructor. Introduction to the mathematics of life insurance. Topics include measurement of mortality; life annuities, life insurance benefits and premiums; net level premium reserves, elementary loading and cash value formulas; special annuity and insurance benefits; population theory including the expectation of life function; multi-life functions, including joint-life and last survivor statuses, multiple-decrement functions, including multiple-decrement (service) and associated single decrement tables.

549 **Actuarial Mathematics II.** Three credits. Prerequisite: ACSI 448. This is the second course of a two-semester sequence; offers preparation for the Society of Actuaries Exam #150 or Exam Part 4A of the Casualty Actuarial Society. Topics chosen from net premium reserves, multiple life functions, multiple decrement models, valuation theory and pension plans, and insurance models, (including expenses, and nonforfeiture benefits and dividends).

550 **Mathematics of Compound Interest and Life Contingencies.** Three credits. Prerequisites: ACSI 440 or 449 or consent of instructor. Theory of Interest and Actuarial Mathematics. Offers preparation for the Society of Actuaries Exam #150 or Exam Part 4A of the Casualty Actuarial Society. Topics chosen from valuation theory of pension plans, insurance models, and nonforfeiture benefits and dividends.

560 **Problems in Actuarial Science.** One to six credits. Prerequisites: Senior standing and consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which ACSI 560 is taken. The proposal must be approved prior to student taking the course. At the conclusion of this course, each enrollee must submit a written report to the department.

601 **Credibility Theory and Loss Distributions.** Three credits. Prerequisite: STAT 519 or consent of instructor. Prepares students for Exam Part 4B of the Casualty Actuarial Society. Topics include Bayes Theorem and its relationship to credibility theory and analysis of statistical distributions for modeling insurance claims by size.

Department of Music

Roger Kugler, Chair
Wright Music Building 150

The Department of Music offers a Master of Arts degree in Music with specializations in conducting, music education, music theory/composition, and performance. A minor in music is offered at the graduate level.

Applicants seeking admission to the Master of Arts degree must submit scores of the Miller Analogies Test or the Graduate Record Exam. Candidates must have completed an undergraduate degree in music.

An audition is required of all students entering a graduate degree program in music. Students who do not pass the audition must register for MUAP 502, Private Instruction, until the audition requirements are satisfied. Students must perform an audition by the end of the first semester of study.

A music theory examination and a music history assessment are required of all candidates for admission. These assessments will be scheduled during the first week of class of the first semester of study. Students not meeting proficiency requirements are required to take additional course work. Any course work necessary to meet proficiency requirements does not count towards the M.A. degree.

Requirements for the Master of Arts

1. The Master of Arts degree in Music has three (3) options. The thesis option requires a minimum of 30 semester hours including the thesis. The recital option requires a minimum of 30 semester hours including the recital. Music education students are not eligible for the recital option. The non-thesis option requires a minimum of 36 semester hours. No more than 30 percent of the total degree hours may be dually listed (undergraduate/graduate) courses.
2. Six semester hours of a foreign language are required with the thesis/recital option. This requirement may be satisfied by undergraduate credits (with a grade of C or better) or by approved foreign language hours (with a grade of C or better) in the student's graduate program.
3. Two semesters of ensemble participation are required. No more than two hours of credit in ensembles may be applied toward the M.A. degree.
4. Prior to the completion of 24 semester hours, a Candidacy Form must be filed with the Graduate Office.
5. Candidates must pass both written and oral comprehensive examinations. These examinations are scheduled

during the student's last semester of study. Comprehensive examinations may be taken no more than twice.

6. Students choosing the recital option must complete 18 hours of course work before enrolling in MUAP 667, Graduate Recital.

Candidates for the M.A. degree in Music elect an area of specialization in one of the following: conducting; music education; music theory/composition; or performance.

All graduate students in the Master of Arts degree in Music take 12 hours of required core classes. 12 hours in the area of specialization, and 6 hours (12 hours, non-thesis/recital option) of electives.

Required Core Classes (12 hours)
MUHL 604 Twentieth-Century Music, 3 hours
MUTH 605 Analytical Techniques, 3 hours
MUSI 650 Aesthetics of the Arts, 3 hours
MUSI 662 Bibliography and Research, 3 hours

Areas of Specialization (12 hours)
MUED 601 Foundations of Music Education, 3 hours
MUSI 606 Advanced Conducting, 3 hours
and 6 hours from the following:
MUED 521 General Music Program K-6, 2 hours
MUED 522 Middle School Music, 2 hours
MUED 523 Secondary School Methods and Materials, 2 hours
MUED 524 Instrumental Rehearsal Problems, 2 hours
MUED 525 Advanced Marching Techniques, 2 hours

Music Theory/Composition Specialization
MUTH 614, 615, 616 Composition, 9 hours
MUAP 667 Graduate Recital, 3 hours

Performance Specialization
MUAP 667 Graduate Recital, 3 hours
MUAP 668, 669, 670 Private Instruction, 9 hours

Conducting Specialization
MUEN 570 Ensemble, 2 hours
MUSI 603 Conducting Problems and Score Interpretation, 2 hours
MUSI 606 Advanced Conducting, 3 hours
MUAP 667 Graduate Recital, 3 hours
and 2 hours from the following:
MUHL 568 Choral Literature, 2 hours
MUED 524 Instrumental Rehearsal Problems, 2 hours

Electives (6 hours thesis/recital option or 12 hours non-thesis option)

Courses in Music [MUSI]

503 **A-Z Problems in Music.** Two credits. Independent study conducted on selected music topics. (A maximum of six semester hours may be applied toward a degree.)

527 **Music Internship.** Three to six credits. Prerequisite: Permission of instructor. Examination and experiences in either the area of music industry, music education, or instrumental or choral conducting.

557 **The Body Intelligent: A Study of the Alexander Technique.** Two credits. (Same as SPEE 557.) For those interested in improving ease and freedom of movement, balance, support, flexibility, and coordination in daily activity.

603 **Conducting Problems and Score Interpretation.** Two credits. Analysis and marking of scores. Refinement of conducting techniques. Elimination of undesirable conducting habits. Diction as applied to conducting.

606 **Advanced Conducting.** Three credits. Techniques in advanced conducting of orchestral, choral, band, and chamber ensembles. Includes irregular meters, score reading, warm-up procedures, conducting patterns, attacks, and releases.

650 **Aesthetics of the Arts.** Three credits. (Same as ART 650.) The place of aesthetics in philosophy, the properties of music and the visual arts, the alternative and corollary views of the arts, the process of aesthetic creation, and meaning and values in music and the visual arts.

662 **Bibliography and Research.** Three credits. Survey of bibliography and problems and methods of research. Analysis and evaluation of research in the arts.

664 **Thesis Research.** Three credits. Types of research in music surveyed. A problem is selected and developed into a thesis report in acceptable form and style. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

671 **Special Studies.** One, two, or three credits. Intensive study of chosen subject. An indication of a reasonable skill and knowledge of research techniques, writing, and creativeness is expected.
A. **Special Studies.** One credit.
B. **Special Studies.** Two credits.
C. **Special Studies.** Three credits.

Courses in Applied Music [MUAP]

502 **Private Instruction.** Two credits. One hour lesson weekly on one of the various instruments or voice. Offers preparation to entering graduates for the graduate audition. Does not count toward the graduate degree; may be repeated.

504 **Service Playing.** Two credits. Skills and knowledge necessary for playing for church services including hymn and anthem accompaniments, conducting from the console, study of liturgical service music, solo accompaniments, and church music materials.

510 **Private Instruction.** One credit. Prerequisite: Permission of instructor. One half-hour private lesson weekly on one of the various instruments or voice. May be repeated.

614/615/616 **Composition.** Three credits each. Development of skills and ability in handling musical materials with goals of some individual style or expression within the framework of current practices. Taken in consecutive order.

667 **Graduate Recital.** Three credits. Prerequisites: Completion of MUAP 668, 669, 670; or MUAP 614, 615, 616; or MUSI 603, 606; permission of the appropriate music faculty.

668 **Private Instruction.** Three credits. Prerequisite: Completion of undergraduate recital. Consult graduate coordinator as to performance area availability. One-hour private lesson per week in the selected performance field. In-depth study of stylistic, technical, and musical problems in music performance and exploration of advanced repertoire in the applied area.

- A. **Private Instruction Voice**
- B. **Private Instruction Piano**
- C. **Private Instruction Organ**
- D. **Private Instruction Brass**
- E. **Private Instruction Winds**
- F. **Private Instruction Strings**
- G. **Private Instruction Percussion**
- I. **Private Instruction Guitar**

669 **Private Instruction.** Three credits. Prerequisite: Completion of undergraduate recital. Consult graduate coordinator as to performance area availability. One-hour private lesson per week in the selected performance field. In-depth study of stylistic, technical, and musical problems in music performance and exploration of advanced repertoire in the applied area.

- A. **Private Instruction Voice**
- B. **Private Instruction Piano**
- C. **Private Instruction Organ**
- D. **Private Instruction Brass**
- E. **Private Instruction Winds**
- F. **Private Instruction Strings**
- G. **Private Instruction Percussion**
- I. **Private Instruction Guitar**

670 **Private Instruction.** Three credits. Prerequisite: Completion of undergraduate recital. Consult graduate coordinator as to performance area availability. One-hour private lesson per week in the selected performance field. In-depth study of stylistic, technical, and musical problems in music performance and exploration of advanced repertoire in the applied area. Course may be repeated with no limit, but only three hours of credit may be applied toward the degree within the nine-hour private instruction requirement.

- A. **Private Instruction Voice**
- B. **Private Instruction Piano**
- C. **Private Instruction Organ**
- D. **Private Instruction Brass**
- E. **Private Instruction Winds**
- F. **Private Instruction Strings**
- G. **Private Instruction Percussion**
- I. **Private Instruction Guitar**

Courses in Music Education [MUED]

500 **A-Z Problems in Music Education.** One or two credits. A maximum of 6 semester hours credit may be applied toward a degree (course may be repeated).

521 **General Music Program K-6.** Two credits. The role of music and music teaching in elementary education; its objectives, methods, materials, and procedures; innovative trends and exemplary practices; evaluative techniques.

522 **Middle School Music.** Two credits. The role of music and music teaching in middle school education; its objectives, methods materials, and procedures; innovative trends and exemplary practices; evaluative techniques.

523 **Secondary School Methods and Materials.** Two credits. The role of music and music teaching in secondary education; its objectives, methods, materials, and procedures; innovative trends and exemplary practices; evaluative techniques.

524 **Instrumental Rehearsal Problems.** Two credits. Improving teaching in instrumental music classes through a study of rehearsal planning and techniques; the interpretation of music to students; group dynamics.

525 **Advanced Marching Techniques.** Two credits. Prerequisite: Marching band class. Further development and application of marching band techniques as utilized in half-time and contest show production. Selection and analysis of the music score.

567 **Music for the Young Child.** Four credits. Music fundamentals, materials, and methods appropriate for pre-school through grades three; pantomine, role playing, improvisation, rhythm, movement, listening, and singing.

601 **Foundations of Music Education.** Three credits. Philosophies of music education; meaning in music and aesthetic theories; principles of learning; objectives for music education.

Courses in Music Ensemble [MUEN]

570 **Ensemble.** One credit each semester. Study and public performance of music literature appropriate to the ensemble. May take two times for credit.

- A. **Guitar Ensemble**
- B. **Trombone Ensemble**
- C. **Clarinet Ensemble**
- D. **Trumpet Ensemble**
- E. **Horn Ensemble**
- F. **Tuba Ensemble**
- G. **Flute Ensemble**
- I. **Chamber Ensemble**
- J. **Choral Ensemble**
- K. **Keyboard Ensemble**
- L. **Graduate Wind Ensemble**
- M. **Percussion Ensemble**
- N. **Saxophone Ensemble**
- P. **Brass Ensemble**

Courses in Music History and Literature [MUHL]

505 **Church Music.** Two credits. Survey of church music and various denominational worship traditions, hymnology, graded choir programs, handbell choirs, materials and methods of church music, and administration and organization of church music.

506 **Survey of Guitar Literature.** Two credits. Basic literature for the guitar from the Renaissance to the present. Analysis, listening, research, performance.

507 **Music History Survey.** Three credits. Review of music in history and culture to degree necessary for candidate to pursue work on graduate level.

563 **Seventeenth and Eighteenth Century Music.** Three credits. Prerequisite: Permission of instructor. A survey of Western classical music during the Baroque and Classical periods; emphasis on topics selected by the instructor.

564 **Nineteenth Century Music.** Three credits. Prerequisite: Permission of instructor. A survey of Western classical music during the Romantic period; emphasis on topics selected by the instructor.

566 **American Music.** Three credits. Prerequisite: Permission of instructor. A survey of American music from the colonial era to the present; added emphasis on topics selected by the instructor. Examines folk, popular, and art, as well as sacred and secular traditions within their cultural contexts.

568 **Choral Literature.** Two credits. Examination of choral literature from the Renaissance to the present. Program selection. Analysis of choral pieces.

569 **Piano Literature.** Two credits. Survey of the basic literature of the harpsichord and piano from the eighteenth century to the present. Live performance; analysis and research.

571 **Vocal Literature.** Three credits. Basic repertory of Italian airs, German lieder, French art song, and solo vocal works of nationalistic schools, as well as English and American song literature.

572 **Organ Literature.** Two credits. A chronological study of organ literature from the Medieval period to the present. Objectives include knowledge of the repertoire and composers and historical perspective of styles and organ building.

573 **Brass Literature.** Two credits. A chronological study of brass literature from the Renaissance period to the present. Objectives include knowledge of the repertoire and composers, historical perspective of styles, types, and common performance practice.

574 **Percussion Literature.** Two credits. A chronological study of percussion literature from the nineteenth century to the present. Objectives include knowledge of the repertoire and composers, historical perspective of styles, types, and common performance practice.

575 **String Literature.** Two credits. A chronological study of string literature from the nineteenth century to the present. Objectives include knowledge of the repertoire and its composers, historical perspective of styles, types, and common performance practice.

576 **Woodwind Literature.** Two credits. A chronological study of woodwind literature from the Renaissance period to the present. Objectives include knowledge of the repertoire and composers, historical perspective of styles, types, and common performance practice.

604 **Twentieth-Century Music.** Three credits. Styles and compositional techniques found in representative masterworks of the twentieth century from Debussy to present. Analysis, listening, research. Required of all master's candidates in music.

Courses in Music Pedagogy [MUPD]

511 **Advanced Brass Pedagogy.** Two credits. Advanced study of conceptual, physiological, acoustical, pedagogical methods and materials used in the teaching of beginning, intermediate, and advanced brass students.

512 **Advanced Percussion Pedagogy.** Two credits. Advanced study of conceptual, physiological, acoustical, pedagogical methods and materials used in the teaching of beginning, intermediate, and advanced percussion students.

513 **Advanced String Pedagogy.** Two credits. Advanced study of conceptual, physiological, acoustical, pedagogical methods and materials used in the teaching of beginning, intermediate, and advanced string students.

514 **Advanced Woodwind Pedagogy.** Two credits. Advanced study of conceptual, physiological, acoustical, pedagogical methods and materials used in the teaching of beginning, intermediate, and advanced woodwind students.

530 **Diction for Singers II.** Three credits. Lecture demonstration course for familiarization of the International Phonetic Alphabet and correct pronunciation of a variety of texts in English, Italian, German, and French.

531 **Vocal Pedagogy.** Two credits. Teaching techniques of the fundamentals of singing. Vocalizes and repertoire. Physical aspects of singing.

532 **Piano Pedagogy.** Two credits. Various technical and philosophical approaches in teaching piano. Examination of teaching repertory through intermediate level. Supervised teaching through intermediate level.

533 **Organ Pedagogy.** Two credits. The principles of teaching organ: manual and pedal techniques, organ methods, and organ repertoire of varying degrees of difficulty and of all period-styles from pre-Bach through twentieth century.

634 **Woodwind Teaching.** Two credits. Seminar on problems encountered in advanced instruction of woodwinds. Experimentation and performance involving old and new concepts of performance.

635 **Brass Teaching.** Two credits. Teaching materials for trumpet, cornet, horn, trombone, baritone, and tuba; elementary and advanced exercises, etudes; methods for class and private instruction, clef and transposition studies, orchestral and band repertoire. Survey of sources providing announcement and evaluation of new materials.

Courses in Music Theory [MUTH]

501 **Theory Survey.** Two credits. A review of musicianship skills and knowledge of musical theory to the degree necessary for the candidate to pursue work of graduate level.

518 **Improvisation.** Two credits. Lecture demonstration course exploring improvisation, musical vocabularies, and shorthands including figured bass, Nashville shorthand, and other contemporary styles of writing and performing.

519 **Principles and Practices of Electronic Music.** Three credits. Includes history and techniques, acoustics, electronic sound generation, recording, operation of audio equipment, basic principles of composition, and experience with tape recorders and a music synthesizer. Open to non-music majors with permission of instructor.

529 **Electronic Music II.** Three credits. Prerequisite: MUTH 519. Advanced principles of digital sound synthesis, programming the digital synthesizer, electronic composition, contemporary trends in digital music, and programming with a MIDI work station.

605 **Analytical Techniques.** Three credits. Prerequisite: MUTH 501 or permission of instructor. Skills and procedures of musical analysis as they apply to all periods through analysis of representative compositions. Evaluation of work from all standpoints: craftsmanship, expression, and stylistic correctness.

Department of Physics and Astronomy

Robert F. Carlton, Chair
Wiser-Patten Science Building 219

The Department of Physics and Astronomy offers a minor at the graduate level.

Courses in Physics [PHYS]

Graduate standing and consent of instructor are prerequisites for graduate courses in physics.

531 **Electricity and Magnetism.** Three credits. Topics including electric and magnetic fields, electrostatic potential, and potential energy and fields in matter discussed in a mathematically rigorous manner. A variety of good applications of mathematical methods in physics.

538 **Introduction to Quantum Mechanics.** Three credits. Origin of quantum theory; wave packets and deBroglie waves; Heisenberg uncertainty principles. Schroedinger wave equation, operators, eigenfunctions, square well potential, the harmonic oscillator, the hydrogen atom, molecular binding and molecular spectra.

633 **Principles of Modern Physics.** Three credits. Charged particles and their behaviors; electronic structures of the atoms; nuclear structures and processes; and radiation.

634 **Fundamentals of Physics.** Six credits. Basic laws and principles of classical and modern physics. Lecture topics and laboratory experiences designed to advance student's knowledge of physics.

Department of Political Science

John Vile, Chair
Peck Hall 209

The Department of Political Science offers a minor at the graduate level.

Courses in Political Science [P S]

500 **Quantitative Methods of Research.** Three credits. (Same as SOC 500.) Fundamentals of quantitative methods in empirical research problems in the social sciences. PS/SOC 500 is a prerequisite for PS/SOC 511.

502 **Political Science Laboratory.** Three credits. Research, statistics, data processing, or simulation studies related to political and social questions.

505 **Introduction to City and Regional Planning.** Three credits. Analysis of the basis of particular forms in urban settlements and regions; introduction to planning history, theory, methods, processes, and current trends.

506 **The U.S. Congress.** Three credits. An analysis of the United States Congress. The origins of the congress, political power, the nature of the institutionalized congress, campaigns, elections.

511 **Quantitative Methods of Research.** Three credits. Prerequisite: PS/SOC 500. (Same as SOC 511.) Fundamentals of quantitative methods in empirical research problems in the social sciences.

512 **Tennessee Government.** Three credits. Structure, functions, and processes of Tennessee's governmental and political institutions. Policy issues studied.

520 **Problems in Government.** Three credits. Work done on a tutorial basis under the close direction of a professor. Student must present a proposal for departmental consideration and acceptance before enrolling in this course.

521 **International Relations.** Three credits. National power, balance of power, nationalism, imperialism, colonialism, war as an instrument of national policy, economic instruments of national policy, diplomacy, collective security, international law, and organization.

522 **World Politics.** Three credits. Experiencing contemporary international politics through the medium of simulation. Particular focus areas include the U.S., former Soviet Union, People's Republic of China, the Middle East, South Asia, and Southern Africa.

523 **Political Theory.** Three credits. Western political theory from the early Greeks to the beginning of the modern world. Includes Plato, Aristotle, Stoicism, the church-state controversies, feudalism, Machiavelli, the Reformation and Counter-Reformation, the early nationalists, Hobbes.

524 **American Foreign Policy.** Three credits. Foreign policies in the nuclear age from Kennan and containment to the present with emphasis on contemporary problems and policies.

525 **Public Administration.** Three credits. Fundamentals of public management—organization theory, leadership, policy making, planning, budgeting, personnel, administrative law, bureaucratic behavior.

526 **Public Administration.** Three credits. Selected issues and problems. Normally entails the application of administrative concepts to administrative problems and learning by doing.

528 **State and Local Government.** Three credits. Politics and administration at the state and local level. Legislative, judicial, and administrative structures and processes; major issues and problems.

530 **Comparative European Governments.** Three credits. Comparative analysis of the governmental forms and practices of England, France, Germany, the European Community, and others.

532 **Public Opinion and Propaganda.** Three credits. The nature of pubic opinion and its role in the political and social process; myths, symbols, other instruments; techniques of propaganda.

533 **Politics and the Party System.** Three credits. The nature of democracy, politics, and political parties; party organization and role in government; campaigning, primaries, conventions, general elections; the electoral college; voting behavior and pressure groups.

536 **Legislative Internship.** Twelve credits. A cooperative program with the state of Tennessee which provides for student service with the legislature on a full-time basis during the spring semester. Students selected on a competitive basis. Only six hours may count toward the degree for graduate programs.

537/538 **American Constitutional Law.** Three credits each. The Supreme Court as a policy-making body in the governmental system. Emphasis on case studies in major areas of conflict including federalism, civil liberties, criminal procedure, and economic regulation.

540 **Municipal Government.** Three credits. The structure, powers, functions, and politics of municipal governments from the standpoint of city management. Attention is given to problems of municipal policy implementation.

541 **Business and Government.** Three credits. Government's role in regulating and supporting business and its impact on the economic health of the private sector. Analyses of the business-government relationship at the federal, state, and local levels. The new role of organized consumers.*

544 **Governmental Budgeting and Finance Administration.** Three credits. Analysis of the legal and social nature of government budgets emphasizing the procedures and administrative methods of fiscal control. Study of budget documents at state and local levels.*

550 **International Law.** Three credits. General principles of modern international law taught by the case study method in a seminar format encouraging debate and discussion. Issues concerning the development of international law and human rights.

551 **International Political Economy.** Three credits. Prerequisites: P S 122 and 321 or permission of instructor. The relationship between politics and economics in international affairs and its implications for global peace, security, the ecology, and social welfare.

559 **Administrative Law.** Three credits. Procedural aspects, substantive issues, judicial review of the type of law concerned with the powers and procedures of government agencies and the rights of citizens affected by them.

563 **Personnel Management.** Three credits. Prerequisite: P S 325 or permission of instructor. The development and characteristics of public personnel administration in the United States with attention to recruitment, selection, position classification, compensation, performance evaluation, promotion, motivation, morale, discipline, separation, and public service unionism.*

570 **American Political Thought.** Three credits. Major thinkers and movements in American political thought from colonial times to the twentieth century with special emphasis on the thoughts of the framers of the American Constitution and their contemporaries.

591 **International Organization.** Three credits. Development and prospects of the United Nations Organization and its major approaches to peace—pacific settlement, collective security, international law, arms control, trusteeship, preventive diplomacy, international conferences, functionalism.*

592 **Modern Political Theory.** Three credits. Early democratic theory Hobbes, Locke, Rousseau, Burke, Hegel, the Utilitarians, Conservatism, Liberalism, Anarchism, Marx-Engels, Twentieth Century Communism, and Fascism.

600 **Comparative Social Change.** Three credits. (Same as SOC 600.) A historical comparative examination of the structure, institutions, and development of the modern world system; a review of major theoretical and empirical research on the world system.

626 **Readings in Political Science or Public Administration.** Three credits. Individual study focusing on subject matter selected by the student and approved by the instructor; strengthens knowledge in a sub-field of political science or public administration. Focus guided by the student's professional interests, career objectives, and program requirements.

630 **Readings in International Relations.** Three credits. The theoretical basis of international politics. The biological, sociological, psychological, economic, and ideological aspects of international relations.

** Offered only in alternate years.*

Department of Psychology

Larry W. Morris, Chair
Jones Hall 103

The Department of Psychology offers programs which lead to three graduate degrees: the Master of Arts with a major in Psychology and concentrations in Clinical, Experimental, Industrial/Organizational, Quantitative Psychology, and Pre-Specialist in Education: School Psychology; the Master of Education with a major in School Counseling, Pre K-12; and the Specialist in Education with a major in Curriculum and Instruction, concentration in School Psychology. The department also offers a minor at the graduate level.

Normally, a score of 900 combined verbal and quantitative sections of the Graduate Record Examination is recommended for admission to the Specialist in Education program or to the Master of Arts with concentrations in Clinical, Experimental, Quantitative Psychology, and Pre-Specialist in Education: School Psychology; a GRE quantitative or analytical of 450 is expected for the Industrial/Organizational concentration. A score of 36 on the Miller Analogies Test or 720 on the GRE is expected for admission to the M.Ed. program. Applicants for Clinical also must submit a GRE Psychology Subject Examination. An undergraduate GPA of 3.0 for the M.A. and 2.75 for the M.Ed. is normally required for unconditional admission.

Requirements for the Master of Arts

The Master of Arts in Psychology has five different concentrations. Each concentration has its own admission standards and required courses. Listed below are the general admission and graduation standards for the M.A. programs. Following the shared standards is additional information, including required courses, for specific concentrations.

Admissions Process

Admission to graduate study is not automatic for students meeting minimal admission requirements. Students are selected from a pool of qualified applicants. Each year the number of students admitted to the program depends on the availability of adequate faculty supervision. Applications for Summer/Fall admission must be complete by March 1 and applications for Spring admission must be complete by October 1; late applicants who meet the admission criteria may be considered on a case-by-case basis. (See admission standards under Admission to the College of Graduate Studies.) Applicants must have completed 18 hours in undergraduate psychology to be considered for admission to a concentration area. Applicants to the Clinical program should contact the department for a special application and reference forms. Applicants to the School Counseling Program should contact the department for special reference forms. Applicants to Experimental and School Psychology must provide a letter of intent stating goals and objectives.

Conditional Admission

Students who do not meet admission requirements may be admitted conditionally to a specific concentration. Students admitted conditionally must maintain a 3.25 GPA in their first 12 hours of required graduate courses in their concentration area.

Readmission: See each area coordinator and program handbook for readmission policy.

Candidacy Form

Students must file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours.

Graduation Requirements

Candidate must

1. demonstrate knowledge of the core areas of psychology by completing the following courses at either the undergraduate or graduate level (relevant courses offered at MTSU are listed in parentheses):
   a. group measurement/testing (PSY 426/526 or 605);
   b. abnormal psychology or personality (PSY 323/523, 359, 602 or 603);
   c. learning or cognition (PSY 404, 448/548, 480/580, or 619);
   d. social or developmental (PSY 221, 230, 419, 421/521, 461/561, 612,613);
   e. physiological, sensation and perception, or research methods (PSY 307/507, 478/578, 424/524, or 403/503);
2. complete a total of 45 semester hours (48 for Clinical), including at least 33 hours in psychology. For some concentrations, the remaining hours may include either a minor or two cognates in other academic areas as approved by the graduate advisor. Only 30 percent of the total number of hours may be dually listed (500 level meeting in conjunction with 400 or 300 level) courses;
3. complete PSY 628 (PSY 302 or equivalent is a prerequisite for PSY 628), 629, and 664 (3 hours);
4. successfully write and orally present a written thesis evaluated by a committee of psychology faculty in conjunction with PSY 664;
5. pass a written comprehensive examination prepared by the faculty in the student's concentration (may be taken no more than twice).

Performance Requirements

Students must be able to meet the demands required for professional work in psychology. Therefore, students may be subject to dismissal from the Psychology Department if they (a) commit a serious breach of ethics or gross professional negligence or (b) present evidence of impaired psychological functioning that would present a danger to themselves or others in a professional role. Students who are dismissed may re-apply and will be considered for re-admission on a competitive basis. Students who re-apply may be asked to provide evidence of improved ability to meet performance requirements.

Psychology Major
Concentration: Clinical

Prerequisites: Courses listed under 1. a,c,d, and e (above). Under 1.b., Abnormal Psychology is required. Graduate courses taken to satisfy these prerequisites do **not** count as part of the 48 graduate hours required for the M.A. degree. Students must be fully admitted prior to enrolling in required core courses. Non-degree seeking students may **not** enroll in required clinical courses, except by special permission.

Required

PSY	602	Theories of Personality
PSY	625	Objective Personality Assessment
PSY	627D	Intellectual Assessment
PSY	627G	Clinical Interventions
PSY	651	Psychopathology
PSY	669	Professional Issues and Roles
PSY	680	Techniques of Psychotherapy
PSY	684	Individual Psychotherapy
PSY	686A	Field Practicum: Clinical
PSY	686B	Field Practicum: Clinical

Electives

Students in the Clinical concentration must take 9 elective credits in addition to the required courses in the core area and the research area. No more than 6 of the 9 elective credits may be listed as 500-level courses. In order to meet requirements for state licensure, the electives must be in the specific areas listed below.

1. **Students must choose at least 3 credits from the following list. (Up to 9 credits may be chosen from this list):**

PSY 578	Human Neuropsychology
PSY 608	Interventions with Children and Adolescents
PSY 617	Group Counseling and Psychotherapy
PSY 635	Behavioral Medicine: Theory and Application
PSY 640	Psychological Disorders of Children
PSY 644	Advanced Applied Behavior Analysis
PSY 652	Psychopharmacology
PSY 682	Family Therapy: Evaluation and Treatment Planning
PSY 683	Techniques of Family Therapy
PSY 752	Assessment and Treatment of Addictions

No more than one of the following:

PSY 671	Community Psychology
PSY 689	Consultation

No more than two of the following:

PSY 624	Projective Measurements
PSY 675	Psychology and Assessment of Learning Disabilities
PSY 677	Assessment and Therapeutic Intervention for Children's Emotional Problems
PSY 678	Clinical Neuropsychology

2. **If students choose only 3 credits from the above list, they must choose AT LEAST 3 credits from the following:**

PSY 546	Theories of Mental Health and Well-Being
PSY 603	Current Topics in Personality
PSY 658	Multivariate Data Analysis
PSY 710	Multicultural and Social Bases for Assessment and Intervention Practices

No more than one of the following (must be in addition to the course which meets prerequisite):

PSY 561	Adult Psychology and Aging
PSY 612	Developmental Psychology: Child
PSY 613	Developmental Psychology: Adolescent

No more than one of the following:

PSY 619	Advanced Cognitive Psychology
PSY 653	Psychology of Reading and Reading Development

3. **If students need an additional 3 elective credits, they may choose from the following:**

PSY 659C	Independent Research in Psychology: Clinical (1-3 credits)
PSY 663C	Literature Review and Reading in Psychology (1 credit)
PSY 686C-F	Field Practicum (Clinical)

Professional liability insurance ($1,000,000 each incident/$3,000,000 annual aggregate) must be maintained throughout enrollment in the program, with a current insurance binder filed with the department at all times.

Psychology Major
Concentration: Experimental

The goal of the Experimental concentration in psychology is to prepare the student to be a research psychologist. The primary application of this degree is to prepare the student to enter a Ph.D. program in psychology. However, many industries and clinical settings are interested in students with the analytical and statistical skills of a research psychologist.

Experimental students need to have a strong background in the core areas of experimental psychology. This background can be met at the undergraduate level; however, these competencies may also be completed while enrolled in the program (see pre- and co-requisites listed below). Beyond these competencies, students must take a small core of required courses and develop a specialization in one research area. Students may specialize in developmental, cognitive science, learning, or social/personality. Suggested courses for each specialization are listed below. Specific course requirements for each specialization must be submitted in a program of study and approved by three faculty members to include the student's graduate advisor and the experimental area coordinator. At least one committee member must have expertise in the chosen research specialization.

Prerequisites/Co-requisites (may be met at the undergraduate level): Students must complete courses in the following areas: 1) behavioral neuroscience, 2) child or lifespan development, 3) perception, 4) learning or cognitive, 5) research methods, 6) statistics, and 7) social/personality. Students who have not taken these courses at the undergraduate level may take a 500 level equivalent while in the graduate program.

Core Courses

PSY	659A	Independent Research in Psychology (9 hours total)
PSY	663G-N	Literature Review and Reading in Psychology (at least 3 hours)

Completion of an approved program of study in a research emphasis

Suggested Courses in the Experimental Specializations

Developmental

PSY	525	Psychology of Exceptional Children
PSY	561	Adult Psychology and Aging
PSY	562	Psychology of Women
PSY	582	Psychology of Language
PSY	612	Developmental Psychology: Child
PSY	613	Developmental Psychology: Adolescent
PSY	619	Advanced Cognitive Psychology
PSY	640	Psychological Disorders of Children
PSY	653	Psychology of Reading and Reading Development

Cognitive Science

PSY	578	Human Neuropsychology
PSY	580	Cognition: Thinking and Reasoning
PSY	582	Psychology of Language
PSY	619	Advanced Cognitive Psychology
PSY	653	Psychology of Reading and Reading Development
PSY	656	Computer-Based Statistical Packages
PSY	658	Multivariate Data Analysis

Social/Personality

PSY	538	Group Dynamics
PSY	539	Persuasion
PSY	542	Experimental Social Psychology
PSY	544	Social Psychology of Close Relationships
PSY	545	Psychology of the Self
PSY	602	Theories of Personality
PSY	603	Current Topics in Personality
PSY	619	Advanced Cognitive Psychology
PSY	638	Work Group Effectiveness
PSY	656	Computer-Based Statistical Packages
PSY	658	Multivariate Data Analysis

Learning

PSY	549	Operant Conditioning
PSY	580	Cognition: Thinking and Reasoning
PSY	619	Advanced Cognitive Psychology
PSY	644	Advanced Applied Behavioral Analysis
PSY	656	Computer-Based Statistical Packages

A 12-hour minor in biology or other related field

Psychology Major
Concentration: Industrial/Organizational

Prerequisite/Co-requisite

Introductory course in I/O Psychology such as

PSY	332	Introduction to Industrial/Organizational Psychology

Required

PSY	500B	Psychology Seminar: Industrial/Social
PSY	607	Advanced Industrial/Organizational Training and Development
PSY	627B	Practicum: Industrial/Organizational Psychology
PSY	632	Performance Appraisal and Job Analysis
PSY	633	Professional Issues in Industrial/Organizational Psychology
PSY	642	Advanced Personnel Selection and Placement
PSY	645	Advanced Organizational Psychology
PSY	657	Psychological Research Methods in Human Resource Management
PSY	663B	Literature Review and Reading in Psychology: Industrial/Organizational

Two of the following four courses

PSY	529	Wage and Salary Administration
PSY	537	Morale, Attitudes, and Motivation Research
PSY	636	Organizational Change and Development
PSY	638	Work Group Effectiveness

Electives (not an inclusive list; consult advisor)

PSY	534	Human Factors Psychology
PSY	535	Safety Psychology
PSY	538	Group Dynamics
PSY	637	Organizational Skills

Psychology Major
Concentration: Quantitative

Required

PSY	605	Psychological Testing
PSY	646	Factor Analysis and Related Methods
PSY	649	Practicum: Quantitative Psychology
PSY	656	Computer-Based Statistical Packages
PSY	658	Multivariate Data Analysis
PSY	659A	Independent Research in Psychology: General/Experimental, 3 credits

Two of the following:

PSY	620	Advanced Psychometrics
PSY	647	Computer Simulation in the Behavioral Sciences
STAT	519	Mathematical Statistics II
STAT	537	Nonparametric Statistics

Electives

Two six-hour cognates or a 12-hour minor from any sub-area in psychology or related areas with the permission of the academic advisor.

Psychology Major
Concentration: Pre-Specialist in Education: School Psychology

The school psychology program is field-based. As such, a student is required to be continuously enrolled in at least one field-based course every semester from the completion of PSY 627F until the completion of the program. PSY 681B, 781B, 708, and 688G are field-based courses. The policy excludes summer sessions. Tennessee teacher licensing in School Psychology is obtained through MTSU's program. Licensing is competency-based. The seven areas of competency include Learning, Personality, Consultation and Assessment, Research, School Roles, Community Roles, and Internship, all of which are covered by the M.A. program plus either independent study (PSY 688A-E) or SPSE 601 and 643. PSY 525 and 681B or equivalents, as well as acceptable scores on the National Teachers Exam and Specialty (School Psychologist) are required for all State Department of Education licensing in Tennessee.

Required

PSY	606	School Psychology
PSY	608	Interventions with Children and Adolescents
PSY	627D	Intellectual Assessment
PSY	627F	Practicum: School Psychology
PSY	675	Psychology and Assessment of Learning Disabilities
PSY	675L	Educational Assessment
PSY	677	Assessment and Therapeutic Interventions for Children's Emotional Problems
PSY	689	Consultation

One of the following:

PSY	602	Theories of Personality
PSY	603	Current topics in Personality

Professional liability insurance, coverage amount at the student's discretion, must be maintained throughout enrollment in the program, with a current insurance binder filed with the department at all times.

Requirements for the Master of Education

School Counseling Major

This M.Ed. is a 49-semester hour program designed to train counselors for work in the schools Pre-K through 12. The concentration is developmental with a prevention/intervention focus. The curriculum covers the eight core areas required by the Council for Accreditation of Counseling and Related Education Programs (CACREP) as well as State Department of Education licensing standards. Students will be evaluated for readiness prior to placement in practicums and internship. One hundred hours of practicum, 600 total hours in two internships, plus an additional 60 hours school experience for persons not licensed to teach are required. Students seeking Tennessee School counseling licensure must request recommendation from a committee of faculty. Completion of the program is not a guarantee of the recommendation for licensure.

Candidate must

1. be evaluated by a committee composed of psychology faculty members and practicing school counselors for admission;
2. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
3. complete 49 semester hours with no more than 30 percent of the total degree hours dual-listed as undergraduate/graduate hours;
4. successfully complete a written comprehensive examination (may be taken no more than twice).

Performance Requirements

Students must be able to meet the demands required for professional work in psychology. Therefore, students may be subject to dismissal from the Psychology Department if they (a) commit a serious breach of ethics or gross professional negligence, or (b) present evidence of impaired psychological functioning that would present a danger to themselves or others in a professional role. Students who are dismissed may re-apply and will be considered for re-admission on a competitive basis. Students who re-apply may be asked to provide evidence of improved ability to meet performance requirements.

Prerequisite/Co-requisite:

PSY	302	Basic Statistics for the Behavioral Sciences

Required

PSY	547	Theories of Counseling
PSY	615	Career Counseling
PSY	616	Foundations of School Counseling
PSY	617	Group Counseling and Psychotherapy (with PSY 617L Laboratory)
PSY	622	Organization and Administration of School Counseling Services
PSY	623	Legal and Ethical Issues in School Counseling
PSY	626	Pre-practicum in Counseling
PSY	627A	Practicum in School Counseling
PSY	661	Introduction to Educational and Psychological Research
PSY	681D	Internship: Secondary School Counseling
PSY	681E	Internship: Elementary School Counseling
PSY	689	Consultation
PSY	710	Multicultural and Social Bases for Assessment and Intervention Practices (or PSY 572 or SOC 524 or FOED 685)

One of the following:

PSY	525	Psychology of Exceptional Children
PSY	640	Psychological Disorders of Children or SPED 680

One of the following:

PSY	526	Introduction to Psychological Testing
PSY	605	Psychological Testing

One of the following:

PSY	612	Developmental Psychology: Child
PSY	613	Developmental Psychology: Adolescent

Professional liability insurance, coverage amount at the student's discretion, must be maintained throughout enrollment in the program, with a current insurance binder filed with the program coordinator at all times.

For Candidates Not Holding a Tennessee Teacher's License
Candidates without a teacher license must meet these additional requirements if they intend to seek recommendation for licensing as a school counselor in Tennessee.

1. Have on the transcript a course in Survey of Exceptional Children.
2. Take and pass with at least a grade of B ELED 520, Observation and Participation. This is a program prerequisite.
3. Take and pass (per SDE criteria) the National Teachers Exam, Guidance Specialty Test.

Requirements for the Specialist in Education

Curriculum and Instruction Major
Concentration: School Psychology

The school psychology program is field-based. As such, a student is required to be continuously enrolled in at least one field-based course every semester from the completion of PSY 627F until the completion of the program. PSY 681B, 781B, 708, and 688G are field-based courses. The policy excludes summer sessions.

Candidate must

1. hold a master's degree in psychology, educational psychology, or school counseling and normally should have completed all courses listed under the M.A. program for the Pre-Specialist in Education: School Psychology concentration;
2. complete a minimum of 30 semester hours;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. satisfy a residency requirement consisting of (a) the completion of 18 semester hours of graduate study within a 12-month period, and (b) full-time enrollment (at least 9 semester hours) for at least one semester;
5. complete the following courses

PSY	663E	Literature Review and Reading in Psychology
FOED	706	Seminar in Educational Foundations
PSY	708	Practicum: Advanced Interventions with Children
SPSE	713	The Curriculum: Structures and Functions
FOED	761	Directed Individual Research (not required for students who have completed a thesis course; theses completed at other universities are subject to review)

Six-hour cognate (only for students who have completed a thesis)

6. receive preparation (at least a portion of a course) in each of the following 24 areas during graduate studies; these areas are based on National Association of School Psychologists standards
    a. Psychological Foundations
        1. Biological Bases of Behavior
        2. Cultural Diversity
        3. Child/Adolescent Development
        4. Human Exceptionalities (Individual Differences)
        5. Human Learning
        6. Social Bases of Behavior

- b. Educational Foundations
    - 7. Instruction and Remedial Techniques (Instructional Design)
    - 8. Organization and Operation of Schools
- c. Assessment (Diverse Models)
    - 9. Learning Disabilities
    - 10. Intelligence
    - 11. Personality
- d. Interventions (Direct and Indirect)
    - 12. Consultation (Systems and Organizational Change)
    - 13. Individual Counseling
    - 14. Group Counseling
    - 15. Behavior Management
- e. Statistics/Research Methodologies
    - 16. Statistics
    - 17. Evaluation
    - 18. Measurement
- f. Professional School Psychology
    - 19. History and Foundations
    - 20. Legal and Ethical Issues
    - 21. Professional Issues/Standards
    - 22. Role and Function
    - 23. Alternative Models
    - 24. Emergent Technologies;

7. complete 781B, an internship of 1200 hours after completion of the M.A. degree;
8. successfully complete a written comprehensive examination (may be taken no more than twice).

Professional liability insurance, coverage amount at the student's discretion, must be maintained throughout enrollment in the program, with a current insurance binder filed with the program coordinator at all times.

Courses in Psychology [PSY]

500 Psychology Seminar: B, C, D. One credit each. Representative and integrative study of scientific journals of the field. May be taken for total of three credits.
B. **Industrial-Social**
C. **Clinical-Personality**
D. **General-Experimental**

503 Psychology of Sensation and Perception. Three credits. Prerequisite: PSY 141. Modern theories of perception as they relate to knowledge of the external world through perceptual acquaintance. Philosophy of perception, history of sensory psychology, physiological mechanisms of perception, and ecological determinants of perceptual capabilities.

503L Laboratory in Psychology of Sensation and Perception. One credit.

505 Applied Psychopharmacology. Three credits. Impact of drugs on behavior in today's society. The nature of drug use, abuse, psychological and physiological dependence examined.

506 Sport Psychology. Three credits. Prerequisite: PSY 141 or consent of instructor. Application of psychological principles, motivational research, and social/psychological findings to the arena of sports. Theory and application of performance enhancement and teamwork in sports. See ATHC 506.

507 Research Methods. Three credits. Prerequisite: PSY 302. Corequisite: PSY 507L. Analysis of methodological issues in psychological research. Designed to teach skills in the formulation, execution, interpretation, and presentation of psychological investigations.

507L Laboratory in Research Methods. One credit.

512 Psychology of Criminal Behavior. Three credits. Survey of theory and research pertaining to criminal behavior, covering topics such as mental illness and crime, criminal homicide, assault, and sex offenses.

521 Adolescent Psychology. Three credits. Physiological, emotional, mental, and social characteristics of adolescent development, including primary vectors of influence.

522 Correctional Psychology. Three credits. Law enforcement, delinquency, and criminal psychology, including psychological evaluation, classification, therapy, and rehabilitation. Special classifications. Field problems. Preventive implications.

523 Abnormal Psychology. Three credits. Patterns of maladaptive behavior, including anxiety, depression, schizophrenia, antisocial behavior, and mental retardation.

524 Behavioral Neuroscience. Three credits. The role of the brain in those areas which are typically considered by psychology, such as sensory and motor functions, motivation, higher mental functions, and mental disorders.

524L Laboratory in Behavioral Neuroscience. One credit.

525 Psychology of Exceptional Children. Three credits. Identification and etiology of patterns of exceptionality, with consideration given to behavioral manifestations and preventive and correctional programs.

526 Introduction to Psychological Testing. Three credits. Modern practices in test construction, selection, and application to classroom and guidance situations. (Student required to participate as principal and subject in administration, scoring, profiling, and in making predictions based on test results.)

529 Wage and Salary Administration. Three credits. Analysis of theory and practice in administering compensation. Practices and issues related to job analysis, job evaluation, wage and salary administration, incentive plans, and legal considerations.

531 Apprenticeship: B, C, D, or E. One to three credits each. Supervised practical experience utilizing psychological principles and tools in an established organization.
B. **Child**
C. **Pre-Clinical**
D. **Adolescent**
E. **Gerontology**

532 Introduction to Industrial/Organizational Psychology. Three credits. Applications of psychology to business and industry: employee selection, performance appraisal, training, leadership, motivation, work environment, job design, safety, and work stress.

534 Human Factors Psychology. Three credits. Prerequisite: PSY 332/532 or consent of instructor. The process of designing for human use. Considers individual differences, visual, auditory, and tactile displays, anthropometry, illumination, noise, humans in motion, and space and environmental studies.

534L Laboratory in Human Factors Psychology. One hour credit.

535 Safety Psychology. Three credits. Basic theories of accident causation, safety research literature, methods of accident prevention, and industrial hygiene.

537 **Morale, Attitudes, and Motivation Research.** Three credits. Interests, basic values, and measurement of value systems. Consumer and other applications.

538 **Group Dynamics.** Three credits. Functioning of groups. Includes development of group structure, group conflict, cohesion, social influence, leadership, group productivity, group decision making, and growth groups.

539 **Persuasion.** Three credits. Survey and analysis of theory and research on interpersonal influence. Applications of findings to various areas of human experience.

542 **Experimental Social Psychology.** Three credits. Prerequisite: PSY 221. Survey of research rationales, strategies, procedures, and methodologies. Ethical concerns and special problems in human subject research.

542L **Laboratory in Experimental Social Psychology.** One credit.

544 **Social Psychology of Close Relationships.** Three credits. Prerequisites: PSY 141 and 221. Theoretical and empirical issues in the scientific study of adult, close relationships from a social psychological perspective: initial attraction, relationship formation and maintenance, and dissolution. (Not a course in the broad area of marriage and the family; See CDFS 332 Family Relationships and SOC 350 Marriage and Family.)

545 **Psychology of the Self.** Three credits. Historical and contemporary theory and research on the self and self-related topics. Definitional and measurement issues, the self as a structure and a process, self-development across the lifespan, and factors affecting self-perception and self-evaluation.

546 **Theories of Mental Health and Well-Being.** Three credits. Prerequisite: PSY 141; PSY 221 and 323 recommended. Survey of theoretical and research literature in the areas of subjective well-being, happiness, life satisfaction, and stress-resistant personality styles.

547 **Theories of Counseling.** Three credits. Integration of the major theories of counseling and psychotherapy and their application.

548 **Learning Theories.** Three credits. Research and experiments in learning and the related growth of the major theories of learning with emphasis on classical and instrumental conditioning and related topics.

548L **Laboratory in Learning Theories.** One hour credit.

549 **Operant Conditioning.** Three credits. Prerequisite: PSY 141. Philosophy of B.F. Skinner's behaviorism explored in his own writings and those of his followers and critics. Current applications of behaviorism in all areas of psychology (child, marriage and family, animal conditioning, mental health, addictions, etc.) also examined.

560 **Psychosexual Adjustment.** Three credits. Psychological, cultural, and biological facets of the human sexual experience. Attitudes and behaviors, variances and dysfunctions, implications, and strategies for intervention.

561 **Adult Psychology and Aging.** Three credits. A survey of the research on adult development with emphasis on old age. Examines the physical, intellectual, social, vocational, and personality changes during the adult years.

562 **Psychology of Women.** Three credits. Psychological impact of the culture on women's attitudes, roles, aspirations, problems, and personality development.

563 **Death and Dying.** Three credits. An experiential course covering the folklore of thanatology, the funeral industry, handling grief, counseling the bereaved, the hospice concept. Objectives include an attempt to view death with equanimity and personal growth through confronting death.

565 **Health Psychology.** Three credits. Prerequisite: PSY 141 or consent of instructor. Psychological factors and principles involved in the study of correlates of health and illness, disease prevention, therapeutic interventions, and rehabilitative strategies.

570 **History and Systems of Psychology.** Three credits. A survey of the history and intensive coverage of current systems of psychology.

572 **Multicultural Perspectives in Psychology and Education.** Three credits. Theories and research relative to the education of multi-ethnic/racial minorities. Relation of culture and socialization to learning styles, assessment practices, and counseling considerations.

578 **Human Neuropsychology.** Three credits. Prerequisite: PSY 524 or consent of instructor. Organization and function of specific brain areas and the behavioral deficits and changes resulting from focal and diffuse brain damage.

580 **Cognition: Thinking and Reasoning.** Three credits. Research and theory on thinking and reasoning and their roles in complex cognitive processes such as comprehension and higher learning, memory encoding and retrieval, mental model construction, hypothesis testing, goal setting and planning, problem solving, judgment and decision making, intelligence, and creativity.

582 **Psychology of Language.** Three credits. Prerequisite: PSY 141. A cognitive approach to how people learn and use language to communicate. Covers basic psycholinguistics (production, perception, comprehension, and mental representation), language acquisition, and applied psycholinguistics (bilingualism, language disorders, and machine language).

602 **Theories of Personality.** Three credits. Examines traditional schools of personality theory and current developments within each.

603 **Current Topics in Personality.** Three credits. Examines current research findings on personality traits and personality-related processes.

604 **Topics in Industrial/Organizational Psychology.** Three credits. Focus on practical aspects of functioning as a professional in the field. Current issues, recent developments, and less-traditional relevant areas.

605 **Psychological Testing.** Three credits. Prerequisite: PSY 302 or equivalent. Modern practices in test construction, selection, and application; legal guidelines, reliability, and validity. Intelligence, abilities, interests, attitudes, values, and personality testing. Students required to participate as examiners and subjects in administering, scoring, profiling, and in making predictions based on test results.

606 **School Psychology.** Three credits. An introduction with particular emphasis on the psycho-social perspective. Adaptive instruction of behavior measures included, as are observations of classrooms and teacher interviews.

607 **Advanced Industrial Organizational Training and Development.** Three credits. Prerequisite: PSY 302 or equivalent. Theory and methodology used in the training and development of hu-

man resources in organizations: needs assessment, program development, program evaluation, and legal and special issues in training and development.

608 Interventions with Children and Adolescents. Three credits. Prerequisite: PSY 525 or 640 or permission of instructor. Theoretical and practical issues related to interventions with children and adolescents exhibiting behavioral and emotional problems. Intervention strategies for specific problems. Experience designing and evaluating intervention plans. Legal, ethical, and practical issues.

611 Advanced Educational Psychology. Three credits. Applies and integrates psychological facts, principles, and techniques to the learning situation, including aspects of human development, learning, counseling, measurement, and evaluation.

612 Developmental Psychology: Child. Three credits. Survey of research including prenatal, neonatal, and general physical development, emotional development, cognitive development, and social and personality development. Observations.

613 Developmental Psychology: Adolescent. Three credits. Survey of research on adolescence from a biopsychosocial perspective. Student observation and study of developing adolescents from cognitive, biological, social, and psychological frameworks.

615 Career Counseling. Three credits. Prerequisites: PSY 526 (or 605) and 626 or permission of department. History, theory, and issues related to career development, career choice, and career education in grades K-12. Demonstration of the ability to teach career information seeking behavior and decision-making skills.

616 Foundations of School Counseling. Three credits. History, foundations, philosophy, and principles of developmental school counseling; roles and functions of school counselors, including professional and personal requirements.

617 Group Counseling and Psychotherapy. Three credits. Prerequisites: PSY 547 or 602; PSY 626 or 627G; permission of instructor. Corequisite: PSY 617L. Group process, ethics, and techniques. Application of counseling theory, group procedures, sociometrics, and group dynamics to interpersonal relations, mental health, school, and industrial settings. Supervised experience. Liability insurance required prior to enrollment.

617L Laboratory in Group Counseling and Psychotherapy. One credit.

619 Advanced Cognitive Psychology. Three credits. Topic-oriented overview of cognitive psychology. Models of attention, perception, memory, language, reasoning, problem-solving, and decision-making. Issues in cognitive development and cognitive neuropsychology.

619L Laboratory in Advanced Cognitive Psychology. One credit.

620 Advanced Psychometrics. Three credits. Prerequisites: PSY 605 and 628 or equivalents. Classical test theory and item response theory. Model, assumptions, and problems of classical test theory. Mathematical model, parameter estimation, and adaptive testing procedures using item response theory. Both theories will be utilized for test construction.

622 Organization and Administration of School Counseling Services. Three credits. Prerequisite: PSY 616. Organizing, administering, and managing the various components of a developmental school guidance and counseling program.

623 Legal and Ethical Issues in School Counseling. Three credits. Issues affecting the practice of school counseling, including legal/law, ethics, and credentialing.

624 Projective Measurements. Three credits. Prerequisite: PSY 627D, 426/526, or 605. Rationale and systematic supervised training in use and scoring of Rorschach (half semester) and other projective devices (half semester). Liability insurance required prior to enrollment.

625 Objective Personality Assessment. Three credits. Prerequisites: PSY 426/526 or 605; PSY 627D. Practical supervised experience in objective measurement, analysis, and pattern confirmations of key variables of personality, both for normative and specific divergent groups. Emphasis on MMPI. Liability insurance required prior to enrollment.

626 Pre-practicum in Counseling. Three credits. Prerequisite: PSY 547 or permission of instructor. Introduces basic communication skills, techniques, and process involved in working with clients in a counseling relationship; extensive role-play practice with peer and faculty feedback. Liability insurance required prior to enrollment.

627A Practicum in School Counseling. Three credits. Prerequisites: PSY 623; 626 or 608; 547 or 602; and 617 or permission of instructor. Practical supervised experience in individual and group counseling in a school setting; audio and/or video taping of sessions for peer and faculty feedback. Liability insurance required prior to enrollment.

627B Practicum: Industrial/Organizational Psychology. Three credits. Prerequisite: Consent of instructor. Supervised experience in industry, business, or government using psychological principles at a professional, applied level.

627D Intellectual Assessment. Three credits. Prerequisite: PSY 426/526 or 605. Practical didactic instruction in theory and practice of intelligence testing. Practical supervised experience in rapport, administration, scoring, and interpretation of individual intelligence tests for all age levels. Liability insurance is required.

627F Practicum: School Psychology. Three credits. Prerequisite: 15 semester hours of related graduate credits, including 606, 627D, and 675. Supervised assessment of low incidence learning and adjustment problems with follow-up parent, teacher, and administrator conferences. Practicum experience includes 90 hours of supervised work with a practicing certified, full-time psychologist. At least 50 percent of the practicum placement shall be in a school setting. Liability insurance required prior to enrollment.

627G Clinical Interventions. Three credits. Prerequisites: Admission to the clinical program or permission of instructor; PSY 651, 680, and 684. A supervised experience in which the student learns how to apply techniques of clinical interviewing for the purpose of developing, implementing, and evaluating treatment plans for clients. Liability insurance required prior to enrollment.

628 Intermediate Statistics for the Behavioral Sciences. Three credits. Prerequisite: PSY 302 or equivalent and satisfactory score on screening examination. Corequisite: 628L. Review of basic statistics; various correlation coefficients; multiple and partial correlation; simple and multiple regression.

628L Laboratory in Intermediate Statistics. Zero credit. Prerequisite: PSY 302. Can only be taken during the semester the student is enrolled in PSY 628.

629 Advanced Statistics for the Behavioral Sciences. Three credits. Prerequisite: PSY 628. Corequisite: PSY 629L. Scientific quantification, research design, and statistical analysis from the perspective of analysis of variance: one-way, factorial, repeated measures, and mixed designs.

629L Laboratory in Advanced Statistics. Zero credit. Prerequisite: PSY 302. Can only be taken during the semester the student is enrolled in PSY 629.

632 Performance Appraisal and Job Analysis. Three credits. Prerequisites: PSY 628 or permission of instructor. Analysis of theory and practice in job analysis and performance appraisal, including legal aspects, a survey of techniques available, current research, cognitive aspects, and reliability and validity issues.

633 Professional Issues in Industrial/Organizational Psychology. One credit. Survey of issues related to professional ethics, relevant legislation, professional affiliations, professional identity, and professional responsibilities.

635 Behavioral Medicine: Theory and Application. Three credits. Prerequisite: Consent of instructor. Review theory, methodology, and application of behavioral medicine. Includes behavioral science issues in health and applications of this information to diagnosis, prevention, treatment, and rehabilitation of health problems for which "life-stress" factors predominate. See PSY 635L.

635L Laboratory in Behavioral Medicine. One credit. Prerequisite: Consent of instructor.

636 Organizational Change and Development. Three credits. Prerequisite: PSY 645, 536, or permission of instructor. Analysis of theory and practice of organizational change and development, process of change, organizational development (OD) interventions, and evaluation and research of OD effectiveness.

637 Organizational Skills. Three credits. Prerequisite: PSY 536 or permission of instructor. Analysis of a variety of interpersonal situations which impact organizational effectiveness and climate. Development of skills: conflict resolution, interviewing, performance feedback, effective meetings, giving recognition, discipline.

638 Work Group Effectiveness. Three credits. Prerequisite: PSY 538, 645, or permission of instructor. Analysis of factors leading to effective work groups. Topics covered include task effects on performance, group composition, leadership, group processes, and team building.

640 Psychological Disorders of Children. Three credits. Current research and theory of behavioral, cognitive, and emotional disorders in childhood and adolescence.

642 Advanced Personnel Selection and Placement. Three credits. Prerequisites: PSY 526 or 605 and preferably PSY 628. Legal and research aspects of personnel selection. Methods used for selection, including assessment centers, work samples, and psychological testing.

644 Advanced Applied Behavioral Analysis. Three credits. Prerequisite: PSY 440 or permission of instructor. Intensive presentation of methods used in behavioral assessment and therapy. Application of various behavioral and cognitive-behavioral procedures.

645 Advanced Organizational Psychology. Three credits. Review of theory and empirical research in organizational psychology. Students will apply theory and research findings to understand and explain work behavior at the individual, group, and organizational levels and will use this knowledge to solve organizational problems.

646 Factor Analysis and Related Methods. Three credits. Prerequisites: PSY 628 and 629 or equivalents. Surveys each of the major factor analysis techniques and related latent trait theory with main focus on application. Nature, power, procedure, computer programming, interpretation, and limitations of each technique.

647 Computer Simulation in the Behavioral Sciences. Three credits. Prerequisites: PSY 628, 629, and 656 or equivalent. Basic issues in computer simulation and the monte carlo method. Emphasis on the application of simulation and monte carlo techniques to current topics in quantitative psychology. Students required to program selected computer-intensive statistical procedures and to perform monte carlo simulations using SAS.

649 Practicum: Quantitative Psychology. Three credits. Prerequisites: 30 credit hours of psychology including 605, 620, 628, 629, 646, 656, 658, or consent of the instructor. Supervised experience in statistical consultation for social and behavioral sciences.

650 Behavioral Methodology. Three credits. Prerequisite: PSY 540. Techniques for design and evaluation of clinical treatment and research. Includes single subject and group designs. Emphasis on direct observation and data collection procedures, reliability, social validity, and generalization.

651 Psychopathology. Three credits. Prerequisite: PSY 323/523. Extensive examination of the disorders included in the current diagnostic manual. Emphasis on adult disorders. Objectives are to enhance understanding of psychopathology and to develop minimal competence in diagnosis.

652 Psychopharmacology. Three credits. Biochemical, neurophysiological, and neuroanatomical basis; emphasis on drugs used in investigating and treating psychological disorders.

653 Psychology of Reading and Reading Development. Three credits. Overview of the cognitive processes involved in reading. The structure of both oral and written language; cognitive mechanisms in reading; language development and the acquisition of reading skills; developmental and acquired disorders of language and reading.

656 Computer-Based Statistical Packages. Three credits. Prerequisite: PSY 302 or equivalent. History, principles, and skills of data analysis, using major statistical packages. Commands in both DATA and PROC steps. Other features including various functions, graphics, full screen process (FSP), and interactive matrix language (IML).

657 Psychological Research Methods in Human Resource Management. Three credits. Prerequisite: PSY 628 or permission of instructor. Theory and appropriate methodology for conducting research relevant to human resource practices in organizations. Applied psychometric theory and quasi-experimental design.

658 Multivariate Data Analysis. Three credits. Prerequisites: PSY 628 and 629 or equivalent. Surveys each of the major multivariate data analysis techniques, with main focus on their application. Nature, power, procedure, computer programming, interpretation, and limitations of each.

659 Independent Research in Psychology. One to three credits per semester; may be taken more than once. Prerequisite: Permission of instructor. Individualized empirical research and library research approved by the instructor.

A. **General/Experimental** (1-9 credits applicable to degree)
B. **Industrial/Organizational** (1-3 credits applicable to degree)
C. **Clinical** (1-3 credits applicable to degree)
D. **Counseling** (1-3 credits applicable to degree)
E. **School** (1-3 credits applicable to degree)

661 Introduction to Educational and Psychological Research. Three credits. Prerequisites: PSY 302 and 426/526 or 605. Research in education and psychology, research strategies, research ethics, research writing and reporting. Planning, implementing, and writing an approved scholarly research proposal.

662 Independent Study: Industrial/Organizational Psychology. One to three credits. Prerequisite: Permission of instructor. Individualized library or empirical research project approved by instructor. A maximum of three credits will apply to a masters degree.

663 A-Z Literature Review and Reading in Psychology. One to three credits. Supervised literature review and/or readings on a topic of current importance in psychology. Topics and requirements obtained from individual faculty members. Specific courses may be repeated to a total of 6 credits.

A. **General/Experimental**
B. **Industrial/Organizational**
C. **Clinical**
E. **School**
F. **Quantitative**
G. **Behavioral Neuroscience**
H. **Cognitive**
I. **Developmental**
J. **Learning**
K. **Personality**
L. **Reading**
M. **Sensation and Perception**
N. **Social**

664 Thesis Research. One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

669 Professional Issues and Roles. Three credits. Systematic survey of ethical practice requirements, certification, and licensure for psychological practice. Examination of critical issues facing psychology and roles of psychologists.

671 Community Psychology. Three credits. Prerequisite: PSY 689. Ecological and environmental influences on behavior. Action research, program evaluation, prevention, and health promotion/competence as community interventions examined, and beginning competencies developed. Field experiences included.

675 Psychology and Assessment of Learning Disabilities. Three credits. Prerequisites: PSY 526 or 605 and 627D; prerequisite/corequisite: PSY 675L. Biological bases. Levels and skills of intervention and consultation for learning-disabled children, including reference to family, school, and community as sources of understanding and treatment. The disabilities, assessment, tools, results, and interventions. Liability insurance required prior to enrollment.

675L Educational Assessment. One credit. Prerequisite: PSY 627D. Skills in conduting educational assessment for completing evaluations of children suspected of having learning disabilities.

677 Assessment and Therapeutic Interventions for Children's Emotional Problems. Three credits. Prerequisites: PSY 440 and 627D. Personality and behavioral assessment with children. Linking assessment and diagnosis to therapeutic intervention. Developing therapeutic relationships with children.

678 Clinical Neuropsychology. Three credits. Prerequisites: PSY 627D, 625, and 578 or consent of instructor. Review of human neuroanatomy and neurophysiology. Administration of representative neuropsychological test batteries, especially the Halstead-Reitan Neuropsychological Test Battery. Applied experience with clinical population. Liability insurance required prior to enrollment.

680 Techniques of Psychotherapy. Three credits. Psychotherapeutic techniques common to most, if not all, theoretical orientations: rapport building, goal setting, management of dangerous clients, etc.

681A Internship: Behavior Modification. Two to ten credits; may be repeated; enrollment must be continuous. Prerequisites: 30 semester hours of psychology including 440, 548, or 602. Minimum of 128 hours of supervised internship in an institutional setting. Liability insurance required prior to enrollment.

681B Internship: School Psychology. Two to ten credits; may be repeated. Prerequisites: 30 semester hours of psychology including 606, 627D, 627F, and 676; approved thesis proposal. Minimum of 720 hours supervised internship, at least half in a school system. Not acceptable as Ed.S. internship. Liability insurance required prior to enrollment.

681C Internship: Counseling and Clinical Psychology. Two to ten credits; may be repeated. Prerequisites: Permission of program coordinator in Clinical Psychology or School Counseling. Minimum of 128 supervised internship hours in a counseling or clinical institution. Liability insurance required prior to enrollment.

681D Internship: Secondary School Counseling. One to six credits. Prerequisite: PSY 627A. Actual experience in the counseling, consulting, coordinating services to adolescents, teachers, and parents. Requires 300 hours in the schools, with at least 40 percent in direct service. Liability insurance required prior to enrollment.

681E Internship: Elementary School Counseling. One to six credits. Prerequisite: PSY 627A. Actual experience in the school (grades K-8) providing counseling, consulting, coordinating services to children, teachers, and parents. Requires 300 hours in the schools, with at least 40 percent in direct service. Liability insurance required prior to enrollment.

682 Family Therapy: Evaluation and Treatment Planning. Three credits. Examination of evaluation and intervention procedures of major models of family therapy. Emphasis on ethical issues for practitioners of family therapy.

683 Techniques of Family Therapy. Three credits. Techniques common to most models of family therapy. Application of techniques to specific types of family problems. Liability insurance required prior to enrollment.

684 Individual Psychotherapy. Three credits. Prerequisite: PSY 680. Intensive presentation of theory and methods used in psychotherapy. Application of various psychotherapeutic procedures.

686A Field Practicum (Clinical). Three credits. Prerequisites: Admission to the clinical program or permission of the instructor; 24 hours including PSY 651, 627D, 625, 627G, 680, 684, and 669. Supervised clinical training in a community mental health agency.

Supervision by a licensed psychologist at the agency. 300 clock hours for 3 credit hours. Liability insurance required prior to enrollment.

686B Field Practicum (Clinical). Three credits. Prerequisite: PSY 686A. Must be taken in semester immediately following 686A. Continuation of supervised clinical training in a community mental health agency. Supervision by a licensed psychologist at the agency. 300 clock hours for 3 credit hours. Liability insurance required prior to enrollment.

686 C-F Field Practicum (Clinical). Three credits each. Prerequisites: Admission to the clinical program or permission of the instructor; 24 hours including PSY 651, 627D, 625, 627G, 680, 684, and 669. Supervised clinical training in a community mental health agency. Supervision by a licensed psychologist at the agency. 300 clock hours for 3 credit hours. Liability insurance required prior to enrollment.

688 A-G Independent Study in School Psychology. One credit each. Competencies-oriented individualized study.

A. **Learning**
B. **Personality Development**
C. **Assessment and Consultation**
D. **Research and Evaluation**
E. **School Roles**
F. **Organizational and Curricular Patterns**
G. **Independent Study in School Psychology.** Competencies-oriented field experience. Forty-five hours of work as a school psychologist in training. Course may be repeated up to three times for credit.

689 Consultation. Three credits. Prerequisite: PSY 627A or 627G or 608 or permission of instructor. Course must be taken prior to or concurrent with the first internship (681D or 681E). Theory and practice of consultation as a useful technique in the helping professions. Applied experiences in schools and other settings.

690-699 Assessment of School Counseling Area Licensing Competencies. For the advanced student who by exceptional prior training or experience believes course work for competence mastery is unnecessary in one or more of these specific areas. All credit earned may be applied to a Master of Education degree in Psychology.

690 Area I: **Foundations**. One credit.
691 Area II: **Assessment**. One credit.
692 Area III: **Counseling**. One credit.
693 Area IV: **Group Processes**. One credit.
694 Area V: **Personal, Social, and Educational Development.** One credit.
695 Area VI: **Career Development and Vocational Guidance.** One credit.
696 Area VII: **Research**. One credit.
697 Area VIII: **Administration**. One credit.
698 Area IX: **Consultation**. One credit.
699 Area X: **Practicum**. Two credits.

701F General Psychology Seminar: Physiological. One credit. A review of the structure, function, and influence on behavior of the basic physiological systems of the human.

708 Practicum: Advanced Interventions with Children. Three credits. Prerequisite: PSY 608. Theoretical and practical issues related to school interventions with children exhibiting psychological and behavior problems. Advanced skills development in consultation with parents and teachers, psychotherapy with children, and brief, short-term family therapy.

710 Multicultural and Social Bases for Assessment and Intervention Practices. Three credits. Prerequisite: PSY 627F or PSY 626. Theoretical and practical issues related to appropriate practices in assessment, diagnosis, and therapeutic interventions for youth of diverse ethnic and cultural groups.

735 Advanced Social Psychology. Three credits. Advanced content including cognizance of current journals and readings.

752 Assessment and Treatment of Addictions. Three credits. Systematic analysis of the addictional phenomena with particular emphasis on dynamics and behavioral manifestations. Alcohol, street and prescription drugs, gambling, TV, religion, politics, and sex as aberrational forms of altering consciousness explored. Causation, clinical diagnostics, and treatment procedures as well as prevention are addressed in detail.

781B Advanced Internship: School Psychology. Three to six credits (may be repeated; enrollment must be continuous). Prerequisites: 60 semester hours of psychology and M.A. degree; PSY 606, 627D, 627F, and 677. Minimum of 1200 hours supervised internship, at least half in a public school system. Liability insurance required prior to enrollment.

Department of Sociology and Anthropology

Edward Kick, Chair
Peck Hall 316

The Sociology and Anthropology Department offers the Master of Arts with a major in Sociology and a minor in sociology at the graduate level.

Requirements for the Master of Arts

Admission Requirements

Full admission for a degree-seeking candidate: Receipt of all materials by April 1 for fall admission, September 15 for spring admission. A complete application includes application, letter of interest and goals, three letters of recommendation, all transcripts, at least a 2.75 GPA, acceptable GRE scores, and the successful completion of at least 18 hours of undergraduate sociology which includes the prerequisites of research methods (SOC 304), statistics (SOC 305), and sociological theory (SOC 306), or their equivalents. A grade of C or better must be earned in the prerequisite courses.

Conditional admission for a degree-seeking candidate: Conditional admission is possible, but not guaranteed, under the following circumstances: (a) GRE score is less than acceptable (exception is dependent upon the strength of the other admission criteria); (b) Prerequisites are missing or the grade is less than a C. All prerequisites must be completed within the next year following this conditional admission and prior to enrollment in the 12th hour of graduate study. If these conditions are not met, the candidate will be dropped from the program and must seek readmission in a subsequent semester; (c) GPA is less than 2.75 (exception is dependent upon the strength of the other admission criteria).

Degree Requirements

Candidate must

1. complete a minimum of 33 semester hours in graduate-level courses, 21 of which must be graduate level sociology courses with no more than 9 of the 33 hours dual-listed as undergraduate/graduate hours (400/500);
2. complete all required courses, including SOC 511, 646 or 656, 662, and 672 with a minimum grade of B;
3. complete 6 hours of thesis research (SOC 664) and submit and successfully defend a thesis;
4. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
5. successfully complete a written comprehensive examination.

Graduate Assistantship Application

Applications are due by April 1. Applicant must meet the following conditions: (a) be admitted to the M.A. program in sociology and (b) have an undergraduate GPA of at least 3.00 OR a graduate GPA of at least 3.00 over a minimum of 9 hours of completed graduate courses.

Courses in Sociology [SOC]

500 **Quantitative Methods of Research.** Three credits. (Same as P S 500.) The application of quantitative methods of empirical research to problems in sociology, political science, and geography.

501 **Social Class and Stratification.** Three credits. The origins and consequences of differentiation, variations, stratification, and social class.

505 **The American Family.** Three credits. An analysis: contemporary American family patterns; racial, ethnic, and class variations.

510 **Industrial Sociology.** Three credits. Industrial, business systems, and other work units.

511 **Quantitative Methods of Research.** Three credits. Prerequisite: SOC 305, SOC/PS 500, or equivalent. (Same as P S 511.) Fundamentals of quantitative methods in empirical research problems in the social sciences.

514 **Violence in the Family.** Three credits. (Same as CDFS 514.) Causes, dynamics, and consequences of violence in the family. Includes the discussion of violence toward children, spouses, dating partner, siblings, and elders. Emphasizes the social conditions which lead to these types of violence.

515 **Topics in Sociology.** Three credits. An in-depth topic significant in current sociological literature.

517 **The Social Context of Southern Music.** Three credits. A sociohistoric analysis of southern music providing a framework for examining the relationship between culture and popular culture, the production of popular culture, and popular culture as a vehicle for examining social issues of the southern region.

524 **Race and Ethnic Relations.** Three credits. Theories and dynamics of intergroup relations in a multi-ethnic society.

526 **Urban Sociology.** Three credits. The ecological, demographic, and institutional structure of urban areas. Impact of urbanization, industrialization, and bureaucratization upon contemporary life.

530 **Criminology.** Three credits. Theories of criminal behavior, development and incidence, punishment, and methods of control and rehabilitation.

532 **Public Opinion and Propaganda.** Three credits. (Same as P S 532.) Public opinion and its role in the political and social processes.

536 **Medical Sociology.** Three credits. Health care settings, services, issues, and policies; both the recipient's and provider's roles.

550 **Social Psychology.** Three credits. Individual behavior in social contexts and symbolic interaction among groups. Includes social influences on perception, conformity, attitudes, communication, group structure, leadership, and role behavior.

551 **Social Movements and Social Change.** Three credits. Comparative study of representative social movements: political, economic, religious, and ethnic.

552 **Population Studies.** Three credits. The demographic analysis of population trends and their influence on American society including principles, structure, and trends in human populations.

554 **Juvenile Delinquency.** Three credits. Social factors related to delinquency including family, peer group, school, and community. Includes the juvenile justice system and its agents.

555 **Sociology of Religion.** Three credits. Religion as social process and institution. An ideological, structural, and functional analysis. Specific U.S. religions examined in detail.

556 **Complex Organizations and Occupations.** Three credits. Relationship of occupations to social structure. Emphasis on analysis of complex organizations as work settings.

561 **Sociology of Alcohol.** Three credits. An examination of beverage alcohol's influence on American culture and its social impact.

566 **Community Analysis.** Three credits. The sociology of community with an emphasis on the various models of community structure, organization, analysis, and the relationship of community to the broader context of mass society.

574 **Kinship and Marriage.** Three credits. (Same as ANTH 574.)

579 **Sport and Society.** Three credits. Behavioral approach to the sport and leisure phenomena from the related perspectives of sociology and anthropology.

580 **Special Projects.** One to three credits. Experience in research through which special interests or needs of the student may be pursued under individual supervision. Arrangements should be made with an instructor prior to registration.

600 **Comparative Social Change.** Three credits. (Same as P S 600.) A historical comparative examination of the structure, institutions, and development of the modern world system; a review of major theoretical and empirical research on the world system.

601 **Seminar in Comparative Welfare States and Social Policy.** Three credits. A historical comparative examination of social policy formulation, structure, and consequences. Focus on development of modern welfare states in Western Europe, North America, and developing states of Latin America and Asia. Critical analysis of social policy development.

646 **Classical Sociological Theory.** Three credits. Prerequisite: SOC 306 or equivalent. Emphasis on history, analysis, and theory construction of early to mid-twentieth-century social thinkers.

651 **Readings.** One to three credits. Recommended for students past the midpoint in their master's programs. Designed to provide an opportunity to fill perceived gaps in the program of study and as precursor for the thesis.

654 **Seminar in Deviant Behavior.** Three credits. Sociological frames of reference for studying deviant behavior.

656 **Seminar in Contemporary Sociological Theory.** Three credits. Prerequisite: SOC 306 or equivalent. Theories of social interaction and social systems. A systematic approach to the analysis of social phenomena and research.

657 **Seminar in Advanced Social Psychology.** Three credits. The dynamics of human interaction: attitudes, processes, group structures, settings, and properties.

662 **Quantitative Research Design.** Three credits. Prerequisites: SOC 304 and 305 or equivalent. Description and analysis of methodologies. Students pursue supervised independent design and analysis.

663 **Seminar in Marriage and the Family.** Three credits. Principles of family organization; family as a socio-cultural institution in various societies; theories of family structure, change, and deviance.

664 **Thesis Research.** One to six credits. Prerequisite: Student must have filed Candidacy Form and selected thesis committee before enrolling. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

665 **A-Z Topical Seminar in Sociology.** Three credits. An in-depth investigation of a particular sociological issue or sub-discipline. A maximum of six hours may be credited to one's major.

666 **Program Evaluation.** Three credits. An applied examination of the strategies and techniques of evaluation research.

669 **Death and Survivorship.** Three credits. The social complexities of dying, death, and survivorship with particular emphasis given to the aging population.

670 **Introduction to Community and Regional Development: An Interdisciplinary Seminar.** Three credits. Analysis of the problems and proposed solutions of community development from an interdisciplinary point of view.

671 **Japanese Business and Society.** Three credits. (Same as ECON 654.) Japanese economy, business practices, and social and physical environment in comparison with those in other countries, particularly the United States.

672 **Qualitative Research Design.** Three credits. Prerequisite: SOC 304 or equivalent. Introduces methods and issues of qualitative social science research. Topics include the ontological, epistemological, and theoretical bases of qualitative research; methods for collecting and analyzing qualitative data; personal and ethical issues of research; developing, proposing, and implementing qualitative research projects.

690 **Practicum: Applied Analysis.** Three credits. Prerequisite: SOC 662 and permission of instructor. Supervised independent study in which student is placed in an organization on a contractual basis. Course directed toward student pursuing career in applied sociology.

Courses in Anthropology [ANTH]

541 **African Cultures.** Three credits. African societies in transition to modern nations, traditional cultures, the foundations of change, and the problems of the African peoples.

542 **Indian Cultures of North America.** Three credits. Human origins in the New World; the archeology, ethnohistory, socio-cultural life, and contemporary problems of the North American Indian.

70 **Ethnographic Field School.** Three to six credits. Field experience in a cross-cultural setting. Training in ethnographic research techniques.

71 **Primitive Religion.** Three credits. Myth and ritual in non-literate societies. Belief systems, patterns of witchcraft and magic, and the role of the ceremonial practitioner in the tribal world.

72 **Law and Politics in Traditional Societies.** Three credits. Law and methods of social control in primitive societies. Emphasis on the importance of a cross-cultural perspective for understanding Western political behavior.

74 **Kinship and Marriage.** Three credits. (Same as SOC 574.) Principles of family organization with cross-cultural comparisons.

75 **Archaeological Field School.** Three to six credits. Basic techniques of archeology and paleo-ecology through participation in actual excavation and laboratory work.

76 **Ritual.** Three credits. Ritual in sacred and secular contexts. Examination of function and logic of ritual in social systems.

77B **Field Course in Historical Archaeology.** Three credits. (Same as HIST 577B and GEOG 577B.) Prerequisite: HIST 577A or ANTH 320 or permission of instructor. Archaeological resources and procedures and the interpretation of historical evidence undertaken at a field archaeological site.

80 **Special Projects.** One to three credits. Experience in research through which special interests or needs of the student may be pursued under individual supervision. Arrangements should be made with an instructor prior to registration.

83 **Culture Change and Applied Anthropology.** Three credits. Culture change theory and the practical dimension of anthropology in research and planned change implementation.

85 **Development of Anthropological Theory.** Three credits. Basic theoretical trends in the history of the anthropological discipline, from the mid-1800s into the contemporary period.

86 **Contemporary Anthropological Theory.** Three credits. Focus on culture, history, social structure, social organization, cross-cultural studies, cognitive, and interpretative anthropology; examines the applications of these modern theories to explain human behavior.

Courses in Aging Studies [SOC]

502 **Sociology of Aging.** Three credits. Demographic, social, and cultural aspects of aging. Emphasis on the types of problems encountered by older persons in American society.

503 **Topics in Gerontology.** Three credits. An opportunity to integrate gerontological theory and research techniques in working with the practical problems of older persons.

504 **Health Care Delivery Issues.** Three credits. An assessment of critical issues with special emphasis on policies, procedures, and intervention strategies in long-term care settings.

508 **Group Work with the Elderly.** Three credits. The application of group dynamics as problem-solving and intervention strategy in the delivery of services to the elderly.

509 **Health Care Management.** Three credits. Details of the technical aspects of health care management with an emphasis on long-term care settings.

580 **Special Projects.** One to three credits. Experiences in research through which special interests or needs of the student may be pursued under individual supervision. Arrangements should be made with an instructor prior to registration.

655 **Seminar on Aging.** Three credits. In-depth investigation of selected topics in social gerontology.

667 **Mental Health and Aging.** Three credits. The basic concepts associated with mental health and the aging process. The epidemiology, assessment process, and approaches to treatment stressed. A positive approach to the mental well-being of the older adult provided.

668 **Counseling Elders.** Three credits. Prerequisite: SOC 667 recommended but not required. Counseling techniques and outcomes common to late life therapy. Special application to specific problems and social environments of the elderly.

Courses from recreation, psychology, and speech and theatre are to be used in conjunction with these sociology courses to complete the requirements for a multidisciplinary minor in Aging Studies. Students should consult their advisors for specific courses from the various departments.

Department of Speech and Theatre

Russell Church, Chair
Boutwell Dramatic Arts 205

The Department of Speech and Theatre offers a minor at the graduate level.

Courses in Speech and Theatre [SPEE]

500 **Communication in the Educational Environment.** Three credits. Designed to meet the needs of the classroom teacher. Successful communication strategies applicable to the classroom environment.

501 **Clinical Methods in Communication Disorders.** Three credits. Prerequisites: SPEE 345/545, 346/546, 347/547, and 442/542 for majors. Planning and implementing treatment programs for individuals with communication disorders; a foundation for clinical practicum.

508 **Theatre in Education.** Three credits. For current and prospective teachers. Integration of drama across the curriculum. The creation, construction, performance, and touring of a play for elementary school children.

510 **A, B, C, D Practicum in Speech-Language Pathology I.** Three credits each. Prerequisites for 510A: SPEE 358 and 401/501, prior semester application, and completion of academic and professional criteria established by the faculty. Prerequisites for 510 B, C, an D: SPEE 410A/510A, B, and C respectively. Supervised clinical practice in the University clinic.

510E **Practicum in Speech-Language Pathology II.** Three credits. Prerequisites: SPEE 410/510 A and B, prior semester application, and approval by faculty. Advanced supervised clinical practice in an off-campus clinical facility.

510F **Practicum in Speech-Language Pathology III.** Six credits. Prerequisites: SPEE 410/510 A and B, prior semester application, and approval by faculty. Organization, management, and implementation of public school speech-language and hearing programs. Public school course and advanced supervised clinical practice in a public school setting.

511 **A, B, C, D Practicum in Audiology.** One credit each. Prerequisites for 511A: SPEE 348/548 and 410A/510A or permission of instructor. Prerequisites for 511 B, C, and D: 511A, B, and C respectively. Laboratory course in applying principles of audiology.

514 **Theatre History I: Greek Period to Restoration.** Three credits. Development of drama and the theatre; critical study of representative plays of the period.

516 **Children's Drama and Speech.** Three credits. Creative dramatics, children's theatre, puppetry, mask-making. Motivational, self-directed learning through creative and performance arts.

519 **Theatrical Costume History.** Three credits. Prerequisite: SPEE 342 or permission of instructor. An advanced course incorporating all aspects of costume production in the performing arts focusing on historical research, historical reproduction methods, construction design, resource management, creative problem solving, and portfolio and resume development. Laboratory hours required.

521 **Argumentation.** Three credits. The theory and practice of advocacy speaking with emphasis on organization, refutation, reasoning, and rebuttal. In-class debating on questions of fact, value, and policy.

522 **Discussion.** Three credits. The theory and practice of small group discussions as a means of decision making. Special emphasis on reflective thinking and interpersonal communication as tools for effective group deliberation.

523 **Advanced Public Speaking.** Three credits. Prerequisite: SPEE 220 or permission of the instructor. Application of the principles of public speaking through analysis and criticism of speech structure and delivery of classroom speeches.

524 **Organizational Communication.** Three credits. Emphasis on communication problems in contemporary organizations and ways and means of resolving such problems.

526 **Readings in Speech Communications.** Three credits. Prerequisite: Permission of instructor. Intensive work in a specific area of speech communication; topic is chosen in instructor-student conference.

527 **Theatrical Costume Design.** Three credits. Prerequisite: SPEE 342 or permission of instructor. Costume design in the performing arts; an orientation to the costume application of design and development principles through costume design projects developed through research for various performance venues with a focus on student career and portfolio development.

528 **Political Communication.** Three credits. Selected outstanding speakers and their techniques of speech communication.

529 **Storytelling.** Three credits. Instruction and experiences in storytelling in educational, corporate management, and performance contexts. Investigation of influence of storytelling on culture, organizational behavior, leadership, and education.

532 **Theories of Persuasive Communication.** Three credits. Recent writing and research on theories of oral persuasion and on current practices of persuasion. Emphasis on the ethical, critical, cultural, and functional implications in contemporary persuasion theory and practice.

533 **Advanced Play Directing.** Three credits. Prerequisite: SPEE 552 or permission of instruction. Case studies and problem solving of rehearsals and production. Director's relationship with designers. Investigation of style. Rehearsal and presentation of one-act play.

534 **Scene Design.** Three credits. Prerequisites: SPEE 333 and 335 or permission of instructor. Lecture and practical experience in planning and designing stage settings. Emphasis on forms and styles of scenery, historical period research, designers, and new theatrical materials, methods, and techniques. Major projects in set design. Laboratory hours and/or crew requirement.

535 **Theatre Production.** Three credits. Prerequisite: SPEE 333 or permission of instructor. Lectures and projects in all phases of technical theatre production. Emphasis on planning and staging productions through developing floor plans, sections, working

drawings, elevations, and light plots. Major project in model making for the stage. Laboratory hours and/or crew requirement.

536 Advanced Acting. Three credits. Prerequisite: SPEE 331 or permission of instructor. The development of advanced skills in the ability to analyze and interpret the more complex characters in drama. Study of classical acting styles.

537 Theatre Organization and Stage Management. Three credits. Prerequisite: Permission of the instructor. Lectures and practical experience in basic methods and principles. Emphasis on ways in which theatre organization and stage management complement each other while striving to create the desired dramatic effect upon an audience. Major projects required. Crew requirement.

538 Practicum in Summer Theatre. Three credits. Prerequisite: Employment in summer theatre during the previous summer. A seminar for students who have worked in summer theatre. Includes discussion of assets of training there, auditioning, interviewing, production problems, impact on local community, and impact on college theatre.

539 Problems in Theatre, A-Z. One to three credits. Prerequisite: Permission of instructor. Designed to meet individual and/or group needs in all aspects of theatre arts. The topic and credit to be determined at the time of scheduling. A maximum of 6 semester hours credit may be applied toward a degree.

540 Stage Lighting. Three credits. Prerequisites: SPEE 333 and 335 or permission of instructor. Lectures and practical experience in methods and techniques. Emphasis on developing plots through knowledge of electricity, circuitry, instrumentation, and control equipment. Major projects in lighting design. Laboratory hours and/or crew requirement.

541 Fluency Disorders. Three credits. Prerequisite: SPEE 345/545. Etiologies, assessment, and treatment of fluency disorders.

542 Speech and Language Development. Three credits. Child speech and language acquisition from birth to seven years of age. Emphasis on normal linguistic development.

543 Advanced Audiology. Three credits. Prerequisite: SPEE 348/548. Development of advanced skills in the evaluation and remediation of hearing problems.

544 Theatre History II: Restoration to Present. Three credits. Development of drama and the theatre; critical study of representative plays of the period.

545 Introduction to Communication Disorders. Three credits. Overview of the most common disorders of hearing, speech, and language and intervention measures.

546 Phonetics. Three credits. Training in the recognition and production of the sounds of speech with an analysis of their formation; extensive practice in phonetic transcription.

547 Phonological Disorders. Three credits. Prerequisites: SPEE 345/545 and 346/546. Speech development, etiologies of phonological/articulatory problems, and approaches for assessing and remediating speech-sound errors.

548 Hearing Problems and Testing. Three credits. The etiologies and diagnoses of hearing problems, and practical experiences in administering audiometric examinations.

549 Anatomy and Function of the Speech Mechanism. Three credits. Structures and functions of the speech mechanism.

551 Training for the Hearing Impaired. Three credits. Prerequisites: SPEE 345/545, 348/548, 442/542. Materials and methods employed in training the hearing impaired.

552 Fundamentals of Play Directing. Three credits. Prerequisite: SPEE 331 or permission of instructor. Director as literary analyst and production critic. Play analysis, production concepts, staging theory and techniques, rehearsal methods and procedures. Scene work.

553 Speech, Language, and Auditory Problems of the Aged. Three credits. Overview of the impact of age on communication. Identification and remediation of communication problems associated with the aging process.

554 **Advanced Scenic Design.** Three credits. Prerequisites: SPEE 333 and 434 or permission of instructor. Advanced methods and theories of scenic design. Strong emphasis on practical projects, the design process, and critical methods of study. Components on design history and theory/criticism.

555 **Communication Problems in Children.** Three credits. Prerequisites: SPEE 349/549 and 410A/510A or permission of instructor. A comprehensive study of the speech, language, and voice difficulties experienced by children.

556 **Intercultural Communication.** Three credits. Dynamics of the communication process as it functions in intercultural contexts; training for successful cross-cultural communication interactions.

557 **The Body Intelligent: A Study of the Alexander Technique.** Two credits. (Same as MUSI 557.) For those interested in improving ease and freedom of movement, balance, support, flexibility, and coordination in daily activity.

560 **Diagnostic Procedures in Speech Pathology.** Three credits. Prerequisites: SPEE 410/510A or permission of instructor. Basic concepts of measurement and application of diagnostic procedures used in speech-language pathology.

562/563 **Applied Speech.** One credit each. Prerequisite: Recommendation by a faculty member. Laboratory courses in which the principles of effective communication and/or dramatic production are applied.

564 **Topics in Scenography.** One to three credits. Prerequisites: SPEE 333 and permission of instructor. Designed to meet individual and group needs for advanced study in theatre. Topic to be determined at time of scheduling. A maximum of six semester hours credit may be applied toward a degree.

565 **Special Topics in Communication Disorders.** Three credits. Advanced reading and discussion seminar in speech-language pathology or audiology.

566 **Special Effects Make-up.** Three credits. Prerequisites: SPEE 334 or permission of instructor. Orientation to special effects make-up design, techniques and design realization through make-up projects, and research for various performance venues with a focus on student career and portfolio development.

570 **Senior Seminar in Speech Communication.** Three credits. Intensive investigation of the major research methodologies in speech communication, presentation of senior projects, and a synthesis of the speech communication discipline.

574 **Advanced Stage Lighting.** Three credits. Prerequisites: SPEE 333 and 440 or permission of instructor. Advanced methods and theories of lighting design. Strong emphasis on practical projects, design process, and critical methods of study. Includes components on design history and theory/criticism.

576 **Topics in Theatrical Costume.** One to three credits. Prerequisite: SPEE 342 or permission of instructor. Designed to meet individual and group needs for advanced study in theatrical costume. Topic to be determined at time of scheduling.

580 **A-Z Special Topics in Speech Communication.** One to three credits. Designed to meet individual and group needs for advanced study in speech communication. Topic to be determined at time of scheduling. A maximum of six semester hours may be applied toward a degree.

Vocational-Technical Education

Participating Schools and Departments:

Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; Human Sciences; Engineering Technology and Industrial Studies

The curriculum for the master's degree in vocational-technical education has been designed to prepare the graduate to fill an important leadership role in vocational-technical education. It is intended to build upon a foundation of undergraduate vocational and/or technical work in agriculture, business education, marketing education, human sciences, technology education, or trade and industrial education; and to serve other disciplines where a broad understanding of vocational education is desired. Requirements for licensure should be checked in the office of the dean, College of Education. There are two options. A graduate minor is also available.

Normally, admission to the M.V.T.E. program requires a score of 30 on the Miller Analogies Test or a satisfactory score on the Graduate Record Examination.

Requirements for the Master of Vocational-Technical Education (M.V.T.E.)

Thesis Option

Candidate must

1. have completed undergraduate prerequisites of a minor or licensure in one of the participating areas or have three years of appropriate work experience;
2. complete at least 30 semester hours, including a thesis of 3 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours:
   a. a major consisting of 18 semester hours selected from the core curriculum to include VTE 662 and VTE 664;
   b. a minor in one or more of the following departments: Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; Human Sciences; Engineering Technology and Industrial Studies; Psychology; Elementary and Special Education; and Educational Leadership;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. successfully complete a written and oral comprehensive examination;
5. orally defend the thesis.

Non-Thesis Option

Candidate must

1. have completed undergraduate prerequisites of a minor or licensure in one of the participating areas or have three years of appropriate work experience;
2. complete at least 36 semester hours with no more than 30 percent of the total degree hours dually listed as undergraduate/graduate hours:
   a. a major of 18 semester hours selected from the core curriculum to include VTE 651 and VTE 662;
   b. a minor in one or more of the following departments: Agribusiness and Agriscience; Business Education, Marketing Education, and Office Management; Human Sciences; Engineering Technology and Industrial Studies; Psychology; Elementary and Special Education; and Educational Leadership; the program may include a cognate in one of the above in addition to the minor; a cognate in sociology is also available for human sciences majors pursuing a career in dietetics;
3. file a Candidacy Form with the Graduate Office prior to the completion of 24 credit hours;
4. successfully complete a written and oral comprehensive examination;
5. orally defend the VTE 651 paper.

Courses in Vocational-Technical Education [VTE]

The following courses compose the core curriculum:

631 **History and Philosophy of Vocational-Technical Education.** Three credits. The historical, economic, social, and philosophical factors resulting in federal, state, and local legislation and programs of vocational-technical education.

632 **Vocational-Technical Education Curriculum Systems.** Three credits. Analysis of current trends and practices directed toward development, implementation, and management of vocational technical education curriculum systems.

634 **Administration and Supervision of Vocational-Technical Education.** Three credits. The practical application of administrative and supervisory theory in vocational-technical programs.

641 **Vocational-Technical Education Internship.** Three to six credits. Interns will be assigned to chosen fields of interest at the local, regional, or state levels for purposes of application of course work and acquisition of practical experience.

643 **Vocational-Technical Education Program Planning and Evaluation.** Three credits. Developing understanding of techniques and ability to use a systems approach to planning and evaluation of vocational-technical education programs.

651 **Problems in Vocational-Technical Education.** Three credits. Independent investigation and written report of current problems related to vocational-technical education under the direction of members of the MVTE faculty.

662 **Methods of Research.** Three credits. Introduces methods and tools of research, including analyzing, interpreting, and utilizing data. Problem researched; proposal written in thesis format.

664 **Thesis Research.** One to six credits. Selection of a research problem, review of pertinent literature, collection and analysis of data, and composition of thesis. Once enrolled, student should register for at least one credit hour of master's research each semester until completion. S/U grading.

Graduate Faculty

Full Membership

In order to become a member of the graduate faculty, an individual must show evidence of research accomplishments and graduate teaching excellence. Thereafter, members are evaluated for renewal in accordance with Graduate Council criteria. In general, full membership means that the individual

- holds the terminal degree in the teaching field(s);
- has a minimum of three years faculty experience in graduate education;
- has demonstrated an expertise in research/other professional activities;
- has been recommended by the department chair and college dean;
- has been recommended by the Graduate Council;
- has been approved by the dean of the College of Graduate Studies

Associate Membership

This category applies to full-time faculty who do not meet the criteria for full membership. The period of appointment is for three years and may be renewed in accordance with Graduate Council criteria. An associate member may not direct doctoral dissertations, but may serve as a dissertation committee member/reader. An associate member may direct master's theses after having served as a committee member/reader. In general, associate membership means that the individual

- holds the terminal degree in the field(s);
- has expressed an interest in contributing to graduate instruction;
- has been recommended by the department chair and college dean;
- has been recommended by the Graduate Council;
- has been approved by the dean of the College of Graduate Studies.

Adjunct Membership

This category applies to part-time adjunct faculty. The period of appointment is two years and may be renewed in accordance with Graduate Council criteria. Adjunct members may not direct a doctoral dissertation or a master's thesis, but may serve as a committee member/reader. These members are not listed in the graduate catalog. Adjunct faculty membership means that the individual

- holds the terminal degree in the field(s);
- has provided qualifications for teaching the assigned graduate course(s);
- has been recommended by the department chair, the undergraduate college dean, and Graduate Council;
- has been approved by the dean of the College of Graduate Studies.

Retired

Retired Graduate Faculty members are listed in the section immediately following the listing of the current Graduate Faculty members.

This listing reflects the Spring 1999 faculty members and administrators. The date in parentheses is that of first appointment to a position at MTSU.

Adams, C. Nathan, Professor, Computer Information Systems
B.S., 1961, Abilene Christian College; M.S.C., 1963; Ph.D., 1975, University of Alabama; C.D.P., 1977. (1975)

Aday, Ronald H., Professor, Sociology and Anthropology
B.S., 1966, Oklahoma State University; M.S., 1971, Tulsa University; Ph.D., 1976, Oklahoma State University. (1980)

Amey, Foster K., Assistant Professor, Sociology and Anthropology
B.A., 1979, University of Cape Coast; M.A., 1994; Ph.D., 1997, Bowling Green State University. (1999)

Aspinwall, Leslie N., Assistant Professor, Mathematical Sciences
B.S., 1971, University of Alabama; M.A., 1989, University of West Florida; Ph.D., 1994, Florida State University. (1994)

Austin, M. Jill, Associate Professor, Management and Marketing; Department Chair
B.B.A., 1979; M.B.A., 1981, Delta State University; D.B.A., 1986, Mississippi State University. (1985)

Babb, Charles Worthy, Professor, Elementary and Special Education
B.S., 1960; M.A., 1964, Middle Tennessee State University; Ed.D., 1971, University of Alabama. (1971)

Badley, Linda C., Professor, English
B.A., 1966, Oklahoma Baptist University; M.A., 1967, University of Iowa; Ph.D., 1977, University of Louisville. (1979)

Bailey, Frank C., Assistant Professor, Biology
B.S., 1987, Rhodes College; Ph.D., 1994, Clemson University. (1994)

Barnett, Claudia, Assistant Professor, English
B.A., 1988, Cornell University; M.A., 1990; Ph.D., 1994, Ohio State University. (1994)

Barnwal, Rajesh K., Assistant Professor, Mathematical Sciences
B.S., 1982, Indian Statistical Institute; M.S., 1991, University of Western Ontario; Ph.D., 1990, University of Windsor. (1994)

Bartley, Dianne A.R., Professor, Health, Physical Education, Recreation, and Safety
B.S., 1969, Howard University; M.Ed., 1970, Pennsylvania State University; Ph.D., 1983, University of Maryland. (1991)

Beard, Mala L., Assistant Professor, Engineering Technology and Industrial Studies
B.S., 1969, University of Tennessee, Knoxville; M.S., 1974, University of Oklahoma; Ph.D., 1994, Colorado State University. (1998)

Beemon, F.E., Associate Professor, History
B.A., 1967, University of Mississippi; M.A., 1974, Mississippi College; Ph.D., 1988, University of Tennessee, Knoxville. (1989)

Belsky, Janet K., Associate Professor, Psychology
B.A., 1969, The University of Pennsylvania; Ph.D., 1976, The University of Chicago. (1991)

Berg, Thomas R., Associate Professor, Radio-Television/Photography
B.F.A., 1970, University of South Dakota, M.S., 1974, Iowa State University; Ph.D., 1988, University of Georgia. (1991)

Bergman, Race P., Professor, Elementary and Special Education; Interim Department Chair
B.S., 1961, State University College, Geneseo, New York; M.A., 1967; Ed.D., 1974, The University of Rochester. (1973)

Bernstein, Stuart E., Assistant Professor, Psychology
B.A., 1992, Michigan State University; M.A., 1998, University of Rochester. (1998)

Bertrand, Nancy P., Professor, Elementary and Special Education
B.S., 1971; M.S., 1975, University of Tennessee; Ph.D., 1983, Ohio State University. (1983)

Blake, Kenneth, Assistant Professor, Journalism
B.A., 1988; M.A., 1990, Marshall University; Ph.D., 1997, University of North Carolina-Chapel Hill. (1996)

Blum, Kurt E., Professor, Biology
A.B., 1961, Hanover College; M.A., 1965, Indiana University; Ph.D., 1968, Florida State University. (1969)

Bodle, John V., Associate Professor, Journalism
B.A., 1977, San Jose State University; M.S., 1992; Ph.D., 1993, Ohio University. (1993)

Bonicamp, Judith Madeline, Professor, Chemistry
A.B., 1968, University of Chattanooga; M.S., 1972, Tennessee Technological University; Ph.D., 1977, Emory University. (1982)

Bonner, Gloria L., Associate Professor, Educational Leadership; Dean, College of Education
B.S., 1972; M.Ed., 1974; Ed.S., 1977, Middle Tennessee State University; Ed.D., 1988, Tennessee State University. (1985)

Boone, Nancy, Professor, Music
B.S., 1970, Tennessee Wesleyan College; M.S., 1975, University of Tennessee; Ed.D., 1988, University of Illinois. (1979)

Boyer-Pennington, Michelle, Assistant Professor, Psychology
B.A., 1990, Emory University; M.S., 1992; Ph.D., 1995, University of Florida. (1995)

Brantley, William, Associate Professor, English
B.A., 1977; M.A., 1981, Georgia State University; Ph.D., 1991, University of Wisconsin, Madison. (1992)

Bray, Robert, Professor, English
B.A., 1973; M.A., 1976, University of Southwestern Louisiana; Ph.D., 1982, University of Mississippi. (1994)

Brecht, Polly Purcell, Associate Professor, Music
B.M., 1978; M.M., 1980, Indiana University; Performance Certificate, 1985, Indiana University; D.Mus., 1986, Florida State University. (1989)

Brewer, Gay, Associate Professor, English
B.A., 1985, University of Louisville; M.A., 1988; Ph.D., 1992, Ohio State University. (1993)

Brinthaupt, Thomas M., Associate Professor, Psychology
B.S., 1980, State University of New York; M.A., 1984, St. Bonaventure University; Ph.D., 1989, University of Pittsburgh. (1990)

Brissie, Jane E., Associate Professor, Psychology
B.A., 1968, Carson-Newman College; M.A., 1982, Middle Tennessee State University; Ph.D., 1991, Vanderbilt University. (1989)

Brooks, James T., Professor, Speech and Theatre; Associate Dean, College of Liberal Arts
B.A., 1965, Appalachian State University; M.A., 1967; Ph.D., 1974, University of Florida. (1969)

Brookshire, Jerry H., Professor, History
B.A., 1965, University of Georgia; M.A., 1967; Ph.D., 1970, Vanderbilt University. (1972)

Bullard, E. Dwight, Professor, Business Education, Marketing Education, and Office Management; Associate Dean, College of Business
B.S.E., 1964, University of Central Arkansas; M.B.E., 1965; Ed.D., 1971, University of Mississippi. (1965)

Bullen, Robert A., Professor, Educational Leadership
B.S., 1962; M.A., 1963, University of Tennessee; Ed.D., 1969, University of Alabama. (1969)

Bundage, Raphael B., Professor, Music
B.M., 1976, Texas Christian University; M.M., 1983; D.M.A., 1985, Eastman School of Music. (1985)

Burford, Anna M., Professor, Business Education, Marketing Education, and Office Management
B.S., 1964; M.A., 1967, Western Kentucky University; Ph.D., 1979, Ohio State University. (1981)

Burke, Beverly G., Associate Professor, Psychology
B.A., 1974; M.S., 1975, University of Southern Mississippi; M.S., 1981; Ph.D., 1994, Auburn University. (1991)

Burriss, Kathleen Glascott, Associate Professor, Elementary and Special Education
B.A., 1972, State University of New York, Fredonia; M.S., 1975, State University of New York, Buffalo; Ed.D., 1992, Arizona State University. (1992)

Burton, E. James, Professor, Accounting; Dean, College of Business
B.A., 1968, MacMurray College; M.B.A., 1969, Murray State University; C.P.A., 1975; Ph.D., 1976, University of Illinois; C.F.E., 1991. (1990)

Bush, James L., Jr., Associate Professor, Accounting
B.B.A., 1967, Georgia Southern College; M.S., 1968, University of Georgia; C.P.A., 1975; Ph.D., 1977, University of Arkansas. (1985)

Calder, James E., Professor, Elementary and Special Education
B.S., 1968, Murray State University; M.Ed., 1971, University of Louisville; Ed.S., 1972, University of Florida; Ed.D., 1982, University of Alabama. (1991)

Campbell, A. Ann, Professor, Elementary and Special Education; Director, Project HELP
B.S., 1969; M.S., 1970, University of Tennessee; Ed.D., 1977, Memphis State University. (1981)

Campbell, Richard, Professor, Journalism; School Director
B.A., 1971, Marquette University; M.A., 1980, University of Wisconsin-Milwaukee; Ph.D., 1986, Northwestern University. (1997)

Canak, William L., Professor, Sociology and Anthropology
B.A., 1970, University of Wisconsin-Milwaukee; M.S., 1975; Ph.D., 1981, University of Wisconsin, Madison. (1994)

Cantrell, Ayne, Professor, English
B.S., 1964, Middle Tennessee State University; M.A., 1966, Pennsylvania State University; D.A., 1976, Middle Tennessee State University. (1975)

Carlson, Keith, Professor, Psychology
B.A., 1964, Eureka College; M.S., 1968; Ed.D., 1970, Northern Illinois University. (1970)

Carlton, Robert F., Professor, Physics and Astronomy; Department Chair
B.A., 1964, Middle Tennessee State College; M.S., 1966; Ph.D., 1970, University of Georgia. (1968)

Casal, Elvira, Assistant Professor, English
B.A., 1976, Tulane University; M.A., 1977, University of Michigan; Ph.D., 1993, Vanderbilt University. (1996)

Chao, Yuan-ling, Assistant Professor, History
B.A., 1981, Hong Kong Baptist College; M.A., 1983, University of California-Santa Barbara; Ph.D., 1995, University of California-Los Angeles. (1995)

Cheatham, Thomas J., Professor, Computer Science
B.S., 1966, Campbellsville College; M.S., 1968; Ph.D., 1971, University of Kentucky. (1990)

Chen, Chong, Associate Professor, Engineering Technology and Industrial Studies
B.S., 1982, Hebei Institute of Technology; M.S., 1984, Tianjin University; Ph.D., 1990, University of Kentucky. (1990)

Chong, Ngee Sing, Assistant Professor, Chemistry
B.A., 1981, Hanover College; M.S., 1986, Iowa State University; Ph.D., 1991, University of Georgia. (1998)

Church, Curtis, K., Professor, Mathematical Sciences
B.A., 1974; M.A., 1976; Ph.D., 1978, University of South Florida. (1986)

Clark, Carol P., Associate Professor, Computer Information Systems
B.S., 1983, Campbellsville College; M.S., 1985; Ph.D., 1990, Northwestern University. (1988)

Clark, Deborah C., Assistant Professor, Biology
B.S., 1988; M.S., 1990; Ph.D., 1994, University of Kentucky. (1995)

Clark, Gale, Professor, Chemistry
A.B., 1962, Hendrix College; Ph.D., 1968, Vanderbilt University. (1969)

Clark W. Jeff, Associate Professor, Computer Information Systems
B.A., 1975; M.A., 1977, Scarritt College; M.B.A., 1983; Northern Illinois University; Ph.D., 1989, Northwestern University. (1988)

Colclough, Scott H., Professor, Health, Physical Education, Recreation, and Safety
B.S., 1971, Campbell University; M.A., 1972, East Carolina University; D.A., 1986, Middle Tennessee State University. (1998)

Colson, Janet, Associate Professor, Human Sciences
B.S., 1976, Mississippi College; M.S., 1979, University of Southern Mississippi; Ph.D., 1990, Florida State University. (1990)

Compton, William C., Professor, Psychology
B.A., 1977, Northern Illinois University; M.A., 1982, University of Nebraska, Omaha; Ph.D., 1987, George Peabody College of Vanderbilt University. (1989)

Conard, Rebecca A., Associate Professor, History
B.S., 1973, California State Polytechnic University; M.A., 1976, University of California, Los Angeles; Ph.D., 1984, University of California, Santa Barbara. (1998)

Conley, Patrick C., Assistant Professor, Foreign Languages and Literatures
B.A., 1969; M.A., 1974, Indiana University; M.A., 1980; Ph.D., 1995, University of Tennessee. (1988)

Connelly, William, Professor, English; Department Chair
A.B., 1966, University of Detroit; M.A., 1968; Ph.D., 1972, University of Oklahoma. (1970)

Covington, Linda W., Associate Professor, Nursing
B.S., 1975; M.S.N., 1978, University of Alabama, Birmingham; Ph.D., 1996, Georgia State University. (1996)

Cox, Bene´ Scanlon, Professor, English
B.A., 1972; M.A., 1976, University of Alabama; Ph.D., 1980, Vanderbilt University. (1976)

Craig, Paul A., Assistant Professor, Aerospace
B.S., 1979; M.Ed., 1980; Ed.S., 1995, Middle Tennessee State University; Ed.D., 1997, Tennessee State University. (1998)

Crawford, Frederic M., Jr., Professor, History
A.B., 1953; M.A., 1958, University of North Carolina; Ph.D., 1969, University of Kentucky. (1964).

Crews, Nancy N., Associate Professor, Elementary and Special Education
B.S., 1982, Tennessee State University; M.Ed., 1986; Ed.D., 1990, George Peabody College of Vanderbilt University. (1993)

Cripps, Alfred H., Professor, Computer Science
B.S., 1974; M.S., 1975, Middle Tennessee State University; Ph.D., 1980, University of Tennessee. (1981)

Cunningham, Peter H., Professor, Health, Physical Education, Recreation, and Safety
B.S., 1976, Austin Peay State University; M.A., 1977, Murray State University; Re.D., 1985, Indiana University. (1991)

Curry, Donald L., Professor, Biology; Dean, College of Graduate Studies
A.B., 1963, Sacramento State College; Ph.D., 1967, University of California, San Francisco. (1995)

Dansby, Virginia L., Associate Professor, Psychology
B.A., 1969, Davis and Elkins College; M.A., 1982; Ed.D., 1989, West Virginia University. (1989)

Davidson, Phyllis M., Associate Professor, Human Sciences
B.S., 1964, Tennessee Technological University; M.A., 1970, Tennessee Technological University; Ph.D., 1985, The University of Tennessee. (1995)

Davis, Teresa L., Associate Professor, Psychology
B.S., 1981, University of Richmond; M.S., 1988; Ph.D., 1992, University of Florida. (1993)

DeLong, David, Assistant Professor, Educational Leadership
B.S., 1969; M.Ed., 1986; Ed.S., 1988, Middle Tennessee State University; Ed.D., 1992, Peabody College, Vanderbilt University. (1996)

Deme', Mamit, Assistant Professor, Economics and Finance
B.B.A., 1974, Western Illinois University; M.P.P.A., 1979; M.A., 1980, Jackson State University; Ph.D., 1990, University of Texas, Austin. (1990)

DePrince, Albert E., Jr., Professor, Economics and Finance
B.A., 1963, Bucknell University; M.A., 1965, University of Michigan; Ph.D., 1978, New York University. (1991)

Detmer, Richard C., Professor, Computer Science; Department Chair
B.S., 1966, University of Kentucky; M.A., 1970; Ph.D., 1972, University of Wisconsin, Madison. (1998)

Devendorf, George S., Assistant Professor, Chemistry
B.S., 1988, Northern Arizona University; Ph.D., 1996, Purdue University. (1996)

Diaz-Ortiz, Oscar A., Assistant Professor, Foreign Languages and Literatures
B.A., 1986, Universidad Incca de Colombia; M.A., 1994, Kansas State University; Ph.D., 1997, Arizona State University. (1998)

DiVincenzo, John P., Assistant Professor, Chemistry
B.A., 1987; M.S., 1993; Ph.D., 1996, University of Delaware. (1996)

Donovan, Ellen, Associate Professor, English
B.A., 1978; M.A., 1980, Portland State University; Ph.D., 1988, University of Wisconsin, Madison. (1990)

Donovan, Kevin, Associate Professor, English
B.A., 1978, Boston College; M.A., 1980; Ph.D., 1987, University of Wisconsin, Madison. (1989)

DuBois, John D., Professor, Biology
B.S., 1978, Baldwin-Wallace College; M.S., 1980; Ph.D., 1983, Miami University of Ohio. (1989)

Dunlap, Norma K., Assistant Professor, Chemistry
B.S., 1977, Eastern College, PA; Ph.D., 1985, University of Wyoming. (1998)

Dunne, Michael F., Professor, English
A.B., 1964, Fordham University; M.A., 1966; Ph.D., 1969, Louisiana State University. (1969)

Dunne, Sara L., Associate Professor, English
B.A., 1966, Louisiana State University; M.A., 1975; D.A., 1994, Middle Tennessee State University. (1984)

Eaker, Robert E., Professor, Educational Leadership
B.S., 1968, University of Chattanooga; M.Ed., 1970, University of Tennessee, Chattanooga; Ed.D., 1972, University of Tennessee. (1972)

Eason, David L., Professor, Director of Graduate Studies, College of Mass Communication
B.S., 1969, Lambuth College; M.A., 1972, State University of New York, Albany; Ph.D., 1977, Southern Illinois University. (1991)

Edwards, M. Jo Geren, Professor, Health, Physical Education, Recreation, and Safety; Chairholder, Adams Chair of Excellence in Health Care Services
B.S., 1972, University of Alabama; M.Ed., 1975, Memphis State University; Ed.D., 1982, University of Florida, Gainesville. (1992)

Eff, E. Anthon, Associate Professor, Economics and Finance
B.A., 1981, University of Louisville; Ph.D., 1989, University of Texas, Austin. (1990)

Eller, Jackie Howsden, Professor, Sociology and Anthropology; Director, Women's Studies
B.S., 1974, Phillips University; M.S., 1977; Ph.D., 1978, Oklahoma State University. (1985)

Ellis, Cheryl Slaughter, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1974; M.S.T., 1975, Jackson State University; M.S., 1980, University of Southern Mississippi; Ph.D., 1982, University of Tennessee. (1985)

Embry, Donald E., Professor, Educational Leadership
B.S., 1959; M.S., 1964, Butler University; Ed.D., 1973, Ball State University. (1996)

Emery, Beth C., Associate Professor, Human Sciences
B.S., 1975, University of Maine; M.S., 1983; Ph.D., 1987, Oregon State University. (1985)

Ervin, M. Gore, Associate Professor, Biology
B.S., 1976; M.S., 1978, Middle Tennessee State University; Ph.D., 1982, Mississippi State University. (1997)

Farone, Anthony L., Assistant Professor, Biology
B.S., 1984, The Pennsylvania State University; M.S., 1988; Ph.D., 1992, Miami University. (1995)

Fayissa, Bichaka, Professor, Economics and Finance; Director, INROADS
B.S., 1971, Haile Selassie I University; M.S., 1976; M.A., 1981; Ph.D., 1982, University of Tennessee. (1980)

Ferrara, Ronald J., Professor, Aerospace; Department Chair
B.A., 1968, University of Connecticut; A.S., 1978, Western Kentucky University; M.S., 1982; Ed.D., 1992, University of Kentucky. (1985)

Fesmire, Julia, Assistant Professor, English
B.A., 1978, Vanderbilt University; J.D., 1981, University of Tennessee; M.A., 1989; Ph.D., 1994, Vanderbilt University. (1996)

Festervand, Troy A., Professor, Management and Marketing; Assistant Dean and Director of Graduate Business Studies, College of Business
B.B.A., 1976; M.B.A., 1977, Stephen F. Austin State University; Ph.D., 1980, University of Arkansas. (1990)

Fischer, Paul D., Assistant Professor, Recording Industry
B.S., 1979, Northwestern University; M.A., 1981; Ph.D., 1995, Bowling Green State University. (1996)

Fontanesi-Seime, Margaret A., Associate Professor, Social Work
B.A., 1978, West Virginia University; M.A., 1982, Duquesne University; M.P.H., 1988; Ph.D., 1992, University of Pittsburgh. (1994)

Ford, William F., Professor, Economics and Finance; Chairholder, Weatherford Chair of Finance
B.A., 1961, University of Texas, Austin; M.A., 1962; Ph.D., 1966, University of Michigan. (1991)

Foroudastan, Saeed, Instructor, Engineering Technology and Industrial Studies
B.S., 1980; M.S., 1982; Ph.D., 1987, Tennessee Technological University. (1996)

Frauman, Eric, Instructor, Health, Physical Education, Recreation, and Safety
B.S., 1985; M.E., 1994, University of Florida. (1998)

Friedli, Andrienne C., Associate Professor, Chemistry
B.A., 1984, Rice University; M.S., 1986, Yale University; Ph.D., 1992, University of Texas. (1993)

Fromuth, Mary Ellen, Professor, Psychology
B.A., 1976, West Chester State College; M.S., 1978; Ph.D., 1983, Auburn University. (1989)

Frost, Charles H., Professor, Social Work; Department Chair
B.A., 1960; M.S.S.W., 1966, California State University; D.S.W., 1984, University of California. (1997)

Fuller, Dana K., Assistant Professor, Psychology
B.A., 1988, Northeastern State University-Oklahoma; M.S., 1991; Ph.D., 1994, University of Oklahoma. (1994)

Gambill, Stanley E., Associate Professor, Computer Information Systems
B.S., 1982; M.I.S., 1983, Arkansas State University; Ph.D. ,1992, Memphis State University. (1992)

Garbharran, Hari P., Assistant Professor, Geography and Geology
B.A., 1976, University of Durham-Westville (South Africa); M.A., 1981, University of Natal (South Africa); Ph.D., 1989, Southern Illinois University, Carbondale. (1994)

Garrard, Kay R., Professor, Speech and Theatre
B.S., 1964, Mississippi University for Women; M.A., 1966, University of Alabama; Ph.D., 1982, University of California. (1983)

Gentry, William L., Professor, English
B.A., 1961, David Lipscomb College; M.A., 1963; Ph.D., 1972, Vanderbilt University. (1968)

Gilbert, Jacqueline, Assistant Professor, Management and Marketing
B.B.A., 1983, University of Texas-Austin; M.B.A., 1991; Ph.D., 1995, University of Houston. (1996)

Gober, R. Wayne, Professor, Computer Information Systems
B.S., 1962; M.S., 1963; Ph.D., 1967, University of Alabama; C.D.P., 1978. (1975)

Goldberg, Nancy S., Professor, Foreign Languages and Literatures
B.A., 1971; M.S., 1973, University of Wisconsin-Madison; M.A., 1984; Ph.D., 1987, Vanderbilt University. (1988)

Gower, Diane S., Associate Professor, Elementary and Special Education
B.A., 1966; M.A., 1967, Northwestern State University; Ed.D., 1977, University of Tennessee. (1991)

Graddy, Duane B., Professor, Economics and Finance
B.S., 1964; M.S., 1965, University of Tennessee; M.A., 1969; Ph.D., 1974, LeHigh University. (1972)

Graeff, Timothy R., Associate Professor, Management and Marketing
B.S., 1985; M.B.A., 1986, Florida State University; Ph.D., 1992, Pennsylvania State University. (1992)

Grimes, Patricia H., Associate Professor, Educational Leadership
B.A., 1959, Hunter College; M.Ed., 1972; M.Ed., 1974; Ed.S., 1976; Ed.D., 1982, Florida Atlantic. (1998)

Gulliford, Andrew, Associate Professor, History
B.A., 1975; M.A.T., 1976, The Colorado College; Ph.D., 1986, Bowling Green State University. (1990)

Hague, Angela, Professor, English
B.A., 1972, Florida State University; M.A., 1975, University of Florida; Ph.D., 1979, Florida State University; M.A., 1981, University of Sussex. (1981)

Hallett, Michael A., Associate Professor, Criminal Justice Administration
B.A., 1988, Ohio University; M.A., 1990, Indiana University; Ph.D., 1993, Arizona State University. (1993)

Hamilton, Gloria J., Associate Professor, Psychology
B.A., 1969; M.A., 1971, Middle Tennessee State University; Ph.D., 1985, George Peabody College of Vanderbilt University. (1991)

Hamm, Jeffrey L., Associate Professor, Accounting
B.S., 1973, Michigan State University; C.P.A., 1980; Graduate Study, Texas Tech University. (1994)

Hankins, Judith A., Professor, Computer Science
B.A., 1970; M.A., 1971, Murray State University; Ph.D., 1980, University of Missouri-Rolla. (1979)

Hannah, Richard L., Professor, Economics and Finance
B.A., 1975; M.A., 1976, Middle Tennessee State University; Ph.D., 1981, University of Utah. (1992)

Hansbrough, Yvonne C., Associate Professor, Music
B.M.E., 1983, New Mexico University; M.M., 1985, University of Arizona; D.M., 1991, Florida State University. (1990)

Harmon, Susan K., Assistant Professor, Management and Marketing
B.S., 1980; M.A., 1981; Ph.D., 1998, University of Alabama. (1998)

Harper, A. Dianne, Associate Professor, Foreign Languages and Literatures
B.A., 1969, North Carolina Central University; M.A.T., 1971, Brown University; Ph.D., 1979, Pennsylvania State University. (1991)

Harrison, Joyce S., Professor, Human Sciences
B.S., 1968, University of Tulsa; M.S., 1974; Ed.D., 1979, University of Tennessee; C.F.P., 1988. (1978)

Hart, James B., Assistant Professor, Mathematical Sciences
B.A., 1986, Hendrix College; M.S., 1988; Ph.D., 1991, Vanderbilt University. (1991)

Hart, William S., Associate Professor, Management and Marketing
B.S., 1953; M.S., 1957, Kansas State Teachers College; Ph.D., 1969, University of Florida. (1986)

Harvin, Laurence, Professor, Music
B.M., 1964, University of Alabama; M.M., 1966, University of Oklahoma; D.M.A., 1972, Florida State University. (1966)

Haugland, Ann B., Associate Professor, Journalism
B.A., 1974, Carleton College; M.A., 1986, University of Minnesota; Ph.D., 1992, University of Iowa. (1994)

Hausler, Joel W., Professor, Educational Leadership; Director, Professional Laboratory Experiences
B.S., 1976; M.Ed., 1981, University of Tennessee, Chattanooga; Ed.D., 1985, Oklahoma State University. (1981)

Hayes, Janice O., Professor, Educational Leadership
B.S., 1963, University of Minnesota; M.Ed., 1967; D.A., 1973, Middle Tennessee State University. (1973)

Hedgepeth, Sonja, Associate Professor, Foreign Languages and Literatures
B.A., 1974, University of Texas-Austin; M.A.T., 1978, Southwest Texas State University; Ph.D., 1991, Pennsylvania State University. (1985)

Hein, Michael B., Associate Professor, Psychology
B.A., 1984, University of Northern Iowa; M.S., 1989; Ph.D., 1990, Georgia Institute of Technology. (1990)

Helford, Elyce, Associate Professor, English
B.A., 1984, Lake Forest College; Ph.D., 1992, University of Iowa. (1992)

Heller, Peter L., Professor, Sociology and Anthropology
B.A., 1960, University of Indianapolis; M.A., 1964, Pennsylvania State University; Ph.D., 1972, University of Nevada, Reno. (1988)

Hemmerly, Thomas E., Professor, Biology
A.B., 1953, Trevecca College; M.A., 1955; Ed.S., 1964, George Peabody College; Ph.D., 1976, Vanderbilt University. (1964)

Heritage, Jeannette, Professor, Psychology
B.S., 1953, Auburn University; M.A., 1969, University of South Alabama; Ph.D., 1971, University of Southern Mississippi. (1971)

Herrick, William C., Associate Professor, Aerospace
B.S., 1987; M.Ed., 1988; Ed.S., 1989, Middle Tennessee State University; Ph.D., 1991, University of Tennessee. (1992)

Hibbard, Allen Eugene, Associate Professor, English
B.A., 1978, American University; M.A., 1982; Ph.D., 1989, University of Washington. (1990)

Higdon, Bella, Professor, Elementary and Special Education
B.A., 1964, McNeese State University; M.A., 1969, University of Houston; Ed.D., 1973, McNeese State University. (1989)

Hill, C. Jeanne, Professor, Management and Marketing
B.S., 1968; M.A., 1970, Northeast Louisiana State University; Ph.D., 1976, University of Alabama. (1989)

Hoffschwelle, Mary S., Assistant Professor, History
B.A., 1977, Chatham College; M.A., 1980, College of William and Mary; Ph.D., 1993, Vanderbilt University. (1992)

Hollings, Marion, Assistant Professor, English
B.S., 1978, Tulane University; M.A., 1984, University of Montana; Ph.D., 1994, University of Arizona. (1994)

Hollman, Kenneth W., Professor, Economics and Finance; Chairholder, Martin Chair of Insurance
B.S., 1965, Middle Tennessee State University; M.B.A., 1966; Ph.D., 1970, University of Alabama; C.L.U., 1984; Ch.F.C., 1985; C.I.C., 1988. (1982)

Holtzclaw, Robert, Associate Professor, English
B.S., 1981; M.A., 1985; Ph.D., 1992, University of Tennessee, Knoxville. (1992)

Homaifar, Ghassem, Professor, Economics and Finance
B.A., 1972, Tehran University (Iran); M.A., 1978, State University of New York; M.A., 1981; Ph.D., 1982, University of Alabama. (1982)

Howard, James C., Associate Professor, Chemistry
B.S., 1966, Purdue University; Ph.D., 1977, Cornell University. (1981)

Howard, R. Stephen, Assistant Professor, Biology
B.S., 1985; M.S., 1987, Eastern Kentucky University; Ph.D., 1994, Indiana University. (1994)

Huffman, James O., Professor, Educational Leadership
B.S., 1966; M.S., 1969; Ed.D., 1972, University of Tennessee. (1974)

Hughes, Cary T., Professor, Computer Information Systems
B.S.B.A., 1971, California State University at Los Angeles; M.B.A., 1979, University of Nevada; Ph.D., 1982, Arizona State University. (1989)

Hughes, Karla V., Professor, Human Sciences; Department Chair
B.S., 1972; M.S., 1974, Kansas State University; Ph.D., 1978, University of Tennessee. (1994)

Huhta, James K., Professor, History; Director, Center for Historic Preservation
B.A., 1959, Baldwin-Wallace College; M.A., 1963; Ph.D., 1965, University of North Carolina. (1965)

Hull, Geoffrey P., Professor, Recording Industry; Assistant Dean, College of Mass Communication
B.A., 1968, Georgia Institute of Technology; J.D., 1971, University of Virginia Law School; M.B.A., 1980, Middle Tennessee State University. (1977)

Hunt, Robert, Associate Professor, History
B.A., 1974, University of Northern Colorado; M.A., 1979, University of Wyoming; Ph.D., 1988, University of Missouri, Columbia. (1989)

Hutchison, Thomas W., Associate Professor, Recording Industry
B.S., 1974; M.S., 1991; Ph.D., 1995, Florida State University. (1993)

Ilsley, William H., Associate Professor, Chemistry
B.A., 1972, Millikin University; M.S., 1974, Xavier University; Ph.D., 1978, Wayne State University. (1984)

Inks, Scott A., Assistant Professor, Management and Marketing
B.S., 1987, Purdue University; M.B.A., 1993, Ball State University; Ph.D., 1997, University of Memphis. (1997)

Iriarte-Gross, Judith M., Assistant Professor, Chemistry
B.S., 1981; M.S., 1984; University of Maryland; Ph.D., 1990, University of South Carolina. (1996)

Isley-Farmer, Ada Christine, Associate Professor, Music
B.M., 1968; M.M., 1972, University of North Carolina-Greensboro; D.M.A., 1991, University of Illinois, Urbana-Champaign. (1985)

Jackson, Jacquelyn, Associate Professor, English
B.S., 1958, Tennessee State University; M.A., 1971; Ph.D., 1983, University of Kentucky. (1985)

Jarmon, Laura C., Professor, English
B.A., 1972, Howard University; M.A., 1975, Fisk University; Ph.D., 1987, The Catholic University of America. (1988)

Jetton, Amy E., Assistant Professor, Biology
B.S., 1983, University of Tennessee, Knoxville; Ph.D., 1991, Northwestern University. (1994)

Johnson, Jerden E., Assistant Professor, Psychology
B.A., 1972, Memphis State University; M.A., 1976, Middle Tennessee State University; Ph.D., 1983, University of Wisconsin-Milwaukee. (1989)

Johnston, Tony V., Assistant Professor, Agribusiness and Agriscience
B.S., 1980; M.S., 1986; Ph.D., 1995, University of Arkansas. (1995)

Jones Connie J., Associate Professor, Elementary and Special Education
B.A., 1975, Fisk University; M.A., 1979; Ed.D., 1988, Tennessee State University. (1988)

Jones, Robert B., Professor, History; Associate Vice President for Academic Affairs
A.B., 1964, University of Virginia; M.A., 1968; Ph.D., 1972, Vanderbilt University. (1970)

Jones, Steven D., Associate Professor, Psychology
B.A., 1969, University of the South; M.A., 1973, University of Tennessee; Ph.D., 1986, University of Houston. (1993)

Kawahito, Kiyoshi, Professor, Economics and Finance
B.S., 1963, Oklahoma City University; M.B.A., 1965; Ph.D., 1971, University of Maryland. (1971)

Keese, Earl E., Professor, Mathematical Sciences; Dean, College of Basic and Applied Sciences
B.S., 1963, Texas A&M University; M.Ed., 1966, West Texas State University; M.Math, 1967, University of South Carolina; Ph.D., 1972, George Peabody College. (1969)

Keese, Nancy C., Associate Professor, Educational Leadership; Department Chair
B.A., 1962, Winthrop College; M.M., 1969, University of South Carolina; Ed.S., 1980, Middle Tennessee State University; Ed.D., 1990, University of Tennessee, Knoxville. (1988)

Kelly, David B., Associate Professor, Psychology
B.A., 1972, Georgetown University; M.S., 1977, Oklahoma State University; Ph.D., 1984, Texas Technological University. (1985)

Kendrick, Donald F., Professor, Psychology
B.A., 1978, Eastern Washington University; M.A., 1980; Ph.D., 1982, Michigan State University. (1983)

Kethley, R. Bryan, Assistant Professor, Management and Marketing
B.S., 1981, Southern Illinois University at Carbondale; M.S., 1988, University of Arkansas; Ph.D., 1997, University of Mississippi. (1997)

Kim, Jwa Keun, Professor, Psychology
B.Ed., 1980; M.Ed., 1982, Kyungpook National University; Ph.D., 1989, University of Oklahoma. (1989)

Kimmins, Dovie L., Associate Professor, Mathematical Sciences
B.S., 1980, David Lipscomb College; M.S., 1983, Middle Tennessee State University; Ed.D., 1994, University of Tennessee, Knoxville. (1983)

Kline, Paul C., Assistant Professor, Chemistry
B.S., 1979, Christian Brothers College; M.S., 1983, Georgia Institute of Technology; Ph.D., 1992, University of Notre Dame. (1994)

Kostkowska, Justyna, Assistant Professor, English
M.A., 1986, University of Maria Curie-Sklodowska; Ph.D., 1995, University of Delaware. (1996)

Krau, Stephen D., Associate Professor, Nursing
A.B., 1973, LaGrange College; B.S.N., 1980, Incarnate Word College; M.A., 1975, Scarritt College for Christian Workers; Ph.D., 1995, University of Tennessee, Knoxville. (1995)

Krishnamani, Vatsala, Professor, Mathematical Sciences
B.S., 1965, Madras University, India; M.S., 1976, Indian Institute of Technology, India; Ph.D., 1986, Southern Illinois University. (1986)

Kyle, Reuben, Professor, Economics and Finance; Director, Business and Economic Research Center
B.S., 1963, Georgia Institute of Technology; M.B.A., 1967, University of Alabama; Ph.D., 1972, University of Tennessee. (1972)

LaLance, Richard, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1964, West Virginia University; M.Ed., 1970; D.A., 1975, Middle Tennessee State University. (1970)

Langston, William E., Assistant Professor, Psychology
B.A., 1989, University of Houston; Ph.D., 1994, University of Wisconsin, Madison. (1997)

Lavery, David, Professor, English
B.S., 1971, Clarion University; M.A., 1973, St. Cloud University; Ph.D., 1978, University of Florida. (1993)

Lea, James W., Professor, Mathematical Sciences
B.S., 1963; M.S., 1965, Tennessee Technological University; Ph.D., 1971, Louisiana State University. (1971)

Leaming, Deryl R., Professor, Journalism; Dean, College of Mass Communication
A.B., 1957, Fort Hays State University; M.A., 1965, University of Nebraska; Ph.D., 1969, Syracuse University. (1993)

Lee, Frank, Professor, Criminal Justice Administration; Department Chair
B.S., 1960; M.A., 1964; Ph.D., 1966, University of Alabama. (1966)

Lee, Jeong Hwa, Associate Professor, English
B.A., 1979, Korea University; M.A., 1982, State University of New York, Albany; Ph.D., 1994, University of Kansas. (1994)

Lee, John T., Professor, Economics and Finance; Department Chair
B.S., 1964, Tennessee Technological University; M.S., 1966, University of Tennessee; Ph.D., 1977, University of Georgia; C.F.P., 1994. (1984)

Lee, Jong-Sung, Associate Professor, Computer Information Systems
B.S., 1977, Yeungnam University; M.B.A., 1983, Central Missouri State University; D.B.A., 1988, Mississippi State University. (1987)

Lee, Terrence A., Assistant Professor, Chemistry
B.S., 1979, Florida Institute of Technology; M.S., 1987; Ph.D., 1991, University of Akron. (1991)

Leone, Janice M., Associate Professor, History
B.A., 1971, College of St. Scholastica; B.S., 1977; M.A., 1979, Mankato State University; Ph.D., 1989, The Ohio State University. (1989)

Levine, William, Assistant Professor, English
B.A., 1980, State University of New York at Stony Brook; Ph.D., 1989, Indiana University. (1998)

Lewis, Stephen D., Professor, Business Education, Marketing Education, and Office Management
B.S., 1974, Tennessee Technological University; M.Ed., 1975, Memphis State University; Ph.D., 1977, University of North Dakota; C.D.P., 1987. (1977)

Littlepage, Glenn E., Professor, Psychology
B.A., 1969, University of New Mexico; M.S., 1971; Ph.D., 1974, Kansas State University. (1973)

Lorenz, James H., Professor, Engineering Technology and Industrial Studies; Department Chair
B.S., 1964, University of Wisconsin-Stout; M.A., 1970, University of Minnesota; Ed.D., 1974, University of Georgia. (1973)

Lutz, Alfred, Assistant Professor, English
B.A., 1982, Tubingen University (FRG); M.A., 1987; Ph.D., 1993, University of Colorado, Boulder. (1998)

MacBeth, Jon L., Professor, Health, Physical Education, Recreation, and Safety
B.A., 1963, University of Florida; M.A., 1968; Ed.D., 1973, George Peabody College. (1973)

MacDougall, Preston J., Assistant Professor, Chemistry
B.S., 1983; Ph.D., 1989, McMaster University. (1994)

Maier, Jerry Lee, Associate Professor, Computer Information Systems; Interim Department Chair
B.S., 1969, University of Tennessee; M.S., 1974, Colorado State University; Ph.D., 1992, Auburn University. (1992)

Mapp, Larry Glover, Professor, English
A.B., 1967; M.A., 1969, University of Georgia; Ph.D., 1981, Vanderbilt University. (1969)

Martin, Mary B., Professor, Mathematical Sciences
B.S., 1979, Middle Tennessee State University; M.S., 1981; Ph.D., 1984, University of North Carolina. (1998)

Mathis, Mary K., Associate Professor, Engineering Technology and Industrial Studies
B.S.C.E., 1972, Tennessee Technological University; M.A., 1982; Ed.S., 1988, Middle Tennessee State University; Ed.D., 1993, Tennessee State University. (1990)

Mathis, Philip M., Professor, Biology
B.S., 1964, Murray State College; M.S., 1967, Middle Tennessee State University; Ed.S., 1971, George Peabody College; Ed.D., 1973, University of Georgia. (1967)

Mayo, Donna T., Assistant Professor, Management and Marketing
B.S., 1978, Mississippi College; M.B.A., 1987, University of Southern Mississippi; Ph.D., 1993, University of Alabama. (1998)

McBride, Ronald E., Professor, Engineering Technology and Industrial Studies
B.S., 1968, University of Arkansas; M.S., 1973; Ed.D., 1980, East Texas State University. (1986)

McCash, June H., Professor, Foreign Languages and Literatures
A.B., 1960, Agnes Scott College; M.A., 1963; Ph.D., 1967, Emory University. (1967)

McClellan, Powell, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1962, Arkansas Polytechnic College; M.Ed., 1966; Ed.D., 1969, University of Arkansas. (1970)

McComb, Don, Assistant Professor, Journalism
B.A., 1979, Wartburg College; M.A., 1985; Ph.D., 1994, University of Iowa. (1994)

McCullough, Martin A., Professor, Educational Leadership
B.S., 1954; M.Ed., 1960, Middle Tennessee State University; Ed.D., 1963, Peabody College. (1987)

McDaniel, John N., Professor, English; Dean, College of Liberal Arts
A.B., 1963, Hampden-Sydney College; M.A.T., 1964, Johns Hopkins University; Ph.D., 1972, Florida State University. (1970)

McGhee, Charles R., Professor, Biology
B.S., 1962; M.S., 1963, Middle Tennessee State University; Ph.D., 1970, Virginia Polytechnic Institute. (1969)

McGrew, Linda G., Associate Professor, Business Education, Marketing Education, and Office Management; Department Chair
B.S., 1971; M.B.E., 1975, Middle Tennessee State University; C.P.S., 1984; Ed.D., 1987, Vanderbilt University. (1979)

McNaughton, Janet P., Professor, Human Sciences
B.S., 1973, Mississippi College; M.S., 1974; Ph.D., 1976, Mississippi State University. (1993)

McWatters, D. Lorne, Associate Professor, History
B.A., 1969, Simon Fraser College; M.A., 1972, University of Calgary; Ph.D., 1979, University of Florida. (1993)

Melnikov, Yuri A., Professor, Mathematical Sciences
M.S., 1964; Ph.D., 1971, Dniepropetrovsk State University; D.Sc., 1983, Moscow Institute of Civil Engineering. (1992)

Messier, Ronald, Professor, History
B.A., 1966, University of Rhode Island; M.A., 1968; Ph.D., 1972, University of Michigan. (1972)

Michael, Timothy J., Associate Professor, Health, Physical Education, Recreation, and Safety
B.S., 1984, Temple University; M.S., 1987, Texas Christian University; Ph.D., 1992, University of Pittsburgh. (1993)

Miller, Brian T., Associate Professor, Biology
B.S., 1980; M.A., 1983, University of Missouri; Ph.D., 1989, Washington State University. (1989)

Miller, L. Diane, Professor, Mathematical Sciences
B.S., 1973, University of Tennessee; M.S., 1977, Memphis State University; Ph.D., 1986, University of Missouri. (1993)

Mills, Alice C., Associate Professor, Biology
B.S., 1984, University of Illinois; Ph.D., 1990, University of Texas, Austin. (1993)

Moffett, Richard G., Assistant Professor, Psychology
B.A., 1977, University of South Florida; M.S., 1979, Valdosta State College; Ph.D., 1996, Auburn University. (1991)

Montgomery, John Paul, Professor, English; Dean, College of University Honors
B.S., 1965, Middle Tennessee State University; M.A., 1966, George Peabody College; Ph.D., 1972, Ohio University. (1972)

Morris, Larry W., Professor, Psychology; Department Chair
B.A., 1966, Arlington State College; Ph.D., 1969, Vanderbilt University. (1969)

Morris, Richard E., Assistant Professor, Foreign Languages and Literatures
B.A., 1980, Cornell College; M.A., 1992, Ohio State University. (1998)

Moseley, Aubrey H., Professor, Educational Leadership
B.S., 1957, Troy State College; M.A., 1964; Ed.D., 1966, University of Alabama. (1966)

Moser, H. Ronald, Professor, Management and Marketing
B.S., 1962, Tennessee Technological University; M.B.A., 1971, Middle Tennessee State University; Ed.D., 1981, University of Tennessee. (1982)

Mullane, John, Assistant Professor, Management and Marketing
B.S., 1983, Wayne State College; Ph.D., 1995, Arizona State University. (1996)

Mullen, Dennis Michael, Associate Professor, Biology
B.S., 1982, Oregon State University; M.S., 1985, University of Maine; Ph.D., 1991, Michigan State University. (1991)

Musicant, Alan D., Assistant Professor, Psychology
B.A., 1972; M.A., 1978, California State University; Ph.D., 1982, University of Chicago. (1992)

Myers-Shirk, Susan E., Assistant Professor, History
B.A., 1980, Messiah College; M.A., 1988; Ph.D., 1994, Pennsylvania State University. (1994)

Nasab, Ahad S., Associate Professor, Engineering Technology and Industrial Studies
B.S., 1980, California State University-Northridge; M.S.M.E., 1981; Ph.D., 1987, Georgia Institute of Technology. (1991)

Nation, Patricia A., Assistant Professor, Sociology and Anthropology
B.S., 1991; M.S., 1992, Texas A&M; Ph.D., 1997, University of North Texas. (1998)

Neal, James H., Professor, History
B.S., 1958; M.A., 1963, University of Houston; Ph.D., 1971, Vanderbilt University. (1968)

Nelson, Donald A., Professor, Mathematical Sciences
B.S., 1969, Mississippi College; M.A., 1973; Ph.D., 1974, Vanderbilt University. (1986)

Neth, Michael James, Associate Professor, English
B.A., 1980, Wichita State University; M.A., 1981; Ph.D., 1990, Columbia University. (1990)

Newman, Deborah W., Assistant Professor, Criminal Justice Administration
B.S., 1973, University of North Alabama; M.S., 1977; Ed.D., 1982, Mississippi State University; J.D., 1985, University of Alabama School of Law. (1990)

Newsome, Anthony L., Associate Professor, Biology
B.S., 1973; M.S., 1977, Eastern Kentucky University; Ph.D., 1982, Memphis State University. (1993)

Nichols, Mary Lynn, Associate Professor, Radio-Television/Photography; Department Chair
B.S., 1982, Clarion State College; M.S., 1983, Clarion University of Pennsylvania; Ph.D., 1994, University of North Carolina, Chapel Hill. (1992)

Norman-Zietz, Emily J., Associate Professor, Economics and Finance
B.B.A., 1980; M.B.A., 1982, University of Mississippi; Ph.D., 1993, Florida State University. (1992)

Novella, Nuria, Assistant Professor, Foreign Languages and Literatures
M.A., 1988, Universidad de Murcia (Spain); Ph.D., 1998, Vanderbilt University. (1993)

O'Hara-Murdock, Peggy, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1964, Miami University; M.Ed., 1965; Ph.D., 1981, University of Pittsburgh. (1998)

O'Leary, Patricia Ann, Associate Professor, Nursing
R.N., 1973, Mercy Hospital School of Nursing; B.S.N., 1978, West Liberty State College; M.S.N., 1980, Vanderbilt University; D.S.N., 1990, University of Alabama, Birmingham. (1990)

Pace, Richard B., Assistant Professor, Sociology and Anthropology
B.A., 1980, Indiana University; M.A., 1983; Ph.D., 1987, University of Florida. (1997)

Parsons, Lynn C., Associate Professor, Nursing
B.S.N., 1979; M.S.N., 1987, Northern Michigan University; D.S.N., 1995, University of Alabama, Birmingham. (1995)

Patterson, Dwight J., Assistant Professor, Chemistry
B.S., 1973, Western Kentucky University; M.S.E., 1983; Ph.D., 1985, Case Western Reserve University. (1996)

Patterson, Patricia M., Assistant Professor, Chemistry
B.S., 1975, Virginia State University; M.S., 1982; Ph.D., 1985, Case Western Reserve University. (1994)

Pennington, John, Assistant Professor, Psychology
B.S., 1989, University of Michigan; M.S., 1991; Ph.D., 1994, University of Florida. (1996)

Perkins, Jerry, Professor, Music
B.M., 1963; M.M., 1964, University of Cincinnati; D.M.A., 1969, Boston University. (1969)

Peters, Michael H., Professor, Management and Marketing
B.M.E., 1967, General Motors Institute; M.B.A., 1967; D.B.A., 1971, Indiana University. (1991)

Petersen, Robert C., Associate Professor, English
B.A., 1966, State University of New York, Albany; M.A., 1968; Ph.D., 1980, Purdue University. (1984)

Pettey, Chrisila C., Associate Professor, Computer Science
B.S., 1978, David Lipscomb University; M.S., 1981, Middle Tennessee State University; Ph.D., 1990, Vanderbilt University. (1992)

Peyton, Marvin L, Assistant Professor, Educational Leadership
B.A., 1971; M.S., 1974, Marshall University; Ed.D., 1989, University of Tennessee. (1990)

Phillips, E. Ray, Professor, Mathematical Sciences; Associate Dean, College of Graduate Studies
B.S., 1966, Middle Tennessee State University; M.A., 1968, University of Arkansas; Ph.D., 1971, Purdue University. (1990)

Phillips, Melodie R., Assistant Professor, Management and Marketing
B.A., 1984, University of South Florida; M.B.A., 1985, University of Miami; Ph.D., 1993, Louisiana State University. (1994)

Picklesimer, Billie K., Assistant Professor, Psychology
A.B., 1970, Morehead State University; M.Ed., 1975, Clemson University; Ph.D., 1991, University of Georgia. (1993)

Piekarski, James L., Assistant Professor, Recording Industry
B.F.A., 1989, University of Wisconsin, Milwaukee; M.M., 1991; D.M.A., 1994, University of North Texas. (1994)

Pigg, Dewayne A., Associate Professor, Music
B.M.E., 1972, George Peabody College; M.A., 1975, Fisk University. (1984)

Pood, Elliott A., Professor, Radio-Television/Photography; Assistant Dean, College of Mass Communication
B.A., 1973, West Georgia College; M.A., 1974, Florida Technological University; Ph.D., 1977, Florida State University. (1989)

Powell, Dennis D., Professor, Criminal Justice Administration
B.S., 1973, Indiana University; M.S., 1978, Southern Illinois University; Ph.D., 1979, Michigan State University. (1980)

Powell, Jeffrey O., Assistant Professor, Mathematical Sciences
B.A., 1977; M.S., 1987; Ph.D., 1991, Wichita State University. (1995)

Prevost, Suzanne S., Chairholder, National Health Care Chair of Excellence, Nursing
B.S.N., 1982, Villa Maria College; M.S.N., 1986, Medical University of South Carolina; Ph.D., 1992, Texas Women's University. (1998)

Quarles, Jan P., Associate Professor, Journalism
B.A., 1972; Ph.D., 1986, University of Tennessee, Knoxville. (1994)

Quarto, Christopher J., Assistant Professor, Psychology
B.S., 1983; M.A., 1984; Central Michigan University; Ph.D., 1992, University of Illinois at Urbana-Champaign. (1997)

Redditt, Richard S., Professor, Engineering Technology and Industrial Studies
B.S.I.T., 1965; M.S.I.T., 1966, Northwest Louisiana State University; Ed.D., 1973, University of Tennessee. (1986)

Renn, Walter F., Professor, History
B.S., 1958, University of Miami; M.A., 1967; Ph.D., 1970, Florida State University. (1992)

Reyes, Mary de los, Professor, Biology
B.S., 1965, Louisiana State University; M.S., 1970, Eastern Kentucky University; Ph.D., 1973, Auburn University. (1981)

Rogers, Robert D., Associate Professor, Criminal Justice Administration
B.A., 1972, University of Kentucky; M.A., 1975, University of Tennessee; M.S., 1978, Eastern Kentucky University; M.A., 1981; Ph.D., 1985, State University of New York, Albany. (1993)

Rogers, Walter B., Professor, Economics and Finance
B.S., 1951, Texas Technological University; M.S., 1953, University of Arizona; Ph.D., 1959, Oklahoma State University. (1981)

Rolater, Frederick S., Professor, History
A.B., 1960, Wake Forrest College; M.S., 1963; Ph.D., 1970, University of Southern California. (1967)

Rosing, Wayne C., Professor, Biology
B.S., 1969, University of Wisconsin; Ph.D., 1975, University of Texas. (1980)

Rowe, David A., Assistant Professor, Health, Physical Education, Recreation, and Safety
B.E., 1981, Worchester College; M.S., 1992, Springfield College; Ph.D., 1996, University of Georgia. (1996)

Rowe, David L., Professor, History
B.A., 1969, Ithaca College; M.A., 1972; Ph.D., 1974, University of Virginia. (1981)

Royal, Katherine Elaine, Professor, Psychology
B.A., 1967; M.S., 1969; Ph.D., 1971, Purdue University. (1978)

Rupprecht, Nancy E., Professor, History
B.A., 1966; M.A., 1967, University of Missouri, Columbia; Ph.D., 1982 University of Michigan. (1985)

Rusciolelli, Judith, Associate Professor, Foreign Languages and Literatures; Department Chair
B.A., 1962, University of Michigan-Ann Arbor; M.A., 1966, Middlebury College; Ph.D., 1981, University of California-Los Angeles. (1991)

Rust, James O., Professor, Psychology
B.S., 1967, Lehigh University; M.A., 1969, University of Richmond; Ph.D., 1973, University of Virginia. (1973)

Sanders, John W., Assistant Professor, Educational Leadership
B.S., 1988; M.B.E., 1989; Ed.S., 1994, Middle Tennessee State University; Ed.D., 1996, Tennessee State University. (1998)

Sawyer, Diane, Professor, Elementary and Special Education; Chairholder, Katherine Murfree Chair of Excellence in Dyslexic Studies
B.S., 1960, Geneseo State College; M.S., 1963, Buffalo State College; M.A., 1965, Teacher's College Columbia; Ph.D., 1971, Cornell University. (1989)

Sbenaty, Saleh M., Associate Professor, Engineering Technology and Industrial Studies
B.S., 1980, Damascus University; M.S., 1985; Ph.D., 1991, Tennessee Technological University. (1993)

Scherzer, Kenneth A., Professor, History
B.A., 1975, Columbia University; M.A., 1977; Ph.D., 1982, Harvard University. (1988)

Schmidt, Greg W., Associate Professor, Psychology
B.A., 1983, University of Denver; M.A., 1984; Ph.D., 1988, University of California, Los Angeles. (1989)

Schmidt, Stephen R., Professor, Psychology
B.Ed., 1975, University of Virginia; M.S., 1977; Ph.D., 1980, Purdue University. (1988)

Schrift, Melissa, Assistant Professor, Sociology and Anthropology
B.A., 1991, Appalachian State University; M.A., 1992; Ph.D., 1998, University of Hawaii, Manoa. (1998)

Schukert, Michael A., Professor, Aerospace
B.A., 1963, University of Arizona; M.Ed., 1969, University of Florida; Ph.D., 1976, Ohio University. (1988)

Seager, Susan R., Associate Professor, Nursing
R.N., 1965, East Tennessee Baptist School of Nursing; B.S., 1972, Belmont College; M.S.N., 1974, Vanderbilt University; Ed.D., 1990, George Peabody College of Vanderbilt University. (1996)

Selva, Lance, Professor, Criminal Justice Administration
B.A., 1972; J.D., 1975, University of Alabama; M.S., 1977; Ph.D., 1985, Florida State University. (1979)

Shearon, Stephen, Associate Professor, Music
B.M., 1977, Northwestern University; M.A., 1985; Ph.D., 1993, University of North Carolina, Chapel Hill. (1994)

Shelar, Victoria Dawn, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1981, University of Florida; M.S., 1984, University of North Florida; Ph.D., 1988, University of Maryland. (1995)

Sherman, Theodore, Assistant Professor, English
B.A., 1987, Covenant College; M.A., 1988, University of Central Florida; Ph.D., 1993, University of Southern Mississippi. (1993)

Singer, Marc G., Professor, Management and Marketing
B.B.A., 1968, City College of New York; M.B.A., 1971, Baruch College of New York; Ph.D., 1973, University of Tennessee. (1990)

Sinkala, Zachariah, Associate Professor, Mathematical Sciences
B.S., 1981, University of Zambia; M.S., 1986, University of Michigan; Ph.D., 1989, University of South Florida. (1990)

Slicker, Ellen K., Associate Professor, Psychology
B.S., 1969; M.Ed., 1970, University of Kansas; Ed.S., 1983, University of Northern Colorado; Ph.D., 1991, Texas A&M University. (1992)

Smith, Marsha K., Associate Professor, Business Education, Marketing Education, and Office Management
B.S., 1970; M.B.E., 1978, Middle Tennessee State University; Ed.D., 1993, Vanderbilt University. (1982)

Smith, Thaddeus M., Associate Professor, History; Department Chair
B.A., 1972; M.A., 1973; M.A.Ed., 1977, Eastern Kentucky University; M.A., 1981; Ph.D., 1987, Brown University. (1988)

Smith-Walters, Cindi, Associate Professor, Biology
B.S., 1978, East Central State University; M.S., 1984; Ph.D., 1988, Oklahoma State University. (1993)

Sokoya, S. Kim, Associate Professor, Management and Marketing
B.S., 1979; M.A., 1981; M.B.A., 1982, Eastern Illinois University; D.B.A., 1985, Mississippi State University. (1989)

Solley, Bobbie A., Associate Professor, Elementary and Special Education
B.S., 1979, David Lipscomb University; M.A., 1982, University of Alabama; Ed.D., 1989, University of Georgia. (1991)

Sridhara, Basavapatna S., Associate Professor, Engineering Technology and Industrial Studies
B.S.M.E., 1978, Bangalore University; M.S.M.E., 1980, Indian Institute of Science; M.S.M.E., 1982, Stevens Institute of Technology; Ph.D., 1991, Auburn University. (1991)

Staples, Amy L.S., Assistant Professor, History
B.A., 1991, St. Bonaventure University; M.S., 1993; Ph.D., 1998, Ohio State University. (1998)

Steward, James F., Professor, Business Education, Marketing Education, and Office Management
B.S., 1969, Memphis State University; M.A., 1971, George Peabody College; Ed.D., 1982, Vanderbilt University. (1982)

Stewart, Martin V., Associate Professor, Chemistry
A.A., 1964; B.S., 1966, Emory University; Ph.D., 1979, University of Georgia. (1979)

Stewart, William C., Assistant Professor, Biology
B.S., 1987, North Carolina State University; Ph.D., 1994, East Carolina University. (1995)

Stogner, Catherine, Assistant Professor, Human Sciences
A.S., 1971, East Tennessee State University; B.S., 1987, Health Columbus University; M.S., 1993; Ph.D., 1996, Utah State University. (1996)

Strawman, Thomas William, Associate Professor, English
B.S., 1973, Iowa State University; M.A., 1976, University of Kansas; Ph.D., 1986, University of Washington. (1989)

Strickland, Thomas H., Professor, Economics and Finance
B.S.I.E., 1963, Texas Tech University; M.B.A., 1972, University of Texas-Arlington; Ph.D., 1979, University of Oklahoma. (1988)

Tang, Thomas L., Professor, Management and Marketing
B.S., 1971, Chung Yuan University; M.A., 1977; Ph.D., 1981, Case Western Reserve University. (1983)

Tarr, James E., Assistant Professor, Mathematical Sciences
B.S., 1986, University of Iowa; M.A., 1993, University of Nebraska; Ph.D., 1997, Illinois State University. (1996)

Tate, James C., Associate Professor, Psychology
B.S., 1982, The College of Charleston; M.S., 1988; Ph.D., 1992, Auburn University. (1993)

Taylor, Robert Love, Jr., Professor, History
B.A., 1961, Vanderbilt University; M.A., 1964; Ph.D., 1971, University of Tennessee. (1969)

Thomas, Joe G., Professor, Management and Marketing
B.S., 1974; M.S., 1975, University of Missouri; Ph.D., 1983, Texas A&M University. (1989)

Thomas, Paula B., Professor, Accounting
B.B.A., 1978; C.P.A., 1980; M.S., 1983, Middle Tennessee State University; C.M.A., 1984; D.B.A., 1987, Mississippi State University. (1983)

Thomas, R. Earl, Associate Professor, Management and Marketing
B.A., 1972; M.A.T., 1974, Middle Tennessee State University; Ed.D., 1984, Vanderbilt University. (1990)

Thomas, Shelley, Associate Professor, Foreign Languages and Literatures
B.A., 1976, Clemson University; M.A., 1984, University of South Carolina; Ph.D., 1991, Purdue University. (1991)

Thweatt, Joe Mack, Professor, Computer Science
A.B., 1961, David Lipscomb College; M.A., 1962, Middle Tennessee State College; Ed.S., 1986, Middle Tennessee State University; Ed.D., 1988, Tennessee State University. (1965)

Tillery, Kenneth R., Associate Professor, Management and Marketing
B.S.I.M., 1967, Georgia Institute of Technology; M.B.A., 1972; Ph.D., 1985, Georgia State University. (1988)

Timmons, J. Douglas, Assistant Professor, Economics and Finance
B.S., 1973, Old Dominion University; M.B.A., 1975, College of William and Mary; Ph.D., 1986, University of Florida at Gainesville. (1996)

Traughber, Belinda, Professor, Psychology
B.S., 1976, Vanderbilt University; M.A., 1977, Middle Tennessee State University; Ph.D., 1982, University of Kansas. (1982)

Trent, Sheri, Associate Professor, Elementary and Special Education
B.S., 1972, Middle Tennessee State University; M.Ed., 1975, University of Mississippi; Ph.D., 1982, George Peabody College. (1990)

Ujcich, Kimberly, Assistant Professor, Psychology
B.A., 1990, University of Tennessee-Knoxville; M.A., 1993; Ph.D., 1996, West Virginia University. (1995)

Untch, Roland H., Assistant Professor, Computer Science
B.A., 1979, Mundelein College; M.S., 1983, DePaul University; Ph.D., 1995, Clemson University. (1994)

Van Hein, Judith L., Associate Professor, Psychology
B.A., 1983, Carroll College; M.S., 1987; Ph.D., 1992, Georgia Institute of Technology. (1990)

Vermillion, William H., Jr., Professor, Psychology
B.A., 1959, Northwestern University; M.S., 1961; Ph.D., 1964, Purdue University. (1972)

Vernardakis, George, Professor, Political Science
B.S., 1959, Cornell University; M.P.A., 1961; Ph.D., 1969, University of Michigan. (1969)

Wahl, Nancy, Associate Professor, Computer Science
B.S., 1964, University of Kansas; M.S., 1985; Ph.D., 1989, Vanderbilt University. (1991)

Wakim, Judith H., Professor, Nursing
B.S. in Nursing, 1960, College of Mount St. Joseph; M.S. in Nursing, 1961; Ed.D., 1976, Indiana University. (1987)

Waldrop, Phillip, Professor, Elementary and Special Education
B.S., 1970; M.A., 1971; Ed.D., 1977, University of Alabama. (1989)

Walker, David, Professor, Speech and Theatre
A.B., 1960, David Lipscomb College; M.A., 1961; Ph.D., 1969, University of Florida. (1965)

Walker, Dellmar, Professor, Human Sciences
B.S., 1972, Middle Tennessee State University; M.S., 1974, University of Kentucky; R.D., 1973; Ph.D., 1986, University of Tennessee. (1978)

Wall, B.J., Associate Professor, Engineering Technology and Industrial Studies
B.S., 1956; M.S., 1973, University of Tennessee; P.E., 1974. (1980)

Wallace, J. Brandon, Associate Professor, Sociology and Anthropology
B.A., 1985, Athens State College; M.A., 1987, Middle Tennessee State University; Ph.D., 1990, University of Florida. (1991)

Walsh, Dennis P., Associate Professor, Mathematical Sciences
B.A., 1982; M.S., 1985, University of New Orleans; Ph.D., 1991, University of Southwestern Louisiana. (1991)

Walters, Keith R., Associate Professor, Biology
B.S., 1974, University of Georgia; M.S., 1977, Florida State University; Ph.D., 1987, University of South Florida. (1995)

Ward, Karen S., Associate Professor, Nursing
B.S.N., 1970; M.S.N., 1972, Vanderbilt University; Ph.D., 1988, Cornell University. (1995)

Ward, Terry J., Professor, Accounting
B.B.A., 1981; M.B.A., 1982, Morehead State University; C.P.A., 1986; Ph.D., 1991, University of Tennessee. (1994)

Warren, William E., Professor, Management and Marketing
B.S., 1958, Florence State College; M.S., 1962, University of Tennessee; D.B.A., 1985, Memphis State University. (1990)

Weeks, Terry M., Associate Professor, Educational Leadership
B.S., 1972; M.Ed., 1975, Middle Tennessee State University; Ed.D., 1993, Vanderbilt University. (1989)

Wells, Marion R., Professor, Biology
B.S., 1960; M.A., 1963, Memphis State University; Ph.D., 1971, Mississippi State University. (1964)

West, Carroll V., Assistant Professor, Center for Historic Preservation
B.A., 1977, Middle Tennessee State University; M.A., 1978, University of Tennessee, Knoxville; Ph.D., 1982, College of William and Mary. (1985)

West, W. Beryl, Professor, Psychology
B.S., 1953, West Texas State College; M.Div., 1956; Th.M., 1962, Southwestern Baptist Theological Seminary; M.Ed., 1965; Ed.D., 1969, North Texas State University. (1969)

Whaley, Martha A., Professor, Health, Physical Education, Recreation, and Safety; Department Chair
B.S., 1957; M.A., 1962; Ed.D., 1967, University of Alabama. (1966)

White, Gary D., Assistant Professor, Chemistry
B.A., 1978, Johns Hopkins University; Ph.D., 1984, University of Pennsylvania. (1991)

Whitehill, William R., Assistant Professor, Health, Physical Education, Recreation, and Safety
B.A., 1973; M.A., 1979, Morehead State University; Ed.D., 1992, University of Alabama, Tuscaloosa. (1994)

Whiteside, Harold D., Professor, Psychology
B.A., 1967, University of Miami; M.S., 1973, North Carolina State University; Ph.D., 1973, Oklahoma State University. (1973)

Wilcox, Sondra Elaine, Professor, Health, Physical Education, Recreation, and Safety
B.S., 1958, David Lipscomb College; M.A., 1963; Ed.S., 1968, George Peabody College; Ed.D., 1976, Boston University. (1963)

Williams, James H., Associate Professor, History
B.A., 1986, Westminster College; M.A., 1987, College of William and Mary; Ph.D., 1993, Vanderbilt University. (1996)

Williams, Jane L., Professor, Educational Leadership
B.S., 1970; M.A., 1972; George Peabody College; Ed.D., 1983, East Tennessee State University. (1988)

Wilson, Harold O., Professor, Accounting
B.S., 1958, David Lipscomb College; M.A., 1959, University of Missouri; C.P.A., 1959; Ph.D., 1968, University of Alabama; C.F.E., 1994. (1983)

Wilson, Linda A., Professor, Chemistry
B.S., 1971; M.S., 1974; D.A., 1986, Middle Tennessee State University. (1981)

Winborn, John Douglas, Assistant Professor, Health, Physical Education, Recreation, and Safety
B.S., 1976; M.S., 1988, Southern Connecticut State College; Ed.D., 1992, Tennessee State University. (1994)

Wolfe, Charles, Professor, English
A.B., 1965, Southwest Missouri State College; M.A., 1967; Ph.D., 1970, University of Kansas. (1970)

Womack, Bob, Professor, Educational Leadership
B.S., 1948, Middle Tennessee State College; M.A., 1952; Ed.D., 1956, George Peabody College. (1957)

Womack, Lara, Assistant Professor, Accounting
B.S., 1979, Middle Tennessee State University; J.D., 1983, University of Tennessee. (1983)

Worsey, Andrew J., Professor, Mathematical Sciences
B.S., 1977; Ph.D., 1981, Brunel University (England). (1993)

Wray, Robert E. III, Assistant Professor, Computer Science
B.S.E.E., 1988, University of Memphis; M.S.E.E., 1993, University of Massachusetts, Dartmouth; Ph.D., 1998, University of Michigan. (1998)

Wright, Stephen M., Associate Professor, Biology
B.S., 1983; M.S., 1987; Ph.D., 1990, University of North Dakota. (1992)

Wulfsberg, Gary Paul, Professor, Chemistry
B.S., 1966, Iowa State University; Ph.D., 1971, University of Wisconsin. (1981)

Wyatt, Jacqueline E., Professor, Computer Information Systems
B.S.B.A., 1971, Franklin University; M.B.A., 1973, Xavier University; C.D.P., 1977; Ed.D., 1980, University of Cincinnati; C.D.E., 1985; C.P.I.M., 1988; B.S., 1988, Middle Tennessee State University. (1986)

Wyatt, Robert O. II, Professor, Journalism
B.A., 1968, University of the South; M.A., 1970; Ph.D., 1973, Northwestern University; M.S., 1977, University of Tennessee. (1979)

Yelverton, William E., Associate Professor, Music
B.M., 1983, Berklee College of Music; M.M., 1985, University of Miami; D.Mus., 1990, Florida State University. (1989)

Yoo, Jungsoon, Associate Professor, Computer Science
B.S., 1979, Ewha Women's University (Seoul, Korea); M.S., 1984, North Carolina State University; Ph.D., 1991, Vanderbilt University. (1991)

Yoo, Sung Kun, Associate Professor, Computer Science
B.S., 1973, Seoul National University; Ph.D., 1983; M.S., 1984, North Carolina State University. (1984)

Young, Barbara N., Associate Professor, Educational Leadership
B.A., 1971, University of Southwestern Louisiana; M.Ed., 1984, Louisiana State University; M.A.T., 1989; Ed.S., 1990, Middle Tennessee State University; Ed.D., 1993, Tennessee State University. (1991)

Zamora, John M., Professor, Biology
B.A., 1979, Columbia University; Ph.D., 1984, Auburn University. (1987)

Zha, Xiaoya, Assistant Professor, Mathematical Sciences
B.S., 1982, Anhui University, China; M.S., 1984, Huazhong University of Science and Technology, China; M.S., 1990; Ph.D., 1993, Ohio State University. (1997)

Zietz, Joachim, Professor, Economics and Finance
M.A., 1978; Ph.D., 1981, University of Gottingen. (1989)

Zijlstra, Jan, Assistant Professor, Mathematical Sciences
B.S., 1982, Agricultural University (Wageningen, Netherlands); M.S., 1991; Ph.D., 1992, Auburn University. (1992)

Zijlstra, Rebecca C., Associate Professor, Mathematical Sciences
B.S., 1979; M.S., 1981, Middle Tennessee State University; Ph.D., 1990, Auburn University. (1990)

Retired Faculty/Administrators

The two dates in parentheses indicate the years of service.

Arters, Jack D., Professor Emeritus, Educational Leadership
B.S., 1959, Bluffton College; M.A., 1961, Marshall University; Ed.D., 1967, University of Tennessee; Post Doctoral Study, University of Wyoming. (1967-95)

Arthur, Hattie Lamb, Professor, Home Economics; Department Chair
B.S., 1957, Baylor University; M.S., 1964; Ed.D., 1969, Texas Woman's University. (1974-85)

Aseltine, Herschel, Professor, Sociology, Anthropology, and Social Work
A.B., 1951; B.D., 1952, McMaster University; M.A., 1955, University of Chicago; Ph.D., 1963, University of Southern Illinois. (1967-77)

Balch, Billy W., Professor Emeritus, Economics and Finance
B.S., 1959, Florence State College; M.B.A., 1960; Ph.D., 1968, University of Alabama. (1964-98)

Ballou, Ralph, Professor Emeritus, Health, Physical Education, Recreation, and Safety
B.S., 1949; M.S., 1956, Springfield College; Ph.D., 1965, University of Oregon. (1968-96)

Barger, James W., Professor, Accounting
B.S., 1956, University of North Carolina; C.P.A., 1958; M.B.A., 1961; Ph.D., 1963, University of Alabama. (1980-87)

Beaty, Edgar, Professor, Youth Education and School Personnel Services
B.S., 1942, Middle Tennessee State College; M.A., 1946, George Peabody College; Ed.D., 1953, Florida State University. (1956-86)

Beers, George, Professor, Mathematical Sciences
B.S., 1955; M.Ed., 1960, University of Florida, M.A., 1963, University of Illinois; Ed.D., 1967, University of Florida. (1966-96)

Berry, Mary Tom, Professor Emeritus, Elementary and Special Education
A.B., 1946, Blue Mountain College; M.A., 1950, Mississippi Southern College; Ph.D., 1961, University of Alabama. (1960-94)

Brackett, Walter Lee, Associate Professor, Elementary and Special Education
B.A., 1938, Northwest Oklahoma State; M.A., 1944, University of Tulsa; Ph.D., 1963, George Peabody College. (1970-80)

Brashears, Elizabeth, Professor Emeritus, Elementary and Special Education
B.S., 1943, Mississippi State College for Women; M.Ed., 1962, University of Southern Mississippi; Ed.D., 1969, University of Tennessee. (1969-90)

Chandler, Clay M., Professor Emeritus, Biology
B.S., 1950, Bethel College; M.A., 1954, George Peabody College; Ph.D., 1965, Indiana University. (1970-92)

Clark, Roy W., Professor, Chemistry
B.S., 1957, Middle Tennessee State College; M.S., 1959; Ph.D., 1965, Louisiana State University. (1963-96)

Coleman, Ronald Gregg, Professor, English
A.B., 1947, Birmingham Southern College; M.A., 1948; Ph.D., 1965, Vanderbilt University. (1956-89)

Corlew, Robert E., Professor Emeritus, History; Vice President for Academic Affairs
B.S., 1945, Austin Peay State College; M.A., 1949, Vanderbilt University; Ph.D., 1954, University of Alabama. (1949-90)

Davenport, Harold, Professor, Educational Leadership
B.S., 1957; M.A., 1959, Appalachian State; Ed.D., 1970, University of Tennessee. (1970-96)

Douthit, James C., Professor Emeritus, Management and Marketing
B.S.B.A., 1958; M.B.A., 1959, University of Arkansas; D.B.A., 1973, Mississippi State University. (1964-96)

Drennan, Henry Dalton, Professor Emeritus, Business Education, Marketing Education, and Office Management
B.S., 1952; M.A., 1956; Ed.S., 1963, George Peabody College; Ed.D., 1969, University of Mississippi. (1961-97)

Durham, Charles, Professor, English
B.S., 1963, Middle Tennessee State University; M.A., 1964; Ph.D., 1969, Ohio University. (1966-98)

Essex, Frank W., Professor Emeritus, Political Science
A.B., 1966; M.A.T., 1967; Ph.D., 1978, Vanderbilt University. (1967-93).

Fletcher, J.L., Professor Emeritus, Biology
B.S., 1937, Southwestern Louisiana Institute; M.S., 1939; Ph.D., 1955, Texas A&M. (1961-81)

Forrest, Thomas, Professor, Mathematics
B.S., 1954; M.A., 1958, Murray State University; M. Math, 1964, University of Tennessee; Ph.D., 1971, George Peabody College. (1969-89)

Freitag, Carl B., Professor, Psychology
B.A., 1961, Louisiana Polytechnic Institute; M.S., 1963, Baylor University; Ph.D., 1972, University of Georgia. (1972-91)

Fullerton, Ralph O., Jr., Professor Emeritus, Geography and Geology; Department Chair
A.B., 1960, University of Kentucky; M.S., 1962; Ed.D., 1971, Indiana University. (1963-97)

Gentry, E. Linnell, Professor, Educational Leadership
B.A., 1950, West Virginia Wesleyan; M.A., 1954, West Virginia University; Ph.D., 1966, George Peabody College. (1966-92)

Ginanni, Francis R., Professor Emeritus, English
A.B., 1960, San Jose State College; M.A., 1964, University of Virginia; Ph.D., 1970, Auburn University. (1964-94)

Gonce, James Howard, Professor, Industrial Studies
B.S., 1949; M.A., 1950, University of Alabama; Ed.D., 1961, George Peabody College. (1952-83)

Gould, Richard H., Professor Emeritus, Engineering Technology and Industrial Studies; Department Chair
B.S., 1952; M.S., 1955, University of Mississippi; Ed.D., 1973, University of Tennessee, Knoxville. (1966-95)

Greever, Clarence E., Professor, Education
B.S., 1938; M.A., 1951, East Tennessee State College; Ed.D., 1956, University of Tennessee. (1956-75)

Grubbs, David, Professor Emeritus, Political Science
A.B., 1951, Maryville College; M.A., 1953, University of Tennessee; Ph.D., 1961, University of Pennsylvania. (1966-94)

Hinton, Thomas Earl, Professor Emeritus, Music
B.M., 1951; M.M., 1954; Ed.D., 1969, George Peabody College. (1960-94)

Hodge, Harry F., Professor, Psychology
B.S., 1959; M.S., 1960, University of Tennessee, Knoxville; Ed.D., 1963, Auburn University. (1980-93)

Hooper, Ernest Walter, Professor Emeritus, History
B.S., 1942, Middle Tennessee State College; M.A., 1949; Ph.D., 1957, University of North Carolina. (1960-82)

Howard, Charles Edwin, Professor Emeritus, English
B.S., 1947, Troy State Teachers College; M.A., 1948, George Peabody College; Ph.D., 1959, Vanderbilt University. (1951-84)

Howard, Phillip, Professor Emeritus, Music
B.S. in Music, 1938, Murray State College; M.M., 1940, American Conservatory of Music, Chicago; Ph.D., 1950, University of Iowa. (1951-84)

Howell, Sarah, Professor Emeritus, History
A.B., 1952; M.A., 1967; Ph.D., 1970, Vanderbilt University. (1970-96)

Hutcheson, Lynn T., Professor, Music
B.M., 1964, University of Texas-El Paso; M.M., 1966, Northwestern University; D.M., 1972, Florida State University. (1972-98)

Hutcheson, Paul Henry, Professor Emeritus, Computer Science
A.B., 1950, David Lipscomb College; M.A., 1951, George Peabody College; Ph.D., 1960, University of Florida. (1960-94)

Jennings, Thelma, Professor Emeritus, History
B.S., 1953; M.A., 1962, Middle Tennessee State University; Ph.D., 1968, University of Tennessee. (1966-85)

Keem, George, Professor, Elementary Education
B.S., 1947; M.S., 1952; Ed.D., 1962, Wayne State University. (1969-81)

Maples, Wallace, Professor Emeritus, Aerospace
B.S., 1963, Middle Tennessee State University; M.S., 1965, University of Tennessee; Ed.D., 1970, Indiana University. (1969-1995)

Martin, Mary W., Professor Emeritus, Educational Leadership; Dean, College of Graduate Studies
B.S., 1952, Ohio State University; M.A., 1965, Memphis State University; Ed.D., 1967, University of Tennessee, Knoxville. (1968-94)

McMillion, Ovid M., Professor, Geography
A.B., 1930, Ohio University; M.A., 1934, George Peabody College; Ph.D., 1961, University of Maryland. (1966-75)

Mueller, Hans G., Professor Emeritus, Economics and Finance
A.B., 1955, University of Washington; Ph.D., 1968, Vanderbilt University. (1961-93)

Naylor, Tom L., Professor, Music
B.S., 1961, Bob Jones University; M.A., 1962, Appalachian State University; M.M., 1969; D.M., 1973, Indiana University. (1967-98)

Ordoubadian, Reza, Professor, English
B.A., 1954, Teheran University; Graduate Study, Duke University, Vanderbilt University; M.A., 1965; Ph.D., 1968, Auburn University. (1962-89)

Parchment, J. Gerald, Professor, Biology
B.S., 1944, Middle Tennessee State College; M.A., 1947, George Peabody College; Ph.D., 1961, Vanderbilt University. (1949-89)

Parker, Chester, Associate Professor, Psychology
B.A., 1945; B.D., 1951, Butler University; M.A., 1968; Ed.D., 1971, Ball State University. (1971-87)

Penny, Guy, Professor Emeritus, Health, Physical Education, Recreation, and Safety; Director, The Wellness Center
B.S., 1950; M.Ed., 1958, University of Mississippi; Ed.D., 1970, University of Southern Mississippi. (1970-93)

Penrod, William, Professor Emeritus, Psychology
B.A., 1951, Carson-Newman College; M.S., 1959, University of Miami; Ph.D., 1962, University of Florida. (1970-93)

Porter, T. Coy, Professor, Foreign Languages
B.A., 1944, Harding College; M.A., 1946; Ph.D., 1968, Vanderbilt University. (1964-85)

Raper, Elmer, Professor, Education
A.B., 1946, University of Chattanooga; M.S., 1950; Ed.D., 1957, University of Tennessee. (1957-74)

Reeder, Ernestine N., Professor Emeritus, Human Sciences; Department Chair
B.S., 1959, East Carolina College; M.S., 1962, University of Tennessee; Ed.S., 1972, George Peabody College; Ph.D., 1977, University of Tennessee. (1972-94)

Reeder, Glen P., Professor Emeritus, Health, Physical Education, Recreation, and Safety
B.S., 1949; M.S., 1954, University of Tennessee; Ph.D., 1959, State University of Iowa. (1971-93)

Riel, Francis J., Professor Emeritus, Health, Physical Education, Recreation, and Safety
A.B., 1939; M.S., 1941, University of Massachusetts; Ed.D., 1951, Boston University. (1949-77)

Rucker, Ellis S., Jr., Professor, Biology
B.S., 1935, Middle Tennessee State College; M.A., 1938; Ph.D., 1946, George Peabody College. (1946-79)

Sakas, Joseph, Associate Professor, Youth Education and School Personnel Services
B.S., 1962; M.A., 1963, Austin Peay State University; Ed.D., 1967, George Peabody College. (1966-84)

Scott, Dan, Professor Emeritus, Chemistry and Physics; Department Chair
B.S., 1950, Middle Tennessee State College; M.A., 1954; Ph.D., 1963, George Peabody College. (1955-92)

Self, Helen H., Assistant Professor, Elementary and Special Education
B.A., 1949, University of Alabama; M.Ed., 1962, Auburn University; Ed.D., 1969, University of Alabama. (1972-81)

Sharp, Ralph E., Professor, Biology
B.S., 1958, Middle Tennessee State College; M.Ed., 1965; Ed.D., 1972, University of Georgia. (1965-94)

Sikes, Lewright, Professor Emeritus, History
A.B., 1966, Maryville College; M.A., 1968; Ph.D., 1973, University of Tennessee, Knoxville. (1969-96)

Smith, Helen, Associate Professor, Geography
A.B., 1937, University of Colorado; M.A., 1941, George Peabody College; Ph.D., 1958, Clark University. (1970-74)

Spraker, Harold Stephen, Professor Emeritus, Mathematics and Statistics; Department Chair
B.S., 1950, Roanoke College; M.E., 1955; Ed.D., 1960, University of Virginia. (1960-92)

Stanley, Richard E., Professor Emeritus, Management and Marketing
B.S., 1952, University of Illinois; M.B.A., 1953; Ph.D., 1962, University of Florida. (1978-94)

Strobel, Katherine B., Professor Emeritus, Health, Physical Education, Recreation, and Safety
B.S., 1952, Delta State Teachers College; M.A., 1954, Texas State College for Women; Ph.D., 1986, Texas Women's University. (1971-96)

Terrell, R. Paul, Professor, Geography and Geology
B.S., 1937, Western Kentucky; M.A., 1941, George Peabody College; Ph.D., 1949, Clark University. (1969-80)

Todd, Fowler I., Professor Emeritus, Management and Marketing
B.S., 1940, Murray State Teachers College; M.A., 1956, George Peabody College; Ph.D., 1965, University of Illinois. (1965-83)

VanDervort, Thomas R., Professor, Political Science
A.B., 1960, University of Tennessee; M.A., 1962, Tufts University; Ph.D., 1967, University of Tennessee. (1963-98)

Vickrey, Thomas L., Professor, Mathematics and Statistics
B.S., 1952; M.A., 1960, University of Oklahoma; Ed.D., 1968, Oklahoma State University. (1969-90)

Voorhies, Edwin S., Professor Emeritus, Industrial Studies; Dean, School of Basic and Applied Sciences
B.S. in M.E, 1942, Georgia School of Technology; M.A., 1953, Middle Tennessee State College; Ed.D., 1965, University of Tennessee. (1957-85)

Ward, James L., Professor, Sociology
B.A., 1934; M.S., 1958, Henderson State College; Ed.D., 1968, University of Mississippi. (1971-75)

Wasson, Woodrow, Professor, Sociology, Anthropology, and Social Work
A.B., 1939; M.A., 1940, Vanderbilt University; B.D., 1942; Ph.D., 1947, University of Chicago; M.L.S., 1967, George Peabody College. (1969-80)

Williams, John D., Professor, Elementary and Special Education
B.S., 1943; M.S., 1946, University of Tennessee; Ed.D., 1954, University of Tennessee, Knoxville; Post-doctoral Scholar, University of California at Los Angeles. (1964-91)

Windham, William Thomas, Professor Emeritus, History; Department Chair
B.S., 1946, Illinois Institute of Technology; M.A., 1950; Ph.D., 1955, University of Alabama. (1955-89)

Wiser, C. Wymer, Professor Emeritus, Biology
B.S., 1945, Harding College; M.A., 1946, George Peabody College; Ph.D., 1956, Vanderbilt University. (1956-95)

Wiser, J. Eldred, Professor, Chemistry and Physics; Department Chair
B.S., 1938, Middle Tennessee State College; M.A., 1940; Ph.D., 1947, George Peabody College. (1946-81)

Woods, Alvin Edwin, Professor Emeritus, Chemistry
B.S., 1956, Middle Tennessee State College; M.S., 1958; Ph.D., 1962, North Carolina State College. (1961-98)

Youree, Beverly W., Professor, Educational Leadership
B.A., 1969, Union University; M.L.S., 1970, George Peabody College; Ed.D., 1984, George Peabody College at Vanderbilt University. (1970-98)

Middle Tennessee State University is a member of the Tennessee Board of Regents system, the seventh largest system of higher education in the natio The Tennessee Board of Regents is the governing board for this system which comprises six universities, fourteen community colleges, and twenty-s area technology centers. The TBR system enrolls more than 80 percent of all Tennessee students attending public institutions of higher education.

Middle Tennessee State University, in its educational programs and activities involving students and employees, does not discriminate on the basis race, color, national origin, sex, religion, or age. Furthermore, the University does not discriminate against veterans or individuals with disabilities.

Murfreesboro, Tennessee

Statement of Mission

Middle Tennessee State University, an emerging major institution of higher education in the state, region, and nation, is a member of the State University and Community College System of Tennessee and is governed by the Tennessee Board of Regents. As a comprehensive university, it offers an extensive range of programs primarily serving students of central Tennessee while also attracting students nationally and internationally. The University provides quality educational programs in a supportive campus environment. An increasing emphasis on scholarship reflects a commitment to research and public service, activities which expand human knowledge and enhance the quality of life.

The University assists its students in becoming educated men and women. Those who avail themselves of the educational opportunities provided will:

1. broaden their interests and develop inquiring minds;
2. develop practices of observation and reading through exposure and exploration of scientific knowledge, cultural heritage, and the changing contemporary world;
3. think logically, critically, and imaginatively;
4. communicate effectively;
5. make sound judgments and choose wisely among ethical, moral, and aesthetic values;
6. recognize the significance of maintaining physical and mental well-being;
7. acquire a basic understanding of a discipline or a group of related disciplines; and
8. participate actively in their communities by seeking and sharing knowledge, expertise, and creative undertakings.

Accordingly, the University will:

1. provide student support services that create a campus environment conducive to learning and personal development;
2. recruit quality faculty and maintain support services to assist faculty in instruction;
3. provide resources to encourage research and public service;
4. develop private sector, alumni, and public support for all aspects of the University; and
5. allocate financial and physical resources to accomplish the mission.

The University offers, through five colleges and thirty-six academic departments, baccalaureate instruction in the liberal and fine arts, the sciences, education, business, communication, and a variety of other fields. Students pursuing bachelor's degrees complete a general studies program designed to provide them with exposure to the cultural legacy of the past and to the characteristics of a changing contemporary world, along with the skills needed to pursue major and minor programs of study. A University Honors College and a Presidential Scholarship Program attract students with exceptional academic records seeking added intellectual challenges, while the Developmental Studies Program strengthens fundamental academic skills.

Although the University's emphasis is on undergraduate instruction, its graduate offerings are varied and vital to its mission. Programs of the College of Graduate Studies are offered at the master's, specialist, and doctoral levels. The Doctor of Arts degree prepares students for careers in undergraduate college teaching. Nearly thirty master's programs are offered, the largest ones in business administration, education, and psychology. The institution anticipates continuing to expand its unique programs and associated activities such as those in aerospace and mass communication.

Enrollment has grown dramatically over the past few years, a pattern predicted to continue as academic programming is enhanced and the population of the region increases. The majority of students attend full time and commute to campus. The student body includes adult learners as well as persons of traditional college age. The University greatly values cultural diversity and actively promotes environments conducive to success for all students and employees.

The University recruits nationally for talented and dedicated faculty members committed to teaching and professional service. Several endowed chairs provide special opportunities for bringing faculty of exceptional reputation to the campus. Research and public service activities take a great variety of forms, including continuing education programming and matching the expertise of the faculty with the evolving needs of the public. The Center for Historic Preservation and the Center for Popular Music, specially funded centers with national reputations for excellence, enrich graduate and undergraduate instruction, research, and outreach programs. Student support services, as well as cultural and athletic programs, offer activities designed to complement the academic program while strengthening the development of the individual student.

Directory for Correspondence

The course offerings and requirements of Middle Tennessee State University are continually under examination and revision. This catalog presents the offerings and requirements in effect at the time of publication, but there is no guarantee that they will not be changed or revoked. This catalog is not intended to state contractual terms and does not constitute a contract between the student and the institution.

Middle Tennessee State University reserves the right to make changes as required in course offerings, curricula, academic policies, and other rules and regulations affecting students to be effective whenever determined by the institution. These changes will govern current and formerly enrolled students. Enrollment of all students is subject to these conditions.

The institution does not warrant or represent that any student who completes a course or program of study will necessarily acquire any specific skills or knowledge or will be able to successfully pass or complete any specific examination for any course, degree, or license.

Middle Tennessee State University
Murfreesboro, Tennessee 37132

MTSU home page address: http://www.mtsu.edu

The History of the University

In 1909, the General Assembly of the State of Tennessee moved "to provide for the improvement of the system of Public Education of the State of Tennessee, that is to say, to establish a General Education Fund." The major thrust of this "improvement" embodied in the legislative act that was to become known as the General Education Bill of 1909 was the establishment of three normals or teacher-training institutions. Following the intent of the Act that one was to be located in each of the grand divisions of the State, the State Board of Education assigned the middle Tennessee institution to Murfreesboro.

Opening in 1911 with a two-year program for training teachers, Middle Tennessee State Normal School evolved into a four-year teachers college in 1925 with the power of granting the Bachelor of Science degree. In 1943, the General Assembly designated the institution a state college. This new status marked a sharp departure from the founding purpose and opened the way for expanding curricular offerings and programs. In 1965, the institution was advanced to university status.

During the progressive movement from a two-year normal to a university, several significant milestones may be identified. In 1936, the Bachelor of Arts program was added. Responding to the expressed needs of the institution's service area, the Graduate School was established in 1951. To effect better communications and improve administrative supervision, the schools concept was introduced in 1962. As Middle Tennessee State University developed and grew, the prestigious Doctor of Arts program was added in 1970 and the Specialist in Education in 1974. These two degree programs became attractive centerpieces for other efforts to improve and enhance institutional roles. Library resources were dramatically increased and sophisticated computer services were developed to aid instruction and administration. A highly-trained faculty enabled the university to continue growth in program offerings. In 1991, the University's six schools—five undergraduate and the graduate school—became colleges as the progressive institution continued to change. In 1998, MTSU's Honors Program changed to the Honors College, the first in the state.

Since 1911, MTSU has graduated more than 72,529 students. Despite the University's growth from a campus of 100 acres, 125 students, and a faculty of 19, to an academic city of over 500 acres, more than 18,000 students, and a faculty of over 700, the institution is still essentially a "people's university" with a concern for the diverse needs of the area that it serves. In the 1980s and 90s, the institution has dedicated resources to become a leader in technology, both in the classroom and in many services to students. In 1986, James McGill Buchanan ('40) became the first MTSU alumnus to be awarded the Nobel Prize. Buchanan received the Nobel Memorial Prize in Economic Sciences for his development of the theory of Public Choice, a way of studying the expenditure of public funds. The University celebrated its 87th anniversary in 1998.

University Aviation Association

Academic Support

Middle Tennessee State University has a large and beautifully landscaped campus of approximately 500 acres and 112 permanent buildings totaling over 3 million square feet. Campus buildings are shown on a map printed in this catalog.

Academic Advising

In addition to the academic assistance provided by the faculty, MTSU has five academic college advisors, one per undergraduate college: Basic and Applied Sciences; Business; Education; Liberal Arts; and Mass Communication. Academic college advisors assist students in their academic growth and adjustment to university life. The advisors work primarily with freshmen, transfers, and potential majors within a specific college, as well as with students in academic difficulty. Advisors counsel students regarding correct college courses, make referrals to faculty major advisors, assist students during CUSTOMS orientation and registration activities, and make referrals to the Counseling and Testing Center. Any student seeking academic assistance is encouraged to contact an academic college advisor. Also, the academic advisor for undeclared freshmen assists students in selecting a major.

Center for Energy Efficiency

The Center for Energy Efficiency (CEE), established in 1998 under the vice president for Finance and Administration with cooperation from Academic Affairs, is interested in providing facilities support to the campus to upgrade the infrastructure and to improve operations and maintenance. The CEE promotes economic and environmental awareness and stewardship by providing educational and training opportunities and experience for the students, faculty, administration, and others in the community. Through association with DOE's Rebuild America, EPA's Energy Star and Green Lights, and Tennessee's State Building Energy Management Program, the CEE supports campus, classroom, and community efforts to accomplish energy efficiency and provides leadership in meeting rapidly changing energy management needs.

Center for Health and Human Services

The Center for Health and Human Services is a federation of academic units that share the common goal of preparing the health and human services workforce in Tennessee. Coordinated by the chairholder of the Adams Chair of Excellence in HealthCare Services, the Center encourages quality interdisciplinary education, research, and service programs in health and human service areas. MTSU programs affiliated with this center include Aging Studies, Athletic Training, Child Development and Family Studies, Communication Disorders, Criminal Justice Administration, Early Childhood Education, Environmental Science and Technology (Engineering Technology and Safety), Exercise Science and Health Promotion, Family and Consumer Studies, Health Education, Health Sciences (nuclear medicine technology, radiation therapy technology), Nursing, Nutrition and Food Science, Pre-professional Programs (pre-cytotechnology, -dental, -dental hygiene, -health information management, -medical, -medical technology, -occupational therapy, -pharmacy, -physical therapy), Psychology (mental health), Recreation and Leisure Services, and Social Work.

Center for Historic Preservation

One of two Centers of Excellence at MTSU, the Center for Historic Preservation was established in 1984. It is a research and public service institute committed to the identification, conservation, protection, and enhancement of the historic environment. Through its varied projects, programs, and activities, the Center responds directly to the needs and concerns of communities and organizations working to include heritage in their future economic development strategies. Providing leadership and assistance on a local, state, regional, and national basis, the Center's work falls within six initiatives.

Town and country preservation recognizes the unique heritage, resources, and problems of rural areas and small towns. National Register nominations for individual buildings and historic districts are an ongoing priority of this initiative. The Tennessee Century Farm program is a documentary and educational project for farms that have been in the same family for at least 100 years. The African-American Rural Church Project, also a continuing project, documents the state's historic black churches, often identifying schools and cemeteries as well.

Heritage education addresses the use of local historic resources as teaching tools in the K-12 grades. The Center cooperates with the MTSU College of Education and local schools to develop and test new teaching materials and provide teacher-training workshops. The Center also works closely with community heritage organizations to guide and assist them in preservation and education projects. The Heritage Education Network is a national website for teachers.

Heritage tourism is specifically directed at research and methods for communities to use to attract and increase visitation to local cultural and historic sites while protecting and interpreting these significant resources. The Center's current projects include the development of a national heritage area on the Civil War and comprehensive technical assistance to Murfreesboro/Rutherford County as a gateway to the area.

Building technology and architectural conservation involves research methodology and technology for dating, analyzing, and applying restoration techniques. The Center offers assistance with paint and wallpaper analysis and structural investigation and recommendations. The Center is the lead agency in a national project on curatorial standards for architectural fragment collections.

Information resources management includes the Center's computer resources, such as autocad drawings, access to preservation databases, desktop publishing, and other necessary support programs for the development and completion of projects in each of the Center's initiatives.

Museum and historic sites offers assistance to heritage museums in basic planning, adaptive restoration of historic buildings for museum use, collections management, and exhibit development. The Center focuses on addressing the needs and problems of small museums.

Graduate-level staff teach two to three historic preservation courses each year for the Department of History and direct selected theses. The Center also funds a limited number of graduate research assistantships each year. Graduate and undergraduate students work at the Center to assist staff on a variety of applied research and public service projects, gaining valuable interdisciplinary experience to supplement their in-class training. The Center's technical library and facilities are visited by and serve students, interested individuals, and preservation professionals.

One recent project, *The Tennessee Encyclopedia of History and Culture,* is a partnership between the Center, the Tennessee Historical Society, and the Tennessee General Assembly, to produce a modern, comprehensive reference book on history and culture. The book was released in 1998.

Center for Popular Music

One of two Centers of Excellence at MTSU, the Center for Popular Music is an interdisciplinary research center devoted to promoting scholarship in and disseminating information on American popular music. The Center recognizes popular music as a unique form of human expression that is shaped by a variety of socio-cultural, artistic, commercial, and technological factors and as one which has always occupied a significant place in American cultural history. In support of its aims, the Center maintains an extensive archive and sponsors various research projects, publications, and public programs.

The Center's research collection is broadly representative of the diversity of American vernacular music, while being particularly strong in its holdings of music of the southeast. Rock and roll (and its roots) and the many forms of vernacular religious music are major focuses of the collection. Holdings encompass a variety of media, including sheet music, sound recordings, audio and video tapes, books, serials, photographs, posters, manuscripts, clippings, and microforms.

The Center is engaged in an extensive program of activities, including sponsoring lectures, conferences, and symposia; producing concerts of historical popular music and producing extensively-annotated sound recordings.

The Center's resources support undergraduate, graduate, and faculty research in a variety of disciplines and departments. Noteworthy among these are the Recording Industry Department, the Music Industry concentration in the Music Department, the Public History program in the History Department, and the interdisciplinary Southern Studies and African-American Studies minors. The Center's resources also serve the music industry, scholars from other institutions in North America and Europe, trade and university presses, and the broadcast media.

Day Care Laboratory

The MTSU Day Care Laboratory provides a safe, healthy, and stimulating environment where children ages three to five can stay on a half-time basis (either Monday, Wednesday, Friday or Tuesday, Thursday) while their parents are at school. The maximum capacity is 24 children per day with the following enrollment priorities:

1. children of students who need part-time care (first priority in Fall and Spring Semesters);
2. children of students who need full-time time care (first priority in the Summer Semester);
3. children of University employees;
4. children of community persons.

Endowed Chairs

Several academic programs are enriched through the establishment of Chairs dedicated to the support of a particular discipline. The chairholders may be full-time faculty members or may be individuals from the appropriate business or professional field who are on campus for special seminars or lecture series.

Two Chairs, funded by gifts to the University Foundation, are administered through the Economics and Finance Department, of which the chairholders are members. More information is available through that department. The Chairs are

Martin Chair of Insurance
Weatherford Chair of Finance

MTSU houses nine **Chairs of Excellence**, established with a combination of private, University, and State funds. They are

The Jennings Jones Chair in Free Enterprise
College of Business
The Jennings Jones Chair in Urban and Regional Planning
College of Business
The John Seigenthaler Chair in First Amendment Studies
College of Mass Communication
The Dr. Carl Adams Chair in HealthCare Services
Several departments
The National HealthCare Chair in Nursing
School of Nursing
The Robert E. and Georgianna West Russell Chair in Manufacturing Excellence
Engineering Technology and Industrial Studies Department
The Katherine Davis Murfree Chair in Dyslexic Studies
Several departments
John C. Miller Chair in Equine Reproductive Physiology
School of Agribusiness and Agriscience
Mary E. Miller Chair in Equine Health
School of Agribusiness and Agriscience

Albert Gore Research Center

The Albert Gore Research Center, a manuscripts repository, collects and makes available for research materials that document the history of Middle Tennessee State University, its students, its faculty, its alumni, and the region that it serves. Although it is visited by scholars from across the United States and from abroad, the primary missions of the Center are 1) to give MTSU students hands-on experience with materials that document their heritage and 2) to provide the many constituents of MTSU with materials to facilitate development of appropriate public policy. The Center is named in honor of the late Albert Gore, Sr. (B.S., MTSU '32) former U.S. congressman and senator, whose papers were the first of many congressional and private collections accessioned.

Information Technology

The Office of Information Technology (OIT) provides support for students, faculty, and staff to effectively use computer and telecommunications technology. Any MTSU student, faculty, or staff member may have an account on the central server for accessing on-campus resources as well as state, regional, national, and international networks including Internet. To set up a new account, come by the OIT office in the basement of Cope Administration Building or use the online account creation option, MAKEID. With MAKEID, users telnet to MTSU from a computer on-campus or off-campus to create a new account. Instructions are available on the OIT web page. OIT assigns the username and password, and the account is usually ready to use within three hours. OIT assists the instructional effort in many ways including providing training on the Internet for students, faculty, and staff and assisting faculty with development of technology-based instructional tools. The MTSU ID card system is administered by OIT. All MTSU students, faculty, and staff carry an MTSU ID card for access to campus services and privileges. Administrative functions such as web and telephone registration and student information systems are also supported through OIT.

The Instructional Technology Support Center

The Instructional Technology Support Center (ITSC), located in the McWherter Learning Resources Center, provides facilities, training, and support for the use of instructional technology by MTSU faculty, MTSU students, and K-12 teachers. The ITSC consists of several related units and facilities, including Audio/Visual Services, Instructional Media Resources, two computer labs, faculty and graduate student multimedia development centers, a teleconferencing classroom, and a multimedia classroom.

Audio/Visual Services consists of two sub-units, **Equipment Services** and **Television Services**. Equipment Services maintains an inventory of audio-visual equipment for faculty checkout, repairs campus audiovisual equipment, provides dubbing services, records off-air programming for classroom use, and supports satellite downlinking. Television Services offers professional video production services for MTSU faculty and administrators, including studio production, remote production, and post production.

Instructional Media Resources (IMR) manages a large collection of videotapes, audio tapes, slides, filmstrips, computer software, CD-ROMs, and laserdiscs available for faculty use in classrooms and for on-site use by students. Instructional Media Resources also has typewriters and both Macintosh and Pentium computers available for walk-in use by faculty and students. Faculty can reserve IMR materials and place their own multimedia resources on reserve in Instructional Media Resources for on-site use by their students.

Two Pentium computer labs are available in the ITSC for use by faculty and students. Computers in both labs have access to the campus network. A description of the hardware and software in the computer labs and a monthly listing of open hours are posted on the ITSC web page (http://www.mtsu.edu/~itsc).

Faculty and graduate students can create multimedia lectures or presentations at four multimedia development stations in the ITSC. Faculty may reserve the ITSC teleconferencing classroom (LRC 101T; seating 30) or the multimedia auditorium (LRC 221; seating 399) for occasional use by their classes. Both rooms contain a computer, computer projection capability, access to the campus network, satellite downlink capability, and a full complement of audio-visual equipment.

Keathley University Center—James Union Building

The Keathley University Center and James Union Building are service-oriented buildings for the use of the campus community. Services and facilities include

- a modern, self-service bookstore;
- a complete service post office with individual mailboxes available;
- recreational facilities such as billiards, ping-pong, cards, chess, checkers, and electronic games;
- a mini-market with a variety of snacks;
- meeting rooms, ballroom, and auditorium for clubs, organizations, and campus-sponsored programs;
- diversified programs which include movies, musical groups, speakers, dances, and cultural events all planned and presented by student committees; and
- food services including the Keathley University Center Grill and James Union Building banquet and luncheon services.

McWherter Learning Resources Center

The McWherter Learning Resources Center provides the opportunity for a different approach to learning. Completed in 1975, this unique 65,000 square-foot facility received national recognition for the award-winning design and is considered a model by other institutions throughout the region. The McWherter Learning Resources Center is the primary facility for teacher education programs and provides instructional technology support to faculty and programs at MTSU as well as area school districts.

In addition to the Instructional Technology Support Center, the support areas of Photographic Services and Publications and Graphics have the dual responsibility of producing materials for classroom use and for serving the entire University community's photography and publication needs. Also housed in the facility are the WMOT-FM Radio Station and the Gore Research Center.

Murphy Center

Charles M. Murphy Center is a multi-purpose building for instruction, recreation, athletics, and convocations. This versatile structure provides facilities that enhance the total health, physical education, recreation, and safety programs as well as house some of the outstanding athletic and entertainment events in Tennessee. The complex includes the Monte Hale Basketball Arena, two auxiliary gymnasiums, four handball courts, classrooms, two dance studios, an indoor track, indoor tennis courts, men's and women's dressing rooms, and weight training equipment. The ticket office is also located in Murphy Center (track level).

Parking Services

The Parking Services Office issues parking permits and enforces parking regulations for the MTSU community.

All students (including part-time, full-time, graduate students, night students, etc.), administrators, faculty, and staff, whether full- or part-time, intending to park a vehicle on campus must purchase a permit through Parking Services and place the permit on or in the vehicle being operated. The purchaser is responsible for violations received by any vehicle bearing the purchased parking permit.

Public Safety

The Department of Public Safety maintains 24-hour coverage with police patrol and communications operators and is responsible for the safety and protection of the MTSU community. Services provided include law enforcement, communication of emergency services, building security, escorts, and general assistance to students.

College and University Security Information Act

Pursuant to the provisions of the "College and University Security Information Act," Public Chapter No. 317, enacted by the 1989 General Assembly, Middle Tennessee State University makes available crime rates and statistics as well as security policies and procedures to interested parties. Persons wishing to review or receive a copy of this information, may contact Chief Jack Drugmand, Public Safety Department, Middle Tennessee State University, Murfreesboro, TN 37132, (615) 898-2424

*Information to help avoid becoming a victim of crimes such as theft and sexual assault is available in the **MTSU Student Handbook**, the Fall and Spring Schedule Books, and the Public Safety Orientation calendar.*

Religious Opportunities

The Philosophy Department offers courses for academic credit in religious studies. In addition, every MTSU student is encouraged to attend worship services of his/her choice. The University seeks neither to promote nor to exclude any creed. Campus ministries are located in facilities that border the campus; these include the Baptist Student Union, Christian Center, Wesley Foundation, Presbyterian Student Fellowship, and Catholic Student Center.

Statement of Community Standards of Civil Behavior

Middle Tennessee State University is committed to sustaining an environment of tolerance for diversity among its students, staff, and faculty. In addition, the University acknowledges a responsibility for encouraging all members of the community to observe certain standards of civility in their interactions with one another. The choice to associate one's self with this fellowship of scholars is freely made by each participant, but obligates those who do join to observe the following expectations for civilized conduct within the MTSU community:

- the practice of personal honesty in all matters;
- a positive regard for the dignity and value of each citizen in the community;
- respect for the individual rights and possession of community members;
- disdain for bigotry and hatred expressed in any form or medium and directed toward identifiable groups or individuals in the community;
- tolerance for the convictions and opinions of others, even when not in agreement with one's own beliefs;
- a recognition of community members' mutual needs and concerns, and acceptance of a responsibility held in common to support the personal growth and efforts of each individual in furtherance of the well-being of the entire community.

Student-Athlete Enhancement Center

MTSU's Student-Athlete Enhancement Center is the academic support program for over 300 student-athletes in 16 NCAA sports. Center personnel monitor the student-athlete's progress toward a degree and are committed to the academic growth of our student athletes. Facilities for the Student-Athlete Enhancement Center are centrally located on campus and include three counseling offices and a study hall open 40 hours per week. The center provides an atmosphere of personal attention and encouragement as well as tutorial assistance, advice during registration, and recognition for academic accomplishments.

The center is also a member of the NCAA Life Skills Program, a five-point commitment program dedicated to assisting the student-athlete in developing skills to cope with every aspect of life. Some of the seminars and workshops presented to the student-athletes include instruction in communication skills, social development, value and ethics awareness, emotional health, fiscal responsibility, community outreach, and career development.

Facilities for the Student-Athlete Enhancement Center are located at the Football Stadium and include administrative offices, tutoring rooms, a computer center, and a study hall open 67 hours per week.

University Library

The University Library provides access to information from its own collections and from resources around the world. The library supports student research needs from a central facility containing print volumes, microform materials, and computer databases.

In addition to over 600,000 printed volumes of books, reference sources, and government documents, the Library contains another 400,000 volumes of periodicals, newspapers, and research titles in microtext formats. The Library receives over 3,500 subscriptions to periodicals and also serves as a partial depository for United States government publications. In addition to the online system, there are other computerized information databases available to users.

A new central library of 250,000 square feet was opened in January 1999 in which collections of materials and services needed by students are provided. These meet their needs for course assignments, assigned reading, term papers, projects, and student research. In addition to these, recreational reading materials and other information are available to meet the information needs of students. The new facility provides various kinds of seating for 2,500 users as well as 350 computers for accessing both local and international information resources. Special features of the new library include an Adaptive Technologies Center to meet needs of disabled students, 43 small group study rooms, and 143 graduate research carrels.

Students are encouraged to ask librarians about the kinds of materials that are available in the Library and about the methods that can be used to retrieve information. Librarians are available at the main floor Reference/Information Desk. Students are requested to become familiar with the library policies as well as the various printed research guides which contain further information about Library collections and services. A student ID card is required to check out library materials. More information is available on the library's web page on the Internet.

Continuing Studies and Public Service

Rosemary Owens, Dean
Cope Administration Building 113

The purpose of the Division of Continuing Studies and Public Service at Middle Tennessee State University is to extend services of the University to adults, individuals, and groups beyond the resident students on campus. The division is divided into two main areas—credit and non-credit. The credit area coordinates distance learning, off-campus courses, summer school, and evening classes. The non-credit area caters to professionals interested in updating skills, groups or organizations desiring some type of educational experience, or persons needing any of the non-credit services outlined below. More information on either of these areas can be obtained by contacting the Division of Continuing Studies and Public Service, (615) 898-2462.

Credit Areas

Distance Learning Courses

Distance learning courses, coordinated through the Division of Continuing Studies and Public Service, include courses via video conferencing, telecourses, correspondence courses, and online courses.

- **Video Conferencing Courses** - Video conferencing courses send the instructor's "live" lectures at MTSU to students at the remote sites. Sites include Spring Hill, Motlow State Community College, and Columbia State Community College. The video conferencing classrooms are equipped with TV monitors and push-to-talk microphones so that the students and instructors can interact. The instructor will visit the remote sites during the semester assuring that each student will have an opportunity to meet him/her in person. The instructor is also available during office hours at MTSU by phone, e-mail, or in person.
- **Telecourses** - Telecourses are delivered primarily over cable television. Students are required to attend an orientation and two examinations on campus. Instead of attending lectures on campus, telecourse students watch approximately one hour of programs each week. The telecourses are available on several local channels and in the McWherter Learning Resources Center. Telecourse tapes may also be rented. In addition, students read their texts and study guides and submit assignments as scheduled. Teachers are available at set times for consultation. More information may be obtained by calling (615) 898-5374 or visiting the telecourse homepage at www.mtsu.edu/~tlcourse.
- **Correspondence Courses** - Correspondence courses involve individual, independent instruction of a student by an instructor on a one-to-one basis. Typically, this entails home study as well as the exchange of materials and evaluations through the mail. Interaction and feedback between correspondence course faculty and students takes the form of written assignments, testing, evaluations, guidance, and assistance via such media as telephone, FAX, e-mail, and other electronic technologies. More information may be obtained via e-mail at corres@mtsu.edu.
- **Online Courses** - Online courses are accessed over the Internet through e-mail, newsgroups, distribution lists, and the World Wide Web. Only students with strong experience on the Internet should register for an online course. Students are required to have access to a computer and the Internet. Students must attend at least one proctored examination and must complete assignments. A photo ID must be presented at all exams. All other assignments and quizzes will be available through the Internet. More information may be obtained by visiting www.mtsu.edu/~netcours.

More information can be obtained by calling (615) 898-5611. The current schedule book carries course offerings.

Evening School

The Division of Continuing Studies and Public Service serves students attending MTSU at night by assisting with registration, accepting payment of fees/fines for the Business Office, providing catalogs and schedule books, making IDs and issuing parking permits, as well as offering other services to the student outside regular daytime business hours. More information is available by contacting the Evening School Office, (615) 898-5611.

Off-campus Program

Credit courses are regularly scheduled at several off-campus locations in middle Tennessee, including Smyrna, Spring Hill, Motlow State Community College, and Columbia State Community College. Efforts are made to service any special requests for off-campus credit courses by business and industry, school systems, and agencies.

Summer School

The Division of Continuing Studies and Public Service directs the summer school, which includes a substantial number of credit courses. Course offerings are available in the current summer schedule book.

Non-credit Area

Courses, Seminars, and Conferences

The non-credit area assists groups and individuals in the planning, advertising, coordinating, and delivery of courses, seminars, and conferences. Various non-credit courses are offered each semester as well as upon demand. They are intended to serve business, industry, government, education, professional organizations, and civic and service groups. A current course catalog is available by calling (615) 898-2462.

Computer and career programs are offered on campus for individuals trying to upgrade skills to advance themselves in the workplace or for personal development. Career consulting is available on a one-to-one basis using career software. Computer courses provide hands-on learning using current software packages as well as courses relating to the Internet and PC maintenance.

Professional development certification programs, seminars, workshops, and short courses that focus on timely and leading-edge topics are presented on and off campus. Current client groups include human resource managers, municipal clerks, engineers, lawyers, accountants, cosmetologists, emergency medical technicians, government officers, and payroll administrators.

Children, teens, adults, and senior adults can choose from courses ranging from leisure and recreation programs to personal enrichment. Children and teens selections include summer day camps, art and drama programs, and gymnastics. Adults can pick from exam prep courses, foreign languages, recreation activities, and English as a Second Language. Elderhostel and other programs are offered for senior adults.

Continuing Education units (CEUs) are awarded to persons successfully completing most of the special interest activities. The Southern Association of Colleges and Schools defines a CEU as "ten contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction, and qualified instruction." The CEU provides a standard unit of nationally recognized measurement whereby business, industry, and professions may grant appropriate recognition to persons for completion of continuing education programs. A permanent record of all CEUs earned is maintained by the University. A transcript may be obtained by sending a written request to the Division of Continuing Studies and Public Service.

Training and Professional Development Center

The Training and Professional Development Center (TPDC) offers various human resource services for business, industry, and government, including customized on-site training, needs assessments, and specialized workforce analysis. Current programs include team building, customer service, leadership, supervision, and written and interpersonal communication.

Inquiries should be directed to the director of the Training and Professional Development Center, phone (615) 898-2407.

College of Graduate Studies

Donald L. Curry, Dean
Cope Administration Building 114

Graduates of Middle Tennessee State University and of other accredited institutions are eligible to apply for admission to the College of Graduate Studies.

All applicants for a degree program must complete an application, pay an application fee, provide official transcripts from each college or university attended (except MTSU), provide any required references, and meet entrance test requirements as set forth in the **Graduate Catalog.**

International students must submit a financial statement and a score on the Test of English as a Foreign Language (TOEFL) of 525 or above in addition to the general admission credentials. (Please see the Graduate Catalog.)

Admission to the College of Graduate Studies does not imply admission to a graduate program or candidacy for a degree.

Seniors at MTSU with 98 semester hours credit will be allowed to take graduate work for a total of no more than 12 semester hours upon approval of the undergraduate advisor, the graduate program advisor, and the graduate dean. An application form must be obtained from the Graduate Office. The College of Business does not have such a program. Graduate work (500-, 600-, and 700-level courses) may not be used toward an undergraduate degree. Not all graduate courses are offered to undergraduates. Permission is not guaranteed.

Graduate Programs

Graduate degrees offered are listed on page 18. Details o available graduate study, courses offered, and specific degree requirements may be found in the **Graduate Catalog.**

Master's Degrees

Many departments at MTSU offer graduate programs leading to a master's degree. A student's program of study is directed by the major department, subject to the approval of the graduate dean. Fields in which the degrees may be earned are listed in the academic inventory beginning on page 18 and in the following list of graduate majors:

Accounting/Information Systems
Administration and Supervision
Aerospace Education
Aviation Administration
Biology
Business Administration
Business Education
Chemistry
Computer Science
Criminal Justice Administration
Curriculum and Instruction
Economics
English
Exercise Science and Health Promotion
Foreign Languages
Health, Physical Education, Recreation
History
Human Sciences
Industrial Studies
Mass Communication
Mathematics
Music
Psychology
Reading
School Counseling
Sociology
Special Education
Vocational-Technical Education

Specialist in Education Degree

The Specialist in Education degree (Ed.S.) is offered in Administration and Supervision and in Curriculum and Instruction.

Doctor of Arts Degree

The Doctor of Arts degree (D.A.) is offered in Chemistry, Economics, English, History, and Physical Education. An applicant for admission must hold a master's degree or its equivalent from an accredited institution.

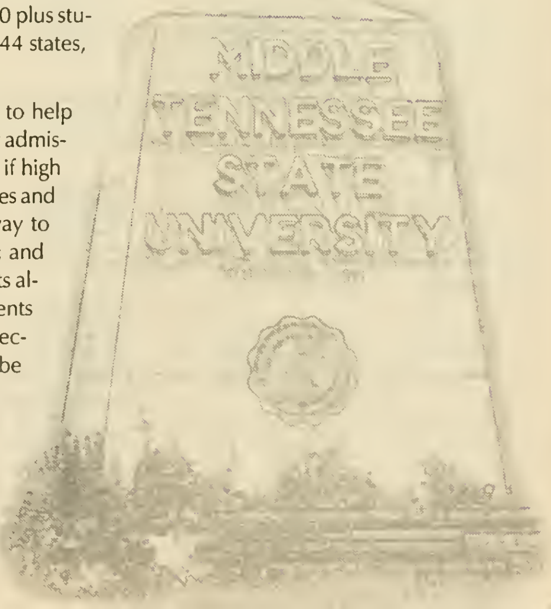
A STUDENT AT MTSU

Middle Tennessee State University, a co-educational, tax-supported institution, is located in Murfreesboro less than a mile from the exact geographic center of the state. Murfreesboro, a historic city of over 52,000, is 32 miles southeast of Nashville via I-24 and is easily accessible from any direction. MTSU students and personnel can enjoy the advantages of a metropolitan atmosphere without the impersonalization associated with a big city.

The University is made up of six undergraduate colleges—the College of Basic and Applied Sciences, the College of Business, the College of Education, the College of Liberal Arts, the College of Mass Communication, and the University Honors College—and a College of Graduate Studies. MTSU offers curricular breadth in a variety of programs ranging from traditional ones on which the school was founded to new, innovative ones designed for a rapidly changing society. Designated a regional university, MTSU provides services and continuing education to the middle Tennessee area.

Some 71 percent of the school's 739 full-time faculty members hold the earned doctorate. The 18,400 plus student body comes from 92 Tennessee counties, 44 states, and 59 foreign countries.

The following section includes information to help high school students select courses they need for admission to college and ways to correct deficiencies if high school requirements were not met; the procedures and costs for becoming a student at MTSU; the way to apply for financial aid and on-campus housing; and regulations and degree requirements for students already enrolled. The General Studies requirements referred to throughout the catalog are in this section. Additional information about MTSU may be requested from the Admissions Office.



Academic Inventory

Middle Tennessee State University has been authorized to grant the following degrees:

Undergraduate
- Associate in Applied Science in Law Enforcement (A.A.S.)
- Bachelor of Arts (B.A.)
- Bachelor of Business Administration (B.B.A.)
- Bachelor of Fine Arts (B.F.A.)
- Bachelor of Music (B.M.)
- Bachelor of Science (B.S.)
- Bachelor of Science in Nursing (B.S.N.)
- Bachelor of Social Work (B.S.W.)
- Bachelor of University Studies (B.Unv.S.)

Graduate
- Master of Arts (M.A.)
- Master of Arts in Teaching (M.A.T.)
- Master of Business Administration (M.B.A.)
- Master of Business Education (M.B.E.)
- Master of Criminal Justice (M.C.J.)
- Master of Education (M.Ed.)
- Master of Science (M.S.)
- Master of Science in Teaching (M.S.T.)
- Master of Vocational-Technical Education (M.V.T.E.)
- Specialist in Education (Ed.S.)
- Doctor of Arts (D.A.)

On the following pages is a summary of the degrees offered in each department with the available majors, concentrations, and certificate programs listed. Degree requirements are outlined in the appropriate catalog sections following.

Department/School	Major	Concentration	Degree Offered	Undergraduate Minor	Graduate Minor

Requirements for Admission

Admissions Office
Cope Administration Building 208

Priority Application Filing Deadlines

Fall semester applicants who file their admission applications and necessary credentials by July 1 are guaranteed to receive an admission decision prior to Fall registration dates. Persons applying after July 1 may not be allowed to register for Fall classes because of the time required to evaluate admission credentials.

The priority filing deadline for Spring semester applications is December 1.

Required High School Courses

In addition to the admission requirements described below, all students graduating from high school in 1993 or thereafter must have completed the high school subject units listed below for regular admission to MTSU. Students graduating from high school in 1989-92 must meet the 1989 14-unit requirements—those listed below but excluding visual and/or performing arts.

Subject Area	Required Units
English	4
Visual and/or Performing Arts, includes a variety of possibilities in either performance or survey courses	1
Algebra I (or Math for Technology II), Algebra II, and Advanced Math or Integrated Math Sequence (Integrated Mathematics I, II, III)	3
Natural/Physical Sciences, including at least one unit, with lab, of biology, chemistry, physics, or principles of technology	2
Social Studies, (world history, ancient history, modern history, European history, or world geography)	1
United States History	1
A single **Foreign Language**	2

An additional unit in the arts, in mathematics, and in foreign languages is recommended. Applicants who attended high schools not offering the required courses may be admitted, but they must remove the deficiencies before enrolling for 64 credit hours. Different requirements may exist for some freshman applicants (e.g. early admission and international students). Students who graduated from high school prior to Spring 1989 and students who acquired a GED credential in 1988 or earlier are exempt from removing unit deficiencies. Students receiving a degree designed for transfer from any community college are also exempt. Transfer students who graduated from high school in May 1989 or thereafter are subject to the requirements.

High School Graduate

Public School—applicants for degree admission as first-time freshmen must provide an official high school transcript showing credits earned and date of graduation. The transcript of graduates of Tennessee public high schools must include a notation indicating that the student passed the required proficiency examination.

Non-Public School—graduates of non-public high schools (including private schools, home schools, and church-related schools) must submit an official transcript showing credits earned and date of graduation. The transcript of a home school applicant must be an official copy from an affiliated organization as defined by state law (T.C.A. 49-50-801) or be accompanied by certification of registration with the superintendent of the local education agency which the student would otherwise attend. Applicants who cannot provide a satisfactory secondary school credential may substitute acceptable scores on either the GED examination or the ACE examination.

NOTE: *The cumulative high school grade point average is calculated based upon grades nine through twelve. However, if admission credentials are received by the Admissions Office prior to the applicant graduating from high school then the cumulative grade point average is based upon seven semesters (grade nine through mid-year of grade twelve). The review for high school unit requirements is also based upon grades nine through twelve.*

Standardized Examinations

Only one valid set of ACT/SAT test scores will be used for admission purposes, and that same set is used for assessment decisions. Valid ACT/SAT scores are those earned within three years prior to the first day of the first term of enrollment. Students 21 years of age or older are not required to submit ACT/SAT scores, but those who elect to present valid scores may do so. SAT scores are acceptable in lieu of ACT scores for all applicants.

Freshman

Following are the admission standards for in-state applicants. The categories described below are designed to clarify the process used to evaluate undergraduate applications. It is not necessary for the applicant to choose a category in which to apply, but familiarity with the requirements in each category will assist the applicant in understanding the admission process and his/her likelihood of being admitted. The categories are

Honors Admission—for high-ability students
Standard Admission—for the majority of applicants
Committee Review—for applicants not meeting standard admission requirements
Alternative Admission—for applicants who have special talents or circumstances which may be taken into consideration
Admission by Exception—for applicants with one or two high school course deficiencies

The requirements for each admission category are listed below. Applicants meeting the criteria for Honors or Standard

Admission are **guaranteed** admission to MTSU. All other applications will be **reviewed** by the Admissions Review Committee for possible admission.

Applicants who graduate in 1993 or after are required to have completed the fourteen core courses listed at left. Applicants who graduated between 1989 and 1993 are required to have completed the same core courses with the exception of the visual and/or performing arts.

MTSU will continue to admit a very limited number of applicants who have not completed all of the specified high school units (using the Alternative Admission or Admission by Exception categories), but there is a great deal of competition for these spaces. Applicants with more than two deficiencies are rarely admitted.

Honors Admission—Applicants who meet the conditions in either of the following requirements are guaranteed admission to MTSU and are admitted automatically into the University's Honors College:

1. ACT composite score of 26 or higher, regardless of GPA or high school units (Applicants with less than two units of a foreign language or without one unit of visual/performing arts will be required to remove these deficiencies after enrolling at MTSU.);
2. ACT composite score of 20 or higher, a grade point average of 3.50 or higher, and completion of the required high school units.

Participation in the Honors College is not required of applicants admitted in this category. Many high school seniors will not know until the end of the school year that they are eligible for Honors Admission based on their GPA. In such cases, the applicant will be upgraded to Honors Admission when the final high school transcript is received.

NOTE: Pending Tennessee Board of Regents approval, as of January 1, 2000, Honors College entrance requirements are revised as follows: Entering freshmen qualify for Honors College admission if they have a minimum ACT composite score of 26 and at least a 3.00 high school GPA or if they have a high school GPA of 3.50 and a minimum 22 ACT composite score.

Standard Admission—The majority of freshman applicants will be admitted in the Standard Admission category. In addition to the required high school units, applicants must have a minimum ACT composite score of 20 **or** a minimum 2.80 cumulative grade point average on a 4.00 scale. High school graduates who can show either of these criteria and passing grades in all of the required high school courses are guaranteed admission to MTSU.

Committee Review—Applicants who do not meet the conditions listed above for Standard Admission may submit their credentials to the Admissions Review Committee for review. The committee will consider applicants who have completed the required high school courses and have either an ACT composite score of 17, 18, or 19 **or** at least a 2.00 cumulative grade point average on a 4.00 scale. In addition to the MTSU admission application, official high school transcript, and ACT scores (if under 21 years of age), these applicants are required to provide a personal statement which includes the following:

1. an outline of activities in high school: extracurricular activities, employment, etc. Persons over 21 should substitute employment experience since leaving high school;
2. personal interests and career goals;
3. reasons the applicant wants to attend college and specifically Middle Tennessee State University.

Applicants in this category are **not** guaranteed admission to the university. It is anticipated that MTSU will admit some applicants in this category after a careful review of their academic preparation and the required written personal statement. However, **applicants with a high school grade point average of less than 2.30 or an ACT composite score of less than 17 will typically be denied admission.** Decisions of the Admissions Review Committee are final.

All applicants who present the GED instead of a high school diploma will also have their files reviewed by the Admissions Review Committee to determine admission eligibility. Requirements for GED admission are:

1. minimum GED score of 45;
2. if less than 21 years of age ACT scores must be presented;
3. personal statement form;
4. upon acceptance must complete academic assessment placement testing.

Alternative Admission—Applicants with special talents or circumstances who do not meet the requirements for the above admission categories may still be considered for Alternative Admission. This category applies to applicants with one or more high school deficiencies or who have less than 17 on the ACT and less than a 2.30 grade point average. Applicants for Alternative Admission should submit the MTSU application for admission, official high school transcript (and/or GED score), ACT scores (if under 21 years of age), and a personal statement which includes the following information:

1. an outline of activities in high school: extracurricular activities, employment, etc.;
2. personal interests and career goals;
3. reasons the applicant wants to attend college and specifically Middle Tennessee State University.

The Admissions Review Committee may also request additional documentation specific to each individual's circumstances. It is expected that only a very small number of people in this category will be admitted. In the absence of special talents or circumstances, applicants who do not meet the requirements for Honors, Standard, or Reviewed admission will be denied. Decisions of the Admissions Review Committee are final.

Applicants with diagnosed learning disabilities should contact the MTSU Disabled Student Services Office for more information.

Admission by Exception—This category is designed to assist freshman applicants who graduated from high school in 1989 or after but did not complete all of the high school courses mandated by the Tennessee Board of Regents. Applicants who are otherwise admissible to Middle Tennessee State University may be granted admission with one or two high school course deficiencies under the following circumstances:

1. The applicant has an ACT composite score of 21-25 (or SAT score of 970 to 1160 and no more than two high school unit deficiencies. Applicants who meet these two criteria will be reviewed on an individual basis.
2. The applicant has an ACT composite score of 20 (or SAT score of 930), a cumulative high school GPA of 2.80 or higher, and no

more than two high school unit deficiencies. Applicants in this category will be reviewed on an individual basis.

Applicants who are granted Admission by Exception will be required to remove their high school unit deficiencies within the first 60 hours of their college work. If the deficiencies are in math or English, the applicant will be required to write an academic assessment placement test prior to enrolling. Information about placement testing may be found below and on page 73.

Out-of-State Applicants

Graduates of high schools located outside Tennessee can qualify for admission by meeting the conditions specified in any of the admission categories above. Out-of-state applicants may submit SAT scores or ACT scores. An SAT score of 930 is equivalent to the ACT score of 20 used for standard admission. For honors admission, out-of-state applicants can qualify by (a) an SAT total score of 1170 or (b) high school grade point average of 3.50 on a 4.00 scale with a minimum SAT score of 930. (Pending Tennessee Board of Regents approval, as of January 1, 2000, Honors College entrance requirements are revised as follows: Entering freshmen qualify for Honors College admission if they have a minimum ACT composite score of 26 and at least a 3.0 high school GPA or if they have a high school GPA of 3.5 and a minimum 22 ACT composite score.) Out-of-state students may also present GED scores as appropriate.

Assessment Examinations

ACT composite and mathematics and English sub-scores will be used to identify students requiring academic assessment for purposes of placement. Minimum requirements are that applicants under 21 years of age

1. whose ACT composite score is 18 or lower must complete a reading comprehension test;
2. whose ACT mathematics sub-score is 18 or lower must take the appropriate mathematics tests as determined by level of high school preparation in mathematics;
3. whose ACT English sub-score is 18 or lower must complete a writing sample.

Applicants 21 years of age or older on the first day of classes of their first term are required to take the entire academic assessment placement test series unless they elect to present ACT scores posted within three years prior to the first day of the first term of enrollment.

Transfer students without previous college-level English or mathematics course work will be required to take the appropriate portion of the assessment test prior to registration.

The assessment exam is administered on several dates during the Fall, Spring, and Summer semesters. On the basis of their test scores, students are placed in basic, developmental, or college-level courses. More information about the Developmental Studies Program may be found on page 73.

NOTE 1: Academic assessment placements scores older than three years are not valid.

NOTE 2: After acceptance as a student, there are certain performance tests students will be required to take during their academic careers. It is a requirement of admission that students agree to take any test deemed necessary by the institution. In those instances in which tests are administered by an external entity, students hereby agree that the results of such tests be released to the institution. The purpose of this requirement is to comply with the legislature's expressed intent that institutions regularly evaluate and improve instruction at all levels. If students are under 21 years of age and are required by institutional policy to complete academic assessment placement tests, their scores on these tests and course placement may be reported to their high school for research purposes. Any test scores will be treated confidentially as required by law.

Transfer

An undergraduate applicant who previously has registered at any college or university must apply as a transfer student. In order to qualify for regular admission, the applicant must request that a transcript from each institution attended be sent directly to the Admissions Office. Applicants who have earned 8 or fewer semester hours or 12 or fewer quarter hours from a college or university must meet both transfer and freshman admission standards. Concealment of previous college or university attendance may be cause for rejection, cancellation of admission, or dismissal of the student.

Admission will be granted to applicants who have a cumulative grade point average of 2.00 or higher. (Applicants who have not been enrolled in any post-secondary institution in the 12 months preceding the term for which they are applying will be eligible for admission, but they will be admitted on academic probation if their cumulative grade point average is less than 2.00). Transfer applicants graduating from high school in 1989 or thereafter who have not earned 60 semester hours of transferable work and who have not earned an associate's degree designed for transfer are subject to the high school units requirement described on page 24.

Eligible transfer applicants who have not completed all of these courses will be admitted, but they must remove deficiencies during the first 30 credit hours of enrollment at MTSU. Courses required to remove deficiencies can be used to satisfy elective credit only.

Transfer applicants who do not have a cumulative 2.00 grade point average may submit their credentials to the Admissions Review Committee for review. The committee will consider applications from applicants with less than a 2.00 cumulative grade point average. In addition to college transcript(s) these applicants are required to provide a transfer appeal form which includes the following:

1. factors regarding the applicants' ability to be academically successful at MTSU;
2. steps the applicants will take to improve their grades;
3. career goals and how attending MTSU will help achieve them.

Transfer students admitted by the Admissions Review Committee will be admitted on probation. Refer to page 53 for university retention policy. Decisions of the Admissions Review Committee are final.

Transfer applicants without previous college-level English or mathematics course work will be required to take the appropriate portion of the academic assessment placement test prior to registration. The test will assist in course placement and may result in requiring some students to enroll in developmental courses as additions to their programs.

Acceptance of Transfer Credit

Middle Tennessee State University accepts transfer credit from institutions of higher learning based upon the following considerations:

1. the educational quality of the institution from which the student transfers;
2. the comparability of the nature, content, and level of credit earned to that offered by MTSU; and
3. the appropriateness and applicability of the credit earned to the programs offered by MTSU in light of the student's educational goals.

When posting transfer courses to the MTSU record, all transfer courses are converted to MTSU's grading scale and repeat policy. The Admissions Office will send an evaluation when the file is complete. The office **does not** evaluate students who have already received a bachelor's degree.

Students who have completed coursework at institutions for which MTSU has no recent history may be asked to provide information to determine the comparability of content and level of credit presented as transfer to that credit offered by MTSU. Petition is made by submitting the Application for Acceptance of Credit Form available in the Admissions Office. Credit will be granted upon recommendation from the academic advisor and chair of the academic department in which the course is taught, approval of the academic dean of the college in which the course is taught, and approval by the associate director of admissions for transfer services.

Students who feel that they are competent in certain subject areas are encouraged to earn credit through a nationally recognized credit-by-examination program or through departmental credit-by-examination programs at MTSU.

Of the 132 semester hours required for graduation, a minimum of 60 semester hours of senior college credit (credit awarded at four-year institutions) is required of all students who transfer from accredited colleges of less than four-year designation, with at least 48 of the 60 being upper-division courses. Additional information on this stipulation is given under the requirements for graduation on page 55.

Re-enrollee

1. Re-enrollees who have not attended another institution since leaving MTSU need only complete an application for readmission.
2. Re-enrollees who have attended another institution since leaving MTSU need to submit an application for readmission and a transcript from **all** institutions attended since leaving MTSU. Applicants in this category need a grade point average of 2.00 or higher on all courses attempted at all colleges. Registration cannot occur until all transcripts are received so that eligibility for re-admission can be determined.
3. Re-enrollees who wish to attend MTSU after being suspended should follow items 1 and 2 above as well as the following:
   a. Students who receive their first suspension at the end of the Fall Semester may not register at MTSU until the following Summer.
   b. Students receiving their first suspension at the end of the Spring Semester will not be eligible to re-enroll until the following Spring Semester.
   c. Students receiving their first suspension at the end of the Summer Session will not be eligible to re-enroll until the following Spring Semester.
   d. Students receiving two or more suspensions from any college(s), including MTSU, will be denied readmission for one calendar year.
   e. Students who attended another institution during their suspension from MTSU will be readmitted if: 1) they have raised their cumulative grade point average (including MTSU work) to 2.00 or greater, or 2) they have completed a minimum of 12 semester hours at the institution(s) attended since MTSU enrollment with a grade point average of 2.00 or greater.
   NOTE: *Students whose suspension is based upon failure to attain a grade of C or better on the second attempt of a basic or developmental course who attend another institution during their suspension must successfully complete with a grade of C or better the R/D course(s) which caused the suspension.*

Programs for Academically Talented High School Students

Upon completion of the junior year in high school, a student may enroll in regular freshman-level courses during Summer Term under the following conditions:

1. A student must be in the upper 25 percent of the high school class and be nominated by his/her principal and/or counselor.
2. Courses taken during Summer Term must be chosen by the student in consultation with the high school counselor and department chair at MTSU. These courses are intended to supplement, not overlap, the total high school program and are not expected to be used for high school graduation. These courses will have no influence upon entrance requirements for regular admission to MTSU; however, they will count as regular college credit.

Early Admission

There are two ways one may qualify for early admission:

1. Those students who would like to begin college at the end of their junior year must qualify under the following conditions:
    a. be at least 16 years of age;
    b. have completed the junior year of high school with a minimum of 14 high school units;
    c. have a 3.50 grade point average on all work taken during grades 9, 10, and 11;
    d. have a minimum Enhanced ACT composite score of 27;
    e. be recommended for participation in the program by either the high school principal or guidance counselor.
2. Academically talented/gifted students enrolled in grades 9 through 12 in public or private schools in Tennessee may enroll in and receive regular college credit from Middle Tennessee State University under the following provisions:
    a. The student has a grade point average of 3.20 on a 4.00 scale;
    b. The student must present recommendation and permission from the high school principal;
    c. Placement in college courses must be a part of the student's Individualized Educational Placement (IEP) as determined by the Multi-disciplinary Team.

    The University makes no inference that courses completed at MTSU would apply toward high school graduation requirements. This privilege of enrollment is granted only to students enrolled in Tennessee public or private high schools as specified in Chapter 395 of the Public Acts of 1983. Students may register for no more than nine (9) semester hours per semester when enrolled in this program.

High School Scholars Program

The High School Scholars Program is a joint effort between the University and participating high schools. The program utilizes University resources to provide enrichment and challenge to academically-talented high school seniors. Under this program, students may enroll at MTSU while completing their senior year of high school.

The high school retains complete authority over a student's participation in the program, with the principal maintaining the right to terminate participation. The student's primary responsibility, both academically and socially, remains with the high school and precludes participation in such University extracurricular activities as student clubs, athletic teams, and student publications. Academic performance at MTSU, however, becomes part of the student's permanent university record whether the student remains at MTSU or transfers to another institution. HSSP students enroll in regular University courses with regular full-time students without being identified as high school students or as deserving special consideration. Termination is possible at any time, but grades for any completed work will remain a permanent part of the student's transcript. The high school may permit a student to count courses taken at the university level for credit toward high school graduation. This decision is solely at the discretion of the high school principal and has no bearing on the student's status at MTSU.

A student may qualify for the High School Scholars Program under the following conditions:

1. be at least 16 years of age;
2. have completed the junior year of high school with a minimum of 14 high school credits;
3. have a 3.50 grade point average on all work taken during grades 9, 10, and 11;
4. have a minimum Enhanced ACT composite score of 27;
5. be recommended for participation in the program by the high school principal or guidance counselor.

Special Students

Audit

Any person who is over 18 years of age and who wishes to take a course but receive no credit (audit) may do so by applying at the Admissions Office.

NOTE: Regular registration fees will be charged for auditing courses. Specific regulations concerning the responsibilities of students who audit courses may be found on page 38.

High School Enrollment

Applicants who have completed their sophomore year in high school can be admitted in the non-degree category under certain conditions as approved by the director of admissions.

60-Year/Disabled (Audit) Student

Applicants 60 years old or older or permanently and totally disabled (T.C.A., Section 49-7-113) and domiciled in Tennessee are required to pay the non-refundable application fee but are **not required** to pay registration fees if they audit courses. Proof of age or disability is required annually. Registration is on a space-available basis. Regular registration fees will be charged for credit courses.

Adult Special Student

This category is designed to serve the interests of an adult learner (age 21 or older) who does not wish to pursue a degree at the present, but who wishes to receive academic credit. To be admitted, an individual must hold a high school diploma or the equivalent. The applicant who first is denied regular admission to MTSU will also be denied admission to this category for the same semester. Students in this category are not allowed to register for

1. a college-level mathematics or English course unless the appropriate portion of an academic assessment placement test is taken;
2. any college-level course which has a remedial or developmental course prerequisite;
3. any college-level course which has prerequisite courses defined by MTSU academic departments; the current catalog indicates most departmental course prerequisites.

Adult special students may complete a maximum of 16 semester hours credit at MTSU. After receiving 16 hours, the applicant, to continue enrolling at MTSU, must apply for degree-seeking classification and meet transfer admission requirements.

65-Year-Old/Disabled Credit Student

Persons 65 years of age or older or permanently and totally disabled persons (T.C.A., Section 49-7-113) who are domiciled in Tennessee may register for classes on a space-available basis for credit, paying a minimum registration fee. The cost is one-half the semester hour rate up to a maximum of $75.00. An application fee is also required. The applicant must be a high school graduate or the equivalent, and the applicant must submit proof of age or disability annually.

Transient Student

An individual who is currently enrolled and in good standing at another college or university and who wishes to attend MTSU for one semester only must

1. submit the non-refundable application fee (check or money order);
2. complete the application form;
3. submit an official college transcript from the institution last attended.

NOTE: Registration at MTSU includes prerequisite checking which may require validation of course completion. The submission of a college transcript provides proof of successful completion of prerequisite course(s).

International Students

Details regarding admission of international students, whether foreign or permanent residents, can be found on page 31.

Withholding Application Information

Any student withholding application information or giving false information may be ineligible for admission and may be denied continuation of studies at the University.

Measles Immunization

Effective July 1, 1998, the State of Tennessee requires students entering colleges, universities, and technical institutes with enrollment of greater than 200 students to provide proof of two (2) doses of measles, mumps, and rubella (MMR) vaccine on or after the first birthday, or proof of immunity to measles if date of birth is 1957 or after. Students will not be allowed to register for classes until an acceptable form is on file in the Student Health Services Office. More information can be obtained by contacting McFarland Health Services, 898-2988.

Residency Classification for Fee-paying and Admission Purposes

The Admissions Office is charged with the determination of an undergraduate student's residency for fee-paying purposes and as the basis for some University admission requirements. The Graduate Office is charged with the determination of a graduate student's residency for fee-paying purposes. Classification is determined by information submitted on the admission application and subsequent fee classification questionnaire. Notification in writing is made soon after the student applies for admission. All decisions are based on regulations established by the Tennessee Board of Regents, with the intent that all Tennessee public institutions of higher education apply uniform classification rules. Should a student be denied in-state classification, the student has the right of appeal. A written appeal should be submitted to the University Appeals Committee through the Office of the Dean of Student Life. A recommendation on the appeal will be reviewed and acted upon by the vice president for student affairs, whose decision shall be final.

Specific Instructional Programs

Certain instructional programs of the University are subject to special admission requirements which are in addition to the general admission requirements. Two such programs are (1) Nursing and (2) Teacher Education; the special admission requirements for both are subject to change according to availability of institutional resources. Students wishing to enter one of these programs of study should check with the appropriate department to become familiar with any special requirements or deadlines.

NOTE 1: *Acceptance from Middle Tennessee State University does not guarantee admittance to the Nursing Program—nor does rejection from the Nursing Program nullify acceptance to the University. Applicants desiring acceptance to the Nursing Program must obtain an application from the School of Nursing, MTSU, Murfreesboro, TN 37132.*

NOTE 2: *Anyone wishing to apply for financial assistance to attend MTSU should contact the director of Student Financial Aid, MTSU, Murfreesboro, TN 37132. More information on financial aid is presented elsewhere in this catalog.*

NOTE 3: *Persons wishing to reside on campus should submit a housing application to reserve a room as early as possible due to a high demand for available housing. Application for admission should precede application for housing. Detailed information on housing can be found elsewhere in this catalog.*

Application Information

Information on how to obtain an undergraduate application is in the back of this catalog. See page 24 for appropriate application deadlines.

New Freshman (Never previously attended college)

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application** fee (check or money order).
3. Submit official ACT report (not required of applicants 21 years of age or older). An official ACT report can be requested by writing to the American College Testing Program, Box 451, Iowa City, Iowa 52243-0451. Please ask them to send it directly to MTSU, Code #3994. ACT scores on the official high school transcript are acceptable. Out-of-state students may submit SAT scores, Code #1466.
4. Request high school to forward official transcript. If tentative acceptance is desired, request high school transcript through the seventh semester (mid-term of senior year). A final transcript stating date of graduation must be forwarded immediately after graduation.
5. If eligible by GED, have official copy sent directly from reporting institution. *Note: If GED recipient is less than 21 years of age, ACT scores must be presented.*
6. ACT composite and mathematics and English sub-scores will be used to identify students requiring academic assessment placement testing for purposes of placement. Minimum requirements are that applicants under 21 years of age
    - whose ACT composite score is 18 or lower must complete a reading comprehension test;
    - whose ACT mathematics sub-score is 18 or lower must take the appropriate mathematics tests as determined by level of high school preparation in math;
    - whose ACT English sub-score is 18 or lower must complete a writing sample.

Transfer (Previously attended college(s))

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application** fee (check or money order).
3. Request an official transcript be forwarded directly to MTSU from each college, business, or technical school attended.
4. If applicant has earned less than 9 semester hours, a high school transcript and ACT score must be submitted. (ACT not required if applicant is 21 or older.)
5. If applicant has completed 59 semester hours or less, a high school transcript must be submitted. Persons graduating from high school prior to 1989 are exempt.
6. Transfer students without previous English or math coursework will be required to take the appropriate portion of the academic assessment placement test prior to registration. The test will assist in course placement and may result in requiring some students to enroll in developmental courses as additions to their degree programs. Students previously tested at another Tennessee Board of Regents institution **should have pre-test scores sent.**

Re-enrollee (Previously attended MTSU)

1. Complete undergraduate application for re-admission.
2. Applicants who have attended other institutions since attending MTSU must have an official transcript forwarded from each.

High School Scholars Program or Early Admission

(High-ability high school students)

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application fee** (check or money order).
3. Request high school to forward official transcript.
4. Submit an official ACT report.
5. Submit a letter of recommendation from high school principal or counselor and Individualized Educational Program (IEP) report, if necessary.

Special Student (Audit or non-credit)

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application fee** (check or money order). The regular registration fee will be charged. Applicants 60 years of age or older or permanently and totally disabled (T.C.A., Section 49-7-113) and domiciled in Tennessee are not required to pay registration fees. (Proof of age or disability required each year; new application each semester.)

Adult Special Student (Age 21 or older)

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application fee** (check or money order).
3. Submit official college transcript of last college attended (if college-level work not attempted, official verification of high school graduation or equivalent).
4. Students in this category are not allowed to register for mathematics or English courses or any college-level course with a remedial or developmental prerequisite unless the appropriate portion of an academic assessment placement test is taken. Students also cannot register for any college-level course that has a prerequisite defined by MTSU academic departments.

NOTE: A maximum of 16 semester hours credit may be taken under this classification. Refer to page 28 for additional instructions.

Transient Student (One semester only)

1. Complete undergraduate application for admission.
2. Submit **$15.00 non-refundable application fee** (check or money order).
3. Submit an official transcript from the college currently being attended.

65-Year-Old/Permanently and Totally Disabled Credit Student

1. Complete undergraduate application for admission each semester enrolled.
2. Submit **$15.00 non-refundable application fee.** (Check or money order; required for first application only.)
3. Submit proof of age or disability. (Proof of disability required each year.)
4. Submit proof of high school graduation.

International Student

The International Programs and Services Office handles application procedures for all international students, both foreign and permanent residents. Information may be found on page 31.

International Programs and Services

International Programs and Services Office
Cope Administration Building 202

The International Programs and Services Office (IPSO) serves as the admissions office for international students. International students include all non-U.S. citizen applicants (visa holders and permanent residents). All inquiries and correspondence should be addressed to this office. Application packets, including forms and requirement instructions, can be obtained by telephoning or writing IPSO or via http://www.mtsu.edu/~ipso. University catalogs cannot be mailed overseas. Applicants abroad can apply for the Fall and Spring semesters only. Applicants who are already in the U.S. and in F1 or J1 status may apply for Summer.

The University provides immigration advisement through the International Programs and Services Office. IPSO is responsible for issuing I-20 and IAP-66 forms and evaluating college credits obtained from foreign universities. IPSO serves as a liaison between faculty members, administrators, and international students. The office caters to a variety of international student needs including housing, academic matters, community affairs, and programming.

Residency

IPSO determines residency for international students including permanent residents. All students who are non-U.S. citizens at the time of admission will be considered out-of-state for tuition purposes until they apply for and receive in-state status. Permanent residents and others who believe they meet the in-state criteria may obtain an application and submit it to the IPSO office. The completed form and supporting documentation should be submitted one month prior to the term. Failure to file may result in payment of out-of-state tuition. Students will be informed of the residency decision by mail.

Immigration

It is the student's responsibility to see that he/she is in legal immigration status. All immigration documents should be kept in a safe place. According to U.S. Immigration and Naturalization Service (INS) regulations, F1 and J1 students must be enrolled fulltime (minimum 12 hours) during Fall and Spring semesters. Summer enrollment is optional. Also, INS requires that F1 and J1 applicants meet all admission requirements prior to enrollment. No conditional admission is possible.

Proof of English Proficiency

An international student must submit a successful Test of English as a Foreign Language (TOEFL) score or University of Michigan English Language Institute (UMELI) test given by the International English Institute in Nashville, Tennessee, before he/she can register at MTSU. Applicants who cannot obtain locally a TOEFL Bulletin of Information for Candidates should write for it well in advance to

Test of English as a Foreign Language
P.O. Box 899
Princeton, New Jersey, U.S.A., 08540

Inquiries concerning the TOEFL program should be directed to

TOEFL Program Director
Educational Testing Service
Princeton, New Jersey, U.S.A., 08540

For information on UMELI testing, contact

International English Institute
1226 16th Avenue, South
Nashville, TN 37212
(615) 327-1715 or 327-1716

Financial Aid

Financial aid is available only to persons holding valid permanent resident status. International students in F1 or J1 status must provide verification of financial support prior to admission as required by the United States Immigration and Naturalization Service. There are no academic or need-based scholarships available for non-immigrant visa holders.

Deadlines for Completed* Files:

Fall Semester: July 31 of same year; **Spring Semester:** November 30 of previous year; **Summer Semester:** April 15 of same year. (Applies to students already in the United States.)

**NOTE: A completed file contains ALL acceptable materials required for admission.*

Orientation Information

All F1 and J1 students must attend IPSO orientation before they can register for classes. Information concerning IPSO orientation is sent with the final acceptance letter. Students who are permanent residents or who are in status other than F or J with INS will be invited to CUSTOMS orientation in the summer if they are entering in the fall term.

Health and Accident Insurance

All international students in F1 or J1 status must obtain health and accident insurance as a condition of admission and continued enrollment at MTSU. Minimum requirements for coverage set by the Tennessee Board of Regents are specified on the insurance form provided by IPSO.

Requirements

An international student will be admitted on the basis of placement recommendation by the American Association of Collegiate Registrars and Admissions Officers. International students are subject to academic assessment placement testing criteria and assessment when applicable.

Application to MTSU:

International students include visa holders and permanent resident applicants.

1. Complete undergraduate application for admission.
2. Submit $30.00 **non-refundable application fee** (money order or check with routing numbers).
3. Submit evidence of freedom from tuberculosis.
4. Submit evidence of two rubeola vaccinations.
5. Submit a financial statement or front and back copy of permanent resident card, whichever is applicable.
6. Submit official TOEFL (computer-based minimum score 173, paper-based minimum score 500) or UMELI (minimum score 85); minimum ACT composite score of 20 or SAT (950) score. (We do not accept any other than ETS official test scores for the TOEFL and SAT.)
7. Submit completed insurance form for F1 and J1 applicants.
8. Submit a front and back copy of 1-94, if applicable.
9. Submit a front and back copy of 1-20 or IAP-66, if applicable.
10. Student must have official transcripts sent from all institution(s) directly to IPSO. If transcripts are written in a foreign language, an official translation in English and an official non-translated transcript must both be sent. A syllabus of each class may be required in order to receive course substitution credit.
11. Have a GPA of 2.80 if a new freshman or a GPA of 2.00 if transferring from an accredited college or university.

NOTE: Sending all documents except transcript(s) and test scores in one envelope will expedite processing of the application. If the student does not have a Social Security number, the office will assign a student ID number for record-keeping purposes only. The Social Security number or student ID number should be on all correspondence sent to the office. All materials received become the property of MTSU and cannot be returned to the student or forwarded to a third party.

Special English Courses

F1 and J1 students may be required to take an English Placement exam administered by the Department of English. Results will determine whether a student takes ENGL 104 (for credit but not fulfilling requirements), ENGL 111 for ESL (fulfilling requirements), or ENGL 111. ENGL 111 for ESL requires permission of department for registration.

MTSU Study Abroad and Exchange Programs

The International Programs and Services Office (IPSO) is the clearinghouse for study abroad and exchange program development and information for MTSU students and faculty. IPSO facilitates study abroad and exchange opportunities by advising students on study, travel, and work programs, advertising departmental programs, joining institutional study abroad consortia, holding special events and presentations, and maintaining reference books, videos, and informational catalogs on study, travel, volunteer and work programs overseas.

Cooperative Center for Study Abroad

MTSU is an affiliate member of the Cooperative Center for Study Abroad (CCSA). The CCSA is a study abroad consortium made up of 22 higher education institutions in the United States. The CCSA through its member universities and colleges provides joint planning and coordination of credit-bearing programs of study in the United Kingdom and Ireland and other English-speaking nations (excluding the United States). MTSU students can continue to enroll at MTSU for the CCSA study abroad program allowing the use of financial aid under most circumstances. The CCSA offers short-term summer programs in Ireland, Scotland, Australia, Canada, South Africa, New Zealand, and London and a fall semester program in Cambridge, England. Internships are now also available in London through CCSA. Also faculty can participate in CCSA's short-term teaching programs. Faculty should submit a course proposal and identify the program in which they want to participate. Internships are now also available in London through CCSA. Brochures and applications are available at IPSO.

Council on International Educational Exchange

MTSU is an institutional member of the Council on International Educational Exchange (CIEE). CIEE is a prominent organization in the field of educational exchange and student overseas travel. CIEE facilitates undergraduate and graduate education abroad through a consortium of colleges and universities that have a particular academic standards. These programs cover a variety of academic interests and span the globe, including programs at universities in Argentina, Australia, Brazil, Chile, China, Costa Rica, Czechoslovakia, the Dominican Republic, France, Germany, Netherlands, Hungary, Indonesia, Japan, Poland, Spain, Thailand, the former Soviet Republics, and Vietnam.

IPSO is also an issuing office for the International Student or Faculty Identity Card, sponsored by CIEE. This identification card provides students and faculty with special discounts on airline tickets, train tickets, hotel rooms, and car rentals, in addition to basic health and accident insurance coverage at the current charge. Students may also wish to come to IPSO to obtain a copy of the *Student Travels* magazine, a CIEE publication highlighting study abroad programs and opportunities.

Kentucky Institute for International Studies

MTSU is a member of the Kentucky Institute for International Studies (KIIS). KIIS is a study abroad consortium made up of 14 higher education institutions in Kentucky, Tennessee, and Indiana. KIIS provides joint planning and coordination of credit programs of study in Austria, China, Ecuador, France, Germany, Greece, Italy, Mexico, and Spain. Under most circumstances, financial aid may be used for this purpose. Faculty can participate in KIIS's short-term teaching programs. More information is available through IPSO or the KIIS campus representative, Dr. Richard Pace.

Consortium for Overseas Student Teaching

MTSU has been an institutional member since 1971 of the Consortium for Overseas Student Teaching (COST), which places university students in overseas locations to fulfill student teaching requirements. Educational Leadership Department faculty assist with this program.

Exchange Programs

IPSO is the primary unit which serves the campus community by facilitating academic exchange agreements with foreign institutions and academic departments, including Foreign Languages and Literatures, Geography and Geology, and Political Science. Currently, the university has six active foreign academic exchange agreements, with the following institutions:

University Institute of Technology - Cherbourg-Manche (France)
University of Franche-Comte (France)
University of Caen (France)
Polytechnic School of the Army (Ecuador)
Johannes Gutenburg - University of Mainz (Germany)
Kansai Gaidai University (Japan)

MTSU students accepted to an exchange program can continue to maintain full-time enrollment at MTSU. Some exchange programs allow the student to pay all tuition, fees, room and board to MTSU, but students are responsible for travel and personal expenses incurred at the overseas site. Students may inquire about these exchange programs through IPSO. In some cases, financial aid may be used for study abroad.

Advanced Standing

Credit-by-Examination

Students may earn college credit for acceptable scores on the College Level Examination Program (CLEP), the Foreign Language Tests, the Advanced Placement Examinations (AP) of the College Entrance Examination Board, the American College Testing Program (ACT), and the DANTES Subject Standardized Test (DSST). Students eligible to take such examinations at MTSU must be currently enrolled. Examinations are administered by the Counseling and Testing Center, Keathley University Center 329. Additional information can be obtained by calling (615) 898-2670.

All credit-by-examination scores are submitted to the Admissions Office. The test results are evaluated and recorded on a student's transcript if credit is earned. Semester hours of credit toward graduation are earned on the basis of these tests, but no grades or quality points are given. These credits will not affect a student's academic average. A student may receive no more than 66 semester hours credit by means of credit-by-examinations, correspondence, and experiences in the Armed Services. The applicant must not have received credit (or audited) in the MTSU course for which credit is recommended. However, credit for CLEP or special examination may be used to repeat an equivalent course for the removal of an F from a student's permanent record. (This includes both MTSU and transfer records.)

College Level Examination Program (CLEP)

Students may earn college credit for scores equal to or greater than the 50th percentile for the following examinations administered by the College Level Examination Program:

CLEP Subject Examinations

General Mathematics, total score of 446 or greater, three credits, in lieu of MATH 300
College Algebra, three credits, in lieu of MATH 141
College Algebra and Trigonometry, four credits, in lieu of MATH 121
Calculus with Elementary Functions, three credits, in lieu of MATH 141
Trigonometry, three credits, in lieu of MATH 142
General Biology, four credits, in lieu of BIOL 100
General Chemistry, eight credits, in lieu of CHEM 121, 121L, 122, 122L
Accounting, Introductory, six credits, in lieu of ACTG 211, 212
Business Law, Introduction to, three credits, in lieu of BLAW 343
Marketing, Introductory, three credits, in lieu of MKT 382
Management, Introduction to, three credits, in lieu of MGMT 361
Macroeconomics, Introduction, three credits, in lieu of ECON 241
Microeconomics, Introduction, three credits, in lieu of ECON 242
General Psychology, three credits, in lieu of PSY 141
Abnormal Psychology, three credits, in lieu of PSY 323
Freshman College Composition—essay required, three credits, in lieu of ENGL 111
Analysis and Interpretation of Literature—essay required, three credits, in lieu of ENGL 211
American Literature—essay required, three credits, in lieu of ENGL 221
English Literature—essay required, three credits, in lieu of ENGL 224

NOTE: *Essays written as part of the exams in English will be graded by full-time faculty of the English Department. To receive credit, students must write essays that demonstrate the positive qualities of superior writing defined in the English Department's Freshman Composition Standards and Sophomore Writing Standards, in addition to scoring an acceptable score on the objective portion of the examination.*

American History I: Early Colonizations to 1877, three credits, in lieu of HIST 201
American History II: 1865 to Present, three credits, in lieu of HIST 202
Western Civilization I: Ancient Near East to 1648, three credits, in lieu of HIST 171
Western Civilization II: 1648 to Present, three credits, in lieu of HIST 172
American Government, three credits, in lieu of P S 150
Sociology, Introductory, three credits, in lieu of SOC 101

College Entrance Examination Board (CEEB)

MTSU participates in the Advanced Placement (AP) Program of the College Entrance Examination Board and grants appropriate semester hours credit to qualified freshman students presenting official record of a grade of 3 or above on the appropriate CEEB examination. Semester hours credit in the amount carried by the course or courses from which the student is exempted by CEEB advanced placement examination will be awarded.

American Government, three credits, in lieu of P S 150
American History, six credits, in lieu of HIST 201, 202
Art-Drawing, three credits, lower-division art elective
Art-General, three credits, in lieu of ART 290
Art History, three credits, in lieu of ART 191
Studio Art, three credits, in lieu of ART 161 or 162
Biology, four credits, in lieu of BIOL 100
  (Science majors may receive credit for BIOL 111, 112 upon recommendation of chair, Department of Biology)
Chemistry, eight credits, in lieu of CHEM 121, 121L, 122, 122L
Comparative Government, three credits, in lieu of P S 122
Macroeconomics, three credits for ECON 241
Microeconomics, three credits for ECON 242
English Composition/Literature, three credits, in lieu of ENGL 111*
English Language, three credits, in lieu of ENGL 111*
Environmental Science, three credits, in lieu of EST 281
European History, three credits, in lieu of HIST 172
Foreign Languages and Literatures, six credits, in lieu of SPAN 111 and 112, FREN 111 and 112, GERM 111 and 112, LATN 111 and 112
Math Calculus AB, four credits, in lieu of MATH 122
Math Calculus BC, four credits, in lieu of MATH 221
Music, three credits, in lieu of MUTH 100
Physics C (Mechanics), three credits, in lieu of PHYS 235
Physics C (Electricity and Magnetism), three credits, in lieu of PHYS 236
Psychology, three credits, in lieu of PSY 141

**Effective Spring 2000; 6 credits for ENGL 111 and 112 awarded for Fall 1999 term.*

ACT Proficiency Examination Program

Students may earn college credits for acceptable scores on the Proficiency Examination Program of ACT. When standard scores are employed by ACT, the minimum score for credit shall be the standard score equivalent to the 50th percentile rank. When letter grades are employed by ACT, credit will be given for students who present a score of A, B, or C. When the Pass/Fail system is used by ACT, credit will be given for a grade of Pass. The following examinations have been approved from the ACT Proficiency Examination Program:

ACT-PEP

American History, six credits, in lieu of HIST 201, 202
Physical Geology, six credits, in lieu of GEOG 100 plus 2 hours elective in Earth Science

Freshman English, six credits, in lieu of elective credit only
Shakespeare, six credits, in lieu of ENGL 433; ENGL 434
Intro. to Criminal Justice, three credits, in lieu of CJA 110
Criminal Investigation, three credits, in lieu of CJA 433
Accounting Level I, three credits, in lieu of ACTG 211
Accounting Level II and Accounting Level III, Area II, three credits, in lieu of ACTG 331
Abnormal Psychology, three credits, in lieu of PSY 323
Anatomy and Physiology, three credits, in lieu of BIOL 308
Economics and Finance, three credits, in lieu of ECON 451
History of American Education, four credits, in lieu of FOED 311
Reading Instr. in Elem. Sch., three credits, in lieu of READ 300
Statistics, three credits, in lieu of MATH 313 or PSY 302

NOTE: Regents College Examinations are accepted in lieu of ACT-PEP examinations. Credit is awarded based upon the ACT-PEP criteria listed above.

DANTES Subject Standardized Test (DSST)

Students may earn college credit for acceptable scores on the DANTES Subject Standardized Test (DSST) if recommended by the American Council on Education (ACE). MTSU awards lower-division and upper-division credit based on the ACE recommendation. Students should submit an official DANTES transcript to the MTSU Undergraduate Admissions office for review. A student may receive no more than 66 semester hours credit by means of DSST, credit-by-special exam, correspondence, and experiences in the Armed Services.

NOTE: Due to accreditation requirements, the College of Business will not allow DSST upper division credit to count toward graduation.

Credit by Special Examination (Undergraduate)

Any student enrolled in the University who receives departmental approval is eligible to receive credit by special examination for certain MTSU courses. Competence gained through study and/or experience may provide background for students who wish to attempt such examinations. Credit by special examination may be given for undergraduate courses listed in the catalog with the exception of

1. courses described as directed research or directed independent study;
2. any course from which student has been exempted by placement examination;
3. courses not approved by the department.

NOTE: A non-refundable fee of $20.00 will be charged for each semester hour of credit.

Students seeking credit by examination should, on forms provided by the Admissions Office, request approval from the chair of the department or director of the school in which the course is offered. The method for designing, administering, and evaluating the special examination will be determined by the department/school. The examination shall be comparable in scope and difficulty to a comprehensive final examination in that course. No student will be allowed to repeat a special examination in a given course within one year.

The student will receive credit, to be recorded as P (Pass) on the student's transcript, upon passing the examination with a minimum equivalent grade of C. Credit by special examination cannot be used in the determination of the 25% credit earned through instruction offered by MTSU.

Credit for Freshman English

1. Entering freshmen whose standard score on the English section of the Enhanced ACT is 32 or better will be given six hours credit for ENGL 111 and 112. If any such student elects to enroll in Composition rather than receive credit, he/she must enroll in ENGL 111 and 112.
2. Entering freshmen who present the SAT examination for admission shall select English based on the following:
   a. Students whose SAT verbal scores are 450 or below are required to undergo further testing.
   b. Students whose SAT verbal scores are 460 through 700 are required to complete ENGL 111 and 112 in sequence.
   c. Students whose SAT verbal scores are 710 or above may be given credit for ENGL 111 and 112.

NOTE: In the event that a student takes an examination for advanced placement credit in composition more than once, the most recent test score will determine the student's status.

Service Credits

Students who have served in the reserves, national guard, or armed forces may receive credit as listed below:

1. Six semester hours credit (4 hours military science—MS 101,102, and 201—and 2 hours health—HLTH 310) is granted for a minimum of three years, eleven months, and twenty days of reserve or National Guard Service in the Armed Forces of the United States. Veterans who have less than three years, eleven months, and twenty days will be awarded one semester hour credit for each year of reserve or National Guard duty.
2. Credit will be awarded for formal service schools based on recommendation from the Office of Educational Credit of the American Council on Education. All documentation supporting service-related educational experiences should be filed with the Admissions Office.
3. We recommend submitting discharge papers (or a recent pay stub if currently in service), and any of the following, as appropriate: Community College of the Air Force transcript, Army AARTS transcript, course completion certificates, and/or DD-2295, Application for the Evaluation of Learning Experiences During Military Service.

Advanced Credit

Aerospace Training and Experience

University credit may be granted for specific aerospace maintenance technician courses for holders of FAA Airframe and/or Powerplant certificates. University credit may also be granted for flight training and flight experience completed prior to enrollment in the department. Students who believe that their experiences warrant more credit than their documents display may request testing for course equivalency. More information is available in the section on the Aerospace Department.

Certified Professional Secretary

Those persons having successfully passed the Certified Professional Secretary's examination and who have successfully completed 12 semester hours of study in the College of Business may make formal application to the chair of the BMOM Department for credit for each of the following courses and a grade of P will be recorded if no previous credit has been earned.

ACTG 211	Principles of Accounting I, 3 hours
BMOM 155	Introduction to Word Processing Skills, 3 hours
BMOM 301	Office Management, 3 hours
BMOM 351	Business Communication, 3 hours
BMOM 480	Administrative Office Simulation, 3 hours
BLAW 340	Legal Environment of Business, 3 hours
ECON 241	Principles of Economics, 3 hours

NOTE: The foregoing may be applied to a major in Office Management. Credit is subject to change when the actual content of the CPS examination no longer corresponds to the course content.

Registered Nurses

Twenty-four credit hours may be given to a registered nurse from a diploma school of nursing provided the student graduated from a state-approved school of nursing and holds a current license as a registered professional nurse. The following requirements in the MTSU pre-nursing curriculum will be waived in application to the upper-division curriculum of the B.S.N. program:

2 hrs.	Effective Living (HLTH 310)
3 hrs.	Nutrition course (N FS 124 or 222)
3 hrs.	Sociology (SOC 201)
3 hrs.	Psychology (PSY 141)
4 hrs.	Anatomy and Physiology (BIOL 313)
8 hrs.	Anatomy and Physiology and Microbiology (BIOL 216 and 314 if student passes the ACT-PEP Exam with score of 50 percentile)

Advanced Standing Credit

Credit may also be awarded for successful completion of courses listed in the *National Guide for Credit Recommendation for Non-Collegiate Programs* or in the *Directory of the National Program on Non-Collegiate Sponsored Instruction.* More information is available from Admissions.

MTSU and TSU Educational Consortium

Middle Tennessee State University and Tennessee State University have joined in an educational consortium to provide cross-registration opportunities for undergraduate students enrolled at each institution. MTSU students wishing to register for TSU courses should

1. obtain an "Agreement for Admission and Registration Form" from the MTSU Admissions Office, Cope Administration Building 208;
2. complete top of form;
3. have appropriate personnel certify accuracy of data on form;
4. register at MTSU for MTSU courses; pay fees;
5. present form to Admissions and Records personnel at TSU;
6. register for courses at TSU and present MTSU receipt; pay additional fees to TSU if any.

The two consortium advisors or appropriate members of their staffs will provide information to ease in the transition and registration between institutions.

Expenses

The question of costs while attending the University is important to every student. It is difficult, however, to accurately estimate yearly expenditures; expenses vary according to the nature of the curriculum, the place of residence (whether in-state or out-of-state), and the student's own habits and needs. It is possible to live simply and to participate in the life of the student community on a modest budget. The best help the University can offer the student in budget planning is to provide available figures for expenses.

Health service and admission to athletic events are available to any currently enrolled student. The payment of the appropriate fees will permit any combination of graduate and undergraduate courses to be taken that may be required or approved. Charges for all coursework will be assessed by course level.

All fees are for the academic year 1998-99 and are subject to change by action of the Tennessee Board of Regents. The new fee amounts will be published when approved by the Tennessee Board of Regents (usually around July 1). The updated rates will be available in July on the MTSU web site at http://www.mtsu.edu/~bursarmt.

Housing fees are proposed fees for 1999-2000, but are subject to TBR approval.

Registration Fees

Maintenance Fees

In-State Students	
Full-time (per semester, 12 hours and over)	$ 953.00
Graduate (10 hours or more)	1,280.00
Part-time (per credit hour)	
Undergraduate	85.00
Graduate	129.00
Late Registration Fee	25.00
Out-of-State Students*	
Full-time Students (per semester, 12 hours and over)	
Undergraduate	3,366.00
Graduate	3,693.00
Part-time Students (per credit hour)	
Undergraduate	296.00
Graduate	340.00
Late Registration Fee	25.00
Debt Service Fee	
Full-time (per semester)	50.00
Part-time (per credit hour)	4.00
Technology Access Fee	
Full-time (per semester)	100.00
Part-time (per credit hour)	8.00
Student Activity Fee	
Full-time (per semester)	65.00
Part-time (per credit hour)	5.00
Recreation Activity Fee	
Full-time	15.00
Part-time	15.00
SGA Student Activity Fee (required of all students registering for 7 hours or more)	20.00

**Included in these rates are charges for out-of-state tuition as follows:*
1. $2,413.00 for full-time students
2. $211.00 per credit hour for part-time students

Summer Registration Fees (Summer 1999)

NOTE: Fees are charged per hour for all classes. NO maximum applies for summer.

In-State Students	
Undergraduate	$ 85.00 per hour
Graduate	129.00 per hour
Out-of-State Residents	
Undergraduate	296.00 per hour
Graduate	340.00 per hour
Debt Services Fee	4.00 per hour
Technology Fee	8.00 per hour
Recreation Fee (Non-refundable)	15.00
Student Activity Fee	$5.00 per hour

Campus Housing Expenses

Reservations	
Fall and Spring Semesters, required prepayment	$200.00
Spring Semester only, required prepayment	$100.00
Summer Session, required prepayment	$125.00
1999-2000 Room/Apartment Rates - Single Students Residence Halls (shared bedroom, quad bath; shared bedroom, community bath)	
Cost per semester	$960.00

All Summer School	$1,435.00
(two bedroom, semi-furnished)	
Cost per semester	$2,441.00
Summer I	$376.00
Summer II	$626.00
Summer III	$1,252.00
Summer IV	$626.00
All Summer School	$1,628.00

***NOTE:** The rates quoted above are those in effect for the 1999-2000 academic year. For the 2001-2002 academic year, a five (5) to ten (10) percent increase for inflation is likely. Room rents are subject to change by action of the Tennessee Board of Regents. Each student will pay the amount in effect at the time of registration. The University reserves the right to correct errors in student fee assessments and charges which are discovered subsequent to initial billings and fee statements. Apartment summer sessions noted with an asterisk are available only to those residents who have signed a license agreement and made prepayments for the subsequent academic year beginning in August. Residence hall summer sessions are restricted to specific locations.*

Other Applicable Charges

Admission application fee	
Undergraduate	15.00
Graduate	25.00
International	30.00
Automobile registration—academic year:	
Faculty/administration/staff	65.00
Open parking at core of campus	45.00
Family Housing parking	45.00
Perimeter parking	30.00
Students and employees with disabilities	10.00
Automobile registration—summer only:	
Faculty/administration/staff	33.00
Open parking at core of campus	23.00
Family Housing parking	23.00
Perimeter parking	15.00
Students and employees with disabilities	6.00
Graduation fee, payable two months in advance of convocation:	
Associate	25.00
Baccalaureate	30.00
Master and Specialist	35.00
Doctor of Arts	45.00
Diploma insert (after the first)	7.50
Dissertation binding (1 original and 4 copies) and microfilming (doctor's degree)	91.00
Thesis binding (master's degree) (1 original and 3 copies)	37.00
Extra copy thesis (or dissertation binding)	9.20
Graduate entrance tests:	
Miller Analogies	33.00
Graduate Record Exam	56.00
Graduate Management Admission Test	70.00
ID card replacement	10.00
Music, individual instruction, 2 lessons each week	110.00
1 lesson each week	55.00
Nursery school, semester (4 days per week)	150.00
Post Office box rent each semester (required of all students registering for 12 hours or more)	8.00
Day Care Fees (per week)	
Full-time (M-F)	$50.00
Part-time (MWF)	$30.00
Part-time (TTH)	$20.00

No student will be allowed to pre-register, register, or receive a grade report or transcript of credits until all accounts are settled. A student will not be officially enrolled until all fees are cleared through the Business Office.

Late Registration

Students who complete registration (including the payment of fees) during the late registration period will be charged a $25.00 late fee.

Matriculation Fee for Incompletes

If a student receives an "I" for a course, he or she need not re-register or pay fees for the course every semester until the course is completed. Such students should work only with the course instructor to complete grade requirements.

Returned Checks

Acknowledged bank errors excepted, a $20.00 service charge will be assessed for each bad check, whether given in payment of fees, for purchase of books, cashed by the University for the personal convenience of the student, or for any other reason. The University will decline to accept checks from any student who has checks returned by the bank more than once. An **additional** $25.00 will be assessed for any bad check given in payment of registration fees.

Automobiles

All privately-owned or operated vehicles for use on the campus must be registered annually with Parking Services and must display an official registration permit (see above for charges). For more information or clarification, please refer to **Traffic and Parking Regulations**, available in the Parking Services Office.

Auditing Charges

An auditor is one who enrolls and participates in a course without expectation of receiving academic credit. The same registration procedure is followed and the same fees charged as for courses taken for credit. An audited course is not applicable to any degree or certification program.

Regular class attendance is expected. Other course requirements, which may be obtained in writing from the instructor, will vary depending upon the nature of the course. Students interested in auditing a course should discuss course requirements prior to enrolling. Failure to meet course requirements may result in the auditor's being withdrawn from the course at the request of the instructor. A successful audit will be recorded on the transcript with the designation NC.

A change from audit to credit or credit to audit must be processed by the last day to add a class.

Persons 60 years of age or older or disabled persons suffering from a permanent total disability which totally incapacitates such persons from working at an occupation which results in an income (T.C.A., Section 49-7-113) who are domiciled in Tennessee may audit courses at any state-supported college or university without paying tuition charges. Registration under this program is on a space-available basis; therefore, students cannot priority register. Class selection should be processed on the first day of classes for the term or session. Proof of age or disability must be provided.

65-Year-Old/Disabled Credit Student

Persons 65 years of age or older or disabled persons suffering from a permanent total disability which totally incapacitates such persons from working at an occupation which results in an income (T.C.A., Section 49-7-113) who are domiciled in Tennessee may register for classes for credit by paying a service fee not to exceed $75 per semester. Registration under this program is on a space-available basis; therefore students cannot priority register. Class selection should be processed on the first day of classes for the term or session. No late fee is charged. An application fee is required. In addition, the applicant must be eligible for admission and submit proof of age or disability.

Additional Charges

The University reserves the right to increase the charges listed herein or to add new ones whenever such increases or additions are found to be necessary.

Board

All freshman men and women living in the residence halls during fall and spring semesters will be required to participate in a freshman meal plan. All other students may secure meals in the University cafeterias or grill either through optional meal plans available from the food service or a meal-to-meal cash basis.

Deferred Payment Plan

Although all charges are due and payable in full at the beginning of each term, students in **good financial standing at MTSU** may defer payment of up to 50 percent of their registration, housing, and freshmen meal plan fees for the fall and spring semesters. To be eligible for the Deferred Payment Plan, each participant must make a minimum down payment of 50 percent of the registration fees, residence hall rent, and freshmen meal plan costs. **The balance due must be $400 or more after all discounts, waivers, financial aid, and other credits are applied.** A student who fails to make timely payments in a previous term may be denied the right to participate in the deferred payment plan in future enrollment periods. A student who is denied participation may be allowed to participate again only after completion of payment in full for two consecutive terms which allow deferments (fall or spring terms). Any student who makes payment with a check which is subsequently returned will be denied participation in the Deferred Payment Plan in all future terms.

The amount deferred will be payable in two monthly installments. For the fall term, installment payments are due by **October 1** and **November 1**. Payments for the spring term are due **March 1** and **April 1**. The University is not obligated to send reminder notices before the payment is due. Participants in this plan must apply all discounts, waivers, credits, and financial aid, including student loans, toward payment of registration fees before a deferment will be considered. Financial aid and other credits received after the initial payment will be applied to the remaining balance, and future amounts due will be recomputed. No refunds can be made until all fees are paid in full. Students who participate in the Deferred Payment Plan may not pay housing charges in installments in the same term. Students must select either the Deferred Payment Plan or the Housing Deferment Plan. **Students will not be withdrawn for failure to pay the second or third payments. However, the balance must be paid in full before the student can pre-register for future terms even if preregistration is prior to the due date.**

Each participant will be charged a **$10.00 service fee** each term to defray administrative costs. This fee is payable along with the 50 percent down payment on or before the registration fee payment deadline. An additional **late payment charge of $25** will be assessed for each installment not paid on or before the tenth day of the month that a payment is due. Students who make payments with checks that are returned will be charged a $20 return check service fee as well as any applicable late fees.

If a payment is not received in the Business Office by the scheduled payment due date, the University will withhold all services from the student, including grades, transcripts, and future registration until the fees have been paid in full including any assessed late fees.

All existing rules and policies pertaining to returned checks, refunds, withdrawals, dropped classes, and collection costs are applicable to the Deferred Payment Plan.

Payment of the minimum amount due on the Deferred Payment Plan finalizes registration. The class schedule will not be dropped. **It is not necessary to also confirm on TRAM or WebMT.** The Deferred Payment Plan service fee, late fee, and minimum amount are effective for 1998-99 and are subject to change in future terms.

Additional fees for classes added after fee payment are due before the late registration fee payment deadline. Any unpaid fees after this date will be processed as a deferred payment. The $10 Deferred Payment Plan service fee and any applicable $25 late payment fees will be charged.

Questions regarding the Deferred Payment Plan should be directed to the Bursar's Office at (615) 898-2761.

Refund of Fees

NOTE: No refund of housing fees, registration, or other fees will be made to students who are dismissed or suspended.

Fall and Spring Semesters*

Those students who withdraw from the University within 14 calendar days after the beginning of classes for the fall and spring terms will be refunded 75% of their maintenance fees, debt service fee, student activity fee, and technology access fee or music fees (if any). Those withdrawing after the 14th day but before 25% of the time period covered by the term has passed will be refunded 25% of their fees. No refunds will be made beyond the 25% period. Specific dates for each term are given in the class schedule book for that term. The same refund schedule applies to students who drop to an hourly load below full-time. The percentage then applies to the difference between the new fees calculated on an hourly basis and actual fees paid. All other fees are non-refundable.

Drop date for courses which meet for a shorter time period than normal will be prorated based upon the course drop dates for the full term.

Summer*

For summer sessions and other short terms, the 75% refund period and the 25% refund period will extend a length of time which is the same proportion of the term as the 75% and 25% are of the regular terms.

Students who pre-register for a summer session course and find it necessary to drop or withdraw before the first day of class for that session will be refunded 100% for that course. Otherwise the regular refund schedule will apply.

Specific dates applying to each session are listed in the current summer schedule book.

**Students who register after the official registration period and withdraw from the University will have their refunds calculated as if registration had taken place on the official day of registration.*

Refunds of Housing Expenses

Residence Halls

For 1999-2000, applications for residence halls and on-campus apartments must be accompanied by a pre-payment in the amount of $200.00. Pre-payment is a security of good faith that denotes the applicant's serious intent to reside in on-campus housing. Prepayment fees are $200.00, $100.00 of which is applied toward fall semester charges, and $100.00 of which is applied toward spring semester charges. This prepayment is refundable prior to check-in according to the following schedule. All cancellations must be submitted in writing to the Housing and Residential Life Office. Prepayment amounts represent 25% of the total semester fee and may vary from year to year. Students should contact Housing and Residential Life to verify specific changes.

Academic Year (Fall and Spring) Applications 1999-2000

Date of Cancellation	Refund Amount
By May 1	$150.00
By June 1	$100.00
By July 1	$ 50.00
After July 1, but prior to the first check-in day in August	$ 00.00

Spring Semester Only Applications 2000

Date of Cancellation	Refund Amount
By October 15	$ 50.00
After October 15, but prior to the first check-in day in January	$ 00.00

Summer Housing

Details regarding application, fees, and refunds for summer assignment to residence halls and on-campus apartments may be obtained by contacting the Housing and Residential Life Office at (615) 898-2971.

Housing Fees

The refunds of residence hall fees after registration will be prorated on a weekly calendar basis when the student is forced to withdraw from the residence hall because of approved medical reasons confirmed in writing by a licensed physician.

Full refund will be made in the case of death. No refund will be made other than under the above conditions, except as specified in the Student Housing Agreement.

Financial Aid

Office of Financial Aid
Cope Administration Building 212

The purpose of Student Financial Aid is to provide assistance to qualified students who would find it difficult or impossible to attend Middle Tennessee State University without aid. The Office of Student Financial Aid is a part of the Division of Student Affairs.

The student and his/her family have the primary responsibility for financing a college education. However, largely through federally funded programs, students may receive assistance when it is determined that the student and family cannot meet the costs of a post-secondary education. Need is defined as the difference between the cost of attending MTSU and the calculated family contribution toward this cost. The Free Application for Federal Student Aid (FAFSA) is the document from which the family contribution is calculated.

In addition to programs based on need, MTSU has a limited number of scholarships that are based on academic performance and/or ability in a particular area.

Deadlines for Applications

MTSU scholarship application deadline is March 1 for the upcoming fall semester. The Free Application for Federal Student Aid (FAFSA) needs to be on file in the MTSU Financial Aid Office by May 15 to receive priority consideration for financial aid. This means that, regardless of need, applications received after May 15 will not be processed until all the applications received prior to May 15 are completed.

Renewal students applying for financial assistance receive first priority if they apply by the May 15 priority deadline. Money is generally available to assist all renewal students who continue to be eligible. Renewal students applying after the May 15 priority date will be awarded funds as money is available.

New applicants applying by the May 15 priority date are considered next.

Student aid data on each applicant for financial assistance is entered into the computer system from the FAFSA. Financial aid is then awarded to those students demonstrating exceptional financial need. This procedure insures that funds are awarded to the neediest students first.

NOTE: This procedure is for distributing funds which are institutionally controlled. Federal Pell Grant eligibility is determined by the U.S. Department of Education, and the Tennessee Student Assistance Award is determined by the Tennessee Student Assistance Corporation. The amount of money a student receives from Pell and TSAC is considered when campus-based funds are awarded.

The Federal Pell Grant program does not have a May 15 deadline. Students applying for financial aid at MTSU after the May priority date should still apply for the Federal Pell Grant. The Tennessee Student Assistance Award is also based upon the availability of funding. We encourage students to apply early while funds are available.

Funds are awarded from campus-based programs to late applicants on a "rolling" basis in a manner which will approximate a neediest-first result. This is done by estimating in advance the needs and composition of our final applicant pool. IMPORTANT: The money available for late applicants is what is left after all applicants applying by May 15 have been awarded. Thus, funds are very limited after May 15.

How to Apply

Step 1. Current and prospective students and their parents should complete the Free Application for Federal Student Aid (FAFSA) following the instructions provided with the form very carefully. The Free Application for Federal Student Aid should be mailed to the processing center in the envelope provided with the application or submitted over the Web at http://www.fafsa.ed.gov. The Federal Processing Center will send a Student Aid Report (SAR) to the student and MTSU (if the student enters MTSU school code of 003510 in the school section of the FAFSA) in approximately four to six weeks; earlier if submitted over the web. The FAFSA application is available beginning in January.

Institutional scholarship applications are also available in January and due back into the Financial Aid Office by March 1.

Step 2. Once the Department of Education sends MTSU the student's SAR, an award letter will be generated for the Fall/Spring academic year. This award letter is based upon full-time attendance and will include an estimate of the aid for which the student is eligible. Scholarships and other aid, changes in enrollment, and EFC amounts after the award letter is printed may cause the estimated aid amounts to change.

Step 3. Students wishing to apply for one of the Federal Loan Programs should complete the Loan Request Sheet (LRS) included with the above award letter or available in the MTSU Financial Aid Office. To request a loan, a valid Student Aid Report must be on file. The request should be submitted a few months before the loan is needed to ensure the funds will be ready.

Refund and Repayment Policies

Due to the Federal Reauthorization Act, refund calculations may change in Fall 2000. Our current policy is outlined below.

Students leaving school before the end of the semester or changing enrollment hours may owe a repayment to the various aid programs which assisted them.

If a student receives financial assistance from any source, the refund issued will first be returned to the source of financial assistance as dictated by policy. Details of policy allocations and calculations regulating refunds and repayments on student financial assistance programs are available upon request in the Financial Aid Office.

The Higher Education Amendments of 1992 define a fair and equitable refund policy as one that provides for a refund in an amount of at least the largest of the amounts provided under

1. requirements of applicable state law;
2. requirements established by institution's nationally recognized accrediting agency and approved by the secretary; or
3. pro-rata refund calculation.

Pro-rata refund calculations apply for any student who

- is a first-time student at this institution;
- withdraws in the 60 percent point in time for which the student was charged;
- received Title IV aid.

If all the above conditions apply, MTSU will calculate the refund on a pro-rata basis. The HEA specifies the order in which monies will be refunded to Title IV.

Satisfactory Academic Progress Policy

Federal regulations require that all federal financial aid recipients be enrolled in a degree-seeking program and maintain satisfactory academic progress toward a degree to maintain eligibility. MTSU complies with this requirement by monitoring each aid recipient's cumulative grade point average (GPA), completion rate, and maximum timeframe for completion of a degree. The following describes MTSU's method for monitoring each of these measures.

Cumulative Grade Point Average

1. **Undergraduate students.** To be eligible for financial aid, a student's GPA must meet at least the minimum requirements found in this catalog The cumulative GPA includes all transfer credits and hours earned at MTSU.
2. **Graduate students.** To be eligible for financial aid, a student's GPA must meet at least the minimum requirements found in the graduate catalog or be approved by the College of Graduate Studies for enrollment.

Completion Rate

Students must earn 66 percent of their cumulative credits attempted to remain eligible for financial aid. Grades of A, B, C, D, P, or S, including any "+" or "-" options, count as credits earned. All courses for credit will be counted as hours attempted including withdrawals, incompletes, courses repeated, and courses receiving a grade of N, U, WF, WP, and F.

1. **Probation.** Students whose completion rate is greater than 50 percent but less than the required 66 percent will be placed on probation.
2. **Suspension.** Students whose completion rate is less than 50 percent of the credit hours attempted or those previously placed on probation whose completion rate does not improve by the next review will be suspended from eligibility for federal grants, loans, and federal work-study employment. Students may still be eligible for emergency short-term loans and other university funds.

Time Limitations

1. **Undergraduates.** The maximum time limitation for the completion of a first degree is limited to 150 percent of the program's published length. Most undergraduate programs require 132 hours, so the maximum attempted hours allowed is 198. This time limitation does not include remedial/developmental courses for which the maximum federal limitation is 30 hours. The 198 hours include all transfer hours and all attempted hours. Students who change majors during their junior or senior year will be allowed 24 additional attempted hours to obtain a degree. The Records Office must have the change of major recorded prior to the student's achieving the 198-hour limitation.
2. **Graduates.** The maximum time limitation for graduate students will be 150 percent of the standards established by the College of Graduate Studies and published in the graduate catalog.

Review of Progress Standards

1. **GPA.** The Records Office reviews the GPA at the end of each semester. Students may appeal academic suspension to the undergraduate or graduate academic appeals committee. The decision of the committee is final.
2. **Completion rate.** The completion rate is reviewed annually at the end of the spring semester by the Financial Aid Office.
3. **Time limitation.** The maximum time limit is reviewed at the end of each semester by the Financial Aid Office.

Notification/Appeals

1. **Over 150 hours.** The Financial Aid Office will send a letter of notification regarding the 198-hour limitation on federal financial aid to students who have attempted over 150 credit hours.
2. **Probation.** The Financial Aid Office will send a letter to students placed on financial aid probation notifying them of their financial aid status and the expected requirements. Each student will be allowed at least one probationary period, during the course of enrollment.
3. **Suspension.** Students suspended from financial aid will receive a letter from the Financial Aid Office along with a Satisfactory Progress Appeal form. Students are allowed to appeal their suspension if they can document extenuating circumstances beyond their control, which have since been resolved. Examples include death of immediate family member and extended medical illness and/or disability. Provisions may also be made for students who have been approved to participate in the Academic Fresh Start program or have military credits that cannot be counted toward a degree. Any other circumstances not listed above must be well documented and have the approval of a financial aid administrator and the director of financial aid.
    a. **Financial Aid Suspension Appeals.** Student appeals are reviewed by an internal committee composed of financial aid staff. Each student will be notified of the appeal decision and if denied what action must be taken to regain financial aid eligibility.
    b. **Loan and Scholarship Committee.** Students who are suspended a second time or who have been denied by the internal financial aid committee may appeal to the Loan and Scholarship Committee or its designee. The Loan and Scholarship Committee comprises faculty members, students, and administrators. Since faculty and students do not report until the start of school, students appealing to this committee may be personally responsible for paying registration expenses or signing a deferment to confirm they will attend and hold their selected classes.

Reinstatement of Financial Aid if Appeal Denied

Students can attend MTSU and make up deficiencies in credit hours at their personal expense. If a student chooses to do this, a written appeal to the Financial Aid Office must be made when the deficiencies have been completed. This option is not available to students who have reached the maximum time limitation.

No Credit Hours Earned

A student who earns no credit hours for one semester will be placed on probation. A student who earns no credit hours for the last two semesters enrolled will be suspended from federal financial aid. However, the student may appeal the suspension. Please see the suspension guidelines above.

Teacher Licensure

Students who have completed an undergraduate degree and are enrolled for the sole purpose of attaining teacher licensure are eligible for loans at the undergraduate level. To receive aid, students must be accepted into the teacher education program. Students are eligible for aid one semester prior to being accepted provided they have documentation of their application for admission to the program.

Aid Available

Following is a summary of financial aid administered through MTSU. Unless otherwise indicated, application is made to the Office of Student Financial Aid through completing and mailing the Free Application for Federal Student Aid.

Sources of Aid and Eligibility

Federal Programs

Federal Pell Grant
Undergraduate student (based on need and attempted hours); amount of grant varies.

Federal Supplemental Educational Opportunity Grant (SEOG)
Undergraduate students enrolled at least half-time (based on need); amount of assistance varies.

Federal Work-Study Program
Undergraduate or graduate students enrolled at least half-time (based on need); maximum of 20 hours per week.

Federal Perkins Loan
Graduate and undergraduate students enrolled at least half-time (based on need); lifetime maximum of $20,000 for undergraduate study and $40,000 through graduate study.

Subsidized Federal Stafford Loan Program
Undergraduate or graduate students enrolled at least half-time and in good standing or accepted for enrollment at MTSU (based on need); maximum for two semesters is $2,625 for freshmen; $3,500 for sophomores; $5,500 for juniors and seniors; and $8,500 for graduate students not to exceed a lifetime limit of $23,000 for undergraduate students and $65,500 for graduate students (including the undergraduate loans). Applications are available in the Financial Aid Office.

Unsubsidized Federal Stafford Loan Program
Independent undergraduate or graduate students attending at least half-time and in good standing or accepted for enrollment at MTSU (based on need and cost of attendance); maximum for two semesters is $4,000 for freshman or sophomores; $5,000 for juniors or seniors; and $10,000 for graduate students, not to exceed a lifetime limit of $23,000 for undergraduate students and $73,000 for graduate students (including the undergraduate loans). Applications are available in the Financial Aid Office.

Federal Parent Loan for Undergraduate Students (PLUS)
Parents of dependent students; student must be attending at least half-time. The annual loan limit is the student's defined cost of attendance minus any financial aid received. No lifetime limits. Applications are available in the Financial Aid Office.

ROTC Scholarship
Based on performance on written and physical examinations; $150 per month plus tuition and books; contact MTSU Military Science Department.

State Programs

Tennessee Student Assistance Award
Undergraduate Tennessee resident/U.S. citizen enrolled or accepted for enrollment at eligible institutions in Tennessee (based on need); amount of assistance varies based upon need, tuition, and enrollment status; funding is limited.

Tennessee Teaching Scholars Program
Tennessee residents/U.S. citizens pursuing teaching licensure; program is limited to college juniors, seniors, and post baccalaureate students admitted to the teacher education program with a GPA of 2.75 or higher if required for the teacher education program. Commitment to teach in a Tennessee public school. Deadline is April 15 on a Tennessee Student Assistance Corporation (TSAC) approved form.

Minority Teaching Fellows Program
Entering freshmen with 2.50 high school GPA (4.00 scale) scoring at least 18 on ACT or 780 on SAT or ranked in top 25 percent of high school class who agree to teach in a Tennessee public school (K-12 level); Tennessee resident/U.S. citizen attending Tennessee institution; $5,000 per academic year with $20,000 maximum; obtain application from high school guidance office or TSAC.

Institutional Programs

MTSU's scholarship deadline is March 1. For more detailed information on these MTSU programs, please check the Financial Aid web page at http://www.mtsu.edu/~fin_aid.

Academic Service Scholarship
High school students who graduate in the upper five percent of class and have an ACT composite of at least 20; requires work obligation; renewable for up to eight (8) consecutive semesters. Contact high school guidance counselor or Financial Aid Office.

Presidential Scholarships
Entering first-time freshmen whose high school GPA is 3.75 or greater and whose ACT composite score is 29 or greater. Renewable for up to eight (8) consecutive semesters. Contact the Admissions Office.

Otis L. Floyd Scholarship
African-American students whose high school GPA is 3.20 or greater and whose ACT composite score is 25 or greater. Renewable for up to eight (8) consecutive semesters. Contact the Admissions Office.

James M. Buchanan Scholarship
The scholarship recognizes ten of the most outstanding new freshmen applicants who also are qualified for the Presidential or Otis L. Floyd Scholarship. Renewable for up to eight (8) consecutive semesters. Contact the Admissions Office.

MTSU Foundation Leadership/Performance Scholarship
Entering freshmen who demonstrate outstanding achievement in academic activities and leadership. Renewable for up to eight (8) consecutive semesters; contact high school guidance counselor or Financial Aid Office.

The Scholastic Achievement Scholarship
African-American first-time freshmen whose high school GPA is 3.00 or greater and whose ACT composite is at least 21. Renewable for up to eight (8) consecutive semesters. Contact the Admissions Office.

The Provost Scholarship
First-time MTSU student whose composite ACT is 20 or greater or whose high school GPA is 2.80 or greater (transfer student must have a GPA of least 2.00). Contact the Admissions Office.

Athletic Scholarships
Based on skill; amount varies; contact athletic director, MTSU.

Music Scholarships
Based on skill; audition required; amount of assistance varies; contact chair, Music Department, MTSU.

The Enrichment Scholarship
Based on student's potential, academic achievement and need. Entering freshmen must have a high school GPA of at least 3.00 or an ACT composite score of at least 21. Transfer or currently enrolled students must have a GPA of at least 2.50.

Matching Minority Scholarship
African-American U.S. citizens qualified for admission or currently enrolled MTSU students; must be full time; amount of assistance varies; undergraduates obtain application from the Financial Aid Office; graduates obtain application from Graduate Office.

Graduate Assistantships
Based on major field of study; monthly stipend plus fees; contact chair of major department.

Doctoral Fellowships
Based on major field of study; amount of assistance varies; contact chair of major department.

Clifford N. and Pauline W. Stark Educational Loan
Based on need and GPA; amount of assistance varies; cosigner required; contact Financial Aid Office.

Saunders Loan Fund
Education majors; based on need and GPA; amount varies; contact the Financial Aid Office.

SGA Emergency Loan Program
Based on emergency; $100, which must be repaid in 30-60 days; contact Financial Aid Office.

Foundation Short-Term Loan Program
Based on emergency need; must be repaid in 30-60 days; amounts vary; contact Financial Aid Office.

Other Sources of Aid

Vocational Rehabilitation
Based on physical or emotional disabilities; amount of assistance varies; contact State Vocational Rehabilitation Office in your area.

Veterans Benefits
Veterans, widows of veterans, and children of disabled or deceased veterans; amount of assistance varies; contact Veterans Administration Office in your area.

Private Scholarships
Based on an organization's or individual's requirements; amount of assistance varies; contact parents' employers, local civic organizations, community groups, churches, businesses, etc.

Housing and Residential Life

Housing and Residential Life
Keathley University Center 300

Living on campus places students in the center of the University community so that they can make the most of opportunities for involvement in both academic and co-curricular activities. Most students find that MTSU residence halls or apartments are the right choice for making the most of their college career. By living on campus, they become part of a vital living-learning community and make friendships that will last a lifetime. Research conducted nationally indicates that living on campus is one of the strongest influences on successful completion of an undergraduate degree.

More than 3,800 students in twenty-four residence halls and apartments make their homes on the MTSU campus. While every living area is unique, each offers a community that supports academic excellence at the University. Professional staff and student leaders live and work in the halls, coordinating services and programs that assist students in achieving success both in and out of the classroom. Referrals to academic support services on the campus, access to computing facilities, opportunities for student leadership training, participation in recreational activities, and availability of a listening ear are just a few of the services available to students living in the residence halls and apartments.

Living options include traditional halls with shared baths, exterior entry buildings with suite-style baths, and two- and four-person and family apartments. Communities range in size from fewer than 100 residents in Rutledge Hall to up to 400 residents in Corlew and Cummings. Five computer rooms in on-campus halls and apartments provide residents with convenient access to personal computing and photo copiers. Personnel at twenty-four hour desks in several areas of campus assist students and guests by providing reception services, information, and assistance with security procedures. Lounges and lobbies within the halls provide areas designed for conversation, studying, and recreation. All rooms and furnished apartments are air-conditioned and include basic cable and all utilities. Laundry facilities are available within each complex.

General Information

When a student is accepted for admission to the University, the individual does **not** receive a room or apartment automatically. Rooms and apartments may be reserved **only** by filing an application and appropriate prepayment with the Housing and Residential Life Office.

Freshmen men and women who reside in residence halls are required to participate in a freshman meal plan for two full semesters, not including Summer. The charge, which is payable during registration, can be found under Expenses. Additional meal plans are available to other students from the university food service (Aramark) and may be purchased during registration or at their office.

Telephone jacks are provided in each room or apartment. Residents should arrange to provide the telephone instrument of their choice. To place long distance calls, a calling card must be obtained from a long distance carrier who provides a **local** number to dial to access long distance. Individual bills are rendered by the carrier for all calls made against the account number during the billing period. Residents also have the option to set up an account with MTSU's STAR-1 long-distance service. Individual bills are rendered approximately once per month. One additional jack is provided in each room. One telephone device may be attached to this jack.

Each residence hall complex and each apartment complex is staffed by an area coordinator who has overall responsibility for the operation of the area. The area coordinator is assisted by a staff of resident directors and resident assistants, undergraduate and graduate students who share responsibility for managing and enhancing the daily group living experience.

Custodial and facilities staff are also assigned to each residence hall and are responsible for routine repair and cleaning in common areas of the hall, including bathrooms, corridors, and walkways. In the apartment complexes for single students, a custodian cleans the corridors, walkways, and public areas.

Housing and Residential Life Policies

Students who reside in University residence facilities are expected, as a condition of residence, to cooperate in the observance of the laws of Tennessee, University policies, and regulations set forth in the current *MTSU Student Handbook* and the Student Housing License Agreement.

Students who occupy residence hall rooms or apartments may be held responsible for any breakage or damage done to the apartment or room or to the equipment in the apartment or room and for damages or losses to the public areas of the hall or apartment building which cannot be attributed to specific individuals. No pets (other than fish in an aquarium), firearms, fireworks, extension cords (except multi-outlet with circuit breaker), or alcoholic beverages are allowed in the apartments or residence halls.

The University is **not** responsible for loss or damage to personal property. Large sums of money or articles of value should not be left unsecured. Individuals are responsible for the physical condition of their apartment or room, as well as for their conduct and the conduct of others who visit them. Students are encouraged to carry appropriate insurance for their personal property.

The administration reserves the right to grant or refuse admission to the apartments or the residence halls or to reassign or to terminate the residence of any student in any apartment or residence hall or other University-owned building at any time.

24-Hour Desk Services

Selected buildings offer round-the-clock desk services in the lobby, in addition to usual staff services. Desk attendants can accept deliveries of packages and flowers, handle requests for maintenance, assist with building security, provide campus and building information, and make loans of sports equipment, games, and small appliances.

Personalization

Residence hall students may, within limited guidelines, personalize their rooms and, with the other residents of their hall, the public areas of their building. Personalization may take the form of painting, in colors approved and provided by Housing and Residential Life, or personalization may involve construction such as lofts. Personalization request forms can be obtained from the hall staff. No work may commence until approval is granted.

Residence Halls

West Side Halls

Residence halls located on the historic west side of campus stand along pathways lined with trees that were planted when the campus was new.

The small learning communities of Rutledge, Miss Mary, Lyon, McHenry, and Monohan halls, designated for women, and Reynolds and Schardt halls for men range in size from 77 to 141 students and are located adjacent to the James Union Building. The JUB houses one of the main cafeterias on campus, providing residents with a convenient location to meet friends for meals or studying. A computer lab in Lyon Hall provides West Side residents with 24-hour computing facilities. Reception desks are located in Lyon, Monohan, and Rutledge halls. Centrally located bathrooms in each hallway of each floor are shared by residents.

Mid-Campus Halls

The centrally located residence halls of mid-campus provide easy access to the Woodmore food court and the campus grill located in Keathley University Center. Smith, Sims, Beasley, Gracy, and Judd halls provide small communities of 100 to 155 men and share the services of the Smith Hall reception desk, lounge, and computer lab. Smith, Sims, and Beasley halls feature centrally located bathrooms on each floor which are shared by residents. Judd and Gracy are exterior entrance buildings which offer quad-style bathrooms shared by groups of four rooms.

East Campus

Residence halls on the east side of campus are close to the Student Recreation Center and the new University Library. Wood Hall, for women, and Felder Hall, for men, share a connecting lobby which provides reception services, a computer lab, and meeting/television space for residents for all of the East Campus. Wood and Felder halls house the Honors Living and Learning Center. Clement and Gore halls are reserved for late applicants and may be home to our overflow students. Nicks Hall for men, and Deere Hall for women, and Clement and Gore halls for overflow applicants are small communities of exterior entrance buildings which feature quad-style bathrooms shared by groups of four rooms. Study rooms in each building provide a quiet space for reading, study, or homework.

North Campus

At seven stories high, Corlew and Cummings halls (on the north side of campus) are the tallest buildings at MTSU. Corlew and Cummings are located between McFarland Health Services and the Ned McWherter Learning Resources Center and adjacent to the Business and Aerospace Building. Corlew Hall provides a home for 400 women and McCallie Dining Hall, located in Corlew, is one of the main cafeterias on campus. Cummings Hall is the location of the First-Year Experience Program which provides special academic and personal support to 400 freshmen men and women. Reception desks are located in each hall, and a computer lab in Corlew serves residents of both halls. Centrally located bathrooms on each floor are shared by residents. Designated rooms in each building are designed to provide overflow housing for late applicants.

Apartments

Ezell and Abernathy Apartments

Reserved for graduate and upper-class students, Abernathy and Ezell apartments are located on the east side of campus near the Student Recreation Center. These buildings consist of one-bedroom (two-person) and two-bedroom (four-person) efficiency apartments. Each apartment provides kitchen and bathroom facilities as well as sleeping and social areas. Further, each unit is designed with direct outside access. Both buildings also offer laundry facilities on every floor. Abernathy Hall has a lobby on the ground floor where students can meet and socialize.

Womack Lane Apartments

Womack Lane Apartments consists of 192 one- and two-bedroom apartments, with areas designated for both single students and families. Single students share a furnished one- or two-bedroom apartment with one other student; graduate students and upper-class students are given preference in assignment. Families may occupy either one- or two-bedroom apartments and may select an unfurnished or furnished apartment. All furnished apartments include air conditioning units; unfurnished units are not air conditioned. The community building for Womack Lane includes a 24-hour information and service desk, laundry facilities, a recreation/meeting room, and computer lab.

Scarlett Commons

MTSU's newest residential area is Scarlett Commons. Located immediately north of the Student Recreation Center, Scarlett Commons features four-bedroom, two-bathroom apartments with full kitchens and living rooms. Residents occupy a private bedroom and share their bath with one other student. Each bedroom is wired for direct access to the university computing system. The Scarlett Commons clubhouse includes a 24-hour reception and service desk, recreation/meeting room with fireplace, and laundry room. The University shuttle bus, the Raider Xpress, provides campus transportation from a bus stop located at the front of the clubhouse.

Special Interest Housing

Honors Living and Learning Center

The Wood and Felder residence halls on the east side of campus are the home of MTSU's Honors Living and Learning Center. Application to this residence facility is limited to students who meet Honors College eligibility requirements. Students who live in the Honors Living and Learning Center must also enroll in at least one Honors class (3 credit hours) each semester. The Honors Living and Learning Center offers unique services such as classes taught in the Felder classroom, academic advisors who hold office hours in the halls, and tutoring sessions held in the halls. Students who live in these halls have the opportunity to interact with their professors outside of class, participate in Honors College seminars, and gain valuable leadership skills. For more information about eligibility requirements for the Honors Living and Learning Center, please contact the Housing and Residential Life Office at 898-2971 or the MTSU Honors College at 898-2152.

First-Year Experience Residence Hall

Cummings Hall, a seven-story high-rise located on the north side of campus, is the home of MTSU's First-Year Experience Residence Hall. Services and programs offered in this residence hall are geared toward first-year students (29 college credit hours or less) and are designed to enhance students' academic success at MTSU. The First-Year Experience Residence Hall offers a number of unique services for first-year students at MTSU such as lower-division classes taught in the Cummings Hall classroom, an academic advisor who holds office hours in the hall, tutors who live on each floor of the residence hall and provide tutoring services in the Cummings Hall Tutoring Center, and special workshops and programs designed to assist students with their transition to MTSU. If you are interested in living in the First-Year Experience Hall, please indicate First-Year Experience as the selected option on the application for housing.

Family Student Housing

A portion of the Womack Lane Apartment area is designated as Family Student Housing. Apartments include both semi-furnished and unfurnished one- and two-bedroom apartments with exterior entry, social areas, and kitchen and bathroom facilities.

Family student apartments are reserved for the use of full-time students with a spouse, and/or a dependent child or children residing with the full-time student. Family Student Housing rates cover utilities, including electric heat with an individual control per unit. Unfurnished apartments are not air conditioned. Semi-furnished apartments include a window air conditioning unit as well as two twin beds, a dresser, sofa, chair, end table, and dinette set.

The Womack Lane Community Center building includes a 24-hour desk, meeting area, and computer labs as well as a coin-operated laundromat with commercial washers keyed to enhance security and restricted to Womack Lane residents.

Housing Reservations

How to Apply

To apply for residence halls, on-campus apartments, and family student apartments, complete an MTSU Application for Housing and Residential Life and return it with the required fees to MTSU Housing and Residential Life, Middle Tennessee State University, P.O. Box 6, Murfreesboro, TN 37132. Housing assignment priorities are based on the date of application; due to the demand for on-campus housing and limited amount of space available, the University is unable to guarantee housing for all students. Completed applications, signed by the student, indicate acceptance of the terms and conditions outlined in the Housing License Agreement. Please be aware that the agreement is for a full academic year, including both Fall and Spring semester. Student agrees to accept accommodations assigned, including overflow housing for single students or to cancel and accept prepayment forfeitures as outlined in the license agreement.

Overflow Housing

Housing and Residential Life will maintain overflow housing which is used to accommodate late applicants who apply for housing after all regular spaces are assigned. On-campus overflow housing refers to the furnishing of a room to accommodate a third person. Students will be advised of their status and given details and policy information at the time of assignment.

MTSU Housing License Agreement

Please review the MTSU Housing License Agreement carefully. Submitting an MTSU Application for Housing and Residential Life commits you to the terms and conditions outlined in the agreement. Please be aware that the agreement is for a full academic year, including both Fall and Spring semesters. Early termination of the agreement will result in substantial financial penalty.

Fees and Refunds

Applications for residence halls, on-campus apartments, and family student living must be accompanied by a pre-payment. Pre-payment is a security of good faith that denotes the applicant's serious intent to reside in on-campus housing. Prepayment fees are applied toward semester housing fees, with one half toward fall semester charges, and one half toward spring semester charges. This prepayment is refundable prior to check-in according to the refund schedule located in the license agreement. All cancellations must be submitted in writing to the Housing and Residential Life Office by mail (P.O. Box 6, MTSU, Murfreesboro, TN 37132), fax (615) 898-5459 or by TRAM (615) 898-2000.

For More Information

Prospective students and their families are invited to MTSU to tour the campus and become acquainted with the residence halls and on-campus apartments. For additional information, contact Housing and Residential Life at (615) 898-2971 (Fax: 615-898-5459) or come to the office in the Keathley University Center 300. Information is also available at http://www.mtsu.edu/~housing.

Registration Procedures

Scheduling Center
James Union Building 123

Detailed procedures for registration are given each semester in the class schedule book. Classes are selected via a touch-tone telephone using Telephone Response at Middle (TRAM) at (615) 898-2000 (9-898-2000 on campus) or via the Internet on the WebMT system at http://www.mtsu.edu

To avoid delay, the following must be observed prior to registration:

1. In order to be accepted to the University, all students, including re-enrollees and part-time students, must complete an admission application and submit proper credentials. The current class schedule book should be consulted for specific details. Participants in the MTSU/TSU consortium should confer with admissions personnel before registering for classes at MTSU. **The University reserves the right to stop accepting applications and to terminate registration at any point to ensure enrollment limitations according to guidelines set forth by the institution and/or Tennessee Board of Regents.**
2. MTSU conducts Priority Registration (pre-selection of classes) for current, re-enrolling, new graduate students, or new undergraduates with a previous degree. Registration information is mailed to all students as a means of indicating eligibility for Priority Registration.

   A student is not officially enrolled until completion of all of the requirements of registration including the payment of fees. The current class schedule book for each semester carries information on fee payment, late registration, and dropping and adding classes.
3. **It is strongly recommended that each student confer with a faculty advisor to obtain an approved list of classes on a Course Selection Worksheet to be used when classes are selected via TRAM or WebMT.**
4. Former students must settle all prior accounts in the Business Office and University Library before re-admission.

The following must be observed during the registration period:

1. All students who took the Academic Assessment Placement Program test (or any portion of it) and who were placed into courses in the Developmental Studies Program must enroll in and complete the designated courses in sequence. Failure to enroll in the designated courses will result in the student's immediate withdrawal from the University. All full-time degree-seeking students should be enrolled in the appropriate general studies English course **and** either six hours in general studies **or** three hours in general studies **and** three hours in their major until they have satisfied the University's general studies requirement. Upper-division students should have on file and follow a plan for major and minors. Students are permitted to apply only one physical education activity course per semester to General Studies requirements.
2. The current class schedule book should be consulted for fee payment procedures and payment deadlines.
3. Upon completion of payment of fees, everyone who does not have an ID card will be required to have an identification (ID) picture made. All students must have an ID card which is validated each semester with payment of fees, and ID cards are to be used for the complete period of time a student attends MTSU. All students must register their automobiles for the current academic year.
4. All male citizens of the United States of America born in 1960 or thereafter must have completed Selective Service registration prior to registering for classes at MTSU.
5. Effective July 1, 1998, the State of Tennessee requires students to provide proof of two (2) dose of measles, mumps, and rubella (MMR) vaccine on or after the first birthday, or proof of immunity to measles if date of birth is 1957 or after. **Registration for classes will not be allowed until an acceptable form is on file in the Student Health Services Office.**

Determination of Residence for Fee-paying Purposes

The Admissions Office makes decisions concerning residence classifications for undergraduate students with the exception of international students. International Programs and Services handles residency questions for international students. Regulations concerning residency are printed on the back of the Application for Tennessee Residency Form that may be obtained from the Admissions Office, Cope Administration Building 210. Students who disagree with a residency decision may appeal. Additional information is on page 29.

Academic Regulations

Academic Advising

Each student is assigned to the academic department or school which corresponds to his or her major area of study. The head of the department or school will in turn assign a faculty advisor to the student. The faculty advisor will assist the student in determining and carrying out an academic program which will meet the student's educational aims and goals. Students required to enroll in a course or courses in Developmental Studies will also be assigned an advisor in the Developmental Studies Department.

Faculty advisors post a schedule of office hours and each student should feel free to call on his or her advisor or any faculty member at any time assistance or discussion is appropriate.

While an academic advisor's signature is not required for selection of classes, each student is strongly encouraged to meet with his/her advisor prior to course selection to review progress toward graduation.

Academic Disciplinary Procedures

The administration of academic discipline is a function of the academic dean of the college concerned and is conducted by means of a due process procedure. Cases of alleged cheating and unethical conduct should be reported to the dean of the college concerned. Each case of alleged misconduct will be investigated through interviews. If further action is desired, those concerned will be given an opportunity to refute the charges. After giving the student notice of the allegations and an opportunity to explain his or her actions, the instructor may assign an "F" for the exercise, examination, or course.

Academic Fresh Start

Any person who has not been enrolled in a college or university for a period of four years and who, upon re-enrolling, satisfactorily completes 40 hours of classwork, may petition to have grades on **all** prior course work disregarded in calculating his/her cumulative grade point average. A written request and transcript should be sent to the dean of the college in which the student is pursuing a major. If the request is granted, the earlier courses would not count toward requirements for graduation or professional licensure but would appear on the student's transcript with appropriate notation.

Academic Year

The regular academic year is divided into two terms, Fall and Spring. There is also the Summer term which is divided into four regular sessions: Session I, beginning in May, is approximately three weeks; Sessions II and IV are approximately five weeks in length; Session III (whole term) is approximately ten weeks. Additional sessions may be scheduled to accommodate the special needs of courses offered at off-campus locations. An applicant may be admitted to any of these divisions.

Accounts

No student will be issued a diploma, certificate of credit, enrollment verification, grade report, or transcript of his/her record until all debts or obligations owed to the University have been satisfied.

Cancellation of Scheduled Classes

No scheduled class may be discontinued without the approval of the dean of the college concerned. The right is reserved to cancel any class when the number of students enrolled is deemed insufficient. A minimum of 15 for lower-division and of 10 for upper-division and 500 level graduate classes is required. The minimums for 600-and 700-level classes are eight and four, respectively.

Change of Major

A student who desires to change his or her major should secure a Change of Academic Program form from the department of the new major. The department of the new major will enter the new major code into the student's computer record and forward notification of the change of major to the former department. Any student receiving veterans benefits who changes his or her major must notify the Veterans Affairs clerk located in the Records Office.

Class Attendance

A student is expected to attend each class for which he/she is registered except in cases of unavoidable circumstances. Class attendance will be monitored during the term. Students who are reported for non-attendance will be assigned a grade of F to appear on their transcripts, and non-attendance will be reported to appropriate agencies. Distribution of future financial aid will be suspended if applicable.

Exceptions are made for University-sanctioned activities. Students shall not be penalized for such absences. Students anticipating participation in University functions which will take them out of classes should discuss these absences with their instructors at the earliest convenient time.

The fact that a student may be absent from a class does not, in any way, relieve that student of the responsibility for the work covered or assigned during the absence. It is the responsibility of faculty members to excuse or refuse to excuse absences of students who miss their classes. It is the responsibility of the student to obtain excuses for absences and to arrange with the faculty member in question to make up the work missed. Absences begin with the first date the student is enrolled in class.

MTSU does not usually close because of inclement weather, but students will be allowed to use their own discretion when snow and icy conditions exist; they will be given the opportunity to make up the missed classes should they decide not to attend. To determine if classes are cancelled, students should listen to area radio and television stations; access the News and Public Affairs home page at http://www.mtsu.edu/~proffice (or click on "Events and News" from the MTSU home page at http://www.mtsu.edu); or call the news line at 904-8215.

Classification of Students

No student may be classified as a sophomore until after earning at least 30 semester hours.

No student may be classified as a junior until after earning at least 60 hours.

No student may be classified as a senior until after earning at least 90 hours.

Correspondence Credit

Correspondence courses taken at MTSU carry regular degree credit. Students can obtain a current listing of MTSU correspondence courses in the class schedule book or by calling the Correspondence Office at MTSU at (615) 898-5332.

Correspondence courses taken at other schools are accepted under the regulations governing acceptance of transfer credit (see page 26) and are subject to the following regulation: ENGL 111 and 112 and courses with a laboratory component must not be taken by correspondence except by the permission of the chair of the department and the dean of the college in which the course is offered.

No more than 66 semester hours completed or awarded in correspondence study, credit-by-examination, credit for service-related experience, and flight training may be counted for credit on a degree.

Course Numbers

Courses numbered 010-019 are academic success; 070-079 are basic; 080-089 are developmental, level I; 090-099 are developmental, level II; 100-199 are on the first year or freshman level; 200-299 on the second year or sophomore level; 300-399 on the third year or junior level; 400-499 on the fourth year or senior level; 500 and above on the fifth year or graduate level. Course numbers beginning with 0 are not acceptable as degree credit work.

Double (or Second) Major

A student may elect to obtain a double or second major for graduation by meeting the following requirements:

1. Satisfy general requirements as prescribed by the University and the specific requirements set forth by each major and for the degree sought.
2. Two properly approved upper-division forms must be filed, one for each major.

   NOTE: One upper-division form is acceptable, provided both majors are clearly identified on the form. In the case of a B.A. degree which requires only one minor, the second major may count as the required minor.
3. In the case of a major requiring two minors, the second major may count toward fulfillment of one minor provided it meets the requirements of the particular degree. In the case of a B.A. degree which requires only one minor, the second major may count as the required minor.
4. The degree sought must be compatible with both majors; that is, a student with a major appropriate for the B.B.A. degree may not choose a second major that is not offered under the B.B.A. degree. As an example, a student pursuing a B.B.A. degree with a major in Business may not opt for a second major in History which is not offered under the B.B.A. degree.

Dropping or Adding Courses

Tennessee Board of Regents policy prohibits students from dropping courses in the Developmental Studies Program. Under extenuating circumstances a course may be dropped with the approval of the director of Developmental Studies.

The procedures and deadlines to drop and add a class are listed in the appropriate class schedule book. Students who stop attending a class but do not officially drop the class will be assigned a grade of F which will be recorded on the student's permanent record.

Students wishing to drop all courses, i.e., withdraw from the University, should consult an associate dean of students and see the section "Withdrawals from the University" on page 54.

Enrollment, Certification of Status of

The following schedule of hours attempted will be used to determine the status for various certifications of attendance requested by undergraduate students: Fall, Spring, and Summer Semesters: full-time - 12 semester hours, three-quarter time - 9 hours; and one-half time - 6 hours. Students desiring official verification of enrollment should contact the Records Office.

Evening Classes

For the convenience of part-time students, many classes are scheduled on the campus in the evenings and on Saturdays. The Night School Office functions as a part of the Division of Continuing Studies to assist students who wish to take classes at such times.

Grades—Appeal of Course Grades

Student grievances concerning a course grade should be resolved by arbitration between student and faculty. The appeal must occur within forty days of the graduation date for each term. If an impasse exists, either party may request the department chair to investigate the circumstances. Since these findings become a part of grievance records, the department chair will record the findings and send a copy to student and faculty members. If the matter is not resolved at this level, the findings will then be forwarded to the dean of the college offering the course. If a resolution is not possible at this level, the dean will refer the matter to the Grade Appeals Committee. The Grade Appeals Committee will receive documents and testimony regarding the circumstances, will record its findings, and make recommendations to the provost/vice president for academic affairs for a decision. The student may appeal an unfavorable decision to the president of the University.

Graduate Courses, Permission to Enroll in

Seniors at MTSU with 98 semester hours of credit may be allowed to take up to 12 semester hours of graduate coursework. Approval is required by the undergraduate advisor and by the dean of the College of Graduate Studies. **Graduate coursework may not be used to meet the requirements for an undergraduate degree.** Applicants for this status must complete a Half-and-Half form which is available at the Graduate Office.

NOTE: *The College of Business does not have a Half-and-Half program.*

Graduation

Graduation is conducted at the close of the Fall, Spring, and Summer terms. Students who plan to graduate should complete a Notice of Intention to Graduate form **within the first two weeks of the first term of the senior year.** This form is available in the Records Office, Cope Administration Building 102.

All students must complete the general requirements as prescribed by the University and the specific requirements set forth for the degree sought. A minimum of 132 hours is required with at least two semesters in which a minimum of 30 semester hours is earned in residence during the junior and senior year. The last semester must be in residence unless permission is granted by the dean of the college in which the student is pursuing a major.

A student must have a 2.00 GPA overall and a 2.00 average in the major and in 48 hours of upper-division work to graduate. Some departments require a 2.00 GPA in the minor. No more than 25 percent of the credits for nonbusiness degrees may be in courses commonly found in a school or college of business. No student will be issued a diploma, certificate of credit, enrollment verification, grade report, or transcript of his/her record until all debts or obligations owed to the institution have been satisfied.

Applicable Catalog—Students are ordinarily allowed to graduate under the requirements of the MTSU catalog that was current when they entered any college or university under the Tennessee Board of Regents, provided graduation is within eight years of that entrance date. Students may elect to meet the requirements of any one catalog published while they are in attendance at MTSU provided graduation is within eight years of the catalog date.

Graduation with Honors—Undergraduates

Recognition of honors at the graduation ceremony will be made for those students obtaining the required grade point average by the beginning of their final semester.

Cum Laude: 3.50-3.74
Magna Cum Laude: 3.75-3.89
Summa Cum Laude: 3.90-4.00

Notation of graduation with honors is entered on the diploma and the transcript and is based on the cumulative grade point average on all degree credit courses.

Dean's List

Dean's List designations are made each semester and are based on full-time undergraduate degree credit enrollment. Students whose GPAs for the current semester are 3.50 or greater are placed on the Dean's List. Courses graded on a pass/fail basis will count as quality hours in calculating full-time status for determination of dean's list designation. The grade of P will not count as quality hours for determination of grade point average.

Identification Card

Students are required to carry a permanent ID card with a magnetic strip on the back. A student ID card will be made for each new freshman and transfer student during his/her first registration process. The card is required to receive a variety of services on campus including cashing checks, admission to athletic and special events, checking out library materials, obtaining meal tickets, and using Raider Funds. If any student loses his/her ID card or fails to have the card validated during registration, a replacement fee of $10.00 is charged for each card. The $10.00 fee must be paid at the Campus ID Station.

Lower and Upper Division

Courses numbered 100 and 200 are on the lower-division level. Courses numbered 300 and 400 are on the upper-division level.

Marking System—Grades

Following is a description of the criteria used in assigning letter grades:

A—work of distinctly superior quality and quantity accompanied by unusual evidence of achievement
B—work of good quality and quantity accompanied by evidence of achievement beyond the essentials of a course
C—work demonstrating fulfillment of the essentials of a course

D—passing work, but below the standards of graduation quality
F—failure, necessitating repetition of the course to obtain credit
N—not passing, necessitating repetition of the course to obtain credit (assigned only in certain courses)
P—passing (assigned only in certain courses)
I—incomplete (not used in calculating grade point average)
W—assigned in courses which are dropped during a specified period of time within a term. Students should consult the appropriate class schedule book for specific dates each term. Grades of W in developmental studies courses calculate as an unsuccessful attempt for determination of retention.
WD—withdrawal, applicable to basic and developmental courses, not used in calculating grade point averages
N/C—no credit (audit)

NOTE: Effective Fall 2000 plus and minus grading will be implemented at the undergraduate level. Grades which may be assigned are

A, A-
B+, B, B-
C+, C, C-
D+, D, D-
F

The grades of N, P, I, W, WD, and NC will continue to be assigned where appropriate.

Plus/minus grading will not be retroactive to any term prior to Fall 2000. Re-enrollment students will not be eligible to have courses re-evaluated if courses taken at a previous transfer institution were graded on a plus/minus system.

The P grade is given only in those courses with prior approval to use pass/fail grading. Courses may be taught on a pass/fail basis only after the approval of the appropriate group—Curriculum Committee (undergraduate) or Graduate Council. Catalog course descriptions include information indicating which courses are approved for pass/fail grading.

No more than fifteen semester hours in pass/fail course work may be attempted by any student during any one semester. No more than one-half of the degree requirements may be obtained through correspondence study, credit-by-examination, credit for military service-related experience, flight training, and courses in which non-traditional grading such as pass/fail is used. More information can be found under the general requirements for the baccalaureate degrees elsewhere in this catalog.

The grade I indicates that the student has not completed all course requirements because of illness or other uncontrollable circumstances, especially those which may occur toward the close of the term. Mere failure to make up work or turn in required work on time does not provide a basis for the grade of I unless the extenuating circumstances noted above are present for reasons acceptable to the instructor. When a student fails to appear for the final examination without known cause, the grade to be reported should be determined as follows: If the student has done satisfactory work to that point, the grade I may be reported on the assumption that the student is ill or will otherwise present sufficient reason for official excuse; if the student has attended irregularly and has not done satisfactory work to that point, the grade F should be reported.

The "incomplete" must be removed during the succeeding semester, excluding summer. Otherwise, the grade of F is entered. **A student should not make up the "incomplete" by registering and paying again for the same course.** The I grade carries no value until converted to a final grade.

Quality Credits—Grade Point Average

The following quality point system is used in determining the grade point average (GPA):

For each credit hour of A:	4 quality points
For each credit hour of A-:	3.67 quality points*
For each credit hour of B+:	3.33 quality points*
For each credit hour of B:	3 quality points
For each credit hour of B-:	2.67 quality points*
For each credit hour of C+:	2.33 quality points*
For each credit hour of C:	2 quality points
For each credit hour of C-:	1.67 quality points*
For each credit hour of D:	1 quality point
For each credit hour of D-:	0.67 quality points*
For each credit hour of F:	0 quality points

*Effective Fall 2000

The scholastic standing of a student is expressed in terms of quality point ratio which is calculated by dividing the total number of quality points by the total number of quality hours. Following is an example:

Course	Hours	Grade	Points
ENGL 111	3	C (2.0)	6
BIOL 100	4	B (3.0)	12
ART 111	3	B (3.0)	9
SOC 101	3	B (3.0)	9
MUHL 210	3	F (0.0)	0
	16		36

To get the quality points listed in the last column, the credit hours (column 2) are multiplied by the point value of the grade earned (column 3); then the 36 is divided by 16 for a GPA of 2.25.

No rounding up or down of the GPA is done in determining eligibility for retention, graduation, honors, dean's list designation, or taking an overload.

The section on Repeated Courses explains the computation of the GPA for students who repeat courses. The grade of F counts as quality hours with zero quality points earned; P grades carry hours earned but no quality points.

Repeated Courses

Students may repeat courses for the purpose of raising their grade point averages subject to the following:

1. No course should be attempted more than twice (i.e. repeated more than once) except upon the advice of the faculty advisor. The first time a course is taken is the first attempt; it is not a repeat until taken again. If a student repeats a course more than once, the hours will be added to the total quality hours and therefore will be included

in figuring the cumulative grade point average, the major average, the minor average, and the upper-division average. For example

first attempt of ENGL 111:
F = 0 quality hours, 0 hours earned;
first repeat of ENGL 111:
F = 3 quality hours, 0 hours earned;
second repeat of ENGL 111:
C = 6 quality hours.

An example of a successful repeat:
first attempt of ENGL 111:
F = 0 quality hours, 0 hours earned;
first repeat of ENGL 111:
C = 3 quality hours.

In other words, if a student **repeats** a course **once** and **improves** the grade, the effect on the cumulative hours taken is the same as if the course were successfully completed on the first attempt. However, if a student takes a three-hour course multiple times, each repeat increases the cumulative quality hours; taking the same three-semester-hour course five times, for example, is one attempt and four repeats and therefore is 12 quality hours;

2. The last grade earned will stand even if the last grade received is an F and the student has previously received a grade higher than an F. The previous passing grade will not calculate in hours earned. All repeated courses remain on the student's transcript with repeat notation.
3. Veterans receiving educational assistance benefits may not repeat courses previously passed and receive financial assistance for such.
4. Students may not repeat a course in which they have previously earned the grade of A or B without written approval from the dean of the college which houses their major.
5. Students may use either ENGL 221, or ENGL 223, or ENGL 224, or HUM 261 interchangeably for purposes of repeating a course.
6. This repeat policy took effect in Fall 1981. All courses attempted since then are subject to this policy. Courses attempted prior to Fall 1981 are subject to the previous repeat policy.

Retention Standards—Suspension of Students

The minimum quality point average required to achieve the baccalaureate or associate degree is 2.00.

A student failing to meet one of the following standards during any term will be placed on academic probation for the subsequent term:

1. attain a 2.00 GPA for current term, or
2. meet one of the following retention standards:

00-29.99 quality hours	1.50
30-49.99 quality hours	1.80
50 or more quality hours	2.00

A student on academic probation who fails to meet one of the above standards during the next term in which enrolled will be suspended. (See re-enrollment policy on page 27.) Students previously suspended are not eligible for probationary status.

Students who fail to attain a grade of C or better on the second attempt of a basic or developmental course are placed on academic suspension for one term excluding summer without regard to current or cumulative grade point average. Grades of W, or F will count as an attempt. Any student who lacks developmental studies courses and attends another school while on suspension from MTSU must enroll for those developmental courses while attending the other school, if available.

Students receiving a second suspension due to failure to meet a retention standard or failure to attain a grade of C or higher in a basic or developmental course will be placed on academic suspension for one calendar year. Please refer to item d under instructions for re-enrolling on page 27.

The cumulative quality point average for a transfer student will be computed on all work attempted from all institutions attended.

International students attending MTSU on student or exchange visas may not be readmitted after their second suspension even though the normal suspension period is over. According to the terms of their eligibility forms (I-20 or IAP-66), international students are expected to do satisfactory academic work and maintain a full course of study at MTSU. Failure to do this invalidates their student status, and Immigration Service will be notified. International students who are suspended may appeal to the Academic Appeals Committee for reinstatement if they feel that their poor academic performance was due to circumstances beyond their control.

Appeal of Academic Suspension—Appeals for undergraduate students will be reviewed by an appeals committee and consideration will be given for readmission if the student presents adequate evidence of ability, maturity, and motivation. Academic appeal forms for undergraduates are available in the Records Office, Cope Administration Building. There is a filing deadline for appeals prior to the beginning of classes each semester. Students should contact personnel in the Records Office for the deadline date applicable to each semester, refer to current class schedule book, or access the Records Office homepage.

Semester Hour Load of Student

Students should determine their semester course loads after careful consideration of time commitment outside the classroom. Students who work a significant number of hours per week should consider attempting fewer hours each semester. One's own time commitments, work and study habits, and other considerations should be reviewed with the academic advisor prior to the selection of courses.

Fall and Spring Semesters—Sixteen or seventeen semester hours of credit is the "normal" load for students who wish to graduate in four years. Eighteen semester hours (excluding courses for audit) is the maximum load for a student during any semester. A student desiring an overload must obtain overload permission from the dean of the college in which that student is pursuing a major at least two weeks prior to registration.

1. Students with a 3.50 average on all college work attempted may be permitted to take up to 21 semester hours in a semester.
2. Students with a 3.00 average may be permitted to take a maximum of 19 hours in a semester provided one hour is Military Science, Physical Education activity, or CSCI 100.
3. Graduating seniors may be permitted to take an overload with the limits above during the last semester in residence in order to graduate.

Summer—Following are the maximum number of semester hours in which an undergraduate student may enroll:

Session I - 4 hours
Session II - 8 hours
Session III - 14 hours
Session IV - 8 hours
All Sessions - combined total of 18 hours

Students who wish to enroll for credit hours in excess of these limitations must obtain permission from the appropriate dean as determined by the student's major.

Schedule

The schedule of courses provided each semester is for the convenience and guidance of students and faculty. The University reserves the right to change courses and schedules when the interest of all concerned may best be served.

Transcript of Credits

Official or unofficial copies of a student's record are furnished free of charge upon written request by the student. No student will be issued a diploma, certificate of credit, verification of enrollment, grade report, or transcript of record until all debts or obligations owed to the institution have been satisfied.

Unit of Credit

The semester hour is the unit of credit in courses and represents satisfactory completion of one 50-minute class period or equivalent, with all required preparation, during a Fall, Spring, or Summer term. Laboratory, shop, and studio classes usually earn one credit for each two hours of attendance or equivalent for a semester unless otherwise indicated.

Withdrawals from the University

Students finding it necessary to withdraw (completely separate) from the University after having selected classes for a future term should use the Telephone Response at Middle (TRAM), (615) 898-2000, or WebMT, http://www.mtsu.edu, to drop all classes. A student may also initiate the official withdrawal process in Keathley University Center 130. Consult the class schedule book for each term to determine whether withdrawal should be accomplished by TRAM or WebMT or through the associate dean of Student Life. Once classes have begun for the summer term, withdrawal for that summer term cannot be accomplished via TRAM or WebMT. The Records Office will be notified of the withdrawal and will notify each of the student's professors regarding the withdrawal and its effective date as determined by the associate dean of Student Life.

The grade for a student who officially withdraws from the University will be determined by the student's academic performance prior to withdrawal. Withdrawal early in a term may result in no grades being assigned to the student. (The current schedule of classes carries dates governing withdrawal and appropriate grades.)

A student may not officially withdraw from the University after a date in the semester or term which is one week or less prior to the beginning of final examinations, except for reasons of mitigation or extenuation as shall be determined by the associate dean of students.

Any student who leaves the University without officially withdrawing will receive a grade of F for all work attempted.

A student under certain conditions may receive an administrative withdrawal from a single course or courses. Similar procedures are provided for a total severance from the University if conditions warrant. The following policy will determine the eligibility for an administrative withdrawal: The entry of W indicates that the student has been withdrawn from a course without reflection of grades. The entry of W results from a situation involving extreme extenuating circumstances as identified and originated with the University physician or counselors at the Counseling and Testing Center and/or the associate dean of students. The entry of W will be accomplished only with the full knowledge and written concurrence of the faculty member concerned.

Undergraduate Degree Requirements

Baccalaureate Degrees, General Requirements for

To graduate from MTSU with a bachelor's degree, a student must meet the following requirements:

1. Complete a minimum of 132 semester hours with a 2.00 grade point average. (Some programs may require more than 132 hours.)
2. A minimum of 25 percent of credit for each degree awarded by MTSU must be earned through instruction offered by the University. Typically, a minimum of 33 hours earned at MTSU is required; however, in degree programs of more than 132 semester hours a greater number of hours would be required.
3. At least 48 semester hours of junior and senior (300-400 level) courses must be completed with an average grade of C (2.00 GPA) or better. Courses numbered 100 and 200 which are substituted for 300- or 400-level courses may not be used in the calculation of the 48 upper-division hours. A minimum of 30 semester hours of junior and senior (300-400 level) courses must be completed at MTSU.
4. Complete a minimum of 12 of the last 18 semester hours at MTSU. With approval of the dean of the college in which the student is pursuing the major, a candidate may complete six of the last 18 hours at another college or university or by CLEP.
5. No more than 66 semester hours completed or awarded in correspondence study, credit-by examination, credit for service-related experience, and flight training may be counted for credit on a degree.
6. Complete at least nine semester hours at the upper-division level at MTSU in the major and at least three semester hours at the upper-division level at MTSU in each minor.
7. A minimum of 60 semester hours of senior college credit will be required of all students who transfer from colleges of less than four-year designation.
8. A 2.00 minimum GPA will be required in a major pursued as a graduation requirement and a 2.00 is required in some minors.
9. All candidates must meet the General Studies requirements as outlined on pages 58-59 and satisfy a computer literacy requirement as outlined below.
   NOTE: Information applicable to transfer students may be found on page 57.
10. No more than 25 percent of the credits for nonbusiness degrees may be in courses commonly found in a school of business; therefore, a student can have only one business minor.
11. **During the second semester of the sophomore year, a student must complete an upper-division form and file it in the Records Office.** This form may be secured in the office of the head of the department/school in which the student expects to major. A grade point average of 2.00 in the major field and on all work attempted is required for unconditional admittance to the upper division and to candidacy for the bachelor's degree.
12. Any or all students may be required to take one or more tests designed to measure general education achievement and/or achievement in selected major areas as a prerequisite to graduation for the purpose of evaluation of academic programs. Unless otherwise provided for any individual program, no minimum score or level of achievement is required for graduation. Participation in testing may be required for all students, for students in selected programs, and for students selected on a sample basis.
13. All degree candidates must pay a graduation fee regardless of participation in the ceremony.
14. All persons initially enrolling in any college or university during or after Fall 1984 who seek a bachelor's degree from MTSU must have a basic knowledge of computers, including computer development, applications in today's world, and direct experience in operation. The University offers several alternatives whereby one may satisfy the computer literacy requirement. Students will select the option they deem most appropriate in light of their knowledge of computers and their plans, if any, to enroll in computer science or information systems courses at the university. The alternatives follow:
    a. achievement of a passing score on an examination in basic computer literacy. Students may contact the Department of Computer Science, Box 48, or extension 2397, for the scheduled examination times;
    b. successful completion of CSCI 100, Computer Literacy;
    c. successful completion of any one of the following courses deemed equivalent to CSCI 100:
       a) CSCI 115, 116, or 117
       b) INFS 100, 220, or 310
       The above courses are three hours credit each except CSCI 116 and 117 which are four;
    d. attainment of certification as computer literate at another Tennessee Board of Regents university or community college;
    e. presentation of coursework satisfactorily completed at a non-Tennessee Board of Regents institution and determined equivalent to CSCI 100 by the Department of Computer Science.

NOTE: In all instances, meeting the requirements for graduation is the responsibility of the student.

In addition to the general requirements above, candidates for the various degrees must meet certain specific requirements.

Bachelor of Arts Degree

Candidates for the Bachelor of Arts (B.A.) degree must meet the following requirements:

1. The major must be completed in one of the disciplines or concentrations listed in (4) below. It must be identified as an ap-

proved degree in the Academic Inventory on pages 18-23 and described in this catalog by the department concerned.

2. One minor is required, and it must be chosen from the list of disciplines and concentrations in (4) below or from interdisciplinary minors listed on page 76. Students wishing to be licensed to teach at the secondary level must meet the requirements for a minor in secondary education in addition to the basic requirements of one major and one minor.
3. Twelve hours of one foreign language are required. The requirement may be reduced to six hours to include 211 and 212 or any courses numbered above the 200 level for a student presenting four high school units of the same language. The basic required hours are counted toward a language major or minor.
4. At least 98 of the minimum 132 hours required for graduation must be in courses offered in the following subjects, but no more than 42 hours will be accepted in any one subject:

Art*
Biology*
Chemistry*
Economics*
  Labor Relations*
  Public Finance*
English
Foreign Languages
  French concentration
  German concentration
  Spanish concentration
Geography*
Geology/Earth Science*
History
International Relations*
Mathematics
  Actuarial Science
Music*
Philosophy
Physics*
Political Science
  Pre-law concentration
  Public Administration concentration
Psychology*
Speech and Theatre
  Speech Communication concentration
  Theatre concentration
  Communication Disorders concentration
Sociology
  Anthropology concentration

**Major not available in the B.A. program*

Bachelor of Business Administration

Requirements for the Bachelor of Business Administration (B.B.A.) degree may be found on page 140.

Bachelor of Fine Arts

Requirements for the Bachelor of Fine Arts (B.F.A.) degree may be found on page 200.

Bachelor of Music

Requirements for the Bachelor of Music (B.M.) degree may be found on page 228.

Bachelor of Science

Candidates for the Bachelor of Science (B.S.) degree must meet the following requirements:

1. Complete a major with a minimum of 24 semester hours.
2. Complete two minors of at least 18 semester hours each except for majors in Aerospace (exception: Technology concentration), Agriculture, Art Education, Biology, Business Education, Chemistry, Computer Science, Marketing Education, Economics, Engineering Technology, Geoscience: Geography concentration (geography for global commerce and resource management career patterns only) and Geology concentration (geology career pattern), Mathematics, Vocational Home Economics Education, Industrial Education, Industrial Technology, Physics, Science, and Speech and Theatre (Speech Communication and Communication Disorders concentrations only) in which one minor of at least 18 semester hours will be required. The major program in Interdisciplinary Studies requires a body of courses in preparation for the selected teaching field. The majors in Early Childhood Education, Special Education, and Environmental Science Technology do not require a minor.
3. Specific requirements in the various departments must be met as listed in the colleges section of this catalog.
4. The B.S. degree may be granted to a student who takes six semesters of college work before entering an advanced health-related or engineering professional school upon evidence of satisfactory completion of the first year's work and the unconditional admittance to the second year, if applicable, provided that
   a. the minimum requirement for entrance to the professional school is 60 semester hours of college work;
   b. the professional school is an integral part of a university accredited by the appropriate regional association or the professional school is accredited by the recognized national association in its field;
   c. the last two semesters of pre-professional work be done at Middle Tennessee State University;
   d the candidate complete a minimum of 99 semester hours in required pre-professional courses;
   e. the candidate complete, in the pre-professional work, at least 24 semester hours in upper-division courses, including at least 6 semester hours in his/her major field;
   f. the candidate meet all general requirements of the degree curriculum.

Bachelor of Science in Nursing

Requirements for the Bachelor of Science in Nursing (B.S.N.) may be found on page 132.

Bachelor of Social Work

Requirements for the Bachelor of Social Work (B.S.W.) degree may be found on page 245.

Bachelor of University Studies Degree

The Bachelor of University Studies (B.Unv.S.) degree program is for the person who wishes to pursue a broad-based educational experience rather than a program designed to meet specific vocational or professional job opportunities. The degree is offered by the Colleges of Basic and Applied Sciences and of Liberal Arts. Advisement is available through the Division of Continuing Studies. Students may select from two specializations: basic and applied sciences and liberal arts.

Specific requirements are

1. 41 semester hours fulfilling the General Studies requirements;
2. completion of at least nine semester hours at the upper-division level at MTSU in the college of specialization;
3. a 2.00 GPA in the courses taken in the college of specialization;
4. 54 semester hours selected from at least three of the six undergraduate colleges (excluding Honors) subject to the following guidelines:
   a. A minimum of 27 semester hours of the 54 semester hours must be taken at the upper-division (300-400) level.
   b. A minimum cumulative grade point average of C or 2.00 GPA must be attained.
   c. A minimum of 21 semester hours must be completed in either Basic and Applied Sciences or in Liberal Arts. The maximum hours allowed in a specialization is 30.
   d. Upper-division courses with the prefixes ELED, READ, SPED, FOED, YOED, or SPSE may not be used.
   e. No fewer than 6 nor more than 12 semester hours may be taken in any one department. No more than 21 semester hours taken in departments within the College of Business may be counted toward the B.Unv.S. degree.
   f. Courses taken to satisfy the General Studies requirements may not be counted to fulfill the 54 semester hours requirement in

the University Studies program. Other courses from the General Studies curriculum may be taken subject to limitations imposed by (a), (c), (d), and (e) above.

Additional information about the Bachelor of University Studies can be obtained from the deans of Basic and Applied Sciences, Liberal Arts, and Continuing Studies.

Second Bachelor's Degree

Candidates for a second bachelor's degree must meet the following requirements:

1. The first degree must have been awarded by an institution of higher learning.
2. A minimum of 30 semester hours of coursework must be completed at MTSU **after requirements have been met for the first bachelor's degree.**
3. All requirements for the major program in the new degree must be met, including a minimum of 9 upper-division hours taken at MTSU, and the entire major for the second bachelor's degree must be approved by the major department chair and by the dean whose college houses the program. Minors required by the major must include 3 hours of upper-division work taken at MTSU in each.
4. The General Studies requirements for the first degree will satisfy General Studies requirements for the second degree; however, the student must have completed 6 semester hours in American history as a requirement for the first degree or complete 6 semester hours from HIST 201, 202, and 366 at MTSU.
5. If the computer literacy requirement described on page 55, No. 14, was not met for the first degree, the requirement must be fulfilled for the second degree.
6. A 2.00 grade point average on all work attempted must be attained.
7. A 2.00 grade point average is required in the major pursued as a graduation requirement.
8. Students seeking a second bachelor's degree must complete an application for admission to upper division and pay all necessary fees for the second degree.
   NOTE: The Admissions Office does not evaluate transcripts of students who have already received a bachelor's degree.

Associate Degree

Associate in Applied Science in Law Enforcement

Requirements for the Associate in Applied Science in Law Enforcement (A.A.S.) degree include the completion of the curriculum listed on page 167 or approved substitutions.

Graduate Degrees

Information on graduate degrees available at MTSU may be found in the section on the College of Graduate Studies in this catalog and in the Graduate Catalog.

Transfer Students

The following guidelines determine the general degree requirements of transfer students.

1. If a transfer student has earned an associate degree, the student must meet the following general degree requirements:
   a. 9 quarter or 6 semester hours of English composition
   b. 12 quarter or 9 semester hours of humanities (to include at least 6 quarter or 3 semester hours of literature)
   c. 9 quarter or 6 semester hours of American history
   d. 12 quarter or 9 semester hours of natural/physical sciences/mathematics (to include at least one year of science and one course in mathematics)
   e. 3 quarter or 2 semester hours of physical education activities (to be as 3 one-quarter or 2 one-semester courses)
   NOTE: Students who have earned an associate degree from any college or university may meet the MTSU general degree requirements by completing the requirements listed above.
2. If a transfer student has not received an associate degree, the student will be treated like any other MTSU student and will have to meet the MTSU General Studies requirements as stated in the MTSU catalog under which the student chooses to graduate.

Computation of Grade Point Average for Checking Degree Requirements

Major Average—If a student has more courses in a major area than are actually required, only those courses specifically required for the major will be used to determine the required 2.00.

Minor Average—For those minors which require a 2.00 grade point average (GPA), only those courses specifically required for the minor will be used to determine the required 2.00.

Upper-Division—The 2.00 GPA is calculated for the "best" 48 upper-division hours.

Teacher Education—Guidelines for computation of grade point averages for admission to the teacher education program, for eligibility to student teaching, and for subject area endorsement may be obtained in the administrative offices of the College of Education and Behavioral Science, McWherter Learning Resources Center. Additional information can be found under Licensure of Teachers in the College of Education and Behavioral Science section.

Excessive Repeats—All attempts in excess of one are figured in all averages: upper division, major, minor, cumulative, etc.

Mass Communication Average—All College of Mass Communication courses in excess of the required 132 hours required for graduation are used to determine the cumulative GPA.

Basic/Developmental Courses—These courses are calculated into the cumulative GPA to determine retention; however, the basic/developmental courses do not count toward degree requirements and the grades are not used to determine the 2.00 GPA required for a degree.

Cumulative Average—The cumulative average includes all quality hours from all colleges excluding the first attempt of a repeated course.

High School Deficiency Courses—Courses used to complete specific high school deficiencies are not used to determine the 2.00 GPA required for a degree.

General Studies Requirements

A university education should be composed of both general and specific educational experiences. The specific experiences should emphasize the functions which particular students, but not all, will perform; they are specialized and vocationally-oriented experiences. The general education experiences should emphasize that which is common to all people, that which everyone should have in order to live as an aware and responsible member of a contemporary free society.

It is through the General Studies program that MTSU offers these latter experiences so that all graduates can attain the following objectives:

1. proficiency in oral and written communications and in basic mathematical skills;
2. ability to test their attitudes, values, and ideas in a rational manner and to use various methods of inquiry to increase their own knowledge and understanding;
3. broad and integrated knowledge of the natural sciences, the social sciences, and the humanities and fine arts;
4. an awareness of self in time and place and the inclination to be responsible citizens, capable of contributing positively to their society and to their own mental and physical well-being.

MTSU administers the American College Testing Service's COMP examination to students each semester to measure performance in relation to General Studies objectives. The test results are utilized by academic departments, the Committee on Admissions and Standards, the General Studies Committee, and academic administrators in an ongoing evaluation of the General Studies program.

Listed below are the requirements in General Studies which all candidates for baccalaureate degrees must meet regardless of the department or college in which they are pursuing a major. It is these requirements that are referred to as Area I-A and the like in the recommended and required programs listed in the departmental copy later in this catalog. If mitigating circumstances require a substitution for any specific course listed, such a substitution must have the approval of the academic dean of the college in which the student is pursuing a major.

All full-time, degree-seeking students should be enrolled in the appropriate General Studies English course and either 6 hours in General Studies or 3 hours in General Studies and 3 hours in their major until they have satisfied the University General Studies requirements.

Many academic majors require or recommend specific courses within the general studies area. Consult your major advisor about specific general studies requirements.

Area I: The Analysis, Organization, and Communication of Ideas
9 semester hours

A. A six-semester hour requirement in freshman composition is to be met as follows:
   1. Students with satisfactory scores on CEEB or CLEP will be given 3 hours of advanced standing credit for ENGL 111. Minimum placement scores are given in the section on Advanced Standing, page 33.
   2. Students with an Enhanced ACT composite score of 19 or greater **and** a score of 32 or higher on the English section of the Enhanced ACT will be given 6 hours of advanced standing credit for ENGL 111 and 112.
   3. Students with an Enhanced ACT Composite Score of 19 or greater and English score of 19-31 will take ENGL 111 and 112, 6 hours.
   4. Students whose Enhanced ACT English score is 18 or below or whose Enhanced ACT composite score is 18 or below must undergo further testing. See Developmental Studies, page 73.
   5. **If SAT scores are used:**
      a. Students whose SAT verbal scores are 450 or below must undergo further testing.
      b. Students whose SAT verbal scores are 460 through 700 are placed in ENGL 111 and 112 in sequence.
      c. Students whose SAT verbal scores are 710 or greater will be given credit for ENGL 111 and 112.

   NOTE: In the event that a student takes an examination for advanced placement credit for composition more than once, the most recent test score will determine the student's status in the freshman English program.

B. Students should choose one of the following courses to meet the remaining three-hour requirement in this Area:

   Foreign Language 111
   (substitution: Foreign Language 211 plus 212, 6 hours)

   JOUR 221 or RATV 221
   (substitution: JOUR/RATV 151 plus JOUR 271, 6 hours)

   PHIL 211

   SPEE 220 or 323
   (Students majoring in Interdisciplinary Studies, Early Childhood Education, or Special Education or minoring in Secondary Education may substitute SPEE 400.)

Area II: Humanities and Fine Art
9 semester hours

A. The 6 semester hours required in literature are to be met as follows:

   ENGL 211 plus ENGL 221 or 223 or 224 or HUM 261
   (Students must successfully complete ENGL 211 before enrolling in ENGL 221, 223, or 224.)

   NOTE: The 200-level English courses may not be taken simultaneously with the 100-level composition courses.

B. Students should choose one of the following courses to meet the remaining 3-hour requirement in this Area:

ART 290

HIST 171, 172, 191, or 192

MUHL 210
(substitution MUTH 111 and 112, 8 hours)

PHIL 201
(substitution: PHIL 215 plus 330, 6 hours)

SPEE 205 (Theatre)

The 12 hours of art and music required for the Interdisciplinary Studies major fulfills the II-B General Studies requirement.

Area III: Social and Behavioral Sciences
9 semester hours

A. Six semester hours must be chosen from these courses:

HIST 201, 202, 366 (3 credit hours each)
(HIST 201 is not a prerequisite for HIST 202; HIST 366 may be taken only by students with a standing of junior level or above)

B. Three semester hours must be chosen from these courses (each earns 3 credits):

AAS 210

ANTH 100 or ANTH 210

BMOM 200

ECON 241*

GEOG 200
(substitution: any two of the following regional geography courses: 340, 341, 342, 343, 345, 346, 347, 6 hours)

P S 150 or 122

PSY 141

SOC 101

WM S 210

***NOTE:** *College of Business majors must take ECON 241.*

Area IV: Natural Science and Mathematics
11 semester hours

A. An eight-semester hour requirement in natural science is to be met as follows:

BIOL 100, 4 hours
(substitution: BIOL 111 plus 112, 8 hours)

and either

GEOL 100, 4 hours
(substitution: GEOL 201 and 202)

or

SCI 100 (Physical Science), 4 hours
(substitution PHYS 231, 232, 233, 234 or PHYS 235, 236, 237, 238 or CHEM 111, 111L plus 112, 112L, or CHEM 121, 121L plus 122, 122L 8 hours)

B. The remaining three-hour requirement in this Area is to be met as follows:

MATH 300

or

one three-hour mathematics course which has as its prerequisite at least two years of high school algebra. MATH 110, 201, 401, and 402 will not satisfy this requirement.
NOTE: *College of Business students majoring in Accounting, Business Administration, Finance, Economics, Information Systems, Management or Marketing must complete MATH 243 and 344.*

Students will be required to complete a sequence of courses based on their high school mathematics as outlined below. This requirement is applicable to all freshmen entering MTSU for the first time and to those transfer students who do not hold an associate's degree from another Tennessee Board of Regents' school.

Unless the academic assessment placement test places an individual differently (see Developmental Studies, page 73), a student entering MTSU with:

1. two years of algebra and a mathematics Enhanced ACT greater than 25—(Math SAT greater than 530) or with senior advanced mathematics should take the appropriate mathematics courses for his/her major.
2. two years of algebra and a mathematics Enhanced ACT Assessment of 19-25—(Math SAT 440-530) should take MATH 300 after the freshman year or take MATH 141 or 121 and earn at least a C before taking other mathematics courses. Students preparing to become elementary school teachers should take MATH 110 and 201.
3. a mathematics Enhanced ACT less than 19—(Math SAT less than 440) must take an academic assessment placement test in mathematics for proper placement. (See Developmental Studies Program, page 73.)
4. one year of algebra must take DSM 085 before taking other mathematics courses.
5. no algebra must take DSM 080 and DSM 085 before taking other mathematics courses.

Area V: Health, Physical Development, and Recreation
4 semester hours

This requirement is to be met by either:

four semester hours of physical activity courses (only one activity course may be taken per semester for General Studies credit)

or

two semester hours of physical activity courses plus HLTH 310 (Health).

NOTE: *Two semesters of basic Military Science courses or Marching Band may be substituted for two courses of General Studies physical activity credit, but this substitution does not meet teacher licensure requirements. Students whose physical limitations prevent their full participation in the basic instructional program will be placed in activities commensurate with their abilities.*

How to Correct High School Deficiencies

Students admitted to MTSU with high school unit requirement deficiencies will be required to remove these deficiencies by taking the courses listed below and earning a grade of C or better. New freshman students must remove deficiencies within the first 64 hours of enrollment and transfer students within the first 30 hours of enrollment. Courses used to satisfy high school deficiencies cannot be used toward completion of specific degree requirements.

TBR Requirements	MTSU Courses Available	Exemption Examinations Available	Departments Offering Course/Exams	Procedures/ Special Conditions
English (4 units)	RSE 070 Basic Writing DSE 080 Developmental Writing	No	Developmental Studies	Placement in Writing and Algebra courses will will be determined by using an academic assessment placement test.
Algebra (2 units)	RSM 070 Basic Math DSM 080 Elementary Algebra DSM 085 Intermediate Algebra	No	Developmental Studies	See above
Geometry	DSM 090 Basic Geometry	No	Developmental Studies	
Natural/ Physical Science (2 units)	**Section A**			Students having no high school science must complete requirements for one course in Section A and one in Section B. A student lacking one unit of high school science will complete one course in Section A.
	GEOL 100 Introduction to Earth Science	No	Geography and Geology	
	SCI 100 Topics in Physical Science	No	Chemistry; Physics and Astronomy	
	Section B	(Local Test)		
	BIOL 111 General Biology	No	Biology	
	CHEM 111, 111L Introductory General Chemistry	No	Chemistry	
	PHYS 130 Discovering Physics	No	Physics and Astronomy	
Social Studies	GEOG 200 Introduction to Regional Geography	No	Geography and Geology	Students must complete one of the listed courses.
	HIST 171 or 172 Western Civilization	Yes (CLEP)	History	
	HIST 191 or 192 World Civilization	No	History	
History	HIST 201 or 202 American People	Yes (CLEP)	History	Students deficient in American History will take one of these courses.
Foreign Language (2 units) in same language	Courses 111 and 112 in French, German, Spanish, Latin, Japanese, Italian, and Russian	Yes (Dept. placement tests in French, German, and Spanish)	Foreign Languages and Literatures	Freshmen having one year of high school work will take an appropriate 112 course. Those with no language will take 111 and 112.
Visual/ Performing Arts	ART 290 Orientation to Art	No	Art	Those lacking secondary level credit must take one of these established courses.
	MUHL 210 Introduction to Music	No	Music	
	SPEE 205 Theatre Appreciation	No	Speech and Theatre	

CAMPUS LIFE

Classes and academic studies are the primary reasons the University exists, but the hours outside the classroom are important, too. The life of an MTSU student can be as varied and busy or as routine and calm as an individual chooses. Examples appear in this next section. Involvement takes many forms, from performing with a musical ensemble to serving on a Student Programming committee. Along with involvement opportunities, the services described also contribute to the quality of life at MTSU.

MIDDLE
TENNESSEE
STATE
UNIVERSITY

Division of Student Affairs

Recognizing that an integral part of the university experience and an individual student's personal development take place through activities outside the formal classroom setting, the Division of Student Affairs implements programs and services designed to complement the classroom experience and prepare students to be educated and productive members of society. The Division seeks to do this by providing opportunities to facilitate social, intellectual, physical, and emotional growth, assisting students to become actively involved in campus life, serving as an advocate for student concerns to the University community, and by encouraging an environment responsive to individual differences and which is representative of the diversity of MTSU's population.

The Division comprises two major components, each standing separately, but working together to realize the overall goals and purposes of the Student Affairs organization. These are Student Life and Student Services, with the various programs and services assigned according to the specific role they play in realizing the Division's objectives. The two are described in the copy following.

Student Life

The Student Life unit includes programs which provide students opportunities for involvement and expression, service to the community, and leadership development. Specific programs/services include:

Absence Notifications

If students know in advance that they will be unable to attend a particular class(es) for **more than one day**, every effort should be made to contact the professor of each class that will be missed. If emergency circumstances prevent contacting the professor or department, the student may contact the appropriate student life dean who will make the notification. An excused absence can only be authorized by the instructor in a particular class. In emergencies, students should contact the associate dean of student life, KUC 130, 898-2808.

Campus Recreation

The Campus Recreation Office, located in the Recreation Center, administers a comprehensive recreation program for MTSU students. Opportunities include participation in team or club sports, outdoor pursuits, fitness activities, aquatic programs, and leisure clinics. A wide variety of outdoor and other recreation equipment is available for checkout by students.

The Recreation Center, which opened in Fall 1995, provides students with a state-of-the-art facility. The Center includes six basketball/volleyball courts, six racquetball courts, an indoor track, an aerobics room, an 8,000-square-foot free weights area, cardiovascular machines, an indoor swimming pool, locker rooms, an indoor gym for soccer and roller hockey, a rock climbing wall, an outdoor pool, a child care area, an outdoor ropes course, and a sun deck with four sand volleyball courts adjacent. The Center is open seven days a week during the fall and spring semesters and the summer term. The Recreation Center closes during fall break, Thanksgiving holidays, Christmas holidays, and spring break. The schedule may be adjusted during other University holidays and for certain special University events. More information on programs or the Center may be obtained by contacting the Campus Recreation Office (898-2104).

Fraternities and Sororities

Greek organizations at MTSU are self-governed by three separate bodies. The Interfraternity Council is composed of eleven member fraternities of the National Interfraternity Conference; the Panhellenic Council consists of six member chapters of the National Panhellenic Conference sororities; the National Pan-Hellenic Council governs the affairs of eight historically African-American fraternities and sororities.

The director of Greek Life counsels all three governing bodies and also coordinates programs which facilitate the development of leadership skills, social acumen, and superior scholarship within the Greek community.

Housing and Residential Life

MTSU currently provides living spaces for over 3,800 students. Students living on campus are part of a vital living-learning community which emphasizes academic excellence; interaction with students, faculty, and staff; and active involvement in the campus community. Each residence hall and apartment complex is staffed with trained student resident assistants who are supervised by professional area coordinators. Many amenities are made available to residents including cable television, computer labs (in selected buildings), and 24-hour desk services (also in selected buildings). Apartments which can accommodate students with families are also located on campus. Students are encouraged to make application for housing as early as possible. More detailed information with regard to fees, regulations, and types of housing can be found on pages 44-47.

Orientation

Orientation for freshmen and undergraduate transfer students is provided during the summer prior to matriculation. Several sessions are offered to accommodate individual schedules. The programs allow new students to meet an academic advisor, participate in pre-selection of courses, and become familiar with campus activities and services. Current topics of special concern to college students are also addressed. All new students and their parents or spouses are encouraged to attend.

Questions concerning orientation should be directed to the director of new student orientation (CUSTOMS), Keathley University Center 122, (615) 898-5533.

Student Conduct

MTSU students are citizens of the state, local, and university communities and are expected to observe acceptable standards of conduct for each community. Conduct which adversely affects MTSU's pursuit of its educational objectives, which violates or shows a disregard for the rights of others in the community, or which endangers citizens of the community or their property is subject to disciplinary sanction. MTSU has developed a student judicial system which emphasizes personal accountability for misconduct but is also fair and consistent with students' rights to due process. In addition, MTSU offers mediation as an alternative form of conflict resolution that assists individuals in developing their own solutions to conflict situations. More detailed information with regard to student conduct may be found in the *MTSU Student Handbook* or by contacting the assistant dean for judicial affairs and mediation services, Keathley University Center 120.

Student Government Association

The Student Government Association (SGA) at Middle Tennessee State University represents the mechanism through which students are afforded the opportunity to participate in University governance by ensuring an exchange of ideas and opinions between the student body and the administration. The purposes of SGA are to promote student welfare, provide training in the general principles of the democratic process, and to prepare students to become responsible citizens. SGA actively seeks to protect the rights of students and to improve the quality of student life. Students are encouraged to become involved in SGA activities and to contact the SGA Office with any concerns arising from their enrollment at MTSU.

Student Information

The Keathley University Center Office (KUC 304) maintains an information system on currently enrolled students. Persons seeking assistance locating a particular student should call Student Information at ext. 2782.

Student Insurance

Students are urged to carry health insurance to cover illnesses and accidents that may occur while they are enrolled since coverage is not provided by the university. Information about the Student Accident and Sickness Insurance Plan, available at low cost, can be obtained at registration or in the Keathley University Center Office 304.

Student Organizations

MTSU students with common interests are encouraged to join together and realize the social and professional benefits to be gained by the exchange of ideas and development of interpersonal relations through participation in student organizations. Registered student organizations have access to the use of University facilities and may apply for funding from the Student Activity Fee Committee. The coordinator of student organizations and community service, Keathley University Center 306B, is available to answer questions and facilitate formation and registration of new organizations. The Office of Student Organizations and Community Service can provide a complete listing of currently registered student organizations.

Student Programming

Student Programming provides the administrative framework for extracurricular activities promoted by Special Events. The primary purpose of Special Events is to plan and present activities which serve the cultural, educational, and social interests of the student body and, when possible, the general community. Special Events also provides those students who are directly involved in its programs the opportunity to exemplify creative thinking, practice good public relations, develop leadership skills, and gain valuable hands-on experiences.

Special Events functions are run entirely by students through five special interest programming groups. Freshmen and new students are eligible and encouraged to join any one of the groups. Membership continues from year to year as long as the student is at MTSU. The Special Events groups are

1. Ideas and Issues which brings to campus well-known, thought-provoking speakers;
2. Fine Arts which sponsors outstanding performers in the fields of dance, drama, and music;
3. Films which is responsible for selecting, booking, and showing full-length movies;

4. Concerts which brings to MTSU some of the best-known professional entertainers in concert and up-and-coming artists in showcase and noon show series.
5. Production which is responsible for all Special Events technical needs including sound, lights, and staging.

Students who are interested in joining Special Events should come by the Office of Student Programming located in Keathley University Center 308 and complete an application. Additional information may be obtained by coming to the office or by calling (615) 898-2551.

The Ticket Office also is supervised through the Office of Student Programming and is located in the northeast corner of Murphy Center. MTSU students are admitted free to all regularly scheduled home games. More information about all MTSU athletic ticket sales may be obtained by calling (615) 898-2103.

Student Publications

Student Publications publishes the campus newspaper, *Sidelines*; the *Midlander* yearbook; and the magazine, *Collage*. These publications are staffed by students and provide experiences in writing, editing, design, photography, advertising, and public relations. All students are encouraged to join the staffs. Publication production is under the general management of the University's standing committee on student publications and the student publications director, but decisions on content are made by student editors.

Sidelines is distributed free on campus twice weekly during the fall and spring semesters and once each week during the summer. A new editor is chosen by the Student Publications Committee each semester. *Midlander* is the most permanent and complete historical record of the people, events, and environment of MTSU in a given year. Although the yearbook is distributed in the succeeding fall, the production process goes on year round. The editor of the yearbook is chosen each spring and serves for one year. The yearbook is available for purchase at fall and spring registration and during the fall semester through the *Midlander* office, James Union Building 306. *Collage* serves as an outlet for creativity of all varieties. Published each semester, the magazine may include poetry, fiction and non-fiction, original art, and photography by students. An editor is chosen in the spring and serves for one year.

Many staff members receive a small stipend for their work on the publications in addition to valuable preprofessional experience. Applications for the publications staff are available in the Student Publications Office, James Union Building 306.

Withdrawals

Students finding it necessary to withdraw (completely separate) from the University after having selected classes for a future term should use the Telephone Response at Middle (TRAM), (615) 898-2000, or WebMT, http://www.mtsu.edu, to drop all classes. A student may also initiate the official withdrawal process in Keathley University Center 130. Consult the class schedule book for each term to determine whether withdrawal should be accomplished by TRAM or WebMT or through the associate dean of Student Life Office. Once classes have begun for the summer term, withdrawal for that summer term cannot be accomplished via TRAM or WebMT. Additional information with regard to this procedure is detailed on page 54 under Academic Regulations.

NOTE: *In addition to the specific services listed above, the Student Life deans provide assistance with student problems and should be consulted when information not otherwise available is needed. The offices of the Student Life deans are located on the first floor of Keathley University Center.*

Student Services

The Student Services unit of the Division of Student Affairs provides services intended to assist students in increasing the likelihood of successfully completing their academic programs by meeting and supporting primary student needs. These services include

Adult Services Center

The Adult Services Center serves as an information and referral center for students, especially for those returning to formal studies or beginning college for the first time as adult learners. The Center is an advocate for the needs of adult learners. Workshops designed to help the adult learner succeed in re-entering college are offered. Located in Keathley University Center 320, the Center helps make available the services of various other university offices to students on campus for classes at hours other than regular business hours. Students may pick up a variety of forms so that their concerns may be forwarded to the appropriate offices for action.

The Center also provides a place to meet and share ideas with other adult learners. A student organization called OWLS (Older Wiser Learners) is coordinated through the Center. Additional information is available by calling (615) 898-5989.

Counseling and Testing

The three-fold mission of the Counseling and Testing Center is to provide for currently enrolled students (1) career and vocational testing and counseling; (2) academic counseling for undeclared majors; and (3) personal support counseling.

Career and vocational questions may be addressed through academic testing, career testing, and/or one-on-one counseling for personal insight.

Academic counseling for undeclared majors may include a simple visit with a counselor prior to class registration to review individual progress on core course requirements. It may also include a career counseling plan to explore various career possibilities with a minimal duplication of course hours.

Personal support counseling offers a safe place and support for students who are having difficulties because of personal problems; external pressures; or crisis such as depression, addictions, or grief. Support counseling is a tool towards healthy academic functioning. It may simply be a "listening ear" or include professional assessment and referrals for community support, medical needs, or long-term therapy.

The Counseling and Testing Center seeks to work with faculty and students to plan and achieve both the educational goals of the institution and the personal and vocational goals of the individual student. Students desiring any of the services are urged to contact the Center, located at Keathley University Center 329.

Disabled Student Services

Disabled Student Services is the coordinating body which distributes information concerning services available to students with disabilities. The office acts as an advocate for disabled students at the University, surveying the needs of these students and developing programs to meet those needs. Information and assistance can be obtained by calling (615) 898-2783 or visiting the office located in Keathley University Center 120.

MTSU's ADA/504 coordinator is Docia Rudley, 116 Cope Administration Building, (615) 898-2025.

Financial Aid

Financial Aid information is detailed earlier in this catalog.

Multicultural Affairs

The Office of Multicultural Affairs provides a welcoming and supportive environment for minority students. The office also serves as a link between ethnic minority students and the University community. The mission of the Office of Multicultural Affairs is to provide support services for students; to assist in achievement of life goals; and to increase academic, social, cultural, moral, and physical development. In addition, the director of Multicultural Affairs is an advocate for the needs of the ethnic minority student population. Services offered include registration assistance, financial aid, counseling, academic advising, tutoring, mentoring, and programming in multicultural awareness. More information may be obtained by calling (615) 898-2987 or writing to MTSU P.O. Box 88, Murfreesboro, TN 37132.

Placement and Student Employment Center

The University provides a year-round centralized placement service for its students and alumni through the Placement and Student Employment Center located in Keathley University Center 328. The program is designed to assist prospective graduates and alumni in securing career positions. Each year employers from business, industry, government, and education conduct on-campus interviews with students in the Placement Center. Other placement services include the development of reference files for credentials, career job listings, part-time and summer employment opportunities, and the career library.

Students seeking part-time jobs in the community may apply through the Student Employment Center. Referrals to prospective employers will be made by the Center.

Student Health Services

Student Health Services, located in McFarland Health Services Building, accommodates students on an outpatient basis only. Students must be enrolled at the time they seek service to be eligible for care according to the provisions listed below:

1. Consultation service for individual problems and the treatment of minor illnesses and injuries by the Health Services personnel are available during the periods 8:00 a.m.-4:00 p.m. Monday through Friday.
2. All information resulting from care, treatment, and diagnosis involving Health Services personnel and students is confidential unless the best interests of the individual and/or the campus community are jeopardized.
3. The University will not be responsible for charges for any professional services other than those rendered by University Health Services personnel. If a student seeks the services of the university physician or any other physician in conjunction with the physician's private practice, the University shall have no financial responsibility and the student should expect to pay the usual fee for any services rendered.
4. At no time will medical treatment be given at University expense in private homes or to anyone while off the campus. Professional charges for these services must be borne by the student.
5. Local resources available nearby include the Rutherford County Health Department, Middle Tennessee Medical Center, including Emergency Room Services, and walk-in medical clinics.

Women's Center

The June Anderson Women's Center (JAWC) has been serving women at MTSU since 1977. Support groups, workshops, and programs for women are offered during the academic year. A free legal clinic is open the last Thursday of each month. The office, located on the main floor of the James Union Building, provides a safe space for women to meet together or use the JAWC library. A resource and referral file includes information on financial aid for women, housing, and community legal, health, and mental health services.

The annual Women's Leadership Conference for college and university women students is coordinated through the JAWC and the Women's Studies Program each spring. Students are welcome to attend and to volunteer for this and other Women's Center activities.

During Spring Semester, the Women's Center, working collaboratively with the National Women's History Month Committee, sponsors events, programs, and films which bring together the campus and community in a celebration of women's contributions to culture and society.

A full-time professional counselor is available at the Women's Center for crisis intervention and personal counseling for students dealing with women-identified issues and concerns. Confidentiality is assured. Support groups on body image and surviving sexual assault are regularly offered. The counselor may be contacted at (615) 898-5725.

Additional information about the Women's Center's activities or services is available by calling (615) 898-2193 or via the Internet.

Beyond the Classroom

A number of student activities grow out of academic departments and enhance classroom work by providing opportunities for practical experience and training. Interested students should contact the chair of the appropriate department for information on requirements for participation and on the availability of credit through such activities. Included in these departmentally related activities are

Department of Music

The Band of Blue, MTSU's marching band; Symphonic Band; Wind Ensemble; Chamber Choir; Meister Singers; Schola Cantorum; Women's Chorus; MTSU Singers; Opera Workshop; MTSU Symphonic Orchestra; String Orchestra; Jazz Ensembles; Percussion Ensembles; Commercial Music Ensemble; University Chorus; Salsa Bands; Jazz Combos; Mixed Chamber Ensembles; Chamber Brass Ensemble; Guitar Chamber Ensemble; Piano Chamber Ensemble; String Chamber Ensemble; and Woodwind Chamber Ensemble are all organizations of student performers. Each ensemble welcomes qualified non-music majors and performs frequently throughout the year. Many travel to perform regionally and nationally.

Department of Speech and Theatre

University Theatre—Five theatrical productions provide an opportunity to experience all aspects of theatre—performance, design, technology, children's theatre, and theatre in education.

Debate—Some 20 competitive tournaments are scheduled with universities throughout the nation from September through March. Annual on-campus public debates are also sponsored by MTSU Debate. The MTSU Debate program is open to all students. No previous debate experience is required.

College of Mass Communication

Two radio stations and a community cable television channel provide opportunities for students to gain experience and knowledge about the mass media and communications:

WMOT, the University's National Public Radio affiliate, is a professionally managed public service radio station featuring jazz, news, and information programming. Located at 89.5 on the FM dial, WMOT-FM also provides enrichment opportunities for selected students majoring in Mass Communication.

WMTS is a student-operated alternative radio station, located at 88.3 on the FM dial, which carries an eclectic mix of music, news, and student information.

Channel 10, the University student-operated cable channel, carries sports, news, instructional, and entertainment programming.

Alumni Association

The MTSU National Alumni Association encourages interaction between Middle Tennessee State University and the extended University family of alumni, students, parents, and friends through a variety of activities and programs. Through the promotion and development of geographical alumni chapters and reunion programs, the Alumni Association stimulates and enhances communication for MTSU. Events and activities in conjunction with University athletic and fine arts programs, especially at Homecoming, are held to offer continuing support and interaction. Establishing and promoting scholarships is an on-going endeavor of the Alumni Association as well as the maintenance of the alumni information database and development of periodic alumni directories. The Alumni Relations Office is located in the Alumni Center, one of the four original buildings on campus.

Athletics

The Middle Tennessee State University athletics program strives for excellence in the development of its student-athletes and the quality of its several sports teams. The program supports the academic, athletic, and social education of its student-athletes by encouraging them to develop the values of respect for themselves and others and to take pride in achievement and making positive contributions to the communities in which they live.

MTSU is committed to quality athletics programs that bring the campus community together and promote a sense of pride and tradition in academic and athletic excellence. The athletics program also brings the university regional and national recognition and provides a link between the university, its alumni, and the community at large. It helps to gain alumni and public support for all aspects of the university. The athletics program provides quality faculty and leadership to campus programs. It gives students, faculty, and alumni opportunities for innovative public service activities, such as the "Reading Raider" program of recent years which has worked with area elementary schools to promote reading skills among their students. It uses athletic, financial, and physical resources to maintain and develop athletic programs to accomplish the mission of the University.

The University is a member of the Ohio Valley Conference and National Collegiate Athletic Association, competing in. NCAA Division I in all sports except football which moved to I-A in 1999 and will be an independent team. All other sports teams will continue to compete within the OVC. MTSU is represented annually in athletics by baseball, basketball, cross country, football, golf, tennis, indoor track, and outdoor track for men and by basketball, cross-country, soccer, softball, tennis, indoor track, outdoor track, and volleyball for women.

Both full-time and part-time students are admitted to all home football, basketball, volleyball, and baseball games by presenting their valid ID cards at the gate. Athletic events in other sports require no admission and are open to the public and campus community. The ticket office is located in Murphy Center on the track level. Additional ticket information can be obtained by phoning 1-888-MTSU-YES.

MTSU's Title IX coordinator is Forrestine Williams, 220 Cope Administration Building, (615) 898-2185.

ACADEMIC LIFE

Arranged alphabetically under the five colleges are details of each academic department including for most the requirements for majors, degrees available, recommended programs, and course descriptions.

Also included in the following section are

African-American Studies Program

Bonnie Shipp, Director
Peck Hall 346

The African-American Studies Program offers an undergraduate interdisciplinary minor. The primary objective is to provide students an opportunity to examine the multi-dimensional, multicultural experiences of African Americans and their responses to the blending of an African heritage and American culture.

The person who completes the African-American studies minor will have enlarged perspectives and increased skills and marketability for jobs in the fields of education, criminal justice, social work, governmental departments and agencies, and in the private sector.

The general requirements for an interdisciplinary minor are listed under Interdisciplinary Minors, page 69. Twenty-one semester credit hours including 12 hours of foundation courses are required for the minor.

AAS	210	Introduction to African-American Studies
AAS/ENGL	223	The Contemporary World in Literature: Survey of Afro-American Literature
AAS/PSY	325	Perspectives on Black Psychology
AAS/HIST	151	Survey of African-American History and Culture to 1865 OR
AAS/HIST	152	Survey of African-American History and Culture Since 1865

Nine (9) semester hours of electives from the following:

AAS	460	Interdisciplinary Seminar in African-American Studies
AAS	499	Independent Study in African-American Studies
AAS/ANTH	441	African Cultures
AAS/ENGL	334	The Black Experience in Modern Afro-American Literature
AAS/GEOG	347	Geography of Africa
AAS/HIST	151	Survey of African-American History and Culture to 1865
AAS/HIST	152	Survey of African-American History and Culture Since 1865
AAS/HIST	425	Mexico and the Caribbean
AAS/HIST	450	Sub-Saharan Africa
AAS/HIST	470	African-American Social and Intellectual History
AAS/MUHL	309	History of Jazz
AAS/P S	318	African Politics
AAS/SOC	420	African-American Film, Theatre, and Television Images
AAS/SPEE	456	Intercultural Communication
AAS/S W	320	Cultural Diversity
SOC	424	Race and Ethnic Relations

Courses of Related Interest

Courses considered consistent with the goals and objectives of the African-American Studies program are designated as "of related interest." However, African-American Studies minors **MAY NOT** use these courses towards the minor without prior approval from the program's director.

ECON	447	Economic Development of the Third World
HIST	378	Topics in African-American History
HIST	430A	America Divided: Race, Class, and Gender
PSY	472	Multicultural Perspectives in Psychology and Education

Courses in African-American Studies [AAS]

210 Introduction to African-American Studies. Three credits. Introductory interdisciplinary survey course which examines the African-American experience from enslavement through the present; social, religious, political, and cultural interactions evolving from that experience.

460 Interdisciplinary Seminar in African-American Studies. Three credits. Selected topics, issues, and problems in the African and African-American experience. Course emphasis on primary source materials, critical reading, and critical analysis. Topics will vary. **This course may not be repeated for additional credit hours in the minor.**

499 Independent Study in African-American Studies. Three credits. Allows the examination of a specific topic within the study of Africa, the Caribbean, or America. Student conducts research and confers regularly with the instructor. Work must draw upon theories and methods applicable to African-American Studies. See the program director for guidelines. **This course may not be repeated for additional credit hours in the minor.**

Aging Studies Program

Ron Aday, Director
Cason-Kennedy Nursing Building 249

The interdisciplinary minor in Aging Studies is designed to meet the needs of students interested in pursuing a career working with or for the older adult population. The minor provides students the opportunity to examine the biological, psychological, sociological, and cultural perspectives which influence the status of the aging individual in society. Students who complete the Aging Studies minor will be exposed to the basic social policies and personal skills required for working effectively with older persons.

Program Requirements

The minor requires the successful completion of 18 semester hours. All students are required to take A S 260. The remaining 15 hours may be selected from various departmental courses that have been approved. The general requirement for an interdisciplinary minor is that students may not take more than six hours from a single department. To strengthen research or applied skills, students are encouraged to complete either A S 480 or A S 490.

Interdisciplinary

A S	260	Introduction to Aging Studies
A S	403	Topics in Gerontology
A S	480	Special Projects
A S	490	Practicum

Departmental

CDFS	439	Families in Later Life
N FS	421	Nutrition in Aging
PSY	461	Adult Psychology and Aging
PSY	463	Death and Dying
REC	338	Introduction to Recreation for Persons With a Disability
REC	447	Leisure and Aging
SOC	402	Sociology of Aging
S W	443	Social Work with the Terminally Ill
SOC	404	Health Care Delivery Issues
SOC	408	Group Work with the Elderly
SOC	409	Health Care Management
SPEE	453	Speech, Language, and Auditory Problems of the Aged

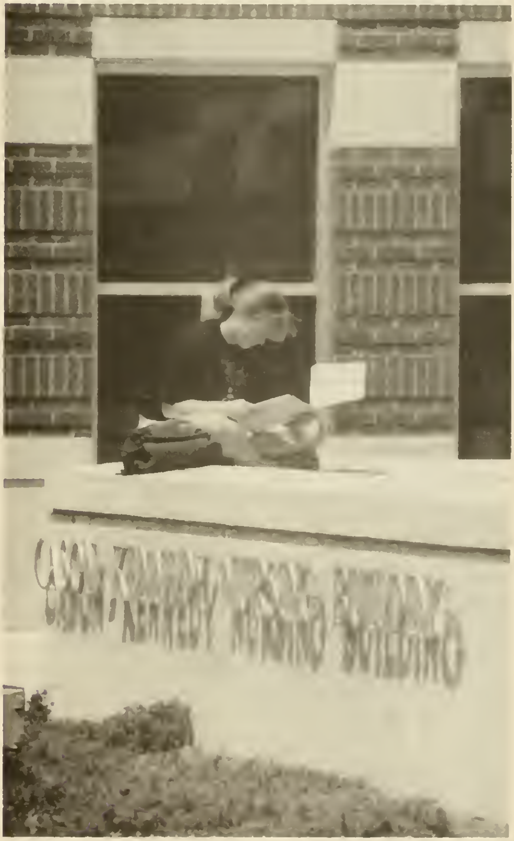
Courses in Aging Studies [A S]

260 **Introduction to Aging Studies.** Three credits. (Same as SOC 260.) Basic concepts, overview of the field, illustrations of problems, and applications for an aging America.

403 **Topics in Gerontology.** Three credits. (Same as SOC 403.) An opportunity to integrate gerontological theory and research techniques with the practical problems of older persons.

480 **Special Projects.** One to six credits. (Same as SOC 480.) Field experiences or reading courses through which special interests or needs of the student may be pursued under individual supervision. No more than three hours may be used in the major. Arrangements must be made with an instructor prior to registration.

490 **Practicum.** Three to six credits. Prerequisites: A S 260 plus six hours of Aging Studies electives and senior standing. Student is placed in an agency setting on a contractual basis. Application must be made the preceding semester.



Global Studies Program

Anne T. Sloan, Director
Peck Hall 252

The objectives of this interdisciplinary minor are to prepare students to make effective decisions as citizens of an interconnected world, induce global perspectives in students as they pursue various academic majors, and increase the academic opportunities for undergraduate students to study and learn about other cultures in relation to their own.

Requirements

Twenty-one semester credit hours are required for the minor. The requirements include the three-hour introductory course GS 201 and the senior seminar GS 499. Students will be required to take one course beyond the University foreign language requirement and will be required to fulfill a field experience requirement (see the Global Studies advisor).

The remaining fifteen semester credit hours will be selected from any of the courses that have been approved for inclusion in the minor. Students may take only two courses in a single discipline. Students should see the Global Studies program advisor to assist in the selection of these courses.

Upon entry into the program, students contact the Global Studies director to be assigned a global studies minor advisor. The advisor will recommend a course of study for the student after assessing interests and career goals.

Interdisciplinary

GS 201 Introduction to Cross-Cultural Experiences (required)

SPEE	456	Intercultural Communication

Courses in Global Studies [GS]

201 **Introduction to Cross-Cultural Experiences.** Three credits. Required of all Global Studies minors. Establishes a broad-based foundation for understanding perspectives and values in a culture other than one's own. Topics may include inter-cultural communications, verbal and non-verbal interaction, psychology of inter-cultural contact, cross-cultural behavior concepts, and ethnocentrism and geocentrism. This course will be offered on campus as well as in the field.

301 **Field Experiences and Study in Another Culture.** One to twelve credits. Prerequisite: GS 201 for all Global Study minors. Planned study on a specified topic or discipline in a foreign country or another culture. May be preceded by classroom preview and concluded by a time of evaluation; may be in the form of independent study or academic coursework.

499 **Senior Seminar.** Three credits. Culmination of Global Studies minor requiring integration and demonstration skills and sensitivities necessary to function in a multicultural environment.

Women's Studies Program

Jackie Eller, Director
Peck Hall 109B

The Women's Studies minor is designed to inform and enlighten students about the lives, history, socialization, and culture of women. It also promotes scholarly research about women and discussion of women's goals, relationships, challenges, attitudes, and achievements.

Program Requirements

The minor requires 18 semester hours within an interdisciplinary structure. All students pursuing the minor are required to take WM S 210. The remaining 15 hours may be selected from the courses listed below, but students may apply no more than two non-Women's Studies courses from a single department toward the minor.

Interdisciplinary

WM S	210	Introductory Women's Studies

Students should choose WM S 210 as part of the General Studies requirement under Area III-B, Social and Behavioral Sciences.

WM S	250	Women's Leadership and Self Empowerment
WM S	300	Women's Leadership Conference Practicum A
WM S	301	Women's Leadership Conference Practicum B
WM S	420	Symposium in Women's Studies
WM S	490	Independent Studies

SOC	351	Gender and Relationships
SOC	403	Topics in Gerontology: Women and Aging
SPEE	306	Women in Theatre

Courses in Women's Studies [WM S]

210 **Introductory Women's Studies.** Three credits. A variety of disciplinary approaches to the study of women and gender. **Required of all Women's Studies minors.**

250 **Women's Leadership and Self Empowerment.** Three credits. An exploration of the concepts of leadership and followership through historical, contemporary, and personal perspectives as they apply to women. Provides an opportunity to examine, evaluate, and enhance personal leadership skills. WM S 210 is recommended as a prerequisite, but not required.

300 **Women's Leadership Conference Practicum A.** Three credits. Prerequisites: WM S 210 and permission of instructor. WM S 250 recommended but not required. Theory and concepts of women's leadership through participation in major women's conference. Provides an opportunity to engage in creative planning, decision-making, collaborative and experiential learning, and to assume significant responsibility for conference related to women's issues. No more than 6 hours of practicum and independent study may count toward the Women's Studies minor.

301 **Women's Leadership Conference Practicum B.** Three credits. Prerequisite: WM S 210, 300, and permission of instructor. WM S 250 recommended but not required. Theory and concepts of women's leadership through participation in major women's conference. Provides an opportunity to engage in creative planning, decision-making, collaborative and experiential learning, and to assume significant responsibility for conference related to women's issues.

420 **A-Z Symposium in Women's Studies.** Three credits. A variable content course highlighting contributions of women in various fields and disciplines and exploring special problems which may be encountered by women.

490 **Independent Studies.** Three credits. Prerequisite: Permission of instructor. A variable-content course examining a topic within the study of women and gender not covered in depth in other Women's Studies courses. Student conducts research and confers regularly with the instructor and the Women's Studies Program Independent Studies Committee about papers or projects. **May be taken for credit no more than twice.**

University Honors College

John Paul Montgomery, Dean
Peck Hall 106

The Honors College program is designed with the needs of the superior student in mind. It is a university-wide program, leading to a degree with University Honors. Emphasis is on small classes, excellence of instruction, and interaction between students and professors.

Entering freshmen are eligible to participate in the Honors College if they attain a minimum ACT composite score of 26, or if they have a high school grade point average of 3.50 and an ACT composite score of at least 20. Subject to TBR approval, Honors College entrance requirements change as of January 1, 2000. After this date, entering freshmen must have a minimum high school GPA of 3.00 and a 26 composite score on the ACT or have at least a 3.50 GPA and a 22 composite ACT score. Returning MTSU and transfer students must have a cumulative GPA of 3.00 to enroll in Honors classes.

Participation in the MTSU Honors College does not afford students an automatic waiver of out-of-state tuition.

Graduation Requirements

To graduate from the College of University Honors, a student must

1. complete a minimum of 18 hours of lower-division Honors coursework;
2. complete a minimum of 8 hours of upper-division Honors coursework;
3. complete a minimum of 6 hours interdisciplinary coursework (additional hours of interdisciplinary course hours may substitute for upper-division hours);
4. complete the Honors Thesis Tutorial, U H 490H, for 1 hour credit;
5. complete the Honors Thesis, an independent research or creative project, for at least 3 hours credit;
6. have a minimum 3.25 GPA;
7. file an Intent to Graduate with University Honors form no later than the beginning of the semester of graduation.

Recognition

Students who graduate with University Honors

1. receive a certificate upon completion of 18 hours lower-division Honors coursework;
2. have all Honors coursework designated on their transcripts;
3. receive a certificate of graduation from the College of University Honors;
4. wear special academic regalia at graduation;
5. receive a beautiful University Honors College medallion.

Departmental Honors Offerings

Honors sections are offered in the following departments:

Accounting
Aerospace
Art
Biology
Business Education, Marketing Education, and Office Management
Chemistry
Computer Information Systems
Criminal Justice
Economics and Finance
Engineering Technology and Industrial Studies
English
Foreign Languages and Literatures
Geography and Geology
History
HPERS
Journalism
Management and Marketing
Mathematical Sciences
Music
Philosophy
Physics and Astronomy
Political Science
Psychology
Radio-TV/Photography
Recording Industry
Sociology and Anthropology
Social Work
Speech and Theatre

Honors courses are listed each semester in the schedule book under University Honors and are cross listed with departmental offerings. All courses designated for Honors carry the code letter H (for example, HIST 201H). Honors students may receive Honors credit in non-Honors upper-division courses under special circumstances (see H-Option guidelines).

The Honors Learning and Living Center

University Housing and Residential Life and the Honors College have created the Honors Living and Learning Center, a total learning environment that intersects the traditional classroom and the residential experience. Conveniently located next to the new library, Wood and Felder halls are connected by a spacious lobby, study room, Honors classroom, and computer lab. Honors students who enroll in at least one three-hour Honors course per semester qualify for residency with no additional cost.

Courses in University Honors [U H]

300H University Honors Lecture Series. One credit. A series of weekly one-hour lectures designed to stimulate thought and broaden the student's knowledge in a variety of fields. May be repeated for up to 3 hours credit. Pass/Fail.

350H Junior Interdisciplinary Seminar. Three credits. (May be taken more than one time as topics change.) Introduces students to the political, social, economic, scientific, artistic, and/or humanistic aspects of culture, using an interdisciplinary approach. See class schedule for current semester's topic.

460H Senior Interdisciplinary Seminar. Three credits. (May be taken more than once as topics change.) Examines humanistic ideas. Reading materials drawn from literature, history, philosophy, science, art, and/or any other areas relevant to the semester topic. See class schedule for current semester's topic.

490H Honors Thesis Tutorial. One credit. Designed to guide students and their advisors in the completion of an Honors thesis. Specific objectives include choosing and narrowing an appropriate topic, collecting a working bibliography, preliminary reading, and writing a thesis proposal. Pass/Fail.

495H Honors Independent Research. Three to nine credits. (However, only 3 credit hours may be counted toward the 36-hour requirement.) Interdisciplinary research for the advanced Honors student. Research proposals must be approved by the Honors Council the semester prior to the study.

Developmental Studies Program

Carol Bader, Chair
Peck Hall 217

Alley, Anton, Badley, Brien, Clark, Cleveland, Dawson, Donnell, Dooley, Fisher, Hardison, Harrison, Hatfield, Hensley, Higgs, Hopper, C. Hunt, D. Hunt, Lewis, Lucas, McDaniel, Otto, Otts, Meadows, Ross, Sundeen, Templeton, Tharp, Williams, Womack

The program in developmental studies is designed to serve the needs of students who are underprepared to enter the regular college curriculum. The purpose of the program is to assist students in achieving a level of academic competence that will enable them to work successfully in college-level courses.

Academic Assessment Placement Testing

All freshman applicants who have ACT composite or subscores of 18 or below or who are 21 years of age or older on the first day of classes of their first term are required to take an academic assessment placement test as part of their admissions requirements. Students 21 years of age or older take the entire placement exam unless they elect to present ACT scores posted within three years prior to the first day of the first term of enrollment. Scores older than three years are not valid. Students under 21 whose ACT composite score is 18 or lower must complete a reading comprehension test. Students under 21 whose ACT mathematics subscore is 18 or lower must take the appropriate mathematics tests as determined by the level of high school preparation in mathematics. Students under 21 whose ACT English subscore is 18 or lower must complete a writing exam.

**NOTE: Students with composite SAT scores of 880 or below must take the reading assessment exam; students with Verbal SAT scores of 450 or below must write the English portion of the exam for placement in the appropriate writing course; and students with mathematics SAT scores of 440 or below must take the mathematics portions of the exam for correct math placement.*

Transfer students who have fewer than 60 semester hours of college-level credit and who have not earned college-level algebra-based mathematics or English credits must undergo assessment in the appropriate area(s).

Students admitted as Adult Special who have not completed the first college-level course in English or algebra-based mathematics must undergo assessment in the appropriate subject area and must complete courses indicated by test placement prior to enrolling in the respective college-level English or mathematics course. Students may not enroll in any college-level course which has prerequisites of developmental math and/or writing.

Students who, on the basis of the ACT score(s), are not required by the institution to undergo assessment but who later show deficiency in English, mathematics, or reading must undergo assessment and placement. Such students shall not be allowed to continue in a college-level course requiring subject area competencies as prerequisites and must instead enroll in the appropriate Developmental Studies course.

Students who consider themselves inadequately prepared to pursue a college-level course may request assessment to determine whether they need R/D English, mathematics, or reading courses. They must complete the appropriate subject area pre-test and must be determined to need remediation before placement. The decision to permit the student to enroll in any R/D course is an institutional prerogative with placement decision made by the program director.

Students admitted with high school deficiencies in algebra or English may remove these deficiencies by (1) scoring at college course placement levels and thereby demonstrating competency, (2) completing R/D courses indicated by exam placement, or (3) scoring 26 or above on the ACT composite.

The assessment exam is administered on several dates during the summer and just before registration for the Fall, Spring, and Summer semesters. On the basis of their test scores, students are placed in basic, developmental, or college-level courses.

Study skills course placement is required for either (1) students who are placed in at least two subject areas at the basic level or (2) students who are placed in three subject areas including either basic or developmental levels. Beyond this mandatory placement, students with at least one developmental studies course have the option to elect placement in Study Skills. Study Skills course enrollment is limited to students in these categories.

Grades

In order to pass basic and developmental courses, students must earn a grade of C or better. Students are placed on academic suspension when they attempt a course twice yet do not pass it. Grades of W and F count as unsuccessful attempts in a course. Grades of I and WD are deemed legitimate exceptions to the two-attempt rule. The WD grade is assigned only in extremely extenuating circumstances and with the approval of the chair. The grade of D is not assigned. After exhausting the appeals process, suspended students must wait one semester (excluding summer) before reapplying for admission. Basic and developmental courses are awarded institutional credit which does not count toward the hours required for an undergraduate degree. Developmental course grades are not used in the computation of the 2.00 GPA required for a bachelor's degree or for the required GPA for admission to teacher education. Developmental course grades are used to compute a student's overall grade point average.

Enrollment

Students admitted into the Developmental Studies program must be continuously enrolled in the correct course(s) until they complete the program. Those failing developmental studies courses must retake the courses in the next semester they enroll. They may not drop a developmental course without approval of the chair of the Developmental Studies Department. Students are expected to attend all class sessions. Two absences in a two-day-a-week class or three absences in a three-day-a-week or four-day-a-week class ordinarily will result in failure.

Students placed in four basic and/or developmental classes per semester may take only one other course—either an ROTC or PHED activity course. They may not take any college-level course which requires skill in any area in which they show a deficiency as determined by the placement test. Students are urged to consult with one of the Developmental Studies advisors for details.

Support Services

A number of support services provide tutoring to assist students in achieving the objectives of their courses. These are (1) the Developmental Writing Lab, (2) the Developmental Reading Lab, and (3) the Developmental Mathematics Lab. Students in most basic courses are required to enroll in the tutorial programs offered in these labs, while students in developmental courses are normally enrolled in tutoring at the recommendation of their instructors. The tutoring provided in the labs reinforces the curriculum and the objectives of the basic and developmental courses.

Each student in Developmental Studies is assigned an advisor who assists with scheduling developmental classes and academic advising. Students should check with the Developmental Studies Advisor Office in 102 Peck Hall (615-898-2339) immediately upon arrival on campus to determine the name and office number of the assigned advisor. Students should make an appointment to meet with their advisors prior to registration. Students should see their advisors at least twice during the semester. Students on probation must see their advisors at least four times a semester or once a month.

Program: Basic and Developmental

The Developmental Studies program offers courses in both basic and/or developmental studies in four areas: writing skills, reading skills, mathematics skills, and study skills. Course offerings in basic and developmental studies are listed each semester in the class schedule book and carry the designations of either **RSE, RSM, RSR** (Basic Studies) or **DSE, DSM, DSR, or DSS** (Developmental Studies). In addition to the usual daytime offerings, basic and developmental courses are offered at night and during the summer.

More detailed specifications for the Developmental Studies Program may be found in the Tennessee Board of Regents Guideline No. A-100.

Courses in Basic Studies [RSE, RSM, RSR]

RSE 070 **Basic Writing.** Three credits. Prerequisite: Placement pretesting. Intensive practice in paragraph and sentence construction; intensive review of basics of spelling, grammar, and punctuation. Enrollment in the Writing Center required.

RSM 070 **Basic Mathematics.** Three credits. Prerequisite: Placement pretesting. Intensive study of all arithmetic operations with whole numbers, decimals and fractions, percent and equivalency, units of measure, word problems, geometry, graphs, elementary probability, and statistics.

RSR 070 **Basic Reading.** Three credits. Prerequisite: Placement pretesting. Intensive practice in reading comprehension to improve basic reading skills through classroom instruction and self-paced activities.

Courses in Developmental Studies [DSE, DSM, DSR, DSS]

DSE 080 **Developmental Writing.** Three credits. Prerequisite: Placement pretesting. Intensive practice in writing brief essays for a variety of rhetorical purposes and audiences. Emphasis on strategies for prewriting, writing, and rewriting. Also intensive review of sentence and paragraph construction, and basic language arts.

DSM 080 **Elementary Algebra.** Three credits. Prerequisite: Placement pretesting. Intensive study of numbers and sets; algebraic expressions; solution of linear equations; rational expressions.

DSM 085 **Intermediate Algebra.** Three credits. Prerequisite: Placement pretesting. An intensive study of algebraic fractions, first-degree equations and inequalities, exponents, roots and radicals, second-degree equations and inequalities, function, relations, and graphs.

DSM 090 **Basic Geometry.** Three credits. Plane and solid geometry including measurement formulas, properties of plane figures, proof techniques, symmetry, congruency, and construction. Open only to those lacking required high school geometry course for unconditional admission to University.

DSR 080 **Developmental Reading.** Three credits. Prerequisite: Placement pretesting. Intensive practice in reading comprehension to develop inferential and critical reading skills, vocabulary, and an efficient rate of reading.

DSS 080 **Developmental Study Skills.** Three credits. Intensive study and practice of effective note-taking, test-taking and study techniques, the use of library resources, and critical thinking.

Courses in Academic Success Program [ACA]

ACA 010 **Academic Recovery.** One credit. Intensive study and practice in academic and personal skills that characterize academically successful students. Open only to students who have been readmitted after being academically suspended from the University.

ACA 300 **Theory and Practice of College Peer Tutoring.** One credit. Prerequisite: Consent of department. Provides training in the knowledge and fundamental skills useful to tutors in various academic disciplines. Pass/Fail.

Cooperative Education

Wayne Rollins, Director
Jones Hall 155

In the Cooperative Education program, the student performs a portion of his/her university education program as an employee in business, industry, government, or a service organization, where the work is directly related to his/her academic major. The program is based upon the philosophy that gainful employment in the student's chosen field before graduation affords a number of opportunities not otherwise available: to apply methods and principles learned in the classroom to actual work situations and problems; to enhance academic motivation; to help defray the costs of education; to assist in career selection; to improve job preparation and accelerate professional maturity; and to develop better opportunities for employment upon graduation.

Requirements

To enroll in the program, a student must

1. have an MTSU cumulative grade point average of 2.50 or better (undergraduate);
2. have completed at least two semesters of college work;
3. be a degree-seeking student at MTSU in good standing (not on probation or under suspension);
4. be willing to work a minimum of three work periods;
5. file an application with the director of Cooperative Education one semester prior to the semester in which the first work experience starts;
6. obtain the approval of the department Cooperative Education coordinator and the director of Cooperative Education.

Students should consult departmental listings for course number and credit hours. If the student's major department has no listing for cooperative education, he/she should refer to the cooperative education courses listed below.

Further information may be obtained by contacting the
Director, Office of Cooperative Education
Box 31
Middle Tennessee State University
Murfreesboro, Tennessee 37132

Courses in Cooperative Education [COED]

293, 294, 397, 398 Cooperative Education. Three credits. Experiential learning that occurs in real employment situations. Must be taken in sequence or approved by the director of Cooperative Education. Graded on a pass/fail basis.

University 101 Seminar

MTSU offers a special course to help freshman students develop tools needed for success. This seminar course helps new students appreciate the value of a higher education, learn about the numerous campus resources available to them, clarify their career goals, and refine the academic skills required of the successful college student.

UNIV 101 Seminar can be taken as an elective and counted toward the 132-semester hour minimum graduation requirement. Times, locations, and instructors for the seminar can be found in the Schedule Book issued for each semester.

More information can be obtained from the
Office of the Provost/Vice President for Academic Affairs
119 Cope Administration Building
Middle Tennessee State University
Murfreesboro, TN 37132

Courses in University 101 Seminar [UNIV]

101 University 101 Seminar. Three credits. Provides information to ease the transition to college during the first semester on campus. Helps student develop strategies for a successful college career.

Army Reserve Officers' Training Corps (AROTC)

MTSU students can earn a commission as a second lieutenant in the United States Army, Army Reserve (USAR), or Army National Guard (ARNG) while pursuing either undergraduate or graduate studies.

Army ROTC provides multiple paths for students to obtain their commissions. Entry-level military science training during the freshman and sophomore years consists of basic rifle marksmanship, rappelling, leadership development, and orienteering. There is no military service obligation during this phase. Students may use two military science courses in lieu of two PHED requirements. Students with prior military service may receive academic credit for the first two years. Students who have not taken any military science classes by the end of their sophomore year may receive placement credit by attending Camp Challenge conducted each summer at Fort Knox, Kentucky. Pay for summer camp is approximately $640.

At the beginning of the junior year, students begin Advanced ROTC training built around leadership assessment and practical application of their management and leadership skills. Airborne, Air Assault, and Northern Warfare training are also available to students after completing Advanced Camp at Fort Lewis, Washington, between their junior and senior years. All advanced training students receive a $150 monthly subsistence allowance. Full-time employment upon graduation is available for those students who are selected for an initial three- or four-year active duty assignment.

Scholarships: Army ROTC offers three- and two-year on-campus scholarships each year to qualified enrolled and non-enrolled military science students. These scholarships pay for registration, books, and lab fees, in addition to the monthly subsistence allowance. Scholarship recipients may be selected for an initial active duty assignment.

Further information concerning AROTC may be obtained by consulting the Military Science Department course offerings in this catalog, listed under the College of Basic and Applied Sciences, or by writing to:

Army ROTC
Military Science Department
Middle Tennessee State University, P.O. Box 52
Murfreesboro, TN 37132
or calling (615) 898-2470 or tollfree 1-888-MT-AROTC.

Interdisciplinary Minors

Interdisciplinary minors are open to all students in the University. A student may take no more than 6 hours in a single department toward an interdisciplinary minor unless he or she surpasses the required 18-21 hours necessary for that minor. A student may take no more than 3 hours credit toward a minor in the same department or discipline in which he/she is taking a major, and no course may be counted for both major and minor credit. Students must fulfill all departmental prerequisites for any course within an interdisciplinary minor.

Requirements and additional information may be found in the section on the coordinating department which is given in parentheses following the name of the minor with the exception of African-American Studies, Aging Studies, Global Studies, and Women's Studies. Information on these programs is on pages 68-71 respectively.

African-American Studies

Aging Studies

American Culture (English and History)

Archaeology (Sociology and Anthropology)

Asian Studies (Sociology and Anthropology)

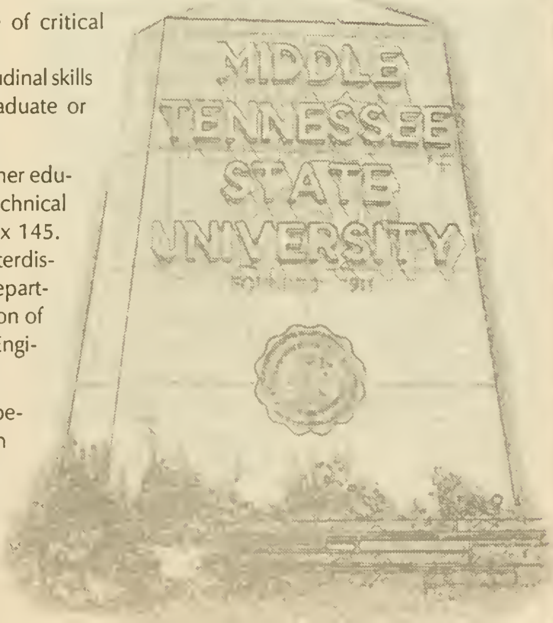
Within an environment that values excellent teaching and fosters initiatives in research and public service, the mission of the College of Basic and Applied Sciences at Middle Tennessee State University is to

1. prepare individuals for successful careers in scientific and technical fields in industry, teaching, government, and health services;
2. provide general education through exposure and exploration of natural sciences, applied sciences, and mathematics;
3. provide "hands-on" experience with state-of-the-art materials and equipment;
4. promote the development and practice of critical thought and expression;
5. develop basic knowledge and promote attitudinal skills and other abilities needed for further graduate or professional study.

The College coordinates all vocational teacher education through the Office of Vocational and Technical Education, Voorhies Industrial Studies Complex 145. Environmental Science and Technology is an interdisciplinary major and minor offered by several departments within the college. A complete description of the program is given under the Department of Engineering Technology and Industrial Studies.

Following are the curricula, courses, and specific requirements for majors and minors in each department or school.



Department of Aerospace

Ronald J. Ferrara, Chair
Business and Aerospace Building 211C

Craig, Crowder, Dorris, Gossett, Herrick, Hill, Jones, Phillips, Schukert, Zlotky

Programs in the Department of Aerospace lead to the Bachelor of Science degree with a major in Aerospace and concentrations in Administration, Maintenance Management, Professional Pilot, Technology, and Flight Dispatch and Scheduling. A minor in Aerospace is also available. All of these programs are designed to prepare students for professional positions in the air transportation or aerospace manufacturing industry or in operations supporting allied areas.

Aerospace Core Requirement

All Aerospace majors will take AERO 101, 102, 303, 320, and 440.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Aerospace

Concentration: Administration

The Administration concentration offers instruction designed for students who are interested in careers in the various aspects of aerospace administration and management. Selected general studies and minor courses are interwoven with aerospace courses to provide students with a foundation for such careers. This concentration requires the completion of

1. 39 semester hours in aerospace courses as listed below;
2. a minor as recommended by the faculty advisor and approved by the department chair and dean;
3. other specific required courses as listed below.

Recommended Sequence and Curriculum Requirements

FRESHMAN		SOPHOMORE	
AERO 101, 102; TRNS 111	9	AERO 203 or 204	3

Minor	9		33
	33		

Concentration: Flight Dispatch and Scheduling

The Flight Dispatch and Scheduling concentration offers instruction designed to meet the aviation industry's needs by preparing professional, corporate, and airline flight dispatchers and schedulers. Selected general studies and minor courses are interwoven with required aerospace courses to provide students with a foundation for careers in this area. This concentration requires the completion of

1. 40 hours of aerospace courses as listed below;
2. a minor of 18 semester hours to be selected from one of the following: Geography/Geology, Computer Science, Information Systems, or other science or business-related field;
3. other specific required courses as listed below.

Recommended Sequence and Curriculum Requirements

FRESHMAN		SOPHOMORE	
AERO 101, 102, 201	9	AERO 202, 303, 307, 320	12

Gen. Studies (Area II-B)	3		31
PHIL 211	3		
	34		

Concentration: Maintenance Management

The Maintenance Management concentration offers instruction designed for students who are interested in careers as skilled technicians or managers in aircraft manufacturing, aircraft repair, engine overhaul, or space vehicle maintenance. The fundamental skills needed in aerospace vehicle repair and maintenance are stressed together with management skills for such careers. MTSU is an approved Federal Aviation Administration (FAA) FAR Part 147 maintenance technician school for airframe and powerplant mechanics. This concentration requires the completion of

1. 45 hours of aerospace courses as listed below;

2. a minor that complements the major recommended by the faculty advisor and approved by the department chair and dean;
3. other specific required courses as listed below.

Recommended Sequence and Curriculum Requirements

FRESHMAN		SOPHOMORE	
AERO 101, 102, 104	9	AERO 108, 303, 320	9

Upper-division minor and electives	9		**31**
CSCI 115 or INFS 220 or 310 or equivalent	3		
	34		

NOTE: Additional aerospace maintenance courses are required if FAA certification is sought. Substitution of certain aerospace courses may be allowed if FAA certification is not sought. Students enrolled in the Airframe and Powerplant Technician's Program are required to pass a comprehensive qualification examination prior to receiving authorization to take the FAA examination or prior to receiving a Certificate of Completion from MTSU.

Concentration: Professional Pilot

Admission to the Professional Pilot concentration is by separate application to the Aerospace Department. Admission to the University does not guarantee admission to this concentration. Enrollment is limited and selection is made from eligible candidates who are best qualified. Transfer students and persons applying for advanced standing will be evaluated on additional appropriate criteria. Specific policies are available from the department. The candidate must meet the following minimum standards:

1. have a college grade point average of 2.50 (or if entering freshman, a high school GPA of 2.80);
2. have a current second class FAA medical examination;
3. be in good standing within the department and University (if a transfer, candidate cannot be on probation in any form);
4. have no physical disability that would prohibit the student from completing the course requirements.

The Professional Pilot concentration requires the completion of

1. 48 semester hours in aerospace courses as listed below;
2. a minor that complements the Professional Pilot major, recommended by the faculty advisor and approved by the department chair and dean;
3. other specific required courses as listed below; and
4. commercial certificate, instrument, and multi-engine ratings prior to graduation (ratings completed at MTSU).

Retention in the program is based on maintaining a GPA of 2.50 or better and making consistent and satisfactory progress in flight training. Violation of any FAA regulation will result in immediate termination.

Students admitted to the professional pilot program are expected to receive all required flight training beyond the private pilot certificate with the MTSU Flight School. Transfer students who have already completed the instrument rating may be admitted; however, they must complete the commercial pilot certificate plus two additional ratings/certificates at the MTSU Flight School.

Concentration: Technology

The Technology concentration is designed for students interested in technical careers in aerospace and as preparation for those who seek more advanced study at the graduate level. Students will receive a strong background in mathematics, the sciences, industrial studies, and the more technical courses in aerospace. This concentration requires the completion of

1. 36 semester hours of aerospace courses as listed below;
2. minors in Mathematics and Engineering Technology and Industrial Studies;
3. two semesters of general chemistry and two semesters of university physics;
4. other specific required courses as listed below.

Minor in Aerospace

A minimum of 18 semester hours is required for the minor. The minor may emphasize administrative, piloting, or technical subject matter. Courses are chosen with the approval of the student's minor advisor.

Accreditation

In addition to regional accreditation, the following programs are formally approved by the Council on Aviation Accreditation: Aerospace Administration, Aerospace Maintenance Management, Aerospace Technology, and Professional Pilot.

Academic Common Market

Since the Aerospace Department is a participant in the Academic Common Market, students from selected southern states may enroll at MTSU on an **in-state** fee basis. Further information is available from the department or Admissions Office.

Professional Relationships

MTSU holds membership in the Aviation Technical Education Council, the Council on Aviation Accreditation, the National Business Aircraft Association, the National Intercollegiate Flying Association, and the University Aviation Association.

Advanced Standing

Specific aerospace course credit may be granted to holders of FAA Airman and Airframe/Powerplant Certificates. Such aeronautical credential-based credit awards are applicable to MTSU enrollments only and will not transfer to other institutions.

Maintenance Management Advanced Standing

Only students pursuing the Maintenance Management concentration may receive advanced standing for certificates held.

Students seeking advanced standing on the basis of possession of the airframe or powerplant (or both) technician certificates must produce documentation to substantiate prior training to the dean of the College of Basic and Applied Sciences through the chair of the Aerospace Department. In addition, each applicant will be required to pass an oral or written examination covering the course content of each course for which advanced standing is requested. Twenty-four semester hours will be the maximum credit allowed for both certificates.

Holders of an FAA Airframe Technician Certificate may be granted credit for the following courses:

AERO	102	Theory of Flight
AERO	108	Aerospace Maintenance Shop Practices
AERO	310	Sheet Metal Structures
AERO	401	Aerospace Vehicle Systems

Holders of an FAA Powerplant Technician Certificate may be granted credit for the following courses:

AERO	303	Propulsion Fundamentals
AERO	309	Reciprocating Engine Maintenance Repair
AERO	312	Aerospace Reciprocating Engine Overhaul
AERO	416	Advanced Aerospace Engine Systems Maintenance and Repair

Holders of FAA Repairmen Certificates and former military mechanics who are not holders of an FAA maintenance technician certificate may not be granted specific course credit for their experiences.

Professional Pilot Advanced Standing

Transfer credit may be granted to Professional Pilot Program majors only for documented flight training completed at an accredited institution of higher learning prior to enrolling at MTSU. However, at least three pilot certificates or ratings must be completed subsequently at the MTSU Flight Education Center.

Air Traffic Control Training

MTSU is a participant in the FAA Collegiate Training Initiative (CTI). Students who successfully complete this program are recommended to attend the FAA's Air Traffic Controller Training Course in Oklahoma City. CTI participation is open to all MTSU students regardless of their academic majors.

Students wishing to enroll in the CTI Program must:

1. be at least 16 years of age and possess a high school diploma;
2. hold United States citizenship;
3. obtain employment as an FAA Air Traffic Controller by age 31;
4. pass an FAA physical examination (to include hearing and vision tests and drug screening);
5. pass a background security suitability examination; and
6. complete the following aerospace courses:

AERO	101	Introduction to Aerospace
AERO	102	Theory of Flight
AERO	103	Aviation Laws and Regulations
AERO	201	Aviation Weather
AERO	202	Navigation
AERO	301A	Flight Instruction II - Instrument
AERO	332	Crew Resource Management
AERO	403	Air Traffic Control
AERO	466	Advanced Air Traffic Control

NOTE: Additional requirements and disqualifying conditions pertain to enrollment in this program. For further information, contact the Aerospace Department at (615) 898-2788.

Aircraft Maintenance Training

The Aerospace Department offers maintenance training which will qualify students for the FAA's Airframe and Powerplant Mechanics Certificate. The following courses are required for this qualification.

AERO	102	Theory of Flight
AERO	104	Introduction to Aerospace Management
AERO	108	Aerospace Maintenance Shop Practices
AERO	213	Airframe Inspection
AERO	214	Powerplant Inspection
AERO	217	Aircraft Welding
AERO	218	Non-Metallic Structures: Dope, Fabric, and Finishing
AERO	303	Propulsion Fundamentals
AERO	309	Reciprocating Engine Maintenance Repair
AERO	310	Sheet Metal Structures
AERO	311	Aerospace Accessory Systems Maintenance and Repair
AERO	312	Aerospace Reciprocating Engine Overhaul
AERO	313	Reciprocating Engine Troubleshooting
AERO	317	Aircraft Finishing and Non-Destructive Inspection
AERO	320	Aerospace Materials
AERO	401	Aerospace Vehicle Systems
AERO	416	Advanced Aerospace Engine Systems Maintenance and Repair
AERO	417	Advanced Aerospace Vehicle Systems Overhaul
AERO	418	Advanced Aerospace Accessory Systems Maintenance and Repair
AERO	419	Aerospace Turbine Engine Maintenance and Overhaul
AERO	420	Advanced Aerospace Vehicle Structural Repair
AERO	421	Turbine Engine Systems
AERO	424	Turbine Engine Inspection and Troubleshooting
ET	361	Introduction to Electricity and Electronics
ETIS	131	Basic Technical Drawing and Sketching
MATH	141	College Algebra
OR		
MATH	121	Algebra and Trigonometry
PHYS	231	College Physics I
PHYS	233	Physics Problems Laboratory I

Flight Training

The Aerospace Department offers flight training to MTSU students pursuing the Professional Pilot concentration. All training will be conducted in University-owned and maintained aircraft by a select group of flight instructors screened and trained for their positions by MTSU. All flights will be conducted from the Murfreesboro Municipal Airport. Flight fees will be paid directly to MTSU, and students must maintain a positive balance in their training accounts at all times. Financial aid support materials may be obtained from the faculty coordinator in the Aerospace Department.

NOTE: Students interested in military flying careers should contact their local Armed Forces recruiting officer or MTSU's Reserve Officer Training Corps (ROTC) program representatives. Air Force ROTC program information can be obtained by calling (615) 963-5931. For information regarding the Army ROTC Program, call (615) 898-2470.

Student Organizations

Recognized student organizations in aerospace are Alpha Eta Rho, international aviation fraternity (co-ed); Flying Raiders, intercollegiate competitive flight team; AERO Maintenance Club of MTSU, aircraft maintenance organization; and a chapter of the American Association of Airport Executives.

Courses in Aerospace [AERO]

101 **Introduction to Aerospace.** Three credits. History of aerospace, opportunities in the field, fundamentals of flight, navigation, meteorology, and Federal Aviation Regulations. Open to all students desiring a general and practical knowledge of aviation.

102 **Theory of Flight.** Three credits. Basic aerodynamics with emphasis on lift, weight, thrust, and drag forces acting upon an airplane in flight. Five-hour flight demonstration required at student expense. Fee required.

103 **Aviation Laws and Regulations.** Three credits. Those portions of Titles 14 and 49 of the U.S. Code of Federal Regulations concerning airman certification and aircraft operations.

104 **Introduction to Aerospace Maintenance.** Three credits. Organization and operation of aircraft maintenance activities. Federal regulations and aviation maintenance law. Provides introduction to maintenance management function in practical settings.

108 **Aerospace Maintenance Shop Practices.** Three credits. Use of common tools, measuring devices, and special aircraft tools. Shop layout for aircraft maintenance management.

200A **Private Pilot Flight Laboratory.** One credit. Prerequisite: Simultaneous completion of AERO 203. Flight instruction leading to the FAA Private Pilot Certificate. The certificate must be completed during this course. Fee required.

201 **Aviation Weather.** Three credits. Provides a basic understanding of the atmosphere, measurement of meteorological elements, and effects of these on air operations.

202 **Navigation.** Three credits. The principles of pilotage, dead reckoning, and radio/electronic methods of navigation as applied to cross-country flight planning.

203 **Flight Instruction I.** Three credits. Aeronautical subject matter pertaining to the private pilot certificate.

204 **Civil Aviation.** Three credits. Historical development and present status of air transportation facilities; state and federal regulations; legal characteristics of aerospace industry; problems and services of commercial air transportation.

213 **Airframe Inspection.** Three credits. Requirements, techniques, and procedures.

214 **Powerplant Inspection.** Three credits. Requirements, techniques, and procedures.

217 **Aircraft Welding.** Three credits. Various types of aircraft welding techniques and procedures.

218 **Non-Metallic Structures: Dope, Fabric, and Finishing.** Three credits. An introductory course dealing with aircraft fabric covering and finishing.

293, 294 **Cooperative Education.** Three credits. Provides students with opportunities for on-the-job experiences related to academic major. Consult department. Pass/Fail.

300A **Instrument Flight Laboratory I.** One credit. Prerequisite: Private Pilot Certificate. Flight instruction leading to the FAA Instrument Rating-Airplane, single engine land. Students should consult with the chief instructor pilot for a scheduled flight slot. Fee required.

300B **Instrument Flight Laboratory II.** One credit. Prerequisites: Private Pilot Certificate, AERO 300A or equivalent, and have completed AERO 301A or be taking it simultaneously. Flight instruction leading to the FAA Instrument Rating-Airplane, single engine land. The instrument rating must be completed during this course. The student should consult with the chief instructor pilot for a scheduled flight slot. Fee required.

300C **Commercial Flight Laboratory.** One credit. Prerequisites: Private Pilot Certificate, Instrument Rating-Airplane, single engine land, AERO 201, 202, 303 or equivalent for each, and have completed AERO 301B or be taking it simultaneously. Flight instruction leading to the Commercial Pilot Certificate-Airplane, single engine land. The commercial certificate must be completed during this course. Students should consult with the chief instructor pilot for a scheduled flight slot. Fee required.

300D **Conventional Landing Gear Airplane Laboratory.** One credit. Prerequisite: Private Pilot Certificate. Flight and ground instruction leading to conventional landing gear operation endorsement. Course includes flight and ground instruction. Fee required.

301A **Flight Instruction II-Instrument.** Three credits. Prerequisite: Private Pilot Certificate. Flight instruction and academics required for the instrument airplane rating.

301B **Flight Instruction II-Commercial.** Three credits. Prerequisite: Private Pilot Certificate. Flight instruction and academics required for the commercial pilot certificate.

302 **Flight Instruction III.** Three credits. Prerequisites: Commercial Pilot Certificate, Instrument Rating-Airplane. Ground instruction leading to the Certificated Flight Instructor - Airplane, Single Engine Land. At least one FAA Ground Instructor Certificate must be completed during the course. Fee required for ground instructor exams. Students should consult with the chief flight instructor for a scheduled flight slot. Fee required.

303 **Propulsion Fundamentals.** Three credits. Principles of operations, major components, and important features of typical propulsion systems used in aircraft and missiles, from reciprocating to reaction.

305 **Flight Simulator.** Three credits. Instruction in the use of the flight simulator and development of proficiency to fly under instrument conditions.

306 **Multi-Engine Rating.** Three credits. Prerequisite: Commercial Pilot/instrument rating. Flight and ground instruction pertaining to the multi-engine rating. Students should consult chief flight instructor for a scheduled flight slot. The multi-engine rating must be completed during the course. Fee required.

307 **Flight Safety.** Three credits. Prerequisite: AERO 102. Safety rules and regulations and aircraft accident investigation.

309 **Reciprocating Engine Maintenance Repair.** Three credits. Reciprocating engines including theory, construction, fuel metering, ignition, and operational maintenance procedures. Inspection and repair processes are applied to operating engine systems.

310 **Sheet Metal Structures.** Three credits. Provides practical experience in the repair of sheet metal structures, including major repairs and alterations.

311 **Aerospace Accessory Systems Maintenance and Repair.** Three credits. A laboratory course providing experience in the maintenance, inspection, and repair of aircraft system components.

312 **Aerospace Reciprocating Engine Overhaul.** Three credits. Completion of a major overhaul on an aircraft engine, including procedures and acceptable techniques used in engine disassembly, inspection, repair, reassembly, and operational testing.

313 **Reciprocating Engine Troubleshooting.** Three credits. A laboratory course providing practical experience in inspecting and troubleshooting problems with reciprocating engines and powerplant systems.

314 **Fundamentals of Aerodynamics.** Three credits. Prerequisites: PHYS 231 and MATH 121 or equivalent. Aerodynamics of powered flight. Includes theories of lift and drag and fundamentals of stability and control.

315 **Women in Aviation.** Three credits. Explores the many roles of women in this non-traditional field. Research on the history of women in aviation and their political and social impact on aviation, industry, and the country.

317 **Aircraft Finishing and Non-Destructive Inspection.** Three credits. Fundamentals of non-destructive inspection techniques including dye penetrant, magnetic particle, eddy current, and ultrasonic inspection.

320 **Aerospace Materials.** Three credits. Explores materials used in aerospace applications throughout their development from the standpoint of their properties, economic impact, and future possibilities. The need for new materials to fill current requirements included.

322 **High Altitude Aircraft Operations.** One credit. Prerequisite: Department head or chief pilot approval. A specialized flight-related course for certifying pilots for the ground portion of high altitude flight in accordance with Federal Aviation Administration regulations.

324 **Advanced Flight Operations.** Three credits. Prerequisites: Commercial Pilot Certificate, Instrument Rating-Airplane, Multiengine Rating-Airplane, MTSU Aerospace student. Classroom and flight simulation instruction for students desiring first officer preparation and turbine engine transition. First officer candidates for the MTSU owned/operated, passenger-transporting aircraft will be required to complete this course.

328 **Aviation Weather II.** Three credits. Prerequisite: AERO 201. Advanced weather concepts, forecasting, and applications to flight dispatch problems. Preparation for NWS observers license.

330 **Aerospace in Our Lives.** Three credits. Open course for non-majors which allows exploration of the aerospace world in which we live. Credit not applicable to Aerospace major.

332 **Crew Resource Management.** One credit. Augments the student's ability to understand the emotional and logical gaps in communication in the present-day aviation crew environment by developing a better understanding of the student's relational style and personality traits in himself/herself and others. Personality profile is optional and confidential.

397, **398 Cooperative Education.** Three credits. Provides students with opportunities for on-the-job experiences related to academic major. Consult department. Pass/Fail.

401 **Aerospace Vehicle Systems.** Three credits. Design, use, and function of typical hydraulic, mechanical, and electrical systems used on transport category aircraft. Designed for potential pilots, flight engineers, and managers.

402 **Flight Instruction VI.** Three credits. Prerequisite: Certified Flight Instructor Certificate. Ground and flight instruction leading to the instrument and multi-engine instructor ratings. Flight training for this course is to be taken at the MTSU Flight School. The ratings must be completed during the course. Students should consult with the chief flight instructor for a scheduled flight slot. Fee required.

403 **Air Traffic Control.** Three credits. FAA Air Traffic Control system used to regulate air traffic during enroute and terminal phases of flight, with emphasis on communication, navigation, control equipment, and procedures.

405 **Aerospace Internship I.** Three credits. Prerequisites: Junior standing and consent of department chair. Student is employed by an acceptable airline, airport director, or aerospace industry for 300 hours of field work. Pass/Fail.

406 **Aerospace Internship II.** Three credits. Prerequisites: Junior standing and consent of department chair. A continuation of the internship program with a different employer and place of work or a significant job category change. Pass/Fail.

407 **Problems in Aerospace.** One to three credits. Individual directed study in the field of aerospace.

408 **Flight Instruction IV.** Three credits. Prerequisite: Approval of instructor. Academics for the ATP written. If flight is desired, student will meet FAR 61. Fee required.

409 **Aerospace Science for Teachers.** Three credits. An introduction to the total aviation and space effort.

411 **Airport Management.** Three credits. Airport operations and development of airport master plan.

413 **Aerospace Physiology.** Three credits. Instruction, readings, and structured experiences to insure familiarity with the various physiological and health-related factors affecting a flyer's safety and performance.

414 **Aircraft Performance.** Three credits. Prerequisites: MATH 121 and PHYS 231 or equivalent. Determination of performance from basic lift, drag, power, and structural characteristics of the airplane. Use of flight charts. Effects of loading on performance.

415 **Fixed Base Operations Management.** Three credits. The FBO operator and the essential role played in general aviation.

416 **Advanced Aerospace Engine Systems Maintenance and Repair.** Three credits. The operation of powerplant component systems; induction, exhaust, instrumentation, engine electrical and propeller systems.

417 **Advanced Aerospace Vehicle Systems Overhaul.** Three credits. Complete repair and overhaul of complex aerospace vehicle systems including hydraulics, electric, pneumatics, fuel, and oil. Shop layout and quality control procedures stressed.

418 **Advanced Aerospace Accessory Systems Maintenance and Repair.** Three credits. Repair and overhaul of complex accessory systems and subsystems. Practical experience in overhaul of air conditioning, pressurization, power brakes, constant speed drives, and jet fuel controls.

419 **Aerospace Turbine Engine Maintenance and Overhaul.** Three credits. A laboratory course in field maintenance and repair of turbine engines and components. Includes limited overhaul procedures and techniques. Management procedures stressed.

420 **Advanced Aerospace Vehicle Structural Repair.** Three credits. Non-typical structures including bonded and plastic structures. Includes planning and organizing of major structural repair projects and rebuilding of severely-damaged aircraft.

421 **Turbine Engine System.** Three credits. Advanced course in the maintenance of complex systems.

422 **Aircraft Systems Management.** Three credits. Instruction and requirements pertaining to the activities of a flight engineer.

423 **Airline Management.** Three credits. Airline operation and implementation of sound management practice.

424 **Turbine Engine Inspection and Troubleshooting.** Three credits. A laboratory course providing practical experience in tur-

bine engine inspection to include hot section inspection, engine operation, and troubleshooting.

428 **Flight Dispatch.** Three credits. Prerequisite: AERO 408. A capstone to those seeking flight dispatch as a career. This course should be the last one in the student's program.

430H **Honors Seminar in Aviation Psychology.** Three credits. Application and physiological testing and research techniques in aviation education, management, and technology.

433 **Advanced Air Navigation.** Three credits. Advanced navigation equipment and operation procedures, GPS, and LORAN.

437 **Airport Planning and Design.** Three credits. Methods utilized; the relationship of the airport and the community.

440 **Aerospace Seminar.** Three credits. Prerequisite: Senior status or final semester of aerospace program. A capstone course involving analysis, synthesis, and integration of relevant academic experiences. Required of all aerospace students prior to graduation.

450 **Space.** Three credits. History of global space exploration and the successes and failures of manned and unmanned efforts in the race to the moon.

465 **Aviation Law.** Three credits. Legal responsibility in the aviation industry.

466 **Advanced Air Traffic Control.** Four credits. Prerequisites: AERO 202, 301A, and 403. Capstone course for FAA Collegiate Training Initiative. Focuses on mastery of concepts acquired in AERO 403. Includes computer simulations conducted in high-density, high-workload conditions. Emphasizes situational analysis, decisive action, and problem-solving ingenuity in terminal and enroute ATC environments. One three-hour lecture and one one-hour laboratory.

Courses in Transportation [TRNS]

111 **Introduction to Transportation.** Three credits. Transportation development, identification, and evaluation of the elements of the transportation system including historical, legislative, and trend analysis.

222 **Transportation Freight Systems.** Three credits. An overview of cargo systems and transportation freight rates. Includes an analysis of transportation issues and the relationship between the shipper, the modes of transportation, and the consumer.

333 **Transportation Systems.** Three credits. Prerequisite: TRNS 111 or permission of instructor. An overview of the structure and management of a logistics distribution system. Distribution logistics as a function area and as a strategic element of the total transportation system.

Graduate Study

The Aerospace Department offers the Master of Science in Aviation Administration and the Master of Education in Aerospace Education. Requirements for these degrees and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Honors College

The Department of Aerospace offers periodically 102H, 407H, and 430H.

School of Agribusiness and Agriscience

Harley Foutch, Director
Stark Agribusiness and Agriscience Center 100

Anderson, Brzezicki, Halterlein, Johnston, Ragland, Redd, Ricketts, Whitaker, Williams

Programs in the School of Agribusiness and Agriscience lead to the Bachelor of Science degree with majors in Agribusiness, Animal Science, and Plant and Soil Science. A concentration in Horse Science is available in the Animal Science major. Certification in Agricultural Education and a concentration in Agricultural Communication are available in each of the three majors. Preparatory programs are also offered for additional study in agricultural engineering, forestry, and veterinary medicine. A minor in Agriculture is available.

A major in the School of Agribusiness and Agriscience requires a minimum of 43 semester hours of courses to include:

a. 21 hours in the major area;
b. an additional six (6) hours from ABAS as indicated under each major's requirements; and
c. a general core of ABAS 100, 141, 161, 221, 301, and 410. (301 not required for majors taking YOED 411B or participating in judging teams.)

Specific course requirements for each major are listed below in the curriculum of that major.

Environmental Science and Technology is an interdisciplinary major and minor offered by Agribusiness and Agriscience, Biology, Chemistry, Physics and Astronomy, and Engineering Technology and Industrial Studies. A complete description of this program is found under the Department of Engineering Technology and Industrial Studies.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Agribusiness

The program leading to a major in Agribusiness is designed for students who are interested primarily in the non-farm phases of agriculture. Specific course requirements follow:

FRESHMAN		SOPHOMORE	
ABAS 100, 141, 161	7	ABAS 213, 221	6
English (Area I-A)	6	English (Area II-A)	6
BIOL 100 (Area IV-A)	4	SPEE 220 (Area I-B)	3
Mathematics (Area IV-B)	3	SCI 100 (Area IV-A)	4
Gen. Studies (Area II-B)	3	History (Area III-A)	6
Electives	6	ECON 241 (Area III-B)	3
PHED (Area V)	2	Elective	3
	31	PHED (Area V)	2
			33

JUNIOR		SENIOR	
ABAS 313, 301	6	ABAS 410, 419	6
CSCI 115 or INFS 220	3	Minor requirements	9
Animal Science elective	3	Agribusiness electives*	6
Minor requirements	9	Upper-division electives	14
Agribusiness electives*	6		35
Upper-division elective	3		
Plant and Soil Science elec.	3		
	33		

*Internship courses may not be used to fulfill this requirement.

Major in Animal Science

The program leading to a major in Animal Science is designed to offer preparation for leadership careers in livestock and related industries. Specific course requirements follow:

FRESHMAN		SOPHOMORE	
ABAS 100, 141, 161	7	ABAS 221	3
English (Area I-A)	6	SPEE 220 (Area I-B)	3
BIOL 111, 112 (Area IV-A)	8	English (Area II-A)	6
Gen. Studies (Area II-B)	3	CHEM 111, 111L, 112, 112L (Area IV-A)	8
Mathematics (Area IV-B)	3	History (Area III-A)	6
PHED (Area V)	2	Gen. Studies (Area III-B)	3
Agribusiness or Animal Science elective	3	PHED (Area V)	2
	32		31

JUNIOR		SENIOR	
ABAS 313, 334 or 431	6	ABAS 410, 441, 451	9
ABAS 342, 344	6	Animal Science electives*	6
CSCI 115 or INFS 220	3	Minor requirements	9
Minor requirements	9	Upper-division electives	7
Upper-division electives	11	ABAS 301	3
	35		34

*Electives must come from the following courses: ABAS 343, 347, 348, 349, 350, 354, 409, 447, 452

Concentration: Horse Science

Advisor: Jerry W. Williams

The Horse Science concentration is designed to meet the needs of persons majoring in Animal Science who wish to emphasize horse science and related courses. Specific requirements follow:

FRESHMAN		SOPHOMORE	
ABAS 100, 141, 161	7	ABAS 341	3
ABAS 240	3	SPEE 220 (Area I-B)	3
Gen. Studies (Area II-B)	3	English (Area II-A)	6
English (Area I-A)	6	CHEM 111, 111L, 112, 112L (Area IV-A)	8
BIOL 111, 112 (Area IV-A)	8	History (Area III-A)	6
Mathematics (Area IV-B)	3	Gen. Studies (Area III-B)	3
PHED (Area V)	2	Upper-division elective*	3
	32	PHED (Area V)	2
			34

JUNIOR		SENIOR	
ABAS 221, 304, 313	9	ABAS 301, 409, 410	9
ABAS 334, 344	6	ABAS 446	3
CSCI 115 or INFS 220	3	Minor requirements	6
Minor requirements	12	Agribusiness elective	3
Upper-division elective**	3	Upper-division electives	12
	33		33

*ABAS 340 recommended
**ABAS 440 recommended

Major in Plant and Soil Science

The program leading to a major in Plant and Soil Science is designed for students interested in agronomy, horticulture, and/or soil sciences. Students may choose to concentrate on either one of these areas within this major. Specific course requirements follow:

FRESHMAN		SOPHOMORE	
ABAS 100, 141, 161	7	ABAS 221	3
English (Area I-A)	6	English (Area II-A)	6
BIOL 111, 112 (Area IV-A)	8	CHEM 111, 111L, 112, 112L (Area IV-A)	8
Mathematics (Area IV-B)	3	History (Area III-A)	6
Gen. Studies (Area II-B)	3	Gen. Studies (Area III-B)	3
Agribusiness elective	3	SPEE 220 (Area I-B)	3
PHED or MS (Area V)	2	PHED (Area V)	2
	32		31

JUNIOR		SENIOR	
ABAS 313, 334	6	ABAS 301, 410	6
Plant and Soil Science electives*	6	Plant and Soil Science electives*	12
CSCI 115 or INFS 220	3	Minor requirements	9
Minor requirements	9	Upper-division electives	6
Upper-division electives	12		33
	36		

*Internship courses may not be used to fulfill this requirement.

Concentration: Agricultural Communication

Advisor: Tony Johnston

This concentration is available under all three departmental majors. A minor in Mass Communication including JOUR/RATV 151 and 271 is required. The program is designed to meet the needs of students who are interested in specializing in the communications phase of agriculture. Freshman and Sophomore requirements are listed with each major.

JUNIOR		SENIOR	
Gen. Studies (Area II-B)	3	P R 304, JOUR/RATV 420	6
ABAS 313, 334	6	Mass Comm minor	12
ABAS 301	3	Animal Science electives	3
Mass Comm minor	6	ABAS 410	3
ABAS electives	15	Upper-division electives	8
	33		**32**

Minor

A minor in Agriculture consists of 18 semester hours, with at least 3 hours at the upper-division level, selected with the approval of the school director.

Certification in Agricultural Education

Advisor: Cliff Ricketts

Students seeking certification to teach agricultural education in secondary schools (grades 7-12) must complete (1) one of the three school majors, (2) a minor in professional education, (3) professional agricultural education courses, and (4) courses in addition to the general education program. Specific course requirements follow:

FRESHMAN		SOPHOMORE	
ABAS 100, 141, 161, 213	10	ABAS 223, 344	6
English (Area I-A)	6	English (Area II-A)	6
BIOL 111, 112 (Area IV-A)*	8	FOED 211	3
Mathematics (Area IV-B)	3	CHEM 111, 111L	8
Gen. Studies (Area II-B)	3	112, 112L (Area IV-A)***	3
Gen. Studies (Area III-B)**	3	History (Area III-A)	3
PHED (Area V)	2	FOED 111	3
	35	PHED (Area V)	2
			34

JUNIOR		SENIOR	
ABAS 313, 334	6	ABAS 410, 421, 425	9
CSCI 115 or INFS 220	3	Major requirements	6
ABAS 360, 422, 423	9	SPSE 322	3
ABAS 221	3	YOED 400	3
SPED 301	3	YOED 411B	12
YOED 305	3	SPEE 220 (Area I-B)	3
Major requirements	9		**36**
	36		

*Agribusiness majors may take BIOL 100.

** Agribusiness majors must take ECON 241.

***Agribusiness majors may take SCI 100.

For certification to teach agriscience, the following additional courses should be taken: BIOL 424 (4 hrs. credit), PHYS 231 (1 hr.), 232 (3 hrs.), 233 (3 hrs.), 234 (1 hr.).

Pre-Agricultural Engineering

Advisor: Tony Johnston

A two-year pre-agricultural engineering program is offered by cooperative agreement with the University of Tennessee and requires two years of study at that school to meet the requirements for a Bachelor of Science degree in agricultural engineering. These courses also may be transferred to programs at other universities.

FRESHMAN		SOPHOMORE	
ENGL 111, 112	6	MATH 222, 323	7
CHEM 121, 121L, 122, 122L	8	PHYS 235, 237	4
MATH 122, 221	8	ET 383, 384	6
ET 231, 336	8	ET 386, 497	6
ET 184	3	ABAS 161, 334	6
	33	SPEE 220	3
			32

JUNIOR

Other courses that could be taken at MTSU and transferred include

HIST 201, 202	6	MATH 312	3
Sociology or Psychology	3	ECON 241	3

Pre-Forestry

Advisor: Warren Anderson

A two-year pre-forestry program is offered by cooperative agreement with the University of Tennessee which offers two curricula in forestry:

1. Forest Resource Management
2. Wildlife and Fisheries Science

Two years of additional study are necessary to meet the requirements for a Bachelor of Science degree in forestry. These courses also may be transferred to programs in other universities.

FRESHMAN		SOPHOMORE	
BIOL 111, 112 (Area IV-A)	8	CHEM 111, 111L,	
English (Area I-A)	6	112, 112L (Area IV-A)	8
ABAS 161	3	GEOL 201	4
ABAS 363	3	ECON 241, 242	6
MATH 141, 142*	6	English (Area II-A)	6
PHYS 130	3	STAT 313**	3
SPEE 220 (Area I-B)	3	ABAS 334	3
	32	CSCI 115	3
			33

Students may substitute MATH 121 and 122 for 141 and 142.

***Students may substitute STAT 315 for STAT 313.*

Pre-Veterinary Medicine

Advisor: Kevin Ragland
Students completing this program frequently pursue studies at the College of Veterinary Medicine, University of Tennessee, Knoxville, where they may earn a Doctor of Veterinary Medicine (D.V.M.); graduate studies leading to a Master of Science (M.S.) or Doctor of Philosophy (Ph.D.) are also available at the University of Tennessee. Students who are continuing their studies in veterinary medicine at other universities should follow the appropriate catalogs in fulfilling their requirements.

A minimum of 72 semester hours of college work must be completed before admission to the professional curriculum of the College of Veterinary Medicine at the University of Tennessee. The following curriculum will enable a student to continue in a standard veterinary curriculum to complete work for a degree in veterinary medicine:

English composition	6
CHEM 121, 121L, 122, 122L	8
BIOL 111, 112	8
Humanities and Social Science*	18
PHYS 231, 232, 233, 234	8
CHEM 321, 322	8
BIOL 212, 421**	8
CHEM 325	4
Math***	0-6
	68-74

*May include English literature, speech, music, art, philosophy, religion, language, history, economics, anthropology, medical vocabulary, political science, psychology, sociology, and geography.
**Should have had organic chemistry plus BIOL 111, 112, and 212 prior.
***MATH 141 and/or 142 should be taken if student needs background for Physics.

The above requirements represent the very minimum, and those students without an adequate farm background could benefit by taking such agriculture courses as feeds and feeding, elements of animal science, livestock management, livestock production courses, and animal nutrition. An introduction to physiology would also be helpful. Many students who are accepted to a professional veterinary program first complete the four-year animal science major at MTSU and earn the B.S. degree. Students may also earn an MTSU B.S. degree under the program outlined on page 56 (Bachelor of Science requirements, No. 4) whereby a student who completes six semesters at MTSU is admitted to and successfully completes one year in a professional program.

Courses in Agribusiness and Agriscience [ABAS]

Agribusiness

213 **Introduction to Agribusiness.** Three credits. Nature, scope, importance, and relationship to the general economy.

313 **Principles of Agricultural Economics.** Three credits. Applying the principles of economics to agricultural problems.

349 **Poultry Production and Marketing.** Three credits. (Also listed under Animal Science.) Prerequisite: SCI 100 or CHEM 111, 111L, 112, 112L. The practices, techniques, and demands of further processed poultry production in the U.S., including chickens, ostriches, and emus and egg production. Both domestic and international marketing of poultry products discussed. Examines the economic impact of the poultry industry on both local and national economies.

381 **Milk Processing and Marketing.** Three credits. (Also listed under Animal Science.) Prerequisite: SCI 100 or CHEM 111, 111L, 112, 112L. Biological, chemical, and physical properties of cow's milk and its value as an animal food source; techniques of processing and marketing; governmental regulations; dairy arithmetic and laboratory testing.

413 **Agricultural Marketing and Price Analysis.** Three credits. Prerequisite: ABAS 313 or approval of instructor. Agricultural prices and their relationship to production and marketing. Agricultural marketing systems, functions, institutions, and structural changes.

414 **Economics of Agribusiness Management.** Three credits. Prerequisite: ABAS 313 or approval of instructor. Application of economic concepts to agribusiness firms.

415 **Agricultural Policy.** Three credits. Prerequisite: ABAS 313. Agricultural policy in a democratic society; relationship of farm groups to public policy; types of agricultural programs and appraisal of their results.

416 **Agricultural Cooperatives.** Three credits. Prerequisite: ABAS 313. Role of agricultural cooperatives in collective bargaining for farmers; historical development, economic organization, and structural aspects.

418 **Internship in Agribusiness.** Six credits. Prerequisite: Approval of instructor. In-depth practical experience in a specific area of agribusiness. NOT OPEN TO STUDENTS WHO HAVE RECEIVED CREDIT FROM ANOTHER SCHOOL INTERNSHIP COURSE.

419 **International Agriculture.** Three credits. Prerequisite: ABAS 313. The effect of international trade on the U.S. agricultural industry.

420 **Fruit and Vegetable Marketing.** Three credits. (Also listed under Plant and Soil Science.) Prerequisites: SCI 100 and BIOL 100 or approval of instructor. Basic biochemistry of respiration, handling techniques and practices, quality assessment and marketing of fruit and vegetable crops. Both domestic and international marketing of fruit and vegetable products discussed. Examines the economic impact of improper handling on both the local producer and the end user.

481 **The Food Industry.** Three credits. An overview from production to processing to marketing. Covers the current status of the world's largest employer, including where and how foods are produced, distributed, and marketed and where the industry is heading in the future.

482 **Principles of Food Processing.** Three credits. Prerequisite: SCI 100 or CHEM 111, 111L, 112, 112L. Principles used in the modern food industry, including thermal, refrigerated, frozen, and irradiation methods. Includes coverage of the techniques used to process major food commodities such as meats, cereal grains, and fats and oils.

483 **Food Quality Control.** Three credits. Prerequisites: SCI 100 and BIOL 100 or approval of instructor. Quality control and sensory evaluation techniques utilized in food processing. Instrumental and physical methods of quality determination of raw and pro-

cessed food products, hazard analysis and critical control point (HACCP), and quality philosophies employed in the industry. Sensory evaluation techniques and statistical analysis of evaluation results covered.

Animal Science

141 **Elements of Animal Science.** Three credits. Types and breeds of beef cattle, dairy cattle, sheep, horses, swine, and poultry. Special emphasis on breeds adapted to Tennessee and to market classifications.

211 **Basic Horsemanship-Equitation.** One credit. (Same as PHED 211, activity for men and women.) Preparation for recreational horseback riding; proper riding skills, handling, mounting, dismounting. Various gaits and proper equitation stressed. Two one-hour laboratories.

240 **Fundamentals of Horsemanship.** Three credits. Concepts of applications of horse handling, particularly the riding horse. Understanding, communicating with, and influencing the equine athlete; development of basic control skills; development of balance and coordination; use of equipment. (First course in a three-part series.)

304 **Stable Management.** Three credits. Prerequisite: ABAS 240 or approval of instructor. Management of a teaching and training stable and the preparation of horses and riders for the show ring.

340 **Horsemanship-Equitation.** Three credits. Prerequisite: ABAS 240 or approval of instructor. Proper horseback riding, handling, mounting, and dismounting. Various gaits and proper equitation stressed. One lecture and two two-hour laboratory periods.

341 **Light Horse Breeds.** Three credits. Historical development of the horse and the establishment of the individual light horse breeds.

342 **Genetics of Domestic Livestock.** Three credits. Includes an introduction to the basic principles of genetics, inbreeding, quantitative traits in livestock, prediction of breeding value and genetic progress, method of selection, mating systems, methods of genetic evaluation, computer software for animal breeding and genetics, and genetic engineering.

343 **Light Horse Production.** Three credits. Prerequisite: ABAS 240 or approval of instructor. Breeding, feeding, management, and disease control practices essential for economical light horse production.

344 **Livestock Management.** Three credits. Prerequisite: Junior or senior standing. Practical solutions to management problems including feeding and fitting of beef and dairy cattle and swine, sheep shearing, branding of cattle, castrations, and other routine practices. Designed to accompany production courses of light horses, beef cattle, swine, dairy cattle. One lecture and two two-hour laboratory periods.

345 **Anatomy and Physiology of Domestic Animals.** Three credits. The parts, functions, and anatomical relationships of various organs and systems of domestic animals.

346 **Farrier Science.** Three credits. Basic techniques in the science and art of making, fitting, and actual shoeing of horses according to proper methods. One lecture and two two-hour laboratory periods. (Offered at irregular times in conjunction with the Division of Continuing Studies.)

347 **Beef Cattle Production.** Three credits. Breeding, feeding, and management practices essential for economical beef production. Purebred, commercial, and feedlot programs and their role in the beef industry. Beef evaluation through carcass and testing programs.

348 **Swine Production.** Three credits. Breeding, feeding, management, and disease control practices essential for economica swine production. Types of buildings, waste disposal, and development of the pig through the nursing, growing, and finishing stages.

349 **Poultry Production and Marketing.** Three credits. (Also listed under Agribusiness.) Prerequisite: SCI 100 or CHEM 111, 111L 112, 112L. The practices, techniques, and demands of furthe processed poultry production in the U.S., including chickens ostriches, and emus and egg production. Both domestic and international marketing of poultry products discussed. Examines the economic impact of the poultry industry on both loca and national economies.

350 **Sheep Production.** Three credits. Genetics, nutrition, reproduction, and management practices essential for profitable sheep production.

354 **Dairy Production.** Three credits. Feeding and management ruminant digestion, physiology of milk secretion, production testing and official records, sanitary regulations, handling and marketing of raw milk.

381 **Milk Processing and Marketing.** Three credits. (Also listed under Agribusiness.) Prerequisite: SCI 100 or CHEM 111, 111L, 112, 112L. Biological, chemical, and physical properties of cow's milk and its value as an animal food source; techniques of processing and marketing; governmental regulations; laboratory testing.

390 **Horses and Horsemanship.** Three credits. Applications of basic requirements in owning, caring for, and using the pleasure horse as a personal riding mount.

409 **Horse Breeding Farm Management.** Three credits. Prerequisites: ABAS 240, 304, and 343 or approval of instructor. Practical, as well as vocational, application of the principles of horse breeding farm management stressed.

426 **Behavior of Domestic Animals.** Three credits. Behavior aspects of raising and managing domestic animals to include equine, swine, goats, cattle, sheep, dogs, and cats. Communication, ingestive, sexual, social, aggressive, and abnormal behaviors emphasized.

440 **Advanced Horsemanship-Equitation.** Three credits. Prerequisites: ABAS 240 and 340 or approval of instructor. Advanced techniques of horseback riding at all position seats stressing proper equitation and coordination and refinement of techniques learned in previous courses.

441 **Animal Nutrition and Feeding.** Three credits. Gastrointestinal tract, process of digestion, and nutrient utilization. Application of principles of animal nutrition to formulation of supplements and complete rations for livestock.

442 **Advanced Livestock Management.** Three credits. Prerequisite: ABAS 344 or approval of instructor. The opportunity to become proficient in managerial practices vital to efficient, economical livestock production. Unique in that students gain needed experiences, enabling them to proceed to livestock managerial positions. One hour lecture and two two-hour laboratories.

443 **Internship in Animal Science.** Six credits. Prerequisite: Approval of instructor. In-depth practical experience in a specific area of animal science pertinent to the individual's interest. Students work with producers and agencies that have agreed to cooperate in the program and to provide adequate salary and guidance. NOT OPEN TO STUDENTS WHO HAVE RECEIVED CREDIT FROM ANOTHER SCHOOL INTERNSHIP COURSE.

445 **Techniques of Teaching Horsemanship.** Three credits. Prerequisites: ABAS 240, 340, and 440 or approval of instructor. Basic techniques and methods used in teaching riding discussed and applied. Two hours lecture and one two-hour laboratory.

446 **Care and Training of Horses.** Three credits. Prerequisites: ABAS 240, 340, and 440 or approval of instructor. Theory, fundamentals, and practices of breaking, training, fitting, showing, and using light horses for riding and driving, with special emphasis on the Tennessee Walking Horse and the needs of the local area.

447 **Advanced Beef Production.** Three credits. Prerequisite: ABAS 347 or approval of instructor. In-depth look at various systems of beef production from standpoint of function, economics, and suitability to locale. Extensive field trips to commercial cow-calf, feedlot, performance testing, stocker, and purebred operations.

448 **Selecting and Judging Horses.** Three credits. Individual parts, conformation, and gaits of the horse as they relate to selecting and judging horses for production, recreation, and sport.

449 **Livestock Evaluation.** Three credits. Comparative evaluation of beef cattle, swine, sheep, and horses. Develops defense of placing through an organized set of reasons involving terms describing the animal's characteristics. Importance of these characteristics to the animal function stressed.

451 **Domestic Animal Reproductive Physiology.** Three credits. Advanced topics in the anatomy, physiology, and endocrinology of reproduction in domestic livestock species. Topics include male and female physiology and an overview of comparative anatomy and physiology between species. Current technologies and methods in controlling reproduction in livestock species also discussed.

452 **Companion Animals.** Three credits. Introduces the variety of companion animals (dogs, cats, horses, rabbits, ferrets, amphibians, fish, hamsters, gerbils, and birds) and further examines issues related to dogs and cats. Breeds, behavior, breeding, training, and care and management of dogs and cats emphasized.

458 **Advanced Judging of Horses.** Three credits. Prerequisite: ABAS 448. Systems of judging for current horse show disciplines and exercises for students who aspire to become professional judges. Ethics, contracts with management, and procedures for becoming a judge are part of focus.

459 **Dairy Cattle Judging.** Three credits. Ideal dairy cattle type and relationship to performance and longevity. Classification and evaluation according to type of the various breeds and comparative judging within the breed. Selection for genetic improvement.

486 **Meat Science and Technology.** Three credits. Prerequisite: Approval of instructor. Ideal livestock type and relationship to carcass merit, reproduction, and longevity. Characteristics of livestock carcasses, wholesale and retail cut locations and value, grading systems, and evaluation of overall carcass merit and that of component parts. The art of cutting cattle and hog carcasses into wholesale and retail cuts. One hour lecture and one four-hour laboratory.

498 **Seminar in Horse Science.** One credit. Familiarizes horse science majors with important current scientific investigation.

Plant and Soil Science

161 **Elements of Plant Science.** Three credits. Fundamental plant processes; plant tissues, structures, environment, growth, development, reproduction, and propagation.

333 **Field Crop Production.** Three credits. Economic importance, adaptation, origin, and history; botanical characteristics; cultural methods, uses, breeding, and pests of field crops.

334 **Soil.** Three credits. Physical, chemical, and biological properties. REQUIRED FOR ENVIRONMENTAL SCIENCE MAJORS.

335 **Soil Fertility and Fertilizer.** Three credits. Prerequisite: ABAS 334. Use of fertilizer and liming materials in soil-plant relationships. Lecture/lab.

337 **Soil Analysis.** Three credits. Prerequisite: ABAS 334. Analysis of soils in laboratory. REQUIRED FOR ENVIRONMENTAL SCIENCE MAJORS. Lecture/lab.

363 **Forestry.** Three credits. Culture, conservation, management, and utilization of forest stands.

364 **Woody Landscape Plants.** Three credits. Distribution, characteristics, relationships, and adaptation of native and exotic trees shrubs, and vines for landscape use. One hour lecture and four hours lab.

366 **Vegetable Gardening.** Three credits. Principles of home and commercial vegetable production; adaptation, culture, fertility, diseases, and insects of vegetables.

370 **Agricultural Chemicals in Soil Environments.** Three credits. Prerequisites: BIOL 111, 112, and CHEM 111, 111L, 112, 112L or approval of instructor. Characteristics, use, mode of action, degradation, and environmental impact of fertilizers and pesticides used in agriculture; environmental safeguards imposed by federal and state regulations on chemical use.

420 **Fruit and Vegetable Marketing.** Three credits. (Also listed under Agribusiness.) Prerequisites: SCI 100 and BIOL 100 or approval of instructor. Basic biochemistry of respiration, handling techniques and practices, quality assessment and marketing of fruit and vegetable crops. Both domestic and international marketing of fruit and vegetable products discussed. Examines the economic impact of improper handling on both the local producer and the end user.

430 **Plant Protection.** Three credits. Prerequisite: ABAS 161 or 4 hours of biology. Principles of protecting crop plants from damage by weeds, insects, diseases, and other biotic factors. Pest control by chemical, cultural, and biological methods with an emphasis on integrated pest management.

431 **Forage Crops.** Three credits. Adaptation, distribution, establishment, management, culture, and utilization of forage legumes and grasses.

433 **Turf Management.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Establishment and management of turf grasses for lawns, golf courses, and parks.

434 **Soil Formation.** Three credits. Prerequisite: ABAS 334. Environmental factors affecting soil formation and utilization.

435 **Soil Survey and Land Use.** Three credits. Prerequisite: ABAS 334 or approval of instructor. Soil properties used to determine suitability for land use. Lecture/lab.

437 **Soil and Water Conservation.** Three credits. Principles and practices of soil and water conservation in rural and urban environments. Lecture/lab.

438 **Interior Landscaping.** Three credits. Principles and practices of designing, installing, and maintaining landscapes in malls, public buildings, and other indoor environments.

439 **Urban and Sports Turf Soils.** Three credits. Prerequisites: ABAS 334 and 433. Describe, design, manage, and evaluate urban and sports turf soils. Lecture/lab.

461 **Arboriculture.** Three credits. Prerequisite: ABAS 161 or BIOL 112. The culture of trees, shrubs, and vines in the landscape. Planting, transplanting, fertilizing, irrigation, pruning, problem diagnosis, and damage repair included.

462 **Greenhouse Management.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Analysis of soils, fertilizers, irrigation techniques, container preparation, ventilation, growth regulation, and carbon dioxide enrichment for greenhouse operation. Two hours lecture and two hours lab.

463 **Floriculture.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Propagation and other cultural practices for the production and maintenance of plants and flowers in the home. Two hours lecture and two hours lab.

464 **Landscaping.** Three credits. Application of the principles of design, the use of proportionate-sized woody landscape plants, and other practices to produce low-maintenance-cost landscapes. One hour lecture and four hours lab.

465 **Plant Breeding.** Three credits. Prerequisite: ABAS 161 or BIOL 212. Application of genetics to theory and breeding practices for improvement of agronomic and ornamental plants.

466 **Nursery Management.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Principles and practices of nursery management as a business. Nursery administration, financial management, and marketing. Cultural management of field- and container-grown nursery plants.

467 **Plant Propagation.** Three credits. Prerequisite: ABAS 161 or BIOL 112. Anatomical features and physiological principles involved in propagating plants from seed and by division, cutting, budding, and grafting. Use of growth regulators and environmental factors. Two hours lecture and two hours lab.

468 **Internship in Plant and Soil Science.** Six credits. Prerequisite: Approval of instructor. Practical experience in a specific area of agronomy, horticulture, or soils. Classroom material related to practical application. NOT OPEN TO STUDENTS WHO HAVE RECEIVED CREDIT FROM ANOTHER SCHOOL INTERNSHIP.

469 **Japanese Landscaping.** Three credits. The elements of Japanese garden design.

Agricultural Education

223 **Introduction to Vocational Agricultural Education.** Three credits. Duties of the vocational agriculture teacher with special emphasis on the Future Farmers of America and Supervised Agricultural Experience Programs.

421 **Farm Power and Equipment.** Three credits. Gasoline engines with actual work experience in overhaul. Work also with transmissions, hydraulics, braking systems, and other farm equipment including use of shop manuals, operation manuals, and parts books.

422 **Methods of Teaching Agricultural Mechanics.** Three credits. Emphasis on performing shop skills such as welding, brazing, wiring, etc.

423 **Adult Education in Vocational-Technical Education and Program Development.** Three credits. How to teach adults and administer adult programs. Emphasis on planning, organizing, and arranging courses for adults in agriculture.

424 **A, B, C, D, E Workshops in Agricultural Education.** One to six credits each. Prerequisite: Teaching experience or approval of instructor. Designed to provide vocational agriculture teachers with intensive training in selected areas of agriculture. A MAXIMUM OF SIX CREDIT HOURS IN EACH DIVISION.
424A Production Agriculture
424B Ornamental Horticulture
424C Agricultural Mechanics
424D Farm Energy Alternatives
424E Problems of New and Established Teachers

Agribusiness and Agriscience General

100 **Orientation in Agriculture.** One credit. Job opportunities in agriculture, departmental facilities, extracurricular activities at MTSU associated with specific phases of agriculture. Pass/Fail.

221 **Introduction to Agricultural Engineering.** Three credits. Prerequisite: MATH 141 or 300 or approval of instructor. Basic principles, mechanics, combustion engines, electricity, building construction, and machinery with applications of problem solving techniques.

301 **Agri-Media Skills.** Three credits. Applications of oral and written skills in communicating about agricultural research, shows, and sales.

360 **Horticulture in Our Lives.** Three credits. Emphasis on the role of horticulture in everyday living, through principles of growing plants in the home, floral design, home landscaping, and gardening. NO CREDIT GIVEN TOWARD A MAJOR IN THE SCHOOL OF AGRIBUSINESS AND AGRISCIENCE.

410 **Microcomputer Applications in Agriculture.** Three credits. Prerequisite: CSCI 115 or INFS 220. Includes use of agricultural software, agricultural communications networks, computer dairy feeding systems, and farm records.

425 **Leadership in Agricultural Industries.** Three credits: Prerequisite: Junior or senior standing or consent of instructor. A capstone course to enhance students' leadership and human relation skills in the workplace. Topics include leadership styles, theories, characteristics of leaders (conceptual, technical, human relations), communication styles, group dynamics, conducting successful meetings, problem solving, goal setting, attitudes, motivation, self-concept, learning styles, time management, and employability skills.

470 **Agriculture in Our Lives.** Three credits. National and international importance of U.S. agriculture. Emphasis on food production and marketing, land conservation, and agriculture-related recreation. Accepted as a natural science elective for education majors. NO CREDIT GIVEN TOWARD A MAJOR IN THE SCHOOL OF AGRIBUSINESS AND AGRISCIENCE.

491 **Problems in Agriculture.** One to six credits. Problem or problems selected from one of the major disciplines. May involve conferences with instructor, library work, field study and/or laboratory activity. Students can take from one to three credits with a maximum of three per semester.

499 **Seminar.** One credit. Students required to research and give an oral report on a current agricultural topic.

Graduate Study

A graduate minor is offered in Agriculture. Requirements and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Department of Biology

George Murphy, Chair
Davis Science Building 127

Bailey, Barlow, Blum, Butler, Clark, Doyle, DuBois, Farone, Hemmerly, Howard, Jetton, Johnson, Kelly, Levri, Mathis, McGhee, Miller, Mills, Mullen, Newsome, Reyes, Rosing, Rutledge, Smith-Walters, Stewart, Swain, Walters, Wells, Wright, Zamora

The Department of Biology offers preparation for teachers of biology, for biologists in industrial and governmental employment, and for students planning for graduate study in biology or for advanced professional courses in health sciences. The program for the Biology major leads to the Bachelor of Science degree. Students choose from concentrations in Animal Biology, General Biology, Microbiology, and Plant Biology. A minor in Secondary Education is suggested for those persons planning to teach. A minor in Biology is also available.

Environmental Science and Technology is an interdisciplinary major and minor offered by Agribusiness and Agriscience, Biology, Chemistry, Physics and Astronomy, and Engineering Technology and Industrial Studies. A complete description of the program is found under the Department of Engineering Technology and Industrial Studies.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Biology

The major in Biology requires 40 semester hours including a biology core for all concentrations of 24 semester hours:

1. BIOL 111 and 112 or, with approval of the department head, BIOL 100 with a grade of A or B plus 4 hours from upper-division courses;
2. BIOL 212, 216, 323, 424;
3. BIOL 411 or 421 or 450.

Other requirements include

1. 6 hours of college mathematics or one calculus course or advisor-approved substitution;
2. 12 hours of chemistry (121, 121L, 122, 122L, and 303 or 321);
3. CSCI 100 or equivalent.

All Biology majors are assigned a faculty advisor through the Biology Department office (DSB 128). The student is responsible for seeking the assistance of the advisor. This catalog is not intended to provide the detail necessary for self-advising.

Every Biology major is required to declare a concentration area. Each area requires semester hours to be selected from a set of designated courses.

Concentration: Animal Biology

Minimum of 10 hours selected from:
BIOL 301, 302, 304, 305, 413, 414, 418.

Concentration: General Biology

Select one course from each of the following three areas:

1. BIOL 301 or 302 or 418;
2. BIOL 303 or 408 or 412 or 452;
3. BIOL 304 or 305 or 413 or 414.

Concentration: Microbiology

Minimum of 10 hours selected from:
BIOL 305, 321, 408, 430, 443, 444, 445, 451.

Concentration: Plant Biology

Minimum of 10 hours selected from:
BIOL 303, 406, 408, 412, 452.

Suggested freshman and sophomore program for majors not planning to teach

FRESHMAN		SOPHOMORE	
BIOL 111, 112	8	BIOL 212, 216	8
Chemistry (Area IV-A)	8	English (Area II-A)	6
English (Area I-A)	6	History (Area III-A)	6
Mathematics (Area IV-B)	6	Gen. Studies (Areas I-B, II-B, and III-B)	9
PHED or MS (Area V)	2	PHED or MS (Area V)	2
CSCI 100 or equivalent	1	CHEM 303 or 321	4

			38

Teacher Licensure

Students seeking a license to teach in secondary schools (grades 7-12) must complete (1) a major in the subject they intend to teach, (2) a minor in professional education, and (3) courses in addition to the general education program.

Enhanced General Education Requirements

The following courses are required in addition to the General Studies requirements (see pages 58-59).

MATH 141 College Algebra, 3 hours
MATH 142 Plane Trigonometry, 3 hours
General Science Core:
BIOL 111, 112 General Biology, 8 hours
CHEM 121, 121L, 122, 122L General Chemistry, 8 hours
CHEM 303 Elements of Organic Chemistry, 4 hours, OR
  CHEM 321 Organic Chemistry, 4 hours
ASTR 140 Exploring the Universe, 3 hours
PHYS 231, 233 College Physics I/Laboratory I, 4 hours
PHYS 232, 234 College Physics II/Laboratory II, 4 hours
GEOL 201 Physical Geology, 4 hours

Professional Education Requirements

Students must contact their minor advisor in professional education for approval of appropriate courses. (For specific procedures and additional requirements for teacher licensure, see page 164.)

Biology Major Requirements for Licensure

Complete the following General Biology concentration:
BIOL 111, 112, 8 hours
BIOL 212, 4 hours
BIOL 216, 4 hours
BIOL 323, 2 hours
BIOL 424, 4 hours
Select one: BIOL 301, 4 hours; BIOL 302, 4 hours; BIOL 418, 4 hours
Select one: BIOL 303, 4 hours; BIOL 408, 4 hours; BIOL 412, 4 hours; BIOL 452, 4 hours
Select one: BIOL 304, 3 hours; BIOL 305, 3 hours; BIOL 413, 4 hours; BIOL 414, 4 hours
Select one: BIOL 411, 4 hours; BIOL 421, 4 hours; BIOL 450, 4 hours
Biology electives to total 40 hours minimum.

Minor in Biology

There are two options for the minor in Biology:

1. 19 semester hours in biology including one year of freshman biology or equivalent and BIOL 212 and 216.
2. 19 semester hours in biology including BIOL 100 with a grade of A or B plus 4 hours chosen from upper-division courses and approved by the department head and BIOL 212 and 216.

Each option requires at least one upper-division course to be taken at MTSU. A 2.00 GPA is required for courses satisfying the minor in Biology.

Four or more semester hours of freshman-level general studies equivalent biology in transfer credits may be substituted for BIOL 100.

Students who have taken BIOL 111 or 112 and also BIOL 100 may use BIOL 100 to satisfy their general studies requirement and BIOL 111 or 112 as elective hours toward graduation. However, neither BIOL 111 nor 112 alone will substitute for BIOL 100.

Courses in General Studies Biology [BIOL]

100 **Topics in Biology.** Four credits. Biological principles and processes and their importance to humans. Three lectures and one two-hour laboratory.

Courses in Biology [BIOL]

111, 112 General Biology. Four credits each. Primarily for biology majors and minors and other science-oriented students. Fundamental concepts of organisms as exemplified by different groups of animals and plants. BIOL 111 is primarily zoology and BIOL 112 is primarily botany. It is recommended that BIOL 111 precede BIOL 112. Three lectures and one three-hour laboratory.

201 **Orientation to the Medical Lab.** Two credits. Open to anyone in medical and allied medical careers, but may not be taken as part of Biology major. Survey of medical lab careers, curricula, and affiliated laboratory programs; experience in medical laboratory testing procedures. One lecture and one two-hour laboratory.

212 **Genetics.** Four credits. Prerequisites: 8 hours of biology. An introductory course in genetics. Surveys and explores the sub-disciplines of genetics, including classical, molecular, and evolu-

tionary genetics. Emphasis on the experiments, techniques, and theories forming the foundation of modern genetic research and its applications. Three lectures and one two-hour laboratory per week.

216 **Microbiology.** Four credits. Prerequisites: 8 hours of biology; background in general chemistry strongly recommended. Introduction to morphology, physiology, isolation, and cultivation of bacteria, fungi, and viruses. Three lectures and one two-hour laboratory.

300 **Life Science for Elementary Teachers.** Four credits. Prerequisites: 8 hours of science including BIOL 100 or equivalent. A process-oriented approach to the study of life with emphasis on execution and analysis of activities and experiments suited to the elementary school classroom. Six hours lecture and laboratory. (May not be used for Biology majors or minors.)

301 **Embryology.** Four credits. Prerequisites: BIOL 111 and 112. Early development of the frog, chick, pig, and human. Living material, whole mounts, and serial sections are used for studying cleavage, germ layer formation, histogenesis, and organogenesis. Three lectures and one three-hour laboratory.

302 **Comparative Anatomy of the Vertebrates.** Four credits. Prerequisites: BIOL 111 and 112. Vertebrate morphology and the development and function of systems and organs. Three lectures and one three-hour laboratory.

303 **Non-Flowering Plants.** Four credits. Prerequisites: BIOL 111 and 112. Structure, physiology, methods of reproduction, and classification of the algae, fungi, liverworts, mosses, and ferns. Three lectures and one three-hour laboratory.

304 **Entomology.** Three credits. Prerequisites: BIOL 111 and 112. Structure, classification, evolution, importance, and life history of insects. Five hours of lecture and laboratory.

305 **Parasitology.** Three credits. Prerequisites: BIOL 111 and 112. Life histories, host-parasite relationships, and control measures of the more common parasites of humans and domesticated animals. Two lectures and one three-hour laboratory.

307 **Biology Seminar on Environmental Problems.** Three credits. Causes, effects, and solutions of environmental problems. Three lectures.

308 **Anatomy and Physiology.** Three credits. Prerequisite: BIOL 100 or 111. General structure and physiological activities of human systems. Two lectures and one two-hour laboratory.

310 **History and Philosophy of Biology.** Three credits. Prerequisites: 8 hours of biology. Historical development of biology; the philosophy, ideas, and contributions of outstanding biologists. Two lectures.

313, 314 **Human Anatomy and Physiology I and II.** Four credits each. Prerequisites: BIOL 313 - C or better in high school chemistry and biology within the last five years or consent of instructor; BIOL 314 - C or better in BIOL 313. Strongly recommend BIOL 100/111 prior to BIOL 313. Meets requirements for many pre-health professional programs including nursing. Structure and function of humans covered. Three hours lecture and three hours laboratory per week.

316 **Social Issues and Genetic Technology.** Three credits. Prerequisite: BIOL 100 or 112 or consent of instructor. Exploration of genetic principles related to contemporary issues. Provides students with the background needed to evaluate topics such as the release of genetically engineered plants and animals, the use of DNA fingerprinting techniques, the relationship between race and IQ, and others which impact their lives. Impact of genetics on society as well as society's influence on the science will be explored. Role of genetics in medicine and agriculture also emphasized.

320 **Internship in Biology.** Two to four credits. Prerequisites: 14 hours of biology and departmental approval. Practical experience for students in a professional setting.

321 **Environmental Microbiology.** Three credits. Prerequisites: BIOL 216 and consent of instructor. Deals with microorganisms commonly found in air, water, and soil. Two lectures and one three-hour laboratory.

322 **Environmental Regulations and Compliance.** Three credits. Prerequisites: BIOL 111 and 112 or consent of instructor. An in-depth review and application of governmentally-established regulations concerning environmental quality. Emphasis on major federal acts. Three lectures.

323 **Introduction to Biological Literature.** Two credits. Prerequisites: General biology (8 hours) or consent of instructor. Application of methods of literature research in the biological sciences and techniques of scientific writing.

324 **Introduction to Evolution.** Three credits. Prerequisites: BIOL 111 and 112 or 100 and permission of instructor. Scientific principles and concepts formulating the biological theory of evolution. Includes historical development of modern theory; Darwin's natural selection theory; and problems in speciation, systematics, and geographical distribution of species.

334 **Pathophysiology.** Three credits. (Same as NURS 334.) Prerequisites: BIOL 216, 313, and 314. Introduction to basic mechanisms of disease processes and their role in disrupting normal physiology. Three lectures.

406 **Dendrology.** Three credits. Prerequisite: BIOL 112 or equivalent. Woody plants with emphasis on important timber trees of North America. Two lectures and one three-hour laboratory.

407 **Economic Botany.** Three credits. Prerequisite: BIOL 112 or equivalent. Useful plants which have shaped civilization. Topics include origin of agriculture, fruits and nuts, grains and legumes, vegetables, spices and herbs, oils and waxes, medicinal plants, psychoactive plants. Three lectures.

408 **Mycology.** Four credits. Prerequisite: BIOL 112 or equivalent. Emphasizes taxonomy, morphology, and culture of fungi and their importance to humans. Three lectures and one three-hour laboratory.

411 **General Physiology.** Four credits. Prerequisites: 8 hours of chemistry and 12 hours of biology. Physiochemical properties and functions of life processes in animals using a comparative approach. Three lectures and one three-hour laboratory.

412 **Flowering Plants.** Four credits. Prerequisites: BIOL 111 and 112. Structure and classification of seed plants; a survey of local flora. Three lectures and one three-hour laboratory.

413 **Histology.** Four credits. Prerequisites: BIOL 111 and 112. Microscopic anatomy of vertebrate cells, tissues, and organs. Three lectures and one three-hour laboratory.

414 **Invertebrate Zoology.** Four credits. Prerequisites: BIOL 111 and 112. Structure, functions, life histories, and economic importance of the invertebrate phyla. Laboratory work comprises detailed studies of representative specimens. Three lectures and one three-hour laboratory.

415A **Radiation Biology.** Three credits. Prerequisites: Junior standing and consent of instructor. Types and properties of ionizing radiation, isotopes and tracer study techniques, and the biological effects of ionizing radiations on living things.

417 **Endocrinology.** Three credits. Prerequisites: BIOL 111 and 112 (or equivalent) and one year of chemistry. Strongly recommend BIOL 313 and 314 or 411 (or equivalent). Where and how hormones are produced and how they coordinate and control bodily functions, focusing on humans and other vertebrates. Three lectures.

418 **Vertebrate Zoology.** Four credits. Prerequisites: 8 hours of biology. Structure, life history, and classification of fish, amphibians, and mammals. Local representatives emphasized. Three lectures and one three-hour laboratory.

421 **Cell and Molecular Biology.** Four credits. Prerequisites: BIOL 111, 112, 212, 216, and CHEM 321. Cellular morphology and function. Three lectures and one three-hour laboratory.

422 **Ichthyology.** Four credits. Prerequisites: 14 hours of biology or consent of instructor. The morphology, physiology, taxonomy, and ecology of fishes. Three lectures and one three-hour laboratory.

424 **General Ecology.** Four credits. Prerequisites: BIOL 111 and 112 (or equivalent) and one semester of general chemistry or consent of instructor. Basic concepts of the ecosystem and community aquatic and terrestrial habitats, and population ecology; complemented by field and laboratory activities. Three lectures and one three-hour laboratory.

425 **Limnology.** Four credits. Prerequisites: 12 hours of biology including BIOL 424 and one semester of general chemistry or consent of instructor. Biological, chemical, and physical aspects of lakes and streams. Three lectures and one three-hour laboratory.

426 **Nature Study.** Three credits. Prerequisite: One semester of biology. Identification of local plants and animals and a consideration of the ecological principles governing them. Two lectures and one two-hour laboratory.

427 **Transmitting Electron Microscopy.** Four credits. Prerequisites: 20 hours of biology and/or consent of instructor. Tissue fixation, dehydration, embedding, and thin sectioning for examination and development of micrographs using a Zeiss electron microscope. One hour lecture and three two-hour laboratory periods.

428 **Undergraduate Research in Biology.** Three credits. Prerequisites: Junior or senior status and consent of instructor. Selection, design, and conduction of projects.

429 **Scanning Electron Microscopy.** Four credits. Prerequisites: One year of science and/or consent of instructor. Preparation of biological and non-biological materials for examination and development of micrographs using an ISI electron microscope. One hour lecture and three two-hour laboratory periods.

430 **Immunology.** Four credits. Prerequisite: BIOL 216 or consent of instructor. Humoral and cellular mechanisms of immunity. Two lectures and one two-hour laboratory.

432 **Seminar: Advancements in Biology.** Two credits. Prerequisite: Senior standing or consent of instructor. A broad overview of biological principles and recent research developments. Two lectures.

433 **A-Z Biome Analysis.** One to four credits. Prerequisite: Junior or senior standing or consent of instructor. An intensive classroom and on-site study of a specific biome. Special emphasis on data collection and analysis. Consult the department chair for specific credits and costs.

435 **Biometry.** Four credits. Prerequisites: 12 hours of biology and college algebra. Statistical methods utilized in biological research. Three lectures and one two-hour laboratory.

436 **Energy Dispersive X-Ray Analysis.** One credit. Prerequisite: BIOL 429. Elemental analysis of materials using an energy dispersive x-ray system with scanning electron microscopy. One three-hour laboratory.

439 **Ethology.** Four credits. Prerequisite: BIOL 111 or equivalent. Innate and learned animal behavior in primitive and advanced animals including behavior associated with space, reproduction, and food getting. Three lectures and one three-hour laboratory.

440 **Medical Botany.** Three credits. Prerequisite: BIOL 112 or equivalent. Plants affecting human health. Included are poisonous and psychoactive as well as remedial plants; both ethnobotanical and modern medicinal uses treated. Three lectures.

443 **Diagnostic Microbiology.** Four credits. Prerequisite: BIOL 216. Microorganisms that cause disease in humans and other ani-

mals, their isolation and identification, mechanisms of disease causation, and methods of control. Two lectures and one four hour laboratory.

444 **General Virology.** Four credits. Prerequisites: BIOL 216 and one year of chemistry. Viruses, with emphasis on their clinical importance and impact on biotechnology. Two lectures and one four-hour laboratory.

445 **Molecular Genetics.** Four credits. Prerequisites: BIOL 216, 212, and one year of chemistry. Basic techniques of microbial genetics and gene manipulation with emphasis on the application of molecular genetics in basic and applied research. Six hours lecture/laboratory.

446 **Human Genetics.** Three credits. Prerequisite: BIOL 212. Application of the fundamental laws of inheritance to humans. Two lectures and one two-hour laboratory.

450 **Plant Physiology.** Four credits. Prerequisites: 12 hours of biology including BIOL 212 and one semester of organic chemistry. Plant growth, development, and metabolism at the cellular and whole plant levels. Six hours of lecture and laboratory.

451 **Food/Industrial Microbiology.** Four credits. Prerequisite: BIOL 216 or equivalent. Interaction between microorganisms and food; industrial processes of importance to humans. Two lectures and two two-hour laboratory periods.

452 **Plant Anatomy.** Four credits. Prerequisite: BIOL 112 or equivalent. Plant cells, tissues, and organs. Emphasis on the survival value of the plant's various structural features. Three lectures and one three-hour laboratory.

454 **A-Z Topics in Environmental Education.** One to four credits. Prerequisite: Junior standing or above or consent of instructor. An intensive classroom and field study of natural science and resources in Tennessee. Special emphasis on data collection, analysis, and problem solving. Target groups are upper-division students in biology and education. Consult the department chair for specific credits and costs. THIS COURSE DOES NOT APPLY TO THE BIOLOGY MAJOR OR MINOR.

455 **Biotechnology.** Three credits. Prerequisites: 12 hours of biology to include microbiology (BIOL 216). Instruction in both theory and application of current research methodologies in biology and molecular biology. Topics include immunochemistry, polymerase chain reaction, restriction enzyme analysis, and electrophoresis. Five hours lecture and laboratory.

456 **Neurobiology.** Four credits. Prerequisites: BIOL 111 or PSY 403 or 424 or consent of instructor. Introduces comparative neurobiology. Topics include the basic structure and function of the nerve cell and organization of nervous systems of representative species of invertebrate and vertebrate animals. Three hours lectures and three hours laboratory.

457 **Principles of Toxicology.** Three credits. Prerequisites: 8 hours biology and 12 hours chemistry including one semester organic chemistry. Study of adverse effects of chemical agents on living organisms; current toxicological techniques used in the laboratory. Two hours lecture and three hours laboratory.

458 **Marine Biology.** Four credits. Prerequisites: BIOL 111 and 112; two semesters of chemistry. Introduction to the biological, chemical, and physical characteristics of major marine environments and their associated flora and fauna. Three lectures and one lab per week.

Gulf Coast Research Laboratory

MTSU is an affiliate of the Gulf Coast (Miss.) Research Laboratory. Marine biology courses may be taken at the Station during the summer and the credits transferred to MTSU. Summer course offerings are as follows:

BOT	331	Coastal Vegetation. Three credits.
BOT	341	Marine Botany. Four credits.
BOT	441	Salt Marsh Plant Ecology. Four credits.
CH	461	Marine Chemistry. Six credits.
GEO	431	Coastal Marine Geology. Three credits.
MIC	452	Marine Microbiology. Five credits.
MS	400	Special Problems in Marine Science. One-six credits.
MS	405	Special Topics in Marine Science. One-six credits.
MSE	431	Marine Science for Teachers I. Three credits.
MSE	432	Marine Science for Teachers II. Three credits.
MSE	433	Marine Science for Elementary Teachers. Three credits.
OCE	251	Oceanography I. Five credits.
OCE	252	Oceanography II. Five credits.
ZO	141	Introduction to Marine Zoology. Four credits.
ZO	361	Marine Invertebrate Zoology. Six credits.
ZO	362	Marine Vertebrate Zoology and Ichthyology. Six credits.
ZO	408	Comparative Histology of Marine Organisms. One-six credits.
ZO	442	Marine Fisheries Management. Four credits.
ZO	443	Behavior and Neurobiology of Marine Animals. Four credits.
ZO	447	Fauna and Faunistic Ecology of Tidal Marshes. Four credits.
ZO	448	Early Life History of Marine Fishes. Four credits.
ZO	452	Marine Ecology. Five credits.
ZO	464	Aquaculture. Six credits.

Graduate Study

The Master of Science and Master of Science in Teaching degrees are offered in Biology. Requirements for these degrees and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Honors College

The Department of Biology offers the following courses in Honors:

BIOL 100H (Fall/Spring Semester)
BIOL 111H (Fall/Spring Semester)
BIOL 112H (Spring Semester)
BIOL 216H (Spring Semester)
BIOL 316H (Spring Semester of even-numbered years)

Department of Chemistry

Earl F. Pearson, Chair
Davis Science Building 239

Bonicamp, Burden, Chong, Clark, Devendorf, DiVincenzo, Dunlap, Friedli, Howard, Ilsley, Iriarte-Gross, Kline, Lee, MacDougall, Melton, Ooi, D. Patterson, P. Patterson, Stewart, White, Wilson, Wulfsberg

The Department of Chemistry has as its objectives preparation and training in both scientific principles and skills for chemists seeking industrial or governmental employment; students planning graduate study in the sciences or advanced professional courses of study in medicine or engineering; science teachers in public or private schools; and for students wishing to meet institutional requirements in chemistry.

Programs in the department lead to the Bachelor of Science degree with majors in Chemistry or Science. Only one minor of at least 18 semester hours is required with each of these majors. Minors also are offered in the two fields. In addition, pre-professional programs for cytotechnology, dentistry, dental hygiene, health information management, medicine (optometry), medical technology, nuclear medicine technology, occupational therapy, pharmacy, physical therapy, and radiation therapy technology are offered under the Health Sciences concentration.

Environmental Science and Technology is an interdisciplinary major and minor offered by Agribusiness and Agriscience, Biology, Chemistry, Engineering Technology and Industrial Studies, and Physics and Astronomy. A complete description of the program can be found under the Department of Engineering Technology and Industrial Studies.

A grade of C or better is required on all transfer credits accepted as part of a major or minor in the Department of Chemistry. Students must have a grade point average of at least 2.00 on courses counting toward a major or minor in any of the department's programs.

Laboratory safety is of primary importance in the Department of Chemistry. Students are required to follow **all** laboratory safety rules, a statement of which will be provided to all students at the first laboratory period. **Approved safety goggles must be worn at all times while in the laboratory.** Failure to comply with any of the laboratory rules may result in the student's removal from the laboratory for that laboratory period. Continued violation of safety rules can result in the withdrawal of the student from the course.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Chemistry, Professional

The Professional Chemistry major, approved by the American Chemical Society, consists of 48 semester hours in chemistry including CHEM 121, 121L, 122, 122L, 222, 321, 322, 324, 416, 421, 422, 423, and 426 plus 8 hours from CHEM 424, 425, 428/400, 429, or 450; mathematics through MATH 221; MATH 222 or PHYS 315; PHYS 231, 233, 232, 234 (or 235, 237, 236, 238), and computer science approved by advisor. A minimum of 12 upper division hours in the Chemistry major must be taken at MTSU.

Recommended Sequence

FRESHMAN		SOPHOMORE	
CHEM 121, 121L, 122, 122L	8	CHEM 222, 321, 322	13
MATH 121, 122	8	PHYS 231, 233, 232, 234 (or 235, 237, 236, 238)	8
BIOL 111, 112 (Area IV-A)	8	MATH 221	4
ENGL 111, 112 (Area I-A)	6	ENGL 211 (Area II-A)	3
PHED or MS (Area V)	2	CSCI 115	3
	32	PHED or MS (Area V)	2
			33

JUNIOR		SENIOR	
CHEM 324, 416, 421, 422, 426	16	CHEM 423	4
ENGL 2-- (Area II-A)	3	CHEM 424, 425, 428/400, 429, or 450	8
HIST 201, 202, or 366 (Area III-A)	6	Gen. Studies (Area III-B)	3
MATH 222 or PHYS 315	4	Electives	17
Gen. Studies electives (Areas I-B, II-B)	6		32
	35		

Major in Chemistry

The Chemistry major consists of 36 semester hours in chemistry including CHEM 121, 121L, 122, 122L, 222, 321, 322, 401, 402 (or 421, 422), and at least 7 hours from among the upper-division electives: CHEM 325 or 425, 416, 424, 428 or 400, 470, 471 or 423, and SCI 400. Also required are MATH 122; PHYS 231, 232, 233, and 234; CSCI 115; and fulfillment of University General Studies requirements. A minimum of 12 upper-division hours in the Chemistry major must be taken at MTSU.

NOTE: Students who wish to get jobs as chemists are strongly encouraged to take additional upper-division courses, especially CHEM 471, follow the plan for the professional major, or take more advanced chemistry courses upon graduation.

Recommended Sequence

FRESHMAN		SOPHOMORE	
CHEM 121, 121L, 122, 122L	8	CHEM 222	5
MATH 121*, 122	8	CHEM 321, 322	8
BIOL 111, 112 (Area IV-A)	8	ENGL 211, 2-- (Area II-A)	6
ENGL 111, 112 (Area I-A)	6	HIST 201, 202, or 366 (Area III-A)	6

	32	PHED or MS (Area V)	2
		Gen. Studies (Area I-B)	3
			33

JUNIOR		SENIOR	
Chemistry electives**	7-8	CHEM 401, 402	8
PHYS 231, 232, 233, 234	8	Electives	24-25
Gen. Studies (Areas II-B and III-B)	6		**32-33**
Electives	12		
	33-34		

**Can substitute MATH 141, 142*

**Upper-division chemistry elective from the following: CHEM 325 or 425, 416, 424, 428/400, 470, 471 or 423, and SCI 400*

Minor in Chemistry

The minor in Chemistry consists of 19 semester hours of chemistry, including CHEM 121 and 122 with a maximum of 8 hours in freshman-level chemistry. At least four upper-division hours must be taken at MTSU.

Teacher Licensure in Chemistry

Students seeking a license to teach chemistry in secondary schools (grades 7-12) must complete (1) a major in chemistry, (2) a minor in professional education, and (3) courses in addition to the General Studies requirements. Students can also become licensed to teach chemistry under the science major; the information follows.

Enhanced General Education Requirements

In addition to the General Studies requirements (see pages 58-59), the following courses are required for licensure in chemistry:

MATH 122 Calculus I
CSCI 115 Computer Orientation
BIOL 111, 112 General Biology
CHEM 121, 121L, 122, 122L General Chemistry
PHYS 231/233 College Physics I/Laboratory I
PHYS 232/234 College Physics II/LaboratoryII
ASTR 140 Exploring the Universe (or ASTR 340)
GEOL 201 Physical Geology

Professional Education Requirements

Students must contact their minor advisor in professional education for approval of appropriate courses. (For specific procedures and additional requirements for teacher licensure, see page 164.)

Major Requirements

Students who want to teach secondary chemistry must complete the chemistry major in the following manner:

CHEM 121, 121L General Chemistry
CHEM 122, 122L General Chemistry
CHEM 222 Quantitative Analysis
CHEM 321, 322 Organic Chemistry
CHEM 401 Physical Chemical Fundamentals OR
  CHEM 421 Physical Chemistry
CHEM 402 Physical Chemistry Fundamentals OR
  CHEM 422 Physical Chemistry
Four hour upper-division chemistry elective

Major in Science

The major in Science has two concentrations—General Science and Health Science.

Concentration: General Science

The General Science concentration is a broad-based science degree; the inclusion of specified required courses makes this concentration well suited for students seeking licensure to teach biology, chemistry, or physics. The General Science concentration requires 19 semester hours acceptable for a minor in each of two fields selected from biology, chemistry, and physics plus 8 semester hours from the third field. The General Science concentration adapted to meet teaching licensure requirements is shown.

Teacher Licensure in Science

Students may become licensed to teach biology, chemistry, or physics in secondary schools (grades 7-12) by completing (1) a major in science with a General Science concentration in which biology, chemistry, or physics is, respectively, one of the 19-hour disciplines chosen; (2) courses in addition to the General Studies requirements; and (3) a minor in professional education.

Students also may become licensed to teach biology, chemistry, or physics by majoring in the subject they intend to teach (see requirements listed under the specific discipline major).

Programs are suggested for the first two years. Each student should work closely with his/her advisor in completing the program for the last two years.

Enhanced General Education Requirements

In addition to the General Studies requirements (see pages 58-59), the following science courses are required for licensure in any science: BIOL 111, 112; CHEM 121, 121L, 122, 122L; PHYS 231, 233, 232, 234 (or 235, 237, 236, 238); ASTR 140; GEOL 201; and CSCI 115. Biology licensure requires MATH 141 and 142. Chemistry licensure requires MATH 122. Physics licensure requires MATH 221.

Major Requirements

For licensure in Chemistry, 19 hours to include:
CHEM 121, 121L, 122, 122L General Chemistry
CHEM 321, 322 Organic Chemistry
CHEM 470 Introduction to Environmental Chemistry

For licensure in Biology, 19 hours to include:
BIOL 111, 112 General Biology
BIOL 212 Genetics
BIOL 216 Microbiology
BIOL 424 General Ecology
Anatomy Elective

For licensure in Physics, 19 hours to include:
PHYS 231/233 College Physics I
PHYS 232/234 College Physics II
PHYS 310, 311 Modern Physics
ASTR 140 Exploring the Universe (or ASTR 340)
PHYS 370 Introduction to Environmental Physics

Professional Education Requirements

Students must contact their minor advisor in professional education for approval of appropriate courses. (For specific procedures and additional requirements for teacher licensure, see page 164.)

Concentration: Health Science

The Health Science concentration is for students who expect to enter a professional school after completing an appropriate pre-professional curriculum. There are two groups of programs. One group leads to an MTSU degree through completion of three years of the program at MTSU, acceptance into a professional school, and successful completion of one year. These programs are referred to as three-and-one programs and result in a bachelor's degree in science from MTSU with a health science concentration. Other programs listed under health science are designed for transfer only and do not lead to a degree from MTSU.

Admission to the MTSU pre-professional program does not assure admission to a professional program. In the beginning of the third year, the student should make application to the program of choice, following the procedures of the particular program. Selection for admission is competitive and is made by the admissions committee of the respective program according to their selection standards.

The limits on class size in most of the professional programs may prevent acceptance of some qualified applicants. In the event a first application is unsuccessful, the program may be easily changed to a chemistry or biology major leading to a B.S. degree, and then application may be made a second time.

Students should note the following:
Chemistry—Students with a weak background or no high school chemistry should enroll in CHEM 111 and 111L before taking CHEM 121 and 121L.
Mathematics—Mathematics is not required for entrance into medical school, dental school, pharmacy school, or physical therapy school; however, mathematics is necessary for physics which is required. MATH 141 and 142 provide the minimum math preparation; good students are advised to take MATH 121 and 122.
Physics—Students with a weak background in physics should take PHYS 130 prior to taking PHYS 231.
Irregularities—Advanced placement, remedial courses, failure of required courses, or summer school may cause some students to deviate from the sequence in the recommended curriculum. Regular consultation with the advisor is most important.
Advisors—Advisors to these programs are assigned in the office of the Chemistry Department. The advisor will provide a curriculum sheet as a guide for the program. Guidance is provided on the recommended courses and procedures to be followed in leading to applications to a professional program. A pre-professional evaluation committee aids the students in providing recommendations requested by the professional programs.
Degree from MTSU—Students who plan to obtain degrees from MTSU must file the Intent to Graduate Form.

Three-and-One Programs

The following are programs that lead to an MTSU degree: pre-dental, pre-medical, pre-pharmacy, pre-cytotechnology, pre-medical technology, pre-nuclear medicine technology, and pre-radiation therapy technology.

Since acceptance into dental or medical school after three years is highly competitive, most students complete the specified pre-dental or pre-medical curriculum, then complete a fourth year at MTSU which will lead to a bachelor's degree in biology, chemistry, or science.

General requirements for a degree under this concentration:
1. Complete the specified three-year pre-professional curriculum consisting of at least 99 hours.
2. Apply to, be accepted in, and successfully complete either one year (33 hours) in the professional school or

one year of an approved clinical or laboratory school (for which 33 hours will be granted).

3. Each program will require a minimum of 35 hours of science (biology, chemistry, physics).
4. Twenty-four (24) upper-division hours from MTSU of which 12 must be in science as approved by the advisor. *NOTE: Any hours granted for laboratory experience do not apply to these 24 upper-division hours.*
5. The last 30 semester hours must be in residence at MTSU.

Pre-dental Curriculum

The following curriculum is proposed for students planning to enter the College of Dentistry at the University of Tennessee, Memphis, and will meet the requirements for a B.S. degree from MTSU upon successful completion of one year in dental school. See page 56 for specific requirements.

NOTE: Many applicants find that a B.S. degree is required to be competitive for acceptance; therefore, most pre-dental students usually pursue a chemistry major and biology minor or vice versa.

Recommended Curriculum

FRESHMAN		**SOPHOMORE**	
CHEM 121, 121L, 122, 122L	8	CHEM 321, 322	8
BIOL 111, 112	8	ENGL 211, 2-- (Area II-A)	6
ENGL 111, 112 (Area I-A)	6	HIST 201, 202 (Area III-A)	6
MATH 141, 142*	6 or 10	BIOL 302, 413	8
PHED or MS (Area V)	2	PHED or MS (Area V)	2
Gen. Studies (Areas I-B, III-B)	6 or 0	Gen. Studies (Area II-B)	2
		Electives	3
	34-36		**35**

JUNIOR	
CHEM 325	4
PHYS 231, 233, 232, 234	8
Electives	24
	36

**Good math students should take MATH 121 and 122 and delay General Studies electives until later semesters; students with a weak background in physics should take PHYS 130 prior to taking PHYS 231.*

***Additional courses elected must satisfy the requirements for 48 upper-division hours (24 for the three-and-one program); 132 total hours for graduation (99 for the three-and-one program), and for the B.S. degree (but not for the three-and-one program) major and minor. At least one hour of computer science is required.*

Pre-medical Curriculum
(Including optometry, osteopathy, or chiropractic)

The pre-medical curriculum prepares students to make application to all of the medical schools in Tennessee and most of the medical schools in the United States. A student planning to enter a medical school in another state is expected to supply the advisor with a catalog from the school under consideration. Students who plan to apply for admission to a school of optometry***, osteopathy, or chiropractic should follow this general pre-medical curriculum.

Recommended Curriculum

FRESHMAN		**SOPHOMORE**	
CHEM 121, 121L, 122, 122L	8	CHEM 321, 322	8
MATH 121*, 122	8	BIOL 212, 216	8
BIOL 111, 112	8	PHYS 231, 232, 233, 234	8
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6
PHED or MS (Area V)	2	PHED or MS (Area V)	2
	32	Elective	1
			33

JUNIOR		**SENIOR**	
CHEM 222	5	CHEM 401, 402	8
CHEM 325 or 425	4	BIOL 413	4
CSCI 115	3	Chemistry, Biology, and General electives**	21
BIOL 302, 421	8		**33**
HIST 201, 202, or 366 (Area III-A)	6		
Gen. Studies (Areas I-B, II-B, and III-B)	9		
	35		

Students with a weak background in physics should take PHYS 130 prior to taking PHYS 231.

**Can substitute MATH 141 and 142*

***Electives must be selected carefully in order to assure meeting institutional requirements for graduation: (1) completion of General Studies requirements; (2) completion of a minor; (3) completion of a minimum 48 semester hours of upper-division work (courses numbered 300 and above).*

****MATH 122 and BIOL 216 required*

Pre-pharmacy Curriculum

The following curriculum is proposed for students planning to enter pharmacy school after three years of study at MTSU. Well-prepared students may be able to complete pharmacy admission requirements in two years and should consult with their advisors regarding course selection. The course schedule below meets prerequisites for the Pharm.D. programs at the University of Tennessee at Memphis, Samford University, and Mercer University. Students planning to enter other schools of pharmacy should consult regularly with their advisors and choose courses required by the particular school.

Recommended Curriculum

FRESHMAN		**SOPHOMORE**	
CHEM 121, 121L, 122, 122L	8	BIOL 111, 112	8
MATH 141, 142	6	PHYS 231, 232, 233, 234	8

Students with a weak background in physics should take PHYS 130 prior to taking PHYS 231.

**Psychology, Sociology, Economics, Anthropology, or Political Science*

Pre-cytotechnology Curriculum (CT)

The curriculum outlined for the Medical Technology program may be followed at MTSU; after successful completion of a program in a nationally accredited cytotechnology school, a B.S. degree from MTSU can be received.

Pre-medical Technology Curriculum (MT)

The medical technology degree program requires the successful completion of three years (minimum of 99 semester hours) academic work followed by a minimum of 12 months (33 semester hours or equivalent) in a medical technology program approved by a national accrediting agency and by Middle Tennessee State University. The academic program must fulfill all General Studies requirements for a B.S. degree, include at least 24 semester hours of courses numbered 300 or above, and at least the last two semesters (30 semester hours) must be in residence at MTSU. All other requirements for graduation given elsewhere in this catalog must be met. Specific course requirements are shown below.

Upon approval, a student with the MLT certification from a nationally accredited program at a community college or from any other nationally-accredited MLT program may enroll at MTSU, follow the academic part of the medical technology curriculum, fulfill MTSU requirements for graduation, and receive credit (33 semester hours for programs with credit hours not assigned) for the MLT clinical work to be applied toward the B.S. degree. In addition to appropriate MLT certification, three years of full-time clinical laboratory experience are required, in accordance with state and national regulations.

Recommended Curriculum

FRESHMAN	
ENGL 111, 112 (Area I-A)	6
CHEM 121, 121L, 122, 122L	8
BIOL 111, 112	8
MATH 141 and PHYS 130 (231/233 lab)	6-7

**Student should consult advisor for acceptable electives.*

FOURTH YEAR: PROFESSIONAL PROGRAM**

Biochemistry (11 semester hours):
  Clinical Chemistry
  Urinalysis
  Special Chemistry
Microbiology (8 semester hours):
  Bacteriology
  Mycology
  Parasitology
Immunohematology (14 semester hours):
  Immunology (Serology)
  Hematology
  Coagulation
  Blood Banking

***Specific courses and titles may vary slightly with the different programs. However, the major areas of study are the same and the total course offerings of each affiliated program fulfill the 33 semester-hour requirement.*

REGISTRATION PROCEDURE FOR THE FOURTH YEAR

Upper-division forms must have been completed and approved by the dean, College of Basic and Applied Sciences, at the end of the second year. After acceptance to an accredited medical technology program, the student will be considered registered for the professional year when the following procedures are completed:

1. A letter of recommendation is sent from the faculty advisor to the dean, College of Basic and Applied Sciences, stating the name of the program, the program being taken during the senior year, and dates of beginning and completion of the program.
2. Approval is given by the dean, College of Basic and Applied Sciences, of the advisor's recommendation by letter, authorizing the student to attend the program indicated. Copies of the letters are sent to the Records Office, to the advisor, and to the professional program.
3. An Intent to Graduate Form is filed by the student in the Records Office at the beginning of the semester before the semester in which graduation is expected.

AFFILIATED MEDICAL TECHNOLOGY PROGRAMS

1. Vanderbilt Medical Center, Program of Medical Technology, Nashville, Tennessee
2. TSU-Meharry, Program of Medical Technology, Nashville, Tennessee

Acceptance of work from non-affiliated schools may also be arranged on an individual student basis.

Pre-nuclear Medicine Technology

The Nuclear Medicine Technology degree program requires a successful completion of three years (minimum of 99 semester hours) academic work at MTSU followed by a minimum of 12 months (33 semester hours or equivalent) in a nuclear medicine technology program approved by a national accrediting agency and by Middle Tennessee State University. The academic program must fulfill all General Studies requirements for a B.S. degree, include at least 24 semester hours of courses numbered 300 or above, and at least the last two semesters (junior year, 30 semester hours) must be in residence at MTSU. All other requirements for graduation given elsewhere must be met.

***If the student has not had high school biology, BIOL 111 is strongly recommended before taking BIOL 313.*

****CHEM 303 or 321 and CHEM 322 or 325 are required for the University of Tennessee-Knoxville.*

Pre-radiation Therapy Technology Curriculum

The Radiation Therapy Technology degree program requires a successful completion of three years (minimum of 99 semester hours) academic work at MTSU followed by a minimum of 12 months (33 semester hours or equivalent) in a radiation therapy technology program approved by a national accrediting agency and by Middle Tennessee State University. The academic program must fulfill all General Studies requirements for a B.S. degree, include at least 24 semester hours of courses numbered 300 or above, and at least the last two semesters (junior year, 30 semester hours) must be in residence at MTSU. All other requirements for admission given elsewhere must be met.

Other Transfer Programs

The following programs do not lead to an MTSU degree: predental hygiene, pre-health information management, preoccupational therapy, and pre-physical therapy. Students apply to the professional school during the second or third year.

Pre-dental Hygiene Curriculum

The following curriculum is proposed for students planning to make application to the dental hygiene program in the College of Allied Health Sciences at the University of Tennessee-Memphis.

Recommended Curriculum

Pre-health Information Management Curriculum

The following curriculum is proposed for students planning to enter the program of health information management (formerly medical record administration) at the College of Allied Health Sciences at the University of Tennessee-Memphis. The program requires three years of study (90 semester hours minimum) at MTSU followed by one calendar year in Memphis. Successful completion of the entire program will entitle the student to receive a Bachelor of Science degree granted by the University of Tennessee.

Students who plan to apply for admission to other schools of health information management should consult with their advisors.

**For admission to University of Tennessee-Memphis, a minimum of fifteen (15) upper-division hours is required. The business courses and statistics courses listed above satisfy this requirement.*

Pre-occupational Therapy Curriculum

The following curriculum is proposed for students planning to enter the occupational therapy program at the College of Allied Health Sciences, University of Tennessee-Memphis. The program requires two years of study (64 semester hours minimum) at MTSU followed by two calendar years at UT-Memphis. Successful completion of the program will entitle the student to receive a Bachelor of Science degree in Occupational Therapy granted by the University of Tennessee.

Students who plan to apply for admission to other schools of occupational therapy should consult with their advisors.

***Students with a weak background in physics should take PHYS 130 before taking PHYS 231 and 233.*

****Suggested electives from anthropology, art, education, history, kinesiology, language, mathematics, music, philosophy, sociology, and theatre.*

Pre-physical Therapy Curriculum

The following curriculum is proposed for students planning to make application to the physical therapy program in the College of Allied Health Sciences at the University of Tennessee-Memphis. Since different schools have different prerequisites, curriculum guide sheets for this and other schools in Tennessee should be obtained from the secretary in DSB 241. At that time, a pre-physical therapy advisor should be obtained. *Frequent contact with the advisor is essential to being properly prepared for application to the professional schools.* Volunteer work in physical therapy is required. A student intending to apply to other schools should obtain admission packets from them and consult with his/her advisor.

***Students with a weak background in physics should take PHYS 130 before taking PHYS 231/233.*

****Social science courses and electives should be chosen from MTSU general studies requirements or courses necessary to meet requirements of other PT programs (preferably both) to total at least 60 hours excluding PHED activity courses. Possible courses for the social sciences include ANTH 210; SOC 101, 201; PHIL 201; HIST 201, 202****, 191, 192; ECON 241, 242 or other history, psychology, anthropology, philosophy, or sociology courses.*

*****Students who have not had a year of American history in high school must take HIST 201, 202 (which will not simultaneously meet the social science requirement).*

Minor in Science

The minor in Science consists of 16 semester hours in biology, chemistry, or physics, and 8 semester hours in one of the other two. At least four upper-division hours in a science must be taken at MTSU. Consult your advisor to determine which courses will satisfy minor requirements.

Courses in Chemistry [CHEM]

111 **Introductory General Chemistry.** Four credits. For students with no prior courses in chemistry; to be taken before CHEM 121. Introduces fundamental concepts of chemistry: measurements, matter, chemical bonds, chemical reactions, nuclear chemistry, states of matter, solutions, and electrolytes. Three hours of lecture. Must enroll in a 111L section in the same semester. Will not count toward a major or minor in Chemistry.

111L **Introductory General Chemistry Laboratory.** Laboratory to accompany CHEM 111. Must be taken **concurrently** with CHEM 111.

112 **Introductory General Chemistry.** Four credits. Prerequisites: CHEM 111 and 111L. Topics include hydrocarbons, organic functional groups, isomerism, carbohydrates, lipids, nucleic acids and proteins, enzymes, and metabolism. Three hours of lecture. Must enroll in a 112L section in the same semester. Will not count toward a major or minor in Chemistry.

112L **Introductory General Chemistry Laboratory.** Laboratory to accompany CHEM 112. Must be taken **concurrently** with CHEM 112.

121 **General Chemistry.** Four credits. Prerequisites: High school chemistry; CHEM 111 and 111L or equivalent. Fundamental concepts of atomic structure, molecular structure and bonding, chemical reactions, stoichiometric relationships, periodic properties of the elements, thermochemistry, and properties of gases. Three hours of lecture. Must enroll in a 121L section in the same semester.

121L **General Chemistry Laboratory.** Laboratory to accompany CHEM 121. Must be taken **concurrently** with CHEM 121.

122 **General Chemistry.** Four credits. Prerequisites: CHEM 121 and 121L or CHEM 121H. Chemical equilibrium, solid and liquid states of matter, chemistry of acids and bases, principles of chemical kinetics, precipitation reactions, elementary thermodynamics, electrochemistry, and nuclear chemistry. Three hours of lecture. Must enroll in a 122L section in the same semester.

122L **General Chemistry Laboratory.** Laboratory to accompany CHEM 122. Must be taken **concurrently** with CHEM 122.

222 **Quantitative Analysis.** Five credits. Prerequisites: CHEM 122 and 122L or CHEM 122H. Gravimetric and volumetric determinations, an introduction to optical and electrical methods of analysis, and the stoichiometry of analytical chemistry. Three hours lecture and two three-hour laboratories.

250 **Undergraduate Research I.** One to four credits. Prerequisite: Permission of the instructor. Student research allied with the instructor's research or designed specifically for the particular student. Minimum of three clock-hours work per week required for each credit hour. Counts for elective hours toward graduation but does not count for a major or minor in Chemistry. May be repeated for a total of four credits.

293, 294 **Cooperative Education.** Three credits. Provides students with opportunities for on-the-job training in conjunction with on-campus academic experiences. Department chair should be consulted. Pass/Fail.

303 **Elements of Organic Chemistry.** Four credits. Prerequisites: CHEM 112 and 112L or 122 and 122L or CHEM 122H. Aspects of organic chemistry fundamental to an understanding of reactions in living organisms. Three hours lecture and one three-hour laboratory.

321 Organic Chemistry. Four credits. Prerequisites: CHEM 122 and 122L or equivalent or CHEM 122H. Types of carbon compounds, their nomenclature, reactions, and physical properties. Three hours of lecture and one three-hour laboratory.

322 Organic Chemistry. Four credits. Prerequisite: CHEM 321. A continuation of CHEM 321. Three hours of lecture and one three-hour laboratory.

324 Organic Chemistry—Laboratory. One credit. Prerequisite: CHEM 321. Special laboratory techniques involved in the synthesis, isolation, and characterization of organic compounds. One three-hour laboratory.

325 Principles of Biochemistry. Four credits. Prerequisite: CHEM 303 or 322. Structure, properties, and functions of carbohydrates, lipids, and proteins and their reactions in living organisms. Three hours lecture and one three-hour laboratory.

350 Undergraduate Research II. One to four credits. Prerequisite: CHEM 222 and permission of the instructor. Student research allied with the instructor's research or designed specifically for the particular student. Minimum of three clock-hours work per week required for each credit hour. Summary report or some other form of presentation required. A total of no more than four credit hours of CHEM 350, CHEM 450, or SCI 400 may be counted toward a major in chemistry. May be repeated for a total of four credits.

397, 398 Cooperative Education. Three credits. Provides students with opportunities for on-the-job training in conjunction with on-campus academic experiences. Department chair should be consulted. Pass/Fail.

400 Polymer and Materials Chemistry Laboratory. One credit. Prerequisite: Organic chemistry; physical chemistry strongly recommended. Laboratory introduction to synthesis, kinetics, characterization, engineering, and applications of polymers and other modern materials. To be taken concurrently with CHEM 428.

401 Physical Chemistry Fundamentals. Four credits. Prerequisites: PHYS 232 and 234; CHEM 222; MATH 122. Basic study of physical chemistry including modern theories of atomic and molecular structure, chemical thermodynamics, electrochemistry, chemical kinetics, and related theoretical topics. Three hours lecture and one three-hour laboratory.

402 Physical Chemistry Fundamentals. Four credits. Prerequisite: CHEM 401. A continuation of CHEM 401. Three hours lecture and one three-hour laboratory.

415 Technical Writing for Chemists. One credit. Prerequisite: Completion of undergraduate English requirements. Emphasis on improving communication skills using writing exercises. Students will develop writing skills necessary to transmit technical information effectively, construct persuasive proposals and resumes, and produce clearly written reports of laboratory results.

416 Inorganic Chemistry. Three credits. Prerequisites: CHEM 122 and 122L or equivalent; CHEM 303 or 321 recommended. The basic concepts and theories of inorganic chemistry and how these are used to predict and understand the physical and chemical properties of compounds of the elements other than carbon. Inorganic compounds in the air, water, earth, and in the laboratory and in biochemistry, geochemistry, and industrial materials and processes.

421 Physical Chemistry. Four credits. Prerequisites: CHEM 222; MATH 222; PHYS 234 and 236. Quantitative principles of chemistry involving extensive use of calculus. Thermodynamics, phase changes, chemical equilibria, electrochemistry, reaction kinetics, quantum chemistry, molecule structure, and statistical mechanics. Three hours lecture and one three-hour laboratory.

422 Physical Chemistry. Four credits. Prerequisite: CHEM 421. A continuation of CHEM 421. Three hours lecture and one three-hour laboratory.

423 Instrumental Analysis. Four credits. Prerequisites: CHEM 222, 322, and 422. Potentiometric titration, polarographic, coulometric, gas chromatographic, ultraviolet, visible and infrared absorption, and atomic absorption techniques of analysis. Requirements and limitations of each technique for obtaining quantitative measurements; applications to various chemical systems from both theoretical and experimental standpoints. Three hours lecture and one three-hour laboratory.

424 Advanced Organic Chemistry. Four credits. Prerequisite: CHEM 322. Classical and instrumental methods of qualitative organic analysis. Practice in the interpretation of mass, infrared, ultraviolet, and NMR Spectra. Three hours lecture and one three-hour laboratory.

425 Biochemistry. Four or five credits. Prerequisite: CHEM 322 or 325; CHEM 222 recommended. If CHEM 222 has not been taken, student must secure permission of the instructor and register for five hours. Modern biochemistry including energy relationships in the cell, enzyme kinetics, metabolism, and intracellular and extracellular phenomena. Three hours lecture and either one or two three-hour laboratories.

426 Advanced Inorganic Chemistry. Four credits. Prerequisites: CHEM 322, 416, and 422. Atomic structure and properties of atoms, aspects of chemical behavior, periodicity of the elements, and the chemistry of transition metals. Three hours lecture and one three-hour laboratory.

428 **Polymers, an Introduction.** Three credits. Prerequisite: CHEM 322; physical chemistry strongly recommended. Chemistry of polymers; their structure, properties, and applications. Three hours of lecture.

429 **Advanced Physical Chemistry.** Four credits. Prerequisite: CHEM 422 or permission of instructor. Modern chemical concepts as applied to the areas of thermodynamics, electrochemistry, and chemical kinetics. Three hours lecture and one three-hour calculation laboratory.

431 **Medicinal Chemistry.** Three credits. Prerequisite: CHEM 321/322 or CHEM 303 with permission of instructor. Drug design and development including structural changes involved in making drug analogs. Drug interaction with macromolecular targets including receptors, enzymes, and DNA. Various classes of drugs and their mechanisms for the treatment of specific therapeutic areas.

435 **Biochemistry II.** Four credits. Prerequisite: CHEM 425. Overview of the metabolism of lipids, amino acids, nucleotides, and nucleic acids at the molecular level. Emphasis on chemistry of metabolic reactions. Three hours lecture and one three-hour laboratory.

439 **A Medical Technology Clinical Practicum.** Six credits. Intensive classroom and laboratory studies covering principles and techniques in the areas of clinical chemistry, microbiology, immunohematology, bloodbanking, and related areas. Pass/Fail.

450 **Research.** Four credits. Prerequisites: 24 hours of ACS-approved chemistry courses. Student research allied with the instructor's research or designed specifically for the particular student. Minimum of twelve (12) hours a week. Student must write a formal report which is approved by the instructor to receive credit for this course.

470 **Introduction to Environmental Chemistry.** Three credits. Prerequisites: CHEM 122 and 122L; CHEM 303 or 321; CHEM 222 strongly recommended. Quality of environment and of chemical changes in the environment through contaminations or modification of the air, water, and soil as they are affected by peoples' agricultural, industrial, and social activities. Three hours lecture.

471 **Detection of Chemical Pollutants.** Four credits. Prerequisites: CHEM 222 and one semester of organic chemistry or consent of instructor. Theory and practice of analytical chemistry methods used in pollution measurement. Three hours lecture and one three-hour laboratory.

472 **Environmental Soil Chemistry.** Three credits. Prerequisites: CHEM 222 and 322. Fundamental chemical principles applied to the fate and behavior of organic and inorganic contaminants in the soil-water environment. An overview of the soil medium; will include both the mineral component and the soil organic matter. Interaction between solid and liquid components introduced, followed by contaminant reactions between the phases, including sorption and redox reactions.

Courses in Chemical Instrumentation Techniques [CHEM]

306 **Liquid Chromatographic Techniques.** One credit. Prerequisite: CHEM 222 or consent of instructor. Techniques involving the use of liquid, column, paper, thin-layer, and ion-exchange chromatography for the purpose of purifying and/or separating compounds.

307 **Techniques of Gas Chromatography.** One credit. Prerequisite: CHEM 222 or consent of instructor. Principles, techniques, and applications of gas chromatography. Selection of column materials, packing of columns, and types of detectors. Separation of mixtures of hydrocarbons, drugs, and pesticides.

308 **Ultraviolet-visible Spectrophotometry.** One credit. Prerequisite: CHEM 222 or consent of instructor. Techniques used in obtaining ultraviolet and visible spectra and in using these data for analytical determination.

405 **Infrared Spectrophotometry.** One credit. Prerequisites: CHEM 321 and 322 or 303. Techniques involving the use of infrared spectrophotometers to aid in the detection and identification, both qualitative and quantitative, of organic molecules. Sample preparation—mulls, liquids, gases, and solids.

406 **Atomic Absorption Analysis Techniques.** One credit. Prerequisite: CHEM 222 or consent of instructor. Laboratory study of atomic absorption spectrophotometry emphasizing the use of the instrument in making analytical measurements. Research instrumentation, flame, and non-flame techniques.

407 **Nuclear Magnetic Resonance Experimental Methods.** One credit. Prerequisite: CHEM 322 or 303. NMR measurements, operation of the spectrometer, and evaluation of the quality of spectra produced.

408 **Mass Spectrometry.** One credit. Prerequisite: CHEM 222 or consent of instructor. Mass spectrographic analysis emphasizing the use of the instrument in obtaining mass spectral data. Technique of obtaining spectra using gas chromatographic effluents as well as normal sampling procedures. Routine maintenance and an introduction to the interpretation of simple spectra.

Courses in General Physical Science [SCI]

100 **Topics in Physical Science.** Four credits. Language, development, structure, and role of physical science (physics, chemistry, astronomy, and geology) as it relates to the knowledge and activities of the educated person. For non-science majors. Three hours lecture and one two-hour laboratory. **(A General Studies course (Area IV-A). Does not count toward any major or minor.)**

400 **Problems in Physical Science.** Four credits. Prerequisite: Consent of instructor. A problem from chemistry, physics, or other physical science appropriate to the student's background and interest. A formal written report must be submitted and approved by the instructor to receive credit for this course.

442 **Experimental Physical Science.** Four credits. Prerequisite: SCI 100. Basic concepts, laws, and principles of astronomy, chemistry, geology, and physics with particular emphasis on the utilization of equipment available or easily improvised in actual school situations to illustrate these concepts, laws, and principles.

Honors College

In addition to the above courses, the Department of Chemistry offers the following courses in Honors: CHEM 121H and 122H. See current class schedule and Honors information in this catalog.

Graduate Study

The Department of Chemistry offers the Master of Science and Doctor of Arts degrees. The Graduate Catalog has degree requirements and course listings.

Department of Computer Science

Richard Detmer, Chair
Kirksey Old Main 306

Cheatham, Cripps, Hankins, Parker, Pettey, Thweatt, Untch, Wahl, Wray, J. Yoo, S. Yoo

The Department of Computer Science offers a full range of courses designed to prepare students who plan to enter computing careers in business, government, education, and industry as well as those who plan to enter graduate school. The Department emphasizes a blend of theory, abstraction, and design needed to prepare students to meet their future goals.

Programs in the department lead to the Bachelor of Science degree with a major in Computer Science. Students may select a major in Computer Science (Computing Sciences Accreditation Board accredited) or a concentration in Business Applications. Only one minor is required for a Computer Science major. The department cooperates with the Aerospace Department to offer the Airway Science curriculum approved by the Federal Aviation Administration. In addition, a minor in Computer Science is offered.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Service courses are listed on page 107.

Major in Computer Science

All Computer Science majors are assigned to a faculty advisor through the Computer Science Department office (KOM 306). The student is responsible for seeking the assistance of the advisor. This catalog is not intended to provide the detail necessary for self-advising.

Core Requirements for all Computer Science Majors

A major in Computer Science consists of 44 semester hours of computer science courses, including

1. a 29-hour core of CSCI 117, 217, 308, 311, 313, 316, 325, 342, and 470;
2. a mathematics core of MATH 122 and 221 and STAT 314;
3. an additional math course (3 hours) that can be counted toward a math major;
4. SPEE 220;
5. additional courses as described below.

A maximum of 3 hours in the major may come from CSCI 397, 460, and 491. Credit in secondary computer languages toward the major is limited to 3 hours. In order to take any computer science course having a prerequisite, the student must have earned a grade of C or better in the prerequisite. The courses listed as service courses do not count toward a major.

Major in Computer Science: No Concentration

In addition to the core requirements, students must complete the following for the CSAB-Accredited Computer Science Major:

1. CSCI 321 and 416;
2. 2-3 hours in an approved high-level language;
3. upper-division computer science electives (6-7 hours);
4. minor to be selected with the approval of the computer science advisor;
5. a minimum of 15 hours of approved mathematics;
6. a two-semester sequence in a laboratory science for science majors (8 hours);
7. additional hours in science for science majors and/or courses with strong emphasis on quantitative methods to make a total of at least 12 hours including the 8-hour science sequence required above;
8. a minimum total of 30 hours of approved mathematics and science;
9. 30 semester hours of humanities, social sciences, and other disciplines (excluding science, mathematics, computer science, and physical education).

Recommended Lower-Division Curriculum, CSAB-Accredited Major

FRESHMAN		SOPHOMORE	
CSCI 117, 217	8	CSCI 308, 311, 313, 316	13

Gen. Studies (Area II-B)	3	PHED or MS (Area V)	2
	35		36

NOTE: A list of quantitative methods courses may be obtained from the department office.

Concentration: Business Applications

In addition to the core requirements, students must complete the following for the Business Applications concentration under the Computer Science major:

1. CSCI 411 and 456;
2. 9 hours of computer science electives, at least 6 of which are upper division;
3. a minor in either Business Administration or Mathematics. If a minor in Mathematics is chosen, then the following additional business requirements must be taken: ACTG 211, ECON 242, FIN 300, MGMT 361, and one of ACTG 212, BLAW 340, MKT 382, ACSI 440, or MGMT 362.

Recommended Lower-Division Curriculum, Business Applications Major

Minor in Computer Science

A minor in Computer Science consists of 18 semester hours including CSCI 117, 217, 316, and additional courses including three hours selected from upper-division computer science with approval of the minor advisor. The courses listed as service courses do not count toward a minor in Computer Science. CSCI 342 does not count toward a Computer Science minor. Credit in secondary computer languages toward a minor is limited to three hours. A GPA of 2.00 is required in the Computer Science minor.

Courses in Computer Science [CSCI]

116 **Fortran Programming.** Four credits. Prerequisite: Sufficient background in algebra and trigonometry. Computer organization and algorithm development. Topics include fundamental computer science terminology, data representation, structured programming using the FORTRAN 77 language, and simple data structures. Three lectures and one three-hour laboratory. Only three hours may be counted toward a Computer Science major or minor. Will not count toward Computer Science major if taken after CSCI 117.

117 **Computer Science I.** Four credits. Prerequisite: Sufficient background in algebra and trigonometry. The first of a two-semester sequence using a high-level language; language constructs and simple data structures such as arrays, strings, and sets covered. Emphasis on problem solving using the language and principles of structured software development. Three lectures and one two-hour laboratory.

217 **Computer Science II.** Four credits. Prerequisite: CSCI 117 or equivalent. A continuation of CSCI 117. Topics include introductory object-oriented programming techniques, software engineering principles, records, recursion, pointers, stacks and queues, linked lists, trees, and sorting and searching. Three lectures and one two-hour laboratory.

303 **A-Z Computer Languages.** One to three credits. Prerequisite: CSCI 217 or consent of instructor. An opportunity for a Computer Science major or minor to gain experience and training in a secondary language. Covers the syntax, advantages, disadvantages, limitations, and selected applications of a language. Credit will not be given toward a computer science major or minor if credit has been received for the same language in another course. May be repeated for up to three hours credit in the major or minor.

C. **C-Language.** Two credits.
F. **FORTRAN.** Two credits.
J. **Java.** Two credits.
P. **Pascal.** Three credits.
S. **Smalltalk.** Two credits.
U. **UNIX C-Shell Programming.** One credit.
V. **Visual Programming.** Two credits.

308 **Discrete Structures.** Three credits. (Same as MATH 308.) Prerequisites: CSCI 116 or 117 and MATH 122 or consent of instructor. Topics include formal logic, proof techniques, matrices, graphs, formal grammars, finite state machines, Turing machines, and binary coding schemes.

311 **Data Structures.** Three credits. Prerequisite: CSCI 217; corequisite: CSCI 308. Topics include additional object-oriented programming techniques, algorithm design, analysis of algorithms, advanced tree structures, indexing techniques, internal and external sorting, graphs, and file organizations.

313 **Introduction to Computer Architecture.** Four credits. Prerequisite: CSCI 316. Organization and basic architecture of computer systems. Topics include hardware components of digital computers, microprogramming, and memory management. Laboratory exercises involve logical, functional properties of components from gates to microprocessors. Three lectures and one three-hour laboratory.

316 **Introduction to Assembly Language.** Three credits. Prerequisite: CSCI 117 or equivalent. Computer architecture and assembly language. Major emphasis on addressing techniques, macros, and program segmentation and linkage.

318 **Introduction to Numerical Analysis.** Three credits. (Same as MATH 318). Prerequisites: MATH 221 and CSCI 116 or 117. Topics include series approximation, finite differences interpolation, summation, numerical differentiation and integration, iteration, curve fitting, systems of equations and matrices, and error analysis.

321 **Theory of Programming Languages.** Three credits. Prerequisite: CSCI 217; corequisite: CSCI 308. Syntax and theory of three languages covered while developing the theory of parameter transmission, recursion, binding time, activation record, virtual memory, and BNF grammar.

325 **Operating Systems.** Three credits. Prerequisites: CSCI 217 and 316. An introduction to the concepts and facilities of an operating system. Major concepts in memory, processor, device, and information management are covered as well as inter-relationships between the operating system and the architecture of the computer system.

342 **Social, Ethical, and Legal Implications of Computing.** Two credits. Prerequisites: A three-hour course in computing and junior standing. Introduction to the impact of computers on society and the ethical and legal issues confronting computer users and professionals. Does not count toward a minor in Computer Science.

411 **Advanced Commercial EDP.** Three credits. Prerequisite: CSCI 217 or equivalent. File management in business applications. Structuring and identification of files stressed along with software engineering principles. COBOL language used as the implementation tool.

413 **Microprocessor Operation and Control.** Three credits. Prerequisite: CSCI 316. Digital systems based around microcomputers, microcomputer architecture, logic replacement, memory design, timing considerations, input/output design, interfacing, robotics, and total system design.

416 **Compiler Analysis and Design.** Three credits. Prerequisites: CSCI 311 and 316. The various phases of a compiler along with grammars and finite automata. A term project consisting of the design and construction of a functional compiler required.

425 **Computer Graphics.** Three credits. Prerequisite: CSCI 217 or consent of instructor. Topics include vector drawing displays, raster scan displays, input devices and techniques, graphics software, transformations, projections, interpolation, and approximation.

430 **Data Communication and Networks.** Three credits. Prerequisite: CSCI 325. Computer network architectures, protocol hierarchies, and the open systems interconnection model. Modeling, analysis, design, and management of hardware and software on a computer network.

433 **Parallel Processing Concepts.** Three credits. Prerequisites: CSCI 313, 325, and a working knowledge of either C or C++. An introduction to the basic concepts in parallel processing and programming in a parallel environment. Topics include classification of parallel architectures, study of actual parallel architectures, design and implementation of parallel programs, parallel software engineering.

435 **Introduction to Artificial Intelligence.** Three credits. Prerequisite: CSCI 217 or equivalent. Principles include search strategies, knowledge representation, reasoning, and machine learning. Applications include expert systems and natural language understanding.

444 **System Simulation.** Three credits. Prerequisites: CSCI 217 and STAT 314. Introduces the use of system simulation in problem solving. Theoretical and realtime systems investigated. Network, discrete, and continuous modeling techniques examined.

456 **Data Base Management Systems.** Three credits. Prerequisite: CSCI 311. The relational and object models of database design along with relational algebras, data independence, normal forms, logical and physical views, query languages, and current literature.

460 **Independent Study in Computer Science.** One to six credits. Prerequisites: Senior standing and consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which CSCI 460 is taken. Proposal must be approved prior to taking the course. At the course conclusion, each enrollee must submit a written report to the department. May count up to 3 hours toward Computer Science major. May not be used in conjunction with CSCI 397.

470 **Software Engineering.** Three credits. Prerequisite: CSCI 311. Consists of a theoretical component and a practical component. Topics include the history of software engineering, software development paradigms and life cycles, and computer-aided software engineering (CASE). Team project developed in parallel with the theory.

480 **Software Testing.** Three credits. Prerequisites: CSCI 217 and 308. Integrates theory and applications of software testing techniques. Provides actual hands-on testing experience. Considers multiple testing paradigms.

485 **Neural Nets.** Three credits. Prerequisite: CSCI 308. Various neural net architectures, theory, and applications including models such as Perceptron, back propagation, Kohonen, ART, and associative memory. Learning and conditioning methods also studied.

490 **Selected Topics in Computer Science.** Three credits. Prerequisite: CSCI 217. Advanced topics in computer science to be selected and announced at time of class scheduling. May be repeated for up to six credits total.

491 **Internship.** One to six credits. Prerequisites: CSCI 217 and 316. Must be at least a junior with a minimum overall average of 2.75 and 3.00 in computer science. Employment experience in a computer-related function in a firm, governmental agency, etc. Must be approved by the department.

Service Courses*

100 **Computer Literacy.** One credit. An introduction to computers at the non-professional level. Major topics include historical development; impact on society; ethics, applications, languages, and terminology with emphasis on personal computers; productivity tools: word processor, spreadsheet, and Internet.

115 **Computer Orientation.** Three credits. A general introduction to computers with an emphasis on personal computing, database, word processing, presentation graphics, spreadsheets, and Internet tools.

315 **A-Z Technology Tools.** One to three credits. Prerequisite: CSCI 100 or equivalent or permission of instructor. The use, history, and impact of technology tools. Hands-on laboratory exercises. Does not count for Computer Science major or minor.

**Service courses do not count toward a major or minor in computer science.*

Cooperative Education

CSCI 293, 294, 397, 398. Cooperative Education Experience I, II, III, IV. Three credits each. Experiences must be taken in sequence. CSCI 397 may count toward the Computer Science major. It may not be used in conjunction with CSCI 460.

Graduate Study

The Master of Science is offered in Computer Science as is a graduate minor on the masters and doctoral levels. Requirements and a list of courses offered for graduate credit may be found in the Graduate Catalog.

Department of Engineering Technology and Industrial Studies

James H. Lorenz, Chair
Voorhies Industrial Studies Complex 143

Beard, Carter, Chen, Cheney, Foroudastan, Hatfield, Mathis, McBride, Nasab, Redditt, Sbenaty, Sergeant, Sridhara, Wall

The major purpose of the Engineering Technology and Industrial Studies Department is to prepare students for a broad range of industrial and vocational positions.

The Robert E. and Georgianna West Russell Chair of Manufacturing Excellence is designed to promote quality interaction with local industry. Students are encouraged to benefit from the scheduled activities, seminars, and short courses sponsored by the Chair of Manufacturing Excellence.

The department offers four Bachelor of Science undergraduate degree majors which prepare students in subject areas of concrete industry management, design, robotics, electronics, controls, computers, mechanics, machine technology, facilities management, CAD, safety, construction, and environmental science and technology. The four majors are Engineering Technology, Environmental Science and Technology, Industrial Education, and Industrial Technology.

The Engineering Technology major contains four concentrations: Computer Engineering Technology, Design Engineering Technology, Electro-Mechanical Engineering Technology, and Manufacturing Engineering Technology.

The Environmental Science and Technology major is an interdisciplinary program including strong science components and environmental applications under six concentrations: Energy Resource Management, Engineering Technology and Safety, Planning, Site Analysis, Waste Management, and Water Resources.

The Industrial Education major contains three concentrations: Technology Education for teaching in secondary schools, Industrial Training and Development for applications in manufacturing and construction industries, and the Occupational Education concentration for secondary education teachers in vocational-technical education areas.

The Industrial Technology major has three concentrations: Concrete Industry Management, Construction Management Technology, and Industrial Management Technology.

Pre-professional programs are offered in Pre-architecture and Pre-engineering. In each case the student will complete his/her program after transferring to the appropriate school.

Minors are offered in Construction Management, Electronics, Environmental Science and Technology, Industrial Education, and Industrial Technology.

Courses are offered which apply toward renewal of the Occupational Education Teacher's License.

Cooperative Education work experiences are possible for most programs. Interested students should check with their advisors.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Engineering Technology

Engineering Technology is a technologically advanced program at the Bachelor of Science level utilizing theoretical concepts and hands-on instruction. Program selection is from the following concentrations: Computer Engineering Technology, Design Engineering Technology, Electro-Mechanical Engineering Technology, and Manufacturing Engineering Technology.

In addition to the general studies courses, the basic requirements for all Engineering Technology concentrations are:

1. completion of a core of 14 hours of Engineering Technology courses
   ET 184 Engineering Fundamentals, 3 hours
   ET 360 Electrical Circuit Analysis, 4 hours
   ET 471 Industrial Seminar, 1 hour
   ET 480 Senior Problem in Engineering Technology, 3 hours
   ET 497 Engineering Economy, 3 hours
2. completion of the minimum number of Engineering Technology total credit hours required in the applicable concentration as follows:
   Computer Engineering Technology, 62 hours
   Design Engineering Technology, 68 hours
   Electro-Mechanical Engineering Technology, 70 hours
   Manufacturing Engineering Technology, 72 hours
3. completion of other specific courses as shown under the appropriate concentration.

Concentration: Computer Engineering Technology

The Computer Engineering Technology concentration, accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21201, telephone: (410) 347-7700, provides the student with a technical base in electric and electronic circuits, digital systems, and computer hardware and software. Microcontroller, microprocessor, and microcomputer applications in the area of control and automation as well as data acquisition, transfer, and analysis are also emphasized.

Employment opportunities exist in various industrial fields that require the design and applications of digital computers such as manufacturing, medical, aerospace, control, and instrumentation and measurements, as well as networking, installations, and maintenance of computers.

Curriculum Requirements and Recommended Sequence

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6

Humanities (Area II-B)	3	Social Science (Area III-B)	3
	35		33

**Technical elective is to be selected from upper-division ET courses as approved by the student advisor.*

Students must take three four-course sequences and the capstone course as follows:

Digital Electronics (ET 360, 362, 363, 364)
Microprocessor (ET 362, 364/365, 466, 467)
Instrumentation and Control (ET 360, 363, 461, 460)
Capstone course (ET 480C)

Students should consult their advisors each semester to plan their schedules.

Concentration: Electro-Mechanical Engineering Technology

The Electro-Mechanical Engineering Technology concentration, accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21201, telephone: (410) 347-7700, is structured to prepare the student for positions in industry requiring the integration of electricity (for power and control) and mechanical devices (for force and motion) to perform tasks associated with the manufacturing and the performance of services.

Employment opportunities exist in fields such as robotics, fluid power, industrial electricity, heating and air conditioning, and industrial automation.

Curriculum Requirements and Recommended Sequence

Students must take four three-course sequences and the capstone course as follows:

Robotics (ET 381, 485, 486)
Control Systems (ET 360, 363, 461, 460)
Digital Circuits (ET 360, 362, 365)
Engineering Mechanics (ET 184, 383, 386)
Capstone course (ET 480E)

Students should consult their advisors each semester to plan their schedules.

Concentration: Manufacturing Engineering Technology

Manufacturing Engineering Technology has the responsibility of translating the designs and specifications of product engineering into the necessary machines, tooling, physical facilities, and human resources to manufacture a product that meets customer quality expectations within acceptable lead time parameters. Manufacturing Engineering Technology is the applied arm of manufacturing engineering and is involved with both the design and application of manufacturing processes, tooling, facilities, and quality systems in a wide variety of manufacturing industries.

The Manufacturing Engineering Technology concentration, accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21201, telephone: (410) 347-7700, is designed to prepare the student for technical staff positions in a broad range of manufacturing activities (metal fabrication, machining, assembly, needle trades, food processing, high technology, etc.). This program could provide opportunities for employment in quality control, process planning, estimating, tool design, facilities planning, numerical control programming, and other technical areas of the manufacturing organization.

Seniors are encouraged to take an examination qualifying them as Certified Manufacturing Technologists (CMfgT). This examination is administered on campus two times per year by the Society of Manufacturing Engineers.

Curriculum Requirements and Recommended Sequence

Students must take four three-course sequences and the capstone course as follows:

Materials/Processing (ET 121, 326, 428)
CADD (ET 231, 336, 437)
Manufacturing Analysis (ET 391, 495, 497)
Engineering Mechanics (ET 184, 383, 386)
Capstone course (ET 480M)

Students should consult their advisors each semester to plan their schedules.

Major in Industrial Technology

Industrial Technology is a broad program designed to prepare the student for a position in the expanding technical fields in government and industry. Included are concentrations in Concrete Industry Management, Construction Management, and Industrial Management for manufacturing and service industries respectively.

In addition to the General Studies requirements, the minimum requirements for all Industrial Technology concentrations are:

1. completion of a minimum of 40-49 hours of Engineering Technology and Industrial Studies courses as listed under the appropriate concentration;
2. completion of a core of
   ET 231 Computer-Assisted Drafting/Design I
   ET 361 Introduction to Electricity and Electronics
   ET 391 Introduction to Industrial Management
   ET 442 Industrial Safety
   ET 471 Industrial Seminar;
3. completion of one approved minor;
4. completion of other specific courses as listed under the appropriate concentration.

Concentration: Concrete Industry Management

The concentration in Concrete Industry Management is designed to produce broadly educated, articulate graduates grounded in basic science and mathematics who are knowledgeable of concrete technology and techniques and are able to manage people and systems and to promote products or services related to the concrete industry. Examples of opportunities in the field include technical sales of products used to manufacture concrete; production management of a ready mix plant; sales and marketing of production, construction, and finishing equipment; product distribution management; construction specialist in an architectural/engineering firm or a governmental entity; and support positions such as a writer or editor for a technical magazine.

All students in the program complete a basic set of business-related courses including ECON 241, CSCI 115, BLAW 340, ACTG 300, FIN 300 (or FIN 301 if minoring in Management), MGMT 361 and 394, MKT 382. However, no more than 25 percent of the total hours can be taken in the College of Business. Additionally, only juniors and seniors will be allowed to enroll in 300- and 400-level courses.

Students must select one of the following minors:

Business Administration (to be satisfied by the business courses listed above and three of the following five courses: MKT 385, 384, or 480 or MGMT 362 or 468).

Management (to be satisfied by the business courses listed above and MGMT 362, 468, and an approved management elective).

Marketing (to be satisfied by the business courses listed above and MKT 384, 385, 480, and an approved marketing elective.

Curriculum Requirements and Recommended Sequence

PHED or MS (Area V)	1		
	34		

Students should consult their advisors each semester to plan their schedules.

Concentration: Construction Management Technology

The Construction Management Technology concentration, accredited by the National Association of Industrial Technology (NAIT), is designed to prepare the student for supervisory or staff positions in a wide variety of construction-related organizations (construction firms, wholesalers of construction materials, construction material manufacturers, lumber yards, etc.). This program could include opportunities for employment in general supervision, human relations, sales, production and inventory control, and other areas.

Suggested areas for the required minor are Business Administration, Economics, Marketing, or other areas as approved by the major advisor.

Students should consult their advisors each semester to plan their schedules.

Concentration: Industrial Management Technology

This program, accredited by the National Association of Industrial Technology (NAIT), is designed to prepare students for positions and careers in both the manufacturing and service sectors. Typical positions include first-level management, safety/ergonomics coordinator, production scheduler, inventory analyst, junior industrial engineer, work team facilitator, and other related positions.

Traditional Track

The traditional track is designed for students with less than five years of current relevant industrial experience. Students pursuing this track must complete either nine hours of internship, nine hours of cooperative education, or a combination of the two in an appropriate industrial setting. Students may transfer to the industry-based track if they accumulate five years of current relevant industrial experience prior to graduation.

Up to 18 semester hours may be granted for approved work-based training.

Students should consult their advisors each semester to plan their schedules.

Industry-based Track

Students must have documented a minimum of five years of current relevant full-time industrial work experience approved by a departmental committee prior to graduation to qualify for the industry-based track. The heart of this program is the following 60-hour technical core which combines credit for work-based learning with traditional coursework.

Work-based Learning: Maximum 30 semester hours. Up to 18 semester hours may be granted for approved work experience. Up to 18 semester hours may be granted for approved work-based learning. The total number of hours for both work experience and work-based learning may not exceed 30 semester hours. Students will be required to go through a formal assessment process to qualify for work-based learning credit.

Technical Courses: Minimum 30 semester hours. Selected from the following with the consent of the advisor and based upon individual's background: ET 121, 231, 321, 326, 336, 361, 391, 396, 428, 442, 459, 490, 491, 492, 493, 494, 495, 496, 497; ETIS 392, 393, 449, 470, 479, 480I.

Students should consult their advisors each semester to plan their schedules.

Minor in Industrial Technology

The minor in Industrial Technology consists of 18 semester hours of courses as approved by the minor advisor. A minimum of 9 hours must be upper-division courses. The minor must include 9 semester hours in one of the following areas: drafting, electronics, engineering, industrial facilities and management, metals, or safety.

Minor in Electronics

The minor in Electronics consists of at least 18 semester hours including ET 361 (or ET 360 with a prerequisite of MATH 122), 362, and 363 plus two courses from ET 364, 365, 366, 367, 460, 461, 463, 464, 466, or 467. All are four credit hours except ET 460 which is two.

As a prerequisite, ET 361 replaces ET 360 for students minoring in Electronics.

Minor in Construction Management

The minor in Construction Management consists of 18 semester hours in Engineering Technology and Industrial Studies courses including CM 315 and 316 plus 12 semester hours as approved by the minor advisor. At least 6 semester hours must be at the 400 level.

Major in Industrial Education

Three degree concentrations are offered under the Industrial Education major: (1) Technology Education, for those who seek secondary teacher licensure; (2) Industrial Training and Development for those planning to design and conduct training for adult learners in industrial settings; and (3) Occupational Education, for those who are teaching or plan to teach in vocational-technical programs. Also, courses required for an Occupational Education license and a minor in Industrial Education are offered.

Concentration: Technology Education

The concentration in Technology Education is designed to prepare the student to teach industrial technology in grades 5-12. Included is the study of the evolving philosophy, objectives, and methodology of technology education, as well as the historical development of technology and its impact on people, society, and environment.

Experiences are provided in technical areas to promote an understanding of industrial organization, materials, processes, products, occupations, problems, and environment. This includes provisions to make independent investigations into these various aspects of industry.

Students seeking a license to teach industrial technology in secondary schools (grades 5-12) must complete (1) a major in the subject they intend to teach, (2) a minor in professional education, (3) courses in addition to the general studies requirements, and (4) professional vocational education courses.

Enhanced General Education Requirements

In addition to the General Studies requirements (see pages 58-59), the following courses are required:

MATH 141 College Algebra, 3 hours
MATH 142 Plane Trigonometry, 3 hours
JOUR 221 or RATV 221 Understanding Mass Media, 3 hours
PHOT 205 Basic Black and White Photography, 3 hours
ET 471 Industrial Seminar, 1 hour
Electives to complete a total of 60 hours to include the General Studies requirements

Professional Education Requirements

Students must contact their minor advisor in professional education for approval of appropriate courses. (For specific procedures and additional requirements for teacher licensure, see page 164.)

Professional Occupational Education Requirements

IED 404 Methods of Teaching Occupational and Technology Education, 3 hours
IED 406 Organization and Operation of Occupational Student Organizations, 3 hours

Major Requirements (39 hours)

CM 315 Construction and Materials I, 4 hours
CM 332 Architectural Computer-Aided Drafting and Design, 4 hours
IED 407 Laboratory Organization and Classroom Management, 3 hours
EST 481 Energy and the Environment, 3 hours
ET 121 Introduction to Metals and Metallurgy, 4 hours
ET 231 Computer-Assisted Drafting/Design I, 4 hours
ET 321 Machine Tool Technology, 4 hours
ET 326 Manufacturing Processes and Materials, 3 hours
ET 336 Computer-Assisted Drafting/Design II, 3 hours
ET 361 Introduction to Electricity and Electronics, 4 hours
ET 428 Computer-Aided Manufacturing: Numerical Control (NC), 4 hours

Concentration: Industrial Training and Development

The concentration in Industrial Training and Development is designed to prepare individuals to design and conduct training for adult learners in industrial settings. A major in Industrial Education with Industrial Training and Development concentration requires

1. the following courses:
   Manufacturing
   ET 121 Introduction to Metals and Metallurgy
   ET 321 Machine Tool Technology
   ET 326 Manufacturing Processes and Materials
   ET 491 Maintenance Management
   ET 494 Methods and Work Measurement
   Engineering Graphics
   ET 231 Computer-Assisted Drafting/Design I
   ET 336 Computer-Assisted Drafting/Design II
   Electronics
   ET 361 Introduction to Electricity and Electronics
   Internship
   ETIS 392 Industrial Internship I
   ETIS 393 Industrial Internship II
   Professional
   H SC 302 Presentation Techniques
   IED 403 Course Development in Occupational and Technology Education
   IED 404 Methods of Teaching Occupational and Technology Education
   ET 391 Introduction to Industrial Management
   ET 442 Industrial Safety
   ET 471 Industrial Seminar
   PSY 433 Industrial/Organizational Training and Development
   SPSE 322 Technology in Teaching
2. completion of an approved minor of 18 or more semester hours;
3. completion of specific courses as listed below.

Curriculum Requirements and Recommended Sequence

FRESHMAN		SOPHOMORE

Concentration: Occupational Education

The Occupational Education concentration is designed to provide a baccalaureate degree option for individuals who are teaching or planning to teach in secondary and/or postsecondary schools offering occupational education courses.

In addition to the General Studies requirements, the minimum recommendations for all majors in the Occupational Education concentration are

1. completion of a minimum of 18 semester hours of professional course work;
2. completion of a minimum of 27 semester hours in technical areas which may be met by specializing in a single occupational area or by combining technical courses from two or more occupational areas. ETIS 392 and 393 may be applied toward this requirement. Up to 18 semester hours may be granted for appropriate work experience;
3. completion of 6 semester hours of occupational education teaching internship; three years of successful teaching may be substituted for this requirement;
4. completion of a minimum of one semester of mathematics and other specific courses as listed;
5. completion of an approved minor.

Minor in Industrial Education

A minor in Industrial Education consists of 18 semester hours of Engineering Technology and Industrial Studies laboratory courses as approved by the minor advisor. A minimum of 9 hours must be at the upper-division level.

Occupational Education License

Individuals may obtain professional course work for renewal of the Occupational Education License. This license is required to teach health science technology and occupational education at the secondary level.

Students should consult their advisors each semester to plan their schedules.

Major in Environmental Science and Technology

Environmental Science and Technology is an interdisciplinary major offered in the College of Basic and Applied Sciences and administered by the Department of Engineering Technology and Industrial Studies. The broad-based curriculum offers course work in the natural sciences, life sciences, mathematics, agriculture, technology, and the arts. Six concentrations in environmental areas—Energy Resource Management, Engineering Technology and Safety, Planning, Site Analysis, Waste Management, and Water Resources—are available to allow the student to pursue an area of interest. No minor is required but is encouraged for ES&T students. Courses that are part of a student's major cannot be used in a minor. The requirements for a major in Environmental Science and Technology are listed below with 67 semester hours in the ES&T core, 30 hours in general studies outside of the math and science areas, and 20 to 29 hours in an identified specialty or concentration.

Typical employment opportunities exist in the various levels of governmental agencies and as environmental consultants in manufacturing, construction, and agricultural industries in such areas as air and water quality control, recycling, hazardous and solid waste management, and noise and radiation control.

The Department of Engineering Technology and Industrial Studies administers the interdisciplinary program. Courses are offered by Agribusiness and Agriscience, Biology, Chemistry, Physics and Astronomy, Geography and Geology, and Engineering Technology and Industrial Studies.

The Center for Energy Efficiency promotes energy economics and environmental awareness and stewardship for students, faculty, administrators, and others in the community. Through interaction with local, state, and federal associations, the Center offers certification seminars, educational and training opportunities, and leadership in achieving energy management and efficiency goals.

Core requirements (67 hours)

ABAS 334, 337, 6 hours
BIOL 111, 112, 322, 424, 15 hours
CHEM 121, 121L, 122, 122L, 222, 303, 17 hours
CSCI 115, 3 hours
GEOL 201, 4 hours
EST 476 A, B, C, D, 4 hours
EST 477, 4 hours
MATH 141, 142 (or 121), 6 hours
PHYS 231, 232, 233, 234, 8 hours

Concentration: Energy Resource Management

The Energy Resource Management concentration under the Environmental Science and Technology major includes course work in conservation and the environmental issues in the use of nonrenewable energy sources. This program offers preparation for students seeking employment in the energy management, air pollution control, and resource management fields.

Curriculum Requirements and Recommended Sequence

Concentration: Planning

The Planning concentration under the Environmental Science and Technology major offers training in environmental planning, the collection and analysis of information on the natural environment to be completed before design and construction of a project. The goal of planning is to avoid natural hazards, conserve natural resources, and protect the environment through sound ecological principles. Effective environmental planning results in the efficient management of natural resources, insuring sound economic development while minimizing environmental degradation.

Concentration: Site Analysis

The Site Analysis concentration under the Environmental Science and Technology major is designed to train students to examine an area of perceived pollutants, to obtain and analyze the necessary samples to characterize any contaminants present, and to provide the necessary data for site reclamation or other engineering projects. The required courses for this program are selected from those areas of biology, chemistry, agriculture, and geography/geology which build skills in obtaining accurate data describing the identity, quantity, and location of polluting substances.

	33		29

Students should consult their advisors each semester to plan their schedules.

Concentration: Waste Management

The Waste Management concentration under the Environmental Science and Technology major looks at solid waste which is deposited on land and in water, sometimes causing serious environmental problems. However, wastes may be handled as a resource. Major issues of waste management include problems and benefits associated with landfilling garbage and with the need to reduce the waste stream. Major concerns to be considered in assessing waste management problems and solutions are (1) environmental quality: wastes must be managed so they do not pollute air or soil water resources; nor should they be used in a way that might introduce a toxic or pathogen into the food chain; (2) organic waste as energy resources: incineration can be studied as an alternative to landfilling or application; organic wastes may also be a source of fertilizers.

Concentration: Water Resources

The Water Resources concentration under the Environmental Science and Technology major is designed to give the student a detailed background of water sources in the environment as well as the nature of human impacts on those resources. The student will develop a working knowledge of the chemical, physical, and biological characteristics of both surface and subsurface waters and will be trained in the major methodologies used for sampling these resources. This concentration is highly compatible with the Waste Management, Site Analysis, and Energy Resources Management concentrations.

Curriculum Requirements and Recommended Sequence

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6
BIOL 111, 112 (Area IV-A)	8	PHYS 231, 232, 233, 234	8
CHEM 121, 121L, 122, 122L	8	CHEM 222	5
MATH 121 or MATH 141		GEOL 201	4
and 142 (Area IV-B)	4-6	EST 476 8	1
EST 476A	1	SPEE 220 (Area I-B)	3
CSCI 115	3	Gen. Studies (Area II-B)	3
PHED or MS (Area V)	2	PHED or MS (Area V)	2
	32-34		32

JUNIOR		SENIOR	
CHEM 303	4	ABAS 370, 437	6
BIOL 322, 424	7	EST 477	4
ABAS 334	3	BIOL 425	4
BIOL 216	4	EST 476D	1
ABAS 337	3	Gen. Studies (Area III-B)	3
EST 476C	1	CHEM 470	3
HIST 201, 202 (Area III-A)	6	CHEM 471	4
Electives	6	GEOL 413	4
	34	Electives	5

Students should consult their advisors each semester to plan their schedules.

Minor in Environmental Science and Technology

The minor in Environmental Science and Technology consists of 18 semester hours of courses as approved by the minor advisor with at least 6 hours at the upper-division level.

Pre-professional Programs

Pre-architecture

The following program is recommended as the first year of a five-year program leading to the Bachelor of Architecture degree. After successful completion of the courses listed, students are eligible to apply for admission to the school of architecture of their choice. It should be understood that students who complete this year of work will not be automatically assured of admission to the remaining four years of work in a school of architecture. Those who wish to apply to a school of architecture should see their advisors no later than February 1 in order to have time to follow the proper procedure to be considered for admission for the fall term of the following year. The recommended program for the first year follows:

FRESHMAN	
ENGL 111, 112	6
MATH 122, 221	8
Science*	8
CM 130	4
ET 184	3
Social Science Electives	6
	35

**To be selected based on the transfer school requirements and the approval of the advisor. The student should have the catalog of the transfer school at the time of registration, if possible.*

Students should consult their advisors each semester to plan their schedules.

Pre-engineering

Three pre-engineering programs exist at MTSU. All of the programs require additional study at an engineering school such as Tennessee State University, Tennessee Technological University, the University of Memphis, the University of Tennessee, or Vanderbilt University in order to obtain an engineering degree. Depending upon the program chosen, the student will complete at MTSU one, two, or three years of the curricula shown below. Students should consult their advisors concerning specific information on acceptance/transfer of the courses listed below to the engineering school of their choice. Information on the pre-engineering program in agricultural engineering can be found under the School of Agribusiness and Agriscience.

FRESHMAN		SOPHOMORE	
ENGL 111, 112	6	PHYS 235, 236, 237, 238	8
CHEM 121, 121L, 122, 122L	8	MATH 222, 323; STAT 315	10
MATH 122, 221	8	ET 383, 384, 386	9
ET 184, 231	7	ET 336, 497	7
CSCI 117	4	SPEE 220	3
PHED or MS	2		37
	35		

JUNIOR: HIST 201 and 202; and 23 hours of electives to be chosen from the fields of science, mathematics, English, social science, and business. Students who wish to study chemical engineering should take a second year of chemistry; those who wish to study industrial engineering should take ET 391. Students must have 24 hours of upper-division credit and 6 of those upper-division semester hours must be in the major area.

Students should consult their advisors each semester to plan their schedules.

Five-Year Engineering Program—Binary Program

Two Bachelor of Science degrees—one from MTSU and one from an engineering school—are awarded to the student who completes the MTSU three-year pre-engineering program and also finishes the final two years in an engineering discipline.

Students should consult their advisors each semester to plan their schedules.

The specific requirements for the MTSU degree are

1. complete the pre-engineering curriculum as outlined in this catalog;
2. earn 99 semester hours at MTSU, with 24 at the upper-division level;

3. earn 24 semester hours in Engineering Technology and Industrial Studies;
4. meet all of the MTSU General Studies requirements;
5. enroll in and successfully complete (average grade of C) one year (33 semester hours) of an engineering program;
6. be unconditionally admitted to senior status at an engineering school in a recognized engineering discipline;
7. admission to upper division using Upper-Division Form.

This program, when taken in cooperation with the University of Tennessee, Tennessee State University, or Tennessee Technological University, requires two years of study at that school for the completion of requirements for a Bachelor of Engineering degree in chemical, civil, electrical, industrial, mechanical, nuclear, agricultural engineering, or others as they are made available. Other cooperating schools have similar requirements and offer various degrees. Specific details can be obtained by contacting the Department of Engineering Technology and Industrial Studies.

Standard Four-Year Engineering Program

This program will require four years to complete. The student is required to take the freshman and sophomore years indicated above and then transfer to an engineering school. The engineering school would then require two years of additional study to complete requirements toward the degree. The above program has been closely coordinated with several engineering schools. A student who elects to transfer should confer with his or her faculty advisor two semesters prior to transfer.

Engineering Cooperative Program

Superior students may be selected during the spring semester of their freshman years for the cooperative engineering program at Middle Tennessee State University, Tennessee Technological University, or the University of Tennessee. This program is designed to provide actual industrial experience interspersed with academic study on an alternating semester basis. The student would complete the freshman year indicated above and then transfer. A student desiring to be included in this program should confer with his/her advisor before the end of the first semester.

Students should consult their advisors each semester to plan their schedules.

Courses in Engineering Technology and Industrial Studies [ETIS]

101 **Survey of Technology.** Three credits. Develops an awareness and appreciation of technological ideas, things, and concepts. Will examine some possible future developments and their potential outcomes.

131 **Basic Technical Drawing and Sketching.** Four credits. Not open to students who take CM 130. Technical drawing and sketching theory and practice including orthographic projection, drafting conventions, lettering, descriptive geometry, sections, auxiliary views, and size descriptions employing mechanical drawing and sketching activities. Recommended for students with less than one unit of high school drawing. DOES NOT SATISFY REQUIREMENTS FOR MAJOR. Two hours lecture and four hours laboratory.

292 **Industrial Orientation Internship.** One to three credits. Prerequisite: Consent of the instructor. Provides industrial exposure for students with little or no industrial work experience. Students will be placed in an acceptable company to receive introductory industrial experiences. Arrangement for this course must be made in advance.

293 **Cooperative Education Experience I.** Three credits. Provides students with opportunity for on-the-job training in conjunction with on-campus academic experiences. Students will participate in professional growth seminars. Pass/Fail.

294 **Cooperative Education Experience II.** Three credits. Prerequisite: ETIS 293. Continuation of ETIS 293. Pass/Fail.

368 **Navigation Avionics.** Three credits. Prerequisite: ET 366. Theory of operation of all common types of electronic navigation systems for aircraft and the principles of testing for proper operation and alignment. Use of special purpose test equipment to check operation and alignment.

392 **Industrial Internship I.** Three credits. Prerequisite: Consent of instructor. Student is employed by an acceptable industry for industrial experience. Credit given for actual work with employer. Arrangement for this course must be made in advance. Pass/Fail.

393 **Industrial Internship II.** Three credits. Prerequisite: ETIS 392. A continuation of Internship I. Same stipulations apply. Pass/Fail.

397 **Cooperative Education Experience III.** Three credits. Prerequisite: ETIS 294. Continuation of ETIS 294. Pass/Fail.

398 **Cooperative Education Experience IV.** Three credits. Prerequisite: ETIS 397. Continuation of ETIS 397. Pass/Fail.

449 **A-Z Topics in Industrial Technology.** One to six credits. Subject topics offered as required to meet the needs of the class.

470 **Industrial Topics.** One to six credits. Problems in any one of a variety of areas to meet the needs of the class.

479 **Shop Problems.** Three credits. Prerequisite: Completion of all courses in a given area or approval of instructor. For the advanced student who wishes to work on a designated problem in a specific area. Works on an individual problem or project independently under the guidance of an instructor.

4801 **Senior Problems in Industrial Technology.** Three credits. Prerequisites: ET 492, 493, 494, 496, and 497. Capstone course requiring the solution and presentation of a broad technical problem which requires the application of previous course work.

499 **Introduction to Operations Research.** Three credits. Prerequisites: ET 391 and STAT 313 or equivalent. Problem solving in research and development involving operations research models, computer applications, industrial problems.

Courses in Engineering Technology [ET]

121 **Introduction to Metals and Metallurgy.** Four credits. Origin and behavior of metals. Extractive metallurgy—reduction of metallic ores, production of stock shapes, identification and selection of ferrous and nonferrous metals. Physical metallurgy—mechanical and physical properties, crystalline structure, phase diagrams, hardening and tempering, isothermal diagrams, metallurgy of welds, service problems, casting processes. Exercises in the use of basic welding, foundry, and metallurgical testing equipment. Two hours lecture and four hours laboratory.

183 **Introduction to Engineering.** Three credits. Prerequisite: High school algebra. Traditional aspects of engineering with attention given to engineering background, problem-solving procedures, and fundamental data gathering and analysis. Practicing engineers will be available to explain their engineering discipline to selected classes for help in career guidance.

184 **Engineering Fundamentals.** Three credits. Prerequisite: ET 183 or three units of high school math and one unit of high school physics. Broad introduction to basic laws of fluid mechanics, thermodynamics, materials science, and electricity, including topics on power production by conventional and developmental techniques and introduction to computer-aided problem solving. Employment in the engineering fields addressed.

231 **Computer-Assisted Drafting/Design I.** Four credits. Prerequisite: ETIS 131 or CM 130 or one year of high school drafting. Technical drafting concepts utilizing personal computers, plotters, and appropriate software. Two hours lecture and four hours laboratory.

321 **Machine Tool Technology.** Four credits. Prerequisite: ETIS 131. Metals, their sources, manufacture, and properties; basic metalworking hand tools, measurements; layout; drawing and safety. Exercises in the use of the basic machine tools in machine shop work. Two hours lecture and four hours laboratory.

322 **Advanced Metalwork.** Four credits. Techniques, equipment and procedures, advantages and disadvantages of current metal-casting processes used in industry. Laboratory exercises in sand molding and casting, the full mold process, investment casting, and permanent mold casting including pattern design and construction, mold making, metal melting and handling. Guest lecturer(s). Plant tour(s). Two hours lecture and four hours laboratory.

324 **Welding.** Four credits. Prerequisite: ET 121 or consent of instructor. Overview of basic welding, brazing, and cutting processes. Emphasis on operation and safe practice of oxyacetylene, shielded metal arc, tungsten inert gas, and metal inert gas welding and cutting processes. Exercises with welding symbols, selection of electrodes, and setup and operation of welding equipment. Two hours lecture and four hours laboratory.

326 **Manufacturing Processes and Materials.** Three credits. An analysis of machines, tools, processes, and materials used in production.

336 **Computer-Assisted Drafting/Design II.** Four credits. Prerequisite: CM 332 or ET 231. Utilizes IBM-compatible computer and AutoCAD software to develop skills in the creation and analysis of mechanical solid models for design and production purposes. Includes the use of shading and rendering to enhance three-dimensional model display and the extraction of two-dimensional engineering drawings. Two hours lecture and four hours laboratory.

360 **Electrical Circuit Analysis.** Four credits. Prerequisite: MATH 122. Introductory course in direct current and alternating current circuits. Serves as prerequisite for advanced electricity and electronics courses. Concepts, circuit performance and analysis, and problem-solving techniques using rigorous application of mathematics through calculus. Three hours lecture and three hours laboratory.

361 **Introduction to Electricity and Electronics.** Four credits. Prerequisite: MATH 141 or 121. Orientation to direct current, alternating current, magnetism, filters, and semiconductor devices. Rectifier-filters and basic transistor amplifiers are also examined as representative electronic circuits. Use of meters, oscilloscopes, and other test instruments are stressed in the laboratory. Three hours lecture and three hours laboratory.

362 **Digital Circuits Fundamentals.** Four credits. Prerequisite: ET 360 or permission of instructor. Provides thorough coverage of basic digital electronic circuits analysis and design. Both TTL and CMOS families are examined. Number systems, mapping methods, and combinational logic circuits design for digital control strongly emphasized. Three hours lecture and three hours laboratory.

363 **Electronics I.** Four credits. Prerequisite: ET 360 or permission of instructor. Introduction to analog electronics. Defines basic parameters and theory of operation of discrete semiconductor devices. Introduces fundamentals of electronic circuits analysis and design. Applications illustrate use and laboratory projects provide hands-on experience. Three hours lecture and three hours laboratory.

364 **Digital Circuits Design.** Four credits. Prerequisite: ET 362; corequisite: ET 363. In-depth study of sequential logic circuits analysis and design including counters, shift registers, and programmable logic devices. Introduction to multi-input system controllers and state machine design using SSI, MSI, and LSI devices. Three hours lecture and three hours laboratory.

365 **Introduction to Microprocessors.** Four credits. Prerequisite: ET 362. Introductory course in microcontrollers and microprocessor-based systems and their related components. Machine language programming extensively used to solve problems and demonstrate the relationship of the microprocessor and its supporting peripherals. Basic microcomputer architecture also emphasized. Three hours lecture and three hours laboratory.

366 **Communication Electronics.** Four credits. Prerequisite: ET 363 or permission of instructor. Theory of electronic circuits as applied to communication, special electronics circuits required in communications systems. Testing theory and procedures. Various methods of electronic communications. Testing and evaluation of electronic circuits. Three hours lecture and three hours laboratory.

367 **Computer-Assisted Printed Circuit Board Design.** Four credits. Prerequisites: ET 362 and 363 or permission of instructor. Utilizes computer software to develop skills in creating schematic and printed circuit board artwork for use in printed circuit board production. Includes plotting, printing, and generating all necessary documents required for fabrication. Three hours lecture and three hours laboratory.

381 **Engineering Thermodynamics and Heat Transfer.** Three credits. Prerequisites: PHYS 231 or 235; MATH 122. Introduction to basic concepts of engineering thermodynamics, work, heat, first law, second law, ideal gases, power cycles, conduction, convection, and radiation heat transfer. Applications to power generation, aerospace, and electronics addressed.

383 **Statics.** Three credits. Corequisites: MATH 122 and PHYS 231. Fundamental concepts and conditions of static equilibrium; their application to systems of forces and couples acting on rigid bodies; and the calculation of centers of gravity; centroids, and moments of inertia.

384 **Dynamics.** Three credits. Prerequisite: ET 383. Rectilinear curvilinear, and rotary motion of rigid objects both with and without consideration of the unbalanced force causing the motion. Application of the principles of work, energy, impulse, and momentum to the solution of engineering problems.

386 **Strength of Materials.** Three credits. Prerequisite: ET 383. The mechanics of materials emphasizing the analysis and design of statically determinate beams, columns, and structural members in torsion and application of the three moment equation to statically indeterminate beams.

391 **Introduction to Industrial Management.** Three credits. A foundation course in manufacturing and service operations management. Problem-solving applications emphasized.

395 **Metrology.** Four credits. Introduction to an overview of methods and procedures of precision measuring and gaging as used in inspection and quality control by industry. Two hours lecture and four hours laboratory.

396 **Industrial Quality Technology.** Three credits. Covers breadth and some depth in quality technology. Explores history of quality, present techniques, and future predictions. Lecture.

423 **Advanced Machine Tool Technology.** Four credits. Prerequisite: ET 321. Taper turning, boring and thread chasing, and calculations of screw threads and other operations. Gear terminology and calculations; practice gear cutting on the milling machine; use of index head. Two hours lecture and four hours laboratory.

428 **Computer-Aided Manufacturing: Numerical Control (NC).** Four credits. Prerequisites: ET 231 and 321 or consent of instructor. The role of NC in today's manufacturing environment; machines and machine control systems of a typical installation. Justifying NC equipment. Emphasis on writing and debugging programs for a three-axis milling machine and a two-axis turning machine utilizing both computer numerical control and computer-aided part programming. For those with little experience or seeking to broaden their knowledge. Two hours lecture and four hours laboratory.

433 **Advanced Computer-Aided Drafting.** Four credits. Prerequisite: ET 336 or permission of instructor. Topics include customizing menus, 3-D concepts and surface modeling, AutoLisp, rendering, and slide shows. Interactive computer drafting and design using advanced AutoCAD software and add-ons. Primarily for students who want to increase their capabilities using CAD. Two hours lecture and four hours laboratory.

434 **Design of Machine Elements.** Three credits. Prerequisite: ET 386. Analytical design methods. Stress analysis, working stress, combined stresses, failure theories, fatigue failure. Design techniques for shafts, fasteners, gears, bearings, and belt and chain drives. Includes a design project. Lecture.

437 **Tool Design.** Four credits. Prerequisites: ET 326 and 336; MATH 121. Basic concepts, to include design projects such as jigs and fixtures and simple dies. Students use CAD in conjunction with CAD catalogs of tooling components.

442 **Industrial Safety.** Three credits. Safety and health in the manufacturing, construction, and utilities industries, including pertinent laws, codes, regulations, standards, and product liability considerations. Organizational and administrative principles and practices for safety management and safety engineering, accident investigation, safety education, and safety enforcement.

444 **Fire Safety.** Three credits. Fundamental methods of fire protection, prevention, and suppression. Includes characteristics and behavior of fire, fire hazards of materials and buildings, codes and standards for fire prevention and protection, fire protection equipment and systems, and fire fighting forces and how they operate.

445 **Industrial Hygiene.** Three credits. Corequisite: ET 442 or permission of instructor. Safety and health education, training, and investigation activities and how they are related to overall environmental safety.

459 **Fundamentals of Computer-Integrated Manufacturing.** Three credits. Prerequisite: Junior status or consent of instructor. A beginning course to aid in identifying the terms, applications, and requirements for using computer-integrated manufacturing. An overall view of the design, drafting, manufacturing, and integration aspects of using computers for manufacturing. Includes manufacturing, human, and business elements.

460 **Programmable Logic Controllers.** Two credits. Prerequisite: ET 363 or permission of instructor. Introduction to programmable logic controllers (PLCs). Selection, operation, and troubleshooting. Ladder diagrams and programming of PLC emphasized. One hour lecture and two hours laboratory.

461 **Instrumentation and Controls.** Four credits. Prerequisites: ET 362 and 363. Devices and techniques used in the measurement of physical parameters. Consideration of accurates and sources of error, identification of typical measurements, sensors and transducers, control stability and response. Three hours lecture and three hours laboratory.

463 **Local Area Networks.** Four credits. Provides the necessary foundation experience to understand the design, implementation, and management strategies of Local Area Networks (LAN). Data Communication Standards and protocol, fundamentals included. Will include lecture, laboratory activities, and a LAN design requirement. Three hours lecture and three hours laboratory.

464 **Industrial Electricity.** Four credits. Prerequisite: ET 360 or permission of instructor. AC power theory and circuits for industrial applications, polyphase systems, power factor correction, and transformers. Theory, applications, and selection of motors and generators. Industrial motor control and power transmission. Three hours lecture and three hours laboratory.

466 **Microprocessor Interfacing.** Four credits. Prerequisites: ET 364 and 365. Analog and digital conversion devices and their related systems. Introduction to individual subsystems; A/D and D/A data conversion. Organization and design of individual digital systems emphasized. Includes data transfer, conversion, storage, input and output. Focuses on systems which are typically external to microprocessor-based systems. Three hours lecture and three hours laboratory.

467 **Microprocessor Design.** Four credits. Prerequisite: ET 466. Advanced course in design and application of microprocessor-based measurement and control systems. Includes an in-depth analysis of hardware design process. Three hours lecture and three hours laboratory.

468 **Electronic Fabrication.** Four credits. Prerequisite: ET 361 or equivalent. Planning and designing electronic packaging, including printed circuit board design, component selection criteria, construction techniques, soldering techniques, and assembly techniques. Conventional and computer-aided printed circuit board design techniques used. Three hours lecture and three hours laboratory.

469 **Electronic System Analysis.** Four credits. Prerequisite: ET 364 or 467. Introduces the theory of electronic troubleshooting and proper repair techniques of electronic devices. Three hours lecture and three hours laboratory.

470 **Transform Circuit Analysis.** Three credits. Prerequisites: ET 360 and MATH 221 or permission of the instructor. Advanced network analysis stressing network theorems and solutions of time and frequency-domain problems with the use of Laplace Transforms.

471 **Industrial Seminar.** One credit. Prerequisite: Junior status. Orientation to industrial job opportunities, placement practices, interview techniques, and preparation of application materials (resume, cover letter). Guest lecturers, plant tours, films, student and faculty presentations arranged in seminar fashion. Recommended for junior year.

480 **Senior Problem in Engineering Technology.** One to three credits. All required freshman-, sophomore-, and junior-level courses in all disciplines have to be completed before registering for this course. Engineering situations are solved by experimental means. Student must have experimental approach, gather data, interpret results, and prepare a formal technical written and oral report.

480C **Computer Engineering Technology.** Prerequisites: ET 467; CSCI 316.

480D **Design Engineering Technology.** Prerequisites: ET 384, 386, and 434.

480E **Electro/Mechanical Engineering Technology.** Prerequisites: ET 365, 386, 461, and 486.

480M **Manufacturing Engineering Technology.** Prerequisites: ET 428, 437, 492, and 497.

485 **Fluid Power.** Three credits. Prerequisites: ET 184, 381. Systems and the basic components that make up these systems, including hydraulic, pneumatic, and fluidic. Emphasis on understanding the language and graphic symbols associated with fluid power and the performance characteristics of system components. Lecture, laboratory, and problem solving.

486 **Robotics.** Three credits. Prerequisites: MATH 122; CSCI (3 hours). Introductory course in the fundamentals of robots. Types of robots, types of controls, the prime movers, and the application of robots in the industrial environment.

490 **Productivity Strategies.** Three credits. Prerequisite: ET 391 or equivalent. Analysis, design, and implementation of productivity strategies and productivity improvement programs for a wide variety of organizations. Touches a spectrum of disciplines such as work design, quality, design engineering, and employee involvement.

491 **Maintenance Management.** Three credits. Prerequisite: ET 391. Overview of maintenance management in an organizational setting such as manufacturing, hospitals, airlines, or large maintenance shops. Application of work measurement and labor utilization controls with emphasis on preventative and predictive maintenance techniques. Computer applications highlighted.

492 **Plant Layout and Materials Handling.** Three credits. Prerequisites: ET 231 and 391. An overview of facility planning including equipment selection, work flow analysis, activity relationship analysis, and plant layout for product, process, and JIT requirements. Teams assigned actual projects in industry. CAD layout presentations to industry management required.

493 **Production Planning and Control.** Three credits. Prerequisite: ET 391. Concepts of manufacturing planning, forecasting, material requirements, planning and control of inventories. Emphasis on computer systems for planning, scheduling, and control. Plant tours and special presentations are supplementary.

494 **Methods and Work Measurement.** Three credits. Prerequisite: ET 391. Design of work tasks including analysis and improvement of existing tasks. Establishing engineered time standards by stop-watch, pre-determined times, and work sampling. Application of computer systems in work measurement.

495 **Statistical Quality Control.** Three credits. Prerequisite: ET 391. Statistical quality analysis of manufacturing processes including product sampling and design of overall quality system, study of various systems in use by industry.

496 **Human Factors Engineering (Ergonomics).** Three credits. Integration of the human into the work task environment. Emphasis on practical applications of ergonomics to task design and analysis. Design teams apply concepts to real world problems. Presentations of projects. Computer applications reviewed.

497 **Engineering Economy.** Three credits. Development of capital budgets. Justification of capital projects using time value of money concepts. Replacement analysis. Review of justification of actual capital projects and computer applications.

498 **Federal and State Safety Legislation.** Three credits. Corequisite: ET 391 or permission of instructor. The Federal Occupational Safety and Health Act (OSHA) and the Tennessee Occupational Safety and Health Act (TOSHA) Environmental Protection Agency; rules and regulations and how they apply to industry.

Courses in Construction Management [CM]

101 **Introduction to Concrete Industry.** One credit. Overview of the history, career opportunities, job functions, and professional organizations in the concrete industry. Introduction to the concrete industry management curriculum, instructional exceptions, and methodologies.

130 **Drafting Fundamentals for Architecture and Construction.** Four credits. Not open to students who take ETIS 131. Drafting theory and practice including orthographic projection, drafting conventions, lettering, descriptive geometry, and size descriptions employing architectural and construction sketching activities. Recommended for students of pre-architecture and construction management with less than one unit of high school drafting. Two hours lecture and four hours laboratory.

300 **Fundamentals of Concrete—Properties and Testing.** Four credits. Prerequisite: CM 315 or 101. Concrete testing, admixtures, placing, and finishing. Effects of concrete-making materials on properties of fresh and hardened concrete materials.

305 **Concrete Construction Methods.** Three credits. Prerequisite: CM 300. Forming and shoring, placing and reinforcing; transporting, placing, consolidating, finishing, jointing, and curing concrete for cast-in-place foundations, pavements, slabs on ground, structural frames, and other structural members; erecting precast concrete members; waterproofing concrete foundations.

306 **Understanding the Concrete Construction System.** Three credits. Prerequisite: CM 300. Detailed look at how the concrete construction industry works. Includes review of model building codes, building officials and their function, concrete industry codes and standards, concrete construction processes, quality assurance systems, contract documents, and concrete construction markets.

310 **Applications of Concrete Construction.** Three credits. Prerequisites: CM 300, 305. Details many uses of concrete in the construction of buildings, pavements, and other facilities. Emphasis on the advantages, disadvantages, and unique problems faced by materials suppliers, contractors, and design professionals when concrete is chosen for specific applications.

315 **Construction and Materials I.** Four credits. Blueprint reading, terminology, building materials, methods and techniques, problems, and fundamentals essential for residential construction. Recommended for those desiring general knowledge of construction or work in the construction field. Two hours lecture and four hours laboratory.

316 **Cost Estimating I.** Three credits. Prerequisite: CM 315 or consent of instructor. Introduction to the principles and practices involved in the preparation of a cost estimate for a residential home. Topics include introduction to cost estimating, materials, and labor costs for residential building.

317 **Construction Measurement.** Three credits. Prerequisites: CM 315; ET 231; MATH 142 or 121. Reading of topo maps used in construction field. Measurement and calculations involved in surveying, road and utilities layout for subdivisions.

318 **Construction and Materials II.** Three credits. Prerequisite: CM 315. A continuation of CM 315 with emphasis on materials and other forms of construction. Light commercial construction included.

319 **Construction Operations.** Three credits. Prerequisite: CM 315. Management methods used in construction equipment. Other topics Include contractor organization in land development and infrastructure.

332 **Architectural Computer-Aided Drafting and Design.** Four credits. Prerequisites: ET 231 and CM 315 or consent of instructor. Using computers to draw and design residential architectural plans. Specifically geared toward the construction area of concentration. Two hours lecture and four hours laboratory.

405 **Management of Concrete Products—Ordering and Delivering.** Three credits. Prerequisites: ET 391; CM 300, 305. Provides student with basic understanding on managing order and delivery processes common to all concrete products. Emphasis on planning, organizing, and controlling at both the first-line supervisory and managerial levels. Key differences in the order and delivery functions of ready mix concrete, concrete masonry, pre-cast concrete, pre-stress concrete, and concrete pipe supplemented by product-specific guest lectures and plant tours.

406 **Management of Concrete Products Production Facilities.** Three credits. Prerequisites: CM 300, 305; ET 391. Provides student with basic understanding of managing the manufacturing process common to all concrete products production facilities. Emphasis on planning, organizing, and controlling at both the first-line supervisory and managerial levels. Review of key differences in manufacturing process of ready mix concrete, concrete masonry, precast concrete, pre-stress concrete, and concrete pipe explained through product-specific guest lectures and plant tours.

410 **Mechanical and Electrical Systems.** Four credits. Prerequisites: CM 316, 332; PHYS 231-233. Fundamentals and computer design of mechanical, electrical, and plumbing systems used in the residential and small commercial building construction industry. Three hours lecture and three hours laboratory.

411 **Cost Estimating II.** Three credits. Prerequisite: CM 319, 412. Estimating total job costs for capstone project to include overhead, direct, and indirect costs. Final estimate will be done on computer.

412 **Specifications and Scheduling.** Three credits. Prerequisites: CM 317-410, 332. Basic methods of writing about characteristics of materials used in the assembling of construction as specified. Flow of labor and material toward specified goal, weather, trade characteristics, and material availability in work scheduling.

413 **Construction Administration.** Three credits. Prerequisites: CM 316-319. Management and administration of construction to include contracts, office, and field work.

415 **Concrete Problems: Diagnosis, Prevention, and Dispute Resolution.** Three credits. Prerequisite: Senior course only. Diagnosing and preventing problems related to concrete production, testing, construction, and performance. Identifying causes of fresh and hardened concrete problems such as fast and slow setting, air content variations, low strength, cracking, and scaling. Pre-job conferences and dispute resolution methods.

417 **Capstone—Construction Management.** Three credits. Prerequisites: All construction courses through CM 413. Final preparation of development plans, etc., for sub-division. Basic principles of presentations. Presentation of capstone project to Building Construction Technical Committee.

491 **Capstone.** Three credits. Prerequisite: To be taken semester before graduation. Intensive study of a problem(s) appropriate to the major and the student's career interest. Solution(s) for problem(s) presented to a committee of concrete industry people. Presentation must emphasize depth of analysis, completeness and effectiveness of solution, and presentation skills.

Courses in Industrial Education [IED]

305 **Occupational Teaching Internship I.** Three credits. A supervised teaching experience at a post secondary or secondary school offering occupational training, composed of teaching one half-day course for 15 weeks (or the equivalent). Students given opportunities to apply methods and principles learned in professional courses under the guidance of an experienced supervisor.

306 **Occupational Teaching Internship II.** Three credits. A continuation of IED 305.

400 **Program Development and Modification for the Special Needs Learner.** Three credits. Basic strategies for identifying and working with special needs learners in occupational education.

401 **History and Philosophy of Industrial Education.** Three credits. Relation to the development of industrial education stressed.

403 **Course Development in Occupational and Technology Education.** Three credits. Basic techniques including occupational analysis, preparing objectives, planning a learning sequence, preparing learning activities, selecting and preparing learning resources, and evaluating student performance.

404 **Methods of Teaching Occupational and Technology Education.** Three credits. Understanding and skills required for individualizing instruction in occupational and technology education.

406 **Organization and Operation of Occupational Student Organizations.** Three credits. Orientation to incorporating student organizations in occupational education programs. Emphasis on establishing an organization, planning chapter activities, utilizing community resources, chapter business procedures and competitive activities, and the Professional Development Program.

407 **Laboratory Organization and Classroom Management.** Three credits. Laboratory planning and layout, supplies and equipment purchasing, inventory and record keeping, laboratory maintenance, class organization, and safety.

448 **Topics in Industrial Education.** One to six credits. Subject topics offered as required to meet the needs of the class.

Courses in Environmental Science and Technology [EST]

281 **Introduction to Environmental Science.** Three credits. The technical, economic, and political aspects of environmental science. Introduction to specific problems dealing with many pollution issues. Specific monitoring, abatement techniques, and equipment. An overview of energy production processes industrial pollution problems, air, noise, solid and hazardous wastes, along with economic and environmental concerns. Field trips, lecture, and research projects and/or papers highlight specific topics of special interest to students.

476 **A, B, C, D Seminar in Environmental Science and Technology.** One credit each. NOTE: These courses are required for a major in Environmental Science and Technology. Four interdisciplinary seminars conducted jointly Agribusiness and Agriscience, Biology, Chemistry, Physics and Astronomy, and Engineering Technology and Industrial Studies. Guest lecturers, agency and resource personnel, readings, reflective thought, films, and discussions on environmental problems and issues, new and proposed legislation, and the role of environmental science and technology in pollution control.

477 **Pollution Control Technology.** Four credits. NOTE: This course is required for a major in Environmental Science and Technology. Prerequisites: 8 hours each in biology, chemistry, and physics, or consent of instructor. An introduction to solid waste and water pollution control technology. Legislative regulations and quality standards, pollution types and sources, detection and analysis instruments, and treatment or abatement principles and practices.

478 **Air, Solids, and Noise Pollution Technology.** Four credits. Prerequisites: 8 hours each chemistry, biology, and physics or permission of instructor. An introduction to air, noise, solid and hazardous waste pollution technology, including legislative regulations and quality standards: sources, detection, and analysis instrumentation and practices, and treatment and abatement principles, equipment, and practices.

481 **Energy and the Environment.** Three credits. NOTE: This course is required for a major in Environmental Science and Technology. Prerequisites: 4 hours chemistry and 3 hours mathematics or consent of instructor. Introduces sources and methods of energy production and classifications of energy usages, with emphasis on usage trends, energy conservation strategies, and alternate energy utilization.

482 **Solar Building Design.** Three credits. Prerequisites: 4 hours science and 3 hours mathematics or consent of instructor. Broad introduction to the environmental and economic impact of solar energy for residential and light industrial construction including day lighting, passive solar design, and hot water heating.

484 **Energy Auditing.** Three credits. Prerequisites: 4 hours chemistry and 3 hours mathematics or consent of instructor. Introduction to types of energy consumption and classifications of energy usages, with emphasis on conservation strategies and total management for residential and industrial plants.

487 **Passive Solar Design.** Three credits. Prerequisite: EST 482 or 4 hours science and 3 hours mathematics. Introduces use of passive solar techniques on the construction of residential and light industrial structures including topics such as day lighting, passive solar design, methods, and system integration.

Honors College

The Department of Engineering Technology and Industrial Studies offers periodically the following courses in Honors:
ET 231H Computer-Assisted Drafting/Design I
ET 361H Introduction to Electricity/Electronics
ET 391H Introduction to Industrial Management

Graduate Study

The Engineering Technology and Industrial Studies Department offers the Master of Science and the Master of Vocational-Technical Education degrees. Both include thesis and non-thesis options. Requirements and a list of graduate courses offered may be found in the graduate catalog.

Department of Mathematical Sciences

Jeff S. Allbritten, Interim Chair
KOM 223D

Aspinwall, Balch, Barnwal, Beck, Bouldin, Campbell, Church, Enderson, Hankins, Hargis, Hart, Jamison, Kimmins, Koning,, Krishnamani, Lea, Ledford, Martin, Melnikov, Miller, Nelson, Parr, Powell, Raines, Sinkala, Tarr, Truitt, Walsh, Worsey, Zha, J. Zijlstra, R. Zijlstra

The purpose of the Department of Mathematical Sciences is to provide students education in the mathematical sciences necessary to function and succeed in an increasingly complex, technological world.

Courses offered by the department are designed to prepare students who plan to enter graduate schools or professional schools of medicine or engineering; to teach in elementary schools, secondary schools, or junior colleges; to major in mathematics, in computer science, in the natural or physical sciences, or in other areas with mathematics requirements; or to enter careers in business, industry, or government. Courses also are provided to meet cultural and General Studies requirements.

Programs in the department lead to the Bachelor of Arts or Bachelor of Science degrees with a major in Mathematics. Students choose one of the following concentrations: Professional Mathematics, Mathematics Education, Applications of Mathematics, or Actuarial Science. Minors are offered in Mathematics, in Mathematics for Managerial, Social, and Life Sciences, and in Statistics.

The following specialized courses do not count toward a Mathematics major or minor: MATH 110, 121, 141, 142, 201, 209, 213, 243, 246, 300, 344, 345, 401, 402, and STAT 313. However, MATH 121,141,142, 213, 243, 344, 345, and STAT 313 may count toward a minor in Mathematics for Managerial, Social, and Life Sciences.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Mathematics

A major in Mathematics requires the mathematics core of 21 hours plus 15 hours of specified upper-level courses in the department and 12 hours of supporting coursework (either in or out of the department). The supporting course work must complement the student's program and be approved by the mathematics advisor. A single minor outside the department is required.

Every mathematics major is required to declare a concentration. Concentrations include Professional Mathematics, Mathematics Education, Applications of Mathematics, and Actuarial Science.

All courses in the Mathematics major or minor must be completed with a grade of C or better. All courses transferred from other institutions for credit in the Mathematics major or minor must carry a grade of C or better and be approved by the department chair.

Mathematics Core

Each student majoring in the department must complete the following core (21 hours):
MATH 122 (Calculus I), 4 hours
MATH 221 (Calculus II), 4 hours
MATH 222 (Calculus III), 4 hours
MATH 312 (Elements of Linear Algebra), 3 hours
MATH 346 (Foundations of Higher Mathematics), 3 hours
STAT 314 (Probability and Statistics), 3 hours*

**Students in the Mathematics Education concentration must concurrently enroll in MATH 211 (Data Analysis, 1 hour).*

Concentration: Professional Mathematics

Students opting to study the discipline of mathematics will choose between tracks in general mathematics and advanced mathematics. In addition to the mathematics core, they will take 9 additional upper-level courses in the department chosen with the approval of the mathematics advisor. A single minor outside of the department and CSCI 116 are required.

Advanced Mathematics Track

Students interested in preparing for a graduate degree in mathematics should pursue this track. In addition to the mathematics core, they must take MATH 323, 425, 451; two courses from MATH 326, 423, 427, 442, 453, 470; and 12 hours of approved supporting coursework chosen from among upper-level courses in the department and CSCI 308. The program must include at least one sequence in either algebra (442/451), analysis (423-425), or differential equations (323-326). Six hours of a foreign language are recommended.

Students should consult their advisors each semester to plan their schedules.

Curriculum Requirements and Recommended Sequence for Professional Mathematics-Advanced

Gen. Studies (Area III-B)	3	Electives	12
Electives	12		30
	33		

General Mathematics Track

Students desiring a broad general background in mathematics should pursue this track. In addition to the mathematics core, they must take MATH 323, 451; three additional courses from MATH 326, 340, 423, 425, 427, 431, 432, 442, 453, 470, STAT 315, 419; and 12 hours of approved supporting coursework chosen from among upper-level courses in the department and CSCI 308.

Students should consult their advisors each semester to plan their schedules.

Concentration: Mathematics Education

Mathematics majors preparing to teach secondary school mathematics must complete the professional program in Mathematics Education. In addition to the mathematics core, they must take MATH 307, 451, 462; two upper-level electives in the department; and the enhanced general education requirements including 12 hours of specified supporting coursework in mathematics pedagogy: MATH 331, 332, 333, 454, and 8 hours of approved electives. Prospective teachers must also complete CSCI 117 and a minor in secondary education, including a 2-hour senior seminar in conjunction with student teaching (see Department of Educational Leadership for description). Completion of the program leads to a license to teach in grades 7-12.

Students should consult their advisors each semester to plan their schedules.

Concentration: Applications of Mathematics

Students desiring to study applications of mathematics and statistics in business, government, and industry may choose between tracks in statistics, business, or industrial mathematics. All three tracks blend theory and practice to provide students with background for employment and background for students interested in graduate studies.

Statistics Track

The statistics track offers students a program of study in one of the broadest areas of applied mathematics. Statistical methods are used in many fields, including agriculture, business, communications, government, health, industry, public policy, sports, and science. Courses provide students the opportunity to learn the art of data analysis and to develop skills in statistical methods of wide application. Emphasizing the blend of theory and practice, the program is designed to provide students with the necessary background for employment as a statistician in the public or private sector and to provide a solid foundation for those students interested in graduate studies.

In addition to the mathematics core, students pursuing this track must take STAT 315 and 419 and three courses from STAT 420, 436, 437, 438, MATH 319. One minor outside the department is required. If the minor is not Computer Science, then the supporting coursework must consist of 12 hours of computer science other than service courses. If the minor is Computer Science, then the supporting coursework must be 12 hours chosen with the approval of the statistics advisor from areas that significantly complement the student's program.

Students should consult their advisors each semester to plan their schedules.

Curriculum Requirements and Recommended Sequence for Applied Mathematics-Statistics

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6

Electives	12		
	36		

Business Track

This track is appropriate for students who seek a broad background from such diverse, but mutually supportive, areas as mathematics, statistics, computer science, and business. The program prepares students for the job market or for further study in the more specialized areas of actuarial science, operations research, statistics, computer science, or finance.

In addition to the mathematics core, students pursuing this track must take STAT 315 and 419; MATH 319; ACSI 440; and either STAT 420 or 436. The supporting coursework consists of 12 hours of computer science other than service courses. The student must complete a minor in the College of Business as well as ACTG 211, 212, or 300, 302, and ECON 241, 242.

Students should consult their advisors each semester to plan their schedules.

Curriculum Requirements and Recommended Sequence for Applied Mathematics-Business

Electives	3-6		
	36-42		

Industrial Mathematics Track

The industrial mathematics track offers students a program of study that incorporates the areas of mathematics that contribute to business and industry. Coursework is designed to produce graduates who have strong qualifications that make them competitive for positions in industry, as well as providing a solid foundation for students interested in pursuing graduate study in the area. The minor must be chosen from Computer Science, Physics, Chemistry, Biology, Aerospace, or Industrial Technology.

In addition to the mathematics core, students pursuing this track must take STAT 315, MATH 323, 326, 425, and 431. Required supporting coursework includes PHYS 235, 236, 237, 238 (counted towards satisfying the General Studies Science requirement for area IV-A) and CSCI 117, 217. If these courses are taken as part of a minor in computer science, then nine additional hours of supporting coursework must be chosen with the approval of the mathematics advisor from MATH 423, 427, 432, 470, STAT 419. If the minor is not Computer Science, then six additional hours of supporting coursework must be chosen with the approval of the mathematics advisor from MATH 423, 427, 432, 470, STAT 419.

Students should consult their advisors each semester to plan their schedules.

Concentration: Actuarial Science

The Actuarial Science concentration is designed for students who have a strong mathematical ability with an interest in applying their mathematical knowledge to insurance, finance, risk management, investments, and other areas of business. The program is classified by the Society of Actuaries as a full actuarial program. The program will be in complete compliance with new requirements set forth by the Society of Actuaries and the Casualty Actuarial Society starting in the year 2000. Therefore, the student can choose coursework necessary to prepare for exam #1 through exam #6 administered by the Society of Actuaries.

The student is expected to pass at least exam #1 and exam #2 administered by the Society of Actuaries while completing the Bachelor of Science degree.

Mathematics majors preparing to pass the national actuarial science exams and desiring to enter the field of actuarial science should complete this professional program in Actuarial Science. The student must complete the mathematics core; 15 hours of upper-division Actuarial Science courses consisting of ACSI 400, 439, 440, 448, 449; and 12 hours of supporting coursework consisting of STAT 315, 419, ACSI 410, and 3 upper-division hours from the department. ACSI 405 and 406 are strongly recommended as electives. The student is required to complete ACTG 211, 212, ECON 241, and at least one course from FIN 361, 366, or 371. A minor from the College of Business is required. A minor in Insurance is strongly suggested. CSCI 117 and another Computer Science elective are required. Recommended Computer Science Courses are CSCI 303V or CSCI 318.

Students should consult their advisors each semester to plan their schedules.

***Strongly recommended*

Minor in Mathematics

A minor in Mathematics consists of 18 semester hours including MATH 122 and 221. The remaining 10 hours of electives must be selected with the approval of the Mathematics minor advisor from the mathematics courses for majors and minors.

Minor in Mathematics for Managerial, Social, and Life Sciences

A minor in Mathematics for Managerial, Social, and Life Sciences consists of 18 semester hours including MATH 344 and 345 with the remaining 12 hours to be selected with approval of the advisor from MATH 121, 141, 142, 213, 243, 312, 340; STAT 313, 314, 315; CSCI 116, 117, 217, 316, 318, 411; ACSI 440, 450.

Minor in Statistics

A minor in statistics requires 18 semester hours and consists of STAT 315, 419, 436, 437, 438 and one course to be selected from MATH 319, 323, 326, 421, 422, 431, 432, or CSCI 318. With advisor approval, STAT 314 may be substituted for either STAT 419, 436, 437, or 438. Additionally, with advisor approval, one semester of calculus may be counted as the elective course.

Teacher Licensure - Secondary

Students seeking a license to teach mathematics in secondary schools (grades 7-12) must complete the concentration in mathematics education, the enhanced general education requirements, and a minor in professional education in addition to meeting the General Studies requirements. (See Department of Educational Leadership section of catalog for details.)

Teacher Licensure - Elementary

The Department of Mathematical Sciences offers courses required for the Interdisciplinary Studies major for students preparing to teach in grades K-4 or 5-8.

Students wishing to develop a concentration in 5-8 mathematics should select at least twelve (12) additional hours from MATH 121, 141, 142, 213, 243, 332, 344 or 122, and STAT 313 or other approved mathematics/statistics courses. (See the Department of Elementary and Special Education section of the catalog for details.)

Placement in Freshman Introductory Mathematics Courses

Unless the academic assessment placement test places the student differently (see Developmental Studies Program, page 73), a student entering MTSU with

1. two years of algebra and a mathematics Enhanced ACT greater than 25—(Math SAT greater than 530) **or** with senior advanced mathematics should take the appropriate mathematics courses for his/her major.
2. two years of algebra and a mathematics Enhanced ACT of 19-25—(Math SAT 440-530) should take MATH 300 after the freshman year. Such students who plan to take 122 must complete 121 as a prerequisite. Students preparing to become elementary school teachers should take MATH 110 and 201.
3. a mathematics ACT of 18 or less on the Enhanced ACT Assessment—(Math SAT less than 440) must take an AAPP test in mathematics for proper placement. (See Developmental Studies Program, page 73.)
4. one year of algebra must take DSM 085 before taking other mathematics courses.
5. no algebra must take DSM 080 and DSM 085 before taking other mathematics courses.

Courses in Mathematics [MATH]

110 **Mathematics for Elementary School Teachers.** Three credits. Prerequisites: Two years of high school algebra and a Math Enhanced ACT of at least 19 or DSM 085 or AAPP placement. Required for students who are preparing to become elementary school teachers. Does not satisfy the Area IV-B General Studies requirement. Topics include tools for problem solving, sets functions, logic, numeration systems, whole numbers, integers, and rationals. Successful completion of an Arithmetic Proficiency Test (APT) is required.

121 **Algebra and Trigonometry.** Four credits. Prerequisite: Working knowledge of high school Algebra II. An integrated course in algebra and trigonometry designed to prepare a student for MATH 122. Emphasis on understanding functions and their applications. Graphing calculator required.

122 **Calculus I.** Four credits. Prerequisite: MATH 121 or equivalent. Differential calculus with an introduction to integration. Topics covered include definition of derivative and definite integral; differentiation techniques; trigonometric, logarithmic, and exponential functions; and applications. Graphing calculator required.

141 **College Algebra.** Three credits. Prerequisite: DSM 085 or two years of algebra and a Math Enhanced ACT 19 or greater or AAPP placement. Includes functions, inequalities and absolute value linear systems, matrices, series, conic sections, theory of equations, exponents and logarithmic functions, natural number functions, and probability. Not open to those who have had MATH 121.

142 **Plane Trigonometry.** Three credits. Prerequisite: Strong background in algebra recommended. Trigonometric functions of the acute and general angle, circular functions, graphs of trigonometric and inverse functions, identities, solutions of right and general triangles, equations, logarithms, complex numbers, and vectors. Not open to those who have had MATH 121.

201 **Informal Geometry for Elementary School Teachers.** Three credits. Prerequisite: A grade of C or better in MATH 110. Required for students who are preparing to become elementary school teachers. Does not satisfy the Area IV-B General Studies requirement. Topics include an informal study of plane, solid, and coordinate geometry, constructions, congruences, similarity, motion geometry, concepts of measurement, and LOGO.

202 **Calculus of Business Engineering I.** Three credits. (Same as ACSI 202.)

203 **Calculus of Business Engineering II.** Three credits. (Same as ACSI 203.)

209 **Mathematics for Health Professions.** Two credits. Enables students in fields such as nursing to apply simple arithmetic and algebraic principles to solve problems in their areas. Not open to Mathematics majors or minors.

211 **Data Analysis.** One credit. Grouping and classifying technical data. Curve fitting by statistical and non-statistical methods. Graphing of scientific data.

213 **Mathematics of Finance.** Three credits. Prerequisites: Two years of high school algebra and a Math Enhanced ACT 19 or greater or DSM 085. Investment finance, including general annuities, evaluation of bonds, and life annuities.

221 **Calculus II.** Four credits. Prerequisite: MATH 122. Integral calculus with an introduction to differential equations and infinite series. Topics covered include antiderivatives, techniques of integration, elementary differential equations, Taylor series, geometric series, and applications. Graphing calculator required.

222 **Calculus III.** Four credits. Prerequisite: MATH 221. Multivariable calculus. Topics covered include vectors, vector operations, multivariable functions, partial integration, multiple integration, and applications.

243 **College Mathematics for Managerial, Social, and Life Sciences.** Three credits. Prerequisites: Two years of high school algebra and a Math Enhanced ACT greater than 25 or MATH 141. Linear programming, probability, data descriptions, compound interest, annuities, logic, decision theory, precalculus topics, and the applications of these topics.

300 **Mathematics for General Studies.** Three credits. Prerequisites: Two years of high school algebra and a MATH Enhanced ACT of at least 19 or DSM 085 or AAPP placement, sophomore status. Course satisfies the Area IV-B General Studies requirement and is also part of the mathematics sequence for students preparing to become elementary school teachers. Topics include logic, sets, algebraic reasoning, probability, statistics, and consumer mathematics.

302 **Calculus of Business Engineering III.** Three credits. (Same as ACSI 302.)

303 **Calculus of Business Engineering IV.** Three credits. (Same as ACSI 303.)

307 **College Geometry.** Three credits. Prerequisite: MATH 346. Advanced treatment of standard topics in Euclidean geometry using informal and axiomatic approaches. Includes proofmaking techniques, traditional and transformational geometry, finite geometries, and a brief introduction to other geometries.

308 **Discrete Structures.** Three credits. (Same as CSCI 308.) Prerequisites: CSCI 116 or 117 and MATH 221 or consent of instructor. Topics include sets, relations, functions, graphs, algebraic systems, formal grammars, finite state machines, Turing machines, and codes.

312 **Elements of Linear Algebra.** Three credits. Prerequisite: MATH 122. Vectors and vector spaces, matrices and systems of linear equations, geometry of vector spaces and linear transformations in a vector space.

318 **Introduction to Numerical Analysis.** Three credits. (Same as CSCI 318.) Prerequisites: MATH 221 and CSCI 116 or 117. Topics include series approximation, finite differences, interpolation, summation, numerical differentiation and integration, iteration, curve fitting, systems of equations and matrices, and error analysis.

319 **Deterministic and Probabilistic Models.** Three credits. Corequisite: STAT 314. Linear programming, network analysis, queuing theory, dynamic programming.

323 **Differential Equations I.** Three credits. Corequisite: MATH 222. The solution and application of ordinary differential equations with emphasis on first order equations, second order linear equations, Laplace Transform method, systems of differential equations, and numerical methods.

326 **Differential Equations II.** Three credits. Prerequisite: MATH 323. A continuation of MATH 323 with emphasis on series solutions, method of Frobenius, orthogonal functions, equations of Bessel, Legendre, Gauss, Chebyshev; introduction to partial differential equations.

331 **Technology in School Mathematics.** Three credits. Prerequisites: Admission to the teacher education program and completion of the mathematics core (MATH 122, 221, 222, 312, 346; STAT 314), SPSE 322, and CSCI 117. Required of all mathematics majors seeking a license to teach mathematics in grades 7-12. Enables prospective teachers of secondary school mathematics to effectively integrate technology into the teaching and learning process. Topics from both junior high and high school curricula including number theory, algebra, geometry, trigonometry, probability, statistics, discrete mathematics, and calculus investigated via technology. Must be taken prior to student teaching.

332 **Teaching Mathematics in Grades 5-8.** Three credits. Prerequisite: Admission to the teacher education program. Required of all mathematics majors seeking a license to teach mathematics in grades 7-12. Strongly encouraged for elementary education majors with a 5-8 emphasis in mathematics. Topics from number relationships, mental computation and estimation strategies, patterns and functions, algebra, statistics, probability, geometry, and measurement. Must be taken prior to student teaching.

333 **Teaching Mathematics in Grades 9-12.** Three credits. Prerequisites: Admission to teacher education, completion of the mathematics core (MATH 122, 221, 222, 312, 346; STAT 314), and MATH 332. Required of all mathematics majors seeking a license to teach mathematics in grades 7-12. In-depth study of mathematics learning and teaching strategies in secondary school mathematics. Selected topics from junior and senior high school curricula provide a foundation for student investigations into the conceptual nature of mathematics and applications in the secondary school curriculum. Must be taken prior to student teaching.

340 **Symbolic Logic.** Three credits. The elements of propositional calculus—propositional connectives and their truth functions, validity, proof, and an introduction to quantification theory. Where appropriate and natural, parallels from elementary set theory are introduced. May count for credit in Philosophy.

344 **Calculus I for Managerial, Social, and Life Sciences.** Three credits. Prerequisites: Two years of high school algebra and a mathematics Enhanced ACT greater than 25 or MATH 141. An intuitive approach to the concepts of limits; differential and integral calculus with applications to managerial, social, and life sciences. (Not open to those who have had MATH 122.)

345 **Calculus II for Managerial, Social, and Life Sciences.** Three credits. Prerequisite: MATH 344 or equivalent. A continuation of MATH 344. Calculus of functions of several variables, logarithms, exponential functions, series, trigonometric functions, and differential equations with applications of these and other topics to managerial, social, and life sciences.

346 **Foundation of Higher Mathematics.** Three credits. Prerequisite: MATH 221. The language of mathematics, set theory and proof, relations and functions, number systems, mathematical structures. Focuses on the transition from lower-level division study to upper-division study by actively engaging the student in problem solving, mathematical reasoning, and both informal and technical writing.

401 **Mathematics for Middle School Teachers.** Three credits. Prerequisites: MATH 110, 201, and 300. Required of students who are preparing to teach grades 5-8. Does not satisfy the Area IV-B General Studies requirement. Examines in greater depth topics to which the student has prior exposure; emphasizes the relevance and implications of these topics to the middle school classroom.

405 **Mathematics of Risk Management.** Three credits. (Same as ACSI 405.)

406 **Mathematics of Options, Futures, and Other Derivatives.** Three credits. (Same as ASCI 406.)

421 **Advanced Calculus I.** Three credits. Prerequisites: MATH 222 and 346. Theory and application of continuity, differentiation, and integration.

422 **Advanced Calculus II.** Three credits. Prerequisite: MATH 421. A continuation of MATH 421 including theory and application of convergence.

423 **Vector Analysis.** Three credits. Prerequisite: MATH 222. A review of vector algebra and vector differentiation with emphasis on aspects of these topics not covered in previous calculus courses. Stress on line and surface integrals; Divergence Theorem and Stokes' Theorem with generalizations and related topics.

425 **Theory of Calculus.** Three credits. Prerequisites: MATH 222 and 346. Develops the underlying theory of calculus and the application of this theory to solving difficult mathematics problems in calculus.

427 **Introduction to Topology.** Three credits. Prerequisites: MATH 222 and 346. Fundamental concepts of topology including continuity, compactness, connectedness, separation axioms, and metric spaces.

431 **Numerical Analysis I.** Three credits. Prerequisite: MATH/CSCI 318 or consent of instructor. Application of computer-oriented numerical algorithms to algebraic equations, differential and integral equations, and linear algebra. Rigorous mathematical treatment of error included.

432 **Numerical Analysis II.** Three credits. Prerequisite: MATH 431. A continuation of MATH 431.

439 **Introduction to Mathematics of Investment.** Three credits. (Same as ACSI 439.)

442 **Number Theory.** Three credits. Prerequisite: MATH 346. Divisibility, congruences, quadratic residues, Diophantine equations, quadratic forms, and continued fractions.

447 **Introduction to Modern Algebra.** Three credits. Prerequisite: MATH 346. A treatment of sets, relations, operations, and the construction of number systems in algebra.

451 **Abstract Algebra I.** Three credits. Prerequisite: MATH 346. An introduction to groups, with a brief introduction to rings, integral domains, and fields.

453 **Abstract Algebra II.** Three credits. Prerequisite: MATH 451/551. The theory of rings, fields, integral domains, and vector spaces.

454 **Topics in Secondary School Mathematics.** Three credits. Prerequisites: Mathematics core (MATH 122, 221, 222, 312, 346; STAT 314), MATH 307, and 451. Examines in greater depth topics to which the student has prior exposure; emphasizes the relevance and applications of these topics to the pre-college level classroom. Required for all mathematics majors seeking a license to teach mathematics grades 7-12.

460 **Problems in Contemporary Mathematics.** One to six credits. Pass/Fail grading in specified sections.

460D **Problems in Contemporary Mathematics—Complex Variables.** Three credits. Prerequisite: MATH 421. Fundamental principles and applications of complex variables.

462 **History and Philosophy of Mathematics.** Three credits. Prerequisite: MATH 346. Background in geometry and number theory helpful. The character of mathematical thought by way of mathematical problems which have occupied successively the outstanding mathematicians of Babylon, Egypt, Greece, China, the Renaissance, and modern times paralled with a study of three schools of mathematical philosophy: intuitionism, logicism, and formalism.

470 **Combinatorics and Graph Theory.** Three credits. Prerequisites: MATH 312 and 346. Selected topics in combinatorics and graph theory emphasizing combinatorial problem solving and algorithmic proof.

480 **Seminar in Mathematics with Technology.** Three credits. Prerequisite: 18 semester hours in mathematics including calculus or consent of instructor. Examine and utilize the technological tools available for doing mathematics. Emphasis on nonnumerical tools such as theorem provers and algebraic manipulation systems.

Courses in Statistics [STAT]

313 **Applied Statistics.** Three credits. Prerequisites: Two years of high school algebra and a mathematics Enhanced ACT 19 or greater or equivalent. An introductory course including descriptive statistics, probability, and statistical inference. The inference unit covers means, proportions, and variances for one and two samples, one-way ANOVA, regression and correlation analysis, chi-square analysis, and topics in nonparametrics.

314 **Probability and Statistics.** Three credits. Prerequisite: Calculus I. An introductory course including data analysis, probability, and statistical inference. The inference material covers means, proportions, and variances for one and two samples, one-way ANOVA, regression and correlation, and chi-square analysis.

315 **Mathematical Statistics I.** Three credits. Prerequisites: STAT 314 or QM 362 and two semesters of calculus. Probability theory including basic probability laws, properties of distributions, mathematical expectation, special discrete and continuous distributions, functions of random variables, and selected applications.

419 **Mathematical Statistics II.** Three credits. Prerequisite: STAT 315 or equivalent. Theory of statistical inference. Topics include sampling distributions, decision theory, estimation, test of hypothesis, regression analysis, analysis of variance, and selected applications.

420 **Statistical Methods for Forecasting.** Three credits. Prerequisite: STAT 419. Topics include application of regression models in forecasting and exponential smoothing methods to forecast nonseasonal time-series, seasonal series, and globally constant seasonal models; stochastic time series models; and forecast evaluation.

436 **Regression Analysis.** Three credits. Prerequisite: STAT 314 or QM 362. Theory and application of regression models. Approaches to model building and data analysis. Computation and interpretation of results facilitated through the use of statistical software packages.

437 **Nonparametric Statistics.** Three credits. Prerequisite: STAT 314 or equivalent. Statistical tests that require no assertions about parameters or about the form of the population from which the samples are drawn. A wide range of practical problems studied.

438 **Experimental Design.** Three credits. Prerequisite: STAT 314 or QM 362. Topics include one-way analysis of variances, multiple comparison, multifactor analysis of variance, and various practical issues in experimental design. Computation and interpretation of results facilitated through the use of statistical software packages.

460 **Problems in Statistics.** One to six credits. Prerequisites: Senior standing and consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which STAT 460 is taken. Proposal must be approved prior to taking the course. At the conclusion, each enrollee must submit a written report to the department.

Courses in Actuarial Science [ACSI]

202 **Calculus of Business Engineering I.** Three credits. (Same as MATH 202.) Prerequisite: Eligibility to take MATH 141. First of a four-course sequence. Introduces the process of mathematical modeling applied to current business problems. For students majoring or minoring in the College of Business and/or obtaining a concentration in Actuarial Science. Topics include sets, functions, inverse models, limits, continuity, first and second order model building, single variable differentiation, implicit differentiation, inverse problems (exponential and log models). First and second derivatives used to study the behavior of business models including cost, revenue, profit, and money behavior.

203 **Calculus of Business Engineering II.** Three credits. (Same as MATH 203.) Prerequisite: ACSI/MATH 202. Second of a four-course sequence. For students majoring or minoring in the College of Business and/or obtaining a concentration in Actuarial Science. Topics include Riemann Sum, indefinite and definite integrals, modeling using substitution, differential equations with initial conditions, functions of two or more variables, level curves, feasible regions, linear objective functions, system of linear equations, annuities, partial derivatives, least squares, matrix multiplication and addition, inverse matrix, and matrix equations.

302 **Calculus of Business Engineering III.** Three credits. (Same as MATH 302.) Prerequisites: ACSI/MATH 202 and 203. Third of a four-course sequence. For students majoring or minoring in the College of Business and/or obtaining a concentration in Actuarial Science. Topics include additional methods of integration, approximation of a definite integral by the trapezoid rule and Simpson's Rule, practical uses of partial differentiation, sketching the region of integration for a double integral, integration of double integrals, L'Hopital's Rule, improper integrals, arithmetic sequences, geometric sequences, investigation of partial sum sequences as cumulative functions, use of bond theory or investments to illustrate cumulative functions, convergence and divergence of series, Taylor and Maclaurin series for several functions, and error of approximation.

303 **Calculus of Business Engineering IV.** Three credits. (Same as MATH 303.) Prerequisites: ACSI/MATH 202, 203, and 302. Last of a four-course sequence. For students majoring or minoring in the College of Business and/or obtaining a concentration in Actuarial Science. Topics include differentiation and integration of trigonometric functions, vector spaces, subspaces, dot product, basis, orthonormal basis, linear transformations, kernel subspace, range subspace, matrices representing a linear transformation, return maximization of portfolio, cross product, convex combinations of vectors, affine functions, convex functions, duration and convexity of bonds, moments, moments from a convex combination point of view, and Taylor polynomials for functions of two variables.

400 **Calculus and Linear Algebra.** Three credits. Prerequisites: ACSI 303 (or MATH 222, 312) and STAT 315 or consent of instructor. Designed to offer preparation for Exam No. 1 jointly administered by the Society of Actuaries and the Casualty Actuarial Society.

405 **Mathematics of Risk Management.** Three credits. (Same as MATH 405.) Prerequisite: MATH/ACSI 439. For students obtaining a concentration in Actuarial Science. Offers preparation for Exam Nos. 5 and 6 administered by the Society of Actuaries under the new content requirements of the Society effective January 2000. Topics include mathematical modeling of volatility; pricing of bonds, stocks, and other derivatives with uncertainty; benchmark portfolios; asset/liability management for property/casualty insurers; liability associated with a financially distressed company. Heath-Jarrow-Morton and Cox-Ingersoll-Ross models.

406 **Mathematics of Options, Futures, and Other Derivatives.** Three credits. (Same as MATH 406.) Prerequisites: MATH/ACSI 405 and 439. For students obtaining a concentration in Actuarial Science. Offers preparation for Exam Nos. 5 and 6 administered by the Society of Actuaries under the new content requirements effective January 2000. Topics include risk management using options, interest rate swaps, interest rate caps, Black-Scholes analysis, Taylor series expansion to obtain hedge parameters, portfolio insurance, numerical procedures, interest rate derivatives, and use of Black's model.

410 **Probability and Statistics.** Three credits. Prerequisites: STAT 419 and ACSI 439, 440 or consent of instructor. Designed to offer preparation for Society of Actuaries Exam No. 2.

439 **Introduction to Mathematics of Investment.** Three credits. (Same as MATH 439.) Prerequisites: MATH 122 or ACSI 202, 203 and one semester of probability/statistics or consent of instructor. Calculus and probability/statistics used to model and analyze investments in bonds, treasury bills, stocks, and other derivatives. Topics include obtaining the price of a bond as a function of interest rate, developing formulas for duration and convexity to study the sensitivity of price to interest rate, and

mathematical modeling of investor preference and attitude toward risk.

440 **Mathematics of Compound Interest.** Three credits. Prerequisites: ACSI 439 or consent of instructor. Designed to offer preparation for the Society of Actuaries Exam No. 2. Topics include measurement of interest (including accumulated and present value factors), annuities certain, yield rates, amortization schedules, sinking funds, and bonds and related securities.

448 **Actuarial Mathematics I.** Three credits. Prerequisites: ACSI 440 and STAT 419 or consent of instructor. First of a two-semester sequence designed to offer preparation for the Society of Actuaries Exam No. 3. Topics include survival distributions and life tables, life insurance, life annuities, and net premiums.

449 **Actuarial Mathematics II.** Three credits. Prerequisite: ACSI 448. Second of a two-semester sequence designed to offer preparation for the Society of Actuaries Exam No. 3. Topics chosen from net premium reserves, multiple life functions, multiple decrement models, valuation theory and pension plans, and insurance models (including expenses and nonforfeiture benefits and dividends).

450 **Mathematics of Compound Interest and Life Contingencies.** Three credits. Prerequisites: ACSI 440 and 449 or consent of instructor. Application of theory of interest and actuarial mathematics. Designed to offer preparation for the Society of Actuaries Exam No. 3. Topics chosen from valuation theory of pension plans insurance models and nonforfeiture benefits and dividends.

460 **Problems in Actuarial Science.** One to six credits. Prerequisites: Senior standing and consent of instructor. Students wishing to enroll must submit a written course/topic proposal to the department prior to the semester in which ACSI 460 is taken. Proposal must be approved prior to taking the course. At the conclusion, each enrollee must submit a written report to the department.

Honors College

Mathematics 121H, 141H, and 300H are offered periodically for students in the MTSU Honors College who are not mathematics majors. Mathematics 460H is offered periodically for students in MTSU Honors who are mathematics majors.

Cooperative Education

MATH 293, 294, 397, 398. Cooperative Education Experience I, II, III, IV. One to three credits each. Experiences must be taken in sequence. Pass/Fail.

Graduate Study

The Master of Science and Master of Science in Teaching degrees are offered in mathematics. A minor in Mathematics is offered for masters and Doctor of Arts degrees. Requirements for these degrees and a list of the courses offered for graduate credit are in the Graduate Catalog.

Department of Military Science

Lieutenant Colonel Donald M. Ferrell, Professor of Military Science
Forrest Hall

Nash, Pick, Powell, Riedel, Tilton

The Department of Military Science offers courses which are applicable to all branches of the United States Army and through which a student can earn an academic minor. These courses give students a broad knowledge of Army leadership, management, and technical skills thereby preparing them for an Army commission and subsequent entrance to an officer's basic branch course at one of the Army service schools. The objectives of producing officers through the ROTC (Reserve Officers Training Corps) program are to

1. provide officers a broad educational base;
2. provide a basic military education for students;
3. teach basic fundamentals and techniques of leadership and management;
4. develop, in conjunction with other academic disciplines, individual character and attributes required of an officer in the U.S. Army.

Military Science Curriculum

Military Science courses are designed to fulfill the educational and training requirements for commissioning in the U.S. Army (Regular Army, U.S. Army Reserve, or Army National Guard). The curriculum consists of a Basic Course (first two years) and an Advanced Course (final two years). The basic course is open to all MTSU students without incurring any military service obligation. Army, Navy, Marine Corps, or Air Force basic training can be placed directly into the advanced course. Advanced placement may also be earned by attending the five-week ROTC Basic Camp at Fort Knox, Kentucky, normally between the sophomore and junior years. The advanced course is offered during the last four semesters of Military Science and includes a five-week summer camp at an Army installation. Upon successful completion of the advanced course and upon graduation from the University, the student will be commissioned a second lieutenant in the United States Army.

FRESHMAN (Basic)*		SOPHOMORE (Basic)*	
MS 101	1	MS 201	2
MS 102	1	MS 202	2
MS 100**		MS 100**	
		MS 300	6

JUNIOR (Advanced)		SENIOR (Advanced)	
MS 311	3	MS 411	3
MS 312	3	MS 412	3
MS 313	6	MS 100**	
MS 100**			

Prior to commissioning, the Army also currently requires each contracted student to successfully complete one University course in each of the following subjects: written communications, basic computer literacy, and military history.

Minor in Military Science

A minor in Military Science consists of 23 semester hours and is available to those students who complete all advanced level requirements. The following courses are required of all students: MS 311(3 hrs.), 312 (3 hrs.), 313 (6 hrs.), 411(3 hrs.), 412 (3 hrs.); GEOG 430 (1 hr.); MS 100** (4 hrs.).

**All of the basic Military Science requisite courses are acceptable for activity courses in lieu of PHED. (Two courses in Military Science will be accepted for two courses in PHED activity.)*
***MS 100 Military Science Practicum is one hour per semester but is limited to a maximum of four hours per student.*

Army ROTC Scholarship Program

Students enrolled at MTSU are eligible to apply for two- and three-year Army ROTC scholarships which pay for tuition, fees, and a book allowance, plus $1,500 per year. High school seniors are eligible to apply for a four-year scholarship during their senior year. Applications for four-year scholarships must be submitted before November 15 of the senior year. Applications for two- and three-year scholarships must be submitted by March.

ROTC Nurse Summer Training Program

This three-week clinical leadership experience is open only to nursing students who have completed one clinical nursing course and MS 313. The student receives pay; in addition, travel, lodging, and most meal costs are defrayed by the U.S. Army. There is a 120-hour clinical assignment with an Army Nurse Corps preceptor at an Army hospital in the U.S. or overseas. Pass/Fail grading used in determining commission and job opportunities upon graduation.

Uniforms and Pay

Students enrolled in the basic course do not wear uniforms and are not required to have a particular haircut. Textbooks are provided free of charge.

Advanced course students, junior and seniors, are provided uniforms and textbooks free of charge. They must sign a contract with the U.S. Government and complete the advanced course, resulting in an active Army, National Guard, or Army Reserve commission upon graduation. While enrolled in the advanced course, the student receives $1,500 per year and approximately $640 plus travel costs for summer camp attendance.

Courses in Military Science [MS]

100 **Military Science Practicum (Elective).** One credit per semester for up to four credits. Corequisite: Enrollment in MS Basic or Advanced Course or permission of PMS. For those interested in enrichment activities which contribute to the development of leadership and management abilities, including the Forrest Raiders (adventure training and small unit military tactics), Blue Brigade Drill Team (drill and ceremonies under arms).

101 **First Year Basic Military Science.** One credit. Practical application in adventure-oriented skills like rappelling, marksmanship techniques, and survival. Focus on leadership development with a hands-on approach to classroom instruction. Also includes a general overview of the Army's mission, organizational structure, and customs and traditions. Two hours per week.

102 **First Year Basic Military Science.** One credit. Further development in adventure-oriented skills. Hands-on approach to basic rifle marksmanship, land navigation, and first aid. Students fire the M16A2 rifle, conduct a land navigation course, and learn first aid skills through practical application. Continued focus on leadership development. Two hours per week.

201 **Second Year Basic Military Science.** Two credits. Prerequisites: MS 101 and 102 or permission of PMS. Development of leadership potential through practical exercise. Leadership, small unit tactics, first aid, basic rappelling, weapons familiarization, and oral communication exercises.

202 **Second Year Basic Military Science.** Two credits. Prerequisites: MS 101, 102, and 201 or permission of PMS. Application of basic map reading and compass principles, unit organization at squad level, small unit tactics, branches of the Army, discussion of the Advanced Program. Practical exercises, land navigation, first aid, current events, marksmanship, and water safety training.

300 **Basic Military Science.** Six credits. Prerequisite: Permission of PMS. Five-week training normally taken during the summer between the sophomore and junior academic years by students who have not taken all Basic MS courses. Training conducted at a designated U.S. Army installation; practical experience in leadership, small unit tactics, weapons, drill, and communications under field conditions. U.S. Army pays the student approximately $640.

311 **First Year Advanced Military Science.** Three credits. Prerequisites: MS 101, 102, 201 and 202; or MS 300; or equivalent credit for previous military service. Formal instruction in customs and courtesies of the services, leadership traits and principles, small unit tactics, map-reading skills, and military briefings. Two one-hour, fifteen-minute periods of class work and two one-hour, fifteen-minute periods of laboratory per week.

312 **First Year Advanced Military Science.** Three credits. Prerequisite: MS 311. Formal instruction in squad and platoon tactics, leadership development, basic military skills, and branches of the Army; concentration of skills evaluated at ROTC Advanced Camp. Two one-hour, fifteen-minute periods of class work and two one-hour, fifteen-minute periods of laboratory per week.

313 **Military Science Field Methods.** Six credits. Prerequisites: MS 311 and 312. Five weeks of training normally taken during the summer between the junior and senior academic years. Training conducted at a designated U.S. Army installation; practical experience in leadership, military teaching, small unit tactics, weapons, and communications under field conditions. U.S. Army pays the student approximately $640.

411 **Second Year Advanced Military Science.** Three credits. Prerequisites: MS 311 and 312. Seminar in leadership and management designed to prepare the senior student for active duty responsibilities. The commander, the staff, the military team, and Army ethics are the main focus. Two-and-one-half hours of class work and two-and-one-half hours of laboratory per week.

412 **Second Year Advanced Military Science.** Three credits. Prerequisites: MS 311, 312, and 411. Seminars in leadership and management to prepare the senior student for active duty responsibilities. Focus is military law, Army writing standards, and organizational skills. Two-and-one-half hours of classroom instruction and two-and-one-half hours of laboratory per week.

School of Nursing

Pamela J. Holder, Director
Cason-Kennedy Nursing Building 201

Burlin, Campbell, Carson, Covington, Draude, Hastings, Kinslow, Kopp, Krau, Lavender, Marquart, McKinney, O'Leary, Parsons, Prevost, Purnell, Sauls, Seager, Wakim, Ward

The School of Nursing offers a four-year program leading to a Bachelor of Science in Nursing. The school also offers pre-nursing curriculum advisement for students planning to enter a nursing program elsewhere.

The purposes of this degree program are

1. to provide quality nursing education which prepares graduates for professional nursing practice as generalists;
2. to prepare graduates who have an appropriate base for specialized study in nursing practice, education, administration, or research;
3. to provide graduates with a professional practice base that is responsive to the changing health care needs of the citizens of Tennessee and the nation.

Graduates of the program receive preparation designed to enable them to

1. employ the nursing process as a method for providing holistic care that communicates responsiveness to the client's self-care requisites;
2. use theoretical and empirical knowledge and skills drawn from nursing, the humanities, and the natural, social, and medical sciences as bases for formulating nursing practice decisions;
3. analyze social, emotional, physiological, and spiritual factors in determining and meeting the health care requisites of individuals, families, groups, and communities;
4. use research processes and findings as a means for improving therapeutic nursing interventions;
5. exhibit psychomotor competence in nursing system operations;
6. collaborate with consumers and other health professionals for the purpose of enhancing self-care abilities;
7. function as a change agent, client advocate, teacher, and leader in the delivery and management of nursing care;
8. accept legal and ethical responsibility and accountability for nursing practice decisions and actions as well as for individual professional growth and growth of the profession.

Bachelor of Science in Nursing

The nursing program consists of four academic years. Students enter the program as pre-nursing majors and must complete the first two years of a pre-nursing curriculum consisting of general studies courses and nursing prerequisites. Students then apply for admission to the last two years which includes 70 semester hours of upper-division nursing courses. When a student applies for admission to the last two years and is accepted and becomes enrolled, he/she is then classified as a nursing major. The number of students accepted into the junior year nursing courses is limited, making the application process competitive.

Upon successful completion of the program, graduates are awarded the B.S.N. and become eligible to sit for the National Council Licensure Examination (NCLEX) for Registered Nurse (RN) licensure.

Pre-nursing students enrolled in the University and pursuing the first two years of the curriculum should maintain a minimum 2.50 cumulative grade point average and are required to earn no less than a C (2.00) on any prerequisite course.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Special Provisions for Licensed Two-Year and Hospital Diploma Graduates

Students holding the R.N. license must meet freshman and sophomore requirements. Each registered nurse who has graduated from an NLN-accredited program with an associate degree in nursing or a hospital diploma in nursing will satisfy 31 credit hours of required courses including N FS 222 and HLTH 310. This credit, however, will be held in escrow until the student has matriculated and successfully completed NURS 311, 313, 314, 331, 371, and 372. Those holding degrees from non-NLN accredited or foreign nursing schools will have to complete NURS 361 and 362 in addition to the other junior-level nursing courses before credit is awarded for nursing courses.

Required Upper-division Curriculum—Students Holding R.N. Licensure:

SUMMER	
NURS 311	2
NURS 313	2
NURS 314	1
NURS 371	3
NURS 372	6
	14

NURS 452	3	NURS 490 or other elective	3
NURS 410	3	Guided elective	3
	13		13

Challenge of 300-level nursing courses is possible for associate degree and hospital diploma nursing graduates.

Admission and Progression in the Pre-nursing Curriculum

1. Any student formally admitted to the University may pursue the pre-nursing curriculum.
2. An information/application form, obtained from the School of Nursing, Cason-Kennedy Nursing Building 201, must be completed and on file in the School of Nursing.
3. Pre-nursing students are expected to seek advising from the nursing faculty each semester to ensure that they are following the proper sequence for completion of the prerequisite courses.

Admission and Progression in the Upper-division Nursing Curriculum

1. An updated information/application form and a progression to the junior year form must be on file in the School of Nursing.
2. Transcript validation of all prerequisite courses must be on file in the MTSU Records Office.
3. A **cumulative undergraduate** college grade point average of 2.50 is required for beginning eligibility.
4. Applicants must have no grade less than a C (2.00) in any prerequisite course **at the time the selection committee meets to select the junior class.**
5. The Registered Nurse Entrance Examination (RNEE) will be administered to all students desiring to progress to the upper-division nursing classes. Scores from this examination, along with the college grade point average, will be used to rank candidates for progression to the upper division. The fee for this examination is payable the day of testing. An entering ACT composite score of 21 or better will meet the RNEE 90th percentile requirement. A Math-Dosage Examination also will be given to those desiring to progress to the junior-level nursing courses. A score of 90 percent is required. All persons whose information form is on file in the School of Nursing will be notified **by mail only** two to three weeks prior to the testing dates which will usually take place in February and October. Notification will include exact fee, dates, times, and place on campus where the tests will be administered. Students may repeat the RNEE only once. A day should be planned for testing.
6. Students must attain a minimum grade of C (2.00) in all nursing courses.
7. Students may be asked to present evidence of physical and/or mental health prior to or at any time during their enrollment in the nursing courses. Students must be physically, emotionally, and cognitively able to meet the criteria required for clinical skills. Students must be able to perform clinical skills without physical or psychological threat to themselves or others. Students who have chronic health problems which are controlled and which do not put themselves or others in danger are eligible to be considered for admission.
8. Students will be dismissed from the nursing major if they:
    a. commit a breach of ethics or gross professional negligence, or
    b. use mind-altering drugs or alcohol when engaged in any nursing activity in or outside of class, or
    c. fail to progress due to unsuccessful attainment of requirements. Students who fail to progress may reapply and will be considered for readmission on a competitive basis. **Only one readmission for failure to progress will be allowed.** Students admitted from other nursing programs in which a grade of D (less than 2.00) was made in nursing will not be readmitted.
9. If a student fails a nursing course at MTSU, he/she **must** repeat that course at MTSU.
10. Students with infectious diseases will not be permitted to participate in clinical experiences. Causes for clinical absences must be cleared with the instructor and reported to the clinical agency before the clinical experience is to begin. Unexcused absences will be counted as unsatisfactory clinical performance.
11. **Further specific details regarding admission and progression are available in the School of Nursing.**

Accreditation

The Bachelor of Science in Nursing program holds full approval by the Tennessee Board of Nursing and is accredited by the National League for Nursing.

Costs

Nursing students pay the same fee schedules as do all other undergraduate students at the University. These fees are described in detail elsewhere in this catalog. Additional expenses incurred by nursing students include

1. the cost of white uniforms, namepin, shoes, hosiery, watch with second hand, and stethoscope—varies with individual choice
2. liability insurance - $15
3. progression examination - $24

Pre-nursing Curriculum for Other Nursing Schools

Students planning to enter other schools of nursing must carefully select their courses according to the prenursing curriculum prescribed by the school to which they will apply. Nursing advisors will assist students with their course selections.

Courses in Nursing [NURS]

311 **Concepts of Nurse Agency.** Two credits. Prerequisites: Admission to upper-level nursing and completion of majority of lower-division required courses. Introduction to philosophy and objectives of the program, Self-Care Deficit Theory, and other concepts and theories relevant to nurse agency. Two hours lecture.

313 **Health Assessment for Nurse Agency.** Two credits. Prerequisites: BIOL 216, 313, 314, and 334. Corequisite: NURS 314. Physical and psychosocial assessment skills developed to provide a basis for reorganizing and meeting client self-care deficits. Two hours lecture.

314 **Health Assessment Clinical.** One credit. Prerequisites: BIOL 216, 313, 314, and 334. Corequisite: NURS 313. Practice in physical and psychosocial assessment. Two hours laboratory.

321 **Self-Care Assistance.** Six credits. Prerequisites: Admission to the upper-division nursing program and completion of the lower-division required courses. Introduction to the knowledge and skills necessary to apply Self-Care Deficit Theory. Six hours of lecture.

322 **Assistance Clinical.** Four credits. Prerequisite: Admission to upper-division nursing. Corequisite: NURS 321. Self-Care Deficit Theory applied in clinical settings. Eight hours laboratory.

331 **Pharmacological Requisites for Nurse Agency.** Three credits. Prerequisites: CHEM 111, 111L, 112, and 112L; BIOL 216, 313, 314, and 334. Introduction to the knowledge and responsibility necessary for the assessment and monitoring of clients receiving pharmacotherapeutics.

334 **Pathophysiology.** Three credits. (Same as BIOL 334.) Prerequisites: BIOL 216, 313, and 314. Introduction to basic mechanisms of disease processes and their role in disrupting normal physiology. Three hours lecture.

341 **Health Deviation Requisite Care.** Six credits. Prerequisites: NURS 311, 313, 314, 321, 322, and 331. Corequisite: NURS 342. The nursing process in the care of the adult client with physical self-care deficits in acute and long-term care settings. Six hours lecture.

342 **Health Deviation Clinical.** Three credits. Prerequisites: NURS 311, 313, 314, 321, 322, and 331. Corequisite: NURS 341. The nursing process applied in the clinical setting to clients with physical self-care deficits. Six hours laboratory.

351 **Mental Health Requisite Care.** Four credits. Prerequisites: NURS 311, 313, 314, 321, 322, and 331. Corequisite: NURS 352. Nurse agency in the promotion of mental health and the care of clients with acute and chronic mental health deficits. Four hours lecture.

352 **Mental Health Clinical.** Three credits. Prerequisites: NURS 311, 313, 314, 321, 322, and 331. Corequisite: NURS 351. Care of clients with acute and chronic mental health deficits in the clinical setting. Six hours laboratory.

361 **Nurse Agency Progression.** Two credits. Prerequisites: R.N. licensure and completion of majority of lower-division required courses. Corequisite: NURS 362. Preparation for and testing of knowledge equivalent to NURS 321, 341, 351, 421, and 431. Two hours lecture.

362 **Progression Clinical.** Six credits. Prerequisites: R.N. licensure and completion of majority of lower-division required courses. Corequisite: NURS 361. Examinations for courses.

371 **Nurse Agency Transition.** Three credits. Corequisite: NURS 372. Preparation for testing of competencies equal to those in NURS 322, 342, 352, 422, and 432.

372 **Transition Clinical.** Six credits. Corequisite: NURS 371. Clinical challenge examinations for RNs. Simulated and hospital challenge examinations.

410 **Health Care Research.** Three credits. Prerequisites: STAT 313 and CSCI 100 or permission of instructor. The research process in developing a research proposal for a student-identified problem in the health care delivery system. Discussion and critique of related research findings and research proposals of peers. Three hours lecture.

421 **Developmental Promotion in Childbearing.** Three credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 422. Concepts of the family as a societal unit emphasizing the childbearing function. Stresses nurse agency assistance with developmental tasks and crisis intervention from preconception through the late postpartum period. Three hours lecture.

422 **Childbearing Clinical.** Three credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 421. Care of clients from the prenatal through the postpartum period in clinical settings. Six hours laboratory.

431 **Developmental Assistance in Childrearing.** Three credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 432. A unique body of knowledge and skills essential to the delivery of safe, comprehensive care to children, adolescents, and their families when deleterious factors threaten to interrupt development. Three hours lecture.

432 **Childrearing Clinical.** Three credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 431. Care of children, adolescents, and their families in various settings. Six hours laboratory.

451 **Educative/Supportive Health Care.** Four credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 452. Incorporates concepts from nursing and public health to emphasize the role of nurse agency in primary care settings with an orientation toward individuals, families, groups, and communities. Four hours lecture.

452 **Educative Clinical.** Three credits. Prerequisites: NURS 341, 342, 351, and 352. Corequisite: NURS 451. Nurse agency support of individuals, families, groups, and communities in a variety of settings. Six hours laboratory.

460 **Compensatory Health Care.** Four credits. Prerequisites: NURS 421, 422, 431, 432, 441, and 442. Knowledge base for working with critically and terminally ill clients requiring wholly compensatory care. Legal and ethical considerations arising in critical care settings are explored and professional responsibilities are refined. Four hours lecture.

462 **Compensatory Clinical.** Three credits. Prerequisites: NURS 421, 422, 431, 432, 441, and 442. Corequisite: NURS 460. Clinical course taken concurrently with NURS 460. Provides clinical experience in critical care areas and with clients requiring wholly compensatory care. Requires nine (eight hour) days in hospital plus simulated labs.

470 **Leadership in Nursing Systems.** Four credits. Prerequisites: NURS 421, 422, 431, 432, 441, and 442. Concepts of leadership applied to the practice of nurse agency. Technical, administrative, and human relations skills are identified for the purpose of adjusting the goals of a group. Four hours lecture.

472 **Management of Nursing Systems.** Three credits. Prerequisites: NURS 421, 422, 431, 432, 441, and 442. Corequisite: NURS 470. Clinical course taken concurrently or after NURS 470. Provides independence in management of nursing systems in various health care institutions. Requires eleven (eight hour) days in hospital plus simulated labs.

490 **Independent Health Care Study.** One to three credits. Prerequisites: Admission to the upper division of the nursing program and permission of instructor. Allows the student to pursue individual interests in nursing by contracting with an instructor and documenting the plan of learning as well as its fulfillment. One to three lecture or two to six laboratory hours.

Department of Physics and Astronomy

Robert F. Carlton, Chair
Wiser-Patten Science Building 219

Cook, Henderson, Lee, Montemayor, Moody, Robertson, Weller, White

The Department of Physics and Astronomy offers students the opportunity to study the fundamental principles and methodologies of theoretical, experimental, and computational physics. The physics core curriculum forms the framework for the physics major. Each student then completes the rest of the program of study with a variety of electives according to his or her interests and career objectives. The core curriculum, coupled with upper-level electives, provides strong preparation for advanced study in physics or astronomy, a career in industrial physics or engineering, or simply lays the foundation for a rigorous undergraduate education, regardless of one's desired field of employment after the baccalaureate degree.

The departmental program of study leads to a Bachelor of Science degree in Physics. The Physics major must be accompanied by one minor of at least 18 semester hours in a subject area of the student's choosing. Minors in Physics and Electro-Acoustics are also available.

Environmental Science and Technology is an interdisciplinary major and minor offered by Agribusiness and Agriscience, Biology, Chemistry, Engineering Technology and Industrial Studies, and Physics and Astronomy. A complete description of the program can be found under the Department of Engineering Technology and Industrial Studies listing in this catalog.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Physics

The major in Physics consists of 27 semester hours of required core courses, plus 9 hours of upper-division electives in Physics and Astronomy. The core curriculum consists of PHYS 235, 236, 237, 238 (or 231, 232, 233, 234), 310, 311, 315, 361, 380, 390, 391, 485A, and 490. Also required are CHEM 121, 121L, 122, 122L and MATH 122, 221. The following program is suggested for the first two years. For the third and fourth years, each student should work closely with his/her advisor to tailor a program which will meet individual requirements. A minimum of 12 semester hours in the Physics major must be taken at MTSU.

Recommended Sequence

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6
PHYS 235-238 (231-234)	8	PHYS 310, 311	6
MATH 122, 221	8	PHYS 315, 316	6
CHEM 121, 121L, 122, 122L	8	CSCI 117	4
PHED or MS (Area V)	2	Electives	6
	32	PHED or MS (Area V)	2
			30

Credit may be received for PHYS 235-238 or 231-234, but not for both series.
Courses satisfying the remaining areas of General Studies Areas are to be taken during the junior and senior years.

Teacher Licensure in Physics

Students seeking a license to teach physics in secondary schools (grades 7-12) must complete (1) a major in physics, (2) a minor in professional education, and (3) courses in addition to the General Studies requirements. Students can also become licensed to teach physics under the science major (see page 97).

Enhanced General Education Requirements

In addition to the General Studies requirements (see pages 58-59) the following courses are required for licensure in physics:
MATH through 222
CSCI 116 Fortran Programming
BIOL 111, 112 General Biology
CHEM 121, 121L, 122, 122L General Chemistry
ASTR 140 Exploring the Universe or ASTR 340 Fundamentals of Astrophysics
PHYS 231-234 College Physics/Laboratory OR
PHYS 235-238 University Physics/Laboratory
GEOL 201 Physical Geology

Professional Education Requirements

Students must contact their minor advisor in professional education for approval of appropriate courses. (For specific procedures and additional requirements for teacher licensure, see page 164.)

Major Requirements

Students who want to teach secondary physics must complete the physics major in the following manner:
PHYS 231, 232, 233, 234 College Physics OR
  PHYS 235, 236, 237, 238 University Physics
PHYS 310, 311 Modern Physics I and II
PHYS 315 Topics and Methods of Theoretical Physics I
PHYS 331, 335 Digital and Analog Electronics
PHYS 361 Thermodynamics
PHYS 370 Introduction to Environmental Physics
PHYS 380 Physics Seminar
PHYS 390 Physics Practicum
PHYS 391 Advanced Physics Lab

Minor in Electro-Acoustics

The minor in Electro-Acoustics consists of at least 21 semester hours, 18 of which are required: MATH 122; PHYS 160, 331, and 335; and ET 361. Remaining elective may be chosen from PHYS 300, ET 362, or ET 366.

Minor in Physics

The minor in Physics consists of 19 semester hours in physics and astronomy including PHYS 235, 236, 237, 238 (231, 232, 233, 234). Students minoring in physics should work closely with their physics advisor to tailor a program which meets their needs. At least four upper-division hours must be taken at MTSU.

Courses in Astronomy [ASTR]

140 **Exploring the Universe.** Three credits. A general introduction to astronomy through an overview of planets, stars, systems of stars, and the overall structure of the universe. Topics will be discussed by answering questions such as "How do you weigh stars?" and "Will the universe die?"

141 **Observing the Universe.** One credit. Prerequisite or corequisite: ASTR 140. Introduction to observational astronomy through laboratory exercises and outdoor observing activities. Topics include telescopes, the analysis of starlight, and observations of stars and planets.

340 **Fundamentals of Astrophysics.** Three 'credits. Prerequisite: PHYS 232 or 236. Modern astronomical knowledge and techniques using classical and modern physical principles. Possible topics include star formation, black holes and neutron stars, galaxy structure and evolution, formation of planetary systems, and large-scale structure of the universe.

341 **Experimental Astronomy.** One credit. Prerequisite: Consent of instructor. Principles and techniques of astronomical data acquisition and reduction. Possible research topics involve photometry, spectroscopy, astronomical applications of electronic detectors, and computer modeling.

Courses in Physics [PHYS]

130 Discovering Physics. Three credits. Prerequisite: MATH 141. Students with weak science or math backgrounds introduced to a variety of topics and their applications. Emphasis on building skills for graphical interpretation of real data within a discovery-learning environment. Presents concepts and techniques of physics for students planning to take PHYS 231; serves as a good introduction for those interested in learning more about how the world works!

160 Physics of Music. Three credits. Prerequisite: MATH 141 or consent of instructor. An introduction to the physics of music, acoustics, and sound for students without prior physics background.

231 College Physics I. One credit. Prerequisite: MATH 141 or 121 Required corequisite: PHYS 233. Web-based lecture course to be taken in conjunction with the cooperative-learning based problems lab PHYS 233. Provides fundamentals of classical mechanics traditionally covered in a first-semester college physics course. Topics include kinematics, forces, momentum, angular motion, calorimetry and sound waves. Scheduled class time used for preliminary meetings and exam times.

232 College Physics II. Three credits. Prerequisites: PHYS 231 and 233. Corequisite: PHYS 234. A continuation of PHYS 231.

233 Physics Problems Laboratory I. Three credits. Prerequisites: MATH 141 or 121. Required corequisite: PHYS 231. Group-oriented problems course taken in conjunction with the web-based lecture course PHYS 231. Provides opportunities to work in groups with the lecture topics. Topics include kinematics, forces, momentum, angular motion, calorimetry and sound waves. Skills associated with the development of experimental investigations including graphical analysis and estimation and propagation of uncertainties emphasized, as are oral and written communication skills. Two two and one-half hour laboratory sessions.

234 Introductory Physics Laboratory II. One credit. Prerequisites: PHYS 233 and 231. A laboratory course to accompany PHYS 232. A continuation of PHYS 233. One three-hour laboratory.

235 University Physics. Three credits. Prerequisite: MATH 122. Corequisite: PHYS 237. A calculus-based introduction to mechanics, wave motion, electricity, magnetism, circuit analysis, and optics.

236 University Physics. Three credits. Prerequisites: PHYS 235 and 237; MATH 221. Corequisite: PHYS 238. A continuation of PHYS 235.

237 University Physics Laboratory I. One credit. Prerequisite: MATH 122. Corequisite: PHYS 235. Laboratory course to accompany PHYS 235. Experiments in mechanics, waves, and thermodynamics. Data reduction, error analysis, and report writing. One three-hour laboratory.

238 University Physics Laboratory II. One credit. Prerequisites: PHYS 235 and 237 or PHYS 231 and 233. Corequisite: PHYS 236. Laboratory course to accompany PHYS 236. A continuation of PHYS 237. Experiments in electricity, magnetism, optics, and modern physics. Data reduction, error analysis, and report writing. One three-hour laboratory.

300 Acoustics and Signal Analysis. Three credits. Prerequisites: PHYS 160 and MATH 122. Detailed overview of acoustics including an introduction to digital signals and their analysis. Application areas include architectural, musical, and environmental acoustics. Intended for students interested in the technical side of the music industry.

310 Modern Physics I. Three credits. Prerequisites: PHYS 232 or 236 and MATH 221 or consent of instructor. Introduction to the fundamental principles of modern physics (special relativity and quantum mechanics) and their application to atomic physics.

311 Modern Physics II. Three credits. Prerequisite: PHYS 310. Survey of major topics including molecular physics, statistical physics, solid state physics and solid state devices, nuclear models, nuclear decay and reaction, and elementary particle physics.

315 Topics and Methods of Theoretical Physics I. Three credits. Prerequisites: PHYS 232 or 236 and MATH 221. Introduction to the theoretical techniques used for problem solving in physics. Reference frames and coordinate systems approximation techniques, solution of electrical circuits and mechanical systems, simple harmonic motion and wave motion, Maxwell's equations.

316 Topics and Methods of Theoretical Physics II. Three credits. Prerequisite: PHYS 315. A continuation of PHYS 315. The Schroedinger equation, heat flow, diffusion, the Lagrangian description of motion.

320 Scientific Modeling and Problem Solving. One credit. Prerequisites: One year of physics and MATH 221 or consent of instructor. Techniques of computational physics as applied to the solution of scientific problems.

330 Classical Mechanics. Three credits. Prerequisite: PHYS 315 (or PHYS 235 and MATH 323). Mechanics (including statics and dynamics) of particles in three dimensions using vector analysis, motion of rigid bodies, Lagrangian mechanics, and Hamilton's equations.

331 Concepts and Applications of Digital Electronics. Three credits. Prerequisite: PHYS 234 or ET 361. Investigates applications of modern digital technology. Fundamentals of logic gates and programmable devices examined along with contemporary integrated circuits for use in data acquisition and the control of scientific experiments. Sound cards, alarm systems, and laboratory measurement circuits typify projects constructed in the hands-on laboratory.

333 Health Physics and Radiation Protection. Three credits. Prerequisites: PHYS 234 and 232 or 236 and 238. Radiation protection methods, dosimetry techniques, and survey instruments. Practical knowledge of the methodology for paramedical personnel, industrial workers, and others who deal with radioisotopes and x-ray equipment. Two hours lecture and one three-hour laboratory.

334 Semiconductor Device Physics. Three credits. Prerequisites: One year physics and MATH 122. Operation principles of diodes, transistors, and photonic devices. Fundamental band structure investigated to learn how important performance characteristics are related to physical principles. Modern designs include JFET, Bipolar, MOSFET, MODFET, and HEMT transistors.

335 Concepts and Applications of Analog Electronics. Four credits. Prerequisite: PHYS 232 or ET 361. Introduction to contemporary analog electronics utilizing integrated circuits to treat traditional circuits, power supplies, operational amplifiers, comparators, and multivibrators. Conversion of analog to digital signal for interfacing to microcomputers. Emphasis on practical applications. Three hours lecture and one three-hour laboratory.

350 **Lasers and Fiber Optics.** Three credits. Prerequisites: One year physics and MATH 122. Operation of fiber optic communication systems; how semiconductor lasers, modulators, and photodetectors work and how they are used in modern communication systems. Hands-on demonstrations and class projects will use lasers and optical components to illustrate basic principles.

361 **Thermodynamics.** Three credits. Prerequisite: PHYS 311 or consent of instructor. Introduction to statistical physics, kinetictheory, and thermodynamics from a unified microscopic point of view. Selected applications to various systems of interest presented.

370 **Introduction to Environmental Physics.** Four credits. Prerequisites: CHEM 121 and 121L; PHYS 234 and 232 (or 236 and 238). Energy, energy conversion processes, and radiation and their roles in technological development and the quality of the natural environment. Three hours lecture and one three-hour laboratory.

380 **Physics Seminar.** One credit. Prerequisites: PHYS 315 and consent of instructor. Develops and refines inquiry, communication, and presentation skills through exposure to new developments in physics, technical brief writing, and resume and job interview preparations.

390 **Physics Practicum.** One credit. Prerequisites: One year of physics and MATH 122. Refines thinking, communication, and interpersonal skills through exposure to on-the-spot technical questions and a laboratory teaching experience as an assistant in an introductory physics laboratory.

391, 392 **Advanced Physics Laboratory.** One credit each. Prerequisites: PHYS 234 and PHYS 232 or 236 and 238. The skills, art, and physics important in pursuing independent research. Experiments dealing with mechanical, optical, or thermodynamical principles explored. Report writing, literature research, and the use of analysis tools emphasized.

401 **Thermometry and Calorimetry.** One credit. Prerequisite: PHYS 361. Temperature measurements and calorimetric determinations. Characteristics, preparation, calibration and use of thermocouples, resistance thermometers, pyrometers, thermistors, and constant volume gas thermometers. Instrument characteristics and sample preparations for heat capacities and yields.

407 **Vacuum Techniques.** One credit. Prerequisite: PHYS 361. Vacuum system design and construction with respect to pumps and their capabilities, gauges, and measurement of very low pressure, leak detection and leak repair, seals, and cements. Thin film deposition techniques in vacuum.

431 **Electricity and Magnetism.** Three credits. Prerequisite: PHYS 316 or consent of instructor. Topics including electric and magnetic fields, electrostatic potential, and potential energy and fields in matter discussed in a mathematically rigorous manner. A variety of good applications of mathematical methods in physics.

433 **Modern Optics.** Three credits. Prerequisite: PHYS 431. Topics include theory of electromagnetic radiation, production and propagation of electromagnetic waves, and the solution of boundary-value problems with applications to optics, wave guides, and lasers.

438 **Introduction to Quantum Mechanics.** Three credits. Prerequisites: PHYS 311 and 316 or permission of instructor. Topics include both one- and three-dimensional solutions to the Schroedinger equation, including the infinite square-well, finite square-well, tunneling, the harmonic oscillator, and the hydrogen atom with a discussion of angular momentum at a mathematically rigorous undergraduate level.

463 **Principles of the Solid State.** Three credits. Prerequisites: PHYS 311 and 315. Includes crystal structures, lattice dynamics, statistics of conductors and semiconductors, thermal properties, the metallic state, free electron theory, band theory of solids, dielectric and magnetic properties of solids, and the low temperature behavior of matter, particularly solids. Three hours lecture.

480 **A, B Special Topics in Physics.** Three credits each. Prerequisites: An extensive physics background and permission of instructor. Detailed study of a selected topic of current interest in physics not normally covered in the regular undergraduate physics curriculum. Possible topics include advanced atomic physics, high-energy physics (nuclear and elementary particles), scattering theory, astrophysics, and general relativity.

485 **A, B Physics Research.** Two credits each. Prerequisite: Consent of instructor. Independent study of a selected research problem in physics. Includes experimental and/or theoretical investigation of an important, yet unexplored, problem. Includes literature research, experiment design/problem formulation and execution, resulting in oral and written presentation of results suitable for submission for publication in a suitable journal.

490 **Physics Senior Thesis.** Two credits. Prerequisite: PHYS 485A or consent of thesis advisor. Brings undergraduate experience to focus on a specific research problem; chosen with the consent of the thesis committee and with the potential for original discovery or for creative development of a tool or technique applicable to scientific research. Independent pursuit of research objectives outlined in a research proposal results in a written thesis whose approval will include an oral defense.

495 **Modern Physics Laboratory.** One credit. Prerequisites: PHYS 234 or 238 and 311. Concepts and ideas which formed the basis for an understanding of the atom and atomic phenomena. One three-hour laboratory.

Honors College

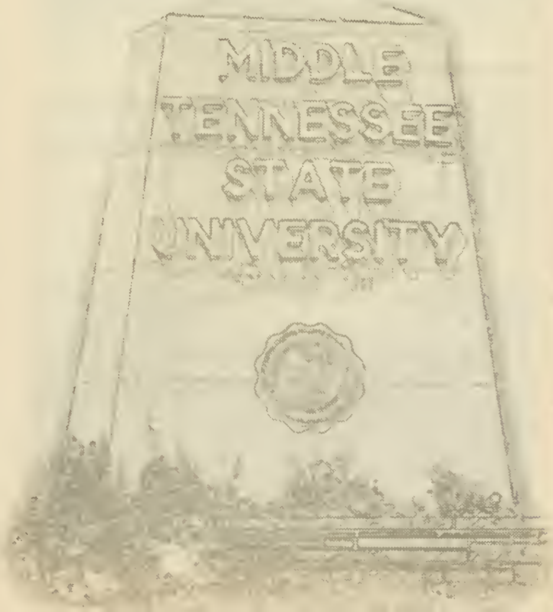
In addition to the above courses, the Department of Physics and Astronomy offers the following courses in Honors: PHYS 233H and PHYS 234H. See current class schedule and Honors information in this catalog.

College of BUSINESS

Jim Burton, Dean, Business and Aerospace Building N217C
Dwight Bullard, Associate Dean, Business and Aerospace Building N217B
Teresa Thomas, Program Coordinator and Academic Advisor, Business and Aerospace Building N221B
Shana Pyle, Academic Advisor, Business and Aerospace Building N221C
Accounting ■ Business Education, Marketing Education, and Office Management ■
Computer Information Systems ■ Economics and Finance ■ Management and Marketing ■

The College of Business provides the intellectual foundation for our students' success. We create a positive environment for quality teaching and learning, while contributing to intellectual pursuits and serving middle Tennessee and the broader business community. We will be responsive and accountable as we enhance accessibility, quality, and value to our constituencies.

Specific departmental objectives, requirements for majors and minors, and descriptions of courses follow each departmental listing.



Our Commitment

To achieve our mission, the faculty of the College of Business is committed to

Accessibility

We are the college of opportunity in middle Tennessee, offering a wide variety of courses, programs, and degrees in support to our constituencies. We offer traditional campus courses as well as evening, off-campus, and distance learning courses. Faculty are accessible on-campus and through electronic mail, faculty web sites, and the University computer network. Students have access to both full-time college advisors and faculty advisors.

Quality

Students experience quality learning opportunities that are enhanced by faculty committed to effective teaching and expanding knowledge in their disciplines through research. The College provides quality facilities and access to technology currently used in the business world. Course offerings and course content are regularly reviewed to maintain currency. Student and faculty interaction with the business community further contributes to educational quality.

Value

The College is a gateway to knowledge, providing a foundation for life-long learning and the success of our students. Awarding degrees is an important recognition of student accomplishment in the learning process. Value is added by faculty who demonstrate quality teaching, scholarly research, and service to their profession, the community, the region, and beyond. This linkage of scholarship, teaching, and learning is our bond with students, the public, and the business community. Value to our constituencies is strengthened through a philosophy of responsiveness and accountability.

Departments and Programs

The College of Business has five academic departments:

- Accounting
- Business Education, Marketing Education, and Office Management
- Computer Information Systems
- Economics and Finance
- Management and Marketing

Specific departmental objectives, requirements for majors and minors, and descriptions of courses follow each departmental listing.

The Jennings and Rebecca Jones Business and Economic Research Center is an integral part of the College of Business. The research center coordinates research studies for the College; publishes the journal *Tennessee's Business* and newsletters *Mid-State Economic Indicators* and *Global Commerce*, monographs, and conference papers; acts as a repository of business and economic data; and assists faculty, students, and the broader community with research needs.

The College also supports or houses the following centers, projects, and endowments:

- Stock Market Game
- INROADS
- Tennessee Small Business Development Center
- Tommy T. Martin Chair of Insurance
- Jack O. Weatherford Chair of Finance
- Japan Program of MTSU
- Economic Education Center
- Jennings A. Jones Chair of Excellence in Free Enterprise
- Jennings and Rebecca Jones Chair of Excellence in Urban and Regional Planning

Degree Requirements

The College of Business offers undergraduate programs leading to the Bachelor of Business Administration (B.B.A.) and the Bachelor of Science (B.S.) degrees. Each program includes courses for a specific minor. Specified minors cannot be omitted, but additional minors outside the College of Business may be elected. The same courses may not be used to meet degree requirements in more than one major or minor. B.B.A. degrees are accredited by the AACSB—The International Association for Management Education. Degree programs are offered in:

- Accounting (B.B.A.)
- Business Administration (B.B.A.)
- Business Education (B.S.)
- Economics (B.B.A.)
  Concentrations in Public Finance and Labor Relations
- Economics (B.S.)
- Finance (B.B.A.)
  Concentrations in Business Finance, Financial Institution Management, Insurance, and Real Estate
- Information Systems (B.B.A.)
- Management (B.B.A.)
- Marketing (B.B.A.)
- Marketing Education (B.S.)
- Office Management (B.B.A.)

Bachelor of Business Administration (B.B.A.) Degree

Each candidate for a Bachelor of Business Administration (B.B.A.) degree must meet the following:

1. the University Degree Requirements (see page 55)
2. the General Studies requirements (see pages 58-59)
3. the following business courses:
   ACTG 211, 212, Principles of Accounting I and II, 6 hours
   ECON 241, 242, Principles of Economics, Macroeconomics and Microeconomics, 6 hours
   QM 261, Statistical Methods I, 3 hours
   BLAW 340, Legal Environment of Business, 3 hours
   BMOM 351, Business Communication, 3 hours
   BMOM 451, Business Report Writing, or
   ECON 321, The Financial System and the Economy, 3 hours
   FIN 301, Business Finance, 3 hours
   INFS 310, Principles of Management Information Systems, 3 hours
   MGMT 361, Principles of Management and Organizational Behavior, 3 hours
   MGMT 362, Production and Operations Systems, 3 hours
   MKT 382, Principles of Marketing, 3 hours
   QM 362, Statistical Methods II, 3 hours
   B AD 498, Business Policy, 3 hours
4. a major consisting of a minimum of 24 semester hours of courses as specified by each department in the College;

5. a minimum of 50 percent of required business hours must be taken at MTSU;
6. a minimum of 12 upper-division hours in the major and 3 upper-division hours in the minor must be taken at MTSU;
7. a minimum of 66 of the total 132 semester hours of coursework must be taken outside the College of Business (ECON 241, 242, 321; QM 261, 362 are counted as non-business courses);
8. a maximum of 6 hours of upper-division business courses may be taken by correspondence;
9. Business Policy, B AD 498, must be taken at MTSU during the last semester of coursework.

Bachelor of Science (B.S.) Degree

Each candidate for a Bachelor of Science (B.S.) degree must meet the following:

1. the University Degree Requirements (see page 55)
2. the General Studies Requirements (see pages 58-59)
3. the specific requirements for the B.S. degrees as listed under departmental sections of the catalog for the following programs:
    a. Business Education and Marketing Education majors include required minors in Business Administration and Secondary Education leading to licensure to teach business subjects;
    b. Business Education and Marketing Education majors with a required minor in Business Administration for students not seeking licensure to teach business subjects;
    c. Economics liberal arts major without a specific required minor.

Second Bachelor's Degree

Students seeking a second bachelor's degree should review the requirements in this catalog (see page 57). A second bachelor's degree requires a minimum of 30 hours beyond the first bachelor's degree.

All students seeking a second bachelor's degree in business must have completed or complete:

- HIST 201, 202, or 366, 6 hours
- 24 or more hours in major plus auxiliary course requirements
- 42 hours listed in item 3 under B.B.A. degree above

Technology Proficiency

All programs in the College meet computer literacy requirements when students complete INFS 310.

Students should be proficient in keyboarding and basic computer skills. The following courses may be elected by students to develop basic proficiency:

- BMOM 131, Keyboarding, 3 hours
- INFS 220, Introduction to Microcomputing, 3 hours

Prerequisites

All students must complete or be enrolled in all lower-division requirements prior to enrolling in upper-division business courses. Individual courses may have additional prerequisites identified in the course descriptions in the catalog.

Transfer Credit

Middle Tennessee State University accepts all transfer college credit from accredited institutions (see pages 26-27). When transcripts are received an Applicant Transfer Credit Evaluation Form is sent to the applicant identifying how transfer courses equate to MTSU courses.

Applicants should meet with an advisor in the College of Business for assistance in identifying which courses apply toward a business degree. All transfer credits may not meet specific course requirements, but can often be used to meet elective requirements.

The College of Business permits a lower-division transfer course to satisfy a specific upper-division business course requirement after a student successfully passes an MTSU comprehensive examination on the course under consideration.

Approval to take a comprehensive exam is granted by the department chair. The decision is based on a review of the educational background of the student to assess the probability that the student has gained enough knowledge from a similar course or courses to be likely to pass the exam. A proficiency level of 70 percent or higher must be attained to pass such an exam. A copy of the exam results will be retained in the department office. Upon passing an exam, the department chair will recommend a course substitution using the lower-division transfer course or courses to meet an upper-division course requirement.

Students may attempt the test two times provided at least four months have passed since the last test was attempted. Comprehensive exams are available for the following courses:

BLAW 340, Legal Environment of Business, 3 hours
BMOM 351, Business Communication, 3 hours
BMOM 451, Business Report Writing, 3 hours
ECON 321, The Financial System and the Economy, 3 hours
FIN 301, Business Finance, 3 hours
INFS 310, Principles of Management Information Systems, 3 hours
MGMT 361, Principles of Management and Organizational Behavior, 3 hours
MGMT 362, Production and Operations Systems, 3 hours
MKT 382, Principles of Marketing, 3 hours
QM 362, Statistical Methods II, 3 hours
Other courses at the discretion of the department chair

Cooperative Education

The College participates in the Cooperative Education program of the University. Business students interested in cooperative education hours should consult the appropriate section of this catalog. Cooperative Education (293, 294, 397, 398) can be used for elective credit only and will not count for credit in a major or minor in business.

Department of Accounting

Ken Harmon, Chair
Business and Aerospace Building N425C

Boyd, Brandon, Burton, Bush, Colvard, Dawkins, Farmer, Hamm, B. Harper, P. Harper, Harrington, Johns, Jones, Reynolds, Rezaee, Rudley, Thomas, Ward, Wilson, Womack, Woodroof

The mission of the Department of Accounting is to provide a broad-based accounting education that prepares students for life-long learning and professional growth throughout their careers. Fulfilling this mission requires that faculty maintain continuous intellectual growth, keep abreast of current developments in accounting education, and provide service to the profession.

The program provides a combination of specialized training for entry into all fields of accounting. Successful completion of this program results in the Bachelor of Business Administration degree. Graduates may be eligible to sit for the CPA (Certified Public Accountant) examination in Tennessee by completing an additional 18 semester hours.

Students graduating with accounting degrees from MTSU have been quite successful in pursuing careers with CPA firms, large corporations, emerging companies, government entities, consulting firms, and a variety of other companies and institutions. The Accounting degree programs also assist students in pursuing professional certifications, such as the CPA (Certified Public Accountant), CMA (Certified Management Accountant), CIA (Certified Internal Auditor), and CISA (Certified Information Systems Auditor).

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Accounting

In addition to meeting the College of Business requirements (see page 132), an Accounting major consists of 27 semester hours of accounting. At least 12 semester hours, including ACTG 462, Auditing, must be taken in residence at MTSU. Majors must earn a C or better in ACTG 211, 212, 311, 312, and 331 and must earn a minimum GPA of 2.00.

Required Courses

ACTG 311, 312	Intermediate Accounting I and II
ACTG 331	(not 302) Cost Accounting
ACTG 411	Advanced Accounting I
ACTG 451	Accounting Systems
ACTG 453	Federal Taxes I
ACTG 462	Auditing I (must be taken at MTSU)
ACTG 465	Accounting Theory
ACTG elective*	3 hours

**See course descriptions; certain courses cannot be elected. Typical electives to meet the above requirements include ACTG 401, 454, 457, 461, 463, and 467.*

The following is the required course outline for the Accounting major with a minor in Business Administration.

Minor in Accounting

An Accounting minor consists of 18 approved accounting hours. At least 6 hours must be taken in residence at MTSU. Credit is not allowed on an Accounting minor for (a) both ACTG 111 and ACTG 211, nor for (b) both ACTG 300 and ACTG 211, 212, nor for (c) both ACTG 331 and ACTG 302. A minimum GPA of 2.00 must be attained.

Combined Minor in Accounting/Information Systems

A student may obtain a combined Accounting/Information Systems minor consisting of 18 semester hours which include ACTG 300 (or equivalent), INFS 220, 310, and 370, plus 6 hours of upper division ACTG electives, not to include both ACTG 331 and 302. This is an excellent minor for students pursuing majors outside the College of Business.

Minor in Business Law

A minor in Business Law consists of BLAW 340 and 343; 9 additional hours of business law; and three hours in management, marketing, economics, finance, or accounting, approved in advance by the department coordinator.

Courses in Accounting [ACTG]

111 **Introduction to Accounting.** Three credits. A one-semester general course for students desiring a knowledge of accounting terms, financial statements, and the capital structures of sole proprietorships, partnerships, and corporations. CREDIT NOT ALLOWED IN A COLLEGE OF BUSINESS MAJOR OR MINOR.

211 **Principles of Accounting I.** Three credits. Prerequisites: A college-level math course and ENGL 111. Accrual accounting, the accounting cycle, financial statements, etc., for proprietorships. (Not open to freshmen.) CREDIT NOT ALLOWED IN ACTG 211 and 212 IF STUDENT HAS CREDIT IN ACTG 300.

212 **Principles of Accounting II.** Three credits. Prerequisite: ACTG 211. A continuation of ACTG 211 with emphasis on partnership and corporate entity accounting. (Not open to freshmen.) CREDIT NOT ALLOWED IN ACTG 211 and 212 IF STUDENT HAS CREDIT IN ACTG 300.

300 **Survey of Accounting for General Business.** Three credits. Accounting cycle given minor emphasis; financial statement analysis and managerial uses of accounting given major emphasis. May be used for General Business minors or M.B.A. candidates who have had no previous accounting courses. CREDIT NOT ALLOWED ON ACCOUNTING MAJOR OR FOR STUDENTS WITH CREDIT IN ACTG 111, 211, and 212.

302 **Managerial Accounting.** Three credits. Prerequisite: ACTG 212 or 300; junior standing. Analysis of financial statements, costs, quantitative concepts relating to management objectives, income and capital budgeting, control, planning. Primarily designed for nonaccounting majors; should be taken immediately after completion of the prerequisite course. Not open to students having completed ACTG 331 or Accounting majors.

311 **Intermediate Accounting I.** Three credits. Prerequisite: ACTG 212 or ACTG 300 a with minimum grade of C; MATH 243; GPA of at least 2.00; junior standing. Accounting practices and fundamental theories (balance sheet sequence) with some review of authoritative accounting pronouncements.

312 **Intermediate Accounting II.** Three credits. Prerequisite: ACTG 311 with minimum grade of C. A continuation of ACTG 311 topics.

315 **Business Literature Analysis.** Three credits. Prerequisite: ACTG 311 (or taken concurrently.) Current topics of interest to business students; with library research, oral and written reports, group discussions.

331 **Cost Accounting.** Three credits. Prerequisite: ACTG 212 or 300 with minimum grade of C; MATH 243; INFS 220; junior standing. Accounting data for managerial planning and control decisions; cost calculations, cost allocations and behavior in manufacturing; systems and budgets. May be taken in lieu of ACTG 302, but not in addition to ACTG 302 without consent of department chair.

56 **General Taxation and Accounting.** Three credits. Prerequisite: ACTG 212 with C or better; junior standing. Current tax topics related to payrolls, sales and excise taxes, personal property and realty taxes, and estate and gift taxes; local, state, and federal taxing systems as applied to taxpayers as individuals and as small business and property owners. (Not open to Accounting majors.)

401 **Accounting Applications for Microcomputers.** Three credits. Prerequisites: ACTG 212 or 300 with minimum grade of C; INFS 220; junior standing. Provides exposure to microcomputer software currently used in the practice of accounting. Students work with spreadsheets, word processing packages, general ledger packages, and other new developments relating to microcomputer applications in accounting.

411 **Advanced Accounting I.** Three credits. Prerequisite: ACTG 312 with minimum grade of C. Accounting practices and theories for partnerships, business reorganization, joint ventures, consolidated financial statements, international accounting, etc.

412 **Advanced Accounting II.** Three credits. Prerequisite: ACTG 312 with minimum grade of C. Current topics of interest omitted from ACTG 411: SEC practice, special industries (recording and music, banking, insurance, behavioral accounting).

442 **Accounting Internship.** Three credits. Prerequisites: Senior standing or consent of advisor; a plan of activities with the associated firm, prior to registration. Active employment with an accounting firm, governmental agency, or business firm for accounting field work; credit given for experience and research upon completion of acceptable work and formal report. NOT COUNTED AS PART OF 27-HOUR ACCOUNTING MAJOR REQUIREMENTS.

451 **Accounting Systems.** Three credits. Prerequisites: ACTG 212 or 300 with minimum grade of C; INFS 220; junior standing. Current developments in establishment of complete accounting systems and the application of principles to typical business organizations. Special emphasis on cost controls and use of computer.

453 **Federal Taxes I.** Three credits. Prerequisites: ACTG 212 or 300 with minimum grade of C; junior standing. Addressed to a determination of taxable income for individuals; federal income tax returns and research methods.

454 **Federal Taxes II.** Three credits. Prerequisites: ACTG 312 and 453 with minimum grade of C. Structure of taxation for corporations, partnerships, estates, trusts, gifts; returns and research.

457 **International Accounting.** Three credits. Prerequisites: ACTG 211 and 212 or equivalent with C or better; junior standing. Provides exposure to development of accounting systems and entrepreneurial practices in various countries, specific international financial reporting issues, international financial statement analysis, managerial accounting issues for global businesses including budgeting and control, and international taxation issues.

461 **Municipal/Governmental Accounting.** Three credits. Prerequisites: ACTG 212 or 300 with minimum grade of C; junior standing. Federal, state, and local government accounting principles and procedures; classification of accounts, budgeting, general fund revenues, and expenditures.

462 **Auditing I.** Three credits. Prerequisites: ACTG 312 with minimum grade of C; QM 362; ACTG 451. Applications of theory and principles of auditing, verifying accounting data, preparation of reports by public accountants, auditor roles, liability, etc.

463 **Auditing II.** Three credits. Prerequisite: ACTG 462 or its equivalent with minimum grade of C. Audit procedures used in tests of controls and in substantive tests for the major transaction cycles by using both microcomputer and statistical sampling. Fulfills the requirements of the CPA Law in Tennessee for a second course in auditing.

465 **Accounting Theory.** Three credits. Prerequisite: ACTG 312 with minimum grade of C (or taken concurrently). Analysis of propositions, axioms, theorems, controversial accounting concepts, and authoritative statements and research on accounting principles.

467 **CPA Problems.** Three credits. Prerequisites: ACTG 411 and 453. Semiannual CPA examination problems of the American Institute of Certified Public Accountants analyzed. Pass/Fail.

498 **Independent Study in Accounting.** One to three credits. Prerequisites: Senior standing, 3.00 overall GPA, and consent of department chair. Accounting research or project in contemporary problem areas under direct faculty supervision. Aggregate credits allowable toward a degree may not exceed 3 hours under 498 courses.

Courses in Business Law [BLAW]

340 **Legal Environment of Business.** Three credits. Prerequisite: Junior standing. Legal rights and potential liabilities of business persons. Presentation of the dynamic nature of law in responding to the changing social, ethical, political, regulatory, and international environment. Includes the development and nature of the legal system; business crimes; the law of torts and product liability; constitutional limitations on regulatory powers; legislative, judicial, and administrative control of business activity through the laws of business organizations, securities regulations, antitrust laws, employment laws, labor and safety laws, and consumer protection.

343 **Commercial Law.** Three credits. Prerequisite: BLAW 340. Legal rights and potential liabilities of business persons. Includes basic law of contracts; UCC; sales; commercial paper; secured transactions and credit; bankruptcy; personal property and bailments; real property; and wills, trusts, and estates.

345 **Unfair Trade Practices and Consumer Protection.** Three credits. Prerequisite: Junior standing. Examines and evaluates the law of unfair and deceptive trade practices, consumer protection, and intellectual property, including antitrust law, misleading advertising, and other marketing practices.

346 **Insurance Law.** Three credits. Prerequisite: BLAW 340. Risks covered by the insurance contract, their selection and control; making, constructing, and enforcing the contract; negotiation and settlement of claims; misconduct of agents. Government regulation of the insurance industry. Emphasis on current principles, policies, procedures, and practices in insurance.

348 **Legal Aspects of Banking and Finance.** Three credits. Prerequisite: BLAW 340. Government regulation of the securities market and U.S. banking laws. Considers legal constraints affecting decisions of the investment advisor and officers of financial institutions.

442 **Estate Administration.** Three credits. Prerequisite: Junior standing. Procedures for the disposition of wealth. Includes survey of the probate and administration process, jurisdiction and venue, collection of assets, estate valuation, inter vivos transfers, intestate and testate succession, gifts, trusts, insurance, marital deductions, power of executors and administrators, settlement, distribution, and accounting.

447 **Real Estate Law.** Three credits. (Same as FIN 447.) Prerequisite: Junior standing. Legal rights and limitations of ownership of property, estates, titles, methods of transferring titles, abstract of titles, mortgages, leases, easements, restrictions on the use of property, real estate development and planning, application of contract law to real property, and the administration of wills.

449 **Industrial Relations Legislation.** Three credits. (Same as MGMT 449 and ECON 449.) Prerequisite: Junior standing. Economic background and effects of government regulation of labor relations; emphasis on a detailed examination of the National Labor Relations Act as amended or expanded by The Labor Management Relations Act, The Labor Management Reporting and Disclosures Act, and Title 7 of the Civil Rights Act.

450 **Employment Discrimination Law.** Three credits. (Same as MGMT 450.) Prerequisite: BLAW 340. A detailed examination of the legal rights and responsibilities of employers and employees with respect to fair employment practices; emphasis on significant statutes, administrative regulations, and judicial decisions forming the body of anti-discrimination law.

499 **Independent Study.** One to three credits. Prerequisites: Senior standing and approval of department chair. Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of an approved faculty member.

Graduate Study

Requirements for the Master of Science in Accounting/Information Systems and for the Master of Business Administration degrees and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Department of Business Education, Marketing Education, and Office Management

Linda McGrew, Chair
Business and Aerospace Building N429C

Bullard, Burford, Fann, Ford, Lewis, Moore, Price, Sawyer, M. Smith, V. Smith

The mission of the Department of Business Education, Marketing Education, and Office Management is to educate students through a blend of cultural knowledge, economic literacy, communication skills, basic-business tools, and specialized knowledge to help them assume roles as consumers, workers, entrepreneurs, and citizens. Program offerings provide a quality business education with appropriate background for professional administrative office careers. Specialized instruction in business education and marketing education prepares graduates for secondary teaching and corporate training. Baccalaureate programs provide a foundation for graduate study.

The BMOM Department offers undergraduate majors in Business Education, Marketing Education, and Office Management. Programs for the first two majors lead to the Bachelor of Science degree while the Office Management major leads to the Bachelor of Business Administration. A two-year program is offered in administrative business. The department is a state-approved Office Education Center and provides courses and workshops required of public school business and office education teachers.

Minor programs are offered in Business Communication, Entrepreneurship, Marketing Education, and Office Management.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Business Education

Business Education majors receive preparation for teaching business subjects in junior and senior high schools, vocational-technical schools, and junior colleges. The Business Education major who is licensed to teach will have minors in Business Administration and Secondary Education. The Business Education major may become licensed in one or more areas as outlined under the section entitled "Teacher Licensure Requirements."

Teacher Licensure Requirements

Business Education

Business Education majors will be licensed to teach in the areas of accounting and basic business. Each Business Education major may choose additional endorsements in Office Technology, Data Processing, and Keyboarding/Typewriting. Students must take business and specialty exams required for special endorsement areas.

Accounting/Basic Business

By completing the Business Education major as outlined, one is automatically licensed to teach the courses Accounting I and II; Introduction to Business; Principles of Economics; American Business Legal Systems; Business Management; Business Communication Systems; International Business; Introduction to Finance; Automated Accounting; Spreadsheet Applications; and Database Applications.

Add-on Endorsements

Office Technology*/Data Processing

By completing the following courses, one may be employed to teach the courses Introduction to Microcomputer Information Systems; Business Graphics; Personal Computing; Software Tools; Programming I and II; Microcomputer Information Systems; Word Processing; Desktop Publishing; Note Taking/Rapid Writing; Introduction to Office Technology; Office Technology I and II; Typewriting; and Keyboarding

BMOM 235 - Advanced Document Formatting OR
  BMOM 480 - Administrative Office Simulation
BMOM 434 - Word Processing Administration
BMOM 423 - Innovations and Problems in Keyboarding Applications
BMOM 425 - Innovations and Problems in Office Technology

**Office Technology endorsement requires 2,000 hours of related work experience*

Keyboarding/Typewriting**
By completing the following courses, one may be employed to teach the courses Keyboarding, Computer Keyboarding, and Typewriting.

BMOM 155 - Introduction to Word Processing Skills OR
  BMOM 434 - Word Processing Administration
BMOM 235 - Advanced Document Formatting OR
  BMOM 480 - Administrative Office Simulation
BMOM 423 - Innovations and Problems in Keyboarding Applications

***Elementary teachers (K-6) should discuss licensure requirements with the department chair.*

Marketing Certification
Business Education majors can be licensed to teach marketing education by taking BMOM 420, 452, and 460.

NOTE: Licensure requirements are subject to change by action of the State Board of Education; those graduating should consult a business education or marketing education advisor.

Major in Business Education, Non-Teaching

Students who seek to be graduated without meeting licensure requirements are not required to take the courses for the Secondary Education minor but should meet with the BMOM faculty advisor before filing an upper-division form.

Additionally, a business education, non-licensure training and development emphasis may be selected and includes the following courses: BMOM 420, 441, 445, 466, 481 or approved BMOM 400 elective, MGMT 381, and B AD 498.

Both options include a Business Administration minor.

Minor in Office Management

For a minor in Office Management, one may choose 18 semester hours from BMOM 131 or 232, 233, 301, 351, 435, 451, 464, 466, and 490.

Minor in Business Communication

A minor in Business Communication consists of 18 hours and must include BMOM 155, 351, and 466. The remaining 9 hours are to be selected from BMOM 232, 233, 234, 260, 451, and 467 and must be approved in advance by the minor advisor.

Minor in Entrepreneurship

A minor in Entrepreneurship consists of the following 21 hours: BMOM 140, 290; ACTG 300 (or 211 and 212); FIN 300 or 301; MGMT 361, 492; MKT 382.

Special Business Program

Administrative Business

A two-year special business curriculum in administrative business is offered for students who desire a shorter, more concentrated period of business training in which primarily only business subjects are taken. Students completing the outlined two-year business sequence with at least a 2.00 overall average in 64 semester hours earn a special business certificate. A student may transfer from this special business program to any of the four-year degree programs within the department. Course substitutions may be made in the following program only with the consent of the department chair.

Certified Professional Secretary

Those persons having successfully passed the Certified Professional Secretary's examination and who have successfully completed 12 semester hours of study in the College of Business at MTSU may make formal application to the chair of the BMOM Department for credit for each of the following courses and a grade of P will be recorded if no previous credit has been earned. Each course carries three hours credit.

ACTG	211	Principles of Accounting
BMOM	155	Introduction to Word Processing Skills
BMOM	301	Office Management
BMOM	351	Business Communication
BLAW	340	Legal Environment of Business
ECON	241	Principles of Economics

The foregoing may be applied to a major in Office Management. Credit is subject to change when the actual content of the CPS examination no longer corresponds to the course content.

Courses in Business Education, Marketing Education, and Office Management [BMOM]

100 **Keyboarding for Computers.** One credit. (Class meets two 50-minute periods per week for 7 1/2 weeks—a new class begins at midpoint of the semester.) Basic instruction on the electronic alpha-numeric keyboard. Students needing to operate a computer terminal keyboard receive basic skills required to input information swiftly and efficiently.

131 **Keyboarding.** Three credits. Development of manipulative ability; information essential to effective use of a computer keyboard, rapid and controlled application of ability and information to communication problems involving personal correspondence and simple business materials.

140 **Introduction to Business.** Three credits. Survey of business economic units of our society; the problems of business such as ownership, social responsibility, physical factors, personnel, marketing, and managerial controls. Includes exploration and analysis of business careers.

141 **Applied Distributive Computation.** Three credits. Relates mathematical computations using electronic calculating methods to a broad area of business, marketing, and administrative office occupations.

155 **Introduction to Word Processing Skills.** Three credits. (BMOM 131 recommended.) Technical skills necessary for working in word processing centers. Special emphasis given to business vocabulary, proofreading, and improvement of business documents such as letters, memoranda, and reports.

200 **Business and Society.** Three credits. Introduction to the increasingly complex set of interrelationships between the business organization and its environment. Selected topics raise major issues involved in business/society relationships; includes current assessment of the role that business plays within a changing society. NOT OPEN TO STUDENTS MAJORING OR MINORING IN THE COLLEGE OF BUSINESS.

226 **Legal Testimony I.** Three credits. The meaning and use of terms commonly used by legal professionals. Legal dictation and transcription in the appropriate format.

228 **Medical Dictation and Transcription.** Three credits. High speed dictation and transcription of medical material. Two- and three-voice dictation.

232 **Document Production.** Three credits. (BMOM 131 recommended.) Extension and refinement of fundamental manipulative abilities and keyboarding knowledges; development of production capacity through the completion of increasingly-involved problems.

233 **Word Processing Concepts.** Three credits. (BMOM 232 recommended.) Familiarization with word processing equipment, implications, and applications in business operations.

234 **Microcomputer Word Processing Applications.** Three credits. Prerequisite: BMOM 233. Advanced word processing and computer applications, including formatting and preparation of lengthy documents, such as company newsletters and databases.

235 **Advanced Document Formatting.** Three credits. Prerequisite: A grade of C or higher in BMOM 232. Development of keyboarding/typewriting skills and decision making as demonstrated in the production of quantities of material in usable form.

260 **Business Applications of Desktop Publishing.** Three credits. Prerequisites: Keyboarding skills and knowledge of computer. Topics include terminology, technology, design, use of graphics, and applications for desktop publishing.

276 **Legal and Technical Terminology.** Three credits. Covers the most common legal terms, their pronunciations and spellings, needed by legal assistants.

290 **Entrepreneurship.** Three credits. (BMOM 140 recommended.) The mechanics and operational skills needed for organizing and operating an enterprise.

301 **Office Management.** Three credits. Prerequisite: Junior standing. Office organization and functions; layout and equipment; selection, training, and supervision of personnel; office automation; planning, organizing, and controlling office services; cost reduction; work simplification.

351 **Business Communication.** Three credits. Prerequisite: Junior standing. (Keyboarding skills helpful.) A review of the theory and processes in oral and written business communication. Emphasis on the general functions of business communication and composing effective business letters.

420 **A-Z Problems in BE/ME/OM.** One, two, or three credits. Prerequisites: Junior standing and consent of department chair. Individual research, reading analysis, or projects in contemporary problems and issues in a concentrated area of study under the direction of a faculty member. This course may only be taken twice.

421 **Innovations and Problems in Accounting.** Three credits. Prerequisites: ACTG 211 and 212; junior standing. A short history of accounting and data processing including aims, evaluation of textbooks, teaching strategies, testing, and course content.

423 **Innovations and Problems in Keyboarding Applications.** Three credits. Prerequisite: Junior standing. Analysis of innovations, research, and problems affecting typewriting/keyboarding performance. Emphasis on areas such as objectives and goals, psychological principles, teaching methodology and procedures, learning theories, course content, standards, and assessments.

424 **Materials and Methods in Basic Business.** Three credits. Prerequisite: Junior standing. Analysis of objectives, materials, research, and appropriate instructional strategies for developing teaching strategies and delivery systems in basic business courses such as introduction to business, economics, business communication systems, American business/legal systems, business management, and marketing.

425 **Innovations and Problems in Office Technology.** Three credits. Prerequisite: Junior standing. (BMOM 233 recommended.) Instructional strategies in office technology including objectives, testing, audio-visuals, course content, basic programming, and standards.

434 **Word Processing Administration.** Three credits. Prerequisites: BMOM 233 and 234; junior standing. Development of necessary skills for administrators of word processing centers. Word processing feasibility, development, and implementation for business using a total information processing concept. Students develop a thorough knowledge and refine skills using various application software.

435 **Records Management.** Three credits. Prerequisite: Junior standing. Equipment and systems used for information storage, transmission, and retrieval. Filing microfilming, tape processing and

storage system design, form usage, and other information management functions in the office included.

441 **Managerial Media Presentations.** Three credits. Prerequisite: Junior standing. (BMOM 233 recommended.) Skills needed to make business presentations. Emphasis on the communication process, audience analysis, planning, presentation design, delivery, and appropriate hardware and software.

445 **Training Strategies for Business Systems and Technology.** Three credits. Prerequisite: Junior standing. (BMOM 441 recommended.) Corporate learning specialist activities such as design, development, delivery, and evaluation of learning programs for a business environment. Focuses on adult learning theories with emphasis on professional learning activities related to innovative corporate educational programs.

451 **Business Report Writing.** Three credits. Prerequisite: Junior standing. (BMOM 351 recommended.) Nature, general function, and present need of reports in industry. Recognizing, organizing, and investigating problems preparatory to writing reports and construction and writing of distinctive business and technical reports.

452 **Instructional Strategies in Marketing Education.** Three credits. Prerequisite: Junior standing. Develops competence in techniques of teaching with emphasis on problem-solving and demonstration procedures. Emphasizing teaching-learning evaluation.

460 **Organization and Administration of ME Programs.** Three credits. Prerequisite: Junior standing. Organizing marketing education programs at secondary and post-secondary levels; emphasizes youth organizations, techniques of coordination, and administrative procedures.

462 **Business Plan Development.** Three credits. Prerequisites: BMOM 290; MGMT 365; junior standing. Development of a comprehensive business plan detailing all facets of a proposed venture with an emphasis on using the plan for loan acquisition and venture implementation.

464 **Problems in Office Management.** Three credits. Prerequisite: Junior standing. (BMOM 301 recommended.) Significant research in office management; observations in local business offices, visiting office managers; and identifying and solving office problems.

465 **Women in Business.** Three credits. Prerequisite: Junior standing. Examination of opportunities available for women in professional business careers with emphasis on developing professionalism, understanding problems, and studying the social and economic impact of women in professional careers.

466 **Organizational Communication.** Three credits. Prerequisite: Junior standing. (BMOM 351 recommended.) Research and analysis of case studies of significant research; case studies in business communication; communication policies, principles, and procedures from the executive's viewpoint.

467 **International Business Communication.** Three credits. Prerequisite: Junior standing. Provides students with a theoretical and practical framework for understanding and conducting effective international business communication. Emphasis on the analysis and development of international business communication processes.

468 **Diversity in the Workplace.** Three credits. Prerequisite: Junior standing. Emphasis on developing skills essential for working effectively with a diverse work force in global and domestic settings, incorporating the value of diversity into organizations, and building multicultural work teams.

471 **History and Foundations of BE and ME.** Three credits. Prerequisite: Junior standing. Developments, aims, principles, and present status of business education; organization and evaluation of the business education curriculum; administration and supervision of business education.

473 **Consumer Education.** Three credits. Prerequisite: Junior standing. Concepts of consumer education related to instructional programs in business; sources of information and formulation of a conceptual framework essential to the decision-making process.

476 **Concepts and Implementations of OE.** Three credits. Prerequisite: Junior standing. Concepts of vocational office education related to instructional programs in business education; emphasis on the application of teaching procedures related to vocational programs in business.

480 **Administrative Office Simulation.** Three credits. Prerequisites: BMOM 233, 234; junior standing. Culmination course serving as a transition from the traditional classroom atmosphere to the administrative office atmosphere; emphasis on information and administrative management and controlled decision making through simulation experiences.

481 **Internship Program.** Three credits. Prerequisites: BMOM 233, 234; junior standing. A supervised program requiring 300 hours of related work experience in a marketing or office position. Provides experience of the application of theory to practice.

490 **Dimensions in Professional Development.** Three credits. Prerequisite: Junior standing. Emphasis on job acquisition process, time management, effective listening skills, oral and nonverbal communication competencies, dictation management, and assumption of professional responsibility for participative management activities.

Graduate Study

The BMOM Department offers a graduate major leading to a Master of Business Education degree.

Department of Computer Information Systems

Lee Maier, Interim Chair
Business and Aerospace Building N333C

Adams, Aggarwal, C. Clark, J. Clark, Freeman, Gambill, Gober, Holmes, Hughes, Lee, Rob, Wyatt

The mission of the Department of Computer Information Systems is to provide programs that seek to prepare students to solve business problems through the use of computer information systems, computer tools, and techniques; to prepare graduate students in the management of computer information systems; to provide foundation courses to undergraduate and graduate students in other fields; to encourage intellectual contributions that advance the state of knowledge in the application of information technology and quantitative methods to the solution of business problems; and to promote the involvement of department members in service activities.

The Computer Information Systems program prepares the student to assume information systems/technology responsibilities in any sized organization. Exposure to a broad range of business functions coupled with learned information systems concepts and skills will serve the student well in positions such as computer programmer, database designer/administrator, data communications manager/specialist, systems analyst, computer marketing, or information center specialist.

At least 12 semester hours must be taken in residence at MTSU for a major in Information Systems and 6 hours for a minor. All Information Systems majors have a built-in minor in Business Administration.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Information Systems

In addition to meeting the business requirements (see page 140), an Information Systems major consists of 30 hours of information systems courses. Majors must earn an overall minimum GPA of 2.00 in their required Information Systems courses.

The following 21 hours are required of all Information Systems majors:

INFS	272	COBOL Applications
INFS	370	Introduction to Systems Analysis
INFS	474	Information Resource Management
INFS	476	Advanced Programming
INFS	479	Data Base Techniques I
INFS	490	Seminar in Data Communications
INFS	498	Management Information Systems (MIS) Project

In addition, 9 hours of electives must be chosen from the following courses:

INFS	220	Introduction to Microcomputing
INFS	320	Business Applications of Microcomputers
INFS	350	Decision Support Systems
INFS	399/499	Independent Study in Information Systems
INFS	420	Microcomputer Database Applications
INFS	442	Information Systems Internship
INFS	450	New Technologies in Information Systems
INFS	483	Data Base Techniques II

The following is the required course outline for the Information Systems major with a minor in Business Administration.

Required Program

Minor in Information Systems

A minor in Information Systems consists of 18 semester hours of course work in Information Systems, 6 hours of which must be taken at MTSU. INFS 220, 310, and 370 are required. One of the following must be taken: INFS 320 or 483. In addition, six hours of approved INFS electives are required. Recommended background courses for this minor are ACTG 300, MATH 243, QM 261, or the equivalent of these.

Combined Minor in Accounting/Information Systems

A student may obtain a combined Accounting/Information Systems minor consisting of 18 semester hours which include ACTG 300 (or equivalent), INFS 220, 310, and 370, plus 6 hours of upper-division ACTG electives, not to include both ACTG 331 and 302. This is an excellent minor for students pursuing majors outside the College of Business.

Courses in Information Systems [INFS]

100 **Introduction to Computers and Related Topics.** Three credits. An overview of the workings of a computer including hardware, software, and applications. Provides hands-on experience with various software packages. CREDIT NOT ALLOWED TOWARD A BUSINESS DEGREE.

220 **Introduction to Microcomputing.** Three credits. Microcomputer applications and the microcomputer environment.

272 **COBOL Applications.** Three credits. Prerequisite: INFS 220. Systems of commercial computer programming using Common Business Oriented Language in solving business problems.

310 **Principles of Management Information Systems.** Three credits. Prerequisite: Junior standing. The role of information technology in organizations.

320 **Business Applications of Microcomputers.** Three credits. Prerequisite: INFS 220; junior standing. An applications-oriented course including extensive laboratory work and development of projects.

350 **Decision Support Systems.** Three credits. Prerequisite: Junior standing. Focus on three subsystems of computer-based information systems: decision support systems (DSS), expert systems (ES), and executive information systems (EIS).

370 **Introduction to Systems Analysis.** Three credits. Prerequisites: 6 hours of information systems; junior standing. Applied systems analysis (concepts and techniques) including problem definition, feasibility analysis, various modeling methods, hardware and software selection, documentation, and auditing procedures. Appropriate automated technologies will be used throughout the course.

399 **Independent Study in Information Systems.** One to three credits. Prerequisites: Junior standing and consent of department chair. Assigned research or projects in contemporary problem areas in the information systems discipline under direct faculty supervision. Aggregate credits allowable toward a degree may not exceed 3 hours under 399 courses.

420 **Microcomputer Database Applications.** Three credits. Prerequisites: 6 hours of information systems, including INFS 220; junior standing. Database system design, implementation, querying, and applications development in a microcomputer environment.

442 **Information Systems Internship.** One to three credits. Prerequisites: Junior standing, consent of advisor, and a plan of activities with the associated firm prior to registration. Active employment with a governmental agency or business firm for information systems/accounting fieldwork; credit given for experience and research upon completion of acceptable work and formal report. Aggregate credits allowable toward a degree in information systems may not exceed 3 hours under 442 courses.

450 **New Technologies in Information Systems.** Three credits. Prerequisites: 12 hours of information systems credit; senior standing. Future technological advances including automating the creation and maintenance of systems with CASE tools, systems engineering packages, and integrated CASE technologies.

474 **Information Resource Management.** Three credits. Prerequisites: 6 hours of information systems; junior standing. Information technologies utilizing computers as a competitive tool in a global environment.

476 **Advanced Programming.** Three credits. Prerequisite: INFS 272; junior standing. Functional programming experience in structured programming techniques; top-down design; advanced file

handling and maintenance techniques to include sequential, indexed sequential, direct, and relative file organization; interactive, menu-driven applications; and uploading/downloading programs to a central site. Requires extensive laboratory work.

479 **Data Base Techniques I.** Three credits. Prerequisites: 6 hours of information systems, including INFS 370; junior standing. Fundamental concepts: conventional data systems, integrated management information systems, data base structure systems, data integration, complex file structure, online access systems. Emphasis on total integrated information systems data base and data base management languages.

483 **Data Base Techniques II.** Three credits. Prerequisite: INFS 479. Continuation of INFS 479; emphasis on more advanced techniques of data base construction and utilization, individual projects of complex nature with extensive use of data base languages.

490 **Seminar in Data Communications.** Three credits. Prerequisites: 6 hours of information systems; junior standing. Current topics in the field of data communications.

498 **Management Information Systems (MIS) Project.** Three credits. Prerequisites: Senior standing and 12 hours of information systems credit including INFS 370. Systems Development Life Cycle (SDLC) design and implementation. Appropriate automated technologies will be used throughout the course.

499 **Independent Study in Information Systems.** One to three credits. Prerequisites: Senior standing and consent of department chair. Assigned research or projects in contemporary problem areas in the information systems discipline under direct faculty supervision. Aggregate credits allowable toward a degree may not exceed 3 hours under 499 courses.

Courses in Quantitative Methods [QM]

261 **Statistical Methods I.** Three credits. Prerequisite: MATH 243. Identification, interpretation, and use of statistical data. Topics include measures of central tendency, variation, probability theory, point and interval estimation, and hypothesis testing. Computer applications emphasized.

362 **Statistical Methods II.** Three credits. Prerequisites: QM 261; junior standing. More advanced methods of statistical analysis including simple and multivariate tests of hypotheses, non-parametric methods, correlation, regression, and time-series analysis. Computer applications emphasized.

364 **Introduction to Operations Research.** Three credits. Prerequisites: QM 362; junior standing. Optimization techniques used in business decision making.

401 **Decision Science Techniques.** Three credits. Prerequisites: QM 261 and MGMT 362; junior standing. Current topics of quantitative management decision analysis and modeling. Computer application emphasized.

Graduate Study

Requirements for the Master of Science in Accounting/Information Systems and for the Master of Business Administration degrees and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Department of Economics and Finance

John Lee, Chair
Business and Aerospace Building N329C

Deme, DePrince, Eff, Evans, Fayissa, Feller, Ford, Graddy, Hannah, Hollman, Homaifar, Kyle, Lee, Michello, Norman-Zietz, Nguyen, Sarver, Strickland, Timmons, Zietz

The mission of the Department of Economics and Finance is to teach students the foundations of economics and finance theory and methodology with a global perspective on markets and the institutional environment.

The department offers programs which lead to the B.B.A. degree with majors in either economics or finance and to the B.S. degree in economics. The B.S. degree in economics is offered through the College of Liberal Arts.

The Economics major will interest those considering careers in business, education, government, and law. Concentrations in Public Finance and Labor Relations are available.

The Finance major program focuses on the financial sectors of modern economies. Students are provided with the needed analytical foundations and with an introduction to financial processes and institutions. Within the Finance major, students may select a concentration in Business Finance, Financial Institutions Management, Insurance, or Real Estate.

Students majoring in Economics and Finance are well prepared for careers in private business, public service, and further graduate studies.

The Department houses the Weatherford Chair of Finance and the Martin Chair of Insurance. Holders of the two chairs are charged with promoting study leading to careers in financial institutions management and insurance, respectively.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Economics

Economics majors are encouraged to enroll in Honors 241 and 242.

A major in Economics leading to the B.B.A. degree requires that the student, at a minimum, complete

1. the business requirements (see page 140) in the college;
2 ECON 321, 351, and 457;
3. at least 15 additional upper-division hours in economics.

This program incorporates a minor in Business Administration.

A concentration in Public Finance or Labor Relations may be developed by completing the economics requirements in #2 above and selecting 9 semester hours from appropriate courses in the economics listings.

Non-Business Economics Program

Students desiring a more flexible program than outlined above may elect to pursue a B.S. degree in Economics. Candidates for this degree are not required to complete the College of Business requirements, but they must meet the specific B.S. degree requirements listed in this catalog (see page 56). Any student electing the B.S. alternative should consult directly with the department chair to develop an acceptable degree program. This degree is offered through the College of Liberal Arts and is not considered a degree in business administration. A maximum of 25 percent of courses for a B.S. degree in economics can be taken in business courses.

Required Program for the B.S. in Economics

*Student must complete at least one minor.

**Student must complete 48 hours of upper-division.

Minor in Economics

A minor in Economics requires a minimum of 18 semester hours. The minor must include ECON 241, 242, and at least 12 hours of upper-division courses in economics.

Minor in Industrial Relations

A minor in Industrial Relations must include ECON 442 and 451 and MGMT 361 and 381. The remaining 6 hours are to be selected from ECON 449 or 439 and MGMT 466 or 469.

Minor in Economics/Finance

A minor in the combined areas of economics and finance requires ECON 241, 242, 321, and 9 additional hours, 6 of which must be upper-division hours in finance. This minor is not available to students majoring in either Economics or Finance.

Major in Finance

A major in Finance leading to the B.B.A. degree requires that the student, at a minimum, complete

1. the business requirements (see page 140) in the college;
2. ECON 321 and at least 21 additional hours in finance. Concentrations are available in Business Finance, Financial Institutions Management, Insurance, or Real Estate. Students who choose the Business Finance concentration must include FIN 381, 401, 411, 481, 486; 6 hours of finance electives; and 3 hours of economics/finance electives. Students selecting the concentration in Financial Institutions Management must include FIN 361, 381, 426, 436, 444, 481, 486 and 3 hours of economics/finance electives. Those pursuing the Insurance concentration must include FIN 361, 411, 475; 3 hours of insurance electives; 3 hours of finance electives; and 3 hours of economics/finance electives. This concentration also must include 6 hours from the following: FIN 366, 371, 471, and 473. FIN 366 and 471 lead toward the CLU examinations and FIN 371 and 473 lead toward the CPCU examinations. Students selecting the concentration in Real Estate must include FIN 245, 381, 443, 444, 447 or 471; 455; 3 hours of finance electives; and 3 hours of economics/finance electives. The programs incorporate a minor in Business Administration.

Minor in Finance

A minor in Finance consists of a minimum of 18 semester hours with at least 12 upper-division hours in finance.

Minor in Real Estate

A minor in Real Estate consists of FIN 245, FIN 300 or 301, BLAW 447, and 9 hours of coursework in real estate approved in advance by the minor advisor.

Minor in Insurance

A minor in insurance consists of FIN 361 and 15 hours of coursework in insurance approved in advance by the minor advisor.

Minor in Real Estate/Insurance

A composite minor in Real Estate/Insurance consists of FIN 245, 361, MKT 384, BLAW 343, 3 hours of course work in insurance, and 3 hours of coursework in real estate approved in advance by the minor advisor.

Courses in Economics [ECON]

General [ECON]

241 **Principles of Economics, Macroeconomics.** Three credits. As an aid to understanding modern economic society: economic concepts of national income and its fluctuations, inflation, unemployment, role of the banking system, monetary and fiscal policies, and international topics.

242 **Principles of Economics, Microeconomics.** Three credits. As an aid to understanding modern economic society: economic concepts of consumer and firm behavior; the pricing of goods, services, and productive factors; international topics; and an overview of the American economy.

321 **The Financial System and the Economy.** Three credits. Prerequisites: ECON 241; junior standing. Basic introduction to the functions of financial institutions and markets in the conduct of domestic and international economic transactions. Within financial market context, focus on special role that money plays as an asset and a determinant of the price level, the cause of inflation and inflation's effects on interest rates and borrowing costs, and the influence of the Federal Reserve actions (monetary policy) on money and interest rates.

351 **Macroeconomic Theory and Policy.** Three credits. Prerequisites: ECON 241; junior standing. Analysis of national income, employment, and price levels. Monetary and fiscal policies; international economic relations.

354 **Japanese Economy and Business.** Three credits. Prerequisite: ECON 241; junior standing. The Japanese economy and its social, physical, and trade environment in comparison with those in other countries, particularly the United States. May be used for credit toward the Global Studies minor.

391 **Computer Applications in Economics and Finance.** Three credits. (Same as FIN 391.) Prerequisites: INFS 310; ECON 242; FIN 301 or 300. Develops ability to employ a computer in economic and financial decision making. Covers spreadsheets, object-relational database management systems, and data warehousing.

397, 398 **Cooperative Education.** Three credits. (Same as FIN 397 and 398.) Prerequisite: Junior standing. Cooperative Education experiences provide students with opportunities for on-the-job training in conjunction with on-campus academics. These courses may not satisfy major or minor requirements. Interested students should contact the MTSU Cooperative Education Office, students will be selected for participation and opportunities may be limited.

426 **Financial Markets and Institutions.** Three credits. (Same as FIN 426.) Prerequisite: ECON 321; FIN 301 or 300. Develops an understanding of the structure and functioning of our monetary-financial system. Emphasis on the institutional process of financial intermediation in the financial marketplace and the role that specific institutions and instruments play.

444 **International Economics.** Three credits. Prerequisites: ECON 241, 242; junior standing. Differences between domestic trade and international trade, foundations of international trade, economic effects of free trade and restricted trade; mechanisms of international payments and structure of balance of payments; history and contemporary issues of trade policies and world monetary systems.

447 **Economic Development of the Third World.** Three credits. Prerequisites: ECON 241, 242; junior standing. Conditions and problems of the less-developed countries; causes, processes, and consequences of economic development; introduction to basic growth models, development theories, and strategies for development. Economic as well as noneconomic factors studied.

457 **Managerial Economics.** Three credits. Prerequisites: ECON 242; MATH 344; junior standing. Familiarity with time value of money, spreadsheet, and regression analysis helpful. Microeconomic theories in depth; emphasizes practical applications in economic decisions. Topics cover fundamental economic concepts, theory of demand, theory of production, theory of cost, optimization, forecasting, game strategy in oligopolistic rivalry, long-term investment, and regression analysis.

462 **Econometrics and Forecasting.** Three credits. Prerequisites: ECON 241, 242; MATH 344; junior standing. The application of statistical methods to economic problems: covers statistical inference, regression analysis in economics and finance, and an introduction to econometrics. Emphasis on applications to actual economic data and includes use of econometric software.

466 **History of Economic Thought.** Three credits. Prerequisites: ECON 241, 242; junior standing. Background of modern economic thought: ancient economic thought; the main current of developing economic analysis through Feudalism, Mercantilism, and the Physiocrats; Adam Smith and the classical economists; rebels and the neo-classical economists; twentieth century contributions.

489 **Internship in Economics.** Three credits. Prerequisites: Junior standing and recommendation of advisor. Supervised work experience in cooperating business firms or governmental agencies together with specialized academic study relating to the work experience.

499 **Problems in Economics.** Three credits. Prerequisite: Junior standing. Problems for intensive study are chosen in joint consultation between student and instructor.

Labor Relations [ECON]

439 **Employee Benefits.** Three credits. (Same as FIN 439.) Prerequisite: Junior standing. Includes descriptive review and taxation, legislative, and administrative dimensions of the major components of employee benefit plans such as retirement systems, deferred compensation plans health insurance, death benefits, disability benefits, paid and unpaid time off. Technical analysis and problem solving emphasized to develop applied skills. Social insurance and international benefits integrated.

442 **Labor and Human Resource Economics.** Three credits. Prerequisite: ECON 241 or 242; junior standing. Current issues and theories, returns to training and education (human capital), earnings differences; union impacts and government regulation of labor relations and labor markets; human resource information system modeling, including applied PC or mainframe data analysis and integration of Internet information sources.

449 **Industrial Relations Legislation.** Three credits. (Same as BLAW 449 and MGMT 449.) Prerequisite: Junior standing. Effects of government regulation on labor relations. Examination of the National Labor Relations Act as amended by the Labor Management Relations Act; the Labor Management Reporting and Disclosure Act; public sector regulation; legal issues emerging from workforce diversity.

451 **Unions and Collective Bargaining.** Three credits. (Same as MGMT 451.) Prerequisite: Junior standing. The collective bargaining process: its evolution in the public and private sectors and its contemporary legal environment; compensation, institutional and administrative issues; strikes and impasse resolution procedures.

Public Finance [ECON]

343 **Public Finance.** Three credits. (Same as FIN 343.) Economic foundations of federal tax and expenditure policies. Current issues in federal budget policy. Policy applications illustrating key concepts such as public goods, externalities, income distribution, tax incidence, tax equity, and allocative efficiency. Intergovernmental fiscal relations.

431 **Problems in Government Finance.** Three credits. (Same as FIN 431). Prerequisites: ECON 241, 242; junior standing. Comparison of state and local fiscal organization, administration, and budgetary policy and procedure. Special attention given to comparing revenue and expenditure structure of Tennessee and its major subdivisions with those of neighboring states.

440 **Business and Government.** Three credits. Prerequisite: Junior standing. The economics of public policy toward private business in the U.S. Many dimensions including economic theory, history, philosophical foundations of government, economic statistics, as well as applications of those disciplines to a wide variety of policy issues.

450 **Urban and Regional Economics.** Three credits. Prerequisites: ECON 241, 242. Economic problems of urban communities, including problems resulting from population shifts to suburbia; urban planning; land utilization; revenue structures; urban renewal; transportation; problems of minority and poverty groups.

Courses in Finance [FIN]

Business Finance [FIN]

300 **Principles of Financial Management.** Three credits. Prerequisite: ACTG 211 or 300. Will not substitute for FIN 301. An overview of the fundamental concepts and tools for financial decision making within a business firm. CREDIT NOT ALLOWED TOWARD A BUSINESS DEGREE.

301 **Business Finance.** Three credits. Prerequisites: ACTG 212 or 300; QM 261; junior standing. Theory of corporate finance, emphasizing wealth creation, valuation, risk, capital budgeting, and cost of capital.

343 **Public Finance.** Three credits. (Same as ECON 343.) Economic foundations of federal tax and expenditure policies. Current issues in federal budget policy. Policy applications illustrating key concepts such as public goods, externalities, income distribution, tax incidence, tax equity, and allocative efficiency. Intergovernmental fiscal relations.

381 **Investments.** Three credits. Prerequisite: FIN 301. Introductory survey course focusing on investment markets and instruments. Emphasis on security characteristics, analysis, and valuation.

401 **Intermediate Financial Management.** Three credits. Prerequisites: FIN 301; MATH 344; QM 362. Reviews and extends the basics of risk, valuation, and the creation of wealth. Explores capital budgeting, capital structure, and their interactions.

411 **Managerial Finance.** Three credits. Prerequisite: FIN 301. A case course emphasizing the financial aspects of management. Topics include financial statement analysis, working capital management, capital budgeting, and cost of capital.

439 **Employee Benefits.** Three credits. (Same as ECON 439.) Prerequisite: Junior standing. Includes descriptive review and taxation, legislative, and administrative dimensions of the major components of employee benefit plans such as retirement systems, deferred compensation plans health insurance, death benefits, disability benefits, paid and unpaid time off. Technical analysis and problem solving emphasized to develop applied skills. Social insurance and international benefits integrated.

481 **Portfolio Theory and Management.** Three credits. Prerequisites: FIN 381; MATH 344; QM 362. Rigorous development of investment theory from its origins to current extensions and alternatives. Emphasis on investor rationality, efficient portfolio selection, capital asset pricing and options valuation models, and market efficiency.

486 **International Financial Management.** Three credits. Prerequisite: FIN 301. International capital markets, exchange rate exposure, risk management, and other multinational finance issues. Essential not only for United States exporters, but also for those facing competition from abroad.

Financial Institutions Management [FIN]

426 **Financial Markets and Institutions.** Three credits. (Same as ECON 426.) Prerequisite: ECON 321; FIN 301 or 300. Develops an understanding of the structure and functioning of our monetary-financial system. Emphasis on the institutional process of financial intermediation in the financial marketplace and the role that specific institutions and instruments play.

436 **Management of Financial Institutions.** Three credits. Prerequisite: Junior standing. Development of fundamental concepts and principles of sound institution management. Includes the financial environment, strategy, performance measures, asset/liability management topics, within an overall decision framework.

Real Estate [FIN]

245 **Principles of Real Estate.** Three credits. Real estate practices and procedures, basic principles of real property ownership utilization and transfer, mortgage financing, brokerage, management, valuation, subdividing, and legislation.

443 **Real Property Valuation.** Three credits. Prerequisite: FIN 245; junior standing; FIN 301 strongly recommended. Theory and methods of real property valuation. Employs qualitative and quantitative analysis to appraise residential and income-producing properties. Emphasizes comparable sales, cost-depreciation, and income capitalization.

444 **Real Estate Finance.** Three credits. Prerequisite: FIN 245; junior standing; FIN 301 strongly recommended. Financial analysis applied to various types of real property. Includes underwriting, sources of funds, portfolio problems, and government programs. Emphasizes analysis of money and mortgage markets and modern creative financing.

447 **Real Estate Law.** Three credits. (Same as BLAW 447.) Prerequisite: Junior standing. Legal rights and limitations of ownership of property, estates, titles, methods of transferring titles, abstract of titles, mortgages, leases, easements, restrictions on the use of property, real estate development, and planning, application of contract law to real property, and the administration of wills.

451 **Real Estate Brokerage and Management.** Three credits. Prerequisite: FIN 245; junior standing. Management principles and techniques for the successful real estate brokerage firm. Topics emphasized are organizing, planning, management, marketing, and advertising techniques.

455 **Real Estate Investment Analysis.** Three credits. Prerequisites: FIN 245, 301; junior standing. Analysis of real estate projects and markets. Emphasizes market research, taxes, financing techniques, and discounted cash flow analysis. Requires computer-assisted investment tools and case analysis.

459 **Problems in Real Estate.** One to three credits. Prerequisite: Junior standing. Current analysis of issues in the field of real estate with concentration on major problems and policies in managing real estate and other related resources.

Insurance [FIN]

361 **General Insurance.** Three credits. Prerequisite: Junior standing. The principles of risk and risk bearing; insurance carriers; survey of principles of life, health and accident, fire, marine, and automobile insurance policies; government regulation of insurance.

366 **Life Insurance and Health Insurance.** Three credits. Prerequisite: Junior standing. Problems of purchaser and seller; critical investigation of life and health insurance with emphasis on social and economic aspects.

371 **Property and Casualty Insurance.** Three credits. Prerequisite: Junior standing. Scope and fundamentals of property and liability insurance; analysis of contracts, rating, underwriting, insurers, and loss of adjustment requirements and procedures.

471 **Insurance in Estate Planning.** Three credits. Prerequisite: FIN 361. Insurance as it may relate to estate planning examined in detail. Focus on estate planning principles including the problems of estate liquidity, taxation, governmental regulation, and costs involved in handling estates. Also included are ownership provisions and beneficiary designations, settlement options, and trusts.

473 **Insurance Company Operations.** Three credits. Prerequisite: FIN 361. Insurance marketing, underwriting, reinsurance, rate making, claims adjusting, loss control activities, and other functions and activities.

475 **Risk Management.** Three credits. Prerequisite: FIN 361. Analysis of major sources of liability loss exposures and the insurance coverages designed to meet those exposures. Noninsurance techniques such as loss control and risk transfer also discussed.

479 **Problems in Insurance.** Three credits. Prerequisite: FIN 361. Application of various insurance coverages to fulfillment of personal, business, and social needs. Special problems chosen or assigned in areas of the student's interest in joint consultation between student and instructor.

General [FIN]

201 **Personal Financial Planning.** Three credits. Includes budgeting and saving techniques, tax planning, insurance principles, consumer credit, housing, investment alternatives, and retirement and estate issues.

391 **Computer Applications in Economics and Finance.** Three credits. (Same as ECON 391.) Prerequisites: INFS 310; ECON 242; FIN 301 or 300. Develops ability to employ a computer in economics and financial decision making. Covers spreadsheets, object-relational database management systems, and data warehousing.

397, 398 **Cooperative Education.** Three credits. (Same as ECON 397 and 398.) Prerequisite: Junior standing.

431 **Problems in Government Finance.** Three credits. (Same as ECON 431.) Prerequisite: Junior standing.

489 **Internship in Finance.** Three credits. Prerequisites: Junior status and recommendation of advisor. Supervised work experience in cooperating business firms or government agencies together with specialized academic study relating to the work experience.

491 **Futures and Options.** Three credits. Prerequisite: FIN 300 or 301. Commodity and financial derivatives. Discusses functions of markets, institutional arrangements, mechanics of trading, pricing of contracts, risk management, speculation, and hedging.

499 **Problems in Finance.** Three credits. Prerequisite: Junior standing. Problems for intensive study are chosen in joint consultation between student and instructor.

Graduate Study

The Master of Arts and Doctor of Arts are offered in Economics. Degree requirements and a list of the courses offered for graduate credit may be found in the Graduate Catalog.

Department of Management and Marketing

Jill Austin, Chair
Business and Aerospace Building N121D

Bullington, Bush, Festervand, Gilbert, Graeff, Harmon, Hart, Hill, Inks, Kemp, Kethley, Mayo, Moser, Mpoyi, Mullane, Peters, Phillips, Singer, Sokoya, Tang, E. Thomas, J. Thomas, Tillery, Warren

The mission of the Department of Management and Marketing is to offer learning experiences for students that are based on excellence in teaching. The department provides the educational foundation for both students' success in management, marketing, and business administration careers and their further study in these fields. Learning opportunities are provided through a variety of teaching methods, using technology where appropriate to enhance students' learning. To further support teaching, the department encourages faculty to achieve excellence in research and scholarly activities. The department is also committed to serving students through advising and through developing relationships in the business community.

Students may choose from three majors: Management, Marketing, and Business Administration. The three programs of study offered within this department lead to a Bachelor of Business Administration degree. The three majors provide the skills necessary for a wide range of business careers in management, marketing, and general administration and also provide the basic undergraduate preparation necessary for admission to and satisfactory performance in graduate study in business.

The major in Management offers preparation for specialized careers in human resources management, production/operations management, and general administrative careers in business, government, industry, and nonprofit organizations. Students interested in careers in human resources management are encouraged to choose their management electives as indicated on the next page. Typical career titles in human resources management include training/development manager, human resources recruiter, employee relations specialist, industrial/labor relations specialist, employee selection manager, employee benefits administrator, and compensation specialist. Students interested in careers in production/operations management are encouraged to choose their management electives as indicated on the next page. Typical career titles in production/operations management include production scheduler, quality control analyst, capacity planning analyst, operations systems analyst, inventory control specialist, materials manager, logistics manager, and quality assurance manager.

The major in Marketing prepares students for assuming all marketing responsibilities in the small organization and specialized marketing activities in the larger organization. Marketing activities include sales, sales management, retailing, advertising/promotion, public relations, product management, purchasing, distribution, pricing, and marketing research. These marketing responsibilities may be found in business, government, and nonprofit organizations. Typical career titles in marketing include the following: retail manager, retail buyer, sales/marketing representative, sales manager, market research analyst, promotions strategist, logistics coordinator, and advertising account manager.

The major in Business Administration offers preparation for general business careers for students who do not wish to choose a specific area of study in business.

Minor programs of study within the department include Management, Marketing, Business Administration, and Entrepreneurship. A course may not be used to satisfy both major and minor requirements.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Business Administration

A major in Business Administration consists of 24 semester hours selected from the following:

I. **Financial Analysis (6 hours)**
ACTG 302, 311, or 331 (3)
FIN 381 or 411 (3)

II. **Management (6 hours)**
MGMT 363, 381, or 468 (3)
MGMT 364, 371, 373, 375, 377, 461, or 470 (3)

III. **Marketing (6 hours)**
Any 6 hours of Marketing electives except 397/398, 399/499, or 495

IV. **Business Environment (6 hours)**
BLAW 343, 345, 346, 348, 449, or 450 (3)
MGMT OR MKT 471 or ECON 444 (3)

Required Program*

FRESHMAN		**SOPHOMORE**	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6

	33		

**The program includes a Business Administration minor.*

Minor in Marketing

A minor in Marketing consists of MKT 382, ACTG 211 or 300, BLAW 340 or 345, and 12 hours of marketing electives. A 2.00 GPA is required. Transfer students minoring in Marketing must complete a minimum of 9 of the 15 hours of course work in marketing at Middle Tennessee State University.

Course in Business Administration [B AD]

498 **Business Policy.** Three credits. Prerequisite: Must be taken after completion of the business requirements (see introductory section of the College of Business) and in the semester in which the student graduates. Development of top management perspective with emphasis on policy and strategy formulation and evaluation through the demonstration of competence in handling multifunctional business problems. Transfer credit not allowed; must be taken in residence.

Courses in Management [MGMT]

General Management [MGMT]

361 **Principles of Management and Organizational Behavior.** Three credits. Prerequisite: Junior standing. Concepts of the management functions of planning, organizing, and controlling with an emphasis on behavioral science concepts as applied to managing people in organizations.

363 **Organization Theory.** Three credits. Prerequisite: MGMT 361. The organization as a system. Emphasis on the external environment, performance measurement, structure (including contingency theory of organization design), bureaucracy, and the impact of behavioral aspects on organization theory.

365 **New Venture Feasibility Analysis.** Three credits. Prerequisite: BMOM 290; junior standing. An examination of the process of new venture formation. Topics include recognizing and testing opportunity, developing the business concept, analyzing risks, and financing the new venture.

389 **Managerial Decision Making.** Three credits. Prerequisite: MGMT 361. Investigates the decision-making processes of business professionals to gain an understanding of how decisions are made. Emphasis on creative problem solving, critical thinking, problem formulation, and decision analysis.

394 **Business Ethics.** Three credits. Prerequisite: Junior standing. The impact of individual values and ethics on business operations, including management of the organization and marketing of goods and services. Topics include legal and ethical aspects of

dealing with the environment, consumers, employees, and the general community.

397, 398 **Cooperative Education.** Three credits. Prerequisite: Junior standing. Provides students with the opportunities for full-time on-the-job training in conjunction with on-campus academic experiences. Students will participate in professional growth seminars. Requirements of the department and MTSU Cooperative Education Office must be completed to receive credit. These courses (1) may not be used to satisfy the 24-hour major requirement or the 18-hour minor requirement and (2) may not be taken concurrently with B AD 498.

468 **Organization Behavior and Development.** Three credits. Prerequisite: MGMT 361. Human behavior in organizations. Emphasis on motivation, leadership, communication, group processes, and methods for managing change. Understanding human behavior allows student to learn better employee utilization resulting in a more effective and efficient organization.

471 **International Business.** Three credits. (Same as MKT 471.) Prerequisites: MGMT 361 and MKT 382. International organizational structures and managerial processes. Cultural, political, economic, and legal environments of global marketing. World market patterns and international trade theory.

473 **Global Comparative Management.** Three credits. Prerequisite: MGMT 361. Cross-cultural dimensions of management theories and the applicability of these theories in a multicultural and multinational environment. Topics include cross-cultural communications, motivation, leadership, and decision making. The role of MNCs in economic development and their relationship with host countries also examined.

482 **Management Research.** Three credits. Prerequisites: QM 362 and MGMT 361. Scientific concepts, methodology, and procedures in designing and conducting research for management decision making.

492 **Small Business Management.** Three credits. Prerequisite: MGMT 361. Analysis of problems and considerations involved in planning, organizing, and operating small businesses and entrepreneurial ventures. Emphasis on environmental issues, growth strategies, process management activities, and human resource management.

495 **Management Internship.** Three credits. Prerequisites: Management major with senior standing and an overall grade point average of at least 2.50. Student is affiliated with an organization on a part-time basis to develop knowledge and experience in the practical application of management theory to actual business problems in a non-classroom situation. Can be applied toward the student's degree requirements only upon approval of the Management and Marketing Department chair.

499 **Independent Study.** One to three credits. Prerequisites: Senior standing and approval of department chair. Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of an approved faculty member.

Human Resources Management [MGMT]

381 **Human Resources Management.** Three credits. Prerequisite: Junior standing. The organization, functions, and administration of a human resources management department, including selection, training, placement promotion, appraisal, pay incentives, and laws affecting the human resource function.

449 **Industrial Relations Legislation.** Three credits. (Same as BLAW 449 and ECON 449.) Prerequisite: Junior standing. Economic background and effects of government regulation of labor relations; emphasis on a detailed examination of the National Labor Relations Act as amended or expanded by the Labor Management Relations Act, the Labor Management Reporting and Disclosures Act, and Title 7 of the Civil Rights Act.

450 **Employment Discrimination Law.** Three credits. (Same as BLAW 450.) Prerequisite: BLAW 340. A detailed examination of the legal rights and responsibilities of employers and employees with respect to fair employment practices; emphasis on significant statutes, administrative regulations, and judicial decisions forming the body of anti-discrimination law.

451 **Unions and Collective Bargaining.** Three credits. (Same as ECON 451.) Prerequisite: Junior standing. The decision-making processes in the industrial relations system and their impact upon the American economy. Particular emphasis on collective bargaining, contract administration, and impasse procedures both in the public and private sectors.

462 **International Human Resource Management.** Three credits. Prerequisite: MGMT 381. International human resource functions including compensation, labor relations, training, selection, and performance appraisal; impact of culture on IHRM activities.

464 **Human Resources Planning and Staffing.** Three credits. Prerequisites: MGMT 361 and 381. Basic concepts, principles, and practices involved in the acquisition of human resources: identifying employment needs, forecasting human resource requirements, recruiting employees internally and externally, and selecting qualified candidates and matching them with appropriate jobs.

465 **Human Resource Development.** Three credits. Prerequisites: MGMT 361 and 381. The role of human resource development in organizations including needs analysis; design, development, and implementation of programs in training and development; career development; management development; and executive development.

466 **Compensation Systems.** Three credits. Prerequisites: MGMT 361 and 381. Formal organization compensation systems. Emphasis on the design, implementation, and administration of compensation systems utilizing wage theory, applicable analytical tools, research results from the behavioral sciences, and evaluations of actual practices currently utilized in the private and public sectors.

469 **Problems in Human Resources Management.** Three credits. Prerequisites: MGMT 361 and 381. Contemporary problems and issues in personnel and industrial relations in industry using research findings as a basis for more constructive action in government-labor-industry relations.

483 **Performance Appraisal.** Three credits. Prerequisites: MGMT 361 and 381. Theoretical and practical issues related to HRM performance appraisal in organizations. Emphasis on job analysis, measurement of performance, judgmental measures of performance, rating biases, cognitive components in rating, feedback process, performance appraisal training, perceived fairness and accuracy, and legal issues.

Operations Management [MGMT]

301 **Management of Operations.** Three credits. Prerequisites: MATH 121 or 141; junior standing. Will not substitute for MGMT 362.

Fundamental concepts and decisions involved with planning, operating, and controlling operations function in a firm. CREDIT WILL NOT BE ALLOWED TOWARD A BUSINESS MAJOR.

362 **Production and Operations Systems.** Three credits. Prerequisite: QM 261; junior standing. Management of production systems with emphasis on the process, system inputs, transformations, system outputs, and techniques for decision making.

364 **Introduction to Management Science.** Three credits. Prerequisite: QM 261; junior standing. Introduction to optimization techniques used in business decision making, including mathematical programming, queuing theory, critical path methods, sequencing and balancing methodologies, inventory models, and simulation.

371 **Management of Quality.** Three credits. Corequisite: MGMT 362. Introduction to design, operation, and control of quality systems; implementation approaches including behavioral and technical issues; strategic importance; quality improvement tools and their use; supplier certification; awards and recognition.

373 **Management of Technology.** Three credits. Corequisite: MGMT 362. Examination of the management of the process of forecasting, acquiring, and integrating emerging technologies into the firm's products/services and processes. Particular emphasis given to information and communications technologies. Course structure may vary.

375 **Materials Management Systems.** Three credits. Prerequisite: MGMT 362. Design, operations, and control of materials management systems; implementation approaches including behavioral and technical issues; strategic role in independent and dependent demand environments; software systems; customer-supplier relationships.

377 **Operations Simulation.** Three credits. Corequisite: MGMT 362. Introduction to the development of computer simulation as a decision-making tool. Investigation of computer simulation methodology and its application in the analysis of business systems such as service waiting lines and inventory systems. A graphical or menu driven network modeling system for the personal computer will be the primary simulation method emphasized.

461 **Advanced Operations Management.** Three credits. Prerequisites: MGMT 362 and 6 hours production/operations management electives (MGMT 371, 373, 375, 377, 470). Application of techniques used to design, operate, and control complex operations systems. Emphasis on system description, analysis, and implementation issues. Course structure varies.

470 **A-Z Problems in Operations Management.** Three credits. Prerequisite: MGMT 362. Current issues in managing operations such as operations strategy, productivity, quality, capacity management, facilities location, materials management systems, service operations, and operations planning and control systems. Topics covered and course structure vary.

Courses in Marketing [MKT]

382 **Principles of Marketing.** Three credits. Prerequisite: Junior standing. Survey of the functions, processes, and institutions involved in the distribution of consumer and industrial goods and services. Decision making in marketing management introduced.

383 **Retailing.** Three credits. Prerequisite: MKT 382. Development and present status of the retailing structure with special consideration given to the fundamentals of store organization, operation, current distribution problems, research techniques, and possible innovations.

384 **Personal Selling.** Three credits. Prerequisite: MKT 382. Principles, problems, and role of personal selling in the business environment. Buying motives, persuasion techniques, and steps of selling process are considered as they relate to different types of sales activities and products.

385 **Promotion.** Three credits. Prerequisite: MKT 382. Psychological, sociological, legal, and marketing environments of promotion; the promotion mix consisting of advertising, publicity, personal selling, and sales promotion; and the development of promotion objectives, strategies, and plans.

386 **Purchasing.** Three credits. Prerequisite: MKT 382 or approval of instructor. Purchasing management of materials and equipment in industry and government. Includes the optimum of quality, price, source, quantity, and time.

387 **Principles of Transportation.** Three credits. Prerequisite: MKT 382. Transportation development in the United States and internationally. A historical, economic, and regulatory perspective.

388 **Credit and Price Management.** Three credits. Prerequisite: MKT 382. Credit and pricing policies, procedures, organization; analysis of credit and pricing information as related to marketing activities; determination of credit limits and price levels; statement analysis; cost and collection procedures.

390 **Direct Marketing and Electronic Commerce.** Three credits. Prerequisite: MKT 382. Direct marketing and its strategic use in the development of an integrated marketing communications plan. Topics include traditional direct marketing techniques such as direct mail, broadcast and print media, and telemarketing; web-based marketing; and technology's impact on direct marketing communications techniques.

391 **Consumer Behavior.** Three credits. Prerequisite: MKT 382. Buyer behavior as an influence in marketing decisions; special attention given to the processes of motivation, perception, attitude, learning, and interaction.

392 **Entertainment Marketing.** Three credits. Prerequisite: MKT 382. Discussion of interrelated marketing issues dealing with the entertainment industry. Develops and relates the marketing mix for industry issues with regards to personality management, merchandising tie-ins, sports marketing/issues, and film/television distribution.

393 **Marketing Research.** Three credits. Prerequisites: MKT 382 and QM 362. Modern research methods and their application in gathering information for marketing decisions. Special emphasis given to the implementation of marketing surveys and experiments.

395 **Industrial Marketing.** Three credits. Prerequisite: MKT 382. Survey of managerial decisions involved in the business-to-business marketing of goods and services.

396 **Marketing Channels Management.** Three credits. Prerequisite: MKT 382. Interrelationships and interdependencies among the various institutions and agencies composing marketing channels. Emphasis on analysis of alternative strategies of different channel members for optimum efficiency within a given distribution system.

397, 398 **Cooperative Education.** Three credits. Prerequisite: Junior standing. Provides students with opportunities for full-time on-the-job training in conjunction with on-campus academic experiences. Students participate in professional growth seminars. Departmental and MTSU Cooperative Education Office requirements must be completed to receive credit. Courses (1) may not be used to satisfy the major or minor requirement and (2) may not be taken concurrently with B AD 498.

417 **Applied Promotional Strategy.** Three credits. Prerequisite: MKT 385. Integrative nature of the elements of the promotional mix in the successful communication with the consumer of a firm's products and services.

471 **International Business.** Three credits. (Same as MGMT 471.) Prerequisites: MGMT 361 and MKT 382. International organizational structures and managerial processes. Cultural, political, economic, and legal environments of global marketing. World market patterns and international trade theory.

480 **Sales Management.** Three credits. Prerequisites: MKT 382 and 384; MGMT 361. Management functions as applied to field sales force. Includes sales organization structures, selection and training of sales personnel, sales compensation, supervision and stimulation of the sales force, and evaluation of sales performance.

481 **Physical Distribution Analysis.** Three credits. Prerequisite: MKT 382. Distribution logistics as related to time-service concepts profit control centers, and technological gains. Organization structure, communication problems, and alternative inventory management, warehousing, and transportation.

485 **Advanced Selling.** Three credits. Prerequisites: MKT 382, 384. The sales function as it relates to business-to-business selling and strategic relationship development. Topics include relational selling, account management, negotiation, team selling, handling conflict and ethical dilemmas, and selling to buying committees. Learning through interactive lecture, role plays, and sales force automation software.

486 **Problems in Retail Management.** Three credits. Prerequisite: MKT 383. Factors governing a successful retail operation, including current problems, case studies, and simulation in merchandising, budgeting, and control.

487 **Services Marketing.** Three credits. Prerequisite: MKT 382. The impact, issues, and trends domestically and globally and the role and scope of marketing in service entities.

488 **Applied Marketing Research.** Three credits. Prerequisite: MKT 393. Applies marketing research concepts and tools learned in the introductory marketing research class to "real-life" marketing problems. Emphasis on planning and implementing research activities, as well as oral and written presentation of results and conclusions based on marketing research.

489 **Marketing Management.** Three credits. Prerequisites: MKT 382, 391, 393, and 6 additional semester hours of marketing courses. Marketing strategy, marketing policies, production planning, pricing, promotion, and service from the marketing manager's point of view. Case analysis and marketing simulation are emphasized. MUST BE TAKEN IN THE SEMESTER IN WHICH THE STUDENT WILL GRADUATE.

495 **Marketing Internship.** Three credits. Prerequisites: Marketing major with senior standing and an overall grade point average of 2.50. Student is affiliated with an organization on a part-time basis to develop knowledge and experience in the practical application of marketing principles to actual business problems in a non-classroom situation. Can be applied toward the student's degree requirements only upon approval of the department chair.

499 **Independent Study.** One to three credits. Prerequisites: Senior standing and approval of department chair. Individual research and analysis of contemporary problems and issues in a concentrated area under the guidance of an approved faculty member.

Graduate Study

Requirements for the Master of Business Administration degree and a list of the courses offered for graduate credit are published in the Graduate Catalog.

College of

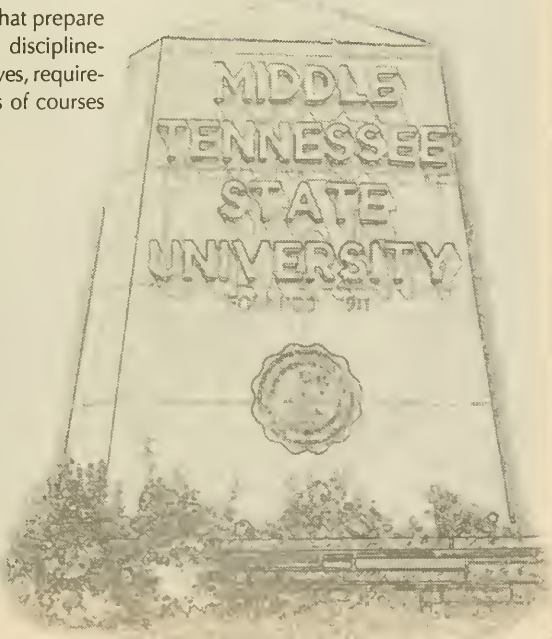
EDUCATION AND BEHAVIORAL SCIENCE

Gloria Bonner, Dean, McWherter Learning Resources Center 100
Associate Dean, McWherter Learning Resources Center 102
Sandie Richardson, Academic Advisor, Jones Hall 117

Criminal Justice Administration ■ Educational Leadership ■ Elementary and Special Education ■ Health, Physical Education, Recreation, and Safety ■ Human Sciences ■ Psychology ■

The specific objectives of the College of Education and Behavioral Science are to coordinate the teacher education programs of the University and prepare teachers who are reflective decision-makers; to provide professional courses in the preparation of teachers and school personnel; to provide programs and services for teachers and personnel already in service; and to provide appropriate experiences in the arts and behavioral sciences which contribute to a liberal education or for careers in these fields.

All academic units within the College of Education and Behavioral Science offer a variety of programs that prepare graduates to be competitive in the respective discipline-related professions. Specific departmental objectives, requirements for majors and minors, and descriptions of courses follow each departmental listing.



Laboratory Schools

The Homer Pittard Campus School is a laboratory unit of the Department of Elementary and Special Education. As a public school, comprising grades K through 6, the program operates under the supervision of the College of Education and Behavioral Science and the Rutherford County School System. The campus school serves the professional education programs in teacher education as a laboratory by providing varied opportunities for University students to study children, to study the school program, to participate in teaching activities, and to learn teaching theory.

Project HELP, an educational program for preschool children who are disabled, is another laboratory in the College of Education and Behavioral Science. In addition to special education, it provides the setting for observation/participation experiences in several academic departments.

The Nursery School and Parent-Child Learning Center are located in the Department of Human Sciences and serve as teaching laboratories for child development and early childhood and elementary education.

Accreditation

Teacher preparation programs for undergraduate and graduate programs through the Specialist in Education degree for the preparation of teachers and related school personnel are accredited by the National Council for Accreditation of Teacher Education. The College of Education and Behavioral Science holds membership in the Tennessee Association of Colleges for Teacher Education and the American Association of Colleges for Teacher Education.

Admission to Teacher Education

Students who wish to prepare themselves for careers as teachers *must make formal application for admission to the teacher education program.* Applications must be *filed no later than the second semester of the sophomore year.* Students who transfer to Middle Tennessee State University after the completion of their sophomore years, or with more than 45 semester hours of credit, must make application during their first semester of residence at MTSU. **Admission to teacher education is a prerequisite to enrollment in upper-division courses in Elementary Education (ELED), Reading (READ), Special Education (SPED) (except SPED 301), Foundations of Education (FOED), or Youth Education (YOED).**

To be formally admitted to the teacher education program, one must

1. complete the admission application;
2. have acceptable scores on the Pre-Professional Skills Test of Reading, Mathematics, and Writing as set by the Tennessee State Board of Education;
3. complete at least 45 semester hours with at least 6 semester hours at MTSU
4. complete FOED 111 and FOED 211 (or approved substitutes);
5. have an overall grade point average of 2.50 (grades earned in basic and developmental courses are not used in computation of the required average);
6. have three favorable professional interviews;
7. have disciplinary clearance from the Office of Teacher Education.

Application forms for Admission to Teacher Education may be secured from the Office of Professional Laboratory Experiences, McWherter Learning Resources Center 170. Information regarding tests is also available from the Office of Professional Laboratory Experiences.

Post-Baccalaureate Teacher Education Program

The post-baccalaureate teacher education program is designed for individuals who have completed baccalaureate degrees but who did not complete teacher preparation. The College of Education and Behavioral Science requires candidates to address any course and program deficiencies in their undergraduate education to ensure the attainment of the knowledge and skills required in general education, professional education, and the major for the teaching field. Additional coursework and program requirements will be determined by the teacher licensure analyst. Transcript analysis forms for the post-baccalaureate program are available in the McWherter Learning Resources Center 173.

Post-baccalaureate students must also make formal application for admission to the teacher education program. Admission to teacher education is a prerequisite to enrollment in upper-division courses in Elementary Education (ELED), Reading (READ), Special Education (SPED) (except SPED 301), Foundations of Education (FOED), or Youth Education (YOED).

Directed Teaching

Directed teaching is the culminating professional experience in the pre-service education of teachers. Admission to directed teaching and the professional semester is based upon successful completion of the following requirements and formal application by the student. *Applications must be filed at the beginning of the semester preceding the semester in which directed teaching is to be done.* Students should confirm specific deadline dates for student teaching applications with the Office of Professional Laboratory Experiences. Directed teaching must be taken in the student's major endorsement.

To enroll in directed teaching and the professional semester one must

1. complete the admission application;
2. have completed formal admission to teacher education at the time that the application is filed;
3. have grade point average of 2.50 overall and a 2.50 grade point average in the teaching major (grades earned in basic and developmental courses are not used in computation of the required average; computation of the grade point average in the teaching major will include all coursework taken in the departments contributing to the teaching major; this includes all coursework, if any, taken beyond the required and elective courses in the teaching major);
4. complete all education courses and appropriate methods course(s) with a grade of C or better;
5. be classified as a senior, graduate student, or post-baccalaureate student;
6. be favorably evaluated in the required field and laboratory experiences (course grades alone may not be used to meet this requirement);
7. submit a negative tuberculin test.

Directed teaching is a full-time, entire semester activity that takes place in either fall or spring semester of the senior year.

It is the culminating experience of the professional education program, in which student teachers undertake two consecutive placements in local public schools.

Licensure of Teachers

Completion of an approved program and recommendation by the University are required for a Tennessee Probationary Teacher's License. Forms for making application for the initial Tennessee Teacher's License are available in the Teacher Licensing Office, McWherter Learning Resources Center 173.

All applicants for a teacher's license shall furnish the teacher licensing analyst a report of scores attained on the National Teacher's Exam (Core Battery) and certain designated Specialty Tests so that they may be submitted to the State Department of Education at the time of recommendation. When students make application to take the National Teacher's Exam they should indicate on the application form that their test scores be sent to

Teacher Licensing Analyst
College of Education and Behavioral Science
Middle Tennessee State University
Murfreesboro, Tennessee 37132

Information regarding minimum scores and applicable NTE Specialty Area Tests is available in the office of the licensing analyst, McWherter Learning Resources Center 173.

To be recommended for a license, students who have majors in Interdisciplinary Studies, Early Childhood Education, or Special Education must have at least a 2.50 grade point average.

To be recommended for a license, students who have prepared to teach in grades 5-12 or K-12 must have an overall grade point average of 2.50 in the teaching major. Included in the computation are grades assigned in all courses attempted in departments contributing to the teaching major. This includes all coursework, if any, taken beyond the required elective courses in the teaching major. Grades earned in basic or developmental courses are not used in computing the average required.

Early Childhood Education: Pre-Kindergarten through Grade 3

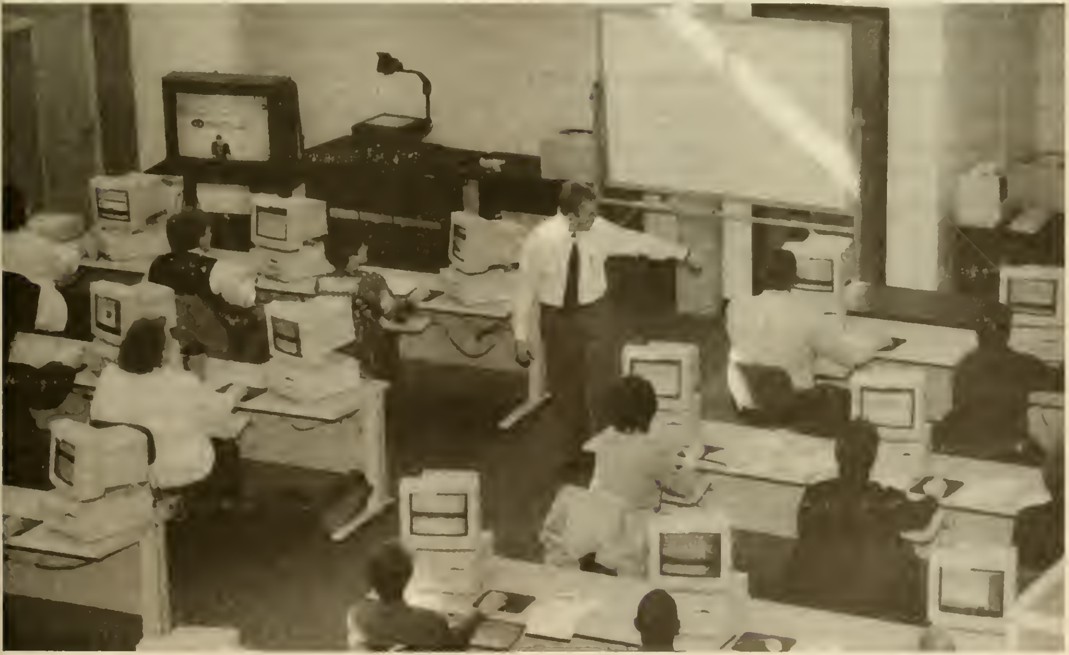
Requirements for the major in Early Childhood Education must be completed. Consult the Department of Human Sciences for requirements.

Elementary Endorsement, Grades K-8 and 1-8

Requirements for the major in Interdisciplinary Studies must be completed. Consult the Department of Elementary and Special Education for requirements.

Special Education, Grades K-12

Requirements for the major in Special Education must be completed. Consult the Department of Elementary and Special Education for requirements.



Licensure: Grades 5-12

Students seeking a license to teach in secondary schools (grades 5-12) must complete 1) a major in the subject they intend to teach, 2) a minor in professional education, and 3) courses in addition to the general education.

Following is a list of the teacher education programs leading to initial licensure:

MTSU Major or Concentration	State Endorsement Area	Dept./School to Consult for Information
Agribusiness	Voc. Agriculture 7-12/Agriscience	Agribusiness and Agriscience
Animal Science	Voc. Agriculture 7-12/Agriscience	Agribusiness and Agriscience
Art Education	Visual Arts K-12	Art
Business Education	Basic Business/Accounting 7-12 Optional endorsement in Economics 7-12 Typewriting/Keyboarding 1-6, 7-12 Data Processing 7-12 Office Technology 7-12	BMOM
Biology	Biology 7-12	Biology
Chemistry	Chemistry 7-12	Chemistry
Geoscience	Earth Science 7-12	Geography and Geology
English	English 7-12	English
French	French 7-12	Foreign Languages and Literatures

Department of Criminal Justice Administration

Frank Lee, Chair
Vaughn House 6

Hallett, Newman, Powell, Rogers, Selva, Shulman

Courses in the Department of Criminal Justice Administration provide the opportunity for students and practitioners in the criminal justice system to obtain a balanced, liberal arts-based education which is in conformity with the National Crime Commission's recommendations concerning higher education programs in criminal justice.

The major in Criminal Justice Administration, which leads to the Bachelor of Science degree, is designed to offer a strong foundation in the liberal arts, a deep knowledge of behavioral and social sciences, and a strong professional growth for those pursuing a career in the criminal justice system.

The department offers a two-year program in law enforcement which leads to the Associate in Applied Science (A.A.S.) degree. The minor in Criminal Justice Administration is also available.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Criminal Justice Administration

Requirements for the major in Criminal Justice Administration include

1. 33 semester hours of criminal justice courses including CJA 110, 220, 240, 260, 340, and 18 hours of electives;
2. a minor in Psychology which must include PSY 141, 142, 302, 323, 412, and 422;
3. 9 hours of political science;
4. SOC 101, 430, 454;
5. an additional 9 hours in either sociology or political science is recommended to satisfy the requirements for the second minor.

Following is a suggested pattern of study for the first two years; however, consultation with the assigned advisor is necessary before each registration.

Recommended Curriculum

FRESHMAN		**SOPHOMORE**	
English (Area I-A)	6	English (Area II-A)	6
Science (Area IV-A)	8	History (Area III-A)	6
SOC 101	3	PHED (Area V)	2
CSCI 100 or equivalent	1	Gen. Studies (Area II-B)	3
PHED (Area V)	2	P S 122, 150, or 244 (Area III-B)	3
Gen. Studies (Area I-B)	3	CJA 240, 260	6
CJA 110, 220	6	Mathematics (Area IV-B)	3
PSY 141, 142	6	Electives as advised	4
	35		33

Minor in Criminal Justice Administration

A minor in Criminal Justice Administration requires 18 semester hours including CJA 110, 220, 240 or 260, and 9 hours of criminal justice electives. CJA 430 may **not** be used for the 9 hours of electives, but may be taken by minors.

Associate in Applied Science in Law Enforcement

Open to any person interested in formal preparation for a career in law enforcement, the Associate in Applied Science in Law Enforcement program consists of 65 hours of academic work and is designed as a two-year degree. The requirements follow:

ENGL 111 and 112, 6 hours
BIOL 100 or SCI 100, 4 hours
Political Science, 9 hours
SOC 101, 430, 454, 9 hours
PSY 141, 142, 323, 412, 12 hours
PHED or Military Science, 4 hours
CJA 110, 220, 323, 340, plus an additional 9 hours in CJA to be selected from the following: CJA 290, 422, 426, 433, 453—21 hours

Students who wish to continue the above program to a bachelor's degree may do so with a major in Criminal Justice Administration or other appropriate field.

Courses in Criminal Justice Administration [CJA]

110 **Introduction to Criminal Justice Administration.** Three credits. Survey of the criminal justice system; philosophy and history of criminal justice agencies; analysis of the problems and needs of agencies involved in the criminal justice process; survey of professional career opportunities.

220 **Prevention and Control of Crime.** Three credits. The police function; an analysis of crime prevention and control; major problems and needs of the law enforcement segment of the criminal justice system.

240 **The Judicial Process.** Three credits. The structure and function of the judicial system; the major problems and needs of the judicial segment of the criminal justice system; major emphasis on the basic concepts of criminal law and administration.

260 **Correctional Procedures.** Three credits. History of the development of corrections in Europe and America; survey of current prison conditions and operations, including pre-release, probation, and parole.

290 **Practicum in Law Enforcement.** Six credits. Practicum. (Specialized Instruction, Tennessee Law Enforcement Training Academy at Donelson. In addition to normal tuition and fees, students will also be required to pay room and board costs at the Academy—approximately $200.00 per week for eight weeks. Open only to pre-service seniors.) Arrangements to take this course should be made with the department chair at least one semester in advance so that the student can be enrolled in the academy.

322 **Ethics in Criminal Justice.** Three credits. Principles of justice and ethics. Covers ethics and law, police and ethical standards, ethics and the courts, and correctional ethics.

323 **Police Organization and Administration.** Three credits. Principles of organization and personnel management, line staff and auxiliary functions; the police organization and the individual; planning, research, and development; political controls on authority and jurisdiction; professionalization of the police.

325 **Criminal Law.** Three credits. Prerequisite: CJA 110. Describes the theories and principles of the body of substantive criminal law. Covers the elements of the range of criminal law offenses.

340 **Constitutional Issues and Criminal Justice.** Three credits. Development of Constitutional and procedural controls of the administration of criminal justice. Constitutional limits on law enforcement agencies including the laws of arrest, search and seizure, admissions and confessions, and eavesdropping; on pretrial and trial procedures, on past conviction processes. Emphasis on current U.S. Supreme Court decisions.

363 **Community-Based Treatment of Offenders.** Three credits. An analysis of the history, theory, philosophy, and function of probation, parole and pardon; evaluation of the effectiveness of the individual in the community; usage of pre-sentence investigation; selection, supervision, and release of probationers and parolees.

370 **Women, Crime, and Justice Administration.** Three credits. Explores the experience of women in the criminal justice system as victims of violence and as criminal justice employees and prisoners. Focus on gender-based differences in the experience of criminal justice from historical, economic, and professional perspectives.

390 **Organized and White-Collar Crime.** Three credits. Prerequisite: CJA 110. Explores emergent and historical treatments of white collar and organized crime, with an emphasis on theoretical, etiological, and enforcement typologies in both the criminological and criminal justice literatures. Advent of several high-profile connections between traditionally distinct organized and white-collar crimes emphasized.

422 **Community Relations and Minority Problems.** Three credits. Analysis of public hostility toward police and current community relations projects, human relations, training and education of law enforcement officers; responsibilities of police administrators, causes of tension and conflict, dissent and disorder, positive and negative factors in the control of minority group hostilities; minority recruitment in law enforcement.

426 **Special Issues in Law Enforcement.** Three credits. A variety of subtopics related to the law enforcement segment of the criminal justice system such as problems in private and public morality with regard to drug use, alcoholism and sex offenses; analysis of current police training programs; relationship between legislation and political processes which affect law enforcement.

430 **Law Enforcement Internship.** Nine credits. (Open only to pre-service seniors, e.g., those preparing for a career in law enforcement who are not currently employed by a law enforcement agency and restricted to Criminal Justice Administration majors and minors. Permission of instructor required.) Field placement in a law enforcement agency to provide practical understanding and experience in the field. A minimum of 320 clock hours required.

433 **Criminal Investigations.** Three credits. (For Criminal Justice Administration majors or minors or with permission of instructor.) General investigative responsibilities and techniques including administration, preparation, investigative jurisdiction and responsibility, and the importance of substantive report writing.

450 **The Juvenile Justice System.** Three credits. The problem of juvenile delinquency and youth crime with emphasis on the history of the juvenile justice system, the court and police role within the system, rehabilitation and correction of the delinquent, and juvenile probation services. Alternatives to traditional procedures such as community-based programs versus correctional institutions, non-judicial and judicial adjustment, etc. are examined.

453 **Criminal Evidence and Procedures.** Three credits. Designed to develop an understanding of the types of individuals and problems of admissibility in court proceedings, the proper treatment and disposition of evidence, the legal procedure to be followed, and the actual trial procedure.

475 **Seminar in Corrections.** Three credits. Each student required to select a problem area of interest for an intensive research effort. The group will be presented with a contemporary corrections issue or problem and will be required to create practical and workable strategies for coping with the issue.

480 **Crime in America: An Assessment.** Three credits. An in-depth survey of the impact of crime on American society; the amount and trends of crime, the economic impact of crime, professional and white collar crime, characteristics of offenders, and victims of crime.

485 **Private and Industrial Security.** Three credits. An examination of the relationship between the criminal justice system and private and industrial security including historical roots, mutual concerns. Also internal theft, white-collar crime, retail security, institutional security, cargo and computer security as well as the role of the criminal justice system in prevention and investigation.

486 **Security Administration.** Three credits. The placement of the security function within an organization; the role of the security manager in developing a program to protect assets and reduce illegal losses, and to provide protection for personnel; the application of management techniques to the operation of the organization's security division, including personnel recruitment and selection; development of security survey techniques, identification of security risks, and techniques used to eliminate opportunities for theft.

487 **Security Law.** Three credits. An analysis of the legal background of private and proprietary security. Critical current legal issues in the private security field. Legal relationships between private and proprietary security operations and public law enforcement agencies.

490 **Readings in Criminal Justice Administration.** Three credits. (Open only to Criminal Justice Administration majors and minors.) For the advanced student who is capable of independent study. Readings in a particular area of criminal justice relevant to the student's individual interests. Preparation of an annotated bibliography and report required. Arrangements for this course should be made with the instructor prior to registration.

Department of Educational Leadership

Nancy Keese, Chair
Jones Hall 325

Bonner, Bullen, Clay, Craig, DeLong, Eaker, Embry, Grimes, Hausler, Hayes, Huffman, Moseley, Peyton, Sanders, Weeks, Williams, Womack, Young

Courses in the Department of Educational Leadership are designed to meet the professional needs of students planning to teach. Persons preparing to teach in the secondary school must earn a major in an endorsable teaching field, complete appropriate general education requirements, and minor in Secondary Education. The Secondary Education minor is offered through this department. A non-teaching minor in Education is also offered.

Minor in Secondary Education

Students seeking a minor in Secondary Education must complete the following courses:

FOED 111 Education as a Profession, 3 hours
FOED 211 Educational Psychology, 3 hours*
SPED 301 Survey of the Exceptional Child, 3 hours*
YOED 305 Analysis of Effective Teaching, 3 hours* ***
YOED 310 Methods and Strategies of Teaching, 3 hours* **
SPSE 322 Technology in Teaching, 3 hours
YOED 400 Managing the Classroom for Instruction, 3 hours*
READ 446 Teaching Reading in the Content Area, 3 hours**
YOED 411 Directed Teaching, Grades 7-12, 12 hours

**Field experience required*
***Not required for majors/certification in Music, Art, Agricultural Education, Health Education, Physical Education, Home Economics Education, Industrial Studies, Business Education.*
READ 334, Teaching Reading in the Secondary School (4 semester hours), is required of English majors in lieu of READ 446.
****A grade of C or better must be earned in order to proceed to YOED 310.*

Minor in Education (Non-teaching)

The program for the non-teaching minor in Education is planned to provide a knowledge base for a public better informed on educational matters and for those students who wish to pursue study in professional education but are not interested in obtaining credentials for school teaching. The minor requires 18 semester hours including FOED 111 and 211 and 12 elective hours selected with the approval of the department chair or advisor for the non-teaching minor.

Courses in Foundations of Education [FOED]

111 **Education as a Profession.** Three credits. Analysis of current school systems and the development of their common features including historical background, legal issues, curricular patterns, organization, and administration. Designed to assist the prospective teacher in evaluating personal qualifications in relation to professional demands.

211 **Educational Psychology.** Three credits. Physical, mental, social, and emotional development of the human organism from birth to maturity; learning theory; motivating and facilitating learning processes in school settings. A tutorial assignment in the public school required.

335 **Instructional Development Laboratory for Teachers.** Four credits. Innovative course in methodology providing experiences with audio-visual aids and equipment, preparation of instructional plans, try-out of plans with videotaped, micro-teaching sessions; problems relating to teacher-pupil relationships and discipline included.

Courses in Youth Education [YOED]

305 **Analysis of Effective Teaching.** Three credits. Prerequisite to YOED 310 and student teaching. Designed to provide an overview of research on effective teaching. Emphasis on building a research-informed knowledge base that will enable beginning teachers to make sound professional judgments in the teaching situation. Special project in a public school required.

310 **Methods and Strategies of Teaching.** Three credits. Prerequisites: YOED 305 and admission to the teacher education program. Required for student teaching. Focuses on practical application, including some practice, of effective teaching strategies. Emphasis on teaching techniques demonstrated by research to positively affect student achievement and student attitudes toward school. Course includes practice as appropriate in the form of mini-lessons and micro-teaching episodes. An assignment as a teaching assistant in a public school required.

400 **Managing the Classroom for Instruction.** Three credits. Prerequisite: Admission to teacher education program. Required for student teaching. Introduction, examination, and practice in multiple models and approaches to classroom management and discipline. Analysis and interpretation of related research. Application of principles and procedures in classroom management to school and classroom settings. Field experience in a public school required.

411 **Directed Teaching, Grades 7-12.** Twelve credits. Prerequisites: All required professional education courses; appropriate special methods course(s); senior standing, minimum grade point average of 2.50 overall and in the teaching major; admission to teacher education. A full-day, full-semester supervised teaching experience in a public school classroom. Pass/Fail.

451 **The Teaching Internship, Grades 7-12.** Nine credits. Supervised teaching available only to those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicants must meet all prerequisites for directed teaching.

Courses in School Personnel Services Education [SPSE]

322 **Technology in Teaching.** Three credits. Prerequisite: Admission to teacher education program. Use of selected hardware and software in the teaching/learning processes. The computer and selected media delivery systems for teaching and learning along with the design and creation of inexpensive teaching and learning materials.

409 **Residence Hall Counseling.** Three credits. (Same as PSY 409.) Prerequisite: Approval by Housing and Residential Life and/or instructor. Develops knowledge and skills necessary for effectiveness as a resident assistant.

421 **General Methods Including A/V.** Three credits. Methods and teaching strategies generally applicable to the secondary school: instructional planning, classroom management, and the effective utilization of learning materials and audio-visual aids.

426 **A-Z Problems in Education.** One to three credits. An opportunity for individuals or groups to work on problems related to their needs. Topic and credit to be determined at the time of scheduling. Maximum of six semester hours credit may be applied toward a degree.

Courses in Library Services [L S]

415 **Books and Media for Children.** Three credits. Materials suitable for elementary school children including a study of leisure time interests and curricular needs, criteria for evaluating materials, and related aids used in their selection.

416 **Books and Media for Young People and Adults.** Three credits. Basically the same approach as 415 but adapted to the secondary school and adult level.

Graduate Study

Requirements for the Master's and Specialist in Education degrees and a list of the courses offered for graduate credit are published in the Graduate Catalog.

Department of Elementary and Special Education

Race Bergman, Interim Chair
Jones Hall 225

Babb, Bertrand, Calder, Campbell, Crews, Glascott, Gower, Higdon, Jones, Means, Poole, Ring, Sawyer, Solley, Trent, Waldrop

Courses in the Department of Elementary and Special Education are designed to meet the professional needs of students preparing to teach at the elementary level and to improve the teaching competencies of those presently employed as teachers. Programs in the department lead to the Bachelor of Science with majors in Interdisciplinary Studies or Special Education. Students majoring in Interdisciplinary Studies must select a teaching level: either grades K-4 or 5-8. Special Education majors may choose between Modified Program, K-12 (for individuals with mild/moderate disabilities) or Comprehensive Program, K-12 (for individuals with severe/profound disabilities). A minor in Special Education is also available. Students should consult with their assigned advisors before each registration. Students interested in Early Childhood Education (Pre-K-3) should see section under Department of Human Sciences. Students who wish to major in Interdisciplinary Studies but not pursue licensure are required to check with the Department of Elementary and Special Education in Jones Hall 223 to develop an appropriate course of study.

Major in Interdisciplinary Studies

Designed to prepare teachers for elementary schools, the major in Interdisciplinary Studies requires courses which satisfy the requirements for General Studies, Enhanced General Education, Interdisciplinary Studies major, professional education, and enhanced student teaching as follows:

Enhanced General Education Requirements

The following courses are required in addition to the General Studies requirements (40 hours) as described on pages 58-59.

ART 221, 320*, 6 hours
GEOL 100 and 100L, 4 hours
PHED 343, 378, and HLTH 430, 7 hours
MUED 121, 321*, 6 hours
**Replaces 3-hour General Studies requirement*

Interdisciplinary Studies Major Requirements

Grades K-4 Level

BIOL 300 Life Science for Elementary Teachers, 4 hours
ELED 430 The Kindergarten Program, 3 hours*
Choose from 6 hours of the same foreign language OR
  L S 415 and ENGL 360 and one other 300/400 English course
ENGL 360 Children's Literature, 3 hours OR
  L S 415 Books and Media for Children, 3 hours
CDFS 332 Family Relations, 3 hours
MATH 110 Mathematics for Elementary School Teachers, 3 hours
MATH 201 Informal Geometry for Elementary School Teachers, 3 hours
SCI 442 Experimental Physical Science, 4 hours
SPEE 442 Speech and Language Development, 3 hours
Choose one course from the following (in consultation with advisor):
  HIST 366 Tennessee, 3 hours
  P S 328 State and Local Government, 3 hours

Grades 5-8 Level

ENGL 451 Modern English Grammar and Usage, 3 hours, and any other 300/400 English course
MATH 110 Mathematics for Elementary School Teachers, 3 hours
MATH 201 Informal Geometry for Elementary School Teachers, 3 hours
MATH 401 Mathematics for Middle School Teachers, 3 hours
BIOL 300 Life Science for Elementary Teachers, 4 hours
SCI 442 Experimental Physical Science, 4 hours
SPEE 316 Children's Drama and Speech, 3 hours
Area of concentration from one field in arts and sciences, 12 hours

Professional Education

Grades K-4 Level

FOED 111 Education as a Profession, 3 hours
FOED 211 Educational Psychology, 3 hours
SPED 301 Survey of the Exceptional Child, 3 hours
ELED 225 Educational Technology in the Elementary School, 2 hours
ELED 325 Elementary Curriculum, K-4, 3 hours
ELED 311A Methods and Materials in Elementary Language Arts, 3 hours*
ELED 311D Methods and Materials in Elementary School Mathematics, 3 hours*
ELED 405 Effective Instruction, K-4, 3 hours*
ELED 431 Kindergarten Practicum, 3 hours*
READ 425 Methods and Materials in the Teaching of Reading, 4 hours*

Grades 5-8 level

FOED 111 Education as a Profession, 3 hours
FOED 211 Educational Psychology, 3 hours
SPED 301 Survey of the Exceptional Child, 3 hours
ELED 225 Educational Technology in the Elementary School, 2 hours
ELED 327 Elementary Curriculum, 5-8, 3 hours
ELED 311A Methods and Materials in Elementary Language Arts, 3 hours*
ELED 311D Methods and Materials in Elementary School Mathematics, 3 hours*
ELED 407 Effective Instruction, 5-8, 3 hours*
READ 425 Methods and Materials in the Teaching of Reading, 4 hours*

**Must be admitted to teacher education program before taking course*

Enhanced Student Teaching

ELED 411 Directed Teaching, Grades K-8, 12 hours

Major in Special Education

The major in Special Education requires 134 semester hours including courses which satisfy the General Studies requirements. It is designed to prepare teachers in special education and will meet the Tennessee requirements for licensure in Special Education in either Modified Program, K-12 (for individuals with mild/moderate disabilities) or Comprehensive Program, K-12 (for individuals with severe/profound disabilities). Following are the program requirements:

Enhanced General Education Requirements All Special Education Majors

The following courses are required in addition to the General Studies requirements (42 hours) as described on pages 58-59.

BIOL 300 Life Science for Elementary Teachers, 4 hours
ENGL 360 Children's Literature, 3 hours, OR
  L S 415 Books and Media for Children
HLTH 331 Health Problems of Exceptional Children, 3 hours
HLTH 330 First Aid and Safety Education, 3 hours OR
  CPR certification and electives in arts and sciences
MATH 110 Mathematics for Elementary School Teachers, 3 hours
MATH 201 Informal Geometry for Elementary School Teachers, 3 hours

Special Education Major Requirements

Modified Program, K-12

CDFS 333 Dynamics of Interpersonal Relationships, 3 hours
CDFS 435 Parenting, 3 hours
PSY 218 Thinking: Intelligence and Creativity, 3 hours
PSY 419 Child Psychology, 3 hours
PSY 421 Adolescent Psychology, 3 hours
PSY 472 Multicultural Perspectives in Psychology and Education, 3 hours
READ 413 Corrective Reading, 3 hours
SPED 301 Survey of the Exceptional Child, 3 hours
SPED 321 Practicum in Special Education (Resource Room), 3 hours*
SPED 424 Methods and Techniques of Behavior Management, 3 hours*
SPEE 442 Speech and Language Development, 3 hours
S W 444 Social Work with the Disabled Individual, 3 hours

Comprehensive Program, K-12

CDFS 333 Dynamics of Interpersonal Relationships, 3 hours
CDFS 435 Parenting, 3 hours
PHED 395 Adapted Physical Activity, 3 hours
PHED 491 Kinesiology, 3 hours
PSY 419 Child Psychology, 3 hours
PSY 421 Adolescent Psychology, 3 hours
PSY 472 Multicultural Perspectives in Psychology and Education, 3 hours
SPED 301 Survey of the Exceptional Child, 3 hours

Minor in Special Education

The minor in Special Education requires a minimum of 18 semester hours as recommended by an advisor in special education as assigned by the chair, Department of Elementary and Special Education.

Courses in Elementary Education [ELED]

100 **Pedagogy Seminar.** One credit. Introduction to computer technology used in elementary school classrooms. Students practice the skills specified by the State of Tennessee 21st Century Classroom guidelines.

225 **Educational Technology in the Elementary School.** Two credits. Introduction to computer technology used in elementary school classrooms. Students practice skills specified by State of Tennessee 21st Century Classroom guidelines.

305 **Creating Learning Environments K-8.** Three credits. Design instruction and evaluation of an integrated reflective curriculum in the elementary grades. Classroom experiences provided.

307 **Creating Learning Environments 5-8.** Three credits. The design, instruction, and evaluation of an integrated middle school curriculum with particular attention to the effect of physical, social, and emotional needs of the middle school student as they relate to middle school instruction. Classroom experiences provided.

311A **Methods and Materials in Elementary School Language Arts.** Three credits. Prerequisites: Admission to teacher education; ELED 325 or 327. Techniques, methods, and materials for teaching communication skills—listening, speaking, writing, and reading—in elementary and special education classrooms. Laboratory experiences provided during regular classroom periods.

311B Methods and Materials in Elementary School Social Studies. Three credits. Techniques, methods, and materials for teaching the social sciences in the elementary school. Laboratory experiences provided during regular classroom periods.

311C Methods and Materials in Elementary School Science. Three credits. Techniques, methods, and materials for teaching science in the elementary school. Laboratory experiences provided during regular classroom periods.

311D Methods and Materials in Elementary School Mathematics. Three credits. Prerequisites: Admission to teacher education; ELED 325 or 327. Techniques, methods, and materials for teaching mathematics in the elementary school. Laboratory experiences provided during regular classroom periods.

311F Methods and Materials in Elementary School Physical Education. Two credits. Techniques, methods, and materials for teaching physical education in the elementary school. Laboratory experiences provided during regular classroom periods.

315 Mathematics Methodology. Three credits. Prerequisites: Admission to teacher education program; ELED 305 or 307. Prepares pre-service elementary and middle school teachers for teaching mathematics.

325 Elementary Curriculum, K-4. Three credits. Curriculum design and delivery in the early elementary grades. Practicum experiences provided.

327 Elementary Curriculum, 5-8. Three credits. Curriculum design and delivery in the upper elementary and middle grades. Practicum experiences provided.

330 Instructional Design and Technology in the Elementary School. Three credits. Prerequisite: Admission to teacher education program. Introduces principles of instructional design with an emphasis on the integration and use of instructional technology to promote effective classroom instruction. Two hours lecture and two-hour lab.

333 Instructional Design and Technology in the Middle Grades, 5-8. Three credits. Prerequisite: Admission to teacher education program. Introduces the principles of instructional design with an emphasis on the integration and use of instructional technology to promote effective classroom instruction. Two hours lecture and two-hour lab.

400 Methods and Materials in the Teaching of Writing. Three credits. An in-depth exploration of elementary students' efforts to become writers. Specific strategies, appropriate assignments, and instructional goals as well as basic writing skills, all based on recent research, presented.

401 Introduction to Language and Literacy in the Elementary School. Three credits. Prerequisites: Admission to teacher education program; ELED 305. Develops an understanding of the acquisition and development of language and literacy and of the theories behind the teaching of language and literacy; promotes lifelong literacy skills.

402 Language and Literacy in the Elementary Grades, K-8. Three credits. Prerequisites: Admission to teacher program; ELED 305, 401. Introduces various strategies and techniques for teaching and assessing literacy (reading and writing) in the elementary school.

403 Introduction to Literacy in the Middle Grades, 5-8. Three credits. Prerequisites: Admission to teacher education program; ELED 307. Introduces preservice teachers to the concept of literacy as it relates to middle school learners. The preservice teacher will gain an understanding of language and literacy in the middle school.

404 Literacy Instruction in the Middle Grades, 5-8. Three credits. Prerequisites: Admission to teacher education; ELED 307 and 403. Introduces various strategies and techniques for teaching and assessing literacy (reading and writing) in the middle school.

405 Effective Instruction, K-4. Three credits. Prerequisites: Admission to teacher education; ELED 325. Strategies used to teach children in the early elementary grades. Practicum experiences required.

407 Effective Instruction, 5-8. Three credits. Prerequisites: Admission to teacher education; ELED 327. Strategies used to teach children in the upper elementary and middle grades. Practicum experiences required.

411 Directed Teaching, Grades K-8. Twelve credits. Full-day supervised teaching experience of 15 weeks duration in a public school classroom. Pass/Fail.

420 Observation and Participation. Three credits. Directed laboratory experiences for teachers desiring to add an endorsement to their licenses. Includes language arts, math, science, social studies, art, and music.
A. **Kindergarten**
B. **Grades 1-6**

422 Environmental Education for the Elementary Teacher. Three credits. An investigation of conservation, preservation, ecology, and resource management. Focus on things that support or enhance the lives of individuals. Interdisciplinary approach to teaching utilized.

426 A-Z Problems in Elementary Education. One to three credits. A problem-oriented course, on or off campus, planned and designed for individuals, a school faculty, school system, or other professional groups, which will provide opportunities for in-service education related to assessed needs. Credit toward an undergraduate degree will be limited to six semester hours.

429 **The Curriculum of Early Childhood Education.** Three credits. Experiences designed to aid kindergarten and primary teachers in developing readiness for the creative capacities of children in several curricular areas.

430 **The Kindergarten Program.** Three credits. The philosophy, methods, materials, and acceptable standards involved in the organization and instructional procedures of a kindergarten program. A one-hour laboratory per week in addition to class periods.

431 **Kindergarten Practicum.** Three credits. Prerequisite: ELED 430 or special permission from an advisor in Early Childhood Education. Observation and participation in kindergarten instruction and activities. Laboratory work in addition to a weekly seminar.

435 **Theory to Practice.** Three credits. Prerequisite: Completed or presently enrolled in all methods courses. Strategies and techniques for guiding the learning of the young child. Development and use of materials in primary and elementary classrooms with emphasis on explanation and experimentation. Laboratory work and weekly seminar.

440 **Middle School Instruction.** Three credits. Prerequisites: Admission to teacher education program; ELED 307. Introduces strategies to teach children in the upper elementary and middle grades. Practicum experiences required.

445 **Teaching in the Upper Elementary and Middle School.** Three credits. Survey course emphasizing the needs of the learner and the methods, materials, techniques, and evaluative procedures for an instructional program suited to that student. Appropriate laboratory experiences included.

451 **The Teaching Internship, Grades 1-8.** Nine credits. Supervised teaching available only to those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicants must meet all prerequisites for student teaching.

Courses in Reading [READ]

300 **Reading Improvement.** One to three credits. An individualized course in reading designed to assist students in assessing and developing their skills in vocabulary development, comprehension, study skills, and reading rate. This course may be taken by lower-division or upper-division students.
Reading Improvement, three credits
Rapid Reading, one to three credits
Study Skills, one to three credits.

334 **Teaching Reading in the Secondary School.** Four credits. Prerequisite: Admission to teacher education. Materials, methods, and techniques for teaching reading at the secondary level, including clinical laboratory experiences. Designed for teachers of language arts.

413 **Corrective Reading.** Three credits. Admission to teacher education. The application of diagnostic and remedial skills in the solution of problems related to reading level, rate, comprehension, and other difficulties in the elementary classroom.

425 **Methods and Materials in the Teaching of Reading.** Four credits. Prerequisite: Admission to teacher education. Methods and materials for teaching developmental, recreational, functional, and corrective reading in the elementary and special education classroom. Laboratory experiences provided.

446 **Teaching Reading in the Content Areas.** Three credits. Prerequisite: Admission to teacher education. Emphasis on the teaching of reading in content subjects, such as mathematics, science, and social studies in upper elementary, middle, and secondary schools. Specific suggestions for activities and lesson strategies included.

Courses in Special Education [SPED]

301 **Survey of the Exceptional Child.** Three credits. Introduction to programs and problems of children who deviate from the norm in physical, emotional, mental, and social characteristics. (Required of all individuals who major or minor in education for state licensure purposes.)

321 **Practicum in Special Education (Resource Room).** Three credits. Prerequisites: Admission to teacher education; SPED 301. Participation in the resource room setting with students with mild disabilities. Directed laboratory experiences for a minimum of five hours per week with a weekly seminar required.

322 **Practicum in Special Education (Self-Contained).** Three credits. Prerequisites: Admission to teacher education; SPED 301. Participation in the self-contained classroom setting with students with severe/profound disabilities. Directed laboratory experiences for a minimum of five hours per week with a weekly seminar required.

343 **Characteristics of Mildly Disabled Children.** Three credits. Prerequisites: Admission to teacher education; SPED 301. In-depth study of the resource room and mainstreaming concepts as they relate to special education. Includes ways to set up instruction of resource room students.

344 **Characteristics of Severely/Profoundly Disabled Children.** Three credits. Prerequisites: Admission to teacher education; SPED 301. In-depth study of children with severe/profound disabilities. Includes ways to set up an instructional program for teaching severely/profoundly disabled.

414 **Techniques, Methods, and Materials in Special Education (Severely/Profoundly Disabled).** Three credits. Prerequisites: Admission to teacher education; SPED 344. A practical application of special education techniques and methods for teaching children with severe disabilities. Includes curriculum planning, methods and materials, data collection, and classroom management for the student functioning at the severe/profound levels.

415 **Techniques, Methods, and Materials in Special Education (Mildly Disabled).** Three credits. Prerequisites: Admission to teacher education; SPED 343. A practical application of special education techniques and methods for teaching children with mild disabilities. Includes curriculum planning, methods and materials data collection, and classroom management for the student functioning at the mildly disabled level.

416 **Educational Assessment of Exceptional Children.** Three credits. Prerequisites: Admission to teacher education; SPED 343 or 344. Selection and administration of standardized tests and subtests for the specific purpose of planning an effective remedial program. Includes information gathering techniques, evaluation of this information in selection of tests, and interpretation of information and test scores.

424 **Methods and Techniques of Behavior Management.** Three credits. Prerequisite: Admission to teacher education. Overview

of various approaches to behavior management. Application of different approaches in variety of settings. Basis of evaluation of various behavior change techniques.

426 **A-Z Problems in Special Education.** One to three credits. A problem-oriented course, on or off campus, planned and designed for individuals, a school faculty, school system, or other professional groups. Will provide opportunities for pre-or in-service education related to assessed needs.

432 **Directed Teaching in Special Education (Self-Contained).** Twelve credits. Full-day supervised teaching experience of 15 weeks duration in a public school classroom. Pass/Fail.

435 **Directed Teaching in Special Education (Resource Room).** Twelve credits. Full-day supervised teaching experience of 15 weeks duration in a public school classroom. Pass/Fail.

436 **Directed Teaching in Special Education (Speech and Hearing).** Twelve credits. Full-day supervised teaching experience of 15 weeks duration in a public school classroom. Pass/Fail.

451 **Teaching Internship, Special Education.** Nine credits. Supervised teaching available only for those with at least one year of paid teaching experience in the major in which endorsement is sought. Applicants must meet all prerequisites for student teaching in Special Education. Pass/Fail.

Graduate Study

The department offers at the graduate level the Master of Education degree with majors in Curriculum and Instruction, Reading, and Special Education with concentrations in Mildly/Moderately Disabled, Preschool Disabled, and Severely/Profoundly Disabled. Graduate minors are available in Curriculum and Instruction, Reading, and Special Education. The Specialist in Education degree is offered with a major in Curriculum and Instruction and with a concentration in Elementary Education. Details may be found in the Graduate Catalog.

Department of Health, Physical Education, Recreation, and Safety

Martha Whaley, Chair
Murphy Athletic Center 111

Allsbrook, Bartley, Bobo, Chambers, Colclough, Collier, Cunningham, Edwards, Ellis, Fiveash, Frauman, Gilligan, Ginanni, Green, Guinn, Hayes, Herzer, Herzog, Holland, Kerr, Kissee, B. LaLance, D. LaLance, Lewis, MacBeth, McClellan, McGuire, Micheal, O'Hara-Murdock, Nance, Neal, Nelson, Patterson, Peterson, Robins, Rowe, Ryan, Scarlett, Shelar, Short, Smith, Thompson, Walker, Warmley, Whitehill, Wiel, Wilcox, Winborn

The Department of Health, Physical Education, Recreation, and Safety offers students the opportunity to prepare for professional careers as teachers of health and of physical education, as physical education directors in industry and social agencies, as recreation directors in a wide range of settings, and as health professionals in schools, industry, and allied areas.

Programs in the department lead to the Bachelor of Science degree with majors in Health Education, Athletic Training, Recreation and Leisure Services, and Physical Education which also includes a concentration in Wellness and Exercise Science. Persons majoring in Health Education may select a concentration in Health Science and Technology. Persons majoring in Recreation and Leisure Services may choose from three concentrations—Outdoor Recreation, Recreation Administration, and Recreational Therapy.

Those interested in a non-teaching career in the field can select courses accordingly. Minors in Athletic Coaching, Athletic Training/Sports Medicine, Driver and Traffic Safety Education, Health, Health and Physical Education, Physical Education, and Recreation are also available.

Through the basic instructional program, students are given the opportunity to meet part of their general studies requirements by selecting activities of interest to them in which they will learn the fundamental skills and techniques that will provide a basis for future activity or leisure pursuits.

In all curricular listings, (Area __) refers to the General Studies requirements as outlined on pages 58-59.

Major in Physical Education

Teacher Licensure K-12—The major in Physical Education offers preparation for teaching positions in public and private elementary and secondary schools in Tennessee. The major requires BIOL 308; HLTH 330; PHED 343, 378, 385, 395, 481, 482, 483, 491; five of the following skills and techniques classes—PHED 372, 373, 374, 375, 376, and 470. Students must take a one-hour activity class in the skills and techniques area not chosen. Students must complete the Professional Education component which includes student teaching. Following is a suggested pattern of study for the Physical Education major. However, regular consultation with the assigned advisor is essential.

Recommended Curriculum

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6
BIOL 100 (Area IV-A)	4	HIST 201, 202 (Area III-A)	6
Science (Area IV-A)	4	PHED 378	2
HLTH 330; PHED 343, 385	8	Skills and techniques classes	9
SPEE 220 (Area I-B)	3	Gen. Studies (Area II-B)	3
Gen. Studies (Area III-B)	3	SPED 301	3
FOED 111, 211	6	Math (Area IV-B)	3
	34	PHED Activity (Area V)	2
		CSCI 100	1
			35

JUNIOR		SENIOR	
BIOL 308	3	PHED 482, 483	6
PHED 395, 481, 491	9	YOED 411	12
Skills and techniques classes	6	YOED 400	3
SPSE 322	3	Enhanced Gen. Education	9
Enhanced Gen. Education	9		30
YOED 305	3		
	33		

Non-Teaching—Persons who wish to pursue a nonteaching career may, in consultation with the assigned advisor, select two minors appropriate for realizing a professional goal.

Concentration: Wellness and Exercise Science

The Wellness and Exercise Science concentration offers preparation for positions in corporate, hospital, and public wellness and fitness centers. The program requires N FS 124, 328; BIOL 308; HUM 213; HLTH 231, 311, 330; ATHT 258; ATHC 406; PHED 325, 372, 481, 483, 491, 424, 434, 425; 12 hours of guided electives and a minor to be selected in consultation with advisor; General Studies requirements.

Minor in Physical Education

The minor requires 18 semester hours to include HLTH 330, PHED 343 and 385, plus 10 hours elected from the following physical education courses: PHED 372, 373, 374, 375, 376, 378, 395, 481, 482, 483, and 491.

Major in Health Education

The major in Health Education provides basic experiences for those interested in preparing for numerous health and health-related professions. Persons majoring in Health Education may choose from a concentration in Health Science and Technology and two tracks: school health and community and public health. Those seeking teacher licensure will complete a Secondary Education minor.

Concentration: Health Science and Technology

Persons who wish to pursue the health science and technology concentration must be licensed and/or certified in nursing or an allied health occupation. In consultation with an advisor, the student will include the following:

Health Required	21
HST track	0-33
Health Care Services Minor	18
Industrial Ed. Minor	18
General Studies	42
	132

School Health—The school health education track requires 36 semester hours to include HLTH 231, 260, 311, 331, 426, 427, 430, 434, 436, 440, 486, and PHED 483. In addition, 21 semester hours of enhanced general studies are required. These include N FS 124; HLTH 330; BIOL 308; and 12 semester hours from REC 357; PHED 372; CDFS 332; PSY 440, 438. In consultation with an advisor, the student will include the following:

General Studies requirements	42
Enhanced General Studies	21
Major Requirements	36
Secondary Education Minor	33
	132

Community and Public Health—Persons who wish to pursue a non-teaching career may, in consultation with the advisor, substitute for the minor in secondary education a minor considered appropriate for realizing a professional goal. Careers in health education practice (patient education, health promotion, and health counseling) in schools, communities, medical care facilities, and worksites may be pursued. The program will include the following:

General Studies	42
Health Required	36
Minor	18
Internship	12
Health Electives	24
	132

Minor in Health

The minor in Health requires 18 semester hours including HLTH 231, 311, 330, 440, plus 6 hours of electives to be chosen from other health offerings or courses approved by the department chair.

Minor in Health and Physical Education

The minor in Health and Physical Education requires 18 semester hours to include HLTH 311, 330, 378, 385, plus 7 hours of approved electives from health and physical education.

Major in Recreation and Leisure Services

The major in Recreation and Leisure Services provides knowledge, skills, and experiences for students interested in preparing for positions in the recreation and leisure service profession. The major requires a 31-credit-hour core which includes REC 301, 338, 353, 354, 356, 454, 466, 489, and 490 (a nine-hour internship) and a 24-credit-hour concentration composed of both required and elective courses. Students may choose from concentrations in Recreational Therapy, Outdoor Recreation, or Recreation Administration. An 18-hour minor of the student's choice is also required.

Concentration: Recreational Therapy

Persons who wish to pursue the recreational therapy profession find careers in hospitals, rehabilitation centers, geriatric settings, or in any program serving special populations. Students graduating in this concentration are eligible to apply for national certification as a therapeutic recreation specialist. In consultation with the advisor, the student will include the following:

Recommended Curriculum-Recreational Therapy

General Studies requirements	42
Minor	18
Electives	17

Major Core:

REC 301, 338, 353, 354, 356, 454, 466, 489, 490C	31

Major Concentration:

Required: REC 352, 450; BIOL 313; PSY 323; CDFS 334; HUM 213	18

Select two of the following:

REC 448, 451, 452	6

Concentration: Outdoor Recreation

Persons who wish to pursue a career in outdoor recreation can work for resource-based agencies such as the state and national park services, TVA, Boy and Girl Scouts, organized camps, and other outdoor recreation programs that manage or make use of natural resource areas. In consultation with an advisor, the student will include the following:

Recommended Curriculum-Outdoor Recreation

General Studies requirements	42
Minor	18
Electives	17

Major Core:

REC 301, 338, 353, 354, 356, 454, 466, 489, 490C	31

Major Concentration:
Required:

REC 352, 337; HLTH 330; GEOG 448 or HIST 406; PSY 221 or 438	15

Select three from:

REC 336, 357, 457, 458, 459, 460	9

Concentration: Recreation Administration

Persons choosing this concentration prepare for leadership opportunities in a variety of recreation and leisure services such as public park and recreation agencies, youth service agencies, military recreation, tourism, and commercial recreation. In consultation with an advisor, the student will include the following:

Recommended Curriculum-Recreation Administration

General Studies requirements	42
Minor	18
Electives	17

Major Core:

REC 301, 338, 353, 354, 356, 454, 466, 489, 490C	31

Major Concentration:
Required:

REC 352, 460; PSY 221 or 438; BMOM 290 or MGMT 381 or MKT 382	12
Select 12 hours of REC courses with approval of advisor	12

Minor in Recreation

The minor in Recreation requires 18 semester hours including REC 301, 353, 356, and 454, plus 6 hours of electives in recreation.

Major in Athletic Training

This academic program is a **limited enrollment program** consisting of 47 semester hours including ATHT 258, 259, 300, 395, 396, 443, 450, 496, 497, 499; PHED 483, 491; HLTH 311; BIOL 313, 314. The Athletic Training Education Program is designed to adhere to the policies of the National Athletic Trainers' Association (NATA) and the guidelines of the national accrediting organization - Commission on Accreditation of Allied Health Education Program (CAAHEP) of the American Medical Association (AMA). All students interested in this degree program must make formal application to the program and follow the prescribed course of study. The application process includes the following:

- Completion of the formal application;
- Successful completion of ATHT 258 and 259 with a minimum grade of B in each;
- Successful completion of clinical rotation (observation) in ATHT 259;
- Overall grade point average of at least 2.50;
- Successful completion of a minimum of 24 semester hours;
- Interview with the selection committee.

Once the formal application process is complete, the candidate will be notified of the decision on his/her candidacy. Students must maintain at least a 3.00 GPA in the required courses of this academic major to continue in the program. If a student receives a grade of D or lower in a required course, that course must be re-taken and student must earn a grade of at least a C or better in order to continue with the prescribed course of study. Once admitted into this degree program, the student will be required to complete clinical rotations. These rotations are part of the academic program and are completed under the courses ATHT 300 (which is taken four times), ATHT 443, and PHED 492.

Those candidates who are not selected to enter the academic program will be given the opportunity to reapply to the program during the next academic semester.

The following is a suggested pattern of study for the Athletic Training major. However, regular consultation with the director of the Athletic Training Program is essential for a smooth progression.

Recommended Curriculum

FRESHMAN		SOPHOMORE	
ENGL 111, 112 (Area I-A)	6	ENGL 211, 2-- (Area II-A)	6
BIOL 100 (Area IV-A)	4	History (Area III-A)	6
SPEE 220 or 323 (Area I-B)	3	PHYS 231* (Area IV-A)	1
MATH 141 (Area IV-B)	3	BIOL 313	4
PHED (Area V)	2	BIOL 314	4
HLTH 330	3	PSY 141 (Area III-B)	3
N FS 124*	3	ATHT 396	3

*In addition to the General Studies requirements (see pages 58-59), the following courses are required (these courses are included in the four-year sequence):

N FS 124, Principles of Nutrition, 3 hours
PHYS 231, College Physics I, one hour
PHED 482, Organization and Administration of Physical Education, 3 hours
PHED 492, Special Problems, 3 hours
ATHC 406, Sports Psychology, 3 hours
ATHC 418, Coaching Speed/Strength Conditioning for Sports, 3 hours
FOED 211, Educational Psychology, 3 hours

Teacher Licensure

Students who wish to pursue licensure in the State of Tennessee must consult with the director of the Athletic Training Program early in the academic process to ensure a smooth transition through this academic program. In order to acquire teacher licensure, the student should expect to work at least one additional academic year in order to obtain teacher certification.

Minor in Athletic Coaching

The minor in Athletic Coaching requires 18 semester hours including ATHT 258; ATHC 469, 480; PHED 483, plus 6 semester hours of professional courses related to a specific coaching area(s), officiating, or intramurals.

Minor in Athletic Training/Sports Medicine

The minor in Athletic Training/Sports Medicine requires 21 semester hours. It is a **limited enrollment program** and all students must make formal application.

Minor in Driver and Traffic Safety Education

The minor in Driver and Traffic Safety Education requires 18 semester hours including HLTH 330; SAFE 432, 435, 485, 487; PSY 435 or ET 442 or 444.

Courses in Physical Education [PHED]

Basic Instructional Program

University graduation requirements for all students include four semesters of physical education or two semesters of physical education and HLTH 310.* Only one physical education activity course may be awarded general studies credit in a semester or HLTH 310.

The physical education activity courses which make up the basic instructional program are designed to prepare students for future participation in these activities by developing basic competencies in the fundamental skills of each activity. Opportunities for the improvement of skill and the learning of new skills are provided through intermediate and advanced level courses in certain activities.

Students whose physical limitations prevent them from participating fully in the basic instructional program will be placed in activities commensurate with their abilities.

**This requirement may also be fulfilled by substituting two semesters of band or ROTC for the two hours of physical education. Students who have served on active duty with the armed forces are given credit toward the requirement. One credit is allowed for each six months of service to a maximum of two credits.*

100 **Team Games and Conditioning.** One credit.

101 **Folk and Square Dance.** One credit.

102 **Social Dance.** One credit.

104 **Tennis.** One credit.

105, 106 **Adapted Physical Activity.** One credit each.

108 **Bowling.** One credit. Fee required.

110 **Karate.** One credit.

111 **Casting and Fishing Techniques.** One credit.

112 **Backpacking and Hiking.** One credit.

113 **Bicycling.** One credit.

114 **Gymnastics.** One credit.

115 **Beginning Badminton.** One credit.

116 **Beginning Archery.** One credit.

117 **Racquetball.** One credit.

118 **Beginning Aerobics (Walking/Jogging).** One credit.

119 **Aerobic Dance.** One credit.

120 **Weight Training.** One credit.

121 **Basketball.** One credit.

122 **Soccer.** One credit.

123 **Team Handball.** One credit.

124 **Water Aerobics.** One credit. No swimming skills required.

125 **Self Defense.** One credit.

126 **Intermediate Bicycling.** One credit.

127 **Yoga.** One credit.

130 **Personal Fitness.** One credit. Basic concepts, techniques, and activities needed to design an individual fitness program.

200 **Wrestling.** One credit.

201 **Modern Dance.** One credit.

202 **Golf.** One credit. Fee required.

203 **Tumbling and Trampoline.** One credit.

204 **Swimming—Beginning.** One credit.

205, 206 **Adapted Physical Activity.** One credit each.

207 **Intermediate Swimming.** One credit.

208 **Intermediate Modern Dance.** One credit.

209 **Intermediate Tennis.** One credit.

210 **Handball.** One credit.

211 **Basic Horsemanship—Equitation.** One credit.

212 **Scuba Diving.** Two credits. Prerequisite: PHED 207. Students must pass a swimming proficiency test.

213 **Basic River Canoeing.** One credit. Prerequisite: PHED 207. Students must pass a swimming proficiency test.

214 **Basic Lifeguarding.** One credit.

215 **Synchronized Swimming.** One credit. Prerequisite: PHED 207.

216 **Ballet—Primary.** One credit.

217 **Ballet—Intermediate.** One credit.

218 **Jazz Dance.** One credit.

219 **Tap Dance, Beginners.** One credit.

220 **Modern Gymnastics.** One credit.

224 **Beginning Roller Skating.** One credit. Fee required.

225 **Intermediate Bowling.** One credit. Fee required.

226 **Basic Rock Climbing.** One credit.

227 **Volleyball.** One credit.

228 **Intermediate Tap Dancing.** One credit.

229 **Intermediate Roller Skating.** One credit.

232 **Advanced Weight Training.** One credit.

233 **Advanced Karate.** One credit.

234 **Aquatic Instructor Certification.** One credit.

235 **Intermediate Badminton.** One credit.

236 **Intermediate Wrestling.** One credit.

238 **Intermediate Jazz Dance.** One credit.

240 **Intermediate Handball.** One credit.

241 **Softball.** One credit.

242 **Intermediate Golf.** One credit.

305 **Advanced Volleyball.** One credit.

307 **Advanced Swimming.** One credit.

309 **Advanced Tennis.** One credit.

325 **Workshops in Wellness.** Three credits. Preparation for conducting workshops in a variety of professional settings.

330 **First Aid and Safety Education.** Three credits. (Same as HLTH 330.) Deals with first aid measures and accident prevention. Satisfactory completion of the course qualifies the student for American Red Cross Standard certificates.

343 **Games, Gymnastics, and Rhythmic Activities for Children.** Two credits. Activities suitable for the needs, abilities, and interests of children.

350 **Physical Education for Early Childhood.** Four credits. Principles, teaching strategies, and curriculum activities for young children. Planning age-appropriate physical activities and designing developmentally appropriate motor skill experiences for young children. Extensive practicum experiences in teaching. Two one-hour lectures and two one-hour labs per week.

372 **Skills and Techniques of Teaching Fitness Activities.** Three credits. Writing, planning, teaching, and participating in personalized and group fitness programs and activities. Teaching lifetime wellness activities required in laboratory and field experiences.

373 **Skills and Techniques of Teaching Tumbling, Stunts, and Gymnastics.** Three credits. Objectives, materials, and techniques for teaching tumbling and gymnastics. Laboratory and field experiences required.

374 **Skills and Techniques of Teaching Individual and Dual Sports.** Three credits. Knowledge of skills, methods, and materials necessary to teach archery, badminton, golf, tennis, and bowling. Laboratory and field experiences required.

375 **Skills and Techniques of Teaching Team Games.** Three credits. Skills, methods, and concepts in flag football, basketball, soccer, volleyball, softball, and team handball. Laboratory and field experiences required.

376 **Skills and Techniques of Teaching Aquatics (ARC Water Safety Instructor.)** Three credits. Emphasizing the individual's stroke development, the ability to analyze strokes, and the methods and materials for organizing, teaching, and administering aquatic programs. Laboratory and field experiences required.

378 **Curriculum in Physical Education.** Two credits. The role of physical education in society, the characteristics, needs, and interests of students and the principles necessary for the development of a quality curriculum. Current trends and practices also studied.

381 **Directing Intramurals.** Two credits. The organization and administration of intramural programs. The student experiences actual participation in developing and supervising intramural activities.

385 **Foundations of Physical Education.** Three credits. Lectures, discussion, and reports utilized to introduce the student to the profession through a study of its history, leadership, and organization. Principles from biology, physiology, and psychology upon which the profession is based studied.

391 **Officiating.** Two credits. Technique and practice in officiating major sports.

395 **Adapted Physical Activity.** Three credits. Principles of planning and conducting physical education in order to provide for the special needs, interests, and abilities of exceptional students. Field work in local schools and community agencies.

424 **Principles of Exercise Prescription and Assessment.** Three credits. Prerequisites: PHED 325, 481, 483, and 491. Strongly recommend BIOL 308. Provides students with practical and theoretical experiences in exercise prescription and health/fitness assessment techniques, primarily for healthy population. Upon completion, pursuit of ACSM Health/Fitness Instructor Certification recommended.

425 **Internship in Exercise Science and Health Promotion.** Twelve credits. (Same as HLTH 425.) Prerequisites: PHED 325, 424, 481, 483, 491; HLTH 330; BIOL 308; N FS 124. On-site practical experience in an exercise science/health promotion program.

429 **Corrective Therapy—Clinical Training Program.** Nine credits. Provides trainee-students clinical training in a paramedical specialty in order to treat illness and injury. Program is affiliated with the Veterans Administration Hospital, Murfreesboro.

434 **Wellness and Healthy Lifestyles.** Three credits. (Same as HLTH 434 and REC 434.) Developing healthy lifestyles through health appraisal, fitness evaluation, identifying cardiovascular risk factors, and individual exercise prescriptions.

460 **Technology Applications.** One credit. Prerequisite: An introductory course in computer literacy or equivalent with instructor permission; corequisite: PHED 460L. Understanding and competency using a variety of technology applications related to the profession. Students required to enroll in corresponding lab during the same semester.

460L **Technology Applications Lab.** Two credits. Corequisite: PHED 460. Investigation and application of profession-specific software and hardware applications.

470 **Skills and Techniques of Teaching Rhythmic Activities.** Three credits. Skills in various dance forms, methods and materials, evaluative procedures, experiences in teaching all forms of dance to students at the K-12 level. Lab required.

481 **Measurement and Evaluation.** Three credits. Concepts and procedures used for applied measurement and evaluation in health and human performance settings. Basic statistics, reliability and validity, measurement instruments in field and laboratory settings, and the administration of a variety of tests within discipline.

482 **Organization and Administration of Physical Education.** Three credits. Programs, class schedules, equipment, records, finance, construction, and maintenance of facilities and equipment.

483 **Physiology of Exercise.** Three credits. Strongly recommend BIOL 308 prior to course. Covers scientific basis of exercise and athletic performance. Examines scientific basis of conditioning for athletes, non-athletes, and special populations, as well as the limits of athletic or exercise performance.

491 **Kinesiology.** Three credits. The science of human motion. Emphasis on principles of anatomy, physiology, and mechanics of human activity.

492 **Special Problems.** One, two, or three credits. (Same as HLTH 492 and REC 492.) Presentation and discussion of research work in physical education, recreation, health and safety education, or athletics. (A maximum of three semester hours credit may be applied toward a degree.)

Courses in Health [HLTH]

231 **Community and Public Health.** Three credits. Basic preparation for health educators in community and public health programs with emphasis on identifying and solving problems.

260 **Introduction to Health Professions.** Three credits. Examines select health professions. Includes admission procedures, training, post-graduate training, licensure, practice options. Designed to assist students interested in a health career make a more informed choice early in their undergraduate preparation.

310 **Effective Living.** Two credits. A general health course designed to enable students to deal more effectively with personal and family health responsibilities as well as emergency situations.

311 **Personal Health.** Three credits. Personal health in contemporary society; designed specifically for preparation of health educators.

330 **First Aid and Safety Education.** Three credits. (Same as PHED 330.) Deals with first aid measures and accident prevention. Satisfactory completion of the course qualifies the student for American Red Cross Standard certificates.

331 **Health Problems of Exceptional Children.** Three credits. Common health problems of all children with emphasis on health problems peculiar to children in various areas of exceptionality. Consideration will be given to identification and referral.

333 **History of Health Education and Health Organizations.** Three credits. Analysis of health education from origins to present. Emphasis on health philosophies, conferences, significant movements, associations, and pioneer health leaders.

425 **Internship in Exercise Science and Health Promotion.** Twelve credits. (Same as PHED 425.) Prerequisites: PHED 325, 424, 481, 483, 491; HLTH 330; BIOL 308; N FS 124. On-site practical experience in an exercise science/health promotion program.

426 **Curriculum and Teaching Methods in Health Education.** Three credits. Curriculum planning and teaching methods for prospective school, community, and public health personnel who aspire to teach health education.

427 **Bioethical Issues in Health.** Three credits. An analysis of current issues, problems, needs, trends, and interests in health education content. A significant portion of the curriculum is devoted to substance use and abuse education.

428 **Instructor's Course in First Aid and CPR.** Two credits. Prerequisite: HLTH 330 or current Red Cross certification in multi-media first aid and CPR or standard first aid. Organization, planning, and teaching American Red Cross safety course. Red Cross instructor certification for successful completion.

430 **The School Health Program.** Three credits. Prepares individuals for leadership roles in school health services, instruction, and emergency situations, with special emphasis on evaluation.

434 **Wellness and Healthy Lifestyles.** Three credits. (Same as PHED 434 and REC 434.) Developing healthy lifestyles through health appraisal, fitness evaluation, identifying cardiovascular risk factors, and individual exercise prescriptions.

436 **Teaching Human Sexuality.** Three credits. Assists teachers and future teachers in developing, implementing, and evaluating human sexuality curricula and programs for schools (K-12).

437 **Health and First Aid for Children (Pre-K-3).** Two credits. Skill and knowledge required to maintain a healthy and safe school or day-care environment for Pre-K-3 children.

439 **Women's Health.** Three credits. Applies and extends the knowledge base of health care for women in the 90s and provides students with the knowledge to help them enhance their own and others' health.

440 **Drugs and Violence in Health Education.** Three credits. Offers an understanding of the nature of drugs, relationships people form with drugs, and consequences of those relationships. Relationship of drugs to acts of violence considered as well as educational programs addressing issues related to drug use and abuse and acts of violence.

446 **Introduction to Epidemiology.** Three credits. Epidemiologic analysis including measures of disease frequency, measures of effect, association and causation, sources of inaccuracy, experimental and observational study designs.

460 **Technology Applications.** One credit. Prerequisite: An introductory course in computer literacy or equivalent with instructor permission; corequisite: HLTH 460L. Understanding and competency using a variety of technology applications related to the profession. Students required to enroll in corresponding lab during the same semester.

460L **Technology Applications Lab.** Two credits. Corequisite: HLTH 460. Investigation and application of profession-specific software and hardware applications.

486 **Organization and Administration of Health Education.** Three credits. Administrative theories, program development, scheduling, budgeting, and evaluating health education programs in schools (K-12) and in the community.

490 **Certified Health Education Specialist (CHES) Review.** One credit. Responsibilities and competencies on the Certified Health Education Specialist examination.
